Accounting Courses (ACCT)

ACCT 2200 - Financial Accounting and Financial Statement Analysis
The financial accounting process, the role of the profession and the analysis of financial statements. Principal focus on interpretation of financial statements, with emphasis on asset and liability valuation problems and the determination of net income. Prereq: MATH 1070 and sophomore standing. A grade of 'C' or better is required in this course to proceed to ACCT 2220. Semester Hours: 3 to 3

ACCT 2220 - Managerial Accounting and Professional Issues
Introduces managerial accounting. Shows managers how to use accounting information to make decisions. Principal focus on cost behavior analysis, budgeting and product costing. Prereq: ACCT 2200 with a grade of 'C' or better and sophomore standing. Strictly enforced. Semester Hours: 3 to 3 When Offered: FASPRSUM

ACCT 2550 - Introductory Accounting for Entrepreneurs and the Arts
An integration of financial and managerial accounting processes as they relate to Entrepreneurs, Arts & Media managers and similar applications. This course will cover the analysis and interpretation of financial statements, asset and liability valuation and the determination of net income. Incorporates the use of accounting information to make decisions focusing on cost behavior analysis, budgeting and product costing in entrepreneurial and arts related businesses. Prereq: MATH 1070 or 1110. Semester Hours: 3 to 3

ACCT 3220 - Intermediate Financial Accounting I
An intensive analysis of generally accepted accounting principles, accounting theory and preparation of annual financial statements for public corporations. Must complete course with a 'C' to qualify in graduation requirements. Prereq: 3.0 GPA average across both ACCT 2200 and ACCT 2220. Strictly enforced. Semester Hours: 3 to 3

ACCT 3230 - Intermediate Financial Accounting II
Selected topics not covered in ACCT 3220. Must complete course with a grade of 'C' to qualify in graduation requirements. Prereq: ACCT 3220, completed with a grade of a 'C' or better. Strictly enforced. Semester Hours: 3 to 3 When Offered: FALL SPR

ACCT 3320 - Intermediate Cost Accounting
Cost analysis for purposes of control and decision making. Analysis of cost behavior, role of accounting in planning and control, and managerial uses of cost accounting data. Includes use of computer assisted decision models. Must receive a 'C' grade to qualify in graduation requirements. Prereq: ACCT 2220, and DSCI 2010 completed with a grade of 'C' or better. Strictly enforced. Semester Hours: 3 to 3 When Offered: FASPRSUM

ACCT 3939 - Internship
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: Senior standing and 3.5 GPA. Semester Hours: 1 to 3

ACCT 4030 - Financial Accounting
Analysis of financial accounting concepts, the development of accounting thought and principles and critical review of generally accepted accounting principles. (Not recommended for candidates planning to sit for the CPA examination.) Note: Students who have taken ACCT 3220 or ACCT 3230 (or equivalent)
may not take this course. Prereq: ACCT 2200 and ACCT 2220 or equivalent. Must have a 'C' or better in
courses. Strictly enforced. **Semester Hours:** 3 to 3

**ACCT 4054 - Accounting Systems and Data Processing**
The design and analysis of accounting information systems, with special emphasis on computers and
computer programming, and the role of accounting in the management process. Must earn a grade of 'C'
or better to qualify for graduation. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of 'C'
or better (Strictly enforced). Cross-listed with ACCT 6054. **Semester Hours:** 3 to 3

**ACCT 4070 - Management Accounting**
Designed to provide students with a foundation in management accounting models and information, with
emphasis on management decision making uses of accounting information. (Not recommended for
candidates planning to sit for the CPA examination.) Prereq: ACCT 2200 and 2220 or equivalent with a
grade of a 'C' or better. Note: Students who have taken ACCT 3320 or its equivalent may not take this
course. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**ACCT 4240 - Advanced Financial Accounting**
Advanced financial accounting concepts and practices with emphasis on accounting for partnerships,
business combinations and consolidations. Prereq: Completion of ACCT 3230 with a grade of a 'C' or
better. Strictly enforced. Cross-listed with ACCT 6024. **Semester Hours:** 3 to 3

**ACCT 4282 - Capitalism, Accounting and Ethical Choices**
Examines the development of the U.S. economy from 1850 to today with emphasis on the ethics of
accounting, capitalism, and government controls. Prereq: ACCT 2220 or BUSN 6550. **Semester Hours:**
3 to 3

**ACCT 4330 - Managerial Accounting Problems and Cases**
Critical analysis of advanced topics in managerial accounting. Considerable use of cases and current
readings. Prereq: Completion of ACCT 3320 with a grade of 'C'. Strictly enforced. **Semester Hours:** 3 to 3

**ACCT 4370 - International Accounting**
Designed to expose students to the international aspects of accounting and financial management.
Includes discussion of some of the different financial accounting practices across countries; financial
statement analysis in a global context, international auditing practices and procedures, international tax
implications and the implications of operating within the regulations of the Foreign Corrupt Practices Act,
the European Union, North American Free Trade Agreement and General Agreement on Tariffs and
Trade. Prereq: Completion of ACCT 3220 with a grade of 'C' or better. Strictly enforced. Cross-listed with
ACCT 6370 and INTB 6370. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**ACCT 4410 - Income Tax Accounting**
Provisions and procedures of federal income tax laws and requirements affecting individuals and business
organizations, including problems of tax planning and compliance. Note: Students cannot receive credit
for both ACCT 4410 and ACCT 6140. Prereq: ACCT 2220 completed with a grade of "C" or better. Strictly
enforced. Cross-listed with ACCT 6140. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**ACCT 4490 - Experiential Learning**
Designed to provide practical knowledge on developing a professional practice in accounting or financial
management. Topics: Marketing, operating a professional practice. Lectures, guest speakers student
projects. Prereq: ACCT 3220 completed with a 'C' or better, or permission of instructor. Cross-listed with ACCT 6490. **Semester Hours:** 3 to 3

**ACCT 4520 - Oil and Gas Accounting**
The Oil and Gas Accounting course is designed to give students an overview of the oil and gas industry and the particular accounting issues this industry faces. The focus is on the oil and gas industry but many of the issues discussed are appropriate and applicable to all energy-related entities. This is a valuable learning experience for those interested in acquiring an understanding of the accounting issues for energy management firms in preparation for entry into public accounting. The course enjoys support from the energy industry in the form of guest speakers and project ideas. Prereq: Completion of ACCT 3220 with a grade of 'C' or better. Strictly enforced. Cross-listed with ACCT 6520. **Semester Hours:** 3 to 3

**ACCT 4620 - Auditing**
Generally accepted auditing standards and the philosophy supporting them; auditing techniques available to the independent public accountant. Pertinent publications of the AICPS reviewed. Note: Students cannot receive credit for both ACCT 4620 and ACCT 6020. Prereq: ACCT 3054 and ACCT 3220 must be completed with a grade of a 'C' or better, strictly enforced. Cross-listed with ACCT 6020. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**ACCT 4625 - Auditing Practice**
Focus on the application of generally accepted auditing standards and PCAOB auditing standards to practice. Emphasis on procedures used by CPAs to gather and document audit evidence. Note: Students cannot receive credit for both ACCT 4625 and ACCT 6025. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**ACCT 4780 - Accounting and Information Systems Processes and Controls**
The course is designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. It focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: Completion of ACCT 2200, ACCT 2220 and ACCT 3054 with a grade of 'C' or better (strictly enforced). Cross-listed with ACCT 6510, ISMG 4780, and ISMG 6510. **Semester Hours:** 3 to 3

**ACCT 4800 - Accounting for Government and Nonprofit Organizations**
Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Prereq: Completion of ACCT 3220 with a grade of 'C' and permission of instructor, strictly enforced. Cross-listed with ACCT 6080. **Semester Hours:** 3 to 3

**ACCT 4840 - Independent Study**
**Semester Hours:** 1 to 8

**ACCT 4915 - Accounting for the Public Interest**
Applies accounting knowledge and concepts in a not-for-profit organization. Student volunteers help with functions or special projects and are supervised by both faculty members and personnel from the agency to which they are assigned. Prereq: Permission of instructor. Cross-listed with ACCT 6015. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM
ACCT 4950 - Special Topics
Research methods and results, special topics and professional developments in accounting. Consult the current 'Schedule Planner' for semester offerings. Prereq: Varies according to topic and instructor requirements. Semester Hours: 3 to 3

ACCT 5939 - Internship
Semester Hours: 1 to 3

ACCT 6015 - Accounting for the Public Interest
Applies accounting knowledge and concepts in a not-for-profit organization. Student volunteers help with functions or special projects and are supervised by both faculty members and personnel from the agency to which they are assigned Note: This class is rarely offered. Prereq: Permission of instructor. Cross-listed with ACCT 4915. Semester Hours: 3 to 3

ACCT 6020 - Auditing Theory
Focus on the professional responsibilities of CPAs, generally accepted auditing standards, and PCAOB auditing standards, with emphasis on the theory underlying the development of standards, objectives and procedures. Students cannot receive credit for both Semester Hours: 3 to 3 When Offered: FALL SPR

ACCT 6024 - Advanced Financial Accounting
Advanced financial accounting concepts and practice with emphasis on accounting for partnerships, business combinations and consolidations. Prereq: ACCT 3230 or equivalent. Cross-listed with ACCT 4240. Semester Hours: 3 to 3 When Offered: FALL SPR

ACCT 6025 - Auditing Practice
Focus on the application of generally accepted auditing standards and PCAOB auditing standards to practice. Emphasis on procedures used by CPAs to gather and document audit evidence. Students cannot receive credit for both ACCT 4625 and ACCT 6025. Prereq: A Semester Hours: 3 to 3

ACCT 6030 - Financial Accounting
Accelerated analysis of financial accounting concepts, the development of accounting thought and principles and critical review of generally accepted accounting principles. Note: STUDENTS WHO HAVE TAKEN ACCT 3220 and ACCT 3230 (or equivalent) MAY NOT TAKE THIS COURSE. Students must take both ACCT 3220 AND 3230) Prereq: BUSN 6550 or equivalent. Semester Hours: 3 to 3

ACCT 6033 - Advanced Managerial Accounting
Critical analysis of advanced topics in managerial accounting. Note: This class is rarely offered. Prereq: ACCT 3320. Semester Hours: 3 to 3

ACCT 6054 - Accounting Systems and Data Processing
The design and analysis of accounting information systems, with special emphasis on computers and computer programming, and the role of accounting in the role of accounting in the management process. Prereq: Completion of ACCT 2220 and ISMG 2050 with a grade of "C" or better (strictly enforced). Cross-listed with ACCT 4054 (previously ACCT 3054) Semester Hours: 3 to 3

ACCT 6070 - Management Accounting
Designed to provide graduate business students with a foundation in management accounting models and information, with emphasis on management decision making uses of accounting information. Note: STUDENTS WHO HAVE TAKEN ACCT 3320 (or equivalent) MAY NOT TAKE THIS COURSE. Prereq: BUSN 6550 or equivalent. Semester Hours: 3 to 3
ACCT 6080 - Accounting for Government and Nonprofit Organizations
Nonprofit Organizations. Planning and control of government and nonprofit organizations. Includes program budgets, responsibility accounting and fund accounting. Prereq: ACCT 3220 or BUSN 6550 or permission of instructor. Cross-listed with ACCT 4800. **Semester Hours:** 3 to 3 **When Offered:** SPRING

ACCT 6140 - Tax Planning for Managers
A Federal tax survey course with an emphasis on tax planning for the graduate student who wants to understand the impact of taxation on individual and business transactions. Course materials emphasize the application of individual, partnership and corporate tax principles to the decision making process. Prereq: BUSN 6550 or equivalent. Note: Students cannot receive credit for both ACCT 4410 and 6140. Cross-listed with ACCT 4410. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

ACCT 6250 - Seminar: Financial Accounting
Nature and origin of accounting theory and the development of postulates, principles and practices. Methodology appropriate to development and evaluation of accounting theory, with special emphasis on accepted research standards and procedures. Prereq: ACCT 3230 and ACCT 4620 or ACCT 6020 or concurrent registration in ACCT 4620 or ACCT 6020. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

ACCT 6260 - Seminar: Managerial Accounting
Focuses on the conceptual foundations of managerial accounting. Behavioral and quantitative approaches regarding information for decision making, planning, control, performance evaluation and other issues are investigated. Prereq: ACCT 3320 or ACCT 6070 (or equivalent). **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

ACCT 6280 - Professional Judgment and Decision Making in Accounting
Accounting is a process of providing economic information useful for decision making. This course provides (1) an opportunity to develop professional judgment skills, and (2) tools to make better decisions through an active, case-oriented learning method. Cases involve representative problems professional accountants face in financial reporting, audit, tax, business services, and practice management, including ethical conflicts and technical decisions. Participants learn to apply a structured decision model, incorporating critical, creative, evaluative and reflective judgment processes and learn how to recognize and avoid common decision errors and biases. Prereq: ACCT 4620 or ACCT 6020. **Semester Hours:** 3 to 3

ACCT 6282 - Capitalism, Accounting and Ethical Choices
Examines the development of the U.S. economy from 1850 to today with emphasis on the ethics of accounting, capitalism, and government controls. Prereq: ACCT 2220 or BUSN 6550 (not strictly enforced). **Semester Hours:** 3 to 3

ACCT 6285 - Accounting and Finance for Sustainability
Topics in accounting and finance related to business sustainability include the merits and challenges of a triple-bottom-line perspective, mandatory and voluntary reporting, environmental liability measurement and disclosure, emissions trading, green investments, shareholder activism, microfinance, and socially responsible investing. **Semester Hours:** 3 to 3

ACCT 6290 - Management Control Systems
Focuses on the design and use of control systems which ensure that people in organizations behave consistently with the organizational goals. Controls for communication, motivation and performance
evaluation (along with informational requirements) are stressed through analysis of cases and classroom discussion. Note: This class is rarely offered. Prereq: BUSN 6550 or equivalent. **Semester Hours:** 3 to 3

**ACCT 6340 - Financial Statement Analysis**
Financial statements are used as an information source on which to base investment, lending potential or even employment. Designed to develop skills in using, understanding, analyzing, and interpreting financial statements and to make students aware of the value and limitations of financial statement information. Note: Should take in the third semester of the graduate program. Prereq: BUSN 6550 or equivalent. **Semester Hours:** 3 to 3  **When Offered:** FALL

**ACCT 6350 - Current Issues in Professional Accounting**
An in-depth analysis of current issues in the accounting profession, including ethics development, and validity of standards and regulations. Prereq: ACCT 3230, ACCT 4620, ACCT 6020 or permission of instructor. **Semester Hours:** 3 to 3  **When Offered:** FALL

**ACCT 6360 - Fraud Examination**
This course examines the theories and methods of fraud examination in the context of auditing both for-profit and not-for-profit entities. Topics include identification of weaknesses in accounting controls, analytical review, and forensic accounting methods. Prereq: ACCT 4620 or ACCT 6020. **Semester Hours:** 3 to 3

**ACCT 6370 - International Accounting**
Designed to expose students to the international aspects of accounting and financial management. Includes discussion of some of the different financial accounting practices across countries; financial statement analysis in a global context, international auditing practices and procedures, international tax implications and the implications of operating within the regulations of the Foreign Corrupt Practices Act, the European Union, North American Free Trade Agreement and General Agreement on Tariffs and Trade. Prereq: BUSN 6550 or equivalent. Note: Students cannot receive credit for both ACCT 6370 and INTB 6370. IFRS's are reviewed and compared with the requirements of US GAAP. Cross-listed with INTB 6370 and ACCT 4370. **Semester Hours:** 3 to 3  **When Offered:** SPRING

**ACCT 6380 - Forensic Accounting**
An examination of investigative auditing, fraud auditing, litigation support, and economic quantification of damages. Prereq: ACCT 4620 or ACCT 6020. **Semester Hours:** 3 to 3

**ACCT 6400 - Taxation of Corporations and Shareholders**
A study of federal income tax problems of corporations and corporate shareholders. Prereq: ACCT 4410 & 6140. **Semester Hours:** 3 to 3  **When Offered:** FALL

**ACCT 6410 - Advanced Tax For Individuals**
Advanced federal income tax course stressing the use of the Internal Revenue Code, Treasury regulations, case law, and administrative guidance to resolve federal income tax issues affecting individuals. Topics: items of gross income inclusion/exclusions, deductions, items of non-recognition, characterization of income, and tax rates. Prereq: ACCT 4410 or 6140. **Semester Hours:** 3 to 3  **When Offered:** SPRING

**ACCT 6420 - Taxation of Estates and Gifts**
Introduction to principles and practices associated with the taxation of estates and gifts. **Semester Hours:** 3 to 3  **When Offered:** SPRING
ACCT 6430 - International Taxation
International taxation focuses on the U.S. taxation of international transactions, including a review of the taxation systems in several countries. Includes different forms of doing business in several countries (e.g. in the U.S., would include sole proprietorship, partnerships, limited liability companies and corporations), the ease of operating each form of business, identifying how business owners are protected from the business liabilities and risks and the different, if any, tax treatments afforded each form of business. Other topics include a review of tax rates, consumption regimes (e.g. value-added taxes), the taxation of U.S. expatriates, the tax consequences of repatriating profits to the U.S., the application of any tax treaties with the U.S. and related tax matters. Prereq: ACCT 4410 or ACCT 6140. Semester Hours: 3 to 3 When Offered: SUMMER

ACCT 6440 - Tax Practice and Procedures
A study of organization, policies, and procedures of federal and state taxing authorities. Semester Hours: 3 to 3

ACCT 6450 - Research Problems in Taxation
Study of the methodology used in tax research and tax planning, together with a study of some aspects of tax administration and tax practice and some aspects of the current law and proposals for its revision. Note: This class is rarely offered. Prereq: AC Semester Hours: 3 to 3

ACCT 6460 - Advance Topics in Taxation
Course will focus on advanced topics in tax planning for closely held businesses. Format: Lectures by expert tax professionals and questions/discussion on various topics with emphasis on current issues and trends. Prereq: ACCT 4410 or 6140. Semester Hours: 3 to 3

ACCT 6470 - Internal Auditing
Intro course for business students and CIA candidates. Topics include: IA fundamentals; IA standards; internal controls; managing the IA department; IA working papers, procedures and evidences; fraud detection and prevention; ethics; evaluation of the IA function, and Sarbanes-Oxley Act of 2002. Prereq: ACCT 4620 or ACCT 6020. Semester Hours: 3 to 3

ACCT 6480 - Partnership Taxation
Fundamentals of the Taxation of Partnerships and Partners. This class will focus on fundamental tax issues relating to partnerships and partners arising from the formation, operation, and liquidation of partnerships. Course work includes an examination of pertinent federal income tax returns of the partnership. Prereq: ACCT 4410 or 6140. Semester Hours: 3 to 3

ACCT 6482 - Advanced Partnership Taxation
Advanced federal income tax course focusing on the taxation of partnerships and their partners. Topics: "substantial economic effect", allocation of debt to partners' bases, "hot assets", profits interests, related-party transactions, distribution "waterfalls", profit and loss allocation "waterfalls", and taxation of retiring partners. Semester Hours: 3 to 3

ACCT 6490 - Experiential Learning
Designed to provide practical knowledge on developing a professional practice in accounting or financial management. Topics: Marketing, operating a professional practice. Lectures, guest speakers (if you are interested in being a guest lecturer for the class contact the instructor), and student projects. Prereq: ACCT 3220 or permission of instructor. Cross-listed with ACCT 4490. Semester Hours: 3 to 3
ACCT 6500 - Advanced Corporate Taxation
A study of the tax rules and problems relating to corporate organizations, reorganizations, commonly controlled corporations, and consolidated tax returns, with a special emphasis on the tax rules associated with restructuring of corporate entities in the context of corporate merger and acquisition transactions. Prereq: ACCT 6140 and 6400. Semester Hours: 3 to 3

ACCT 6510 - Accounting and Information Systems Processes and Controls
The course is designed to develop knowledge and skills used to understand and evaluate corporating accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment approach is used to present concepts and techniques for evaluating the adequacy of system processes and controls. Prereq: ACCT 4054 or ACCT 6054. Cross-listed with ACCT 4780, ISMG 4780 and 6510. Semester Hours: 3 to 3 When Offered: FALL

ACCT 6520 - Issues in Oil and Gas Accounting
The Oil and Gas Accounting course is a course designed to give students an overview of the oil and gas industry and the particular accounting issues this industry faces. The focus is on the oil and gas industry but many of the issues discussed are appropriate and applicable to all energy-related entities. This is a valuable learning experience for those interested in acquiring an understanding of the accounting issues for energy management firms in preparation for entry into public accounting. The course enjoys support from the energy industry in the form of guest speakers and project ideas. Prereq: BUSN 6550 or ACCT 3220 or permission of instructor. Cross-listed with ACCT 4520. Semester Hours: 3 to 3 When Offered: SPRING

ACCT 6620 - Advanced Auditing
Development of auditing as a profession, including evolution of standards and audit reports. Historical and contemporary literature in the field reviewed. Prereq: ACCT 4620 or ACCT 6020 or equivalent. Semester Hours: 3 to 3 When Offered: FALL SPR

ACCT 6800 - Special Topics
Research methods and results, special topics and professional developments in accounting. Consult the current 'Schedule Planner' for semester offerings as new special topics courses are frequently added. Prereq: Varies according to topics and instructor requirements. Semester Hours: 3 to 3

ACCT 6840 - Independent Study
Permission of instructor required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. Semester Hours: 1 to 8

ACCT 6939 - Internship/Cooperative Education
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: 15 semester hours for MS students and 21 hours for MBA students and a cumulative 3.2 GPA. Semester Hours: 3 to 3

ACCT 6950 - Master's Thesis
Semester Hours: 1 to 8
Access-Counsel Psych/Counsel Courses (ACPC)

ACPC 5110 - Group Counseling  
**Semester Hours:** 3 to 3

ACPC 5400 - Career Development  
**Semester Hours:** 3 to 3

ACPC 5820 - Strategies in Agency Counseling  
**Semester Hours:** 6 to 6
Anthropology Courses (ANTH)

ANTH 1000 - Anthropology: Past and Present
Anthropology is the study of humankind in all of its diversity and complexity. Anthropologists have traditionally approached the study from four distinct perspectives: biological, cultural, linguistic and archaeological. This course considers how anthropologists study humankind from these four perspectives and the robust picture of humanity that emerges. **Semester Hours:** 3 to 3

ANTH 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

ANTH 1302 - Introduction to Archaeology
Introduces the study of past cultures and their environments. Emphasis is on the scientific method, aspects of research design and analytical techniques used by archaeologists to determine chronology, taphonomy, source production areas, exchange networks, and human-environment interactions. Note: Three hours of lecture and a two-hour lab each week. **Semester Hours:** 4 to 4

ANTH 1303 - Introduction to Biological Anthropology
Introduces the study of human biological evolution, both processes and outcomes, from primate ancestors to fossil hominids to contemporary human populations. Methods of obtaining and interpreting data concerning the genetic, biological and evolutionary basis of physical variation in living and skeletal populations. Note: 3 hours of lecture and a 2 hour lab each week. **Semester Hours:** 4 to 4

ANTH 2102 - Culture and the Human Experience
An application of the concept of culture to several aspects of the human experience, including gender relations, emotion and personality, cognition, language, health and healing and economic behavior. In exploring these dimensions of the human experience, the course focuses on selected cultures from each of the world's major geographic areas. **Semester Hours:** 3 to 3

ANTH 2400 - Video and Social Change
Introduction to video production and analysis applied to social change. Focus on theories and practices of non-fiction image-making and "doing visual ethnography" to examine a range of experience and knowledge among different societies, communities, policy discourses and ourselves. **Semester Hours:** 3 to 3

ANTH 2840 - Independent Study
**Semester Hours:** 1 to 3

ANTH 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

ANTH 3000 - Globalization, Migration and Transnationalism
Examines the cultural dynamics of globalization, including: the development of special economic zones in the global south, rural to urban migration, transnational migration, the maintenance of transnational ties, and cross-border social formations. Reviews the dynamics of globalization through case studies and film. **Semester Hours:** 3 to 3
ANTH 3006 - Sustainable Development and Equity
Investigates theories, policies and discourses of development and equity and their relationship to health, socio-environmental problems. Considers the connections between green environmental knowledge and neoliberalism, the success and failures of development along public health, economic equality, social justice and ecological lines. **Semester Hours:** 3 to 3

ANTH 3008 - Contemporary World Problems: An Anthropological Perspective
This course examines contemporary problems confronting humanity from an anthropological perspective - a historical, holistic and comparative framework that will be used to critically assess these issues and identify forces driving them. Problems to be addressed include climate and environmental change, resource depletion, and poverty and inequality. Prereq: Upper-division undergraduate standing and/or permission of the instructor. **Semester Hours:** 3 to 3

ANTH 3101 - Foundations of Cultural Anthropology
Covers current theories in cultural anthropology and discusses the nature of field work. Major schools of thought and actual field studies are explored with an emphasis on anthropological data gathering, analysis and writing. Prereq: Introductory course in cultural anthropology. **Semester Hours:** 3 to 3

ANTH 3121 - Language, Culture, and Communication
Definitions of language and communication and their relationship to human behavior, thought and culture. The classification of languages, linguistic universals, language acquisition, multilingualism, and nonhuman communication, with consideration of the evolutionary implications of such studies. Prereq: Introductory course in cultural anthropology. **Semester Hours:** 3 to 3

ANTH 3142 - Cultural Diversity in the Modern World
An in-depth analysis of the phenomena of culture and application of the culture concept to understanding cultural diversity in the modern world. Applies the concept of culture to several basic aspects of human social life, for example: social class and gender relations, ethnicity, racism and sexism, education, health and economic behavior. Students explore these issues in the context of case studies of particular groups and/or communities, focusing primarily on the diversity of cultural expression in contemporary U.S. **Semester Hours:** 3 to 3

ANTH 3150 - Special Topics in Medical Anthropology
Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: Introductory course in cultural anthropology. **Semester Hours:** 3 to 3

ANTH 3200 - Human Migration: Nomads, Sojourners, and Settlers
Explores the relationship between human migration, voluntary and forced and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with HBSC 3200 and PBHL 3200. **Semester Hours:** 3 to 3

ANTH 3202 - Anthropology of Health Care Policy
Uses the tools and methods of cultural anthropology to analyze health care reform in the U.S. We examine analyses of the current health care system, debates over its reform, compare the US health care system to that of health care systems worldwide. **Semester Hours:** 3 to 3
ANTH 3210 - Urban Food Systems and Sustainability
Urbanites are increasingly removed from the complex of factors that provide us food. Being concerned about sustainability, we need to understand the complex webs in food systems and their implications for the health and natural systems. This problem-based course will wrestle with urban food systems organized to address the 3 E's of sustainability: environmental, economic, and equity. **Semester Hours:** 3 to 3

ANTH 3301 - World Prehistory
Explores of 3.5 million years of human cultural development that examines the prehistory of Africa, Asia, Europe and the Americas. Patterns and processes that underlie the earliest hominid expansion out of Africa, tool use, origins of fire, the peopling of the Americas, the development of metallurgy, the domestication of plants and animals and the rise of cities and the state are examined. Emphasis is on both regional developments and landmark projects that have helped clarify prehistory. Note: Introductory course in Archaeology (ANTH 1302) recommended. **Semester Hours:** 3 to 3

ANTH 3310 - Colorado Archaeology
A survey of the prehistoric and protohistoric peoples of the five major culture areas of Colorado: the Four Corners, Great Basin, Rocky Mountains, High Plains, and Front Range. Of special interest will be the study of the initial peopling of Colorado, economic and political organization, ethnic interaction and the history of archaeological work in the region. Prereq: ANTH 1302. **Semester Hours:** 3 to 3

ANTH 3320 - Southwestern Archaeology
Considers the origins, characteristics, and interrelationships of the major culture areas in the American southwest, including the Anasazi, Hohokam, Mogollon, Sinagua and Northern Mexico. Note: ANTH 1302 recommended but not required. **Semester Hours:** 3 to 3

ANTH 3330 - Topics in Archaeology
A flexible format for addressing specific topics in archaeology. Examples include the archaeology of the Great Plains, the Mediterranean Region, etc. Prereq: An introductory course in archaeology. **Semester Hours:** 3 to 3

ANTH 3410 - Anthropology of Work
Explores the culture of workforces and workplaces. Ethnographic methods and collaborative research practices comprise the framework of the course to examine people, occupations and work cultures engaged in production and consumption of commodities at local and global levels. **Semester Hours:** 3 to 3

ANTH 3420 - Anthropology and Politics of the Global Tobacco Epidemic
Examines anthropological perspectives on tobacco, tobacco-related health policymaking, and cigarette manufacturers and leaf-buying companies in the global tobacco epidemic. **Semester Hours:** 3 to 3

ANTH 3500 - Human Osteology
Provides in-depth knowledge of human osteology, including the following topics: skeletal anatomy; age, sex and stature determination; skeletal trauma/pathology; and taphonomy. Recitation component provides hands-on experience with skeletal material. Prereq: ANTH 1303. **Semester Hours:** 4 to 4

ANTH 3512 - Human Evolution
Provides an overview of the fossil and archaeological evidence for human origins. Theory and method in paleoanthropology is emphasized. The goal is to outline current knowledge of human biological evolution and the lifeways of our evolutionary relatives. Prereq: ANTH 1303. **Semester Hours:** 3 to 3
ANTH 3590 - Primate Behavior Research at the Zoo
Students will review information on primates, learn about data collection models, design a behavior observation project on captive primates, collect and analyze behavior data, write and present a formal scientific paper. **Semester Hours:** 3 to 3

ANTH 3666 - Anthropology of Death
The primary goal of the course is to identify and understand the range of human expression through the treatment of human remains in anthropological literature with focus on burials, mortuary practices, and associated rituals. Along with more theoretical papers, specific case studies will be used to address a variety of topics and issues, such as historic and prehistoric social organization, bio-archaeology, cannibalism, human sacrifice, mummification, the ethics of studying human remains, and the treatment of pets in prehistory. The time range that we will cover in the course will span from the Neolithic to the early 20th century, and numerous cultures from all parts of the globe will be our subject matter. **Semester Hours:** 3 to 3

ANTH 3700 - Current Topics in Anthropology
This undergraduate course offers a flexible format for addressing specific topics of special interest in anthropology, such as: aging, race and prejudice, class, warfare and aggression, ethnicity, myth and folklore, language and communication, Colorado prehistory and topics in evolutionary theory. **Semester Hours:** 3 to 3

ANTH 3910 - Cross-Cultural Field Experience
An intensive contact with another culture through supervised travel in the U.S. or in a country other than the United States. Written reports required. Note: Class includes pre-trip orientation lectures; in-country lectures by local resource people and supervising CU-Denver faculty. **Semester Hours:** 3 to 6

ANTH 3939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

ANTH 4000 - Special Topics in Anthropology
Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Permission of instructor. Cross-listed with ANTH 5000. **Semester Hours:** 1 to 4

ANTH 4010 - Medical Anthropology: Global Health
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health studies; the second is ANTH 4020. Prereq: Upper division and/or graduate standing. Cross-listed with ANTH 5014. **Semester Hours:** 3 to 3

ANTH 4030 - Ethnobiology
Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Introductory anthropology and/or biology. Cross-listed with ANTH 5030. **Semester Hours:** 3 to 3

ANTH 4040 - Anthropology of Food and Nutrition
Examines the myriad relationships between food as a biological necessity and eating as a socially and culturally conditioned activity. Takes a biocultural perspective that considers not only the tremendous
variety of foods we eat, but also the complex meanings and importance attached to food and eating. Prereq: Introductory course in anthropology. Cross-listed with ANTH 5040. **Semester Hours:** 3 to 3

**ANTH 4050 - Quantitative Methods in Anthropology**
Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedures. Prereq: College-level algebra or its equivalent. Cross-listed with ANTH 5053. **Semester Hours:** 3 to 3

**ANTH 4060 - Evolutionary Medicine**
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with ANTH 5060, HBSC 4060 and 5060, PBHL 4060. **Semester Hours:** 3 to 3

**ANTH 4070 - Culture of Development and Globalization**
Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Prereq: Upper division standing and permission of instructor. Cross-listed with ANTH 5070. **Semester Hours:** 3 to 3

**ANTH 4080 - Global Health Practice**
A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: HBSC/ANTH 4010/5014, HBSC/ANTH 4020/5024, HLTH 6070 or equivalent. Cross-listed with ANTH 5080, HBSC 4080 and 5080, PBHL 4080. **Semester Hours:** 3 to 3

**ANTH 4090 - Political Economy of Drugs**
Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: introductory course in cultural anthropology. Cross-listed with ANTH 5090, HBSC 4090/5090, and PBHL 4090. **Semester Hours:** 3 to 3

**ANTH 4150 - Human Biocultural Adaptability**
The chief concern of this course is the relationship between ourselves and our surroundings and the very immediate ways the environments in which we live affect us. The view is of ourselves as a part of, not apart from, these environments. Prereq: ANTH 1303 and 2102 or equivalent. Cross-listed with ANTH 5150. **Semester Hours:** 3 to 3

**ANTH 4170 - Culture and the Environment**
Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5170. **Semester Hours:** 3 to 3
ANTH 4180 - The Nature of Power
Introduces the major theories of power used in contemporary anthropology, with an emphasis on cross-cultural perspectives. Explores how power is defined, determined and exercised globally and locally and how different systems of power articulate with one another. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5180. Semester Hours: 3 to 3

ANTH 4200 - Gender in Cross-Cultural Perspective
A comparative analysis of gender-based status and social roles of women and men, with women’s status and roles emphasized due to their near-universal construction as the "Other" sex. Examines in cross- and sub-cultural context the relations among women’s status and their subsistence and reproductive activities; and the division of labor by sex, ideology and political economy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 5200. Semester Hours: 3 to 3

ANTH 4230 - Anthropology and Community Based Participatory Research
The seminar explores anthropological critiques, knowledge production and multi-media approaches to community based participatory research (CBPR) such as photovoice and digital storytelling to understand the history of CBPR and analyze partnerships between university researchers and community representatives. Cross-listed with ANTH 5230. Semester Hours: 3 to 3

ANTH 4260 - Human Reproductive Ecology
Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration of birth intervals and reproductive senescence. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 5260. Semester Hours: 3 to 3

ANTH 4290 - Anthropology and Public Health
This course critically explores anthropological approaches to public health problems. Through a number of key issues and case studies, we examine how public health practice can be enhanced through anthropological research, theory and methodology. Prereq: upper division standing. Cross-listed with ANTH 5290. Semester Hours: 3 to 3

ANTH 4300 - Migrant Health
This course examines health issues associated with transnational migration from an anthropological point of view. Drawing upon case studies, we examine the health of migrant communities in both host and sending nations. Prereq: upper division standing. Cross-listed with ANTH 5300. Semester Hours: 3 to 3

ANTH 4320 - Archaeology of Mexico and Central America
Surveys the major prehistoric and protohistoric cultures and societies of that area of Mexico and Central America identified with the evolution of Meso-American civilization. Major topics include early human colonization of the Americas, the domestication of plants and animals, the emergence of regionally-based cultures and societies, trade and exchange and the evolution of urbanism and the state. Primary emphasis on such ancient cultures and societies as those of the Olmec, Zapotec, Maya, Teotihuacan, Toltec and Aztec. Prereq: Introduction to archaeology. Cross-listed with ANTH 5320. Semester Hours: 3 to 3

ANTH 4330 - Lithic Analysis
Examines the theoretical basis and methodological tools used by archaeologists in the analysis of prehistoric stone tools. Topics of discussion include the mechanics of stone fracture, typologies, use wear analysis and core reduction techniques. Prereq: ANTH 1302. Cross-listed with ANTH 5330. Semester Hours: 3 to 3
ANTH 4380 - Archaeology of Hunters-Gatherers
Explores the theory and methods used by archaeologists to investigate prehistoric hunter-gatherers. Topics of concern include mobility, subsistence, procurement, and socio-political organization. Prereq: ANTH 1302 Cross-listed with ANTH 5380. Semester Hours: 3 to 3

ANTH 4390 - Laboratory Methods in Archaeology
Methods and theories of archaeology are used to scrutinize the collection and interpretation of data and the relationships of archaeology to other disciplines. Core materials emphasize the critique of basic archaeological assumptions. Note: Course content varies slightly each time it is offered, in response to student needs and the availability of projects (e.g., laboratory work, urban excavation, survey and mapping). May be repeated for credit when topics change. Prereq: ANTH 1302 or equivalent. Semester Hours: 3 to 3

ANTH 4400 - Archaeology of Power and Inequality
Addresses inequality and power through a long-term archaeological and theoretical perspective. Discusses explanations for the origins of power and inequality and their role in early small-scale societies and emerging complex politics. Prereq: ANTH 1302 or equivalent. Cross-listed with ANTH 5400. Semester Hours: 3 to 3

ANTH 4450 - Development and Conservation: Contemporary Issues
Applies the theoretical paradigms of political ecology to contemporary issues of sustainable development. Case studies are chosen illustrating topics based on faculty expertise and student interaction. The first part of the course presents theoretical perspectives relevant to the chosen topic. In the second half, students participate in directed problem solving activities. Prereq: ANTH 4070, ANTH 4170 and graduate standing or permission of instructor. Cross-listed with ANTH 5450. Semester Hours: 3 to 3

ANTH 4460 - Development and Conservation: Theory and Practice
Examines the praxis of anthropological knowledge of human ecosystem interaction and development of economic opportunities. Issues of biodiversity, resource conservation, sustainable development and globalization are studied. Prereq: ANTH 4450 or permission of instructor. Cross-listed with ANTH 5460. Semester Hours: 3 to 3

ANTH 4500 - Advanced Issues in Human Evolution
This flexible course offers an advanced treatment of issues in human biological evolution. Topics may emphasize morphological evolution, behavioral evolution, the environment of human evolution, non-human primate comparative information. Prereq: ANTH 1303 and 3512 or equivalent. Cross-listed with ANTH 5500. Semester Hours: 3 to 3

ANTH 4550 - Primate Comparative Anatomy
Examines human and non-human primate anatomical diversity. Students learn primate anatomy and the morphological differences among species. Explanations for the evolutionary origins of differences are reviewed, focusing on evolutionary theory, comparative methods and biomechanics. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 5550. Semester Hours: 3 to 3

ANTH 4560 - Human Ecology
Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Introductory course in biological or physical anthropology. Cross-listed with ANTH 5560. Semester Hours: 3 to 3
ANTH 4570 - Landscape Archaeology
Introduces spatial archaeology through intrasite analysis and regional studies. Methods treated include site location and quantitative spatial organization. Theoretical topics include definitions of community, ancient urbanism and the impact of subsistence and politics on relations to the landscape. Prereq: ANTH 1302 or equivalent. Cross-listed with ANTH 5570. **Semester Hours:** 3 to 3

ANTH 4580 - Neanderthals and the Origin of Modern Humans
Focuses on the human fossil record for the taxon Homo sapiens, including the earliest members of this group ("early" or "archaic" Homosapiens), the Neanderthals and so-called "anatomically modern" Homosapiens. The goal of the course is to survey the major issues within the area of modern human origins, and to learn about the evolutionary relationships, lifeways and behaviors of these groups. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 5580. **Semester Hours:** 3 to 3

ANTH 4590 - Primate Behavior
Studies nonhuman primate behavior with emphasis on understanding social behavior, ecology and issues related to human evolution. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 5590. **Semester Hours:** 3 to 3

ANTH 4600 - Medical Anthropology
Introduces students to the theories and concepts of medical anthropology, the study of human health and illness. Explores conceptions of the body, modalities of healing, the clinical encounter, and new medical technologies. Prereq: Upper-division standing. Cross-listed with ANTH 5600. **Semester Hours:** 3 to 3

ANTH 4640 - Darwinian Approach to Human Behavior
The evolution of human behaviors from a Darwinian perspective, focusing on the natural selection of behaviors that maximize reproductive success. Includes topics such as male and female reproductive strategies, female mate choice, male violence and resource acquisition and control. Prereq: ANTH 1303. Cross-listed with ANTH 5640. **Semester Hours:** 3 to 3

ANTH 4800 - Special Topics in Medical Anthropology
Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: upper division standing. Cross-listed with ANTH 5800. **Semester Hours:** 3 to 3

ANTH 4810 - Integrating Anthropology
Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Prereq: junior or senior standing and course work equivalent to a minor in anthropology. Cross-listed with ANTH 5810. **Semester Hours:** 3 to 3

ANTH 4840 - Independent Study
Directed study based on a specific subfield of anthropology. Note: Permission of instructor required. **Semester Hours:** 1 to 3

ANTH 4910 - Field Experience in Archaeology
Students participate in archaeological field research and data recovery and conduct laboratory analysis of materials recovered in the field. Emphasis is placed on excavation technique and accuracy of record
keeping. Prereq: Introductory course in archaeology. Cross-listed with ANTH 5910. **Semester Hours:** 3 to 6

**ANTH 4995 - Travel Study**
A flexible format that permits courses to be taught in various areas of the world. Cultures of the Himalayas. Concerned broadly with contemporary Himalayan culture. Focuses on Tibetan cultures and the Tibetan diaspora, and the Nepalese (Newari) culture of **Semester Hours:** 3 to 9

**ANTH 5000 - Special Topics in Anthropology**
Designed to give students a chance to evaluate critically some practical or theoretical problem under faculty supervision and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Permission of instructor. Cross-listed with ANTH 4000. **Semester Hours:** 1 to 6

**ANTH 5014 - Medical Anthropology: Global Health**
This course is concerned with the underlying biological and cultural determinants of health throughout the human life cycle in global and cross-cultural perspective. Note: The first of a two-course sequence in medical anthropology and global health study **Semester Hours:** 3 to 3

**ANTH 5030 - Ethnobiology**
Considers the relationship between human society and plants and animals in the natural world. Primary focus on the perception and cognitive organization of the environment and how that affects the definition and use of plants and animals as resources. Prereq: Introductory anthropology and/or biology and graduate standing. Cross-listed with ANTH 4030. **Semester Hours:** 3 to 3

**ANTH 5040 - Anthropology of Food and Nutrition**
Examines the myriad relationships between food as a biological necessity and eating as a socially and culturally conditioned activity. Takes a biocultural perspective that considers not only the tremendous variety of foods we eat, but also the complex meanings and importance attached to food and eating. Prereq: Introductory course in anthropology and graduate standing. Cross-listed with ANTH 4040. **Semester Hours:** 3 to 3

**ANTH 5053 - Quantitative Methods in Anthropology**
Surveys the ways of deriving meaning from anthropological data by numerical means, including, but not confined to basic statistical procedure. Prereq: College-level algebra and graduate standing. Cross-listed with ANTH 4050. **Semester Hours:** 3 to 3

**ANTH 5060 - Evolutionary Medicine**
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with ANTH 4060, HBSC 4060 and 5060, PBHL 4060. **Semester Hours:** 3 to 3

**ANTH 5070 - Culture of Development and Globalization**
Anthropological critiques of development and globalization point out that they have occurred without regard for the diversity of human culture and human need. Beginning with this analysis, this course goes one step further by examining culture and values of development and how they affect the way development gets done. Prereq: Upper division standing and permission of instructor. Cross-listed with ANTH 4070. **Semester Hours:** 3 to 3
ANTH 5080 - Global Health Practice
A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: HBSC/ANTH 5014/4010, HBSC/ANTH 5024/4020, HLTH 6070 or equivalent. Cross-listed with ANTH 4080, HBSC 5080 and 4080. **Semester Hours:** 3 to 3

ANTH 5090 - Political Economy of Drugs
Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: introductory course in cultural anthropology. Cross-listed with ANTH 4090, HBSC 4090/5090, and PBHL 4090. **Semester Hours:** 3 to 3

ANTH 5150 - Human Biocultural Adaptability
The chief concern of this course is the relationship between ourselves and our surroundings and the very immediate ways the environments in which we live affect us. The view is of ourselves as a part of, not apart from, these environments. Prereq: Background in cultural anthropology and graduate standing. Cross-listed with ANTH 4150. **Semester Hours:** 3 to 3

ANTH 5170 - Culture and the Environment
Examines the historical origins of Western and non-Western ideas of the environment and the place of people within it. The imposition of Western ideas on non-Western groups regarding environmental policy is also examined, with special attention given to practices of conservation, development and transnational monetary policy. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 4170. **Semester Hours:** 3 to 3

ANTH 5180 - The Nature of Power
Introduces the major theories of power used in contemporary anthropology, with an emphasis on cross-cultural perspectives. Explores how power is defined, determined and exercised globally and locally and how different systems of power articulate with one another. Prereq: ANTH 2102 or equivalent. Cross-listed with ANTH 4180. **Semester Hours:** 3 to 3

ANTH 5200 - Gender in Cross-Cultural Perspective
A comparative analysis of gender-based status and social roles of women and men, with women’s status and roles emphasized due to their near-universal construction as the "other" sex. Examines, in cross- and sub-cultural context, the relations among women's status and their subsistence and reproductive activities; and the division of labor by sex, ideology and political economy. Prereq: Graduate standing. Cross-listed with ANTH 4200. **Semester Hours:** 3 to 3

ANTH 5230 - Anthropology and Community Based Participatory Research
The seminar explores anthropological critiques, knowledge production and multi-media approaches to community based participatory research (CBPR) such as photovoice and digital storytelling to understand the history of CBPR and analyze partnerships between university researchers and community representatives. Cross-listed with ANTH 4230. **Semester Hours:** 3 to 3

ANTH 5260 - Human Reproductive Ecology
Considers the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, marriage patterns, birth seasonality, duration
of birth intervals and reproductive senescence. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 4260. **Semester Hours:** 3 to 3

**ANTH 5290 - Anthropology and Public Health**
This course critically explores anthropological approaches to public health problems. Through a number of key issues and case studies, we examine how public health practice can be enhanced through anthropological research, theory and methodology. Prereq: graduate standing. Cross-listed with ANTH 4290. **Semester Hours:** 3 to 3

**ANTH 5300 - Migrant Health**
This course examines health issues associated with transnational migration from an anthropological point of view. Drawing upon case studies, we examine the health of migrant communities in both host and sending nations. Prereq: graduate standing. Cross-listed with ANTH 4300. **Semester Hours:** 3 to 3

**ANTH 5320 - Archaeology of Mexico and Central America**
Surveys the major prehistoric and protohistoric cultures and societies of that area of Mexico and Central America identified with the evolution of Meso-American civilization. Major topics include early human colonization of the Americas, the domestication of plants and animals, the emergence of regionally-based cultures and societies, trade and exchange and the evolution of urbanism and the state. Primary emphasis on such ancient cultures and societies as those of the Olmec, Zapotec, Maya, Teotihuacan, Toltec and Aztec. Prereq: Introduction to archaeology. Cross-listed with ANTH 4320. **Semester Hours:** 3 to 3

**ANTH 5330 - Lithic Analysis**
Examines the theoretical basis and methodological tools used by archaeologists in the analysis of prehistoric stone tools. Topics of discussion include the mechanics of stone fracture, typologies, use wear analysis and core reduction techniques. Prereq: ANTH 1302. Cross-listed with ANTH 4330. **Semester Hours:** 3 to 3

**ANTH 5380 - Archaeology of Hunters-Gatherers**
Explores the theory and methods used by archaeologists to investigate prehistoric hunter-gatherers. Topics of concern include mobility, subsistence, procurement, and socio-political organization. Prereq: ANTH 1302 Cross-listed with ANTH 4380. **Semester Hours:** 3 to 3

**ANTH 5400 - Archaeology of Power and Inequality**
Addresses inequality and power through a long-term archaeological and theoretical perspective. Discusses explanations for the origins of power and inequality and their role in early small-scale societies and emerging complex politics. Prereq: ANTH 1302 or equivalent. Cross-listed with ANTH 4400. **Semester Hours:** 3 to 3

**ANTH 5450 - Development and Conservation: Contemporary Issues**
Applies the theoretical paradigms of political ecology to contemporary issues of sustainable development. Case studies are chosen illustrating topics based on faculty expertise and student interaction. The first part of the course presents theoretical perspectives relevant to the chosen topic. In the second half, students participate in directed problem solving activities. Prereq: ANTH 4070, ANTH 4170 and graduate standing or permission of instructor. Cross-listed with ANTH 4450. **Semester Hours:** 3 to 3

**ANTH 5460 - Development and Conservation: Theory and Practice**
Examines the praxis of anthropological knowledge of human ecosystem interaction and development of economic opportunities. Issues of biodiversity, resource conservation, sustainable development and
globalization are studied. Prereq: ANTH 5450 or permission of instructor. Cross-listed with ANTH 4460. **Semester Hours:** 3 to 3

**ANTH 5500 - Advanced Issues in Human Evolution**
This flexible course offers an advanced treatment of issues in human biological evolution. Topics may emphasize morphological evolution, behavioral evolution, the environment of human evolution, non-human primate comparative information. Cross-listed with ANTH 4500. **Semester Hours:** 3 to 3

**ANTH 5530 - Anthropological Genetics**
An advanced survey of molecular and population genetics and their applications in anthropology. Topics vary, including but not limited to: genetic epidemiology, genetic distance studies, behavioral genetics, developmental genetics, sociobiology, and use of mitochondrial DNA to reconstruct population histories. Emphasis is on applications of new technology and methodology, as well as new genetic paradigms replacing classical models of genetic causation. Prereq: Undergraduate course work in biological anthropology or general genetics. **Semester Hours:** 3 to 3

**ANTH 5550 - Primate Comparative Anatomy**
Examines human and non-human primate anatomical diversity. Students learn primate anatomy and the morphological differences among species. Explanations for the evolutionary origins of differences are reviewed, focusing on evolutionary theory, comparative methods and biomechanics. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 4550. **Semester Hours:** 3 to 3

**ANTH 5560 - Human Ecology**
Studies demographic and ecological variables as they relate to human populations. Aspects of natural selection, overpopulation and environmental deterioration are considered. Prereq: Background in biological or physical anthropology and graduate standing. Cross-listed with ANTH 4560. **Semester Hours:** 3 to 3

**ANTH 5570 - Landscape Archaeology**
Introduces spatial archaeology through intrasite analysis and regional studies. Methods treated include site location and quantitative spatial organization. Theoretical topics include definitions of community, ancient urbanism and the impact of subsistence and politics on relations to the landscape. Prereq: ANTH 1302 or equivalent. Cross-listed with ANTH 4570. **Semester Hours:** 3 to 3

**ANTH 5580 - Neanderthals and the Origin of Modern Humans**
Focuses on the human fossil record for the taxon Homo sapiens, including the earliest members of this group ("early" or "Archaic" Homo sapiens), the Neanderthals and so-called "Anatomically modern" Homosapiens. The goal of the course is to survey the major issues within the area of modern human origins, and to learn about the evolutionary relationships, lifeways and behaviors of these groups. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 4580. **Semester Hours:** 3 to 3

**ANTH 5590 - Primate Behavior**
Studies nonhuman primate behavior with emphasis on understanding social behavior, ecology and issues related to human evolution. Prereq: ANTH 1303 or equivalent. Cross-listed with ANTH 4590. **Semester Hours:** 3 to 3

**ANTH 5600 - Medical Anthropology**
Introduces students to the theories and concepts of medical anthropology, the study of human health and illness. Explores conceptions of the body, modalities of healing, the clinical encounter, and new medical technologies. Prereq: Graduate standing. Cross-listed with ANTH 4600. **Semester Hours:** 3 to 3
ANTH 5640 - Darwinian Approach to Human Behavior
The evolution of human behaviors from a Darwinian perspective, focusing on the natural selection of behaviors that maximize reproductive success. Includes topics such as male and female reproductive strategies, female mate choice, male violence and resource acquisition and control. Prereq: ANTH 1303. Cross-listed with ANTH 4640. **Semester Hours:** 3 to 3

ANTH 5800 - Special Topics in Medical Anthropology
Seminar series on current issues in medical anthropology. Faculty offer a range of different courses, including the political economy of drugs, health and human rights, and reproductive health. Prereq: graduate standing. Cross-listed with ANTH 4800. **Semester Hours:** 3 to 3

ANTH 5810 - Integrating Anthropology
Designed to build on specialized course work in the subdisciplines of anthropology, this course emphasizes the basic concepts that integrate and unite the discipline and give it unique perspective. These are the concepts of culture, adaptation and human evolution. In the last several weeks of the course, students consider the applicability of the anthropological perspective to specific human issues. Note: Centers on the critical examination and discussion of presentations made by department faculty and graduate students. Cross-listed with ANTH 4810. **Semester Hours:** 3 to 3

ANTH 5840 - Independent Study
Directed study based on a specific subfield of anthropology. Prereq: Permission of instructor required. **Semester Hours:** 1 to 6

ANTH 5910 - Field Experience in Archaeology
Students participate in archaeological field research and data recovery and conduct laboratory analysis of materials recovered in the field. Emphasis is placed on excavation technique and accuracy of record keeping. Prereq: Background in archaeology and graduate standing. Cross-listed with ANTH 4910. **Semester Hours:** 3 to 6

ANTH 5939 - Internship
**Semester Hours:** 1 to 6

ANTH 5995 - Travel Study
A flexible format that permits courses to be taught in various areas of the world. Cultures of the Himalayas. Concerned broadly with contemporary Himalayan culture. Focuses on Tibetan cultures and the Tibetan diaspora, and the Nepalese (Newari) culture of **Semester Hours:** 3 to 9

ANTH 6000 - Seminar in Current Research Topics
An inquiry into current research of critical and general interest to anthropologists. Variable format. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

ANTH 6040 - Advanced Topics in Medical Anthropology
A flexible seminar format for dealing with topics of special interest in medical anthropology on an advanced graduate level. Topics to be considered vary from semester to semester. Examples include high altitude adaptation, anthropological perspectives on substance abuse, epidemiology, environmental and occupational health, the health consequences of cultural change and cross-cultural psychiatry. Note: Topics vary from semester to semester. Prereq: Permission of instructor. **Semester Hours:** 1 to 4
ANTH 6041 - Human Genetics: Legal, Ethical and Social Issues
Examines legal, ethical and social issues that have come about with advances in human genetics. Topics include privacy, informed consent, discrimination, forensics, medical malpractice and property rights. Prereq: Graduate standing. Cross-listed with HBSC 6320 and 7320. **Semester Hours:** 3 to 3

ANTH 6063 - Qualitative Research Design and Methods
Much of the data collected in the social sciences is interview and text-based. This course explores methods for collecting and analyzing these data and theoretical paradigms that underlie these methods. Cross-listed with HBSC 7051. **Semester Hours:** 3 to 3

ANTH 6103 - Current Theory in Ethnography
An in-depth inquiry into important theories in cultural anthropology through extensive primary source reading. Practice in formulating theory, critical thinking and theoretical writing are emphasized. Note: First course in a two-course required graduate sequence. Prereq: Undergraduate course work in cultural anthropology. **Semester Hours:** 3 to 3

ANTH 6133 - Anthropological Perspectives on Language
An intensive introduction to linguistic anthropology. Following a brief survey of technical linguistics, focus is on: the roles of language in society; multilingualism; language and identity; language and worldview; language, gender, class and power; language as social action; and other topics. Students carry out investigations based on models from their reading, as well as responding to the theoretical approaches of the field. Prereq: Undergraduate course work in cultural anthropology. **Semester Hours:** 3 to 3

ANTH 6307 - Contemporary Perspectives in Archaeology
Explores contemporary theoretical methodological perspectives in archaeology. Structured to proceed from a survey of the history of archaeological thought based on recent retrospectives, to an analysis of works reflecting current perspectives and directions. Topics include: archaeological interpretation, classical versus scientific archaeology, versus culture-history, functionalist and materialist paradigms, ethno-archaeological and text-based studies, neo-evolutionism, interactionist models, Marxist perspectives, processual theory. Prereq: Undergraduate course work in archaeology. **Semester Hours:** 3 to 3

ANTH 6317 - Archaeological Research Design and Analysis
Examines the methods and techniques used in archaeology, including theory-building, hypothesis testing and middle range theory. Core materials emphasize the learning and critique of basic archaeological assumptions and the methods and theories used to scrutinize the collection and interpretation of data. Topics include chronometric applications and paleo-environmental reconstruction. Prereq: ANTH 6307 or equivalent. **Semester Hours:** 3 to 3

ANTH 6503 - Biological Anthropology Core: The Fossil Record
Examines the historical development and modern practice of biological anthropology, including the theoretical and methodological foundations of this field. Emphasis is placed on the evidence for human and non-human primate evolution and the processes that influenced this evolution. Prereq: Graduate standing. **Semester Hours:** 3 to 3

ANTH 6513 - Biological Anthropology Core: Modern Human Variation
Considers the theory and methods used in investigations of biological variation in contemporary human populations. This includes the biological and cultural sources responsible for creating and maintaining contemporary variation as well as their functional consequences. Methods of research design and how to write a grant and scientific articles are considered. Prereq: Graduate standing. **Semester Hours:** 3 to 3
ANTH 6520 - Seminar: Selected Topics in Physical Anthropology
A flexible seminar format for dealing with topics of special interest in physical anthropology on an advanced graduate level. Topics vary from semester to semester. Examples include: anthropology of nutrition, paleoecology, primate evolution, field experience in paleontology, advanced osteology and advanced human ecology. Prereq: Undergraduate work in biological/physical anthropology and graduate standing. **Semester Hours:** 3 to 3

ANTH 6840 - Independent Study: Anth
**Semester Hours:** 1 to 3

ANTH 6950 - Master's Thesis
**Semester Hours:** 1 to 6
Architecture Courses (ARCH)

ARCH 1110 - Introduction to Architecture
Introduces students to the essential ways of looking at and thinking about buildings, sites and cities, exposing students to the various perspectives, positions and practices that they will encounter in both an architecture curriculum and in architectural Semester Hours: 3 to 3

ARCH 2110 - Design Studio I
Introduces students to the principles of design and composition through studies of architecture’s formal, spatial, and geometric systems. Students explore these using a variety of drawing techniques including diagramming and drawings that are exploratory, Semester Hours: 3 to 3

ARCH 2230 - Architectural History I
Introduces architecture and urbanism from prehistory to the mid-seventeenth century by exploring the social, cultural, technical, philosophical and aesthetic ideas that shaped buildings and other architectural and urban settings in different parts of the Semester Hours: 3 to 3

ARCH 3110 - Design Studio II
Introduces students to the expressive potential of architecture’s elements and systems. Students explore techniques for translating and expressing ideas in buildings through the static, dynamic and sequential manipulation of architectural form and space. Semester Hours: 6 to 6

ARCH 3120 - Design Studio III
Focuses on the design of buildings in their relationship to physical, natural and cultural contexts. Students explore non-formal concepts and translate them into architectural experiences that integrate program, site and climate. Prereq: ARCH 3110. Res Semester Hours: 6 to 6

ARCH 3130 - Construction Practices I
Provides an overview of the materials, systems, assemblies and processes that inform the design and construction of buildings, reviewing the building technologies and developing student understandings of the interrelationship between the interconnected elements Semester Hours: 3 to 3

ARCH 3230 - Architectural History II
Introduces architecture and urbanism from the mid-seventeenth century to the present, exploring the forces that shaped buildings and other architectural and urban settings in different parts of the world. Prereq: ARCH 2230. Restriction: Must be an und Semester Hours: 3 to 3

ARCH 3330 - Building Systems I
Introduces the concepts and methods of environmental control in residential buildings. Discusses the thermal behavior of buildings, climate as a determinant of building design, energy use in buildings, natural and mechanical means of environmental control Semester Hours: 3 to 3

ARCH 3340 - Theory of Structures I
Introduction to the analysis and design of structural elements and focuses on the principles of statics and the strength of materials. Topics include stress determination, deflection and the behaviors of tension, compression and shear in various structures Semester Hours: 3 to 3
ARCH 3601 - History of American Architecture
This course investigates the history of architecture in the United States as a chronological survey of buildings, architects, landscapes, and urban forms and as an exploration of the social, political, economic, technological, and similar issues that inform Semester Hours: 3 to 3

ARCH 3701 - Survival Sketching
The focus of this course will be the sketchbook and the keeping of a sketchbook. Restriction: Must be an undergraduate Architecture student with sophomore standing or higher. Semester Hours: 3 to 3

ARCH 3800 - Special Topics - Technical
Special topics elective will include coursework in either Digital Media In Design courses, Design-Build site Construction, or the Science and Art of Engineering Buildings. Additional topics will be develop in conjunction with the required undergraduate Semester Hours: 3 to 3

ARCH 3801 - Arch. Digital Media I
Semester Hours: 3 to 3

ARCH 4110 - Design Studio IV
Design Studio IV. Introduces students to analysis and design as complementary processes. Students learn how to form design intentions based on analytical research and close study of the relationship between architecture, precedent and culture, and to con Semester Hours: 6 to 6

ARCH 4120 - Design Studio V
Explores the place and role of architecture as an instrument of critical social engagement and cultural change, the role of history and precedent in the design process, and the role of detail through projects that demonstrate student?s proficiency as desi Semester Hours: 6 to 6

ARCH 4240 - Building Systems II
Focuses on the environmental systems in commercial and other nonresidential buildings. Discusses natural and artificial lighting, HVAC systems, acoustics, vertical transportation and fire protection. Prereq: ARCH 3330. Semester Hours: 3 to 3

ARCH 4340 - Theory of Structures II
Focuses on the relationship between architectural concepts and the selection of structural systems. Addresses the qualitative and quantitative analysis of reinforced concrete, steel, and wood structural systems and members. Prereq: ARCH 3340. Semester Hours: 3 to 3

ARCH 4440 - Construction Practices II
Discusses the principles and processes of building construction and introduces the major systems and assemblies that inform construction practices. Stresses the relationship between architectural concepts and emerging building technologies, teaching stud Semester Hours: 3 to 3

ARCH 5000 - Math and Physics for Architects
Provides the review of mathematics and physics. This is a prerequisite for the graduate technology courses. Does not count toward the required credits for the MARCH degree. Semester Hours: 3 to 3

When Offered: SUMMER

ARCH 5110 - Design Studio I
This first of four core design studios introduces the basic strategies and techniques of architectural design. Focuses on the languages of design, as well as on traditional and digital methods of visualizing
architectural ideas and forms. Prereq: Must have completed the College's woodshop training program. Coreq: ARCH 5111.  **Semester Hours:** 6 to 6

**ARCH 5111 - Architectural Graphics I**
This course explores the development of graphic skills emphasizing drawing as a means to design. It includes investigation of drawing types and methods; diagramming of ideas and systems; informative, exploratory and developmental sketching. Coreq: ARCH 5110.  **Semester Hours:** 3 to 3

**ARCH 5120 - Design Studio II**
The second of the four core design studios focuses on concepts of small-scale building design, sitting and climate. Through a number of design exercises, students learn how these factors help shape buildings. Prereq: ARCH 5110 and ARCH 5111. Coreq: ARCH 5121.  **Semester Hours:** 4 to 4

**ARCH 5121 - Design Seminar II**
Supports fuller discussion of the key themes and concepts in ARCH 5120. Prereq: ARCH 5110 and 5111; Coreq: ARCH 5120.  **Semester Hours:** 2 to 2

**ARCH 5130 - Design Studio III**
The third of the four core studios focuses on concepts of program, architectural meaning and human behavior in buildings. Through a number of design exercises, students learn how these factors help shape buildings. Prereq: ARCH 5120 and ARCH 5121. Coreq: ARCH 5131.  **Semester Hours:** 4 to 4

**ARCH 5131 - Design Seminar III**
Supports fuller discussion of the key themes and concepts in ARCH 5130. Prereq: ARCH 5120 and ARCH 5121. Coreq: ARCH 5130.  **Semester Hours:** 2 to 2

**ARCH 5140 - Design Studio IV**
The last of the four core design studios focuses on concepts of building technology, context and environmental sustainability. Through a number of design exercises, students learn how technology helps shape buildings. Prereq: ARCH 5130 and 5131. Coreq: ARCH 5141.  **Semester Hours:** 4 to 4

**ARCH 5141 - Design Seminar IV**
Supports fuller discussion of the key themes and concepts in ARCH 5140. Prereq: ARCH 5130 and 5131; Coreq: ARCH 5140.  **Semester Hours:** 2 to 2

**ARCH 5210 - Introduction to Architecture**
Introduces important ways of looking at architecture and acquaints students with the various perspectives that they will later find in the rest of the curriculum.  **Semester Hours:** 3 to 3

**ARCH 5220 - History of Architecture I**
Introduces world architecture and urbanism from prehistory to the Italian Renaissance. The course helps students understand the various cultural, technological, philosophical, and aesthetic ideas that helped shape buildings through history. Buildings and settlements on all continents and in all of the major world cultures are discussed. Prereq: ARCH 5210.  **Semester Hours:** 3 to 3

**ARCH 5230 - History of Architecture II**
Examines world architecture and urbanism from the Italian Renaissance to the present. Helps students understand the various cultural, technological, philosophical and aesthetic ideas that helped shape buildings through history. Buildings and settlements on all continents and in all of the major world cultures are discussed. Prereq: ARCH 5220.  **Semester Hours:** 3 to 3
ARCH 5240 - Human Factors in Design
Focuses on the ethical, social, cultural and psychological principles, processes which people bring to the perception and design of the built environment. Its major topics include: ethical values; cultural patterns and values; privacy and community; social, cultural and personal ritual; the symbolic content of form and environment; and programming and post-occupancy evaluation. **Semester Hours:** 3 to 3

ARCH 5310 - Introduction to Building Technology
Provides an overview of the structure, systems, assemblies and processes that make a building. Provides a broad view of building technology and an understanding of the interrelationship of all the parts, upon which subsequent technology courses are based. **Semester Hours:** 3 to 3

ARCH 5320 - Building Construction and Methods
Discusses the principles and processes of building construction and introduces the major constructional systems. Stresses the relationship between architectural concepts and building technology and helps students understand how to choose building systems and materials. Prereq: ARCH 5310. **Semester Hours:** 3 to 3

ARCH 5330 - Environmental Control Systems I
The first course in the environmental control systems sequence introducing the concepts and methods of environmental control in residential buildings. Discusses the thermal behavior of buildings, climate as a determinant of building design, energy use in buildings, natural and mechanical means of environmental control, plumbing, electrical, communication systems, water supply and sanitation systems. Prereq: ARCH 5320. **Semester Hours:** 3 to 3

ARCH 5340 - Environmental Control Systems II
The second course in the environmental control systems sequence focusing on the environmental systems in commercial and other non-residential buildings. Discusses natural and artificial lighting, HVAC systems, acoustics, vertical transportation and fire protection. Prereq: ARCH 5330. **Semester Hours:** 3 to 3

ARCH 5350 - Structures I
The first course in the structures sequence introduces the analysis and design of structural elements and focuses on the principles of static's and the strength of materials. Topics include stress determination, deflection and the behaviors of tension, compression and shear in various structural elements. Coreq: ARCH 5340. **Semester Hours:** 3 to 3

ARCH 5360 - Structures II
Focuses on the relationship between architectural concepts and the selection of structural systems. Addresses the qualitative and quantitative analysis of reinforced concrete, steel and wood structural systems and members. Prereq: ARCH 5350. **Semester Hours:** 3 to 3

ARCH 5410 - Professional Practice
Introduces the essential elements of professional practice through topics such as internship, licensing, services, modes of practice, fees, marketing, documents, specification and production procedures. Examines traditional and emerging forms of practice. **Semester Hours:** 3 to 3

ARCH 6150 - Comprehensive Design Studio
A required studio focusing on an architectural project from schematic design through detailed development including structural, environmental systems, life safety, wall sections and building
assemblies. A comprehensive program will inform the architectural project. Prereq: ARCH 5140 and ARCH 5141. **Semester Hours:** 4 to 4

**ARCH 6151 - Comprehensive Design Seminar**
Supports fuller discussion of the key themes and concepts in ARCH 6150. Prereq: ARCH 5140 and ARCH 5141. **Semester Hours:** 2 to 2

**ARCH 6170 - Advanced Design Studio**
Students enter the advanced design studio after successfully completing the four core design studios and comprehensive studio (ARCH 6150). Students must take two advanced studios (unless they wish to undertake a thesis; see ARCH 6950). Topics vary according to faculty interests. Prereq: ARCH 6150 and ARCH 6151. Coreq: ARCH 6171. **Semester Hours:** 4 to 4

**ARCH 6171 - Advanced Design Seminar**
Supports fuller discussion of key themes and concepts in ARCH 6170. Students must take two advanced design seminars (unless they wish to undertake a thesis; see ARCH 6950). Prereq: ARCH 6150, ARCH 6151. Coreq: ARCH 6170. **Semester Hours:** 2 to 2

**ARCH 6190 - Special Topics in Design Studies**
Various topics in design, according to current faculty and student interests. Prereq: Completion of ARCH 5110. **Semester Hours:** 3 to 3

**ARCH 6210 - History of American Architecture**
Examines the history of American architecture from prehistoric times to the present, mainly within the geographical borders of the present-day United States. Helps students understand the various cultural, technological, philosophical and aesthetic ideas that helped shape American buildings. **Semester Hours:** 3 to 3

**ARCH 6212 - History of Modern Architecture**
Examines the various theories, accomplishments and ideals of modern architecture in the 20th century. Issues include the relationship between theory and practice, architecture and ideology, technology, abstraction and representation, functionalism and formalism, utopianism and social responsibility. **Semester Hours:** 3 to 3

**ARCH 6220 - History of Architectural Theory**
Investigates the history of architectural theories in the West from antiquity to the present. Explores the various ideas that have been proposed to explain or to direct architectural design and examines the relationship between the theories and the buildings themselves. **Semester Hours:** 3 to 3

**ARCH 6221 - Post-Structuralist Architecture**
Examines the ways in which architecture has responded to the philosophical changes introduced during the 1960's French post-structuralism. Evaluates how the new metaphysical outlooks have affected architectural theory and design methods. **Semester Hours:** 3 to 3

**ARCH 6230 - Preservation Theory and Practice**
The practice of historic preservation has evolved in a specific policy context. This introductory course introduces basic American institutions and laws associated with preservation as well as standards, definitions, and practices associated with these. Cross-listed with HIPR 6010. **Semester Hours:** 3 to 3
ARCH 6231 - Regionalisms & the Vernacular
This class explores the history of the built environment from the perspective of evolutionary change; peoples attempting to meet utilitarian needs, respond to environmental forces, societal expectations, and aesthetic aspirations through design. The course looks closely at vernacular structures in a global context. Cross-listed with HIPR 6110. **Semester Hours:** 3 to 3

ARCH 6240 - History Of The City
Introduces students to the history of global cities through selected typologies. Explores similarities and differences among cities considered against the larger cultural, political and socio-economic envelope of which they are part. Provides awareness of origins, growth and evolution of urban form. Cross-listed with URBN 6640. **Semester Hours:** 3 to 3

ARCH 6241 - Studies in Tectonics
This research seminar focuses on tectonics - the logic of structure & material combinations (wood, metal, stone, masonry etc.). Through case studies, the relationship between function, aesthetics, detail, and tectonics are explored in relation to contemporary architectural concerns. Prereq: HIST I & II. **Semester Hours:** 3 to 3

ARCH 6249 - Sketching As Seeing
Sketching promotes seeing, and seeing promotes thinking. This course is designed to help you think & see by the regular practice of sketching & the discipline of keeping a sketchbook. **Semester Hours:** 3 to 3

ARCH 6250 - Drawing from Barragan
Course explores the work of a seminal figure - Luis Barragan - as a means with which to consider the potentials for a new synthesis in architecture. Learning to draw spaces in colored pencil will give insight regarding his design principles. Cross-listed with ARCH 6390. **Semester Hours:** 3 to 3

ARCH 6251 - Neuro Science and Design
This seminar will explore knowledge that informs how humans perceive and respond to the environment. Particular emphasis will be placed on how cognitive science and interdisciplinary scholarship can provide an evidence base to potential applications in environmental design. **Semester Hours:** 3 to 3

ARCH 6252 - Land/ARCH
This theory seminar examines the contemporary discourse surrounding landscape, architecture, and the dialogue between the two. The course is structured around a series of panel discussions and paper presentations, based on positions developed by seminar participants throughout the semester. Cross-listed with LDAR 6686. **Semester Hours:** 3 to 3

ARCH 6253 - Nature of Nature
Examines a variety of meanings for "nature." Different perspectives will be examined such as nature and place, nature and convention, nature and experience, nature and gender, nature and food, nature and activism, and nature and technology. **Semester Hours:** 3 to 3

ARCH 6254 - Architecture, In Theory
Explores theories and texts that have influenced the analysis and the production of architectural form. The focus is on the expressive potential of architectural forms and the modalities of the realization of this potential. Prereq: Course is offered to doctoral students but masters students may enroll with instructor approval. Cross-listed with DSPL 7016. **Semester Hours:** 3 to 3
ARCH 6255 - Art Of The Museum
Art museums, as public institutions, were established in early 19th century Europe. Today, the art museum has evolved into an essential symbol of cultural achievement. This course explores the complexity and value of the art museum for contemporary culture. **Semester Hours:** 3 to 3

ARCH 6275 - History Native Amer Arch
Introduces Native American architecture from the 12th century to the present. The course helps students understand the various cultural, technological, philosophical and aesthetic ideas that helped shape these buildings throughout history. **Semester Hours:** 3 to 3

ARCH 6290 - Special Topics in Cultural Studies
Various topics in cultural studies, according to current faculty and student interests. Prereq: ARCH 5210, ARCH 5220 and ARCH 5230. **Semester Hours:** 3 to 3

ARCH 6310 - Greenbuilding Tech
This seminar will advance the student's knowledge of environmental building and construction methods through studies in material resources, innovative green systems, alternate green technology, energy efficiency, and affordability in "green architectural design." Prereq: One course in ECS Systems. **Semester Hours:** 3 to 3

ARCH 6313 - LEED Certification, Greenbuilding Seminar
This RIGOROUS course will use the LEED Certification process to provide a framework for assessing building performance and meeting sustainability goals, following the 1st step in a two stage Professional Accreditation process, focusing on LEED GA, Green Associate Accreditation. **Semester Hours:** 3 to 3

ARCH 6314 - LEED AP Advanced Greenbuilding Seminar
This advanced LEED Certification and Accreditation course builds on the first LEED GA course, providing a framework for assessing green building performance and sustainability goals, exploring advanced green building concepts and preparing the student for the LEED AP BD+C exam. **Semester Hours:** 3 to 3

ARCH 6351 - Building Conservation
This course emphasizes the relationship between knowledge acquisition, professional judgement, and design modification. Topics include: 1) Historic Building Types & Methods, 2) Field and Lab Methods of Building Assessment, and 3) Management of Building Rehabilitation. The course takes an integrative approach to the scientific, aesthetic, managerial and legal dimensions of preservation. Prereq: ARCH 5310 and ARCH 5320. **Semester Hours:** 3 to 3

ARCH 6352 - Documentation, Analysis, Representation
This methods course focuses on skills development in in-situ documentation of the historic environment. The course includes modules on: a) historic records, b) archaeological evidence, c) building and site measurement, d) photographic & Photometric methods, e) geo-spatial data, f) graphic representation, and g) reporting formats. Cross-listed with HIPR 6310. **Semester Hours:** 3 to 3

ARCH 6353 - Daylighting Design
Daylighting is the use of light from the sky to illuminate building interiors. The objective of this course is to introduce students to the fundamentals of daylighting design including how it is perceived and how it impacts building energy flows. **Semester Hours:** 3 to 3
ARCH 6354 - The Art of Proportion
This course covers the use of proportional systems in the Classical tradition. Students complete a series of graphic exercises culminating in the construction of a Beaux-Art style ink-wash of a classical column. Cross-listed with ARCH 6290 and HIPR 6090. **Semester Hours:** 3 to 3

ARCH 6370 - Introduction To Design Build
Introduction to Design Build project delivery methods important to architects. Lecture, research on the industry and an individual student project are the methods used to introduce ethical questions, role of the architect, owner, consultant and subcontractors. Work leads to studio project or case study. **Semester Hours:** 3 to 3

ARCH 6373 - Construction in Design Build
Using a single project, students fully explore the design phase, estimating, scheduling and project management skills in traditional construction. Course is concurrent with an advanced studio and builds a project on a site. Prereq: ARCH 6370. **Semester Hours:** 3 to 3

ARCH 6390 - Special Topics in Technology
Various topics in technology, according to current faculty and student interests. Prereq: ARCH 5310 and ARCH 5320. **Semester Hours:** 3 to 3

ARCH 6412 - Construction Documents
Introduces the concepts and techniques of construction documents. **Semester Hours:** 3 to 3

ARCH 6450 - Pre-Design
Course lectures, readings, and case studies cover pre-design methodologies, research, documentation, facilitation and consensus building. **Semester Hours:** 3 to 3

ARCH 6451 - Digital Applications
This course introduces first year design students to the Graphic Design Concepts and Digital Applications necessary to create both Printed and Interactive Presentations of their work. Students learn computer skills including: Photoshop, InDesign and Flash. Prereq: ARCH 5110. **Semester Hours:** 3 to 3

ARCH 6452 - Digital Portfolio Design
This course introduces students to the Graphic Design Concepts and the Digital Applications used to create both Printed and Web-based Portfolios. Students must have completed ARCH 5110 and have a working knowledge of Photoshop. Prereq: ARCH 5110. **Semester Hours:** 3 to 3

ARCH 6453 - Introduction To Digital Design & Fabrication
An introductory class to Computer Aided Design (CAD) and Computer aided manufacturing (CAM). Students explore how these technologies apply to the field of architecture with a focus is on parametric/algorithmic design approaches and mass customization manufacturing techniques. **Semester Hours:** 3 to 3

ARCH 6454 - Rhino Modeling and Representation
An introductory class to Computer Aided Design (CAD) and Computer Aided Manufacturing (CAM). Students explore how these technologies apply to the field of architecture with a focus on surface modeling and parametric/algorithmic design approaches and mass customization and representation as well as manufacturing techniques. **Semester Hours:** 3 to 3
ARCH 6460 - Architecture Photography
Introduces the key concepts and techniques of photography in general and architectural photography in particular. Students learn basic principles of exposure, focal length, composition and darkroom procedures and then undertake a number of photographic exercises. **Semester Hours:** 3 to 3

ARCH 6461 - Architectural Precedents
Explores a number of traditional answers to recurring design issues, such as how to approach and enter a building or how to design a facade. In a seminar setting, students examine traditional ideas for their underlying principles and design new architectural compositions based on those principles. Prereq: Completion of ARCH 5110. **Semester Hours:** 3 to 3

ARCH 6462 - Furniture Design
Students learn how to design and build furniture in the College's woodshop. Topics include ergonometrics, properties of materials, principles and techniques of joinery and techniques of hand and machine tools. Prereq: must have completed the college's woodshop training program. **Semester Hours:** 3 to 3

ARCH 6463 - Beginning Revit
Introduces beginning design students to basic building components and Revit techniques. **Semester Hours:** 3 to 3

ARCH 6464 - Intermediate Revit
Revit techniques for experienced CAD users who need to share files and collaborate in design projects. Cross-listed with ARCH 6390. **Semester Hours:** 3 to 3

ARCH 6465 - Advanced Revit
Emphasizes family customization of Revit for architectural practice. Prereq: ARCH 6390. **Semester Hours:** 3 to 3

ARCH 6470 - ACE Mentoring
Graduate students work with professional architects, designers, and engineers mentoring students in selected local high schools to learn problem solving, graphics and model making to produce a design project. Student mentors develop lesson plans, outcomes and keep a weekly journal. **Semester Hours:** 3 to 3

ARCH 6471 - Managing Quality & Risks
A lecture and seminar on approaches to risk management including contracts, insurance, financial analysis, dispute resolution and client relationships. Utilizing case study approach, quality assurance will be defined and studied in the design and building phase of workings. Prereq: ARCH 6370. **Semester Hours:** 3 to 3

ARCH 6472 - Architecture in a Single Source Project Delivery
Directed to the practice of architecture with design build and other single source delivery systems. This course examines requirements of codes, zoning, building systems and legal questions for the architect. Prereq: ARCH 6370. **Semester Hours:** 3 to 3

ARCH 6473 - Research Tools & Methods
Introduces the thesis in architecture and establishes the scholarly basis for the research and construction of a Master's Thesis project. This course will provide the student with the research practices and methodologies to develop the scholarship and products required to produce a Thesis Project Proposal.
Completion of this course is a prerequisite for the student to submit the Thesis Proposal for departmental approval to continue with the remaining 9 credits of thesis work. Cross-listed with LDAR 6949.

**Semester Hours:** 3 to 3

**ARCH 6490 - Special Topics in Professional Studies**
Various topics in professional studies according to current faculty and student interests. **Semester Hours:** 3 to 3

**ARCH 6520 - Architecture in Other Cultures**
Various studies of architecture and urbanism in foreign countries. **Semester Hours:** 1 to 9

**ARCH 6624 - The Built Environment in Other Cultures I: Research Design**
The intent is to broaden students' perspectives by asking them to examine design within another culture. Each student prepares a proposal of study including a statement of the problem to be addressed, the type of field research to be undertaken and the nature of the report to be produced. Cross-listed with LDAR 6624. **Semester Hours:** 3 to 3

**ARCH 6730 - International Studies Preparation**
The course will prepare students to go to China, for 10-day International Summer School, 5-week China Summer Urban Design Joint Studio, 9-month Gensler Internship, and 1-year LA Dual Degree program. Topics include historic, geographic and cultural issues, and language lessons. Cross-listed with URBN 6730, LDAR 6730, and URPL 6730. **Semester Hours:** 1 to 3

**ARCH 6775 - Bluff General Elective**
Provides students the opportunity to focus their attention on one of three areas: technical studies, professional studies, or cultural studies. Students will complete coursework as it relates to Design Build Bluff. Counts as a general elective. **Semester Hours:** 3 to 3

**ARCH 6840 - Independent Study**
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to architecture. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

**ARCH 6910 - Teaching Assistantship**
Work with a faculty member in a course to help with class preparation and delivery. This is intended for students who may be considering a career in teaching architecture. Prereq: Permission of instructor. **Semester Hours:** 3 to 3

**ARCH 6930 - Architecture Internship**
Designed to provide professional practice experience. The internship is composed of eight hours per week working in a practicing professional's office during the regular semester. Students must complete the second-year level before taking this course. **Semester Hours:** 3 to 3

**ARCH 6931 - Architecture Internship**
Designed to provide professional practice experience. The internship is composed of eight hours per week working in a practicing professional's office during the regular semester. Students must complete the second-year level before taking this course. **Semester Hours:** 3 to 3

**ARCH 6950 - Thesis Preparation**
In place of the final advanced design studio, students may choose to develop a specialized thesis in some topic related to architecture. The thesis will normally take three semesters, starting with the three-credit
hour ARCH 6473, Research Tools & Methods in the spring semester, this course in the fall semester and finishing with a six-credit thesis class in the third semester. A thesis may culminate in a design or in a written report. A thesis is expected to advance the field in some way by offering new insights into aspects of design, technology, history or professional principles. Prereq: ARCH 6490 and completion of at least one advanced design studio (ARCH 6170 or ARCH 6171). **Semester Hours:** 3 to 3

**ARCH 6951 - Architecture Thesis**
Development of a master’s thesis (see ARCH 6950 above). Prereq: completion of two advanced design studios ARCH 6150 and ARCH 6950. **Semester Hours:** 6 to 6

**ARCH 7840 - Independent Study**
**Semester Hours:** 1 to 3
Interdisciplinary Arts Courses (ARTS)

ARTS 1000 - Arts In Our Time
Multidisciplinary course designed to introduce students to the ways in which arts work and how the arts shape our perception of the world around us. Each student selects three four-week modules designed to examine each of the disciplines of fine arts, music and theatre, in the context of the creative process, audience perception and historical perspective. Every five weeks, students from each of the modules join forces in a week of "Inter-arts" sessions -- lectures and discussions about the relationship of the arts to each other and to our contemporary culture. Topics which are addressed in the modules include such things as American musical theatre, perception of jazz, public sculpture, light as art, sonic explorations, photography, history of production design, women in American music and censorship. **Semester Hours:** 3 to 3

ARTS 1111 - Freshman Seminar
The course explores the nature of creative inspiration, its potential and implementation. Through individual and collaborative projects, students investigate the interdisciplinary composition and development of the literary, visual and performing arts and their aesthetic, social and political impact. **Semester Hours:** 3 to 3

ARTS 1150 - Topics in Cross-Disciplinary Arts I
Designed to explore the ways in which the arts are a part of daily life. Research and observation of the variety of ways in which the arts are utilized. Prepares students to participate in special projects. Specific topics and projects change each semester. **Semester Hours:** 1 to 3

ARTS 1400 - The Horror Film
This course is an analysis of the horror film genre and its significance as a reflection on society. It will look at both the history and development of this genre and the impact these films have had. **Semester Hours:** 3 to 3

ARTS 1450 - Visual Culture: Ways of Seeing
A core course for majors and non-majors Visual Culture: Ways of Seeing explores how the meaning of imagery is encoded in cultural settings and transforms globally through changing technology and is integrated into daily life. **Semester Hours:** 3 to 3

ARTS 2150 - Topics in Cross-Disciplinary Arts II
Provides opportunities for students to apply artists' methods and media in a non-presentation setting. Experiential research is centered around a specific topic each semester, but enable students to discover a broader understanding of the arts. **Semester Hours:** 1 to 3

ARTS 3150 - Topics in Cross-Disciplinary Arts III
Focuses on the ways in which the arts are engaged in communities as expressions of identity as well as agents of change. Historical research and applied projects provide a foundation for participation in designated team projects. **Semester Hours:** 1 to 3

ARTS 3400 - World Cinema
This course will examine representative examples of films from around the world to understand the current interests and concerns of world cinema, as well as to learn what concerns various countries around the world, and how those concerns are expressed. **Semester Hours:** 3 to 3
ARTS 3939 - Internship
Students build professional skills and increase their understanding of creative industries through experiential learning and course work designed to expand internship experiences into powerful learning. Assigned readings, group discussions, weekly summaries, and final paper/presentation support and reflect internship activities and build interpersonal, organizational, and industry specific skills while increasing knowledge of business practices and professionalism. **Semester Hours:** 1 to 3

ARTS 4150 - Topics in Cross-Disciplinary Arts IV
Investigates the historical and critical perspectives of the arts in a variety of contexts. Specific topics provide a focus for students to discover the ways in which the arts inform each other and are shaped by the events of the world. **Semester Hours:** 1 to 3

ARTS 5000 - Topics
**Semester Hours:** 3 to 3

ARTS 5150 - Topics In Cross-Disciplinary Arts
Investigates the historical and critical perspectives of the arts in a variety of contexts. Specific topics provide a focus for students to discover the ways in which the arts inform each other and are shaped by the events of the world. **Semester Hours:** 1 to 3
Bioengineering Courses (BIOE)

BIOE 1010 - Bioengineering Design and Prototyping I
BIOE 1010 introduces students to bioengineering, and provides an introduction to possible careers and research topics in Bioengineering. Students also learn human anatomy by understanding how to incorporate visual human datasets into computer prototyping Semester Hours: 2 to 2 When Offered: FALL

BIOE 1020 - Bioengineering Design and Prototyping II
BIOE 1020 extends work from BIOE 1010 by introducing students to practical skills around computer-aided design (CAD), modeling and prototyping with focus on project-oriented work aimed at design, prototyping and metrology of specific medical devices. Pre Semester Hours: 2 to 2 When Offered: SPRING

BIOE 4063 - 3D Modeling for Bioengineers
This course instills in the 3D modeling skills specific to the biomedical industry. Topics include computer aided design (CAD), medical imaging, image processing, patient specific image to three-dimensional (3D) model reconstruction, non-uniform rational b-spline (NURBS) surfaces, finite element and computational fluid dynamics (FEA/CFD) analyses and physical modeling using rapid prototyping. Restrictions: Matriculated CEAS students. Semester Hours: 3 to 3 When Offered: FALL SPR

BIOE 5010 - Life Sciences I
This course provides an introduction to human anatomy and physiology and clinical medicine, with focus on using engineering methods to analyze structure and function and multiple dimensional scales. Topical areas cover molecular biology, neuroscience and orthopedics. Prereq: Graduate standing in Bioengineering. Semester Hours: 3 to 3

BIOE 5011 - Life Sciences II
This course continues from LifeSciences I to cover the additional topical areas of Cardiovascular, Renal Medicine and Urological Sciences. Prereq: Graduate standing in Bioengineering; Grade of B or better in LifeSciences for Engineers I (BIOE 5010). Semester Hours: 3 to 3

BIOE 5020 - Quantitative Methods I
This course provides an introduction to graduate level mathematics and numerical analysis as used in bioengineering. After a review of undergraduate concepts, it covers discrete systems, transforms and numerical methods as used in imaging, physiological modeling, and patient-specific computational simulation. Prereq: Graduate standing in Bioengineering. Semester Hours: 3 to 3

BIOE 5021 - Quantitative Methods II
This course continues the introduction to graduate level mathematics and numerical analysis provided in BIOE 5020 (Quantitative Methods for Bioengineers I). This course will focus on Finite Element methods, Experimental Methods for Biomedical Diagnostics, Signal Processing Techniques, Data Analysis, Uncertainty and Biostatistics. Prereq: Graduate standing in Bioengineering. Grade of B or better in BIOE 5020 (Quantitative Methods for Bioengineers I), or permission of instructor. Semester Hours: 3 to 3

BIOE 5030 - Technology I
This course provides an introduction to imaging technologies used by biomedical researchers and clinicians. Focus will be on basic physics, instrumentation and clinical applications. Prereq: Graduate standing in Bioengineering. Semester Hours: 3 to 3

**BIOE 5031 - Technology II**
This course continues the introduction to imaging from BIOE 5030 (Technology for Bioengineers I) but with a much stronger emphasis on quantitative methods of medical image analysis and description of medical imaging physics. Prereq: Graduate standing in Bioengineering. Grade of B or better in BIOE 5030, or consent of instructor. **Semester Hours:** 3 to 3

**BIOE 5040 - Research Methods and Clinical Experiences I**
This course provides an introduction to research methods and clinical experiences for Bioengineers in order to prepare students for basic research, clinical applications and commercialization of medical technologies. Prerequisite: Graduate standing in Bioengineering (MS/PhD). **Semester Hours:** 2 to 2

**When Offered:** FALL

**BIOE 5041 - Research Methods and Clinical Experiences II**
This course provides an introduction to research methods and clinical experiences for Bioengineers in order to prepare students for basic research, clinical applications, and commercialization of medical technologies. Prerequisites: Graduate standing in Bioengineering (MS/PHD); BIOE 5040 **Semester Hours:** 1 to 1 **When Offered:** FALL

**BIOE 5063 - 3D Modeling for Bioengineers**
Course instills 3D modeling skills specific to biomedical industry. Topics include computer aided design, medical imaging, image processing, patient specific image to three-dimensional model reconstruction, non-uniform rational b-spline surfaces, finite element, computational fluid dynamics analyses, physical modeling using rapid prototyping. Restrictions: Matriculated CEAS students. **Semester Hours:** 3 to 3

**When Offered:** FALL SPR

**BIOE 5064 - Advanced MatLab For Bioengineers And Life Scientists**
This course covers MatLab programming for bioengineers and life scientists. Topics include MatLab syntax and optimization as well as techniques for working with scalars, time-series, images and multi-dimension datasets. Surface/Curve fitting, modeling, **Semester Hours:** 3 to 3

**BIOE 5073 - Neural Interfaces and Bionic Limbs**
This course will explore advanced topics in neural interfaces (Brain machine interfaces, peripheral nerve interfaces etc), the issues involved in the design of mechatronic limb systems and the decoding algorithms used to map the neural interface to the mechatronic limb. Restrictions: Matriculated CEAS students. **Semester Hours:** 3 to 3

**When Offered:** SPRING

**BIOE 5420 - Special Topics in Bioengineering**
Special topics of particular interest to graduate students in Bioengineering. Prereq: Graduate standing within the Department of Bioengineering or permission of instructor. **Semester Hours:** 3 to 3

**BIOE 5840 - Independent Study in Bioengineering**
Graduate level independent study in Bioengineering with a faculty mentor. Prereq: Graduate standing within the Department of Bioengineering or permission of instructor. **Semester Hours:** 1 to 6

**BIOE 6950 - Masters Thesis**
Research for Master Thesis under supervision of faculty thesis advisor. Prerequisites: Consent of thesis advisor. Restrictions: Satisfactory progress toward MS-Bioengineering degree. **Semester Hours:** 1 to 6

**When Offered:** FASPRSUM
BIOE 6960 - Master's Project
Training for Master’s Project under the supervision of faculty project advisor. Prereq: Department Consent. **Semester Hours:** 1 to 6

BIOE 8990 - Doctoral Dissertation
Research for doctoral dissertation under supervision of faculty advisor. Prerequisites: Consent of dissertation advisor. Restrictions: Satisfactory progress toward PhD-Bioengineering Degree. **Semester Hours:** 1 to 10  **When Offered:** FASPRSUM
**Biology Courses (BIOL)**

**BIOL 1111 - Freshman Seminar**  
*Semester Hours: 1 to 3*

**BIOL 1136 - Human Biology**  
Topics include: basic human body chemistry, healthy internal body balance, new disease treatments, human inheritance and human beings as part of Earth’s living systems. Note: For students who are not majoring in biology. *Semester Hours: 3 to 3*

**BIOL 1550 - Basic Biology: Ecology and the Diversity of Life**  
Introduces important biological concepts, including: the process of science, biological diversity, evolution, basic ecological principles and environmental issues. Lectures emphasize current issues. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. *Semester Hours: 4 to 4*

**BIOL 1560 - Basic Biology: From Cells to Organisms**  
Introduces students to cell structure and function, survey of representative human systems, genetics and applications of biotechnology. Immune systems featured with an emphasis on Aids, cancer and other human diseases prevalent in today's world. Note: For students who are not majoring in biology. Biology and health career majors should not take this course. *Semester Hours: 4 to 4*

**BIOL 2051 - General Biology I**  
Introduces four major areas of study: (1) the chemistry of biological systems; (2) the structure and function of the cell; (3) cellular energy transformations (photosynthesis and respiration); and (4) genetics (mitosis, meiosis, patterns of inheritance, molecular genetics). Note: Biology and health science (pre-med, pre-vet, pre-physical therapy, etc.) majors must also take the accompanying laboratory - BIOL 2071. Prereq: CHEM 1000 or high school chemistry required. *Semester Hours: 3 to 3*

**BIOL 2061 - General Biology II**  
This course is a continuation of BIOL 2051. Introduces four major areas of study: (1) evolution,(2) animal structure and function, (3) plant structure and function and (4) ecology. Note: Biology and health science (pre-med, pre-vet, nursing, etc.) majors must also take the accompanying laboratory - BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C-" or higher. *Semester Hours: 3 to 3*

**BIOL 2071 - General Biology Laboratory I**  
Introduces the basic scientific approach and report preparation through exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics and applications of biotechnology. Note: Exercises corresponding to topics in BIOL 2051. Coreq: BIOL 2051. *Semester Hours: 1 to 1*

**BIOL 2081 - General Biology Laboratory II**  
Study of evolution, plant and animal anatomy, developmental biology; includes two off-campus ecology field trips. Note: Exercises corresponding to topics in BIOL 2061. Prereq: BIOL 2071 or equivalent with a grade of "C-" or higher; Coreq: BIOL 2061. *Semester Hours: 1 to 1*

**BIOL 2091 - General Biology Lab for Secondary Teacher Licensure**  
One-semester general biology laboratory for those students who are pursuing secondary science teacher licensure. Introduces the scientific method through select exercises and experiments in cell biology, basic biochemical techniques, genetics, molecular genetics, anatomy, physiology, and development, ecology, and evolution. Note: Exercises corresponding to select topics in BIOL 2051 and BIOL 2061. Will not fulfill
biology major requirements. Students completing BIOL 2071 and BIOL 2081 may not receive credit for BIOL 2091, nor may students completing BIOL 2091 receive credit for BIOL 2071 and BIOL 2081. Prereq: BIOL 2051 or equivalent with a grade of "C-" or higher. Coreq: BIOL 2061. **Semester Hours:** 1 to 1

**BIOL 2750 - Introduction to Molecular Research Techniques**
Designed to give background knowledge and hands-on experience for a person wanting to work in a molecular-research laboratory. Introduction to basic molecular techniques including micropipetting, making media, DNA and RNA isolation, restriction digest, RT-PCR, and gel electrophoresis. **Semester Hours:** 2 to 2

**BIOL 2840 - Independent Study**
Note: registration by special processing form only. Prereq: One semester of general biology with a grade of "C-" or higher and permission of instructor. **Semester Hours:** 1 to 3

**BIOL 2939 - Internship**
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

**BIOL 3104 - Behavioral Genetics**
Interdisciplinary course on relationships between behavior and heredity, with emphasis on human behavioral genetics. Prereq: General biology or general psychology. Cross-listed with PSYC 3104. **Semester Hours:** 3 to 3

**BIOL 3124 - Introduction to Molecular Biology**
Provides an understanding of the structure and function of genetic material, DNA replication and recombination, and regulation of gene expression and protein synthesis. Emphasizes eukaryotic systems, while providing an overview of prokaryotic systems. Prereq: One year of general biology with a grade of "C-" or higher and one year of general chemistry. **Semester Hours:** 3 to 3

**BIOL 3134 - Advanced Topics**
Periodic examination of current topics in the field of biology. (See Schedule Planner for current topics). **Semester Hours:** 1 to 8

**BIOL 3225 - Human Physiology**
The basic orientation of the course is toward understanding the functioning of the body as a set of homeostatic mechanisms. Particular emphasis is placed on membrane potentials, muscle, circulation, respiration, digestion, the kidney, the control of metabolism and acid-based balance. Prereq: One year of general biology, general cell biology and one year of chemistry with grades of "C-" or higher. **Semester Hours:** 4 to 4

**BIOL 3244 - Human Anatomy**
Introduces the structural aspects of the human body. Anatomical models, microscope slides and dissections, including human cadavers are used in the lab. Prereq: one year of general biology with a grade of "C-" or higher. **Semester Hours:** 5 to 5

**BIOL 3330 - Plant Diversity**
Surveys all major plant groups using evolutionary and ecological principles to interpret patterns of diversity in form and function. Topics include reproduction and life cycles, adaptations and ecological interactions, paleobotany and biogeography, classification and taxonomy and evolution. Prereq: One year of general biology with a grade of "C-" or higher. **Semester Hours:** 3 to 3
BIOL 3411 - Principles of Ecology
A lecture course that examines the interrelationships between organisms and their environments. Subject matter includes organism, population and ecosystem levels of study and application to current environmental issues. The emphasis is on the underlying principles. **Semester Hours:** 3 to 3

BIOL 3412 - Fundamentals of Applied Ecology
Ecology is the science of interrelationships between organisms, including humans and their environment. This lecture course examines applications of ecological principles to human needs and environmental protection. Covers the ecology of humans and managed systems. Note: Satisfies core ecology requirement for biology major. May not be used as upper division biology elective. No co-credit with BIOL 3411. Prereq: One year of general biology with a grade of "C-" or higher. **Semester Hours:** 3 to 3

BIOL 3413 - Ecology Laboratory
Provides hands-on experiences in ecology and appreciation for using research tools to study ecological systems. Students will learn a wide range of techniques and concepts related to population, community, ecosystem, urban, and physiological ecology. Prereq: Introductory Ecology with a grade of "C-" or higher; concurrent registration in ecology accepted. **Semester Hours:** 2 to 2

BIOL 3520 - Invertebrate Zoology
Most species on earth are invertebrate animals that, by definition, lack backbones. This course examines the biology, taxonomy, anatomy, ecology and evolution of these important creatures, which occupy a diversity of terrestrial, freshwater and marine habitats. Prereq: One year of general biology with a grade of "C-" or higher. **Semester Hours:** 3 to 3

BIOL 3521 - Vertebrate Biology
The subphylum vertebrata consists of fish, amphibians, reptiles, birds and mammals--some of the most fascinating and most threatened species on earth. This course covers the geological record, evolution, taxonomy, anatomy, physiology, ecology and conservation of these organisms. Prereq: One year of general biology with a grade of "C-" or higher. **Semester Hours:** 3 to 3

BIOL 3611 - General Cell Biology
Covers the structure and function of the cell including bioenergetics, membranes, secretion, respiration and the cell cycle. Prereq: One year of general biology with a grade of "C-" or higher and one year of general chemistry. **Semester Hours:** 3 to 3

BIOL 3612 - Cell Biology Laboratory
Laboratory course covering topics in cell and molecular biology, such as protein folding, membrane potential, organelle function, cell signaling and fertilization; as well as associated methods, including microscopy, cell culture and PCR. Basic skills are emphasized in recitation and laboratory. Prereq: General cell biology with a grade of "C-" or higher or permission of instructor. **Semester Hours:** 3 to 3

BIOL 3621 - Introduction to Immunology
Provides an introduction to the basic concepts of immunology, including development of the immune system, innate immunity, aspects of the adaptive immune system, and the role of the immune system in disease, as well as allergies and autoimmunity. Prereq: One year of general biology with a grade of "C-" or higher. **Semester Hours:** 3 to 3
BIOL 3654 - General Microbiology
Covers all aspects of the biology of microorganisms: their cellular structures and function, growth and metabolism, general and molecular genetics, diversity and interactions with other organisms and the environment (ecology). The objective is to provide Semester Hours: 5 to 5

BIOL 3763 - Biostatistics
Surveys statistical approaches to biology. Emphasizes quantifying problems, study design, data exploration and statistical inference methods. Focuses on methods and examples for general biology, ecology, and health sciences. Includes exposure to statistical software. Prereq: One year of general biology with a "C-" (1.7) or higher, and equivalent of college-level algebra with "B" (3.0) or higher, or introductory statistics with a "B" (3.0) or higher, or permission of instructor. Semester Hours: 3 to 3

BIOL 3832 - General Genetics
Introduces molecular, classical, developmental and population genetics. Prereq: One year of general biology with a grade of "C-" or higher. Semester Hours: 4 to 4

BIOL 3840 - Independent Study
Note: Registration by special processing form only. Prereq: One year of general biology with a grade of "C-" or higher and permission of instructor; registration by special processing form only. Semester Hours: 1 to 3

BIOL 3939 - Internship
Designed experience involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. Semester Hours: 1 to 3

BIOL 4024 - Introduction to Biotechnology
Introduces aspects of biotechnology within a historical context, including medical, forensic, agricultural and microbial biotechnology. Addresses principles behind state-of-the-field techniques in recombinant DNA technology, bioinformatics, proteomics and genomics. Biotechnology regulations and ethics will also be discussed. Prereq: BIOL 4024: one year of general biology with a grade of "C-" or higher. BIOL 5024: graduate standing or permission of instructor. Cross-listed with BIOL 5024. Semester Hours: 3 to 3

BIOL 4050 - Advanced Biology Topics
Examines current topics in the field of biology. Topics vary from term to term. See Schedule Planner for current topics. Prereq: One year of general biology with grades of "C-" or higher. Cross-listed with BIOL 5050. Semester Hours: 1 to 8

BIOL 4051 - Advanced Topics In Microbiology
An in-depth study of microbial concepts, including prokaryotic and eukaryotic structure and function; properties of biological macromolecules; microbial growth kinetics; and microbial diversity. Emphasis is on one of the following: virology, microbial physiology, environmental microbiology, microbial biotechnology and nucleic acids. Prereq: General microbiology with a grade of "C-" or higher. Cross-listed with BIOL 5051. Semester Hours: 3 to 3

BIOL 4052 - Advanced Ecology
This combination seminar and lecture course focuses on state-of-field knowledge, current theories and recent models in selected areas of ecology, such as theoretical ecology, evolutionary ecology, population biology and ecosystems ecology. Prereq: Introductory ecology with a grade of "C-" or higher (BIOL 3411 or BIOL 3412 or equivalent). Cross-listed with BIOL 5052. Semester Hours: 3 to 3
**BIOL 4053 - Disease Ecology**
The study of the underlying principles that influence the spatio-temporal patterns of infectious disease in environments. Students will apply ecological theories about concepts such as biodiversity, trophic interactions, landscape structure, and nutrient cycling to the study of disease. Prereq: Introductory Ecology with a grade of "C-" or higher. Cross-listed with BIOL 5053. **Semester Hours: 3 to 3**

**BIOL 4054 - Developmental Biology**
Covers gametogenesis, fertilization, cleavage and development of the embryo with an emphasis on the biochemical and biophysical aspects. Prereq: General cell biology with a grade of "C-" or higher. Cross-listed with BIOL 5054. **Semester Hours: 3 to 3**

**BIOL 4064 - Advanced Cell Biology**
Builds on the foundations laid in the prerequisite courses. Major topics include the functions of cell membranes, energy transduction and regulation of metabolic pathways. A major emphasis is the control and integration of cellular activities. Prereq: General cell biology and one semester of biochemistry with grades of "C-" or higher. Cross-listed with BIOL 5064. **Semester Hours: 3 to 3**

**BIOL 4068 - The Cell Cycle**
Provides an in-depth study of the molecular regulation of the eukaryotic cell cycle. Includes mitosis, meiosis, developmental cell cycles, cell cycle checkpoints and cell cycle defects in cancer. Prereq: General cell biology and general genetics with a **Semester Hours: 3 to 3**

**BIOL 4074 - Human Reproductive Biology**
Comprehensive study of anatomy and physiology of human reproduction. Embryogenesis of male and female reproductive systems and detailed analysis of contraception, world population growth, population control and implications of population growth are also covered. Prereq: One year of general biology with a grade of "C-" or higher. Cross-listed with BIOL 5074. **Semester Hours: 3 to 3**

**BIOL 4125 - Molecular Biology Laboratory**
Provides hands-on experiences in molecular biology and an appreciation for using the tools of molecular biology to study biological systems. Emphasis is placed on DNA cloning, PCR, mutagenesis and protein purification techniques. Experimental design and t **Semester Hours: 3 to 3**

**BIOL 4126 - Molecular Genetics**
Examines molecular techniques and their application to experimental genetics, specifically organization and mapping of genomes, application and model systems in defining hereditary components of disease, and mechanisms of identifying mutations and their implications for disease. Also addresses application of recombinant DNA technology. Prereq: General genetics and one year of organic chemistry (or equivalent) with grades of "C-" or higher; biochemistry strongly recommended. Cross-listed with BIOL 5126. **Semester Hours: 3 to 3**

**BIOL 4128 - Topics in Molecular Biology**
Literature-based course examining the regulation of gene expression in eukaryotic systems, as well as contemporary recombinant DNA technology and applications of molecular cloning techniques. Prereq: General cell biology and general genetics with a grade of "C-" or higher; biochemistry strongly recommended. Cross-listed with BIOL 5128. **Semester Hours: 3 to 3**
BIOL 4134 - Human Genetics

Semester Hours: 3 to 3

BIOL 4144 - Medical Microbiology
Provides an understanding of the relationship between pathogenic organisms and their host. Emphasis is placed on the area of medical bacteriology, with attention given to mechanisms of pathogenesis, genetics of disease, serology and treatment. Prereq: general microbiology with a grade of "C-" or higher. Cross-listed with BIOL 5144. 

Semester Hours: 3 to 3

BIOL 4154 - Conservation Biology
Basic concepts and theories in ecology, population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Introductory ecology (BIOL 3411, 3412 or equivalent) with a grade of "C-" or higher. Cross-listed with BIOL 5154. 

Semester Hours: 3 to 3

BIOL 4165 - Neurobiology
Overview of neuroscience, covering the cellular basis of neuronal activity, muscle, sensory structures and the structure and function of the human brain. Prereq: One year of general biology and general cell biology with grades of "C-" or higher. Cross-listed with BIOL 5165. 

Semester Hours: 3 to 3

BIOL 4250 - Mechanisms of Animal Behavior
The proximate and ultimate mechanisms of animal behavior are analyzed using comparative animal examples from the scientific literature. Proximate mechanisms include genetic and physiological processes. Ultimate mechanisms include the role of natural and sexual selection in the evolution of behavior. Prereq: One year of general biology with a grade of "C-" or higher. Genetics and human physiology are recommended. Cross-listed with BIOL 5250. 

Semester Hours: 3 to 3

BIOL 4315 - Plant Systematics
Lecture, lab and field trips. Extensive introduction to the basic principles and concepts of vascular plant systematics. Topics include principles of taxonomy, nomenclature, methods, systems of classification and field and herbarium procedures. Emphasis on plant structure and identification using fresh, frozen and pressed plant specimens. Prereq: One year of general biology with a grade of "C-" or higher. Cross-listed with BIOL 5315. 

Semester Hours: 4 to 4

BIOL 4335 - Plant Science
Lecture, lab and field trips. An in-depth study of flowering plants, including embryology, structure, function, reproduction, ecology and evolution of the group. Emphasis is placed upon morphology and anatomy at all stages of plant development. Prereq: One year of general biology (BIOL 2051, 2061, 2071, 2081) and General Cell Biology (BIOL 3611) with a grade of "C-" or higher. Cross-listed with BIOL 5335. 

Semester Hours: 4 to 4

BIOL 4345 - Flora of Colorado
Lecture, lab and field trips. Introduces the vascular plant flora of Colorado, including ferns, gymnosperms and flowering plants. Emphasis on field identification of species representing a range of natural communities from grassland to alpine tundra, as well as non-natives. Field and herbarium techniques covered. Prereq: One year of general biology with a grade of "C-" or higher. Cross-listed with BIOL 5345. 

Semester Hours: 4 to 4
BIOL 4415 - Microbial Ecology
An in-depth study of ecology as it relates to microorganisms; abiotic and biotic interactions within microbial populations in macro- and microhabitats; and the role of microorganisms in maintaining steady state conditions in natural ecosystems. Emphasis is placed on how the ecology of microorganisms affects the human condition. Prereq: General microbiology with a grade of "C-" or higher. Cross-listed with BIOL 5415. **Semester Hours:** 3 to 3

BIOL 4416 - Aquatic Ecology
This advanced ecology course examines the inter-relations of biological (including humans), physical and chemical components of wetlands, streams, rivers, lakes, reservoirs and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and field exercises. Prereq: Introductory ecology (BIOL 3411, 3412 or equivalent) with a grade of "C-" or higher. Cross-listed with BIOL 5416. **Semester Hours:** 3 to 3

BIOL 4425 - Biogeography
An in-depth study of biological populations through analysis of geographic distribution patterns in space and time. Emphasis on how biogeography informs studies of evolution and ecology and on applied studies in conservation, sustainability, epidemiology, and disease dynamics. Prereq: One year of general biology with a grade of "C-" or higher. Cross-listed with BIOL 5425. **Semester Hours:** 3 to 3

BIOL 4450 - Marine Biology
Looks at the fascinating organisms that inhabit the oceans, which represent 99% of the living space of earth. While the focus is on the ecology of marine organisms, taxonomy, physiology and anatomy are also covered. Prereq: One year of general biology with a grade of "C-" or higher. Cross-listed with BIOL 5450. **Semester Hours:** 3 to 3

BIOL 4455 - Comparative Environmental Physiology
This advanced physiology course explores the physiological evolutionary adaptations of different animals in the context of their environment. Content includes exploration of maintenance of homeostasis via feedback regulation, structure-function relationships, cellular physiology, and the study of organ systems including the nervous, endocrine, respiratory, reproductive and cardiovascular systems. Prereq: Human or animal physiology with a grade of "C-" or higher. Cross-listed with BIOL 5455. **Semester Hours:** 3 to 3

BIOL 4460 - Environmental Toxicology
Text and literature-based course provides students with background knowledge concerning environmental toxins, the nature and extent of environmental contamination, and toxicant effects on individual organisms and populations. Prereq: Human Physiology with grades of "C-" or higher. Organic Chemistry and/or Biochemistry strongly recommended. Cross-listed with BIOL 5460. **Semester Hours:** 3 to 3

BIOL 4464 - Exercise Physiology
This course addresses the dynamic physiological changes associated with exercise. Where human physiology addresses physiological processes at rest, this course explores how the cardiovascular, respiratory, nervous and endocrine systems support increased energy transfer as skeletal muscle becomes more active. Cross-listed with BIOL 5464. **Semester Hours:** 3 to 3

BIOL 4474 - Ecological Methods
Deals with the empirical aspects of an ecological study. Students learn sampling techniques that are used in plant and animal ecology. Emphasis is placed on hypothesis testing, data analysis and experimental...
field designs. Prereq: Introductory ecology (BIOL 3411, 3412 or equivalent) with a grade of "C-" or higher. Cross-listed with BIOL 5474. **Semester Hours:** 4 to 4

**BIOL 4475 - Mechanisms of Human Pathology**
Studies physiological, cellular and biochemical processes in human diseases, with particular focus on non-communicable diseases such as diabetes, cardiovascular disease and diseases of aging such as osteoporosis and macular degeneration. Prereq: Human physiology with a grade of "C-" or higher; general cell biology or general microbiology strongly recommended. Cross-listed with BIOL 5475. **Semester Hours:** 3 to 3

**BIOL 4494 - Population and Evolutionary Genetics**
Introduces the genetic processes underlying evolutionary change in microbial, plant and animal populations. Topics include: sources of variation, Hardy-Weinberg equilibrium, population genetic structure, natural selection and other evolutionary forces, quantitative genetics and molecular phylogenetics. Emphasis on experimental data. Prereq: One year of general biology and general genetics with grades of "C-" or higher. Cross-listed with BIOL 5494. **Semester Hours:** 3 to 3

**BIOL 4550 - Cell Signaling**
Lecture by faculty and student presentations cover mechanism of hormones and regulation of various cellular processes through second messenger systems. Prereq: General cell biology with a grade of "C-" or higher; one semester of biochemistry recommended. Cross-listed with BIOL 5550. **Semester Hours:** 3 to 3

**BIOL 4622 - Topics in Immunology**
An in-depth study of immunological concepts. Topics will vary from semester to semester and may range from specifics of immune cell responses to tolerance and autoimmunity. Delivery will include lecture, student presentations, and discussion. Prereq: One year of general biology with a grade of 'C-' or higher; general cell biology and general genetics are recommended. Cross-listed with BIOL 5622. **Semester Hours:** 3 to 3

**BIOL 4634 - Biology of Cancer**
Cancer is the second leading cause of death in the United States. This course offers an overview of recent research into the causes, treatments and possible prevention of cancer. Includes a detailed look at the mechanisms of action of various oncogenes. Prereq: General cell biology with a grade of 'C-' or higher; general genetics strongly recommended. Cross-listed with BIOL 5634. **Semester Hours:** 3 to 3

**BIOL 4640 - Mammalogy**
Lecture, laboratory, and required field trips. This course provides a general overview of the biology of mammals, including their diversity, distribution, economic importance, and other characteristics that make them of special interest to humans. Coverage will be worldwide, with special emphasis placed on the mammals of Colorado. Prereq: One year of general biology with grades of 'C-' or higher and completion of the structure/ function core requirement with a grade of 'C-' or higher. Cross-listed with BIOL 5640. **Semester Hours:** 4 to 4

**BIOL 4644 - Advanced Human Anatomy Laboratory**
Advanced laboratory course in human anatomy. In-depth look at the structural aspects of the human body, emphasizing function. Models, microscope slides, and visual media will supplement cadaver-based dissections. Prereq: One year of general biology and human anatomy with a grade of "C-" (2.0) or higher. Cross-listed with BIOL 5644. **Semester Hours:** 2 to 2
BIOL 4674 - Endocrinology
This systematic survey of the endocrine system looks at the cellular basis and biochemical characteristics of individual endocrine tissues. Their function in the regulation of other endocrinological, physiological, and behavioral events is analyzed. The course emphasizes the human system and complements studies in physiology, behavior and neurobiology. Prereq: Human physiology with a grade of "C-" or higher. Cross-listed with BIOL 5674. **Semester Hours:** 3 to 3

BIOL 4840 - Independent Study
Note: Registration by special processing form only. Prereq: One year of general biology with a grade of "C-" or higher and permission of instructor. **Semester Hours:** 1 to 6

BIOL 4910 - Field Studies
Field studies of individuals, populations and communities comprising a specified ecosystem. Emphasis on field identification of vascular plants and vertebrate animals. Topics include the physical environment, biotic and abiotic interactions, life history, ecological adaptations and biogeography. Note: Lectures and a week-long field trip. Prereq: One year of general biology and ecology with grades of "C-" or higher; permission of instructor. Cross-listed with BIOL 5910. **Semester Hours:** 3 to 3

BIOL 4974 - Evolution
A capstone course that draws upon concepts from all fields of biology. Topics include the fossil record, mass extinctions, the historical development of the modern synthesis, principles and mechanisms of evolution, current viewpoints and controversies. Prereq: One year of general biology and general genetics with grades of "C-" or higher; junior or senior standing strongly recommended. Cross-listed with BIOL 5974. **Semester Hours:** 3 to 3

BIOL 4990 - Undergraduate Research Seminar
Introduces research in the biological sciences. Students read current scientific literature, attend related seminars and participate in discussions. This course offers students a chance to interact with visiting scientists, who will present state-of-the-field biological research in a seminar setting. Prereq: Senior standing, satisfactory completion of all biology core courses, overall GPA of 3.0 or higher and permission of instructor. Cross-listed with BIOL 6655. **Semester Hours:** 1 to 1

BIOL 5001 - RM-MSMSP: Cells, Human Systems and Heredity
Systematic study of key concepts in cell structure and function; energy transformations in living systems, functioning of human systems in health or disease, patterns or process of human inheritance and biotechnology impacts on human society. Concepts are linked to other scientific, mathematical, societal and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: Permission of project director. **Semester Hours:** 4 to 4

BIOL 5002 - RM-MSMSP: Ecology, Biodiversity and Adaptation
Systematic study of biological concepts including ecosystems, population dynamics, food chains, biodiversity and evolutionary processes. Instruction is inquiry-based and interactive. Concepts are linked to other scientific, mathematical, societal and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: Permission of instructor (project director). **Semester Hours:** 4 to 4

BIOL 5003 - RM-MSMSP: The Biology of Life: Integrated Perspectives
Uses an integrated approach to investigate current biological, ecological and environmental issues including biofuels, climate change, red tides, coral bleaching, biomagnifications of toxins, acid rain and
population growth. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: BIOL 5001 and BIOL 5002 or permission of instructor. **Semester Hours:** 4 to 4

**BIOL 5004 - Research Experience for Teachers - Biology Cohort**

The Research Experience for Teachers (RET) program is a five-week research exploration in which twelve RM-MSMSP teachers will raise their level of relevant scientific understanding by engaging in a "hands on" workshop, transforming what they have learned into new curricular materials that will improve the scientific abilities of their students and hopefully stimulate them to consider a STEM career. Note: This course is not applicable toward any degree in the College of Liberal Arts & Sciences. **Semester Hours:** 1 to 6

**BIOL 5024 - Introduction to Biotechnology**

Introduces aspects of biotechnology within a historical context, including medical, forensic, agricultural and microbial biotechnology. Addresses principles behind state-of-the-field techniques in recombinant DNA technology, bioinformatics, proteomics and genomics. Biotechnology regulations and ethics will also be discussed. Prereq: BIOL 4024: one year of general biology with a grade of "C" (2.0) or higher. BIOL 5024: graduate standing or permission of instructor. Cross-listed with BIOL 4024. **Semester Hours:** 3 to 3

**BIOL 5050 - Advanced Biology Topics**

Examines current topics in the field of biology. Topics vary from term to term. See Schedule Planner for current topics. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4050. **Semester Hours:** 1 to 8

**BIOL 5051 - Advanced Topics In Microbiology**

An in-depth study of microbial concepts, including prokaryotic and eukaryotic structure and function; properties of biological macromolecules; microbial growth kinetics; and microbial diversity. Emphasis is on one of the following: virology, microbial physiology, environmental microbiology, microbial biotechnology and nucleic acids. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4051. **Semester Hours:** 3 to 3

**BIOL 5052 - Advanced Ecology**

This combination seminar and lecture course focuses on state-of-field knowledge, current theories and recent models in selected areas of ecology, such as theoretical ecology, evolutionary ecology, population biology and ecosystems ecology. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4052. **Semester Hours:** 3 to 3

**BIOL 5053 - Disease Ecology**

The study of the underlying principles that influence the spatio-temporal patterns of infectious disease in environments. Students will apply ecological theories about concepts such as biodiversity, trophic interactions, landscape structure, and nutrient cycling to the study of disease. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4053. **Semester Hours:** 3 to 3

**BIOL 5054 - Developmental Biology**

Covers gametogenesis, fertilization, cleavage and development of the embryo with an emphasis on the biochemical and biophysical aspects. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4054. **Semester Hours:** 3 to 3
BIOL 5064 - Advanced Cell Biology
Builds on the foundations laid in the prerequisite courses. Major topics include the functions of cell membranes, energy transduction and regulation of metabolic pathways. A major emphasis is the control and integration of cellular activities. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4064. Semester Hours: 3 to 3

BIOL 5068 - The Cell Cycle
Provides an in-depth study of the molecular regulation of the eukaryotic cell cycle. Includes mitosis, meiosis, developmental cell cycles, cell cycle checkpoints and cell cycle defects in cancer. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

BIOL 5074 - Human Reproductive Biology
Comprehensive study of anatomy and physiology of human reproduction. Embryogenesis of male and female reproductive systems and detailed analysis of contraception, world population growth, population control and implications of population growth are also covered. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4074. Semester Hours: 3 to 3

BIOL 5099 - Biology For Computer Scientists, Engineers and Mathematicians
Designed to give a foundation in molecular biology for work in the field of computational biology or bioinformatics. The goal of this new field is to provide predictive capability for diagnosing disease and discovering therapeutics. Prereq: B.S. in computer science, engineering, mathematics or a related discipline. Graduate standing or permission of the instructor. Semester Hours: 3 to 3

BIOL 5125 - Molecular Biology Lab
Provides hands-on experiences in molecular biology and an appreciation for using the tools of molecular biology to study biological systems. Emphasis is placed on DNA cloning, PCR, mutagenesis and protein purification techniques. Experimental design and the theories underlying the techniques are also discussed. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4125. Semester Hours: 3 to 3

BIOL 5126 - Molecular Genetics
Examines molecular techniques and their application to experimental genetics, specifically organization and mapping of genomes, application and model systems in defining hereditary components of disease, and mechanisms of identifying mutations and their implications for disease. Also addresses application of recombinant DNA technology. Prereq: General genetics and one year of organic chemistry (or equivalent) with grades of "C" (2.0) or higher; biochemistry strongly recommended. Graduate standing or permission of the instructor. Cross-listed with BIOL 4126. Semester Hours: 3 to 3

BIOL 5128 - Topics in Molecular Biology
Literature-based course examining the regulation of gene expression in eukaryotic systems, as well as contemporary recombinant DNA technology and applications of molecular cloning techniques. Prereq: General cell biology and general genetics with a grade of "C" (2.0) or higher; biochemistry strongly recommended. Graduate standing or permission of the instructor. Cross-listed with BIOL 4128. Semester Hours: 3 to 3

BIOL 5134 - Human Genetics
Advanced survey of the current status of the field. Emphasis on understanding, diagnosis and treatment of genetic disease and on the impact of molecular biology on human genetics. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4134. Semester Hours: 3 to 3
BIOL 5144 - Medical Microbiology
Provides an understanding of the relationship between pathogenic organisms and their host. Emphasis is placed on the area of medical bacteriology, with attention given to mechanisms of pathogenesis, genetics of disease, serology and treatment. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4144. **Semester Hours:** 3 to 3

BIOL 5154 - Conservation Biology
Basic concepts and theories in population biology and genetics as they apply to issues relating to the preservation of biodiversity, such as the genetics of small populations, captive propagation, restoration ecology and the design of nature reserves. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4154. **Semester Hours:** 3 to 3

BIOL 5165 - Neurobiology
Overview of neuroscience, covering the cellular basis of neuronal activity, muscle, sensory structures and the structure and function of the human brain. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4165. **Semester Hours:** 3 to 3

BIOL 5250 - Mechanisms of Animal Behavior
The proximate and ultimate mechanisms of animal behavior are analyzed using comparative animal examples from the scientific literature. Proximate mechanisms include genetic and physiological processes. Ultimate mechanisms include the role of natural and sexual selection in the evolution of behavior. Prereq: One year of general biology with a grade of "C" (2.0) or higher. Genetics and human physiology are recommended. Graduate standing or permission of the instructor. Cross-listed with BIOL 4250. **Semester Hours:** 3 to 3

BIOL 5315 - Plant Systematics
Lecture, lab and field trips. Extensive introduction to the basic principles and concepts of vascular plant systematics. Topics include principles of taxonomy, nomenclature, methods, systems of classification and field and herbarium procedures. Emphasis on plant structure and identification using fresh, frozen and pressed plant specimens. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4315. **Semester Hours:** 4 to 4

BIOL 5330 - Evolution and Diversification of Plants
Surveys the diverse assemblage of green algae and land plants. Ecological and evolutionary principles are used to interpret patterns of form and function within the context of their phylogeny as revealed from molecular systematics. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

BIOL 5335 - Plant Science
Lecture, lab and field trips. An in-depth study of flowering plants, including embryology, structure, function, reproduction, ecology and evolution of the group. Emphasis is placed upon morphology and anatomy at all stages of plant development. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4335. **Semester Hours:** 4 to 4

BIOL 5345 - Flora of Colorado
Lecture, lab and field trips. Introduces the vascular plant flora of Colorado, including ferns, gymnosperms and flowering plants. Emphasis on field identification of species representing a range of natural communities from grassland to alpine tundra, as well as non-natives. Field and herbarium techniques covered. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4345. **Semester Hours:** 4 to 4
BIOL 5415 - Microbial Ecology
An in-depth study of ecology as it relates to microorganisms; abiotic and biotic interactions within microbial populations in macro- and microhabitats; and the role of microorganisms in maintaining steady state conditions in natural ecosystems. Emphasis is placed on how the ecology of microorganisms affects the human condition. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4415. Semester Hours: 3 to 3

BIOL 5416 - Aquatic Ecology
This advanced ecology course examines the inter-relations of biological (including humans), physical and chemical components of wetlands, streams, rivers, lakes, reservoirs and groundwater. Learning is facilitated through lectures, discussions, student presentations, laboratory and field exercises. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4416. Semester Hours: 3 to 3

BIOL 5425 - Biogeography
An in-depth study of biological populations through analysis of geographic distribution patterns in space and time. Emphasis on how biogeography informs studies of evolution and ecology and on applied studies in conservation, sustainability, epidemiology, and disease dynamics. Prereq: One year of general biology with a grade of "C" (2.0) or higher. Graduate standing or permission of the instructor. Cross-listed with BIOL 4425. Semester Hours: 3 to 3

BIOL 5445 - Applied Environmental Biology
Examines the reciprocal relationships of organisms and the environment at scales from microbes to ecosystems. Explores the impact of human-caused perturbations on organisms as well as the impact of living systems on the flow of energy and materials (natural and man-made) through the environment. Prereq: Graduate standing or permission of instructor; one year of general biology and one year of general chemistry; introductory ecology recommended. Semester Hours: 3 to 3

BIOL 5450 - Marine Biology
Looks at the fascinating organisms that inhabit the oceans, which represent 99% of the living space of earth. While the focus is on the ecology of marine organisms, taxonomy, physiology and anatomy are also covered. Prereq: One year of general biology. Graduate standing or permission of the instructor. Cross-listed with BIOL 4450. Semester Hours: 3 to 3

BIOL 5455 - Comparative Environmental Physiology
This advanced physiology course explores the physiological evolutionary adaptations of different animals in the context of their environment. Content includes exploration of maintenance of homeostasis via feedback regulation, structure-function relationships, cellular physiology, and the study of organ systems including the nervous, endocrine, respiratory, reproductive and cardiovascular systems. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4455. Semester Hours: 3 to 3

BIOL 5460 - Environmental Toxicology
Text and literature-based course provides students with background knowledge concerning environmental toxins, the nature and extent of environmental contamination, and toxicant effects on individual organisms and populations. Prereq: Human Physiology with grades of "C" (2.0) or higher. Organic Chemistry and/or Biochemistry strongly recommended. Cross-listed with BIOL 4460. Semester Hours: 3 to 3

BIOL 5464 - Exercise Physiology
This course addresses the dynamic physiological changes associated with exercise. Where human physiology addresses physiological processes at rest, this course explores how the cardiovascular,
respiratory, nervous and endocrine systems support increased energy transfer as skeletal muscle becomes more active. Cross-listed with BIOL 4464. **Semester Hours:** 3 to 3

**BIOL 5474 - Ecological Methods**
Lecture, laboratory. Deals with the empirical aspects of an ecological study. Students learn sampling techniques that are used in plant and animal ecology. Emphasis is placed on hypothesis testing, data analysis and experimental field designs. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4474. **Semester Hours:** 4 to 4

**BIOL 5475 - Mechanisms of Human Pathology**
Studies physiological, cellular and biochemical processes in human diseases, with particular focus on non-communicable diseases such as diabetes, cardiovascular disease and diseases of aging such as osteoporosis and macular degeneration. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4475. **Semester Hours:** 3 to 3

**BIOL 5494 - Population and Evolutionary Genetics**
Introduces the genetic processes underlying evolutionary change in microbial, plant and animal populations. Topics include: sources of variation, Hardy-Weinberg equilibrium, population genetic structure, natural selection and other evolutionary forces, quantitative genetics and molecular phylogenetics. Emphasis on experimental data. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4494. **Semester Hours:** 3 to 3

**BIOL 5550 - Cell Signaling**
Lecture by faculty and student presentations cover mechanism of hormones and regulation of various cellular processes through second messenger systems. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4550. **Semester Hours:** 3 to 3

**BIOL 5621 - Immunology**
Studies antibody-antigen interactions, the immune system, inflammation, hypersensitivity, autoimmunity, and recovery from infection. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4621. **Semester Hours:** 3 to 3

**BIOL 5622 - Topics in Immunology**
An in-depth study of immunological concepts. Topics will vary from semester to semester and may range from specifics of immune cell responses to tolerance and autoimmunity. Delivery will include lecture, student presentations, and discussion. Prereq: One year of general biology with a grade of 'C' or higher; general cell biology and general genetics are recommended. Graduate standing or permission of the instructor. Cross-listed with BIOL 4622. **Semester Hours:** 3 to 3

**BIOL 5634 - Biology of Cancer**
Cancer is the second leading cause of death in the United States. This course offers an overview of recent research into the causes, treatments and possible prevention of cancer. Includes a detailed look at the mechanisms of action of various oncogenes. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4634. **Semester Hours:** 3 to 3

**BIOL 5640 - Mammalogy**
Lecture, laboratory, and required field trips. This course provides a general overview of the biology of mammals, including their diversity, distribution, economic importance, and other characteristics that make them of special interest to humans. Coverage will be worldwide, with special emphasis placed on the mammals of Colorado. Prereq: One year of general biology with grades of 'C' (2.0) or higher and
completion of the structure/function core requirement with a grade of 'C' (2.0) or higher. Graduate standing or permission of the instructor. Cross-listed with BIOL 4640. **Semester Hours:** 4 to 4

**BIOL 5644 - Advanced Human Anatomy Laboratory**
Advanced laboratory course in human anatomy. In-depth look at the structural aspects of the human body, emphasizing function. Models, microscope slides, and visual media will supplement cadaver-based dissections. Prereq: One year of general biology and human anatomy with a grade of "C-" (2.0) or higher, graduate standing or permission of instructor. Cross-listed with BIOL 4644. **Semester Hours:** 2 to 2

**BIOL 5674 - Endocrinology**
This systematic survey of the endocrine system looks at the cellular basis and biochemical characteristics of individual endocrine tissues. Their function in the regulation of other endocrinological, physiological, and behavioral events is analyzed. The course emphasizes the human system and complements studies in physiology, behavior and neurobiology. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4674. **Semester Hours:** 3 to 3

**BIOL 5705 - Principles of Biological Research**
Workshop course for students engaged in original research. Covers topics including proposal and grant writing, study design, data management and analysis, discovery dissemination including poster and oral presentations, manuscript presentation, peer review and critical evaluation of scholarly work in biology. Note: Course is aimed at research students at the graduate level but advanced undergraduate students may have the opportunity to take the class. Biology graduate students will take the course at the 6000 level and the 5000 level will be available for advanced undergraduate students. Prereq: Students involved in original research and permission of instructor. Cross-listed with BIOL 6705. **Semester Hours:** 2 to 2

**BIOL 5840 - Independent Study: BIOL**
Note: Registration by special processing form only. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

**BIOL 5910 - Field Studies**
Field studies of individuals, populations and communities comprising a specified ecosystem. Emphasis on field identification of vascular plants and vertebrate animals. Topics include the physical environment, biotic and abiotic interactions, life history, ecological adaptations and biogeography. Note: Lectures and a week-long field trip. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4910. **Semester Hours:** 3 to 3

**BIOL 5939 - Internship**
Designed experience involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Graduate standing. **Semester Hours:** 1 to 6

**BIOL 5974 - Evolution**
A capstone course that draws upon concepts from all fields of biology. Topics include the fossil record mass extinctions, the historical development of the modern synthesis, principles and mechanisms of evolution, current viewpoints and controversies. Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4974. **Semester Hours:** 3 to 3

**BIOL 6002 - Biology Skills Sets - Pedagogy**
The purpose is to introduce sound practice in teaching and innovation in pedagogy. Topics covered will include assessment techniques, creation of learning goals, and research methods in biological education. Prereq: Graduate standing. **Semester Hours:** 1 to 1
BIOL 6010 - Topics in Integrative and Systems Biology
Addresses current research problems in integrative biology and system biology by surveying the peer-reviewed literature. Particular attention will be paid to research topics that integrate multiple levels of biological organization and that investigate how properties of systems emerge from interactions of sub-units. Note: New students to the doctoral program in Integrative and Systems Biology will enroll in this course for the fall and spring terms of their first year. The course can only be taken twice; however, students will be exposed to new material both terms. Prereq: graduate standing. Semester Hours: 3 to 3

BIOL 6650 - Research in Integrative and Systems Biology
Designed to allow doctoral students to conduct research for course credit prior to advancement to candidacy. Prereq: Ph.D. student and permission of instructor. Semester Hours: 1 to 3

BIOL 6655 - Seminar
Prereq: Graduate standing or permission of instructor. Cross-listed with BIOL 4990. Semester Hours: 1 to 1

BIOL 6705 - Principles of Biological Research
Workshop course for students engaged in original research. Covers topics including proposal and grant writing, study design, data management and analysis, discovery dissemination including poster and oral presentations, manuscript presentation, peer review and critical evaluation of scholarly work in biology. Note: Course is aimed at research students at the graduate level but advanced undergraduate students may have the opportunity to take the class. Biology graduate students will take the course at the 6000 level and the 5000 level will be available for advanced undergraduate students. Prereq: Students involved in original research, graduate standing, and permission of instructor. Cross-listed with BIOL 5705. Semester Hours: 2 to 2

BIOL 6764 - Biological Data Analysis
Addresses quantitative aspects of research design, data collection and analysis in the biological sciences. Emphasizes relationships among probability theory, estimation, testing, inference, and interpretation. Hands-on computational methods used throughout the course. Prereq: Graduate standing, BIOL 3763 or equivalent with a "B" (3.0) or higher, or permission of instructor. Semester Hours: 3 to 3

BIOL 6950 - Master’s Thesis
Semester Hours: 1 to 8

BIOL 9000 - INTC: Special Topics
Semester Hours: 1 to 10
Business Law Courses (BLAW)

BLAW 3000 - Legal and Ethical Environments of Business I
Addresses the most fundamental ways the legal and ethical environments of business affect managers. Students are taught to identify legal issues, make ethical judgments about business conduct, and understand the ways ethical and social issues are developed. Topics include actual analysis of legal and ethical issues, ethical theory and its application, law-making processes, contracts, torts, product liability, criminal law, constitutional law and real property. This is a business core course therefore a grade of "C" or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: Junior Standing. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

BLAW 3050 - Business Law and Ethics
Students are taught to identify & resolve legal and ethical issues. Topics include contracts, torts, criminal law, constitutional law, business organizations, employment law, intellectual property and real property law. This is a business core course therefore a grade of "C" or better must be earned to satisfy Business graduation requirements. **Semester Hours:** 3 to 3

BLAW 3100 - Legal and Ethical Implications of Risk
Topics include contracts, torts, constitutional law, intellectual property, agency, business organizations, employment law, and real property law. Special focus is placed on the relationship between insurance and risk and the topics covered. May be taken in lieu of BLAW 3050. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

BLAW 4120 - Legal Issues for Entrepreneurs
Skills in legal and factual analysis and the application of ethical theories are addressed with an emphasis on applicability for entrepreneurs. The cases are drawn from a variety of functional areas such as accounting, information systems, finance, management, marketing and production. Topics include securities, venture capital, employment law and consumer law. Cross-listed with ENTP 3120. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

BLAW 4121 - Legal and Ethical Implications of Risk
Skills in legal and factual analysis and the application of ethical theories are advanced and refined through cases. Topics: insurance law, personal property and intellectual property law, agency, business entities, securities, employment law, and consumer law. Focus is placed on the relationship between insurance, risk and the covered topics. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

BLAW 6500 - Legal Issues for CPA's
Examines advanced legal issues affecting accounting financial reporting. Designed for graduate students who want to understand and improve the links between accounting disclosures and legal requirements. Note: This class is rarely offered. Prereq: BLAW 3000 or BUSN 6540 (or equivalent). **Semester Hours:** 3 to 3
Business Courses (BUSN)

BUSN 5939 - Internship

Semester Hours: 1 to 3

BUSN 6520 - Managing Individuals and Teams

Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. Semester Hours: 3 to 3

BUSN 6521 - Managing Individuals and Teams (Health Section)

Students learn the strengths and weaknesses of their management style and how to work effectively with individual differences. Students also learn how to form teams around purpose/task, diagnose problems and identify and implement solutions by utilizing leadership skills such as setting goals, processes and measures, interpersonal communication, motivation and conflict management. Students develop an understanding of the effect of the organizational and social context on the behavior of individuals and teams. The emphasis is on health care issues and is intended for health care students. Semester Hours: 3 to 3

BUSN 6530 - Data Analysis for Managers

Provides an overview of techniques for data analysis, including multiple regression, sampling theory and applications of probabilistic inference from sample data. The emphasis is upon the applications of these techniques to management problems. Students are required to analyze data sets, present their analyses in written or oral form and defend their conclusions. Semester Hours: 3 to 3 When Offered: FASPRSUM

BUSN 6540 - Legal and Ethical Environment of Business

Students develop a working knowledge of legal and ethical parameters for business decision making. The course addresses the legal system and mechanisms for resolving disputes. Topics include constitutional law, torts, product liability, contracts, property law, consumer protection, intellectual property, business entities and employment law. It stresses the influence of legal issues on organizational decision making. Note: Students can substitute ENTP 6822 but credit cannot be received for both. Health Administration students must take BUSN 6541. Semester Hours: 3 to 3 When Offered: FASPRSUM

BUSN 6541 - Legal and Ethical Environment of Business (Health Section)

Students develop a working knowledge of legal and ethical parameters for business decision making. Addresses the legal system and mechanisms for resolving disputes. Topics include business entities, torts, contracts, employment relationships, litigation and alternative dispute resolution. It stresses the influence of legal issues on organization and decision making. The emphasis is on health care issues and is intended for health care students. Semester Hours: 3 to 3 When Offered: SPRING

BUSN 6550 - Analyzing and Interpreting Accounting Information

Emphasizes the use of accounting statements and data in making business decisions. External financial accounting information and concepts are used for investment and credit decisions. Internal managerial accounting information and concepts are used for product costing, cost analysis and management control. Semester Hours: 3 to 3 When Offered: FASPRSUM
**BUSN 6560 - Marketing Management**
Focuses on the formulation and implementation of a marketing plan in the context of the firm's strengths, overall strategy and competitive environment. Emphasis is on understanding the marketing environment and on decision making skills regarding market selection, pricing, promotion, product configuration and management of distribution channels. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

**BUSN 6610 - Information Systems Management and Strategy**
Examines the strategic, technological, financial and organizational issues involved with the effective management of information technology. Topics include: (1) role and importance of IT in modern organizations (e.g., IT impact on competitiveness, alignment of corporate and IT strategies, IT infrastructures and IT-enabled organizational processes), (2) alternative methods to develop, acquire and implement information systems (e.g., evaluation of IT investments, implementing and managing complex IT projects), (3) nature of IT management (e.g., the evolving roles of enterprise IT management, IT sourcing and contractual relationships) and (4) ethical and security issues associated with IT. Note: Students cannot receive credit if they have taken BUSN 6810 or ISMG 6180. Cross-listed with ISMG 6180. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

**BUSN 6620 - Applied Economics for Managers**
After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firm's interactions with its competitive market environment. Students will learn basic aspects of federal macroeconomic policy designed to achieve stable prices and economic growth. Also, they will learn to understand the measurement of output (GDP), employment and prices; the conduct of monetary and fiscal policy; and the balance of trade. Prereq: BUSN 6530 or FNCE 6290 and BUSN 6550, both may be taken concurrently. **Semester Hours:** 3 to 3

**BUSN 6621 - Applied Economics for Managers (Health Section)**
After taking this course, students should be able to apply economic principles to make optimal decisions given firm cost, demand and market circumstances. Also, they should be able to analyze the firm's interactions with its competitive market environment. Students should understand basic aspects of federal macroeconomics policy designed to achieve stable prices and economic growth. Also, they should understand basic aspects of government regulation of business. The emphasis is on healthcare issues and is intended for healthcare students. Prereq: BUSN 6530 and BUSN 6550, both may be taken may concurrently. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**BUSN 6630 - Management of Operations**
This course is concerned with the production and delivery of goods and services. It provides an overview of a variety of key Operation Management issues including scheduling, capacity determination, facility location and layout, distribution and related topics. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

**BUSN 6631 - Management of Operations (Health Section)**
This course focuses on managing and evaluating the processes that produce and deliver health services. Particular emphasis is on quantitative techniques to support healthcare operations including Monte Carlo simulation, decision analysis, quality improvement methods, forecasting, capacity planning, project management and inventory and supply chain management. While this course is intended for healthcare students, it is open to all. **Semester Hours:** 3 to 3 **When Offered:** SPRING
**BUSN 6640 - Financial Management**
This course is concerned with the business firm’s decisions to make investments and to finance its operations. Students learn to use the tools and theories underlying business valuation, cost of capital, capital budgeting and capital structure. Students with **Semester Hours**: 3 to 3

**BUSN 6710 - Strategic Management**
Concerned with the development of a general management perspective in establishing the strategic direction for an enterprise. Students gain an understanding of strategy formulation and implementation within the context of the global environment. Emphasis on **Semester Hours**: 3 to 3 **When Offered:** FASPRSUM

**BUSN 6711 - Strategic Management (Health Section)**
Concerned with the development of a general management perspective in establishing the strategic direction for a health delivery organization. Students gain an understanding of strategy formulation and implementation within the context of the managed care environment. Emphasis is on the integration of knowledge acquired in the previous functional area courses. Note: This course is intended as a final semester course. Required of Health Administration majors; open to others. Prereq: BUSN 6560 and 6640 - strictly enforced; BUSN 6630 strongly recommended and may be taken concurrently. **Semester Hours**: 3 to 3 **When Offered:** SPRING

**BUSN 6800 - Topics In Business**
Current topics in business are occasionally offered. Prerequisites vary depending on the material covered. Consult the current ‘schedule planner’ for specific offerings and prerequisites. **Semester Hours**: 3 to 3

**BUSN 6811 - IT and New Business Paradigms**
Introduces graduate students to the relationship between information technology and the other functional areas of the business. During the course, students have an opportunity to listen and learn from guest speakers who have been involved with either guiding or interpreting the impact of information technology among functional areas of existing or new business. Through the use of current readings, guest lectures and case analysis, students examine various models of IT and new business paradigms to determine the decisions and success criteria for integrating IT in ongoing business. A unique feature of the class will be the opportunity for students to present proposals and projects to be critiqued by individuals with IT or business experience. Those individuals provide feedback and perspectives regarding potential IT or new business paradigm activities. Prereq: Permission of instructor. **Semester Hours**: 3 to 3

**BUSN 6812 - Business Intelligence Systems**
Covers technical and managerial issues associated with the development and the use of decision support systems, expert systems, impacts and the future of MSS are discussed. The DSS component covers decision theory, model management, and business intelligence with an emphasis on how decision-making can be supported using data warehouses, OLAP, and data mining and visualization tools. The ES component focuses on knowledge acquisition, representation, reasoning, and using advanced intelligent systems over the web. In addition, collaboration, communication, enterprise decision support systems integration, impacts, and the future of MSS are discussed. Prereq: ISMG 6080 (not strictly enforced). Cross-listed with ISMG 6220. **Semester Hours**: 3 to 3

**BUSN 6826 - Supply Chain Management**
Introduces the design, analysis, management, and control of supply chains. Because of continuing advances in globalization, sustainability, and information technology, course emphasis will include integration of processes and systems, relationship management of upstream and downstream players, and strategies that incorporate current and future trends. Note: Cannot receive credit for both BUSN 6826
BUSN 6820 - Business and the Natural Environment
Considers the impact of economic activity on the natural environment and the regulatory, market and corporate voluntary responses to reducing this impact. Topics: externalities, life cycle assessment, closed-loop systems, DfE (Design for the Environment), corporate sustainability reporting, and effective corporate sustainability strategies. **Semester Hours:** 3 to 3

BUSN 6834 - Simulation Modeling
Students learn to model and analyze complex dynamic systems using state-of-the-art software such as Arena. Illustrative application areas include production systems, service systems, distribution systems and health care systems. Topics include creating reliable simulation models, analyzing the input and output from the model and managing simulation projects. A substantial part of the course will be devoted to projects where students define, model and analyze a significant system of their choosing. Note: Cannot receive credit for both DSCI 6480 and BUSN 6834. **Prereq:** Permission of instructor. Cross-listed with DSCI 6480. **Semester Hours:** 3 to 3

BUSN 6840 - Independent Study
**Semester Hours:** 1 to 3

BUSN 6850 - Accounting and Finance for Sustainability
Topics related to business sustainability: corporate sustainability and GHG reporting, limitations of national reporting systems, measuring and reporting environmental liabilities, emissions trading, evaluating green investments, green banking, shareholder activism related to sustainability, microfinance and socially responsible investing. **Prereq:** BUSN 6550 and BUSN 6640 recommended. (not strictly enforced) **Semester Hours:** 3 to 3

BUSN 6860 - Finance in the Sports Entertainment Industries
This course explores the problems and solutions of financing in sports and entertainment business. It focuses on stadium/venue financing, sports team valuation, entertainment event guarantee estimation, player/artist salary issues and managing disparate revenue streams. The course utilizes speakers, articles, problem sets and cases. **Prereq:** BUSN 6640. **Semester Hours:** 3 to 3

BUSN 6870 - Global Climate Change
Global climate change may be one of the most important challenges facing business in the 21st century. This course will introduce the potential impacts of climate, then discuss possible regulatory responses to and business risks and opportunities that may emerge if climate change occurs. Cross-listed with INTB 6870. **Semester Hours:** 3 to 3
Candidate for Degree Courses (CAND)

CAND 5940 - Candidate for Degree

Semester Hours: 0 to 0
Chemistry Courses (CHEM)

CHEM 1000 - Foundations for General Chemistry
This course prepares for CHEM 2031 or 1130. Note: For students with no previous chemistry or with inadequate background. Prereq: MATH 1110 or high school equivalent. Semester Hours: 3 to 3

CHEM 1111 - Freshman Seminar
Semester Hours: 1 to 3

CHEM 1115 - Chemistry Content
Covers content areas of undergraduate chemistry. Topics include periodicity; the mole and chemical bonding; the kinetic theory and states of matter; chemical reactions; solutions and chemical equilibria. Semester Hours: 1 to 3

CHEM 1130 - Engineering General Chemistry
A one-semester non-laboratory version of general chemistry for engineers and those science majors who do not require laboratory credit and do not plan to take a second semester of chemistry. Prereq: One year of high school chemistry or Chem 1000 and Math 1110 (or high school equivalent). Semester Hours: 5 to 5

CHEM 1474 - Core Chemistry: Chemistry For the Consumer
Focuses on the common household chemicals that affect US on a daily basis. Students learn the underlying chemistry of nuclear power, sunscreens, food, cleaning agents, etc. Home-based laboratory experiments with safe, common substances. Semester Hours: 4 to 4

CHEM 2031 - General Chemistry I
Topics include chemical structure, atomic and molecular properties, molecular geometry and bonding, and gas laws. Prepares students to take upper division chemistry courses. Note: a beginning course for science majors, medical technologists, pre-medical and pre-dental students. Prereq: One year of high school chemistry or CHEM 1000 and MATH 1110 (or high school equivalent); Coreq: CHEM 2038. Semester Hours: 3 to 3

CHEM 2038 - General Chemistry Laboratory I
Students perform laboratory experiments on topics covered in CHEM 2031 and gain experience in observing, recording, and interpreting physical and chemical phenomena. Note: Laboratory to accompany CHEM 2031. Coreq: CHEM 2031. Semester Hours: 1 to 1

CHEM 2061 - General Chemistry II
(Continuation of CHEM 2031.) Topics include kinetics, equilibria and thermodynamics. Prereq: CHEM 2031; Coreq: CHEM 2068. Semester Hours: 3 to 3

CHEM 2068 - General Chemistry Laboratory II
Students gain experience with laboratory technique and elementary chemical instrumentation. Note: Laboratory to accompany CHEM 2061 and a continuation of CHEM 2038. Prereq: CHEM 2038; Coreq: CHEM 2061. Semester Hours: 2 to 2

CHEM 2081 - Honors General Chemistry I
Honors Section: Course will omit detailed discussion of stoichiometry and basic atomic structure. Topics include gas laws, thermochemistry, the quantum mechanical model of the atom, periodic properties, bonding and molecular geometry and intermolecular forces. Prepares students to take upper division
chemistry courses. Note: Admission into specific UC Denver program or consent of the instructor is required. Prereq: Working knowledge of high school algebra and advanced high school chemistry. Coreq: CHEM 2088. **Semester Hours:** 3 to 3

**CHEM 2088 - Honors General Chemistry I Laboratory**

Students perform laboratory experiments on topics covered in General Chemistry I (CHEM 2031) or the companion Honors General Chemistry I course. Students gain experience in observing, recording, and interpreting physical and chemical phenomena. Honors General Chemistry I Laboratory is distinguished from the regular General Chemistry Laboratory by smaller sections, and greater access to specialized techniques, open ended experiments, and instrumentation. Students are introduced to college-level laboratory exercises at a faster pace than traditional General Chemistry laboratory coursework, such that at the end of this course, they are ready to take on more sophisticated work. Coreq: CHEM 2031. **Semester Hours:** 2 to 2

**CHEM 2091 - Honors General Chemistry II Lecture**

Course will omit detailed discussion of stoichiometry and basic atomic structure. Topics include gas laws, thermochemistry, the quantum mechanical model of the atom, periodic properties, bonding and molecular geometry and intermolecular forces. Prepares students to take upper division chemistry courses. Note: Admission into specific CU Denver program or consent of the instructor is required. Prereq: CHEM 2081, 2031 and permission of the instructor. Coreq: CHEM 2098. **Semester Hours:** 3 to 3

**CHEM 2098 - Honors General Chemistry II Laboratory**

Students perform laboratory experiments on topics covered in General Chemistry II (CHEM 2061) or the companion Honors General Chemistry II course. Students gain experience in observing, recording, and interpreting physical and chemical phenomena. Honors General Chemistry II Laboratory is distinguished from the regular General Chemistry Laboratory by smaller sections, and greater access to specialized techniques, open ended experiments, and instrumentation. Students use the laboratory skills they developed in Honors General Chemistry I Laboratory to work independently with a special emphasis on recording, interpreting, and expressing data, chemical safety, the scientific literature, innovation in the laboratory, and presentation of scientific information in oral and poster formats. Prereq: CHEM 2038 or CHEM 2088. Coreq: CHEM 2061. **Semester Hours:** 2 to 2

**CHEM 2300 - Nutritional Chemistry**

Introduces nutrition intended primarily for majors in nursing, physical therapy, physical education. Topics include structure and metabolism of carbohydrates, lipids and proteins, functions of vitamins and minerals and food constituents. Prereq: CHEM 1000, 1474 or high school chemistry. **Semester Hours:** 3 to 3

**CHEM 2840 - Independent Study: CHEM**

**Semester Hours:** 1 to 3

**CHEM 2939 - Internship**

Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

**CHEM 3011 - Inorganic Chemistry**

The fundamentals of inorganic chemistry, including: atomic, molecular and crystal structures; the energetics of reactions, acid-base interactions; and the chemistry of main group and transition metal
elements, including coordination and organometallic chemistry. Prereq or Coreq: CHEM 3421 or 3491.

**Semester Hours:** 3 to 3

**CHEM 3018 - Inorganic Chemistry Laboratory**
Combines theoretical concepts with hands-on laboratory experience and introduces students to modern inorganic chemistry. Experiments cover both main group and transition metal chemistry with an emphasis on synthesis, characterization, and application of inorganic compounds. Prereq or Coreq: CHEM 3011.

**Semester Hours:** 2 to 2

**CHEM 3111 - Analytical Chemistry**
Topics include sampling, volumetric analyses, instrumental analyses and statistical treatment of data. Note: Lecture course for chemistry, biology, medical technology and environmental students. Prereq: CHEM 2061.

**Semester Hours:** 3 to 3  
**When Offered:** FALL

**CHEM 3118 - Analytical Chemistry Laboratory**
Students gain experience with technique of sampling and analysis, including an introduction to instrumental methods. Note: Laboratory course to be taken concurrently with CHEM 3111. Prereq: CHEM 2068; Coreq: CHEM 3111.

**Semester Hours:** 2 to 2  
**When Offered:** FALL

**CHEM 3411 - Organic Chemistry I**
Lecture course designed to introduce the study of structure, reactions, properties, and mechanisms of organic molecules. Prereq: CHEM 2061.

**Semester Hours:** 4 to 4

**CHEM 3418 - Organic Chemistry Laboratory I**
Laboratory course to augment concepts of CHEM 3411, illustrating the practical aspects of organic chemistry. Prereq: CHEM 3411 or 3481.

**Semester Hours:** 1 to 1

**CHEM 3421 - Organic Chemistry II**
Lecture course designed to introduce the study of structure, reaction, properties and mechanisms of organic molecules. Note: Continuation of CHEM 3411. Prereq: CHEM 3411.

**Semester Hours:** 4 to 4

**CHEM 3428 - Organic Chemistry Laboratory II**
Laboratory course to augment concepts of CHEM 3421, illustrating the practical aspects of organic chemistry. Prereq: CHEM 3418; Prereq or Coreq: CHEM 3421 or CHEM 3491.

**Semester Hours:** 1 to 1

**CHEM 3481 - Honors Organic Chemistry I**
An accelerated introduction to fundamental structural, analytical, and mechanistic aspects of organic molecules and their reactions. Prereq: CHEM 2061 and CHEM 2068 (or equivalent), and approval of the instructor.

**Semester Hours:** 4 to 4

**CHEM 3488 - Honors Organic Chemistry Laboratory I**
Honors laboratory class to accompany CHEM 3481. Students will learn the basic techniques of organic synthesis, purification and analysis while carrying out extended experiments.

**Semester Hours:** 2 to 2

**CHEM 3491 - Honors Organic Chemistry II**
Second semester organic chemistry. Theoretical concepts and practical aspects of organic structure, mechanism, synthesis and analysis. Note: Required for chemistry majors and open to all students. No joint credit with CHEM 3421. Prereq: CHEM 3411. Coreq: CHEM 3498.

**Semester Hours:** 4 to 4
CHEM 3498 - Honors Organic Chemistry Laboratory II
In small groups, students use the chemical literature to devise multi-step syntheses and determine reaction mechanisms for organic compounds. Note: Laboratory course required for chemistry majors. Open to non-majors on approval of the instructor. Prereq or Coreq: CHEM 3491. Semester Hours: 2 to 2

CHEM 3510 - Physical Chemistry: Biological Applications.
Fall. An introduction to physical chemistry that examines the principles of thermodynamics, equilibrium solutions, and kinetics as they apply to biological systems. Calculus required to learn the principles is presented in the course. Prereq: Chem 2061, Math1120, and Phys 2020. Semester Hours: 4 to 4

CHEM 3810 - Biochemistry
Introduces the principles of biochemistry for science and health science-oriented majors. Designed to cover the important aspects of modern biochemistry. Prereq: BIOL 2061 and CHEM 3411. Semester Hours: 4 to 4

CHEM 3840 - Independent Study
Semester Hours: 1 to 3

CHEM 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and at least a 2.75 GPA. Semester Hours: 1 to 3

CHEM 4121 - Instrumental Analysis
Surveys instrumental methods of analysis. Emphasis on spectrophotometry, electrochemistry, chromatography and radiochemical techniques. Prereq: CHEM 3111, 3421 or 3491, and PHYS 2331; Coreq for Chemistry majors: CHEM 4128. Semester Hours: 3 to 3 When Offered: SPRING

CHEM 4128 - Instrumental Analysis Laboratory
Laboratory practice to accompany CHEM 4121. One hour of discussion and three hours of laboratory, with an emphasis on writing laboratory reports. Note: Required of chemistry majors and open to other students in CHEM 4121. Coreq: CHEM 4121. Semester Hours: 2 to 2 When Offered: SPRING

CHEM 4511 - Physical Chemistry I
Includes study of the laws of thermodynamics, thermochemistry, chemical equilibria, solutions and statistical mechanics. Prereq: PHYS 2331; Coreq: MATH 3511. Semester Hours: 3 to 3 When Offered: FALL

CHEM 4518 - Physical Chemistry Laboratory I
Instruction in the experimental techniques of physical chemistry with emphasis on the properties of gases, thermodynamics and chemical equilibrium. Prereq: CHEM 3118; Coreq: CHEM 4511. Semester Hours: 2 to 2

CHEM 4521 - Physical Chemistry II
Continuation of CHEM 4511, with emphasis on chemical kinetics, quantum mechanics, molecular structure and spectroscopy. Prereq: CHEM 4511 and MATH 3511. Semester Hours: 3 to 3 When Offered: SPRING
CHEM 4538 - Physical Chemistry II Laboratory
Instruction in the experimental techniques of physical chemistry with emphasis on quantum chemistry, spectroscopy and chemical kinetics. Prereq: CHEM 4518; Coreq: CHEM 4521. Semester Hours: 2 to 2

CHEM 4700 - Environmental Chemistry
A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil, and air environments. Prereq: CHEM 3111 or 3411. Cross-listed with CHEM 5700. Semester Hours: 3 to 3

CHEM 4810 - General Biochemistry I
Topics include structure, conformation, and properties of proteins; enzymes, mechanisms and kinetics; carbohydrates, lipids and membranes, and energetics. Prereq: CHEM 3421 or 3491. Cross-listed with CHEM 5810. Semester Hours: 3 to 3

CHEM 4820 - General Biochemistry II
Topics include biosynthesis and metabolism of carbohydrates, lipids and amino acids, information processing. Note: continuation of CHEM 4810. Prereq: CHEM 4810. Cross-listed with CHEM 5820. Semester Hours: 3 to 3 When Offered: SPRING

CHEM 4828 - Biochemistry Lab
Focuses on modern laboratory techniques for biochemical research, with an emphasis on methods for protein isolation, purification, and identification. Students perform experiments involving (but not limited to) chromatography, electrophoresis, spectrophotometry, and protein activity assays. Prereq: CHEM 3810 or 4810. Semester Hours: 2 to 2

CHEM 4835 - Biochemistry of Cancer
Explores the biochemical aspects of cancer causation and treatment. Topics include DNA and protein damage, oncogenes and tumor suppressors, the chemistry of chemotherapeutic agents, and the mechanisms of resistance to anticancer drugs. Prereq: CHEM 3810, 4810, or 5810. Cross-listed with CHEM 5835. Semester Hours: 3 to 3

CHEM 4840 - Independent Study: Chem
Prereq: Permission of instructor required. Semester Hours: 1 to 6

CHEM 5010 - Advanced Inorganic Chemistry
Covers the fundamental principles of inorganic chemistry. Topics include atomic structure and periodicity, molecular symmetry, bonding, structural chemistry, main-group chemistry, coordination chemistry, and organometallic chemistry. Prereq: CHEM 3011 and CHEM 4521 or equivalent, or permission of instructor. Semester Hours: 4 to 4

CHEM 5071 - RM-MSMSP: Atoms and Properties of Matter
Systematic study of the structure of the atom, how atoms interact to form bonds, how matter behaves at the molecular level, the periodic table, and the macroscopic properties of matter. Concepts are linked to other scientific, mathematical, societal, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: Permission of project director. Semester Hours: 4 to 4

CHEM 5072 - RM-MSMSP: Interactions of Elements and Compounds
Systematic study of solubility (physical and chemical properties of solutions and the chemistry of acids, bases, pH, and buffer solutions), oxidation or reduction reactions, reaction energetics (thermodynamics
and kinetics), and applications of chemistry to environmental, biochemical, and nutritional problems. Concepts are linked to other scientific, mathematical, societal, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: CHEM 5071 (or equivalent) and permission of project director. **Semester Hours:** 4 to 4

**CHEM 5073 - RM-MSMSP Research Experience for Teachers - Chemistry Cohort**
The Research Experience for Teachers (RET) program will be a five-week research exploration in which twelve RM-MSMSP teachers will raise their level of relevant scientific understanding by engaging in a "hands on" workshop, transforming what they have learned into new curricular materials that will improve the scientific abilities of their students and hopefully stimulate them to consider a STEM career. Note: Credit may not apply toward any CLAS degree. **Semester Hours:** 1 to 6

**CHEM 5110 - Advanced Analytical Chemistry**
Explores the fundamental principles of analytical chemistry. Topics will focus on meteorology (the science of making measurements), measurements based on energy transfer (e.g. spectroscopic analysis), and measurements based on mass transfer (e.g. chemical separations and electrochemistry). Prereq: Undergraduate instrumental analysis or equivalent. **Semester Hours:** 4 to 4

**CHEM 5130 - Surface Analytical Techniques**
Surveys widely used techniques for surface analysis, including thermal desorption, mass spectrometry, X-ray photoelectron spectroscopy, and surface electrochemistry. Applications to catalyst and organic or biological surfaces are included. Prereq: CHEM 4121 or equivalent. **Semester Hours:** 3 to 3

**CHEM 5250 - Chemometrics: Data Analysis**
Provides chemists and environmental scientists with the basic statistical skills for effective data analysis and experimental design. Minimal theoretical detail is provided; practical applications and graphical techniques are emphasized. **Semester Hours:** 3 to 3

**CHEM 5310 - Advanced Organic Chemistry**
An exploration of structure, bonding and reactivity in organic modules that includes extensive analysis of the chemical literature, culminating in written and seminar presentations of individual projects. Prereq: CHEM 3421 and 4521. **Semester Hours:** 4 to 4

**CHEM 5510 - Computational Chemistry**
Classical and ab initio molecular dynamics are covered from theory to application. Students have access to high-performance computational resources and cover current topics in the field. Prereq: CHEM 4521 or permission of instructor. **Semester Hours:** 3 to 3

**CHEM 5520 - Molecular Structure and Spectra**
Applies quantum mechanics to the understanding of molecular structure and spectroscopy. Prereq: CHEM 4521. **Semester Hours:** 3 to 3

**CHEM 5530 - Advanced Physical Chemistry**
Explores fundamental properties of molecules (bond length and strength, the potential energy surface, reaction rates, etc.) and examines how these properties are measured, using original literature as the primary source, and culminating in written and seminar presentations of individual projects. Prereq: CHEM 4511, 4521 and 4538 or equivalent. **Semester Hours:** 4 to 4
CHEM 5550 - Applications of Group Theory in Chemistry
Introduces the basic principles of the group theoretical method as well as its applications in organic, inorganic, and physical chemistry. Covers Mo's for main-group and transition metal compounds, ligand field theory, molecular vibrations, and electron absorption spectroscopy. Prereq: CHEM 4521 or permission of instructor. Semester Hours: 3 to 3

CHEM 5600 - Topics in Chemistry
Note: Topics vary from year to year. Prereq: Graduate standing. Semester Hours: 1 to 6

CHEM 5700 - Environmental Chemistry
A discussion of the sources, reactions, transport, effects, and fates of chemical species in the water, soil and air environments. Prereq: CHEM 3111, 3411, and graduate standing. Cross-listed with CHEM 4700. Semester Hours: 3 to 3

CHEM 5710 - Air Pollution Chemistry
Chemical processes occurring in the atmosphere are discussed. Includes application to air pollution problems, including urban air pollution, air quality standards, non-urban air pollution, acid deposition, and stratospheric pollution. Prereq: CHEM 4521 or 4700. Semester Hours: 3 to 3

CHEM 5720 - Atmospheric Sampling and Analysis
Fundamentals of environmental sampling specifically applied to the atmosphere are discussed. Includes a variety of techniques for the measurement of monitoring gaseous, semi-volatile and particulate air pollutants, techniques for the measurement of criteria pollutants, chemical and physical measurements of particulate and air toxins. Prereq: CHEM 4700 or CHEM 5710 or permission of instructor. Semester Hours: 3 to 3

CHEM 5810 - General Biochemistry I
Topics include structure, conformation, and properties of proteins; enzymes, mechanisms and kinetics; carbohydrates, lipids and membranes, and energetics. Prereq: CHEM 3421 or 3491. Cross-listed with CHEM 4810. Semester Hours: 3 to 3

CHEM 5820 - General Biochemistry II
Topics include biosynthesis and metabolism of carbohydrates, lipids and amino acids, information processing. Note: Continuation of CHEM 5810. Prereq: CHEM 5810. Cross-listed with CHEM 4820. Semester Hours: 3 to 3 When Offered: SPRING

CHEM 5835 - Biochemistry of Cancer
Explores the biochemical aspects of cancer causation and treatment. Topics include DNA and protein damage, onogenes and tumor suppressors, the chemistry of chemotherapeutic agents, and the mechanisms of resistance to anticancer drugs. Prereq: CHEM 3810, 4810, or 5810. Cross-listed with CHEM 4835. Semester Hours: 3 to 3

CHEM 5840 - Independent Study
Semester Hours: 1 to 3

CHEM 5939 - Internship
Semester Hours: 1 to 6

CHEM 5950 - Master's Thesis
Semester Hours: 1 to 8
CHEM 6000 - Chemistry Seminar
Faculty and student presentations of CU-Denver research projects and other current chemistry topics. Note: All chemistry students are encouraged to attend, but credit is given only to those who present seminars. Prereq: Graduate standing. **Semester Hours:** 1 to 3

CHEM 6001 - Master’s Research Seminar
Students present a formal seminar to the department describing their master’s research work. Note: Required for all students completing a thesis-based master's degree; optional for those completing master's projects. Prereq: Participation in master's thesis or project research; CHEM 6000. **Semester Hours:** 1 to 1

CHEM 6002 - Chemistry Seminar I
The art of listening to and giving a chemistry seminar. Introduces the chemical literature, the pedagogical techniques of seminar giving, and the critical thinking skills required to understand a technical presentation. Note: Seminar presentations by faculty, outside speakers, and advanced graduate students are analyzed by the students participating in the course. Prereq: Graduate standing. **Semester Hours:** 1 to 1

CHEM 6003 - Chemistry Seminar II
Students prepare and give a chemical seminar based on a literature paper. Note: Seminar presentations by students and outside speakers are analyzed by students in the course. Prereq: Graduate standing. **Semester Hours:** 1 to 1

CHEM 6840 - Independent Study: Chem
**Semester Hours:** 1 to 6

CHEM 6950 - Master’s Thesis
**Semester Hours:** 1 to 6

CHEM 6960 - Master’s Report
**Semester Hours:** 1 to 6
Chinese Courses (CHIN)

CHIN 1000 - China and the Chinese
A multidisciplinary introduction to Chinese society both past and present. Prehistory, birth of imperial China, literature, philosophy, religion, nationalism, revolution, modernization, contemporary life, social structure, gender, food, family life, population policy, ethnicity, popular culture, economics and politics. Note: This course is taught in English. **Semester Hours:** 3 to 3

CHIN 1010 - Beginning Chinese I
A basic introduction to Chinese language and culture. Students study pronunciation, vocabulary, grammar and simple writing techniques. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. No previous study of Chinese is required. **Semester Hours:** 5 to 5

CHIN 1020 - Beginning Chinese II
(Continuation of CHIN 1010.) Further practice of pronunciation, study of vocabulary, grammar, and simple writing techniques. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: CHIN 1010. **Semester Hours:** 5 to 5

CHIN 1071 - Mandarin Chinese for the Professions
Provides students with language skills and cultural knowledge in the context of conducting business with Chinese. Students develop elementary language skills for communication, cultural awareness and business etiquette via structured thematic units with business scenarios and simulations. Note: Chinese 1071 cannot be taken to fulfill language requirements; nor can it be used to substitute for Chinese 1010. **Semester Hours:** 3 to 3

CHIN 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

CHIN 2110 - Second Year Chinese I
Continuing development of listening, speaking, reading, and writing skills in practical Chinese, with grammar review and introduction of the Chinese dictionary. In addition to contemporary Chinese, there is some emphasis on Chinese classical materials, such as proverbs. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: CHIN 1020. **Semester Hours:** 3 to 3

CHIN 2120 - Second Year Chinese II
(Continuation of CHIN 2110.) Satisfies the fourth semester language requirement at most graduate schools. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: CHIN 2110. **Semester Hours:** 3 to 3
CHIN 2840 - Independent Study
Semester Hours: 1 to 3

CHIN 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

CHIN 2970 - Contemporary Chinese Cinema
Introduces students to Chinese cinema, one of the most powerful and often controversial modes of representing society, culture, history and politics in China. Note: Taught in English. All films have English subtitles. No previous study of Chinese language or culture is required. Semester Hours: 3 to 3

CHIN 3200 - Contemporary Chinese Society and Culture
Provides students with an overview of the systems in modern China (such as educational, political and economical), its family and interpersonal constructs and the elements of modern China found in popular cultures. It also exposes students to rudimentary and practical use of the Chinese language. Note: This course is taught in English. Semester Hours: 3 to 3

CHIN 3300 - Special Topics on Chinese Film
Studies the cultural, social and historical conditions that have shaped Chinese cinema. May focus on one Chinese speaking country or more than one (including but not limited to China, Taiwan and Hong Kong). May focus on a particular period (pre-Cultural revolution, for example) or a particular theme (urban cinema or martial arts films, for example). Semester Hours: 3 to 3

CHIN 3840 - Independent Study: CHIN
Semester Hours: 1 to 3

CHIN 3995 - Travel Study
A travel study abroad course to one or more Chinese speaking countries. Topics of the course will vary depending on the instructor, sites visited and focus of the course. Topics may include intensive language training, film studies, contemporary issues, literary and cultural studies, etc. Semester Hours: 3 to 3

CHIN 5100 - Methods of Teaching Chinese Immersion
Provides students with an overview of teaching in an immersion environment in Mandarin Chinese. Topics include: immersion models, language/contents and culture, first and second language acquisition, curriculum design, national and state curriculum standards, program management and program assessment. Note: Taught in English. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Semester Hours: 3 to 3
CLAS Interdepartmental Courses (CLAS)

CLAS 2939 - Internship
Semester Hours: 1 to 3

CLAS 3939 - Internship
Semester Hours: 1 to 6

CLAS 4840 - Independent Study: CLAS
Semester Hours: 1 to 3
Culturally & Linguistically Diverse Education Courses (CLDE)

CLDE 4810 - Orientation to Bilingual Education
This academy provides a basic introduction to bilingual education programs. The content consists of introductory material regarding the legal and historical foundations of bilingual education, bilingual and ESL program model overviews, materials to address **Semester Hours:** 1 to 1

CLDE 4820 - Language Development and Acquisition
This academy provides a basic introduction to bilingual and English as a second language education programs. The content consists of introductory material regarding second language acquisition theories and stages, factors that influence learning a second **Semester Hours:** 1 to 5

CLDE 4825 - Techniques in Teaching English as a Second Language
Develops skills in using a variety of classroom techniques to teach English as a second language. The course is a practical presentation of ESL methods and techniques. Examples of classroom practices are taken from the full educational spectrum, from publ **Semester Hours:** 3 to 3

CLDE 4830 - Instructional Delivery Methods for Second Language Learners
This academy provides more in-depth information on different instructional methods and how to apply them in working with English language learners. It looks into practical strategies for modifying lessons using sheltered instruction in order to accommodate **Semester Hours:** 1 to 1

CLDE 4910 - CO-TOP Practicum
The CO-TOP Paraeducator Certification requires 2 credit hours of field experience, each credit hour representing at least 90 hours in the field. Field experiences should balance out a person’s previous experience to create a more marketable set of skills **Semester Hours:** 2 to 2

CLDE 5010 - Foundations of Language, Literacy and Culture
Designed for veteran and novice teachers to gain an understanding of the broad fields of literacy and language education. Participants examine key educational philosophies based on the writings of important scholars in the field, on topics such as the pol **Semester Hours:** 3 to 3

CLDE 5030 - Language & Literacy Acquisition Div Lrn
This course investigates the relationship between language and literacy acquisition. In the context of first and second language acquisition across the lifespan, the course focuses on bilingual and second language development, and on the acquisition of l **Semester Hours:** 3 to 3

CLDE 5035 - Language and Literacy: Acquisition, Processes, and Cognition, Part II
This course is the second of a two-part sequence in language and literacy. Students examine research and develop practices relating to language and literacy acquisition, in particular by linguistically diverse learners in community and classroom contexts. **Semester Hours:** 3 to 3

CLDE 5050 - Assessment & Advocacy for Diverse Learners
The purpose of this course is to prepare teachers to gather and use assessment results within a strengths-based framework to advocate for appropriate programming, placement and instruction, and ongoing progress monitoring for students who are culturally a **Semester Hours:** 3 to 3
CLDE 5070 - Linguistic Analysis of English: Implications for Teaching
A descriptive linguistic approach to English grammar with a functionalist view of language and discourse processing. The course examines the historical evolution of English from its origins and the impact this has had on its grammar and syntax. A sociolin Semester Hours: 3 to 3

CLDE 5140 - Multicultural Education
Develops an understanding of the pluralistic nature of U.S. society and the role of the school within this social context. Examines the legal and cultural history of language education in Colorado and the U.S. as well as the impact of changing demographi Semester Hours: 3 to 3

CLDE 5150 - Culture of the Classroom
Provides a classroom-focused examination on linguistic and cultural diversity. The legal history of language and literacy education in the U.S., Colorado and local school districts is studied with a focus on implications for instructional practice. Partic Semester Hours: 3 to 3

CLDE 5160 - Historical, Legal And Cultural Foundations For The Education Of Immigrant And Language Minority Stdn
This course includes an overview of U.S. and Colorado history and legislation related to bilingual education and second language education, as well as current and historical immigration issues as they impact students, families, communities, schools, and e Semester Hours: 3 to 3

CLDE 5170 - Race, Class and Culture in Public Schools
This course will focus on understanding culture and diversity, recognizing the role of inherited power and privilege in both individual and institutional interactions and developing a philosophy of social justice and equity in education. Semester Hours: 3 to 3

CLDE 5180 - Working with Communities and Families
This course will focus on the importance of understanding and connecting with the community and families of the students in a school, by exploring the socio-cultural histories of students and communities. We will develop practical strategies and activitie Semester Hours: 3 to 3

CLDE 5190 - Culturally Responsive Pedagogy and Practices
This course focuses on developing practical tools for culturally responsive, inclusive instructional strategies, classroom management and curriculum and lesson planning. Prereq: LALC 5170 and 5180. Semester Hours: 3 to 3

CLDE 5430 - Gender as Culture
Examines ways some implicit conceptual and value systems regarding gender are manifested in schools, homes and work places. Provides students with knowledge and insight from interdisciplinary scholarship of gender in society. Semester Hours: 3 to 3

CLDE 5800 - Sociolinguistics: Language Variation and Implications for Teaching
Provides an introduction to the field of educational sociolinguistics and research of classroom discourse. Students are introduced to the collection and analysis of oral and written language in educational contexts. Basic concepts and key issues regardi Semester Hours: 3 to 3

CLDE 5820 - Techniques in Teaching English as a Second Language
Develops skills in using a variety of classroom techniques to teach English as a second language. The course is a practical presentation of ESL methods and techniques. Examples of classroom practices are taken from the full educational spectrum, from publ Semester Hours: 3 to 3
CLDE 5821 - English Phonology for TESOL
Provides ESL teachers with a basic understanding of the English sound system and the implications for teaching. Designed for teachers with a limited background in phonetics and phonology. An understanding of some of the basic concepts in linguistics is ad

Semester Hours: 3 to 3

CLDE 5822 - Internet for ESL Teachers
Provides teachers with the opportunity to explore Internet resources for instructional use and professional development. While learning how to access, navigate, and write for the Internet, class participants examine and devise instructional uses of the In

Semester Hours: 3 to 3

CLDE 5825 - Methods and Materials of Language Teaching
Provides an in-depth study of curriculum options for learners of English as a second language. Participants examine and apply strategies and materials for developing linguistic and academic capabilities of language learners.

Semester Hours: 3 to 3

CLDE 5826 - Language Teaching Lab
Provides participants with a classroom-based examination of language teaching based on theoretical tenets of language acquisition and language teaching methods. Students develop lessons around particular language points and work with the professor and pee

Semester Hours: 3 to 3

CLDE 5830 - Workshop in Multicultural Education
Provides students with the experiences in multicultural methodology training. How to utilize community members, para-professionals, and peers to facilitate learning in a multicultural environment.

Semester Hours: 3 to 3

CLDE 5835 - Special Topics: Literacy and Language
Specific topics vary but will include the exploration of literacy development and instruction in particular populations or with specific focuses.

Semester Hours: 0.5 to 3

CLDE 5840 - Independent Study: CLDE

Semester Hours: 1 to 4

CLDE 5920 - Readings in Multicultural Education
Provides students with an opportunity to examine the current literature as it relates to trends in contemporary issues in the area of multicultural education.

Semester Hours: 3 to 3

CLDE 6090 - Research Seminar
An advanced course which focuses on specific issues in language, language acquisition and language teaching.

Semester Hours: 3 to 3

CLDE 6713 - Introduction to Language Policy
The legal, ideological, and historic foundations of language policies are examined. Also examined are connections with related topics such as language rights, language and power, and issues from the sociology of language, such as language loyalty.

Semester Hours: 3 to 3

CLDE 6840 - Independent Study: CLDE

Semester Hours: 1 to 4
CLDE 6912 - Seminar and Practicum in Literacy and Language, ESL and Bilingual Education
Provides opportunities for advanced students in the M.A. program to apply concepts acquired in course work and other educational experiences to specific situations. Students will work in schools, classrooms, administrative offices, or community centers (a **Semester Hours:** 3 to 3)

CLDE 6950 - Master's Thesis
An advanced course focusing on Master's Thesis development and presentation. **Semester Hours:** 4 to 4

CLDE 7410 - Communication and Control in Systems Change
Examines educational settings -- classrooms, schools, school districts, corporate and clinical settings, church basements and community centers -- as systems, and explores strategies for change. Participants draw on interdisciplinary perspectives of indiv **Semester Hours:** 3 to 3
Chinese Studies Courses (CNST)

CNST 4000 - Senior Seminar in Chinese Studies
Capstone course in the Chinese studies program in which students design and carry out independent research projects on topics of their choice. Prereq: CNST 1000 and 15 hours in Chinese studies.

**Semester Hours:** 3 to 3
Communication Courses (COMM)

COMM 1001 - Presentational Speaking
Theory and practice of presentational speaking in a variety of contexts to accomplish goals of asserting individuality, building community, securing adherence, discovering knowledge and belief, and offering perspectives. Semester Hours: 3 to 3

COMM 1011 - Fundamentals of Communication
Studies communication theory and application. Topics include communication models, interpersonal communication and the concept of self, nonverbal communication, message preparation and analysis, and decision making. Semester Hours: 3 to 3

COMM 1021 - Introduction to Media Studies
Explores the role of contemporary media in shaping our sense of ourselves and our world. The class surveys a broad array of critical approaches to understanding media. Semester Hours: 3 to 3

COMM 1041 - Interpersonal Communication
Focuses on the theory and development of interpersonal relationships. Issues covered include the communication process, self versus others, self-esteem, person perception, the attraction process, nonverbal communication, relationship development and family communication. Semester Hours: 3 to 3

COMM 1051 - Topics in Communication
Special classes for faculty-directed experiences examining communication issues and problems not generally covered in the curriculum. Semester Hours: 1 to 3

COMM 1111 - Freshman Seminar
Semester Hours: 1 to 3

COMM 2000 - Persuasion
Examines influence and communication at individual, group, organizational and societal levels. A theoretical and applied analysis of persuasion, including examination of public opinion, individual attitudes, beliefs, values, sources, credibility, ethics, and certain message and audience variables. Semester Hours: 3 to 3

COMM 2020 - Communication, Citizenship, and Social Justice
Introduction to debates about, and means of practicing citizenship and social justice in America. Issues may include democratic participation, electoral politics, community activism, inequality, and environmental degradation. Semester Hours: 3 to 3

COMM 2045 - Workplace Communication
Focuses on theories and practices of leadership, teambuilding, relationship development and other workplace communication skills. The goal of the course is to help students develop advanced communication strategies for managing workplace challenges. Semester Hours: 2 to 3

COMM 2050 - Business and Professional Speaking
Development of communication skills often used in business and professional settings, with an emphasis on various kinds of presentations. Semester Hours: 3 to 3
COMM 2140 - Argumentation
Examines classical through contemporary theories, with special attention to types of propositions, burden of proof, analysis of issues, evidence, reasoning, fallacies, case construction, refutation and ethics. **Semester Hours:** 3 to 3

COMM 2800 - Technology for Workplace Communication
Provides students with skills necessary to apply computer technologies that are currently used in the workplace. Topics include the Internet and software applications in advanced work processing, presentations, spreadsheets and databases. **Semester Hours:** 3 to 3

COMM 2939 - Internship
**Semester Hours:** 1 to 3

COMM 3120 - Technical Communication
 Develops students' abilities to prepare and communicate information in diverse media, including written, spoken, graphic and electronic. Technical communication focuses on communication used on the job as opposed to communication in academic settings. Students prepare communications in response to real-world cases and demonstrate the integration of communication through these different media. Prereq: ENGL 1020. **Semester Hours:** 3 to 3

COMM 3271 - Communication and Diversity
Explores the complexities of communication across diverse identities such as race, ethnicity, and gender. Course attempts to seek solutions via sharing meaning and discovering common ground. **Semester Hours:** 3 to 3

COMM 3275 - Family Communication
Explores family communication processes in traditional and nontraditional families through examination of theories and research on the family. Topics include conflict, family secrets, decision-making, and practical guidelines for improved communication in families. **Semester Hours:** 3 to 3

COMM 3620 - Television Production
Introduces basic television production principles, practices, techniques and equipment. **Semester Hours:** 3 to 3

COMM 3650 - Media and Society
Approaches communication from a historical perspective, examining how major revolutions in communication technologies have influenced and impacted society over time. **Semester Hours:** 3 to 3

COMM 3680 - Mass Communication Skills
Instruction in writing and editing skills associated with the production of print, radio, television and film. **Semester Hours:** 3 to 3

COMM 3840 - Independent Study
**Semester Hours:** 1 to 3

COMM 3939 - Internship
Applies communication or technical communication concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3
COMM 4011 - Research Methods: Quantitative
Examines quantitative techniques used by researchers in communication, including laboratory research, field and survey research, content analysis, and interaction analysis. Objective of the course is to give students enough background to read critically in the social sciences. Cross-listed with COMM 5011. **Semester Hours:** 3 to 3

COMM 4015 - Communication and Civility
Examines the central role of communication in the creation of a civil and humane society. The definition, understanding, and practices of civility in public discourse and in professional, social, and personal relationships are explored. Film, literature, music, and other texts are utilized to illustrate key concepts and serve as catalysts for discussion. **Semester Hours:** 3 to 3

COMM 4020 - Feminist Perspectives on Communication
Introduces the communication theories of major feminist theorists such as Mary Daly, Bell Hooks, and Sonia Johnson, with a focus on how their theories challenge and transform current understandings of communication. Cross-listed with COMM 5020. **Semester Hours:** 3 to 3

COMM 4021 - Perspectives on Rhetoric
Introduces major theories of rhetoric from classical through contemporary times, including the theories of Aristotle, Cicero, I. A. Richards, Kenneth Burke, Michel Foucault and Jurgen Habermas. Cross-listed with COMM 5021. **Semester Hours:** 3 to 3

COMM 4022 - Critical Analysis of Communication
Surveys research methods used to analyze messages from rhetorical and critical perspectives. Cross-listed with COMM 5022. **Semester Hours:** 3 to 3

COMM 4031 - Perspectives on Communication
Overview of major theories and literature in the communication field that serve as the foundation for the study of communication. **Semester Hours:** 3 to 3

COMM 4040 - Communication, Prisons, and Social Justice
Examines the U.S. prison-industrial complex and enables students to envision ways of reducing crime and improving democracy by engaging in community service. Note: This course fulfills the communication department's exit class requirement. Prereq: COMM 2020, or permission of instructor. Cross-listed with COMM 5040. **Semester Hours:** 3 to 3

COMM 4041 - Theories and Methods in Interpersonal Communication
Examines theories and methods used in interpersonal communication and the role of communication in the development, maintenance, and deterioration of personal relationships. Attention is also given to major types of personal relationships, such as marriage and friendship, and how communication reflects and determines the dynamics of those relationships. Cross-listed with COMM 5041. **Semester Hours:** 3 to 3

COMM 4045 - Female-Male Friendships
Explores friendships between women and men across the life cycle and the role of communication in those friendships. Topics include how such friendships impact self-concepts, advantages of female-male friendships, and barriers to female-male friendships. Cross-listed with COMM 5045. **Semester Hours:** 3 to 3
COMM 4111 - Theories of Leadership
Examines research and applications related to the major theories of leadership. Emphasizes a critical reading of research confirming or denying various theories, and stresses the historical development of theories of leadership behavior and characteristics. Cross-listed with COMM 5111. Semester Hours: 3 to 3

COMM 4120 - Writing Technical Reports
Studies various aspects of technical reports, including the theoretical applications behind making reports persuasive. Topics include informal and formal reports, progress reports, feasibility reports, empirical reports and recommendation reports. Prereq: COMM 3120. Cross-listed with COMM 5120. Semester Hours: 3 to 3

COMM 4130 - User Interface Design and Analysis
Introduces graphical user interface design through analysis of empirical studies and hands-on application of human-computer interaction principles. Prereq: COMM 3120. Cross-listed with COMM 5130. Semester Hours: 3 to 3

COMM 4151 - Group Communication
Analysis of the impact of small groups on individual behavior in social and task settings. Focuses on the dynamics of small groups, including leadership, roles, norms, goals and cohesion. Semester Hours: 3 to 3

COMM 4210 - Communication and Discourse Analysis
Examines the structural and functional factors affecting the formation, comprehension, and retention of speech. Topics include language norms, speech acts, implicature and meaning, and the analysis of conversations. Cross-listed with COMM 5210. Semester Hours: 3 to 3

COMM 4212 - Software Documentation
Covers all aspects of software documentation, including project management, audience/use analysis, document design, organization, writing and interviewing techniques, editing, production, and diagnostic and usability testing. Prereq: Previous technical writing course, industry experience, or permission of instructor. Cross-listed with COMM 5212. Semester Hours: 3 to 3

COMM 4215 - Ethics in Communication
Designed to help students identify and address the daily ethical challenges that occur in private, social, and professional contexts. Focus is on recognizing, analyzing, and resolving real-world ethical dilemmas using diverse approaches to ethical decision making. Cross-listed with COMM 5215. Semester Hours: 3 to 3

COMM 4220 - Human Information Processing
Considers the formation of attitude, mental set, and perception as a response to discourse organization. Examines several methods to analyze human responses to linguistic, graphic, and mathematical/statistical representations. Semester Hours: 3 to 3

COMM 4221 - Research Methods: Qualitative
Applies qualitative research methods to human communication practices, including the processes of designing qualitative studies, collecting data, analyzing and interpreting data, and reporting results. Cross-listed with COMM 5221. Semester Hours: 3 to 3
COMM 4222 - Professional Communication
Provides strategies for analyzing workplace situations, constructing clear and persuasive arguments and narratives to bring about positive change in organizations, and assessing the effectiveness of communication. Prereq: COMM 3120, industry experience or permission of instructor. Cross-listed with COMM 5222. Semester Hours: 3 to 3

COMM 4230 - Nonverbal Communication
Studies nonverbal behaviors that accompany or replace verbal communication, including macrospace, proxemics, kinesics, facial expression, eye contact, gestures, vocal characteristics, touch and personal adornment. Cross-listed with COMM 5230. Semester Hours: 3 to 3

COMM 4240 - Organizational Communication
Relationships among such communication factors as flow, media, channel, diversity, information delivery and organization functioning, morale, and productivity. Cross-listed with COMM 5240. Semester Hours: 3 to 3

COMM 4245 - Advanced Organizational Communication
Explores critical theoretical perspectives on communication in complex organizations, including issues and standpoints that have not been included in mainstream theory and research. Analyzes assumptions and pragmatic solutions associated with these theories. Cross-listed with COMM 5245. Semester Hours: 3 to 3

COMM 4255 - Negotiations and Bargaining
Designed to allow students to study theories and apply concepts that explain the influences of various forms of mediating, reducing, and/or resolving conflict among individuals, groups, organizations, nations and cultures. Cross-listed with COMM 5255. Semester Hours: 3 to 3

COMM 4260 - Communication and Conflict
Studies the influence of communication on intrapersonal, interpersonal, intragroup and intergroup conflict situations. Semester Hours: 3 to 3

COMM 4262 - Mediation
Explores theoretical and practical aspects of mediation in a variety of contexts ranging from divorce mediation to labor-management disputes. Cross-listed with COMM 5262. Semester Hours: 3 to 3

COMM 4265 - Gender and Communication
Explores the relationship between gender and communication, including how language treats women and men differently and verbal and nonverbal differences in women's and men's communication. Cross-listed with COMM 5265. Semester Hours: 3 to 3

COMM 4268 - Communication and Diversity in U.S. History
Explores issues of diversity and community in the construction of U.S. culture. Emphasis on legal and historical texts that codify or challenge majoritarian notions of difference and systems of social control. Cross-listed with COMM 5268. Semester Hours: 3 to 3

COMM 4270 - Intercultural Communication
Examines the philosophy, process, problems, and potentials unique to communication across cultural boundaries. Semester Hours: 3 to 3
COMM 4280 - Communication and Change
Examines the role of communication in change processes of various kinds, including social change and diffusion of innovations. **Semester Hours:** 3 to 3

COMM 4282 - Environmental Communication
Studies the communication processes involved in policies and practices affecting natural and human environments. Cross-listed with COMM 5282. **Semester Hours:** 3 to 3

COMM 4285 - Communication Processes in Technology Transfer
Surveys research addressing technology transfer processes. Students examine and critique models of technology transfers and the role of individuals, artifacts, and small teams in technology transfers. Cross-listed with COMM 5285. **Semester Hours:** 3 to 3

COMM 4290 - Web Design
Covers writing web pages in HTML, beginning Photoshop, style sheets, bitmapped animations, issues of usable layout, navigability, structure, typography, and color on the web. Projects require students to develop static web sites. Prereq: COMM 3120 or permission of instructor. Cross-listed with COMM 5290. **Semester Hours:** 3 to 3

COMM 4300 - Multimedia Authoring
Analysis and evaluation of components of multimedia development and hands-on instruction featuring computer animation for advertising, training, and educational projects. Cross-listed with COMM 5300. **Semester Hours:** 3 to 3

COMM 4310 - Advanced Multimedia Authoring
Builds upon the fundamentals of multimedia authoring to develop advanced skills and theory. Students concentrate on developing advanced multimedia applications for education or industry. Prereq: COMM 4300, COMM 5300, previous multimedia experience, or permission of instructor. Cross-listed with COMM 5310. **Semester Hours:** 3 to 3

COMM 4320 - Content Management
Centers on large-scale documentation development using XML. Students learn "Single-source" documentation management, a cost-effective way to centralize information and extend it across different platforms and different audiences. Prereq: COMM 4290, COMM 5290 or permission of instructor. Cross-listed with COMM 5320. **Semester Hours:** 3 to 3

COMM 4330 - Dynamic Web Design Workshop
Introduces large-scale website development using XML and PHP. Students learn "Single-source" documentation management, a cost-effective way to centralize information and extend it across different platforms (wireless, browsers, help files) and audiences (specialists, managers, customers). Note: Independently taught modules may be taken separately or concurrently. Prereq: COMM 4290, 5290 or knowledge of HTML, CSS, and Photoshop. Cross-listed with COMM 5330. **Semester Hours:** 1 to 1

COMM 4340 - Advanced Web Design
Focuses on user interface design for the World Wide Web using Dynamic HTML, pre-designed CGI scripts downloadable from the Web, animated vector and bitmapped graphics. Note: continuation of COMM 4290, 5290. Prereq: COMM 4290, 5290 or knowledge of HTML, CSS, and Photoshop. Cross-listed with COMM 5340. **Semester Hours:** 3 to 3
COMM 4410 - Science Writing  
An intensive practice in composing for diverse science publication genres and venues and practice in analyzing the ways consumers obtain and process information about scientific developments and controversies. Prereq: at least one writing or composition course at the 3000 level or above. Cross-listed with COMM 5410. **Semester Hours:** 3 to 3

COMM 4500 - Health Communication  
Examines the role of communication in a wide range of health contexts. Topics include cultural constructions of health and illness, public health communication campaigns, client-provider interactions, telemedicine, community-based health programs and medical journalism. Cross-listed with COMM 5500. **Semester Hours:** 3 to 3

COMM 4510 - Usability Testing  
Teaches students how to evaluate technical documentation testing needs, evaluate testing options for their feasibility and costs/benefits, design and carry out a usability testing plan, evaluate and write up test results for actual client documents and products. Prereq: COMM 3120 or permission of instructor. Cross-listed with COMM 5510. **Semester Hours:** 3 to 3

COMM 4550 - Rhetorics of Medicine & Health  
This senior seminar/bridge class investigates persuasion in contemporary medicine/health care from clinical settings through mass media. Case studies explore contagion, health policy, the body, death, and biopower. The course requires extensive discussion of readings and an original research project. Cross-listed with COMM 5550. **Semester Hours:** 3 to 3

COMM 4600 - Media Theory  
Surveys a broad array of critical and interpretive approaches to the study of media. Approaches include political economic, semiotic, rhetorical, psychoanalytic, feminist, and cultural. Cross-listed with COMM 5600. **Semester Hours:** 3 to 3

COMM 4601 - You Are What You Eat: Food as Communication  
Because food provides a communication channel for much of who we are as individuals, as a community and as a society this course analyzes food as a form of communication. Cross-listed with COMM 5601. **Semester Hours:** 3 to 3

COMM 4605 - Rhetorical Theory for Technical Communication  
Examines the principles of rhetorical theory and its relationship to technical communication. Students analyze traditional and contemporary rhetorical theories and apply them to contemporary issues of document design. Prereq: COMM 3120, COMM 3650, COMM 4021, COMM 4120, COMM 4200, COMM 4240, COMM 4215, or permission of instructor. Cross-listed with COMM 5605. **Semester Hours:** 3 to 3

COMM 4620 - Health Risk Communication  
Acquaints students with contemporary theory, research, and practice in health risk communication. Prereq: COMM 3120, COMM 4011, COMM 4200, COMM 4500, or permission of instructor. Cross-listed with COMM 5620, HBSC 4620/5620, ENVS 5620, and PBHL 4620. **Semester Hours:** 3 to 3

COMM 4621 - Visual Communication  
Explores the social, cultural, and behavioral effects of visual images in a variety of contexts, including graffiti, film, advertising, art and architecture. Cross-listed with COMM 5621. **Semester Hours:** 3 to 3
COMM 4635 - Principles of Public Relations
Introduces theory and practice in the field of public relations, including topics such as effects upon society, public opinion, target audiences, adaptation to the media, uses, laws and ethics. Cross-listed with COMM 5635. **Semester Hours:** 3 to 3

COMM 4640 - Advanced Public Relations
Examines key public relations practices in private, not-for-profit and public sectors. Strategic planning processes, research methods, evaluation, reports, and collateral development are addressed, with an emphasis on the intersection of theory and practice. Prereq: COMM 4635. Cross-listed with COMM 5640. **Semester Hours:** 3 to 3

COMM 4665 - Principles of Advertising
Provides a fundamental understanding and appreciation of advertising in today's global society, including consumer motivation, buying behavior, research, creative development and media planning. Cross-listed with COMM 5665. **Semester Hours:** 3 to 3

COMM 4680 - Mass Media Law And Policy
Covers issues of mass communication and the law and ethics, including issues of the First and Fourth Amendments, communication regulations, intellectual property, public access and obscenity. Cross-listed with COMM 5680. **Semester Hours:** 3 to 3

COMM 4681 - Communication Issues in Trial Court Practices and Processes
Introduces students to communication and language research aimed at improving the fairness, reliability, and validity of court and judicial processes, including lawyer-client interviews, interrogatories, jury selection, jury instructions, witness examination, and the use of language evidence in court. Prereq: ENGL 2030 or equivalent. Cross-listed with COMM 5681. **Semester Hours:** 3 to 3

COMM 4682 - Political Communication
Examines the communication processes involved in mediated political events. Topics include the stages of the campaign process, media coverage of the political campaign process, and literacy skills needed to understand political advertising. **Semester Hours:** 3 to 3

COMM 4683 - Media in the Courtroom
Critically examines the complex issues raised by media involvement in criminal court cases, including effects of pre-trial publicity, cameras in the courtroom, participants who argue their stories to the media, the CSI effect, and other phenomena relevant to media influence. **Semester Hours:** 3 to 3

COMM 4688 - Senior Seminar: Transitioning from College to Career
Synthesis experience for communication majors designed to prepare students to enter the job market and to integrate and reflect on their experience in communication. Prereq: Communication major status. **Semester Hours:** 3 to 3

COMM 4690 - Applied Communication
**Semester Hours:** 3 to 3

COMM 4700 - Writing Practicum
Methods course focused on strategies of research design and writing for undergraduate students working on theses for Latin honors and for master's students seeking to complete a major research paper or thesis. Cross-listed with COMM 5700. To be eligible **Semester Hours:** 3 to 3
COMM 4710 - Topics in Communication
Special classes for faculty-directed experiences examining communication issues and problems not generally covered in the curriculum. Cross-listed with COMM 5710. **Semester Hours:** 1 to 3

COMM 4720 - Dynamics of Global Communication
Explores the word "global" in a communication context by analyzing the relationships between world media, international events, economics and the geopolitics of culture. This analysis is supported by the application of mass, human and cultural communication theory. Cross-listed with COMM 5720. **Semester Hours:** 3 to 3

COMM 4750 - Legal Reasoning and Writing
Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Prereq: ENGL 1020, 2030, and any one 3000-level English/writing course or COMM 3120. Cross-listed with COMM 5750, PSCI 4757, 5747. **Semester Hours:** 3 to 3

COMM 4755 - Universal Internet Usability
Beginning web design course that introduces students to writing websites for non-native English speakers and for users with disabilities. Students learn HTML, style sheets, basic Photoshop, layout, navigability, and usability for these groups. Prereq: COMM 3120 (or equivalent) or permission of instructor. Cross-listed with COMM 5755. **Semester Hours:** 3 to 3

COMM 4760 - New Media
Analysis and discussion of the nature, use, and effects of computer-mediated communication in interpersonal, work, educational, societal and international contexts. Focus is on the social aspects of computer-mediated communication rather than on specific software or hardware technologies. Prereq: COMM 2800 or permission of instructor. Cross-listed with COMM 5760. **Semester Hours:** 3 to 3

COMM 4805 - Graphics
Instructs technical communicators in designing information that communicates visually as well as verbally. Students focus on document design; illustration; information retrieval; desktop publishing using Quark Xpress; and working with typesetters, printers and graphic artists. Prereq: COMM 3120. Cross-listed with COMM 5805. **Semester Hours:** 3 to 3

COMM 4830 - Visual Principles in Technical Communication
Explores the rhetoric and usability of typography and text displays, tables and charts, data graphics, technical pictorials, page and screen layout, and other visual elements of technical communication. The course focuses on principles and research, not software training. Prereq: COMM 3120. Cross-listed with COMM 5830. **Semester Hours:** 3 to 3

COMM 4840 - Independent Study
Prereq: Permission of instructor. **Semester Hours:** 1 to 3

COMM 4995 - Travel Study
Students study various topics in a foreign country led by a CU-Denver instructor; register through the Office of International Education. Cross-listed with COMM 5995. **Semester Hours:** 1 to 15
COMM 5011 - Research Methods: Quantitative
Examines quantitative techniques used by researchers in communication, including laboratory research, field and survey research, content analysis, and interaction analysis. Objective of the course is to give students enough background to read critically in the social sciences. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4011. Semester Hours: 3 to 3

COMM 5015 - Communication and Civility
Examines the central role of communication in the creation and humane society. The definition, understanding, and practices of civility in public discourse and in professional, social, and personal relationships are explored. Film, literature, music, and other texts are utilized to illustrate key concepts and serve as catalysts for discussion. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Semester Hours: 3 to 3

COMM 5020 - Feminist Perspectives on Communication
Introduces the communication theories of major feminist theorists such as Mary Daly, Bell Hooks, and Sonia Johnson, with a focus on how their theories challenge and transform current understandings of communication. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4020. Semester Hours: 3 to 3

COMM 5021 - Perspectives on Rhetoric
Introduces major theories of rhetoric from classical through contemporary times, including the theories of Aristotle, Cicero, I. A. Richards, Kenneth Burke, Michel Foucault and Jurgen Habermas. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4021. Semester Hours: 3 to 3

COMM 5022 - Critical Analysis of Communication
Surveys research methods used to analyze messages from rhetorical and critical perspectives. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4022. Semester Hours: 3 to 3

COMM 5025 - Philosophy of Communication
Surveys critical, epistemological, social, scientific, pedagogical, philosophical, and legal perspectives on communication, exploring the constitutive relationship between communication and knowledge formation. Students engage communication scholarship as a social activity and become acclimated to the function of a discipline in creating a professional identity. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Semester Hours: 3 to 3

COMM 5040 - Communication, Prisons, and Social Justice
Examines the U.S. prison-industrial complex and enables students to envision ways of reducing crime and improving democracy by engaging in community service. Note: This course fulfills the communication department’s exit class requirement. Prereq: COMM 2020, or permission of instructor. Cross-listed with COMM 4040. Semester Hours: 3 to 3

COMM 5041 - Theories and Methods in Interpersonal Communication
Examines theories and methods used in interpersonal communication and the role of communication in the development, maintenance, and deterioration of personal relationships. Attention is also given to major types of personal relationships, such as marriage and friendship, and how communication reflects and determines the dynamics of those relationships. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4041. Semester Hours: 3 to 3
COMM 5045 - Female-Male Friendships
Explores friendships between women and men across the life cycle and the role of communication in those friendships. Topics include how such friendships impact self-concepts, advantages of female-male friendships, and barriers to female-male friendships. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4045. **Semester Hours:** 3 to 3

COMM 5111 - Theories of Leadership
Examines research and applications related to the major theories of leadership. Emphasizes a critical reading of research confirming or denying various theories, and stresses the historical development of theories of leadership behavior and characteristics. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4111. **Semester Hours:** 3 to 3

COMM 5120 - Writing Technical Reports
Studies various aspects of technical reports, including the theoretical applications behind making reports persuasive. Topics include informal and formal reports, progress reports, feasibility reports, empirical reports and recommendation reports. Prereq: COMM 5405. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4120. **Semester Hours:** 3 to 3

COMM 5130 - User Interface Design and Analysis
Introduces graphical user interface design through analysis of empirical studies and hands-on application of human-computer interaction principles. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4130. **Semester Hours:** 3 to 3

COMM 5140 - Argumentation
Examines classical through contemporary theories, with special attention to types of propositions, burden of proof, analysis of issues, evidence, reasoning, fallacies, case constructions, refutation and ethics. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

COMM 5151 - Group Communication
Analysis of the impact of small groups on individual behavior in social and task settings. Focuses on the dynamics of small groups, including leadership, roles, norms, goals and cohesion. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

COMM 5205 - Empirical Research Methods for Communication
Provides exposure to empirical research methods involved in communication research: surveys, experimental design, research reviews and meta-analysis, case study, ethnography, textual analysis, process tracing, others. Basic quantitative data analysis methods (correlation, chi-square, t-tests, ANOVA) are introduced. **Semester Hours:** 3 to 3

COMM 5210 - Communication and Discourse Analysis
Examines the structural and functional factors affecting the formation, comprehension, and retention of speech. Topics include language norms, speech acts, implicature and meaning, and the analysis of conversations. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4210. **Semester Hours:** 3 to 3

COMM 5212 - Software Documentation
Covers all aspects of software documentation, including project management, audience/use analysis, document design, organization, writing and interviewing techniques, editing, production, and diagnostic and usability testing. Prereq: Undergraduates with senior standing may enroll with permission of
instructor. Previous technical writing course or industry experience. Cross-listed with COMM 4212.

**Semester Hours:** 3 to 3

**COMM 5215 - Ethics in Communication**
Designed to help students identify and address the daily ethical challenges that occur in private, social, and professional contexts. Focus is on recognizing, analyzing, and resolving real-world ethical dilemmas using diverse approaches to ethical decision making. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4215. **Semester Hours:** 3 to 3

**COMM 5220 - Human Information Processing**
Examines the formation of attitude, mental set, and perception as a response to discourse organization. Examines several methods to analyze human responses to linguistic, graphic, and mathematical or statistical representations. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

**COMM 5221 - Research Methods: Qualitative**
Applies qualitative research methods to human communication practices, including the processes of designing qualitative studies, collecting data, analyzing and interpreting data, and reporting results. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4221. **Semester Hours:** 3 to 3

**COMM 5222 - Professional Communication**
Provides strategies for analyzing workplace situations, constructing clear and persuasive arguments and narratives to bring about positive change in organizations, and assessing the effectiveness of communication. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4222. **Semester Hours:** 3 to 3

**COMM 5230 - Nonverbal Communication**
Studies nonverbal behaviors that accompany or replace verbal communication, including macrospace, proxemics, kinesics, facial expression, eye contact, gestures, vocal characteristics, touch and personal adornment. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4230. **Semester Hours:** 3 to 3

**COMM 5240 - Organizational Communication**
Relationships among such communication factors as flow, media, channel, diversity, information delivery and organization functioning, morale, and productivity. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4240. **Semester Hours:** 3 to 3

**COMM 5245 - Advanced Organizational Communication**
Explores critical theoretical perspectives on communication in complex organizations, including issues and standpoints that have not been included in mainstream theory and research. Analyzes assumptions and pragmatic solutions associated with these theories. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4245. **Semester Hours:** 3 to 3

**COMM 5250 - Difference Matters and Organizational Communication**
Explores theoretical and practical issues regarding relationships between communication processes in contemporary U.S. organizations and socially constructed aspects of individuals' identity (e.g., race, gender, sexual orientation, class, ability and age). Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3
COMM 5255 - Negotiations and Bargaining
Designed to allow students to study theories and apply concepts that explain the influences of various forms of mediating, reducing, and/or resolving conflict among individuals, groups, organizations, nations and cultures. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4255. **Semester Hours:** 3 to 3

COMM 5260 - Communication and Conflict
Studies the influence of communication on intrapersonal, interpersonal, intragroup and intergroup conflict situations. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

COMM 5262 - Mediation
Explores theoretical and practical aspects of mediation in a variety of contexts ranging from divorce mediation to labor-management disputes. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4262. **Semester Hours:** 3 to 3

COMM 5265 - Gender and Communication
Explores the relationship between gender and communication, including how language treats women and men differently and verbal and nonverbal differences in women's and men's communication. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4265. **Semester Hours:** 3 to 3

COMM 5268 - Communication and Diversity in U.S. History
Explores issues of diversity and community in the construction of U.S. culture. Emphasis on legal and historical texts that codify or challenge majoritarian notions of difference and systems of social control. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4268. **Semester Hours:** 3 to 3

COMM 5270 - Intercultural Communication
Examines the philosophy, process, problems, and potentials unique to communication across cultural boundaries. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

COMM 5280 - Communication and Change
Examines the role of communication in change processes of various kinds, including social change and diffusion of innovations. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

COMM 5282 - Environmental Communication
Studies the communication processes involved in policies and practices affecting natural and human environments. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4282. **Semester Hours:** 3 to 3

COMM 5285 - Communication Processes in Technology Transfer
Surveys research addressing technology transfer processes. Students examine and critique models of technology transfers and the role of individuals, artifacts, and small teams in technology transfers. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4285. **Semester Hours:** 3 to 3
COMM 5290 - Web Design
Covers writing web pages in HTML, beginning Photoshop, style sheets, bitmapped animations, issues of usable layout, navigability, structure, typography, and color on the web. Projects require students to develop static web sites. Prereq: COMM 5405, COMM 5505, COMM 5805. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4290. **Semester Hours:** 3 to 3

COMM 5300 - Multimedia Authoring
Analysis and evaluation of components of multimedia development and hands-on instruction featuring computer animation for advertising, training, and educational projects. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4300. **Semester Hours:** 3 to 3

COMM 5310 - Advanced Multimedia Authoring
Builds upon the fundamentals of multimedia authoring to develop advanced skills and theory. Students concentrate on developing advanced multimedia applications for education or industry. Prereq: COMM 5300, COMM 4300, previous multimedia experience. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4310. **Semester Hours:** 3 to 3

COMM 5320 - Content Management
Centers on large-scale documentation development using XML. Students learn "Single-source" documentation management, a cost-effective way to centralize information and extend it across different platforms and different audiences. Prereq: COMM 5290, COMM 4290. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4320. **Semester Hours:** 3 to 3

COMM 5330 - Dynamic Web Design Workshop
Introduces large-scale website development using XML and PHP. Students learn "Single-source" documentation management, a cost-effective way to centralize information and extend it across different platforms (wireless, browsers, help files) and audiences. **Semester Hours:** 1 to 1

COMM 5340 - Advanced Web Design
Focuses on user interface design for the World Wide Web using Dynamic HTML, pre-designed CGI scripts downloadable from the Web, animated vector and bitmapped graphics. Note: continuation of COMM 5290, 4290. Prereq: COMM 5290, COMM 4290 or knowledge of HTML, and CSS, and Photoshop. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4340. **Semester Hours:** 3 to 3

COMM 5405 - Technical Communication: Writing
Provides intensive practice in technical writing using simulations of professional writing situations. Students analyze diverse audience and communication problems, including those with challenging technical content. Special emphasis is placed on the document-design process and techniques of self-editing. Prereq: Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

COMM 5410 - Science Writing
An intensive practice in composing for diverse science publication genres and venues and practice in analyzing the ways consumers obtain and process information about scientific developments and controversies. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4410. **Semester Hours:** 3 to 3
COMM 5500 - Health Communication
Examines the role of communication in a wide range of health contexts. Topics include cultural constructions of health and illness, public health communication campaigns, client-provider interactions, telemedicine, community-based health programs and medical journalism. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4500. **Semester Hours:** 3 to 3

COMM 5505 - Technical Communication: Editing
Provides intensive practice in editing technical documents. Emphasis is on contextual editing (i.e., editing parts of a document as they relate to the whole document and the communication purpose). Students discuss the editor's role, review editing strategies, and examine methods of increasing document usability and readability. Prereq: COMM 5405. Undergraduates with senior standing may enroll with permission of instructor. **Semester Hours:** 3 to 3

COMM 5510 - Usability Testing
Teaches students how to evaluate technical documentation testing needs, evaluate testing options for their feasibility and costs/benefits, design and carry out a usability testing plan, evaluate and write up test results for actual client documents and products. Prereq: COMM 5405. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4510. **Semester Hours:** 3 to 3

COMM 5550 - Rhetorics of Medicine & Health
This senior seminar/bridge class investigates persuasion in contemporary medicine/health care from clinical settings through mass media. Case studies explore contagion, health policy, the body, death, and biopower. The course requires extensive discussion of readings and an original research project. Cross-listed with COMM 4550. **Semester Hours:** 3 to 3

COMM 5600 - Media Theory
Surveys a broad array of critical and interpretive approaches to the study of media. Approaches include political economic, semiotic, rhetorical, psychoanalytic, feminist, and cultural. Cross-listed with COMM 4600. **Semester Hours:** 3 to 3

COMM 5601 - You Are What You Eat: Food as Communication
Because food provides a communication channel for much of who we are as individuals, as a community and as a society this course analyzes food as a form of communication. Cross-listed with COMM 4601. **Semester Hours:** 3 to 3

COMM 5605 - Rhetorical Theory for Technical Communication
Examines the principles of rhetorical theory and its relationship to technical communication. Students analyze traditional and contemporary rhetorical theories and apply them to contemporary issues of document design. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4605. **Semester Hours:** 3 to 3

COMM 5620 - Health Risk Communication
Acquaints students with contemporary theory, research, and practice in health risk communication. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4620, HBSC 5620/4620, ENVS 5620, and PBHL 4620. **Semester Hours:** 3 to 3
COMM 5621 - Visual Communication
Explores the social, cultural, and behavioral effects of visual images in a variety of contexts, including graffiti, film, advertising, art and architecture. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4621. Semester Hours: 3 to 3

COMM 5635 - Principles of Public Relations
Introduces theory and practice in the field of public relations, including topics such as effects upon society, public opinion, target audiences, adaptation to the media, uses, laws and ethics. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4635. Semester Hours: 3 to 3

COMM 5640 - Advanced Public Relations
Examines key public relations practices in private, not-for-profit and public sectors. Strategic planning processes, research methods, evaluation, reports, and collateral development are addressed, with an emphasis on the intersection of theory and practice. Prereq: COMM 4635 or COMM 5635. Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4640. Semester Hours: 3 to 3

COMM 5665 - Principles of Advertising
Provides a fundamental understanding and appreciation of advertising in today's global society, including consumer motivation, buying behavior, research, creative development and media planning. Prereq: Undergraduates with senior standing may enroll with permission of instructor. Cross-listed with COMM 4665. Semester Hours: 3 to 3

COMM 5680 - Mass Communication Law and Policy
Covers issues of mass communication and the law and ethics, including issues of the First and Fourth Amendments, communication regulations, intellectual property, public access and obscenity. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4680. Semester Hours: 3 to 3

COMM 5681 - Communication Issues in Trial Court Practices and Processes
Introduces students to communication and language research aimed at improving the fairness, reliability, and validity of court and judicial processes, including lawyer-client interviews, interrogatories, jury selection, jury instructions, witness examination, and the use of language evidence in court. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4681. Semester Hours: 3 to 3

COMM 5682 - Political Communication
Examines the communication processes involved in mediated political events. Topics include the stages of the campaign process, media coverage of the political campaign process, and literacy skills needed to understand political advertising. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Semester Hours: 3 to 3

COMM 5700 - Writing Practicum
Methods course focused on strategies of research design and writing for undergraduate students working on theses for Latin honors and for master's students seeking to complete a major research paper or thesis. Cross-listed with COMM 4700. Semester Hours: 3 to 3
COMM 5710 - Topics in Communication
Special classes for faculty-directed experiences examining communication issues and problems not generally covered in the curriculum. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4710. **Semester Hours:** 1 to 3

COMM 5720 - Dynamics Global Communication
Explores the word "global" in a communication context by analyzing the relationships between world media, international events, economics and the geopolitics of culture. This analysis is supported by the application of mass, human and cultural communication theory. Cross-list COMM 4720. **Semester Hours:** 3 to 3

COMM 5750 - Legal Reasoning and Writing
Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4750, PSCI 4757, 5747. **Semester Hours:** 3 to 3

COMM 5755 - Universal Internet Usability
Beginning web design course that introduces students to writing websites for non-native English speakers and for users with disabilities. Students learn HTML, style sheets, basic Photoshop, layout, navigability, and usability for these groups. Prereq: COMM 3120 (or equivalent). Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4755. **Semester Hours:** 3 to 3

COMM 5760 - Computer-Mediated Communication
Analysis and discussion of the nature, use, and effects of computer-mediated communication in interpersonal, work, educational, societal and international contexts. Focus is on the social aspects of computer-mediated communication rather than on specific software or hardware technologies. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4760. **Semester Hours:** 3 to 3

COMM 5805 - Graphics
Instructs technical communicators in designing information that communicates visually as well as verbally. Students focus on document design; illustration; information retrieval; desktop publishing using Quark Xpress; and working with typesetters, printers and graphic artists. Prereq: COMM 5405. Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4805. **Semester Hours:** 3 to 3

COMM 5830 - Visual Principles in Technical Communication
Explores the rhetoric and usability of typography and text displays, tables and charts, data graphics, technical pictorials, page and screen layout, and other visual elements of technical communication. The course focuses on principles and research, not software training. Prereq: COMM 5405. Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4830. **Semester Hours:** 3 to 3

COMM 5840 - Independent Study
Prereq: Permission of instructor. **Semester Hours:** 1 to 3
COMM 5939 - Internship
Applies communication or technical communication concepts and skills in supervised employment situations. **Semester Hours:** 1 to 6

COMM 5995 - Travel Study
Students study various topics in a foreign country led by a CU-Denver instructor; register through the Office of International Education. Prereq: Undergraduates with senior standing may enroll by permission of instructor. Cross-listed with COMM 4995. **Semester Hours:** 1 to 15

COMM 6013 - Introduction to Graduate Work in Communication
Designed to familiarize students with the philosophical, ideological, and methodological bases of study in communication. Note: Required of all graduate students in M.A. program in communication. **Semester Hours:** 3 to 3

COMM 6300 - Educational Perspectives on Communication
Explores various relationships between education and communication. Note: May repeat this course up to three times with differing topics. **Semester Hours:** 3 to 3

COMM 6410 - Usability Test Design Project
Students collaborate with faculty and client to design and implement a usability test and evaluate its results, focusing upon an actual computer interface, or instructional documentation (in online form, hard copy, or both). Prereq: COMM 5510 and COMM 6205. **Semester Hours:** 3 to 6

COMM 6950 - Master's Thesis
**Semester Hours:** 1 to 6

COMM 6960 - Master's Project
**Semester Hours:** 1 to 3
Counseling Psych/Counselor Education Courses (CPCE)

CPCE 5010 - Counseling Theories
Focuses on counseling theories: Psychodynamic, Adlerian, Person-Centered, Existential, Behavioral, including DBT, Cognitive Behavioral, Gestalt, & Reality Therapy. Also includes an overview of the history of the counseling profession and the role and f Semester Hours: 3 to 3

CPCE 5100 - Techniques of Counseling
Students practice basic counseling skills, develop therapeutic intervention strategies, and improve the effectiveness of their communication by practicing listening and responding. Videotaped role-plays are utilized. Prereq: CPCE 5010. Semester Hours: 3 to 3

CPCE 5110 - Group Counseling
Learn group theory and dynamics. Practice facilitating a group. Learn about screening, group membership and styles, roles and behavior, termination of groups. Extensive practice in laboratory setting. Prereq: CPCE 5010 and CPCE 5100. Semester Hours: 3 to 3

CPCE 5120 - Counseling Grief and Loss
This elective course is an introduction and study of the field of bereavement in counseling. Studies focus on relating to client’s experience with grief, loss and/or trauma through lectures, speakers, videos, readings, experiential in-class simulations, Semester Hours: 3 to 3

CPCE 5150 - Family Therapy Theory
Introduces couple and family theories and intervention strategies. Emphasis on historical development of systems theory. Prereq: CPCE 5010. Semester Hours: 3 to 3

CPCE 5160 - Techniques in Family Therapy
Intervention strategies with families. Emphasis on application of techniques evolving from treatment models. Video-taped role plays are utilized. Prereq: CPCE 5150. Semester Hours: 3 to 3

CPCE 5170 - Issues In Family Studies
A systemic overview of current family configurations and issues families face in today’s society, including gender, intimate partner violence, step-families, grief, loss, divorce, homelessness and others. The course includes life cycle approaches and nor Semester Hours: 3 to 3

CPCE 5180 - Counseling Couples
A didactic and experiential course dealing with techniques of couples counseling. Emphasis is on assessment, diagnosis and treatment of couples’ problems. Special topics include gay and lesbian couples, cross-cultural couples, remarried couples, cohabiting Semester Hours: 3 to 3

CPCE 5280 - Addictions Counseling
Includes treatment strategies for clinicians in addressing varieties of addictive behaviors including substance, abuse, eating disorders, gambling and sexual addiction. Cultural dimensions of addictions are also considered. Semester Hours: 3 to 3

CPCE 5330 - Counseling Issues and Ethics
An in-depth examination of ethical and legal issues in the field. Topics include working with individuals and family systems, licensure, professional associations, record keeping and statutory requirements. Prereq: CPCE 5010 and CPCE 5100. Semester Hours: 3 to 3
**CPCE 5400 - Career Development**
Development of competencies in career development counseling. Theories of work systems, psychological dynamics, information systems, and decision making models are covered. Interacting with work or family systems and other subsystems is emphasized. **Semester Hours:** 3 to 3

**CPCE 5425 - Developing & Implementing a School Counseling Program: ASCA**
The course is specifically designed to provide training for school counselors and related professionals to develop and implement a comprehensive counseling and guidance program, which incorporates the ASCA National Model. Prereq: CPCE 5010, 5100, 5110, **Semester Hours:** 3 to 3

**CPCE 5810 - Multicultural Counseling Issues for Individuals and Families**
Students engage in an in-depth racism, White privilege and other "isms," and assumptions as applied to ethnic-racial populations. Students learn alternative approaches to counseling African Americans, Asian Americans, Latino(a)s, American Indians, women, **Semester Hours:** 3 to 3

**CPCE 5815 - Introduction to School Counseling**
This course emphasizes the unique and varied role of the school counselor and school counseling programs in diverse public schools. The course focus will be on learning the various skills necessary to meet the needs of school age students and others in the **Semester Hours:** 3 to 3

**CPCE 5820 - Strategies of Agency Counseling**
Students learn the role and function of the counselor in community agency settings. Intervention strategies, consultation, administration of community mental health agencies. Prereq: CPCE 5010. **Semester Hours:** 3 to 6

**CPCE 5825 - The Business Of Private Practice**
This course is designed to teach students how to start and manage a successful private practice in counseling. Emphasis is placed on understanding and navigating the business side of professional counseling. **Semester Hours:** 3 to 3

**CPCE 5830 - Special Topics**
Specific topics vary from semester to semester. Intervention strategies with children, issues in abuse, violence, incest, legal issues, adult counseling, grief, death and dying, private practice. **Semester Hours:** 1 to 6

**CPCE 5835 - Gender And Sexual Orientation**
Investigates constructions of gender and sexuality in the systemic context of individuals, relationships, families, and culture. Emphasis will be placed on developing critical thinking and clinical skills that engage diverse clients in a respectful, ethical **Semester Hours:** 3 to 3

**CPCE 5840 - Independent Study: CPCE**
Individually directed research activity on special topics not covered by course offerings. Degree students only, with advance approval by major, professor and department chair. **Semester Hours:** 1 to 4

**CPCE 5910 - Practicum in CPCE**
Supervised counseling practice in the counseling lab and appropriate settings (150 clock hours). Emphasis on individual and group counseling techniques and therapeutic intervention strategies. Prereq: all counseling course work must be completed. **Semester Hours:** 6 to 6
CPCE 5915 - Practicum in School Counseling
This class will provide school track students with 3 credits of fieldwork at a developmental level of their choice. The course will require students to work with a school counselor activities that the counselor is assigned under supervision. Students wi **Semester Hours: 3 to 3**

CPCE 5917 - School Counseling Practicum
This class will provide school counseling track students with 6 credits of practicum experience. Prereq: CPCE 6230. **Semester Hours: 6 to 6**

CPCE 5930 - Internship in Counseling
Psychology and Counselor Education. Supervised internship of 600 clock hours. Intern performs activities of a regularly employed professional in an approved community site. Prereq: Satisfactory completion of CPCE 5910. **Semester Hours: 1 to 6**

CPCE 6000 - Introduction to Sex Therapy
Provides an overview of human sexuality over the life cycle, addressing social, psychological, and physiological aspects of human sexuality. Etiology of human sexuality diagnoses and treatment of problems related to human sexuality are addressed. Note: **Semester Hours: 3 to 3**

CPCE 6100 - Spiritual Dimensions of Counseling
A didactic and experiential course involving the following content areas: theories of spiritual development, a survey of religious traditions, assessment, ethical issues, self-of-the-therapist issues, and treatment interventions and strategies in working **Semester Hours: 3 to 3**

CPCE 6140 - Counseling Children, Adolescents and Their Parents
A didactic and experiential course addressing child, adolescent, and parental/family issues. Counseling techniques, including play therapy, and parent education are taught and practiced. Assessment tools and specific strategies are used to increase positi **Semester Hours: 3 to 3**

CPCE 6160 - Advanced Assessment: Theory and Treatment in Family Systems
Emphasis is on family diagnosis or assessment and treatment and psychological processes. Major family therapy assessment methods and instruments are covered, as well as experiential application of advanced intervention strategies. Prereq: CPCE 5010, 5100, **Semester Hours: 3 to 3**

CPCE 6220 - Youth Challenges and Resiliency
Provides the student with theory and practical exposure to contemporary youth at risk. Focuses on prevention and intervention with youth at risk from a counseling perspective. Prereq: CPCE 5010 and 5100. **Semester Hours: 3 to 3**

CPCE 6230 - Developmental Counseling in Schools: Prevention & Intervention
This course offers the tools to provide developmental counseling services in the schools, including prevention through classroom counseling activities linked with the curriculum, and responsive services. Prereq: CPCE 5010, 5100, 5110, 5330, 5400, 5425, **Semester Hours: 3 to 3**

CPCE 6240 - Consultation Strategies
Focuses on the development of consultation skills and implementation of strategies. Students are exposed to major theories of the consultation process. In addition, this course provides the opportunity to practice consultation and implementation strategie **Semester Hours: 3 to 3**
CPCE 6250 - Mental Health Diagnosis
Students develop a professional level of understanding of the major disorders commonly subsumed under the term "psychopathology." Classification of disorders in the DSM IV is utilized. Treatment alternatives are discussed. Prereq: CPCE 5010 and CPCE 5100  **Semester Hours:** 3 to 3

CPCE 6330 - Advanced Seminar in Counseling and Psychotherapy
Professional analysis of major trends in counseling and psychotherapy. Specific emphasis topics identified. Prereq: CPCE 5010, 5100 and 5330.  **Semester Hours:** 3 to 3

CPCE 6350 - Theories of Personality Development and Change
An advanced course in personality theory with a focus on assumptions of each theory and each as a mechanism for change. Implications of each theory for personal growth and therapy's addressed. Cross-listed with EPSY 6350.  **Semester Hours:** 3 to 3

CPCE 6810 - Advanced Multicultural Counseling
Offers essential preparation for competent multicultural counseling practice with racially diverse clients in an urban setting. Students learn, build and practice effective multicultural counseling skills. Explores the impact of race and ethnicity on indi  **Semester Hours:** 3 to 3

CPCE 6840 - Independent Study
  **Semester Hours:** 1 to 4

CPCE 6910 - Advanced Practicum in Counseling
  **Semester Hours:** 3 to 6

CPCE 6950 - Master's Thesis
  **Semester Hours:** 4 to 4

CPCE 7100 - Advanced Theories and Techniques in Psychotherapy
Learn and practice advanced techniques for addressing adult and adolescent clinical problems. Examine efficacy research on specific counseling techniques as associated with particular approaches in counseling. Prereq: CPCE 5010, 5100, 5820 and 6250.  **Semester Hours:** 3 to 3

CPCE 7800 - Supervision in Counseling and Psychotherapy
Examines training principles, processes, and practices in clinical supervision. Emphasis on individual and family therapy supervision. Prereq: CPCE 5010, 5100, 5910 and 5930.  **Semester Hours:** 3 to 3
Criminal Justice Courses (CRJU)

CRJU 1000 - Introduction to Criminal Justice
This course is designed to provide an overview of the criminal justice process and the criminal justice system in general. Concepts of crime, deviance and justice are discussed and general theories of crime causality are examined. Special emphasis is placed on the components of the criminal justice system: the police, the prosecutorial and defense functions, the judiciary and the field of corrections. **Semester Hours:** 3 to 3

CRJU 1111 - Freshman Seminar
This course explores contemporary issues and cases in the criminal justice system. Topical issues cover various forms of crime; including environmental hazards, mass murder, and sexual assault. The course also focuses on current controversies in policing, courts, corrections, and the juvenile justice system. Prereq: Open only to new Freshmen. **Semester Hours:** 3 to 3

CRJU 2041 - Crime Theory and Causes
This course provides a general survey of the nature and causes of crime and efforts of the criminal justice system to predict, prevent, modify and correct this behavior. This course involves a critical appraisal of various theories of crime causation, including an examination of biological, psychological, economic and sociological perspectives that explain crime and deviance. **Semester Hours:** 3 to 3

CRJU 3100 - Criminal Justice Research Methods
This course introduces students to the formulation of research questions covering crime and justice, research designs, data collection and the interpretation and reporting of these data in criminological and justice-system settings. Course content also includes experimental and non-experimental research designs, probability and non-probability sampling techniques and construction of scales and indexes for research purposes. **Semester Hours:** 3 to 3

CRJU 3150 - Statistics for Criminal Justice
This course serves as an introduction to descriptive and inferential statistics and the computer analysis of criminal justice data. Course content includes hypothesis testing and the basic analysis of continuous and discrete dependent variables. Emphasis **Semester Hours:** 3 to 3

CRJU 3160 - White-Collar Crime
This course introduces students to a variety of topics and issues in white-collar crime including types, causes and the measurement of white-collar crime. The class examines the debate surrounding the definition of white-collar crime, provides an overview of the costs of white-collar crime and corporate crime to society, considers competing theories that explain white-collar criminality and explores the use of criminal sanctions to deter misconduct involving corporations and elite offenders. **Semester Hours:** 3 to 3

CRJU 3220 - Community-Based Corrections
This course focuses on innovative community-based strategies for dealing with criminal offenders. Correctional alternatives to imprisonment discussed in this course include probation and parole and various community programs such as day reporting centers, electronic monitoring, half-way houses and boot camp programs. **Semester Hours:** 3 to 3
CRJU 3250 - Violence in Society
This course examines various aspects of violence including distribution over time and space, situations and circumstances associated with violent victimization and offending and how social institutions, community structure and cultural factors shape violent events. **Semester Hours:** 3 to 3

CRJU 3251 - Crime and Media
This course surveys the relationships between mass media, crime, offenders, victims and criminal justice. It explores how the criminal justice system is portrayed in the media and the influence of these portrayals on society, public policy, and the criminal justice system. **Semester Hours:** 3 to 3

CRJU 3252 - Violent Offenders
This course consists of a historical overview of violence in American society. Course content includes an examination of violent crime rates over time, societal explanations for changes in rates and an examination of the theoretical causes and preventative strategies for acts of violence. **Semester Hours:** 3 to 3

CRJU 3310 - Police in Contemporary Society
This course examines law enforcement's role in contemporary society and the impact of police interaction on other segments of the criminal justice system. Special attention is paid to controversies related to police training and education, career development and community relations. **Semester Hours:** 3 to 3

CRJU 3320 - Police-Community Relations
This course focuses on the police and community response to crime. Course content includes an overview of the major concepts and issues involved in what many consider to be a major fundamental shift in the approach and operations of modern policing. The origins, meaning, development and experiences of community policing and various assessments of the advantages and disadvantages of community policing are emphasized. **Semester Hours:** 3 to 3

CRJU 3410 - Probation and Parole
This course is appropriate for students who have a specific interest in the role of probation and parole as correctional sanctions in community settings. Particular attention is paid to evaluations research evidence on the success of probation and parole, factors that contribute to the successful completions of probation and parole and the role that the community and citizens play in the community corrections process. **Semester Hours:** 3 to 3

CRJU 3420 - Pleas, Trials and Sentences
This course focuses on analysis of case materials involving pleas, trials and sentences. Course content includes an examination of the basic dimensions of criminality, the specific elements of major crimes, the use of confessions, fair trial procedures and the nature of criminal sanctions including cruel and unusual punishments. **Semester Hours:** 3 to 3

CRJU 3510 - Drugs, Alcohol and Crime
This course looks at the socially constructed nature of drugs and drug policy. The course explores the connection between drugs and crime within the socio-historical context of contemporary U.S. drug policy. Special emphasis is placed on the relationships between drugs and alcohol abuse and criminal offending, including the historical and contemporary criminal justice system responses to illegal substances. **Semester Hours:** 3 to 3
CRJU 3520 - Juvenile Justice Administration
This course examines the development, change and operation of the American juvenile justice system and the social factors that shape the identification and treatment of juvenile offenders. Special emphasis is placed on the nature of juvenile law and methods of dealing with youthful offenders. **Semester Hours: 3 to 3**

CRJU 3540 - Crime and Delinquency Prevention
This course provides students with an overview of issues related to crime and delinquency prevention, both from criminological and criminal justice points of view. Crime prevention programs that encompass both the individual and community levels are examined. Responses to juvenile offenders-ranging from prevention and diversion to institutional corrections and after care are explored in context of youth policy generally. **Semester Hours: 3 to 3**

CRJU 4042 - Corrections
This course consists of an overview of the field of penology and corrections. Attention is paid to conflicting philosophies of punishment, criminological theory as it applies to the field of corrections, the selectivity of the process through which offenders move prior to their involvement in correctional programs, alternative correctional placements and empirical assessments of the short and long-term consequences of one's involvement in correctional programs. **Semester Hours: 3 to 3**

CRJU 4043 - Law Enforcement
This course presents an overview of the role of police in the United States. Attention is placed on the origins of policing, the nature of police organizations and police work, patterns of relations between the police and the public, discretion and police role in a sociolegal context. **Semester Hours: 3 to 3**

CRJU 4044 - Courts and Judicial Process
This course examines the basic functions, structure and organization of the federal and state court system, with special attention on the criminal court system. This course also focuses on the influence of judicial behavior on the court process by examining judges’ policy preferences, legal considerations, group processes within courts and courts’ political and social environments. **Semester Hours: 3 to 3**

CRJU 4120 - Race, Class and Crime
This course examines the relationships between race, social class and crime. Attention is given to theoretical explanations, empirical research and patterns of criminal behavior and focuses on historical frameworks that are relevant to current perspectives on the impact and interactions of race, class and crime in the field. **Semester Hours: 3 to 3**

CRJU 4121 - Ethics in Criminal Justice
This course is designed to begin preparing students in identifying and critically examining ethical issues in the criminal justice system by applying ethical decision models. This course also provides students with the unique opportunity to analyze how they would resolve these issues according to their own values and beliefs while staying within the boundaries of the law and professional codes ethics. **Semester Hours: 3 to 3**

CRJU 4130 - Poverty and Crime
This course involves an economic analysis of crime and the criminal justice system. Topics include empirical and theoretical analysis of the economic causes of criminal behavior, the social costs of crime and its prevention and the design of crime enforcement policies. **Semester Hours: 3 to 3**
CRJU 4140 - Domestic Violence and Crime
This course examines the criminal justice system's response to intimate partner violence by focusing on the interactions between victims, offenders, and the individual components of the criminal justice system. By exploring the dynamics of intimate partner violence, this course addresses the theory, history, research, legislation, and policy implications related to the criminal justice system's response to violence against women. **Semester Hours:** 3 to 3

CRJU 4150 - Sex Offenders and Offenses
This course will explore historical and current practices of the criminal justice system to address sex offenders and offenses. Topics include the history of sexual abuse, etiology of offenders, victims issues, juvenile sex offenders, risk assessments, and treatment/supervision approaches. Prereq: CRJU 1001. **Semester Hours:** 3 to 3

CRJU 4170 - Victim Studies
This course involves the scientific study of crime victims and focuses on the physical, emotional, and financial harm people suffer at the hands of criminals. Focus is placed on the victim-offender relationships, interactions between victims and the criminal justice system, and connections between victims and other social groups and institutions. The course explores the theory, history, research, legislation, and policy implications related to the social construction of "the victim." **Semester Hours:** 3 to 3

CRJU 4171 - Murder in America
This course examines the types, extent, nature, and repercussions of homicide in the United States. Specific types of homicide, including justifiable homicide, infanticide, femicide, and serial, mass, and spree murder, are explored. Focus will be given to pertinent theories about murder as well as an in-depth look at some of the most notable murderers in the United States. **Semester Hours:** 3 to 3

CRJU 4180 - Comparative Study of Criminal Justice Systems
This course analyzes the dynamics of criminality and the social response to criminality across countries. Special emphasis is placed on the methods of comparative legal analysis utilized to examine international differences in crime and justice, international cooperation in criminal justice and crime and development. Prereq: CRJU 1001. **Semester Hours:** 3 to 3

CRJU 4190 - Women and Crime
This course explores issues surrounding women as offenders and victims, and investigates explanations for the involvement of women in illegal activities. The course also examines the participation of women in criminal justice professions, including law enforcement, corrections, judicial processes, and law. **Semester Hours:** 3 to 3

CRJU 4230 - Corrections and Treatment
This course examines the origins and historical development of prisons and jails in America. Particular attention is given to the impact of reform movements, the rise of centralized correctional systems, and regional variations in the practice of punishment. **Semester Hours:** 3 to 3

CRJU 4252 - Criminal Offenders
This course will introduce the core principles of evidence-based programming and tools of motivational interviewing as it is used currently with the offender population. In addition, students will learn how to utilize these skills working with specific offender populations. **Semester Hours:** 3 to 3
CRJU 4310 - Leadership Roles in Criminal Justice
The course is designed to enhance interest, experience and knowledge in leadership that promotes professionalism and ethical behavior. Individual and organizational dynamics are explored through a critical perspective, focusing on criminal justice roles and responsibilities. The class teaches effective leadership skills in areas such as team building, strategic planning, and decision making. **Semester Hours:** 3 to 3

CRJU 4410 - Criminal Law and Constitutional Procedures
This course focuses on substantive criminal law and constitutional rights of the accused in criminal proceedings. Course content includes legal aspects of the investigation and arrest processes as well as the rules governing the admissibility of evidence in court. **Semester Hours:** 3 to 3

CRJU 4430 - Law and Society
This course introduces students to the scholarly study of law. Students will become familiar with social science perspectives of the law, legal institutions, the legal process and the impact of law on behavior, with particular emphasis on the study of criminal behavior and the criminal justice process in American society. Additional topics include theories of law and legality, comparative legal systems, lawyers, judges and juries and the use of social science in the courts. **Semester Hours:** 3 to 3

CRJU 4440 - Courts and Social Policy
This course involves the study of emerging trends and issues in the administration of the courts, the emerging role of the judiciary in the administration of programs in the public and private sectors and the implications of court administration on social policy. Course content includes the history of the judicial approaches to the criminal justice administrative process and substantive social policy. **Semester Hours:** 3 to 3

CRJU 4450 - Homeland Security
This course is an in-depth analysis of homeland security in the U.S. Topics include the initial concepts and strategies of securing land borders, seaports, and airports, the establishment of the Department of Homeland Security, and the functions and operations of the DHS today and in the future. Prereq: CRJU 1001. **Semester Hours:** 3 to 3

CRJU 4520 - Gangs and Criminal Organizations
This course traces the origins and historical development of the activities known as "organized crime." These crimes are some of the most dangerous to American society and range from the commonly known offenses of gambling and narcotics to the more subtle and sophisticated, less understood but equally serious, crimes of extortion, commercial bribery and political corruption. **Semester Hours:** 3 to 3

CRJU 4530 - Families and Intergenerational Crime
This course focuses on the family as the primary institutional mechanism of social control. The course is structured around social learning theory and explores the relationships between exposure to childhood violence and violence in dating relationships during adolescence and later violent marital relationships. The "cycle of violence" is also discussed in terms of the impact on early childhood violence on juvenile delinquency, adult criminality and violent behavior in general. **Semester Hours:** 3 to 3

CRJU 4600 - Special Topics in Criminal Justice
This highly specialized seminar addresses cutting-edge and emerging developments in the field of criminal justice and provides students and faculty with the opportunity to explore significant themes, issues and problems from a broad interdisciplinary perspective. Topics vary from semester to semester. Prereq: CRJU 1001 and CRJU 2041 or permission of instructor. **Semester Hours:** 3 to 3
CRJU 4840 - Independent Study: CRJU
This course consists of faculty-guided research in an area of mutual interest to the student and instructor. Students are responsible for selecting their area of inquiry prior to contacting the instructor. Permission of instructor is required. **Semester Hours:** 1 to 6

CRJU 4939 - Internship
Internships involve a career-related supervised experiential course in a criminal justice agency. Permission to enroll must be preceded by an application for an internship. Permission of instructor and advisor is required for undergraduate students. **Semester Hours:** 1 to 6

CRJU 5001 - CJ Systems, Policies/Practice
This course examines the salient, current critical issues in the justice system affecting law enforcement, courts, corrections, and recent social developments related to personnel. The class includes in-depth explorations of the development, implementation, and analysis of public policy in the field of criminology. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

CRJU 5002 - Criminological Theory
Explores the origins of criminal behavior and the impact of crime on society. The course examines theories of deviant, delinquent, and criminal behavior. Additionally, practical implications and application of theoretical constructs are analyzed through current research paradigms and empirical research. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

CRJU 5003 - Research Methods
Provides an assessment of research through an examination of applied designs and analytical models. The logic and rationale of these strategies are contrasted and their relative merits are critiqued. Research problems in the system are utilized to illustrate the applications and interpretation of alternative strategies. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

CRJU 5004 - Statistics
This course covers principles of descriptive and inferential statistics and provides tools for understanding research findings. Topics include: hypothesis testing and point estimation; bivariate and multivariate measures of association; inferential statistics. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

CRJU 5005 - Law & Society
Introduces a variety of topics related to law's varying functions and societal implications. The course focuses on social/ legal theory and analyzes law and legal institutions from a critical perspective. Materials provide content on how to evaluate law and legal institutions, especially in relation to equality, justice, and fairness. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

CRJU 5200 - Wrongful Convictions
This seminar examines the dark figure of the criminal justice system; wrongful convictions of innocent people. This course explores the continuum of justice-system errors ranging from persons who are falsely accused (arrested, prosecuted, and tried) to those who are wrongly convicted and imprisoned, to death row inmates who are erroneously executed. Cross-listed with CRJU 7200. **Semester Hours:** 3 to 3

CRJU 5210 - Prisoner Reentry
This seminar examines the harsh realities of prisoner reentry and offers solutions to prepare inmates for release, reduce recidivism, and restore them to adjustment once back in the community, while simultaneously meeting the demands of public safety. Cross-listed with CRJU 7210. **Semester Hours:** 3 to 3
CRJU 5220 - The American Jury System
This seminar examines historical and current issues in jury decision making and dynamics. The course explores issues such as jury size, eyewitness testimony, and jury reform. Court decisions are examined as a comprehensive understanding of jurors and their role. Cross-listed with CRJU 7220. **Semester Hours: 3 to 3**

CRJU 5250 - Criminal Offenders
Crime can have a devastating effect on the lives of victims, families and communities with extraordinary costs to society as a whole. Documented evidence suggests that community safety is best achieved though promoting rehabilitation of offenders rather than relying solely on prisons and containment. This course introduces the core principles and tools of motivational interviewing as it is used currently with the offender population. Students learn how to utilize these skills working with specific offender populations and how to motivate these often resistive clients to change their thinking patterns and behaviors. Cross-listed with CRJU 7250. **Semester Hours: 3 to 3**

CRJU 5260 - Crime and Literature
This seminar focuses on non-fiction literature as it relates to criminality and the Criminal Justice System. A substantial number of people in the United States form impressions and evaluate the effectiveness of the Criminal Justice System based on accounts presented within various types of nonfiction literature, either as social commentary or in biographical/autobiographical form. This course explores samples of these types of commentary, in order to more fully understand and appreciate their impact on shaping public opinion of the Criminal Justice System. Cross-listed with CRJU 7260. **Semester Hours: 3 to 3**

CRJU 5270 - Case Studies in Crim Justice
This seminar attempts to examine the lives of people who live on the margins of a society that perceives them as outsiders. Ethnographic studies which utilized observation, participant observations and interviews as their primary research methodology are assigned in order to develop a critical understanding of the social marginalization and cultural aspects of the lives of real human beings living on the constant edge of the law. Cross-listed with CRJU 7270. **Semester Hours: 3 to 3**

CRJU 5280 - Computer Crime
The course is designed to enhance interest, experience and knowledge in leadership that promotes professionalism and ethical behavior. Individual and organizational dynamics are explored through a critical perspective, focusing on criminal justice roles and responsibilities. The class teaches effective leadership skills in areas such as team building, strategic planning, and decision making. Cross-listed with CRJU 7280. **Semester Hours: 3 to 3**

CRJU 5301 - Crime and Media
This course surveys the relationship between mass media and the U.S. criminal justice system. Special attention is given to the role of media in the social construction of reality. Emphasis is placed on the application of social constructionism to criminal justice related social problems. Cross-listed with CRJU 7301. **Semester Hours: 3 to 3**

CRJU 5320 - Police Administration
Considers the major issues confronting police executives, such as professionalism, recruitment, selection, training, deployment, innovation, evaluation, and charges of brutality, inefficiency, and corruption. Cross-listed with CRJU 7320. **Semester Hours: 3 to 3**
CRJU 5325 - Qualitative Methods for Criminal Justice
Focuses on qualitative methods applicable to research in the field of criminal justice. The primary focus is on ethnographic approaches employing such fieldwork techniques as observation, participant observation, interviews, content analysis, life histories and case studies. Cross-listed with CRJU 7325. **Semester Hours:** 3 to 3

CRJU 5330 - Gangs and Criminal Organizations
This course examines extent, nature and trends of gangs and criminal organizations. We focus on contemporary studies and theories of gang behavior and organized crime. The course examines types of crime, gender and race issues, transnational violence, and public policies regarding criminal organizations. Cross-listed with CRJU 7330. **Semester Hours:** 3 to 3

CRJU 5361 - Capstone Seminar
In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, as applied to either their chosen program concentration or individualized program, by conducting a Program Integration Project. The PIP may be either **Semester Hours:** 3 to 3

CRJU 5391 - Sex Offenders and Offenses
This course will focus on challenges practitioners face in the management of sex offenders. It covers development of programs and partnerships that can effectively assess inform, manage and treat sex offenders through all phases of the system and reduce recidivism. Cross-listed with CRJU 7391. **Semester Hours:** 3 to 3

CRJU 5410 - Victimology
This course examines victim-offender relationships, the interactions between victims and the criminal justice system and the connections between victims and other social groups and institutions among various populations. This course addresses the theory, history, research, legislation and policy implications related to the social construction of "the victim." Cross-listed with CRJU 7410. **Semester Hours:** 3 to 3

CRJU 5420 - Violence in Society
This course examines various aspects of violence including distribution over time and space, situations and circumstances associated with violent victimization and offending, and how social institutions, community structure and cultural factors shape violent events. Cross-listed with CRJU 7420. **Semester Hours:** 3 to 3

CRJU 5430 - Drugs, Alcohol and Crime
This course provides an interdisciplinary overview of theory, research and policy issues surrounding the relationship between drugs, alcohol and crime; and the criminal justice system response. The course explores the socially constructed nature of illegal substances and connections to U.S. drug policy. Cross-listed with CRJU 7430. **Semester Hours:** 3 to 3

CRJU 5510 - Contemporary Issues in Law Enforcement
Examines current thinking and experience with respect to changing and reforming police programs and practices. The course focuses primarily on the American police experience, reviewing major innovations, exploring their rationale, and examining organizational impediments to their implementation. Cross-listed with CRJU 7510. **Semester Hours:** 3 to 3
CRJU 5520 - Corrections
Provides a critical examination of the development and implementation of correctional systems in America. The course presents the origins of correctional efforts and the evolution of the prison; reviews punishment and rehabilitation rationales in the context of sentencing models; examines the social organization of the prison, including inmate subcultures and staff work strategies; and assesses the inmates’ rights movement and the impact of judicial intervention in correctional settings. Cross-listed with CRJU 7520. **Semester Hours:** 3 to 3

CRJU 5530 - Community Corrections
Analyzes the theories and practices of probation and parole, responses of paroling authorities to public pressures and court controls, and their implications for rehabilitation. Efforts to bridge institutional settings and community life, as well as the feasibility and effectiveness of treating individuals under sentence in the community, are reviewed. Cross-listed with CRJU 7530. **Semester Hours:** 3 to 3

CRJU 5540 - Juvenile Justice Administration
Examines the policies and practices of agencies in processing youthful offenders through the juvenile court system, reviews trends in juvenile justice policymaking, and assesses changes in response to juvenile crime by both the juvenile justice and criminal justice systems. Cross-listed with CRJU 7540. **Semester Hours:** 3 to 3

CRJU 5550 - Criminal Justice Policy and Planning
Provides a survey of conceptual and design strategies in criminal justice policy analysis. The logic and rationale of these various strategies are contrasted, and their relative merits are critiqued. Selected policy issues in the criminal justice system are utilized to illustrate the application and interpretation of alternative strategies. Cross-listed with CRJU 7550. **Semester Hours:** 3 to 3

CRJU 5551 - Courts, Law & Justice
Analyzes judicial organization, court administration, and criminal court judicial decision making practices within the context of the broader operation of the criminal justice system. Special attention is paid to the social organization of the courtroom. **Semester Hours:** 3 to 3

CRJU 5552 - Criminal Justice Ethics
Offers a normative framework within which to explore ways to increase sensitivity to the demands of ethical behavior among criminal justice personnel. The application of a normative perspective enhances the possibility that moral problems are better understood, more carefully analyzed, and rendered more tractable. Applied ethics forces a reflection not just on ethics, but also on the nature and operation of the criminal justice system itself. Cross-listed with CRJU 7552. **Semester Hours:** 3 to 3

CRJU 5553 - Women and Crime
Explores issues surrounding women as offenders, victims, and criminal justice professionals. Investigates explanations for the involvement of women in illegal activities. Analyzes the plight of battered women, rape victims, and other female victims. Examines the participation of women in law enforcement, judicial processes, corrections and lawmaking. Cross-listed with CRJU 7553. **Semester Hours:** 3 to 3

CRJU 5555 - Profiling Criminal Behavior
This seminar examines the dynamics of individual criminal acts utilizing inductive and deductive methodology to profile criminal behavior, offender characteristics, crime scene investigation, evidence collection, and case linkage of specific categories of crimes. Topical areas in this seminar will include homicide, serial crime, stalking. **Semester Hours:** 3 to 3
**CRJU 5571 - The Social Organization of Crime**
Explores the relationship of neighborhood social disorganization to the dynamics of crime from a social ecology perspective. The course examines the underlying social causes of phenomena such as criminal victimization, violent and property crime, neighborhood fear, neighborhood deterioration, and recidivism. The course examines social, structural, and ecological characteristics of neighborhoods and communities in affecting crime. Cross-listed with CRJU 7571. **Semester Hours:** 3 to 3

**CRJU 5572 - Race, Crime and Justice**
Examines the role of race in criminal justice processing. This course examines the research findings, interpretations, issues, and implications in assessing the impact of race in the administration of criminal justice. Explores the policy implications concerning the nature and extent of racial disparities in the criminal justice system and lays out a research agenda to more strategically address these issues within criminal justice policy making. Cross-listed with CRJU 7572. **Semester Hours:** 3 to 3

**CRJU 5574 - White Collar Crime**
Employs both the social science and legal approaches to examine crime committed by corporations as well as by individuals in white collar occupations. The course covers how such crimes are socially defined, who commits them, who is victimized by them, which social contexts promote them, and how society and the criminal justice system respond to them. Cross-listed with CRJU 7574. **Semester Hours:** 3 to 3

**CRJU 5575 - The Mentally Disordered Offender**
Examines the offender who may be mentally disordered. A survey is made of the various phases of the criminal justice system where psychiatrists are involved, e.g., diversion, fitness, insanity and sentencing. Dangerous sex offender legislation, "not guilty by reason of insanity" and "guilty but mentally ill" statutes, and issues concerning confidentiality, informed consent, and treatment are addressed. Cross-listed with CRJU 7575. **Semester Hours:** 3 to 3

**CRJU 5576 - Social Science in the Criminal Justice System**
Examines the use of social science as a tool for legal analysis within the criminal justice system. The course examines how social science research is used to resolve relatively simple factual disputes, then moves on to more complex issues that arise when social science is invoked to make or to change law, both constitutional law (particularly the First, Sixth, Eighth, and Fourteenth amendments) and common law, particularly the construction of procedural rules that govern the operations of the criminal justice system. Cross-listed with CRJU 7576. **Semester Hours:** 3 to 3

**CRJU 5910 - Women and Violence: a Sociological Perspective**
This course is a sociological, feminist analysis of violence against women and girls that addresses the intersection of sexism and other forms of oppression such as racism, classism and heterosexism within historical, cultural, social and institutional contexts. Topics covered focus on overt and covert forms of sexual coercion, harassment and assault, battering and stalking. Cross-listed with CRJU 7910, PUAD 5910 and 7910. **Semester Hours:** 3 to 3

**CRJU 5920 - Psychology of Violence Against Women**
This class addresses the contributions and the limitations of current empirical and clinical psychological literatures about domestic violence. Topics covered include: distinguishing among mental health professionals regarding work with DV clients; the psychological impacts of domestic violence; services useful for responding to the needs of women and children; and an introduction to the psychology and treatment of batterers. Cross-listed with CRJU 5920, PUAD 5920 and 7920. **Semester Hours:** 3 to 3
CRJU 5930 - Battered Women and The Legal System
This course provides a practical understanding of how the following relate to battered women and their children; a) major developments in federal, state, tribal, administrative, statutory and case law; b) the role and responses of the law enforcement, judges, attorneys, victim assistance providers and other legal system agents; and c) the role and process of victim advocacy. Cross-listed with CRJU 7930, PUAD 5930 and 7930. Semester Hours: 3 to 3

CRJU 5940 - Domestic Violence Social Change and Advocacy
Info on theories & strategies behind contemp. social change movements & skills necessary to organize & implement actions to influence public awareness & policy. Values of US society are complex & require advocates/activists to develop a heightened sense of Semester Hours: 3 to 3

CRJU 6600 - Special Topics in Criminal Justice
This highly specialized seminar addresses cutting-edge and emerging developments in the field of criminal justice and provides students and faculty with the opportunity to explore significant themes, issues, and problems from a broad interdisciplinary per Semester Hours: 3 to 3

CRJU 6840 - Independent Study: C J
Affords the student the opportunity to pursue creative research activities under the individual supervision of a full-time faculty member. No more than six semester hours of credit for independent study may be applied toward the MCJ degree. MCJ Prereq: 12 semester hours of criminal justice course work and permission of instructor. Semester Hours: 1 to 3

CRJU 6910 - Field Study in Criminal Justice
For students who have not had practitioner experience, a full- or part-time internship is required. Prereq: 18 hours of criminal justice course work and permission of instructor and/or advisor. Semester Hours: 3 to 3

CRJU 6950 - Master's Thesis
Independent original research project supervised and evaluated by a thesis committee. Prereq: 33 semester hours of course work and permission of MCJ director, program advisor and thesis chair. Semester Hours: 3 to 6

CRJU 7200 - Wrongful Convictions
This seminar examines the dark figure of the criminal justice system; wrongful convictions of innocent people. This course explores the continuum of justice-system errors ranging from persons who are falsely accused (arrested, prosecuted, and tried) to those who are wrongly convicted and imprisoned, to death row inmates who are erroneously executed. Cross-listed with CRJU 5200. Semester Hours: 3 to 3

CRJU 7210 - Prisoner Reentry
This seminar examines the harsh realities of prisoner reentry and offers solutions to prepare inmates for release, reduce recidivism, and restore them to adjustment once back in the community, while simultaneously meeting the demands of public safety. Cross-listed with CRJU 5210. Semester Hours: 3 to 3

CRJU 7220 - The American Jury System
The aim of this seminar is to raise most of the issues that have to be considered by anyone who wants to understand the American jury. This course attempts to determine what kind of complex matrix of legal functions, social symbols, practical reforms, political philosophy and human psychology the jury can be located. Cross-listed with CRJU 5220. Semester Hours: 3 to 3
**CRJU 7250 - Criminal Offenders**
Crime can have a devastating effect on the lives of victims, families and communities with extraordinary costs to society as a whole. Documented evidence suggests that community safety is best achieved though promoting rehabilitation of offenders rather than relying solely on prisons and containment. This course introduces the core principles and tools of motivational interviewing as it is used currently with the offender population. Students learn how to utilize these skills working with specific offender populations and how to motivate these often resistive clients to change their thinking patterns and behaviors. Cross-listed with CRJU 5250. **Semester Hours:** 3 to 3

**CRJU 7260 - Crime and Literature**
This seminar focuses on non-fiction literature as it relates to criminality and the Criminal Justice System. A substantial number of people in the United States form impressions and evaluate the effectiveness of the Criminal Justice System based on accounts presented within various types of nonfiction literature, either as social commentary or in biographical/autobiographical form. This course explores samples of these types of commentary, in order to more fully understand and appreciate their impact on shaping public opinion of the Criminal Justice System. Cross-listed with CRJU 5260. **Semester Hours:** 3 to 3

**CRJU 7270 - Case Studies in Criminal Justice**
This seminar attempts to examine the lives of people who live on the margins of a society that perceives them as outsiders. Ethnographic studies which utilized observation, participant observations and interviews as their primary research methodology are assigned in order to develop a critical understanding of the social marginalization and cultural aspects of the lives of real human beings living on the constant edge of the law. Cross-listed with CRJU 5270. **Semester Hours:** 3 to 3

**CRJU 7280 - Leadership in the Modern Criminal Justice System**
The course is designed to enhance interest, experience and knowledge in leadership that promotes professionalism and ethical behavior. Individual and organizational dynamics are explored through a critical perspective, focusing on criminal justice roles and responsibilities. The class teaches effective leadership skills in areas such as team building, strategic planning, and decision making. Cross-listed with CRJU 5280. **Semester Hours:** 3 to 3

**CRJU 7301 - Crime and Media**
This course surveys the relationship between mass media and the U.S. criminal justice system. Special attention is given to the role of media in the social construction of reality. Emphasis is placed on the application of social constructionism to criminal justice related social problems. Cross-listed with CRJU 5301. **Semester Hours:** 3 to 3

**CRJU 7320 - Seminar: Police Administration**
Considers the major issues confronting police executives, such as professionalism, recruitment, selection, training, deployment, innovation, evaluation, and charges of brutality, in efficiency and corruption. Cross-listed with CRJU 5320. **Semester Hours:** 3 to 3

**CRJU 7325 - Qualitative Methods for Criminal Justice**
Focuses on qualitative methods applicable to research in the field of criminal justice. The primary focus is on ethnographic approaches employing such fieldwork techniques as observation, participant observation, interviews, content analysis, life histories and case studies. Cross-listed with CRJU 5325. **Semester Hours:** 3 to 3
CRJU 7330 - Gangs and Criminal Organizations
This course examines extent, nature and trends of gangs and criminal organizations. We focus on contemporary studies and theories of gang behavior and organized crime. The course examines types of crime, gender and race issues, transnational violence, and public policies regarding criminal organizations. Cross-listed with CRJU 5330. Semester Hours: 3 to 3

CRJU 7391 - Sex Offenders and Offenses
This course will focus on challenges practitioners face in the management of sex offenders. It covers development of programs and partnerships that can effectively assess inform, manage and treat sex offenders through all phases of the system and reduce recidivism. Cross-listed with CRJU 5391. Semester Hours: 3 to 3

CRJU 7410 - Victimology
This course examines victim-offender relationships, the interactions between victims and the criminal justice system and the connections between victims and other social groups and institutions among various populations. This course addresses the theory, history, research, legislation and policy implications related to the social construction of "the victim." Cross-listed with CRJU 5410. Semester Hours: 3 to 3

CRJU 7420 - Violence in Society
This course examines various aspects of violence including distribution over time and space, situations and circumstances associated with violent victimization and offending, and how social institutions, community structure and cultural factors shape violent events. Cross-listed with CRJU 5420. Semester Hours: 3 to 3

CRJU 7430 - Drugs, Alcohol and Crime
This course provides an interdisciplinary overview of theory, research and policy issues surrounding the relationship between drugs, alcohol and crime; and the criminal justice system response. The course explores the socially constructed nature of illegal substances and connections to U.S. drug policy. Cross-listed with CRJU 5430. Semester Hours: 3 to 3

CRJU 7510 - Seminar: Contemporary Issues in Law Enforcement
Examines current thinking and experience with respect to changing and reforming police programs and practices. The course focuses primarily on the American police experience, reviewing major innovations, exploring their rationale, and examining organizational impediments to their implementation. Cross-listed with CRJU 5510. Semester Hours: 3 to 3

CRJU 7520 - Seminar: Corrections
Provides a critical examination of the development and implementation of correctional systems in America. The course presents the origins of correctional efforts and the evolution of the prison; reviews punishment and rehabilitation rationales in the context of sentencing models; examines the social organization of the prison, including inmate subcultures and staff work strategies; and assesses the inmates' rights movement and the impact of judicial intervention in correctional settings. Cross-listed with CRJU 5520. Semester Hours: 3 to 3

CRJU 7530 - Seminar: Community Corrections
Analyzes the theories and practices of probation and parole, responses of paroling authorities to public pressures and court controls, and their implications for rehabilitation. Efforts to bridge institutional settings and community life, as well as the feasibility and effectiveness of treating individuals under sentence in the community, are reviewed. Cross-listed with CRJU 5530. Semester Hours: 3 to 3
CRJU 7540 - Seminar: Juvenile Justice Administration
Examines the policies and practices of agencies in processing youthful offenders through the juvenile court system, reviews trends in juvenile justice policy making, and assesses changes in response to juvenile crime by both the juvenile justice and criminal justice systems. Cross-listed with CRJU 5540. Semester Hours: 3 to 3

CRJU 7550 - Seminar: Criminal Justice Policy Analysis
Provides a survey of conceptual and design strategies in criminal justice policy analysis. The logic and rationale of these various strategies are contrasted, and their relative merits are critiqued. Selected policy issues in the criminal justice system are utilized to illustrate the application and interpretation of alternative strategies. Cross-listed with CRJU 5550. Semester Hours: 3 to 3

CRJU 7551 - Courts, Law & Justice
Analyzes judicial organization, court administration, and criminal court judicial decision making practices within the context of the broader operation of the criminal justice system. Special attention is paid to the social organization of the courtroom. Semester Hours: 3 to 3

CRJU 7552 - Seminar: Criminal Justice Ethics
Offers a normative framework within which to explore ways to increase sensitivity to the demands of ethical behavior among criminal justice personnel. The application of a normative perspective enhances the possibility that moral problems are better understood, more carefully analyzed, and rendered more tractable. Applied ethics forces a reflection not just on ethics, but also on the nature and operation of the criminal justice system itself. Cross-listed with CRJU 5552. Semester Hours: 3 to 3

CRJU 7553 - Seminar: Women and Criminal Justice
Explores issues surrounding women as offenders, victims, and criminal justice professionals. Investigates explanations for the involvement of women in illegal activities. Analyzes the plight of battered women, rape victims, and other female victims. Examines the participation of women in law enforcement, judicial processes, corrections and lawmaking. Cross-listed with CRJU 5553. Semester Hours: 3 to 3

CRJU 7571 - Advanced Seminar: The Social Organization of Crime
Explores the relationship of neighborhood social disorganization to the dynamics of crime from a social ecology perspective. The course examines the underlying social causes of phenomena such as criminal victimization, violent and property crime, neighborhood fear, neighborhood deterioration and recidivism. The course examines social, structural, and ecological characteristics of neighborhoods and communities in affecting crime. Cross-listed with CRJU 5571. Semester Hours: 3 to 3

CRJU 7572 - Advanced Seminar: Race, Crime and Justice
Examines the role of race in criminal justice processing. This course examines the research findings, interpretations, issues, and implications in assessing the impact of race in the administration of criminal justice. Explores the policy implications concerning the nature and extent of racial disparities in the criminal justice system and lays out a research agenda to more strategically address these issues within criminal justice policy making. Cross-listed with CRJU 5572. Semester Hours: 3 to 3

CRJU 7574 - Advanced Seminar: White Collar Crime
Employs both the social science and legal approaches to examine crime committed by corporations as well as by individuals in white collar occupations. The course covers how such crimes are socially defined, who commits them, who is victimized by them, which social contexts promote them, and how society and the criminal justice system respond to them. Cross-listed with CRJU 5574. Semester Hours: 3 to 3
CRJU 7575 - Advanced Seminar: The Mentally Disordered Offender
Examines the offender who may be mentally disordered. A survey is made of the various phases of the
criminal justice system where psychiatrists are involved, e.g., diversion, fitness, insanity and sentencing.
Dangerous sex offender legislation, "not guilty by reason of insanity" and "guilty but mentally ill" statutes,
and issues concerning confidentiality, informed consent, and treatment are addressed. Cross-listed with
CRJU 5575. **Semester Hours:** 3 to 3

CRJU 7576 - Advanced Seminar: Social Science in the Criminal Justice System
Examines the use of social science as a tool for legal analysis within the criminal justice system. The
course examines how social science research is used to resolve relatively simple factual disputes, then
moves on to more complex issues that arise when social science is invoked to make or to change law, both
constitutional law (particularly the First, Sixth, Eighth and Fourteenth Amendments) and common law,
particularly the construction of procedural rules that govern the operations of the criminal justice system.
Cross-listed with CRJU 5576. **Semester Hours:** 3 to 3

CRJU 7600 - Special Topics in Criminal Justice
This highly specialized seminar addresses cutting-edge and emerging developments in the field of
criminal justice and provides students and faculty with the opportunity to explore significant themes,
issues, and problems from a broad interdisciplinary per **Semester Hours:** 3 to 3

CRJU 7910 - Women and Violence: a Sociological Perspective
This course is a sociological, feminist analysis of violence against women and girls that addresses the
intersection of sexism and other forms of oppression such as racism, classism and heterosexism within
historical, cultural, social and institutional contexts. Topics covered focus on overt and covert forms of
sexual coercion, harassment and assault, battering and stalking. Cross-listed with CRJU 5910, PUAD 5910
and 7910. **Semester Hours:** 3 to 3

CRJU 7920 - Psychology of Violence Against Women
This class addresses the contributions and the limitations of current empirical and clinical psychological
literatures about domestic violence. Topics covered include: distinguishing among mental health
professionals regarding work with DV clients; the psychological impacts of domestic violence; services
useful for responding to the needs of women and children; and an introduction to the psychology and
treatment of batterers. Cross-listed with CRJU 5920, PUAD 5920 and 7920. **Semester Hours:** 3 to 3

CRJU 7930 - Battered Women and the Legal System
This course provides a practical understanding of how the following relate to battered women and their
children; a) major developments in federal, state, tribal, administrative, statutory and case law; b) the role
and responses of the law enforcement, judges, attorneys, victim assistance providers and other legal
system agents; and c) the role and process of victim advocacy. Cross-listed with CRJU 5930, PUAD 5930
and 7930. **Semester Hours:** 3 to 3

CRJU 7940 - Domestic Violence Social Change and Advocacy
Info on theories & strategies behind contemp social change movements & skills necessary to organize &
implement actions to influence public awareness & policy. Values of US society are complex & require
advocates/activists to develop a heightened sense of **Semester Hours:** 3 to 3

CRJU 8840 - Independent Study
Affords the student the opportunity to pursue creative research activities under the individual supervision
of a full-time faculty member. No more than six semester hours of credit for independent study may be
applied toward the PhD degree. Prereq: 12 semester hours of criminal justice course work and permission of instructor. **Semester Hours:** 1 to 3

**CRJU 8990 - Doctoral Dissertation**

Upon admittance to candidacy, students must be continuously registered for dissertation credit each fall and spring semester or be automatically dropped from the program. Students must register for 7.0 credit hours per semester. In cases where students will not be using any university resources during a particular semester, they may petition the PhD director to register for only 3.0 credit hours to maintain continuous enrollment. Students must be registered for dissertation credit during the semester they have a colloquium or defense. **Semester Hours:** 1 to 10
Computer Science Courses (CSCI)

CSCI 1320 - Introduction to Computing
A course in programming for students in all disciplines who are non-computer science majors. Learning essential programming skills using a modern language like Ruby or Python, both of which are easier to learn than traditional programming languages such as C++ and Java. The student is introduced to the flow of control: selection, iteration, subprograms. Data structures: strings, arrays, records, lists, tables. Introduction to testing and debugging. Prereq: MATH 1120. Semester Hours: 3 to 3

CSCI 1410 - Fundamentals of Computing
First course in computing for those who will take additional computer science courses. Covers the capabilities of a computer, the elements of the computer language C++, and basic techniques for solving problems using a computer. Coreq: CSCI 1411. Semester Hours: 3 to 3

CSCI 1411 - Fundamentals of Computing Laboratory
This laboratory is taken with CSCI 1410 and will provide students with additional help with problem solving and computer exercises to compliment the course material covered in CSCI 1410. Prereq: Freshman status. Coreq: CSCI 1410. Semester Hours: 1 to 1

CSCI 1510 - Logic Design
The design and analysis of combinational and sequential logic circuits. Topics include binary and hexadecimal number systems, Boolean algebra and Boolean function minimization, and algorithmic state machines. Lecture/lab includes experiments with computer-aided design tools. Semester Hours: 3 to 3

CSCI 1800 - Special Topics
Semester Hours: 1 to 3

CSCI 2132 - Circuits and Electronics
This course is designed to serve as the basic course in CSE curriculum for second year bachelor students. It introduces the fundamentals of the analog and digital circuit abstraction and applications. Topics include: resistive elements, networks, sources, switches, MOS transistors, digital abstraction, amplifiers, energy storage elements. A web-based laboratory will allow students to have hands-on experiments. Prereq: MATH 2411, PHYS 2331, and CSCI 1510. Semester Hours: 3 to 3

CSCI 2312 - Intermediate Programming
Programming topics in the C++ language. The emphasis is on problem solving using object oriented and Generic Programming. Topics include advanced I/O, classes, inheritance, polymorphism and virtual functions, abstract base classes, exception handling, templates, and the Standard Template Library. Prereq: CSCI 1410. Semester Hours: 3 to 3

CSCI 2421 - Data Structures and Program Design
Topics include a first look at an algorithm, data structures, abstract data types, and basic techniques such as sorting, searching, and recursion. Programming exercises are assigned through the semester. Prereq: ENGL 1020, CSCI 2312. Semester Hours: 3 to 3

CSCI 2511 - Discrete Structures
Covers the fundamentals of discrete mathematics, including: logic, sets, functions, asymptotics, mathematical reasoning, induction, combinatorics, discrete probability, relations and graphs. Emphasis on how discrete mathematics applies to computer science in general and algorithm analysis in particular. Prereq: MATH 1401. Semester Hours: 3 to 3
CSCI 2525 - Assembly Language and Computer Organization
Topics include computer architecture, program execution at the hardware level, programming in assembly language, the assembly process, hardware support of some high-level language features, and a program's interface to the operating system. Programming exercises are assigned in this course. These exercises involve the use of specific hardware in designated laboratories. Prereq: CSCI 1410 and 1510.
Semester Hours: 3 to 3

CSCI 2571 - Fundamentals of UNIX
Introduces the UNIX operating system and its family of related utility programs. History and overview, versions, and common features. File operations, utilities, shells, editors, filters and data manipulation. Shell programming communications and networking, windowing environments, mail and Internet. Programming tools. Simple system administration. Credit will not count toward BSCSE degree. Prereq: Familiarity with operating systems and/or a programming course. Semester Hours: 3 to 3

CSCI 2800 - Special Topics
Semester Hours: 3 to 3

CSCI 3287 - Database System Concepts
Introduces database design, database management systems, and the SQL standard database language. Includes data modeling techniques, conceptual database design, theory of object-relational and relational databases, relational algebra, relational calculus, normalization and database integrity. Prereq: CSCI 2421. Semester Hours: 3 to 3

CSCI 3320 - Advanced Programming
A continuation of programming and problem solving methodologies. The focus will be on generic programming with C++ templates and the standard template library, and will be supplemented with object-oriented programming and top-down design. Prereq: CSCI 2421. Semester Hours: 3 to 3

CSCI 3412 - Algorithms
Design and analysis of algorithms. Asymptotic analysis as a means of evaluating algorithm efficiency. The application of induction and other mathematical techniques for proving the correctness of an algorithm. Data structures for simplifying algorithm design, such as hash tables, heaps and search trees. Elementary graph algorithms. Assignments include written work and programming projects. Prereq: CSCI 2421 and CSCI 2511. Semester Hours: 3 to 3

CSCI 3415 - Principles of Programming Languages
Introduces programming language design concepts and implementation issues. Includes language concepts such as control structures and data types, formal language specification techniques, and syntactic and semantic implementation issues. Prereq: CSCI 2421 and 2525. Semester Hours: 3 to 3

CSCI 3453 - Operating System Concepts
Covers the principles of computer operating systems and the essential components of an operating system. Topics include: I/O devices, file systems, CPU scheduling and memory management. Prereq: CSCI 3412 (Algorithm). Semester Hours: 3 to 3

CSCI 3508 - Introduction to Software Engineering
Introduces principles and practices of software engineering: software life-cycle models, requirements engineering, analysis and design tools, human factors risk management, program certification, project management and intellectual property rights. Prereq: ENGL 1020 and CSCI 3412. Semester Hours: 3 to 3
CSCI 3511 - Hardware-Software Interface
Hardware and software techniques needed to control and program device interfaces. Input and output devices, computer peripherals, device drivers and interfaces are introduced. Specific programmable devices are used in class projects. Prereq: CSCI 2525. Semester Hours: 3 to 3

CSCI 3560 - Probability and Computing

CSCI 3800 - Special Topics
Semester Hours: 3 to 3

CSCI 3840 - Independent Study: CSCI
Semester Hours: 1 to 3

CSCI 3920 - Java Applications
This course introduces students to core Java, with a focus on design and implementation of GUI's using JFrames and event driven programming. Topics include Java Collections Framework, java.io package, and topdown design of solutions to engineering applications. Prereq: CSCI 3320. Semester Hours: 3 to 3

CSCI 3963 - Network Structures
This interdisciplinary course examines how the technological, social and economic worlds are connected and how the study of networks sheds light on these connections. Topics include: how opinions spread through society; the robustness and fragility of financial networks; the technology and economics of Web information and on-line communities. Prereq: MATH 2411. Semester Hours: 3 to 3

CSCI 4034 - Theoretical Foundations of Computer Science
Introduces abstract models for computation, formal languages and machines. Topics include: automata theory, formal languages, grammars and Turing machines. Prereq: CSCI 3412. Semester Hours: 3 to 3

CSCI 4202 - Introduction to Artificial Intelligence
Topics include heuristic search, games playing algorithms, application of predicate calculus to AI, introduction to planning, application of formal grammars to AI. Prereq: CSCI 3412. Semester Hours: 3 to 3

CSCI 4287 - Embedded Systems Programming
Embedded Systems Programming happens across a spectrum of Domains. Embedded Systems Programming in the Small is characterized by the creation of small applications in high volumes. Embedded Systems Programming in the Large is characterized by the creation of medium to large applications in one-off or low volumes using specialized Operating Systems such as Real-time Operating Systems. Students will current languages, and are expected to have basic Operating Systems understanding. Prereq: CSCI 3453 Operating Systems Concepts. Semester Hours: 3 to 3

CSCI 4408 - Applied Graph Theory
Introduces discrete structures applications of graph theory to computer science, engineering and operations research. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and
circuits. Matching and covering problems, shortest route and network flows. Prereq: MATH 3000 or CSCI 2511. Cross-listed with MATH 4408. **Semester Hours:** 3 to 3

**CSCI 4411 - Computational Geometry**
Many practical and aesthetic algorithmic problems have their roots in geometry. Applications abound in the areas of computer graphics, robotics, computer-aided design, and geographic information systems, for example. A selection of topics from convex hull, art gallery problems, ray tracing, point location, motion planning, segment intersection, Voronoi diagrams, visibility and algorithmic folding will be covered. Prereq: CSCI 3412. Cross-listed with CSCI 5411. **Semester Hours:** 3 to 3

**CSCI 4501 - Java**
Comprehensive course on Java programming. Coverage of programming language constructs of Java and the core libraries that come with Java: coverage of advanced topics, including technologies for building distributed applications, and interacting with a database. Prereq: CSCI 2421. **Semester Hours:** 3 to 3

**CSCI 4555 - Compiler Design**
Introduces the basic techniques used in translating programming languages: scanning, parsing, symbol table management, code generation, code optimization and error recovery. Prereq: CSCI 3412 and 3415. **Semester Hours:** 3 to 3

**CSCI 4565 - Introduction to Computer Graphics**
Introduces two and three dimensional computer graphics. Topics include scan conversion, geometric primitives, transformation, viewing, basic rendering, and illumination. Emphasis is on programming using "C" and "C++" Open GL. Prereq: CSCI 3412 and MATH 3191 or 3195. Cross-listed with CSCI 5565. **Semester Hours:** 3 to 3

**CSCI 4591 - Computer Architecture**
Deals with how assembly language maps to hardware, and basic hardware techniques implemented in computers. Topics include logic design of arithmetic units, data control path processor logic, pipelining, memory systems, and input-output units. The emphasis is on logic structure rather than electronic circuitry. Students must know basic control logic design and be familiar with an assembly language before taking this course. Prereq: CSCI 2525 or ELEC 2651. **Semester Hours:** 3 to 3

**CSCI 4630 - Linguistic Geometry**
Linguistic Geometry (LG) is a type of Game Theory in Artificial Intelligence, which permits to overcome combinatorial explosion and generate optimal strategies in real time. LG is currently changing the paradigm of military command and control in the USA and abroad. Prereq: CSCI 3412 or permission of instructor. Cross-listed with CSCI 5619. **Semester Hours:** 3 to 3

**CSCI 4640 - Universal Compiler: Theory and Construction**
Theoretical foundations and step-by-step hands-on experience in the development of a compiler, which can tune itself to a new programming language. This is a must-take course for future software developers as well as those interested in applications of the theory of Computer Science. Cross-listed with CSCI 5640. **Semester Hours:** 3 to 3

**CSCI 4650 - Numerical Analysis I**
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, MATH 3191 or MATH 3195, and programming experience. Cross-listed with CSCI 5660, MATH 4650, and MATH 5660. **Semester Hours:** 3 to 3
CSCI 4660 - Numerical Analysis II
Numerical differentiation and integration, numerical solution of ordinary differential equations, and numerical solutions of partial differential equations as time allows. Prereq: MATH 3195 or both 3191 and 3200; MATH or CSCI 4650 or 5660; or programming experience. Cross-listed with CSCI 5661, MATH 4660 and 5661. Semester Hours: 3 to 3 When Offered: SPRING

CSCI 4738 - Senior Design I
This is an advanced practical course in which students design, implement, and document and test software systems for use in industry, non-profits, government and research institutions. The course offers practical experience by working closely with project sponsors. It also offers extensive experience in oral and written communication throughout the software life cycle. Prereq: CSCI 3508. Semester Hours: 3 to 3

CSCI 4739 - Senior Design II
This course is a continuation of Senior Design I. Students must have taken Senior Design I in order to enroll for Senior Design II. In this course, the projects begun in Senior Design I are completed and presented. Prereq: CSCI 4738. Semester Hours: 3 to 3

CSCI 4740 - Computer Security
Introduces basic knowledge from the computer security area. Concepts and techniques of cryptography, including history of codes and ciphers, basic cryptography techniques like data encryption standards, public key systems and digital signatures. Prereq: MATH 1120. Semester Hours: 3 to 3

CSCI 4761 - Introduction to Computer Networks
Introduction and overview of computer networks. Topics include protocols, quality of services and performance issues. Prereq: CSCI 2421. Semester Hours: 3 to 3

CSCI 4771 - Introduction to Mobile Computing
Provides an in-depth understanding of the fundamentals in mobile computing and studies the existing and proposed solutions for ubiquitous computing. This course focuses on systems and networking issues involved with supporting mobility. Prereq: CSCI 3453 and 4761. Cross-listed with CSCI 5771. Semester Hours: 3 to 3

CSCI 4788 - Bioinformatics
Provides a broad exposure to the basic concepts and methodologies of bioinformatics and their application to analyzing genomic and proteomic data. Topics may include dynamic programming algorithms, graph theoretic techniques, hidden Markov models, phylogenetic trees, RNA/protein structure prediction and microarray analysis. Prereq: CSCI 1410 and MATH 3195 or 3191. Cross-listed with MATH 4788, PHYS 4788. Semester Hours: 3 to 3

CSCI 4800 - Special Topics
Credit and subject matter to be arranged. Prereq: As determined by instructor. Semester Hours: 3 to 3

CSCI 4840 - Independent Study
For seniors majoring in computer science. Semester Hours: 3 to 3

CSCI 4910 - User Experience Design
A how-to course for any technologist who has endured difficult interfaces and wants to design effective user interfaces that respect and advance the user experience. Course includes: Psychology, HCI personas,
scenarios, prototyping, and evaluation for desktop and mobile applications. Prereq: CSCI 2312 - Intermediate Programming. **Semester Hours:** 3 to 3

**CSCI 4920 - Computer Game Design and Programming**
Computer Game Design and Programming introduces practical and example driven approaches to modern 3D game development. Topics include 3D modeling, character animation, UI design, scripting, texture mapping, and sound effect. Prereq: CSCI 2421. **Semester Hours:** 3 to 3

**CSCI 4939 - Internship**
Faculty or employer-supervised employment in industry. Enrollment is limited to students who fully completed a contract for cooperative education credit by the last day of the drop or add period. Prereq: CSCI 3415. **Semester Hours:** 1 to 3

**CSCI 5098 - Computer Science for Bioscientists**
Provides a broad but detailed overview of the computer science field to graduate students in the biosciences, with emphasis on web technologies, programming languages, algorithms and database systems. No credit for CS graduate students. Prereq: Working knowledge of programming language (e.g., Java). **Semester Hours:** 3 to 3

**CSCI 5217 - Information Theory**
Introduces information theory and its application in computer science, communication theory, coding and applied mathematics. Entropy, mutual information, data compression and storage, channel capacity, rate distortion, hypothesis testing, error detecting and correcting codes, block codes and sequential codes. Prereq: CSCI 4535. **Semester Hours:** 3 to 3

**CSCI 5255 - Object Oriented Design**
Software system design using object-oriented techniques, responsibility driven design and agile development practices. Topics include objects, classes, interfaces, inheritance, polymorphism, exception handling and testing. **Semester Hours:** 3 to 3

**CSCI 5408 - Applied Graph Theory**
Introduces discrete structures applications of graph theory to computer science, engineering and operations research. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits. Matching and covering problems, shortest route and network flows. Prereq: MATH 3000 or CSCI 2511. Cross-listed with MATH 4408. **Semester Hours:** 3 to 3

**CSCI 5409 - Graph Theory and Graph Algorithms**
Studies geometric graphs and other geometric objects, both analysis and algorithmic construction, leads to interesting connections among VLSI design, graph theory and graph algorithms. Studies a subset of the recent literature, with special emphasis on visibility graphs, thickness of graphs, graph coloring and the surprising and elegant connections among them all. Other topics are introduced as time permits. Prereq: CSCI 3412, CSCI 4408, CSCI 5451 or MATH 4408 or permission of instructor. **Semester Hours:** 3 to 3

**CSCI 5411 - Computational Geometry**
Many practical and aesthetic algorithmic problems have their roots in geometry. Applications abound in the areas of computer graphics, robotics, computer-aided design, and geographic information systems, for example. A selection of topics from convex hull, art gallery problems, ray tracing, point location, motion planning, segment intersection, Voronoi diagrams, visibility and algorithmic folding will be covered. Prereq: CSCI 3412. Cross-listed with CSCI 4411. **Semester Hours:** 3 to 3
CSCI 5446 - Theory of Automata
Studies the relationships between classes of formal languages (regular, context-free, context-sensitive, phrase-structure) and classes of automata (finite-state, pushdown, Turing machines). Additional topics include decidability and computability issues. Prereq: CSCI 3412. Cross-listed with MATH 5446. Semester Hours: 3 to 3

CSCI 5451 - Algorithms
Advanced design and analysis techniques: dynamic programming, greedy algorithms, amortized analysis. Advanced data structures: Fibonacci heaps, union-find data structures. Study of variety of special topics, which may include: graph algorithms, optimization problems, Fast Fourier Transform, string matching, geometric algorithms, NP-completeness and approximation algorithms. Prereq: CSCI 3412. Semester Hours: 3 to 3

CSCI 5542 - Neural Networks
Parallel distributed representations, dynamics of Hopfield-style networks, content addressable memories, and Hebbian learning are the major topics of the first half. The last half consists of simulated annealing, back propagation, competitive learning, and self-organizing networks. Prereq: CSCI 3412. Semester Hours: 3 to 3

CSCI 5551 - Parallel and Distributed Systems
Examines a range of topics involving parallel and distributed systems to improve computational performance. Topics include parallel and distributed programming languages, architectures, networks, algorithms and applications. Prereq: Graduate standing. Cross-listed with CSCI 7551. Semester Hours: 3 to 3

CSCI 5552 - Advanced Topics in Parallel Processing
Examines the advances of sequential computers for gaining speed and application of these techniques to high-speed supercomputers of today. Programming methodologies of distributed and shared memory multiprocessors, vector processors and systolic arrays are compared. Performance analysis methods for architectures and programs are described. Prereq: CSCI 5551. Cross-listed with CSCI 7552. Semester Hours: 3 to 3

CSCI 5559 - Database Systems
Introduces database system concepts, with examination of relational database systems from conceptual design through relational schema design and physical implementation. Topics include database design and implementation for large database systems, transaction management, concurrency control, object-oriented and distributed database management systems. Prereq: CSCI 3287. Semester Hours: 3 to 3

CSCI 5565 - Introduction to Computer Graphics
Introduces two and three dimensional computer graphics. Topics include scan conversion, geometric primitives, transformation, viewing, basic rendering, and illumination. Emphasis is on the programming using C and C++ Open GL. Prereq: CSCI 3412 and MATH 3191/3195. Cross-listed with CSCI 4565. Semester Hours: 3 to 3

CSCI 5573 - Operating Systems
Students study the principles of computer operating systems and their essential components. Team projects expose students to a variety of system design issues as they relate to the functionality and performance of the system. Topics include I/O devices, Disk Scheduling, File System Organizations, Directory Systems, Sequential and Concurrent process, CPU Scheduling, Memory Management,
Deadlock, Process and Threading, and review of some related articles in the literature. Prereq: Graduate Standing. **Semester Hours:** 3 to 3

**CSCI 5574 - Advanced Topics in Operating Systems**
Covers the advanced topics in operating systems by examining functionality and performance issues in CPU Scheduling, communications, distributed file systems, distributed operating systems, shared-memory multiprocessors and real-time operating systems. In addition to studying papers, reviews and presentations, students carry out a semester long team project within the scope of one of the above topics. Prereq: CSCI 3453 or CSCI 5573. Cross-listed with CSCI 7574. **Semester Hours:** 3 to 3

**CSCI 5582 - Artificial Intelligence**
Approaches to design of systems for solving problems usually solved by humans, especially those related to intelligent decision making. Emphasis on various types of knowledge representation. Cross-listed with CSCI 7582. **Semester Hours:** 3 to 3

**CSCI 5585 - Advanced Computer Graphics**
An in-depth study of active research topics in computer graphics. Topics include advanced rendering, global illumination, scientific visualization, geometric modeling, simulation and animation. Emphasis is on readings from literature and on a term project. Prereq: CSCI 5565 or 4565. **Semester Hours:** 3 to 3

**CSCI 5593 - Advanced Computer Architecture**
Important concepts in the structural design of computer systems are covered. Topics include memory hierarchy, super pipelining and super scalar techniques, dynamic execution, vector computers and multiprocessors. **Semester Hours:** 3 to 3

**CSCI 5595 - Computer Animation**
This course introduces the state of the art techniques for modern computer animation focused on a practical, example driven approach to learning the unique art of 3D animation. Topics include modeling, kinematics, rigging, textures, physically based dynamics, and rendering. Prereq: CSCI 3412. **Semester Hours:** 3 to 3

**CSCI 5610 - Computational Biology**
Designed to introduce a broad range of computational problems in molecular biology. Solution techniques draw from several branches of mathematics: combinatorics, probability, optimization, and dynamical systems. No prior knowledge of biology is critical, but it would be at least helpful to have the equivalent of BIOL 5099. Prereq: CSCI 2421. **Semester Hours:** 3 to 3

**CSCI 5619 - Complex Intelligent Systems**
Presents the cutting-edge results of research in AI: advanced topics in linguistic geometry. LG is an approach to construction of mathematical models for reasoning about large-scale multi-agent concurrent games. The purpose of LG is to provide strategies to guide the participants of a game to reach their goals. Prereq: CSCI 4630. **Semester Hours:** 3 to 3

**CSCI 5630 - Linguistic Geometry**
Linguistic Geometry (LG) is a type of Game Theory in Artificial Intelligence, which permits to overcome combinatorial explosion and generate optimal strategies in real time. LG is currently changing the paradigm of military command and control in the USA and abroad. **Semester Hours:** 3 to 3
CSCI 5640 - Universal Compiler: Theory and Construction
Theoretical foundations and step-by-step hands-on experience in the development of a compiler, which can tune itself to a new programming language. This is a must-take course for future software developers as well as those interested in applications of the theory of Computer Science. Cross-listed with CSCI 4640. **Semester Hours:** 3 to 3

CSCI 5654 - Algorithms for Communication Networks

CSCI 5660 - Numerical Analysis I
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, MATH 3191 or MATH 3195, and programming experience. Cross-listed with CSCI 4650, MATH 4650, and MATH 5660. **Semester Hours:** 3 to 3

CSCI 5661 - Numerical Analysis II
Numerical differentiation and integration, numerical solution of ordinary differential equations, and numerical solutions of partial differential equations as time allows. Prereq: MATH 3195 or both 3191 and 3200; MATH or CSCI 4650 or 5660; or programming experience. Cross-listed with CSCI 4660, MATH 4660 and 5661. **Semester Hours:** 3 to 3 **When Offered:** SPRING

CSCI 5667 - Introduction to Approximation Theory
Normed linear spaces, convexity, existence and uniqueness of best approximations. Tchebychev approximation by polynomials and other related families. Least squares approximation and splines. Prereq: MATH 4320. **Semester Hours:** 3 to 3

CSCI 5682 - Expert Systems
Reviews and analyzes many expert systems documented in the literature, such as Mycin, Macsyma, and Xcon. Emphasis is given to the design of rule-based systems, the use of uncertain and incomplete information and system shells. Prereq: CSCI 3412. **Semester Hours:** 3 to 3

CSCI 5690 - Knowledge Representation for Intelligent Systems
An in-depth study of different types of knowledge representation in artificial intelligence for the efficient control of complex real-world systems like autonomous robots, space vehicles, and military units. Major emphasis is on search algorithms and heuristics, logical representation with applications to planning, formal linguistic representation. At the conclusion, all the theories studied are combined in the form of introduction to the state-of-the-art linguistic geometrical representation of complex control systems. Prereq: CSCI 3412. **Semester Hours:** 3 to 3

CSCI 5701 - High-Performance Communication Systems and Network Analysis
Protocols and architectures related to high performance communication systems as well as network performance analysis techniques are covered. Topics include Integrated Services Digital Networks (ISDN), Broadband ISDN, protocols such as ATM and SONET, and high performance network architectures such as optical networks. Analytical analysis of network performance includes queuing theory and stochastic processes. Prereq: CSCI 4761 or 5761. **Semester Hours:** 3 to 3
CSCI 5702 - Data Mining
Introduces data mining and knowledge discovery. Topics include: preprocessing, clustering, machine learning, neural networks, fuzzy sets, and evolutionary computation. Prereq: CSCI 3412 and MATH 3191/3195. **Semester Hours:** 3 to 3

CSCI 5704 - Introduction to Distributed Systems
Studies design, implementation and management of distributed systems, including communication issues, security reliability, resource sharing, and remote execution. Prereq: CSCI 3453 and 4591. **Semester Hours:** 3 to 3

CSCI 5728 - Software Engineering
Groups of students plan, analyze and design large software projects. Prereq: CSCI 3412 and 3415. **Semester Hours:** 3 to 3

CSCI 5765 - Computer Networks
An in-depth study of active research topics in computer networks. Topics include: Internet protocols, TCP/UDP, congestion and flow control, IP routings, mobile IP, P2P overlay networks, network security, performance, and other current research topics. Prereq: Graduate standing. Cross-listed with CSCI 7765. **Semester Hours:** 3 to 3

CSCI 5771 - Introduction to Mobile Computing
Provides the fundamentals of mobile computing. Studies existing and proposed solutions for ubiquitous computing. This course focuses on systems and networking issues involved with supporting mobility. Prereq: CSCI 3453 and 4761. Cross-listed with CSCI 4771. **Semester Hours:** 3 to 3

CSCI 5780 - Theory of Distributed Computing
Elements of the theory of distributed computing through fundamental algorithmic ideas, lower bound techniques, and impossibility results. Timing assumptions (asynchrony and synchrony), simulations between models (message passing and shared memory), failure types (crash and Byzantine). Prereq: CSCI 3412. **Semester Hours:** 3 to 3

CSCI 5799 - Topics in Networked Computing
Studies in-depth active research topics in network based computing such as Cluster Computing, Grid Computing, Cloud Computing, P2P Computing, Pervasive Computing, Workflow Systems, and Social Network Computing. Students will study key research articles, **Semester Hours:** 3 to 3

CSCI 5800 - Special Topics
These special topics courses cover recent developments in an aspect of computer science. Prereq: As determined by instructor. **Semester Hours:** 3 to 3

CSCI 5840 - Independent Study
For graduate computer science students. **Semester Hours:** 1 to 3

CSCI 5941 - Directed Study: Programming Project
Software development project supervised by a faculty member approved by the Center for Computational Biology. Used towards a certificate in Computational Biology. Counts as an independent study. Prereq: CSCI 5451 and CSCI 5610. **Semester Hours:** 3 to 3
CSCI 6595 - Computational Methods in Nonlinear Programming
Introduces fundamental algorithms and theory for nonlinear optimization problems. Topics include
Newton, quasi-Newton and conjugate directional methods; line search and trust-region methods; active
set, penalty and barrier methods for constrained optimization; convergence analysis and duality theory.
Prereq: MATH 4320, MATH 5718. Semester Hours: 3 to 3

CSCI 6664 - Numerical Linear Algebra
Offered every other year. Solution of linear equations, eigenvector and eigenvalue calculation, matrix
error analysis, orthogonal transformation, iterative methods. Prereq: MATH 5660 and 5718. Semester
Hours: 3 to 3

CSCI 6950 - Master's Thesis
Semester Hours: 1 to 9

CSCI 6960 - Master's Report
Students seeking a Master of Science in computer science, who do not choose to do a thesis, must
complete an individual project of an investigative and creative nature under supervision of a full-time CS
graduate faculty. Student must present their results to a faculty committee. Semester Hours: 3 to 3

CSCI 7002 - Computer Security
A broad overview of computer security, roughly divided into three unequal components: a) the history of
codes and ciphers; b) basic cryptographic techniques, for example, symmetric cryptography,
authentication techniques, and asymmetric crypto systems, and: c) applications to current and future
computer-related technologies, for example, network security, wireless communication, quantum
cryptography, and more. Prereq: CSCI 5451. Cross-listed with ISMG 7002. Semester Hours: 3 to 3

CSCI 7173 - Computational Complexity and Algorithms
A solid, in-depth theoretical foundations in computing, computational complexity, and algorithmics.
Various algorithms, including both discrete and non-discrete problem domains. NP-complete and other
complete classes of problems/languages. Prereq: CSCI 3412 or equivalent. Semester Hours: 3 to 3

CSCI 7200 - Advances in Management Information Systems
Provides a broad coverage of research on the management of information technology. The course covers
the systems-oriented research, organizational-oriented research, and information systems economics
research. Prereq: PhD standing. Cross-listed with ISMG 7200. Semester Hours: 3 to 3

CSCI 7210 - Topics in Analytical Research in Management Information Systems
Covers a variety of analytical research topics of interest to the IS research community including the
evaluation of data mining algorithm performance, cost sensitive learning and outlier detection. Prereq:
Admission to the CSIS PhD program. Cross-listed with ISMG 7210. Semester Hours: 3 to 3

CSCI 7211 - Topics in Behavioral-Organizational Research in Management Information Systems
Provides in-depth exposure to some key behavioral, management and organizational theories and models
used in Information Systems research. Covers topics in socio-technical, trust, computer self-efficacy,
organizational transformation, organizational learning, resource-based and coordination theories. Prereq:
Admission to the CSIS PhD program. Cross-listed with ISMG 7211. Semester Hours: 3 to 3
CSCI 7502 - Research Methods
Promotes research skills. Involves presenting a research topic and discussions of its merits, reviewing journal articles, writing a paper and/or a proposal in the NIH/NSF format in the student’s area of research. Prereq: PhD student standing or permission of instructor for MS students who are writing a thesis. **Semester Hours:** 3 to 3

CSCI 7551 - Parallel and Distributed Systems
Examines a range of topics involving parallel and distributed systems to improve computational performance. Topics include parallel and distributed programming languages, architectures, networks, algorithms and applications. Prereq: Graduate standing. Cross-listed with CSCI 5551. **Semester Hours:** 3 to 3

CSCI 7552 - Advanced Topics in Parallel Processing
Examines the advances of sequential computers for gaining speed and application of these techniques to high-speed supercomputers of today. Programming methodologies of distributed and shared memory multiprocessors, vector processors and systolic arrays are compared. Performance analysis methods for architectures and programs are described. Cross-listed with CSCI 5552. **Semester Hours:** 3 to 3

CSCI 7574 - Advanced Topics in Operating Systems
Covers the advanced topics in operating systems by examining functionality and performance issues in CPU Scheduling, communications, distributed file systems, distributed operating systems, shared-memory multiprocessors and real-time operating systems. In addition to studying papers, reviews and presentations, students carry out a semester long team project within the scope of one of the above topics. Prereq: CSCI 3453 or CSCI 5573. Cross-listed with CSCI 5574. **Semester Hours:** 3 to 3

CSCI 7582 - Artificial Intelligence
Approaches to design of systems for solving problems usually solved by humans, especially those related to intelligent decision making. Emphasis on various types of knowledge representation. Cross-listed with CSCI 5582. **Semester Hours:** 3 to 3

CSCI 7595 - Computer Animation
This course introduces the state of the art techniques for modern computer animation focused on a practical, example driven approach to learning the unique art of 3D animation. Topics include modeling, kinematics, rigging, textures, physically based dynamics, and rendering. Prereq: CSCI 3412. **Semester Hours:** 3 to 3

CSCI 7654 - Algorithms for Communication Networks
Algorithmic and mathematical underpinnings of communication networks. A taxonomy of data-packet networks depending on modes of communication: fixed-interconnection networks, radio networks and multiple-access channel. Algorithms to implement packet routing and broadcasting. Prereq: Permission of instructor. Cross-listed with CSCI 5654. **Semester Hours:** 3 to 3

CSCI 7711 - Bioinformatics I
(BIOL 7711-Offered on a semester basis from H.S.C.) What is Bioinformatics and why study it? How is large-scale molecular biology data generated, where and how can researchers gain access to it, what computational analyses are possible and computational techniques for solving inference problems in molecular biology? Prereq: Permission of instructor. **Semester Hours:** 4 to 4 **When Offered:** FALL
CSCI 7712 - Bioinformatics II
(BIOL 7712-offered on a semester basis from H.S.C.) Inference problems and computational techniques for molecular biology, with emphasis on machine learning approaches. Use of computational induction techniques focused on information extraction from biomedical literature, inference of biochemical networks from high-throughput data and prediction of protein function. Estimation, clustering, discrimination and regression. Prereq: CSCI 7711. **Semester Hours:** 4 to 4 **When Offered:** SPRING

CSCI 7765 - Computer Networks
An in-depth study of active research topics in computer networks. Topics include: Internet protocols, TCP/UDP, congestion and flow control, IP routings, mobile IP, P2P overlay networks, network security, performance, and other current research topics. Prereq: Graduate standing. Cross-listed with CSCI 5765. **Semester Hours:** 3 to 3

CSCI 7799 - Topics in Networked Computing
Studies the active research topics in network based computing such as Cluster, Grid computing, P2P Computing, Pervasive Computing, Workflow system and Cloud Computing. Students will study key papers in the literature, and submit a research term project. Prereq: Graduate standing. Cross-listed with CSCI 5799. **Semester Hours:** 3 to 3

CSCI 7800 - Special Topics
These special topics courses cover recent developments in an aspect of computer science. Prereq: As determined by instructor. **Semester Hours:** 3 to 3

CSCI 7840 - Independent Study
Offers doctoral students opportunity for independent, creative work under supervision of a CSE full-time graduate faculty. **Semester Hours:** 1 to 6

CSCI 8990 - Doctoral Dissertation
**Semester Hours:** 1 to 9
Civil Engineering Courses (CVEN)

CVEN 1025 - Civil Engineering Graphics and Computer Aided Design
Introduces microcomputer-based, menu-driven, 2-D and 3-D computer-aided design systems; standard Civil Engineering industry details and some three-dimensional modeling of solid objects; principles on engineering drawing and descriptive geometry with applications specifically geared for civil engineers. Prereq: High School Geometry and Algebra. Semester Hours: 3 to 3

CVEN 1800 - Special Topics
Semester Hours: 1 to 6

CVEN 1840 - Independent Study
This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. Semester Hours: 1 to 6

CVEN 2121 - Analytical Mechanics I
A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. Prereq: PHYS 2311 and MATH 2421. Cross-listed with MECH 2023. Semester Hours: 3 to 3

CVEN 2200 - Computing Methods in Civil Engineering
Introduces MATLAB computer programming for engineering applications. Students will learn programming concepts such as relational and logical operations, branching statements and loops. They will apply these concepts in the MATLAB platform to write programs to solve several engineering problems. Prereq: CVEN 1025 and MATH 2411. Semester Hours: 3 to 3

CVEN 2212 - Plane Surveying
Observation, analysis and presentations of basic linear, angular, area and volume field measurements common to civil engineering endeavors. Prereq/Coreq: MATH 1401. Semester Hours: 3 to 3

CVEN 2800 - Special Topics 2800-283X
Semester Hours: 1 to 6

CVEN 2840 - Independent Study
This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. Semester Hours: 1 to 6

CVEN 3111 - Analytical Mechanics II
A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies; energy and momentum methods for particles, systems of particles and rigid bodies. Prereq: CVEN 2121. Cross-listed with MECH 2033. Semester Hours: 3 to 3

CVEN 3121 - Mechanics of Materials
Mechanical properties of materials, stresses and strains in members subjected to tension, compression and shear, combined stresses, flexural and shearing stresses in beams, deflections of beams, column analysis, principal stresses. Prereq: CVEN 2121. Cross-listed with MECH 3043. Semester Hours: 3 to 3
CVEN 3131 - Applied Mechanics
A limited study of particle and rigid body mechanics. Subject coverage introduces vector concepts of force, moment and equilibrium, then concentrates on kinematics and kinetics of particles in motion, including oscillatory and orbital and finally discusses rigid body motion with emphasis on energy and momentum methods. Prereq: MATH 2421 and PHYS 2311. (Not for Civil Engineer or Mechanical Engineer majors.)

Semester Hours: 3 to 3

CVEN 3141 - Introduction to Structural Materials
Introduces the production, properties, and behavior of common engineering materials. Emphasis is placed on concrete, steel, and wood. Includes the techniques used to determine material properties. Coreq: CVEN 3121. Semester Hours: 2 to 2

CVEN 3154 - Water Quality Laboratory
Lecture and lab weekly, discussing techniques and making measurements of water purity parameters. Prereq: CHEM 1130/2031 and 2038; Prereq or Coreq: MATH 2411. Semester Hours: 2 to 2

CVEN 3212 - Plane Surveying For GIS Majors
This course will present the concepts and practical materials for surveying instruments, survey data collection methods and data processing with applications in GIS. It will cover the shape of the Earth theory, Map projections, Datum, 2D and 3D coordinate transformation methods and coordinate geometry problems. Prereq: MATH 1401 and 2411. Semester Hours: 3 to 3

CVEN 3313 - Theoretical Fluid Mechanics
Introduces the fundamentals of fluid mechanics. Subject matter includes fluid properties, hydrostatics, the continuity principle, the energy principle, the momentum principle, similitude and dimensional analysis, forces on immersed bodies and laminar and turbulent flow in a closed conduit. Prereq: CVEN 2121. Semester Hours: 3 to 3

CVEN 3323 - Applied Fluid Mechanics
Applies the principles of fluid mechanics to analysis and design of hydraulic systems involving pressurized pipelines, open channels and pumps. Introduces fluid measurements which includes laboratory demonstrations and experiments. Prereq: CVEN 3313. Semester Hours: 3 to 3

CVEN 3401 - Introduction to Environmental Engineering
An introductory course that provides a unique systems approach to environmental engineering, examining the source-to-receptor feedback loop for pollution control. Physical, chemical and biological processes are integrated across atmospheric, wastewater and subsurface systems. Laboratory exercises provide direct experiential learning of key concepts. Prereq: CHEM 1130 or equivalent. Cross-listed with CVEN 5401. Semester Hours: 3 to 3

CVEN 3414 - Design of Water and Wastewater Systems
Covers the design of water distribution and wastewater collection systems. Topics include the design process, estimation of water demand and sewage flows, analysis of pipe networks and sewer systems, cost estimating, and design selection. Field trips are required. Prereq/Coreq: CVEN 3323. Semester Hours: 3 to 3

CVEN 3505 - Structural Analysis
Principles of structural analysis applied to statically determinate and indeterminate structures. Prereq: CVEN 3121. Semester Hours: 3 to 3
CVEN 3602 - Transportation Engineering
This course will introduce you to the concepts and methods of transportation engineering, planning and management. This course will emphasize traffic engineering. Topics will include vehicle dynamics, traffic flow fundamentals, accident analysis, signal timing, highway capacity analysis, level of service analysis, freeway operations, and evaluation procedures for alternative transportation projects. Prereq: Junior standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 3708 - Introduction to Geotechnical Engineering
Index properties of soils, soil classification, clay minerals, compaction and other soil improvement methods; shrinkage, swelling and frost action; permeability and seepage analysis, consolidation settlement and time rate of consolidation, shear strength of soils, bearing capacity and lateral earth pressure. Prereq: CVEN 3121. Prereq/Coreq: CVEN 3313. **Semester Hours:** 3 to 3

CVEN 3718 - Geotechnical Engineering I
Soil formation, phase diagram, soil constituents and behavior, description of soils, classification, clay minerals, compaction, soil improvement, capillarity, shrinkage, swell, collapsible soil, frost action, flow through porous media, and consolidation. Lab experiments, including specific gravity, grain size analysis, liquid and plastic limits, and consolidation, are to be conducted in concert with the lectures. Prereq: CVEN 3121. Coreq: CVEN 3313. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

CVEN 3800 - Special Topics: 3800-3839
**Semester Hours:** 1 to 6

CVEN 3840 - Independent Study
This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. **Semester Hours:** 1 to 8

CVEN 4000 - Senior Seminar
Required for all Civil Engineering majors. Each student shall take the state-administered Fundamentals of Engineering (F.E.) examination. This course is taken the semester of or prior to graduation. This course will meet once time after the FE exam and prior to the graduation ceremony to review curriculum and examination results. This course is a pass/fail course and failure to attend the meeting of this course will cause a fail, and may delay graduation. Prereq: CVEN 3111, ELEC 3030, senior standing and approved 30 credit hour check. **Semester Hours:** 0 to 0 **When Offered:** FALL SPR

CVEN 4067 - Senior Design Projects
Senior civil engineering students, working in teams, are assigned significant open-ended design problems requiring the synthesis of material learned in previous engineering courses for solution. Design teams work independently under the supervision of a civil engineering faculty member. Prereq: Graduation Agreement and one design course. Co-req: A second design course. **Semester Hours:** 3 to 3

CVEN 4077 - Engineering Economy
Applies economic and financial principles to evaluation of engineering alternatives. Calculation of annual costs, present worth and prospective rates of return on investment. Review of systems analysis techniques, including simulation, linear programming, and project scheduling. Prereq: Junior standing. Cross-listed with MECH 4147. **Semester Hours:** 3 to 3
CVEN 4087 - Engineering Contracts
Laws met by the practicing engineer, types of contracts, specification writing, laws on contracts, agency, partnership, sales and property, with primary emphasis on rights and duties of the engineer. Prereq: Senior standing. **Semester Hours:** 3 to 3

CVEN 4388 - Site Engineering
Course introduces the fundamentals of site engineering which require understanding and interpreting landforms, slopes, contour lines, grading, drainage, and earthwork to storm water management, hydrology reports, designing roadways, and street networks. Other topics include designing for ADA and concepts of sustainability in site design. Note: CAD experience is recommended. Cross-listed with CVEN 5388. **Semester Hours:** 3 to 3

CVEN 4405 - Environmental and Water Systems Analysis
The primary focus of this course is on quantitative techniques for environmental systems modeling analysis. The course primarily covers life cycle assessments (LCA) based concepts. The course will review basic steps in conducting an LCA, data collection and data processing. Other concepts such as EIOA, emergy and exergy analysis would be introduced. **Semester Hours:** 3 to 3

CVEN 4427 - Storm Water System Design
This course covers urban watershed analysis, design rainfall and hydrologic losses, flood frequency and design event, rational method for peak runoff prediction, street hydraulic capacity and safety, culvert hydraulics, street inlet collection system and storm sewer system design and flow analysis. Prereq: CVEN 3323 and senior standing. Cross-listed with CVEN 5427. **Semester Hours:** 3 to 3

CVEN 4537 - Numerical Methods for Engineers
Introduces numerical analysis. Solution of linear and non-linear equation systems. Numerical methods for ordinary and partial differential equations. Engineering applications. Prereq: CSCI 1410, MATH 3191 and 3200. **Semester Hours:** 3 to 3

CVEN 4565 - Timber Structure Design
Design of wood roof, wall, and floor systems including beams, columns, trusses, diaphragms and shear walls for vertical and lateral loads. Connection design, glued-laminated members, plywood, and engineered lumber are incorporated. Prereq: CVEN 3505 and CVEN 3141. Cross-listed with CVEN 5565. **Semester Hours:** 3 to 3

CVEN 4575 - Structural Steel Design
Design of structural steel members and their connections. Prereq: CVEN 3505 and CVEN 3141. **Semester Hours:** 3 to 3

CVEN 4585 - Reinforced Concrete Design
Ultimate strength methods for design of reinforced concrete structures. Prereq: CVEN 3505 and CVEN 3141. **Semester Hours:** 3 to 3

CVEN 4602 - Highway Engineering
Evaluates alternate highway routes. Discusses highway drainage, finance, maintenance, pavement design, traffic operations and principles of economic analysis. Analyses of the impact of the highway on the environment. Prereq: CVEN 3602 and CVEN 3708. **Semester Hours:** 3 to 3
CVEN 4718 - Intermediate Soils Engineering
Continuation of CVEN 3708 into selected topics in soils engineering. Laboratory experiments are performed to assess index properties of soils including gradation, soil consistency and specific gravity; moisture/density relations; soil classification, permeability, compressibility; and shear strength of soils. These soil parameters are then used in a design project required for the course. Prereq/Coreq: CVEN 3708. **Semester Hours:** 2 to 2

CVEN 4728 - Geotechnical Engineering II
Shear behavior and strength, and basic applications of shear strength (such as earth pressure and retaining structures, bearing capacity of footings, and slope stability). Lab experiments, including permeability, direct shear, unconfined compression, and traxial tests, are to be conducted in concert with the lectures. **Semester Hours:** 2 to 2 **When Offered:** FALL SPR

CVEN 4738 - Intermediate Foundation Engineering
Applies principles of soil mechanics to the analysis and design of foundations and earth structure. Theories of consolidation, earth pressure, slope stability, and bearing capacity. Studies settlement of structures, shallow and deep foundations, retaining walls and excavations. Prereq: CVEN 3708 and CVEN 3141. Coreq: CVEN 4718. **Semester Hours:** 3 to 3

CVEN 4780 - Engineering Geology
Studies geology as utilized in engineering and environmental practice. Emphasizes a conceptual integration of geologic materials, processes, and rates of change as a basis for successful application of geologic knowledge to environmental planning and engineering design projects. Prereq: MATH 2411 and CVEN 2121. Cross-listed with CVEN 5780 and GEOL 4780, 5780. **Semester Hours:** 3 to 3

CVEN 4800 - Special Topics: 4800-4839
Supervised study of special topics of interest to students under guidance of instructor. Prereq: Permission of instructor. **Semester Hours:** 1 to 6

CVEN 4840 - Independent Study
This category is intended for topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Departmental approval is required. **Semester Hours:** 1 to 6

CVEN 5111 - Structural Dynamics
Vibration and dynamic response of simple linear and nonlinear structures to periodic and general disturbing forces. Frequency domain analysis, response analysis of multi-degree-of-freedom systems. Wind and earthquake effects. Prereq: CVEN 3505. **Semester Hours:** 3 to 3

CVEN 5121 - Intermediate Mechanics of Materials
Intermediate-level course in the mechanics of deformable bodies. Plane stress and strain; stress-strain relation with emphasis on elastic and inelastic behavior of members, and theories of failure. Discussion of basic methods of structural mechanics, with applications to asymmetric and curved beams, thick walled pressure vessels, torsion of members of noncircular section, and other selected problems in stress analysis. Prereq: CVEN 3121, MATH 3191 and 3200. **Semester Hours:** 3 to 3

CVEN 5201 - Construction Dewatering
Introduction to construction dewatering including removal of ground water and surface water in construction sites, characteristics of groundwater aquifers, groundwater flow, geotechnical investigation of dewatering problems and application of modern dewatering technology. Basic methods for controlling
water on a construction project are presented incorporating open flow and pumping of excavations, soil pre-draining, water cutoff and exclusion. Prereq: Theoretical/applied fluid mechanics, Soil mechanics.

**Semester Hours:** 3 to 3

**CVEN 5333 - Applied Hydrology**
Engineering application of principles of hydrology. Subject matter includes precipitation measurement and data analysis, stream flow measurement and water budget analysis, evaporation and evapotranspiration, infiltration and rainfall-runoff relationships, hydrograph properties and unit hydrograph analysis, flood frequency, analysis and flood routing. Prereq: Permission of instructor.

**Semester Hours:** 3 to 3

**CVEN 5334 - Groundwater Hydrology**
Topics include groundwater occurrence, hydrologic cycle and budget, interactions with surface waters, principles of groundwater flow, well hydraulics, well field design, regional flow systems, water and pollutant chemistry, computer modeling and groundwater management. Emphasis is on quantitative analysis methods for groundwater resource inventory, design and management. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5335 - Vadose Zone Hydrology**
Engineering analysis of the vadose zone, the unsaturated porous media linking the earth surface to groundwater. Darcy's law for flow. Richards equation for moisture content. The advection-dispersion equation for solutes. Analytical solutions and numerical **Semester Hours:** 3 to 3

**CVEN 5336 - Urban Runoff Quality and Quantity Modeling**
This course covers rainfall/runoff data base, rain gage under-catch, statistical models for frequency analysis, Unit Graph and Kinematic Wave method for runoff prediction, urban watershed modeling, event-based flood prediction, continuous flow predictions, modeling consistency and sensitivity, impact assessments, master drainage planning, and storm centering technique. Prereq: CVEN 5333 - Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5343 - Open Channel Hydraulics**
Engineering analysis and design of natural and artificial open channels. Application of uniform flow concept to design of erodible and non-erodible channels. Application of energy and momentum principles to conditions of gradually varied flow, spatially varied flow and rapidly varied flow. Prereq: CVEN 3323 or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5344 - Unsteady Open Channel Hydraulics**
Derivation of basic principles of unsteady open channel flow. Application of kinematic wave, diffusive wave and dynamic wave approaches to open channel, including overland flow and flow in a drainage or river network. Introduction of numerical finite difference methods, characteristic method and simplified analytical method for the solution of unsteady open channel flow problems. Evaluation of computer simulation models such as DWOPER and SWMM. Prereq: CVEN 5343 and CVEN 5333 or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5345 - Computational Methods for Water Resources**
This course covers two major areas: hydrologic and hydraulic numerical routing schemes. The hydrologic routing includes linear and nonlinear reservoir operations using the characteristic curves derived from the reservoir geometry. The hydrologic routing numerical scheme will be applied to optimize the reservoir operations for power generation, irrigation, and flood control. The hydraulic routing covers Dynamic Flood Wave, Diffusive Wave, and Kinematic Wave. The finite difference method is used to develop
numerical models to predict flood flows through channels. This course also covers probable maximum precipitation and dam break flow analysis. Prereq: CVEN 3323. **Semester Hours:** 3 to 3

**CVEN 5381 - Introduction to Geographic Information Systems**
Provides an overview exposure and experience with various aspects of GIS technology and its uses for natural resource and infrastructure, planning, design and management. This course involves a survey of GIS software and hardware, review of cartographic mapping principles, hands-on applications to environmental impact assessment, municipal facilities management, transportation, water resources and demographics. GIS project management factors are addressed. Prereq: Graduate and/or upper division standing. **Semester Hours:** 3 to 3

**CVEN 5382 - GIS Spatial Database Development**
This second GIS course builds on the introductory course and addresses principles and technologies for development and conversion of spatial databases, including photogrammetry, surveying and geodesy, coordinate systems and transformations, and remote sensing. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 (or equivalent) and MEng-GIS program prerequisites (especially surveying, mapping and computing); background in algebra, calculus fundamentals and facility to compute DOS/UNIX, spreadsheet, and FORTRAN; familiarity with various CAD (e.g. AutoCAD) and GIS (e.g. ArcInfo, GRASS) software is also required. **Semester Hours:** 3 to 3

**CVEN 5383 - GIS Analysis -- Theory and Practice**
This third course reviews GIS software functions and terminology, including data entry (input, editing), manipulation (projection, merge, window, aggregate), analysis (map algebra, overlay, Boolean, interpolation network, measurements, distance, terrain modeling, statistical analysis), query (spatial, attribute), and display/reporting. Integration of various domain-specific systems analysis models with GIS databases is also addressed. Laboratory activities involve programming applications using available GIS. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 (or equivalent) and completion of MEng-GIS prerequisites (especially applied Statistics); background in algebra, calculus fundamentals, facility to compute DOS/UNIX, OS/UNIX, spreadsheet, and FORTRAN; familiarity with various CAD (e.g., AutoCAD) and GIS (e.g., ArcInfo, GRASS), software is also required. **Semester Hours:** 3 to 3

**CVEN 5384 - GIS Management and Policies**
This fourth course addresses aspects of GIS planning and development. These include topics of benefit-cost and financial analysis, scheduling, project management, internal and external marketing. Also, addressed are issues of GIS institutional acceptance, the role of computerized spatial data systems in decision making, application of planning techniques for accomplishing resource goals, administrative structure which enhances efficiency of use, and legal considerations involved with development and use of such databases. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 (or equivalent); familiarity with various CAD (e.g. AutoCAD) and GIS (e.g., ArcInfo, GRASS) software is also required. **Semester Hours:** 3 to 3

**CVEN 5385 - GIS Relational Database Systems**
Introduces relational database management system concepts with emphasis on GIS. Includes examination of relational database systems from conceptual design through relational schema design and physical implementation. Topics include SQL, database design and implementation for large database systems, transaction management, concurrency control, distributed database management systems and the interaction and progressive integration of GIS technologies and RDBMS technologies. Prereq: Graduate and/or upper division standing; completion of CVEN 5381 or equivalent and completion of MEng-GIS program prerequisites. **Semester Hours:** 3 to 3
CVEN 5386 - GIS Laboratory
Provides in-depth experience with use and programming of a particular GIS software, including ArcGIS and related object-oriented programming languages. Advanced functionality for user authoring of software interface, data management and analysis functions and output generation. Exact content will vary by semester. Prereq: Computing and Introduction to GIS or their equivalent. Semester Hours: 3 to 3

CVEN 5387 - Advanced Remote Sensing
Addresses remote sensing concepts including 1) imaging sensors and geo-referencing; 2) image processing for radiometric, multi-spectral image enhancement, and multi-sensor image fusion; and 3) multi-spectral image classification, including feature extraction, supervised and unsupervised classification, and extensions to hyper-spectral data. Prereq: Calculus II, Statistics, Surveying and Mapping, Introduction to GIS, GIS Spatial Data Development (CVEN 5382) or Introduction to Remote Sensing. Semester Hours: 3 to 3

CVEN 5388 - Site Engineering
Course introduces the fundamentals of site engineering which require understanding and interpreting landforms, slopes, contour lines, grading, drainage, and earthwork to storm water management, hydrology reports, designing roadways, and street networks. Other topics include designing for ADA and concepts of sustainability in site design. Note: CAD experience is recommended. Cross-listed with CVEN 4388. Semester Hours: 3 to 3

CVEN 5393 - Water Resources Development and Management
A multidisciplinary exploration of the principles governing water resources planning and development. Emphasis is on the sciences of water (physical, engineering, chemical, biological and social) and their interrelationships. Semester Hours: 3 to 3

CVEN 5394 - Water Resources Systems
Addresses the concepts, general processes, and quantification methods used in planning and analysis of water resource system planning and operations problems and goals, analysis methods, computer simulation and optimization. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

CVEN 5401 - Introduction to Environmental Engineering
Provides a broad overview of the environmental engineering and pollution control system. Offers a unique systems approach to environmental engineering, examining the source-to-receptor feedback loop system of pollution control. Process principles underlying pollutant, transport, abatement, and control are presented in a unified manner, cross-cutting atmospheric, wastewater and subsurface systems. Prereq: Graduate standing in MSCE or MSES programs or permission of instructor. Cross-listed with CVEN 3401. Semester Hours: 3 to 3

CVEN 5402 - Integrated Environmental Modeling
Provides unified understanding of fundamental physical, chemical and biological processes that govern the transport and fate of pollutants in environmental systems - water, air and subsurface. The course focuses on multimedia modeling and model solution methods. The course also introduces exposure and risk assessment techniques. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3
CVEN 5403 - Environmental Regulations and Management Systems
Students will receive an overview and understanding of major environmental laws and will be introduced to legal concepts used to develop environmental laws. In addition, students will learn about environmental management systems and their applications to environmental problems. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5404 - Sustainable Water Systems: Physical & Chemical Processes
A comprehensive course that covers the theory and application of chemical (acid base equilibria, redox reactions, chemical equilibrium and kinetics etc.) and physical processes (sedimentation, filtration, adsorption, membrane separation, reactor design) used in water quality engineering, with an emphasis on sustainable treatment options, looking at social, economic and environmental aspects of these technologies. Since numbers of these technologies are energy intensive, emphasis will be placed on life cycle impacts and energy efficiency of these processes. The lectures will integrate source water quality, local, geographical conditions and regulatory requirements into design of the treatment options. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5405 - Systems Analysis for Environment and Sustainability
Focuses on quantitative techniques for environment systems modeling, analysis and assessment. The course primarily covers life cycle assessment (LCA) techniques. The students will learn the various steps for conduction an LCA including goal and scope definition, life cycle inventory (LCI), life cycle impact assessment (LCIA) and interpretation. Mathematical techniques for uncertainty & sensitivity analysis, such as Monte Carlo simulations will be covered. Students will be exposed to several LCA case studies. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5427 - Storm Water System Design
This course covers urban watershed analysis, design rainfall and hydrologic losses, flood frequency and design event, rational method for peak runoff prediction, street hydraulic capacity and safety, culvert hydraulics, street inlet collection system and storm sewer system design and flow analysis. Prereq: CVEN 3323. Cross-listed with CVEN 4427. **Semester Hours:** 3 to 3

CVEN 5434 - Sustainable Water Systems: Biological Processes
A comprehensive course that covers the theory and application of biological processes used in water quality engineering, with an emphasis on state-of-the-art water pollution control and waste-to-energy technologies. The initial lectures will introduce material on microbial energetics, diversity, and kinetics. The reminder of the course will involve the application of fundamental principles to treatment and energy recovery processes, including bioreactor configurations and design considerations. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5444 - Design of Solid Residuals and Natural Treatment Systems
Solid residuals treatment topics include thickening, dewatering, digestion, land application and composting. Natural treatment systems topics include slow rate, rapid, and overland flow land treatment systems; and constructed wetlands. Field trip required. Prereq: Graduate standing, MATH 2411, PHYS 2311 and ability to use spreadsheets. **Semester Hours:** 3 to 3

CVEN 5456 - Engineering Practice
Consulting engineering practice and management. Professional practice and organization. Marketing, ethics, personnel selection, and training. Planning, budgeting, work scheduling, resource allocation, and balancing. Oral and written communication, quality standards, and engineering management. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3
CVEN 5457 - Administration of Public Works
A descriptive course concerned with the administration of engineering and planning aspects of urban public works. Prereq: Graduate standing in civil engineering or public administration, or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5460 - Introduction to Sustainable Urban Infrastructure
Focuses on developing uniform vocabulary on sustainable infrastructure across science & technology, architecture & planning, public policy, and health & behavioral sciences. Students learn concepts, principles/pathways and evaluation techniques for promot **Semester Hours:** 3 to 3

CVEN 5461 - Defining and Measuring Sustainability
Unique cross-disciplinary course that teaches students community engagement strategies to define sustainability goals. Life cycle assessment and material flow analysis tools used to measure environmental sustainability benchmarks. Field work applies both **Semester Hours:** 3 to 3

CVEN 5462 - Theories of Sustainable Infrastructure Management
This seminar introduces theories of sustainable infrastructure management from a variety of disciplinary perspectives. Students then apply them to resolution of a variety of actual infrastructure management problems. **Semester Hours:** 3 to 3

CVEN 5480 - Hazardous Wastes and Site Remediation
Students learn to: (1) define and classify hazardous wastes encountered at hazardous waste-contaminated sites, (2) learn basic principles underlying currently available technologies for site remediation, (3) use EPA’s technology screening matrix for technology selection, and (4) provide engineering design for selected remediation systems, e.g. ground-waterpump-and-treat, soil vapor extraction, soil washing, and bioremediation. Prereq: CVEN 5402. **Semester Hours:** 3 to 3

CVEN 5481 - Sustainable Water Systems Policy and Planning
To provide students with a working knowledge of sustainable urban water systems which are resilient, resource efficient and environment friendly. Students will learn about the various components of urban water and wastewater systems, including water resource management, treatment, transport and reuse, and how to evaluate, develop and design the various components in a sustainable manner. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5494 - Risk Assessment in Environmental Engineering
The process of determining the likelihood and extent of harm that may result from an activity or event. Topics covered are: hazard identification, dose-response evaluation, exposure assessment, and risk characterization. The subjects of risk management, risk perception, and risk communication are also discussed. Prereq: Graduate standing or permission of instructor. Cross-listed with ENVS 6200, HBSC 7340. **Semester Hours:** 3 to 3

CVEN 5514 - Matrix Analysis of Structures
Matrix analysis of skeletal structures. Systematic formulation of stiffness and flexibility methods of analysis of skeletal structures. Application of modern computational tools to structural analysis, including introduction to the finite element method. Prereq: CVEN 3505. **Semester Hours:** 3 to 3

CVEN 5515 - Introduction to Finite Element Analysis
Systematic formulation and application of the finite element approximation to the solution of engineering problems. Topics include one- and two-dimensional elasticity problems, two-dimensional heat flow and irrotational fluid flow. Elements considered include triangular and quadrilateral elements formulated by
elementary and isoparametric techniques. Prereq: Graduate standing or permission of instructor.  

Semester Hours: 3 to 3

CVEN 5537 - Numerical Methods in Civil Engineering

CVEN 5565 - Advanced Timber Structure Design
Design of wood framing systems including beams, columns, trusses, and diaphragms. Wood as a material, framing terminology, connection design, structural composite lumber, glued-laminated members, and Plywood are covered. The course will emphasize on preparing students for a career in structural engineering. Prereq: C E 3505, Structural Analysis. Cross-listed with C E 4565. Semester Hours: 3 to 3

CVEN 5575 - Advanced Topics in Structural Steel Design
Plate buckling, plate girder design and other topics determined by class interest. Prereq: CVEN 4575. Semester Hours: 3 to 3

CVEN 5585 - Advanced Topics in Reinforced Concrete
Advanced topics relating to design and analysis of reinforced concrete structures. Prereq: CVEN 4585. Semester Hours: 3 to 3

CVEN 5602 - Advanced Street & Highway Design
This course delves into the art and science of designing sustainable and context sensitive street and highway facilities. Topics include road classification, transportation planning, road alignments, cross-section design, bicycle and pedestrian facilities, intersections, and street network design. Prereq: Permission of Instructor. Semester Hours: 3 to 3

CVEN 5611 - Traffic and Safety Data Analysis
Covers statistical analysis methods for engineering studies in general, and for highway accident and traffic flow data in particular. Topics include data needs, sampling designs, survey methods, hypothesis testing, tests of proportions, non-parametric tests, analysis of variance, multivariate regression, and other tests of fit. Introductory overview of state and federal accident databases. Comparisons of accident rates by highway type, vehicle speeds, vehicle types, weather conditions and other factors also presented. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

CVEN 5612 - Traffic Impact Assessment
Covers (1) procedures to satisfy state and local requirements for transportation impact studies, (2) methods to perform trip generation, distribution, and traffic assignment for impact analyses, and (3) analysis of transportation impacts on residential communities, mode choice, regional business (downtown or suburban), peak and off-peak travel times, noise, safety, parking and pedestrians. A course project requires students to develop an application of analysis software to a case study area. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

CVEN 5613 - Traffic Flow Theory and Fundamentals
Emphasizes the mathematical and probabilistic aspects of traffic flows on interrupted (signalized) and uninterrupted (unsignalized) roadways. The course examines the properties of vehicle motion in traffic streams, and then examines the traffic interactions affected by the relationship between supply (signal timings and road designs) and demand (vehicle arrival rates and traffic patterns). Both macroscopic and
microscopic models of traffic flow characteristics are presented, as well as queuing models and statistical distributions of headways. Prereq: CVEN 5611 and CVEN 5621 or permission of instructor. **Semester Hours: 3 to 3**

**CVEN 5621 - Highway Capacity Analysis**
Covers the principles and applications of highway capacity analysis for freeways and arterials, ramps and interchanges, weave and merge sections, signalized and unsignalized intersections, roundabouts, pedestrian areas and transit. Emphasis is on level-of-service analysis procedures in the Highway Capacity Manual, although other approaches are also discussed. Additional topics include roadway characteristics, vehicle dynamics, human factors, speed and volume studies, travel time surveys and traffic flow characteristics. Prereq: Graduate standing or permission of instructor. **Semester Hours: 3 to 3**

**CVEN 5622 - Traffic Operations and Control**
Covers principles of traffic flow and analysis methods for surface street traffic systems. Emphasis is on network modeling and simulation of coordinated signal systems, together with unsignalized intersections and freeway junctions using modern software tools. Additional topics include alternative signal timing plans, signal controllers, vehicle detection systems for volume, speed, occupancy and ramp metering. A course project requires students to develop and apply modeling software to a case study area. Prereq: CVEN 5621 or permission of instructor. **Semester Hours: 3 to 3**

**CVEN 5631 - Transportation Planning Methods**
Introduces the urban transportation planning process as conducted by metropolitan planning organizations throughout the U.S. Course covers the four-step modeling process (trip generation, trip distribution, mode split and assignment). Topics also include data needs, survey methods, and statistical models for origin-destination estimation and travel demand forecasting. Prereq: Graduate standing or permission of instructor. **Semester Hours: 3 to 3**

**CVEN 5632 - Urban Transportation Modeling**
An advanced coverage of urban and regional transportation planning models, procedures and software. Mathematical formulations, properties, and solution algorithms are presented. Additional topics include methods of data acquisition from public domain databases for use in modeling software. A course project requires students to develop an application of modeling software to a case study area. Prereq: CVEN 5631 or permission of instructor. **Semester Hours: 3 to 3**

**CVEN 5652 - Airport Planning and Design**
National airport system plan, air travel demand, geometric design of airport facilities, design of airport pavement and drainage structures, and airport environmental impact. Prereq: CVEN 3602 and graduate standing or permission of instructor. **Semester Hours: 3 to 3**

**CVEN 5662 - Transportation System Safety**
Safety aspects of highway, railroad, and airway transportation systems. Accident analysis, accident prevention, economic consequences of accidents. Prereq: CVEN 3602 and graduate standing or permission of instructor. **Semester Hours: 3 to 3**

**CVEN 5682 - Pavement Design**
Design of flexible and rigid pavements for highways and airports; stress analysis in flexible and rigid pavements; design of joints and reinforcing steel for rigid pavements; principles of subgrade stabilization. Prereq: CVEN 3141, 3505, and 3708. **Semester Hours: 3 to 3**
CVEN 5692 - Urban Traffic Workshop
Selected laboratory problems related to urban traffic. Prereq: CVEN 5642 or equivalent. **Semester Hours:** 3 to 3

CVEN 5708 - Advanced Soils Engineering
A unified treatment of the foundation of soil engineering analysis. Topics include stress-strain-strength of soils; generalized limiting equilibrium analysis; stability analyses of earth-retaining structures, slopes, and shallow foundations; probabilistic approach of stability assessment; computation of settlement of foundations in sand and clay and time-rate of consolidation and critical state concept. Special attention is directed toward the illustration of theory through practical examples. Prereq: CVEN 3708, CVEN 4718, and graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5709 - Settlement Analysis
A unified treatment of settlement analysis on sand and clay. Topics include settlement of shallow foundation, settlement of deep foundation, and settlement of embankments, walls and excavations. Conventional methods of analysis and the finite element method of analysis are covered. Critical design implications are emphasized. **Semester Hours:** 3 to 3

CVEN 5718 - Engineering Properties of Soils
Engineering properties of soils, including index properties, permeability, stress-strain behaviors, shear strength, compressibility, critical state soil models and their application in interpreting soil behaviors. Attention also is directed to laboratory and in situ tests to examine the validity of shear strength and compressibility theories and their application to stability and settlement analysis. Prereq: CVEN 3708, CVEN 4718, and graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5719 - Design and Construction of Geosynthetic-Reinforced Soil Structures
Theory of reinforced soil; mechanical and hydraulic properties of geosynthetics; soil-geosynthetic interaction behavior; design concepts of GRS structures; design and construction of GRS retaining walls; design and construction of GRS embankments and slopes; design and construction of GRS foundations. Prereq: CVEN 5708. **Semester Hours:** 3 to 3

CVEN 5728 - Groundwater and Seepage
Principles governing flow of water through soils. Approximate methods for confined and unconfined seepage problems, including flow nets, analog models, numerical methods, and method of finite elements. Analytical solutions for unconfined flow problems. Drainage filter design. Seepage toward wells. Stability of earth structures due to seepage. Prereq: CVEN 3708, CVEN 4718, and graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5738 - Foundation Engineering
Methods of subsurface exploration and sampling of soils, lateral support in open cuts, control of groundwater, analysis and design of shallow foundations, analysis and design of deep foundations, bridge abutments and cofferdams, underpinning, and application of modern computational techniques to analysis and design of foundations. Prereq: CVEN 5708, CVEN 5718, and graduate standing or permission of instructor. **Semester Hours:** 3 to 3

CVEN 5748 - Design of Earth Embankment Dams
Theory, design, and construction of earth embankments. Use of published data, field exploration, laboratory tests on soils and rock in investigating foundations, and construction materials. Principles of compaction and settlement. Slope stability analysis, landslide, recognition and control, use of benches and
beams. Prereq: CVEN 3708, CVEN 4718, and graduate standing or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5758 - Foundations on Expansive Soils**  
Expansive soils swell upon wetting because of the swelling nature of constituent clay minerals, particularly montmorillonite. This course studies swelling nature of different clay minerals, effects of wetting, swelling potential, swelling pressures, and design of different foundation systems. Prereq: CVEN 4738, B.S.C.E. or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5768 - Introduction to Rock Engineering**  
Nature of rock masses, geological exploration, deformability and strength, in situ stresses and deformation, rock hydraulics. Prereq: CVEN 3708, CVEN 4718 and graduate standing or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5778 - Applied and Experimental Rock Mechanics**  
Surface exploration and characterization of rock masses, slope stability, analysis of rock masses; rock mass reinforcement; tunnel and shaft designs, design of underground rock chambers; foundations on rocks; and dam design. Prereq: CVEN 5768 or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5780 - Engineering Geology**  
Studies geology as utilized in engineering and environmental practice. Emphasizes a conceptual integration of geologic materials, processes, and rates of change as a basis for successful application of geologic knowledge to environmental planning and engineering design projects. Prereq: MATH 2411 and CVEN 2121. Cross-listed with CVEN 4780 and GEOL 4780/5780. **Semester Hours:** 3 to 3

**CVEN 5788 - Design and Construction of Municipal Solid Waste Disposal Facilities**  
NIMBY (Not In My Back Yard) and environmental regulations demand that all landfills receive proper engineering design. This course covers regulations, management (reduction, collection, transportation, transformation, recycling, incineration, disposal), and disposal facility design. Prereq: Senior in CVEN, B.S.C.E. or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5792 - Energy Resources and Systems for Sustainability**  
Introduction to energy resources including coal, oil, natural gas, nuclear, hydro, wind, solar, biomass and geothermal. Resource utilization in power systems incorporating issues of sustainability, demand trends, pollution and future use. Interdisciplinary presentation of engineering, physical science, and economic principles. Prereq: Physics, Engineering Mechanics. **Semester Hours:** 3 to 3

**CVEN 5798 - Dynamics of Soils and Foundations**  
Principles of vibrations of, and wave propagation in, elastic, homogeneous, isotropic media; laboratory and in situ measurements of soil properties; applications of these principles and properties to the design of foundations subject to dynamic loading generated by machinery, earthquakes, or blasts. Prereq: CVEN 5708, 5718, and graduate standing or permission of instructor. **Semester Hours:** 3 to 3

**CVEN 5800 - Special Topics**  
Topical courses offered once or on irregular intervals. Typical topics include: computer-aided structural engineering, pre-stressed concrete, non-matrix structural analysis, geotechnical aspects of hazardous waste management, geographic information system **Semester Hours:** 1 to 6
**CVEN 5835 - Advanced Timber Structure Design**
Design of wood framing systems including beams, columns, trusses, and diaphragms. Wood as a material, framing terminology, connection design, structural composite lumber, glued-laminated members, and plywood are covered. The course will emphasize on preparing students for a career in structural engineering. Prereq: CVEN 3505, Structural Analysis. **Semester Hours:** 3 to 3

**CVEN 5840 - Independent Study: CVEN**
Available only through approval of the graduate advisor. Subjects arranged to fit needs of particular student. **Semester Hours:** 1 to 6

**CVEN 5950 - Master’s Thesis**
**Semester Hours:** 1 to 8

**CVEN 5960 - Master’s Report**
**Semester Hours:** 1 to 8

**CVEN 6110 - PhD Seminar**
Introduces PhD students to the process of doctoral research, addresses important milestones and hurdles in the PhD process, and provides advanced doctoral students with the opportunity for presenting and discussing their research with peers. Prereq: Admission to the PhD program. **Semester Hours:** 0 to 0

**CVEN 6111 - Dynamics of Structures**
Linear and nonlinear dynamic matrix analysis of multi-degree-of-freedom structural systems. Analysis and design for wind and earthquake loads including modal analysis and sub structuring techniques. Computer programming. Prereq: CVEN 5111. **Semester Hours:** 3 to 3

**CVEN 6131 - Theory of Elasticity**
Mathematical theory of elasticity and its applications to engineering problems. Discussion of the basic analytical and numerical methods of solutions. Prereq: CVEN 5121. **Semester Hours:** 3 to 3

**CVEN 6165 - Buckling in Structures**
Buckling of columns, beams, frames, plates, and shells in the elastic and plastic range. Post-buckling strength of plates. Beam-columns. Analysis by exact and approximate methods with special emphasis on practical implications and application of solutions. Prereq: CVEN 3121. **Semester Hours:** 3 to 3

**CVEN 6336 - Urban Flood Control System Design**
This course covers urbanization impact on watershed regime, flood control measures, detention and retention system, infiltration basin, sand filter, water quality control basin, wetland preservation, storm water Best Management Practices, low impact development, outlet structure design, pond safety, stream restoration, overflow risk analysis and optimal operation. Prereq: CVEN 5333, 5343 and graduate standing. **Semester Hours:** 3 to 3

**CVEN 6353 - Hydraulic Design**
Design of small dams, including reservoir sizing, spillways, and energy dissipaters. Design of urban drainage and flood control facilities such as culvert transitions, roadside ditches, street inlets, detention/retention ponds, storm sewer systems, drainage channels, and channel erosion controls including vegetation, concrete, riprap protection. Design of flood plain encroachment, natural channel improvement, and bridge hydraulics. Prereq: CVEN 5333 and 5343. **Semester Hours:** 3 to 3
CVEN 6515 - Advanced Theory of Structures
Generalized approaches to the analysis of civil engineering and continuous elastic structures (such as plates and plane stress bodies) by force and displacement methods. Emphasis is on formulation by finite elements and solution by matrix methods. Prereq: CVEN 5515 and basic knowledge of computer programming. **Semester Hours:** 3 to 3

CVEN 6738 - Finite Element Method in Geotechnical Engineering
Topics covered include: review of finite element methods, advantages and limitation of FEM for analysis of geotechnical engineering problems, one- and two-dimensional seepage analysis, consolidation analysis, incremental and iterative procedures in nonlinear analysis, no-tension analysis, simulation of construction sequence, simulation of soil behavior, simulation of interface behavior, and load-displacement analysis of earth structures. Prereq: CVEN 5708 and 5515 or consent of instructor. **Semester Hours:** 3 to 3

CVEN 6840 - Independent Study
**Semester Hours:** 1 to 6

CVEN 7800 - Special Topics
Credit and subject matter to be arranged. Prereq: Variable. **Semester Hours:** 1 to 6

CVEN 7801 - Special Topics
**Semester Hours:** 1 to 6

CVEN 7840 - Independent Study
Available only through approval of the graduate advisor. Subjects arranged to fit needs of particular student. **Semester Hours:** 1 to 3

CVEN 7990 - Doctoral Dissertation
**Semester Hours:** 1 to 10

CVEN 8990 - Doctoral Dissertation
**Semester Hours:** 1 to 10
Decision Sciences For Business Courses (DSCI)

DSCI 2010 - Business Statistics
Basic principles of probability and statistics with applications in business. Includes descriptive statistics, probability and probability distributions, data collection, sampling distributions, statistical inference, simple regression and the use of a computer to perform statistical analysis. Students are required to present their analyses in written and/or oral form and defend their conclusions. This is a business core course. Therefore a grade of a 'C' or better must be earned to satisfy Business graduation requirements and prerequisites for other business courses. Prereq: MATH 1070, MATH 1080, and computer literacy (working knowledge of basic operating system and file manipulation commands, email, the world-wide web, a word processing package and spreadsheets). Semester Hours: 3 to 3

DSCI 3000 - Operations Management
Introduces the concepts and methods commonly used in manufacturing and service operations. Topics include aggregate planning, inventory control, scheduling, quality control, and linear programming. This is a business core course. Therefore a grade of a 'C' Semester Hours: 3 to 3 When Offered: FASPRSUM

DSCI 3780 - Supply Chain Management
Over the last decade businesses have started to understand how the design and operation of their supplier network can be a source of competitive advantage. Supply chain management is concerned with the activities around communication, managing inventory, Semester Hours: 3 to 3

DSCI 4840 - Independent Study
Semester Hours: 3 to 3

DSCI 4950 - Special Topics in Decision Sciences
Courses offered on an irregular basis for the purpose of presenting new subject matter in Decision Sciences. Prereq: Will vary depending upon the particular topic and instructor. Semester Hours: 3 to 3

DSCI 5939 - Internship
Semester Hours: 1 to 3

DSCI 6010 - Deterministic Models
Seldom offered. Linear programming and its application, network analysis, including scheduling models, dynamic programming, integer programming, non-linear programming. Prereq: BUSN 6530 and 6630. Semester Hours: 3 to 3

DSCI 6020 - Stochastic Models
Seldom offered. A variety of stochastic models and their application are discussed. Simulation modeling and analysis is emphasized as an approach for addressing such problems. Prereq: BUSN 6530 and 6630. Semester Hours: 3 to 3

DSCI 6230 - Business Forecasting
Uses modern forecasting methods applied to marketing, finance, accounting, human resources management and supply chain and production management decision-making. This course focuses on practical applications of forecasting techniques, choosing and compar Semester Hours: 3 to 3
DSCI 6440 - Quality and Process Improvement
Studies the identification, measurement and improvement of quality and the practical management issues related to implementing quality systems within organizations. Topics include historic and contemporary views of quality, statistical quality control too **Semester Hours:** 3 to 3

DSCI 6460 - Decision Analysis
Examines business decision making under conditions of risk and uncertainty using quantitative decision analysis methods such as utility theory, value of information, influence diagrams, decisions with conflicting objectives and hierarchical structured mod **Semester Hours:** 3 to 3

DSCI 6480 - Simulation Modeling
Students learn to model and analyze complex dynamic systems using state-of-the art software such as Arena. Illustrative application areas include production systems, service systems, distribution systems and health care systems. Topics include creating re **Semester Hours:** 3 to 3

DSCI 6600 - Purchasing, Materials Management and Negotiation
Seldom offered. Studies the purchasing function in manufacturing, service and public organizations. Topics include: course selection, make-buy analysis, material quality standards and specifications, value analysis, negotiations, and legal aspects. Prereq: BUSN 6630. **Semester Hours:** 3 to 3

DSCI 6800 - Special Topics
Seldom offered. A number of different current topics in decision sciences are discussed in this course. Consult the current 'Schedule Planner' for semester offerings. Prereq: Permission of instructor. **Semester Hours:** 3 to 3

DSCI 6820 - Project Management
Introduces the knowledge and skills of Project Management (PM) in a business environment. Emphasis will be on the entire project life cycle, the project management process groups and the knowledge areas as presented in the Project Management Body of Knowl **Semester Hours:** 3 to 3

DSCI 6822 - Services Operations
Examines the unique issues involved in the management of service operations. Operations management principles specific to service industries are given in-depth. In addition, simulation is introduced as a technique for studying service industries. Prereq: **Semester Hours:** 3 to 3

DSCI 6826 - Supply Chain Management
Introduces the design, analysis, management, and control of supply chains. Because of continuing advances in globalization, sustainability, and information technology, course emphasis will include integration of processes and systems, relationship manage **Semester Hours:** 3 to 3

DSCI 6828 - Data Mining: Predictive Modeling
Addresses statistical approaches to the very large data sets increasingly common in business applications such as internet-based business, fraud detection, credit scoring and market segmentation. Topics include line-limitations of classical statistical wh **Semester Hours:** 3 to 3

DSCI 6838 - VBA For Decision Sciences
This course teaches the essentials of Visual Basic for Applications (VBA), the programming language for Microsoft Office. The focus is using VBA as a tool to automate common tasks and to create decision science applications. The goal is to hide the details of decision science techniques by creating user
interfaces for inputs and then presenting managerially relevant results. Prereq: BUSN 6630. **Semester Hours:** 3 to 3

**DSCI 6840 - Independent Study**
Instructor approval is required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. **Semester Hours:** 1 to 8

**DSCI 6910 - Decision Sciences Practicum**
Students apply decision science methodologies to a real-life business problem in cooperation with a local Denver organization. Under the supervision of faculty, students engage in problem definition, analysis and solution. Results are presented in oral and written form to the sponsoring organization. Prereq: Permission of instructor. **Semester Hours:** 3 to 3
Doctoral Studies in Education Program Courses (DSEP)

DSEP 6000 - Academic Writing for Doctoral Students
Tailored for graduate students in education. Focuses on techniques for improving academic writing, particularly planning, organizing, drafting, revising, and editing papers, i.e. course assignments, portfolio products, doctoral proposals or dissertation. **Semester Hours:** 1 to 1

DSEP 6010 - APA Conventions in Academic Writing
This workshop, specifically directed to doctoral students, concentrates on practical issues involved in documenting sources and following conventions for other text features using the current Publication Manual of the American Psychological Association. **Semester Hours:** 1 to 1

DSEP 6020 - Advanced Academic Writing for Doctoral Students
This workshop is designed for doctoral students in education. Focuses on practical strategies for managing, organizing, revising and editing academic papers, especially complex writing projects such as dissertation proposals and dissertation chapters. **Semester Hours:** 1 to 1

DSEP 6994 - Introduction to Academic Discourse
Designed to be taken prior to beginning the doctoral program. Discusses the process of writing—emphasizing reading research articles critically with a focus on selecting and organizing sources into a review, developing a conceptual framework, and identify. **Semester Hours:** 3 to 3

DSEP 7010 - Dissertation Planning and Design
Provides doctoral students with conceptual, methodological, and social support during the early stages of the doctoral dissertation. Course content and discussion focuses on the first three chapters of the dissertation, including: posing research question. **Semester Hours:** 3 to 3

DSEP 7100 - Leadership in Education
Orients students to broad periods of administrative science, philosophical and behavioral underpinnings of various models and types of leadership, and develops doctoral-level analysis and writing skills to articulate self-knowledge as leader and the apply. **Semester Hours:** 3 to 3

DSEP 7200 - Administrative Leadership and Values Appraisals
Examines the core values underlying the program in education administration: value development in individuals as they relate to the purpose of public schooling in today’s society. Prereq: permission of instructor. **Semester Hours:** 1 to 6

DSEP 7210 - Education Policy Making in a Democratic Society
Provides students with relevant theories, research, and practice related to administrative policy making educational organizations. Focuses on ways of thinking about societal and schooling tensions, and includes a focus on governance, planning, community. **Semester Hours:** 1 to 6

DSEP 7220 - Leadership and Power
Part of a planned sequence of experiences for a cohort group of advanced doctoral students preparing for careers as senior policy administrators in education. Prereq: permission of instructor. **Semester Hours:** 3 to 3
DSEP 7230 - Organizational Performance In Educational Contexts
Explores connections between organizational behaviors and outcomes as well as external and internal factors influencing organizational behavior. The course focuses on how education organizations learn, how they can use that learning to improve performance. **Semester Hours: 1 to 6**

DSEP 7240 - Problems/Practices in Integrated Services
Examines the specific systems at local, state, and national levels that provide services and support for children, youth, and families including the regulatory and statutory criteria for program administration and funding, the nature and scope of services. **Semester Hours: 3 to 3**

DSEP 7250 - Nature of Work in Schools
Policies and educational reforms affecting the technical core of schooling: curriculum, teaching, learning, assessment, and organization. Students develop research and policy analysis skills and investigate social and political factors affecting what is taught. **Semester Hours: 3 to 3**

DSEP 7260 - Managing Integrated Services
Examines the dynamics of managing public policies and programs that support integrated services for children and families. Course focuses on managerial skills needed in a complex, multi-disciplinary setting. Course examines federal, state, and local government. **Semester Hours: 3 to 3**

DSEP 7300 - Individual and Organizational Change
Covers theory and practice of psychological change as this change relates to systems and individuals within organizations. Addresses the knowledge, understanding, and application of the change process. Prereq: permission of instructor. **Semester Hours: 3 to 3**

DSEP 7400 - Epistemologies: Ways Knowing, Res Paradigms, & Counter-Epistemologies
Epistemologies addresses conceptions and approaches to ways of knowing including intellectual traditions and their history as well as epistemological counter-stories of marginalized and subaltern ways of knowing that expose the contingency and bias of dominant knowledge. **Semester Hours: 3 to 3**

DSEP 7410 - Power and Privilege: The Social Construction of Difference
This course will focus on understanding culture and diversity, recognizing the role of power and privilege in both individual and institutional interactions, and developing a philosophy of social justice and equity. Prereq: Doctoral Student Status. **Semester Hours: 3 to 3**

DSEP 7420 - Foundations of Education in Urban and Diverse Communities
This course focuses on the complex relationship between schools and the larger society of which they are a part. It emphasizes historical, political, and sociological perspectives as we explore the large questions about why we have public schools and examine. **Semester Hours: 3 to 3**

DSEP 7430 - Working with Families and Communities
Designed for veteran and novice teachers and administrators to add to their present understanding of the function of families and communities in contemporary society. Participants examine key theoretical texts of important scholars in the field of human service. **Semester Hours: 3 to 3**

DSEP 7500 - Strategic Human Capital Development
This course focuses on understanding and leveraging the personnel function of an educational organization. You will learn how to strategically align and maximize your human capital with organizational strategic objectives. Cross-listed with EDUC 7500. **Semester Hours: 3 to 3**
DSEP 7510 - Strategic Organizational Management
An effective partnership between the board, community and institutional leader is essential to fulfilling the mission of an educational organization. This course examines the importance of strategic visioning, strategic planning, and specific communication. **Semester Hours:** 3 to 3

DSEP 7520 - Strategic System Improvement
The fundamental purpose of educational organizations (schools, districts, community colleges, higher education, non-profits) is to ensure high levels of learning for all. This course addresses topics such as data development and management, accountability. **Semester Hours:** 3 to 3

DSEP 7700 - Doctoral Pro Seminar
First semester students in DSEP are introduced to the faculty and the elements of the program. Prereq: admission to the Ph.D. program. **Semester Hours:** 1 to 1

DSEP 7710 - Theoretical Bases of Instructional Technology
Seminar on the theoretical foundations of the field of instructional technology, including behavioral, cognitive, and systems theories. Prereq: acceptance into the doctoral program. **Semester Hours:** 3 to 3

DSEP 7711 - Curriculum Reform in a Democracy
Students address major themes in curriculum improvement. Prereq: permission of instructor. **Semester Hours:** 3 to 3

DSEP 7712 - Seminar: Learning Theory and Learners
Students apply major issues from learning theories and development to problems of practice related to educational leadership and innovation. Prereq: EPSY 5110 or 5220 or (recommended: EPSY 5100, 5140 or 6000). **Semester Hours:** 3 to 3

DSEP 7830 - Special Topics
Special topics that reflect current research and scholarly exploration of leadership and innovation. **Semester Hours:** 1 to 6

DSEP 7833 - Culture and Critical Theory
Provides an introduction to critical inquiry. General topics include: the development and of the concept of culture, the development and application of critical theory, critical race theory and critical pedagogy. Through the course, students are guided to. **Semester Hours:** 3 to 3

DSEP 7834 - Divergent Scholarly Work on Identity & Voice
This seminar is to prepare individuals to integrate theoretical and practical knowledge by cultivating habits of analysis, inquiry and judgment. Students formulate ways of constructing voice for their own individual sense of identity as a leader and innovator. **Semester Hours:** 3 to 3

DSEP 7840 - Independent Study: DSEP
**Semester Hours:** 1 to 4

DSEP 7930 - Doctoral Internship: Aspiring
This internship provides students with an opportunity to apply coursework to real life situations, work with a mentor/professional colleague, and refine and/or reconstruct ideas of theories of student interest. **Semester Hours:** 3 to 3
**DSEP 7931 - Doctoral Internship: Complementary**
In this internship students apply their academic preparation, experience, and interests to curriculum development, instructional models, policy development, and/or leadership/supervision activities. **Semester Hours:** 3 to 3

**DSEP 8994 - Doctoral Dissertation**
Doctoral dissertation coursework toward the completion of a EdD or PhD degree in Education. **Semester Hours:** 1 to 10
Design & Planning Courses (DSPL)

DSPL 7011 - Research Design
Students are provided with a 'hands on' understanding of methodological issues to become both intelligent consumers of social science research and competent producers of empirically based knowledge. The course moves through the research process covering hypothesis formulation, research design, data collection, measurement, and some fundamentals of statistical inference. Prereq: Admission to the PhD program in Design and Planning or permission of instructor. **Semester Hours:** 3 to 3

DSPL 7012 - Theories of Planning
Examines theories of planning and problems of plan implementation. Review and assesses a range of theories of intervention - market imperfections, political economy, regulations, community, rationality, and communication - relying on examples from students research as well as case studies developed by students. Prereq: Admission to the PhD program in Design and Planning or permission of instructor. **Semester Hours:** 3 to 3

DSPL 7013 - Environment and Behavior
Explores contributions of social research to understanding what facilitates and motivates people's adoption of sustainable environmental behaviors. It examines personal and collective behaviors, at scales that range from buildings to global environmental change, in the developed and developing world. Prereq: Admission to the PhD program in Design and Planning or permission of instructor. **Semester Hours:** 3 to 3

DSPL 7014 - Colloquium
Presentations of research projects by students, college faculty members and visitors. **Semester Hours:** 1 to 1

DSPL 7015 - Historiography and Architecture
Advanced seminar concerning the study of the written record of the past and how it is established. Readings focus on canonic texts formative to the discipline and the strategies they offer for historical research. Prereq: "Course is offered to doctoral students but masters students may enroll with instructor approval." **Semester Hours:** 3 to 3

DSPL 7016 - Architecture, in Theory
Explores theories and texts that have influenced the analysis and the production of architectural form. The focus is on the expressive potential of architectural forms and the modalities of the realization of this potential. Prereq: "Course is offered to doctoral students but masters students may enroll with instructor approval." Cross-listed with ARCH 6254. **Semester Hours:** 3 to 3

DSPL 7017 - Pro-Seminar
Advanced, graduate-level course (seminar, independent-study, or other) addressing the history of architecture, landscape, or urbanism. Prereq: "Course is offered to doctoral students but masters students may enroll with instructor approval." **Semester Hours:** 3 to 3

DSPL 7686 - Special Topics in Design and Planning
Various topical areas in design and planning are studied, including those in history, theory, methods, and practice. **Semester Hours:** 1 to 3
**DSPL 7840 - Independent Study: DSPL**
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to design and planning. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

**DSPL 7950 - Doctoral Thesis Research**
Conducting research for doctoral dissertation, including data collection, analysis and presentation of findings. Prereq: Completion of core of PhD program. **Semester Hours:** 3 to 10
Early Childhood Education Courses (ECED)

ECED 4410 - Foundation & Organization Of Coaching
This course will train early childhood coaches using material from research-based sources and program experiences. Participants will learn best practices in coaching early childhood and develop a systematic, individualized approach to effective coaching. **Semester Hours:** 3 to 3

ECED 4420 - Connecting Awareness With Application & Deepening Of Practice
This course will identify effective ongoing support strategies for individuals providing coaching. Participants will integrate skills from ECED 5410 with effective application in real life coaching experiences. Prereq: ECED 4410 or instructor permission **Semester Hours:** 3 to 3

ECED 4430 - Attuning For Personal And Organizational Change
This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Prereq: ECED 4410 & 4420 or instructor permission. Cross-li **Semester Hours:** 3 to 3

ECED 5000 - The Early Childhood Profession
The first in the required sequence of early childhood courses. It provides an overview of the early childhood profession and philosophical, historical, and legal foundations of services to young children and their families. State and national standards for **Semester Hours:** 1 to 1

ECED 5010 - Curriculum and Program Development in Early Childhood Education
Review of principles of early childhood curriculum and program development. Linkages are made between theoretical bases of development and curriculum planning. Curriculum areas considered include language, pre-academics, motor, social-emotional, science, **Semester Hours:** 3 to 3

ECED 5020 - Approaches to Young Children's Learning
Review of approaches for facilitating the learning and development of young children. Examined are programs for children from infancy through age eight. Approaches are considered in terms of (1) their differing views of intellectual, social, and physical **Semester Hours:** 3 to 3

ECED 5030 - Directing Programs for Young Children
Analysis of organizational factors and instructional events in the classroom, facilitation of teacher effectiveness through supervisory feedback and in-service development. Special attention is given to supervisor or teacher relationships, parent-school- **Semester Hours:** 3 to 3

ECED 5040 - Administrative Seminar
Emphasis on those topics required of administrators and collaborator or consultants for early childhood socially inclusive classrooms or programs, such as philosophy, finance, programming, management, community or parent relations, supervision, ethical is **Semester Hours:** 3 to 3

ECED 5060 - Working with Parents and Families
Review of historical factors and research related to current trends in working with parents and families of children with or without disabilities. The course presents content concerning family systems theory, various community services available to famili **Semester Hours:** 3 to 3
ECED 5070 - Social Competence & Classroom Supports
Focuses on the cognitive and social development of infants and young children and problems that may occur during the process. Emphasizes intervention approaches for preschool children with cognitive and social-emotional disabilities. Implications for int Semester Hours: 3 to 3

ECED 5080 - Language and Literacy in Young Children
Overview of normal language and literacy development through age 5, language components and pertinent research relating to language and literacy acquisition. Emphasis is placed on language only disorders commonly demonstrated by young children with disabi Semester Hours: 3 to 3

ECED 5090 - Neuromotor Development and Disorders in Young Children
Provides an overview of normal and abnormal motor and neurological development in the infant and young child. Current treatment approaches for children with neuromotor disorders are examined, with emphasis on sensory integration and neuro-developmental tr Semester Hours: 3 to 3

ECED 5102 - Introduction to Developmentally Appropriate Curriculum
Introduces developmentally appropriate curriculum and instructional practices in early education and the elementary grades. Subject areas considered include literacy, language arts; mathematics, computers, blocks; science, outdoor education; social studie Semester Hours: 1 to 3

ECED 5104 - Advanced Developmentally Appropriate Curriculum
Extends earlier learning about developmentally appropriate curriculum and instructional practices in early education and the elementary grades. Students elaborate their knowledge of subject area materials and activities. A curriculum unit that is developm Semester Hours: 1 to 3

ECED 5140 - Measurement and Evaluation in Early Childhood Education
Provides classroom experience in basic measurement concepts and in the screening and assessment of young children's cognitive, affective, language, and psychomotor capabilities and characteristics. Traditional measurement techniques as well as non-reactiv Semester Hours: 3 to 3

ECED 5200 - Screening and Assessment of Young Children
Provides experience in the administration and scoring of a sample of screening and assessment instruments designed for use with infants and in preschool classrooms. Students administer a variety of formal and informal measures including screening, evaluation, play-based and curriculum-based measures. Cross-listed with ECED 7500. Semester Hours: 3 to 3

ECED 5202 - Classroom Management to Promote Positive Behavior
Evidence-based classroom management strategies to promote social competence and reduce behavior problems. Includes strategies for responding to challenging behavior and developing individualized behavior support plans. Explores factors that influence the Semester Hours: 3 to 3

ECED 5204 - Early Childhood Mental Health
Addresses the role of the early childhood practitioner in supporting young children emotional well-being and mental health. Topics include mental health disturbances or disorders of infancy or childhood, assessment of social or emotional development and b Semester Hours: 3 to 3

ECED 5410 - Foundation & Organization Of Coaching
This course will train early childhood coaches using material from research-based sources and program experiences. Participants will learn best practices in coaching early childhood and develop a systematic, individualized approach to effective coaching. Semester Hours: 3 to 3
**ECED 5420 - Connecting Awareness With Application & Deepening Of Practice**  
This course will identify effective ongoing support strategies for individuals providing coaching. Participants will integrate skills from ECED 5410 with effective application in real life coaching experiences. Prereq: ECED 5410 or instructor permission  
**Semester Hours:** 3 to 3

**ECED 5430 - Attuning For Personal And Organizational Change**  
This course is designed to support the coach in creating a social learning climate where a synergy of shared learning and reflective dialogue about practice are examined, analyzed and refined. Prereq: ECED 5410 & 5420 or instructor permission. Cross-li  
**Semester Hours:** 3 to 3

**ECED 5800 - Workshop: Topics in Early Childhood Education**  
Topics and credit hours vary from semester to semester. **Semester Hours:** 1 to 4

**ECED 5810 - Global Education and Developmental Studies**  
The purpose of the Global Education and Developmental Studies (GEDS) course is to identify and build on national and international perspectives and understandings about young children and early childhood intervention. **Semester Hours:** 3 to 3

**ECED 5840 - Independent Study**  
**Semester Hours:** 1 to 4

**ECED 5911 - Educational and Observational Practicum in Early Childhood Education**  
Includes planned experiences built around the clinic and ECED classroom in operation. Students observe in public schools, Head Start, childcare, and private preschool programs. The practicum requires 30 to 40 clock hours of field placement experience with **Semester Hours:** 3 to 3

**ECED 5920 - Readings in Early Childhood Education**  
**Semester Hours:** 1 to 4

**ECED 6010 - Literacy and Mathematics K-2**  
Principles of early reading and mathematical development for grades K-2. Linkages are made between child development, learning expectations for mathematics, reading and writing and curriculum planning. Diverse instructional strategies and differentiation  
**Semester Hours:** 3 to 3

**ECED 6100 - Medical and Physiological Aspects of Developmental Disabilities**  
Presest neurological or physiological development and disorders, as well as appropriate intervention techniques for the young child. Also considered are developmental issues and concerns related to medically fragile young children. **Semester Hours:** 3 to 3

**ECED 6110 - Intervention Strategies for Children with Disabilities and At-Risk Infants**  
An in-depth study of intervention strategies, curricula, and program models for young children, birth to three years. Topics include selection, implementation, and evaluation of the different techniques. The course has an interdisciplinary focus.  
**Semester Hours:** 3 to 3

**ECED 6200 - Early Intervention Strategies**  
Explores current research, knowledge, and skills related to early intervention policies, teaching strategies, and service delivery. Emphasizes infant and preschool service delivery options such as home, center or community-based programming, and social integration programming techniques. Cross-listed with ECED 7200.  
**Semester Hours:** 3 to 3
ECED 6600 - Seminar: Early Childhood Education Practices and Issues
Current practices and issues in early childhood and primary education are reviewed, then certain topics are considered in-depth. Emphasis is on issues and problems of practice and care setting in early childhood education and primary grades. **Semester Hours:** 3 to 3

ECED 6690 - Seminar: Research and Current Issues in Early Childhood Education
Research methods are reviewed and then selected topics are considered. Emphasis is on research findings and current issues of importance to teachers, administrators, specialists, collaborator/consultants, and researchers in early childhood and early child **Semester Hours:** 3 to 3

ECED 6695 - Research Lab: Autism w/in Culturally & Linguistically Diverse Ppltns
In this cross-disciplinary yearlong research lab, students will work individually or in groups to design, implement, and analyze research questions related to autism within culturally and linguistically diverse populations. Course topics will include autism. **Semester Hours:** 1 to 2

ECED 6910 - Infant/Toddler Practicum in ECSE
Field-based experiences in settings for children with disabilities and at-risk infants, toddlers, and their families. The practicum requires a minimum of 85, 170, 255, or 340 clock hours under supervision (for 1, 2, 3, or 4 credit hours, respectively). **Semester Hours:** 1 to 4

ECED 6911 - Practicum in Early Childhood Education
Field-based experiences in settings for young children (preschool administration, day-care center management, community college teaching, parent program directorship, etc.) that are closely linked to the students' professional goals. Requires a minimum of **Semester Hours:** 1 to 4

ECED 6912 - Preschool Practicum in ECSE
Field-based experiences in settings for young children with disabilities and their families, including school districts and community agencies. The practicum requires a minimum of 85, 170, 255, or 340 clock hours under supervision (for 1, 2, 3, or 4 credit **Semester Hours:** 1 to 4

ECED 6913 - Practicum in Working with Parents and Families
Provides in-depth, field-based experience in working with families of handicapped and at-risk young children. Settings may include schools, community agencies and hospitals. Requires minimum of 255 clock hours under supervision. Prereq: Permission of inst **Semester Hours:** 3 to 3

ECED 6914 - Primary Practicum in ECSE
Field-based experiences in kindergarten through second grade settings with typically developing children, children with special needs and special education teams. Requires a minimum of 85, 170, 255 or 340 clock hours under supervision (for 1, 2, 3, or 4 credit **Semester Hours:** 1 to 4

ECED 6950 - Master's Thesis
Prereq: RSEM 5100, RSEM 5200 and credits in the Early Childhood Education program. **Semester Hours:** 4 to 4

ECED 7000 - Early Childhood Leadership Seminar I
The course is designed to provide an overview of policies, laws, and leadership skills in early childhood. Students will study specific policies and laws influencing (1) services for children with severe challenging behavior and autism, (2) children from **Semester Hours:** 3 to 3
ECED 7002 - Early Childhood Leadership Seminar II
The purpose of the course is to provide scholars with leadership knowledge and skills to implement policies, laws, programs, and systems that support the use of evidence-based practices with young children with disabilities. Prereq: ECED 7000. **Semester Hours:** 3 to 3

ECED 7004 - Early Childhood Leadership Seminar III
The purpose of this seminar is to provide the knowledge and skills to implement evidence-based practices in early childhood settings. This seminar will focus on policies and practices that support implementation, scale-up, and sustainability of evidence b **Semester Hours:** 3 to 3

ECED 7070 - Social Competence & Classroom Supports
Focuses on the cognitive and social development of infants and young children and problems that may occur during the process. Emphasizes intervention approaches for preschool children with cognitive and social-emotional disabilities. Implications for int **Semester Hours:** 3 to 3

ECED 7200 - Early Intervention Strategies
Explores current research, knowledge, and skills related to early intervention policies, teaching strategies, and service delivery. Emphasizes infant and preschool service delivery options such as home, center or community-based programming, and social integration programming techniques. Cross-listed with ECED 6200. **Semester Hours:** 3 to 3

ECED 7500 - Screening and Assessment of Young Children
Provides experience in the administration and scoring of a sample of screening and assessment instruments designed for use with infants and in preschool classrooms. Students administer a variety of formal and informal measures including screening, evaluation, play-based and curriculum-based measures. Cross-listed with ECED 5200. **Semester Hours:** 3 to 3
Economics Courses (ECON)

**ECON 1010 - Economics of Social Issues**
This course is designed for non-majors. Majors in economics will not receive credit toward departmental degree requirements. The focus of the course is on current issues in the economy, including poverty, social security, airline deregulation, government control of prices, economics of higher education, free trade, race and gender discrimination, unemployment, the role of government, and the national debt. 
**Semester Hours:** 3 to 3

**ECON 1111 - Freshman Seminar**
**Semester Hours:** 1 to 3

**ECON 2012 - Principles of Economics: Macroeconomics**
Covers topics of inflation, unemployment, national income, growth and problems of the national economy, stabilization policy, plus others at the discretion of the instructor. Purpose is to teach fundamental principles, to open the field of economics in the way most helpful to further a more detailed study of special problems, and to give those not intending to specialize in the subject an outline of the general principles of economics. **Semester Hours:** 3 to 3

**ECON 2022 - Principles of Economics: Microeconomics**
Topics include price determination in a market system composed of households and firms: resource allocation and efficiency of various market structures, plus others at the discretion of the instructor. Note: Complementary to and normally taken following ECON 2012. ECON 2012 is not a prerequisite for ECON 2022. **Semester Hours:** 3 to 3

**ECON 2939 - Internship**
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

**ECON 3100 - Economics of Race and Gender**
Overview of the determinants of wages, employment and education in the labor market. Emphasizes the investigation of the evidence and theories of differentials that appear to be associated solely with race and sex, and public policies associated with discrimination and poverty. Prereq: ECON 2022. **Semester Hours:** 3 to 3

**ECON 3300 - Economics of Crime and Punishment**
Presents the economic approach to crime. Teaches economic reasoning in the analysis of the determinants of criminal activity, provides an in-depth analysis of the importance of socioeconomic factors in determining crime. Investigates the relative importance of labor market conditions, deterrence, and other factors in the level of criminal activity. Also covers topics to reduce crime such as, the death penalty, issues around victimless crime and public choices. Prereq: ECON 2022. **Semester Hours:** 3 to 3

**ECON 3366 - Managerial Economics**
Presents the basic core of economic theory and its use for sound managerial decision making. Emphasis on the practical applications of the concepts learned in economics to the resolution of everyday problems. Prereq: ECON 2012 and 2022. **Semester Hours:** 3 to 3
ECON 3400 - Economics of Sex and Drugs
Examines the political and policy issues surrounding controversial topics in human behavior. Economic models and reasoning are applied to examine issues such as juvenile substance use and abuse, and teen pregnancy. Prereq: ECON 2022. Semester Hours: 3 to 3

ECON 3801 - Introduction to Mathematical Economics
Introduces the use of mathematics in micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq: MATH 1110 or MATH 1130 (or equivalent), ECON 2012 and ECON 2022. Semester Hours: 3 to 3

ECON 3811 - Statistics with Computer Applications
Introduces statistical methods and their application to quantitative problems in economics and social sciences. Note: Recitation is required. Prereq: College algebra, ECON 2012 and 2022. Semester Hours: 4 to 4

ECON 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. Semester Hours: 1 to 3

ECON 4001 - Topics in Economics
Studies special topics in economics to be selected by the instructor. Note: May be repeated for credit when topics vary. Semester Hours: 3 to 3

ECON 4030 - Data Analysis with SAS
Covers techniques for handling and interpreting economic data and conducting econometric analyses using SAS programming. Provides hands-on data management and analyses with large data sets with applications to business and economics, and prepare students for SAS Base Programmer certification exam. Prereq: ECON 3811 or equivalent. Cross-listed with ECON 5030. Semester Hours: 3 to 3

ECON 4050 - Special Economic Problems
Provides students the opportunity to critically evaluate some practical and theoretical problems under supervision, and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: ECON 2012 and ECON 2022. Note: ECON 4050 for majors in economics, others by permission of instructor. Cross-listed with ECON 5050. Semester Hours: 1 to 8

ECON 4071 - Intermediate Microeconomic Theory
Production, price and distribution theory. Study of value and distribution theories under conditions of varying market structures, with special references to the contribution of modern theorists. Prereq: ECON 2012, 2022 and 3801. Semester Hours: 3 to 3

ECON 4081 - Intermediate Macroeconomic Theory
National income and employment theory. Primary emphasis placed on determination of employment and prices. Problems of unemployment and inflation analyzed and appropriate policies considered. Prereq: ECON 2012, 2022 and 3801. Semester Hours: 3 to 3

ECON 4091 - History of Economic Thought
Traces the development of economic thought from ancient times to the 20th century. Considers the context in which these ideas were developed and their relationship to modern economic thought and contemporary economic problems. Prereq: ECON 2012 and ECON 2022. Cross-listed with ECON 5090. Semester Hours: 3 to 3
**ECON 4101 - Applied Statistics Using SAS and SPSS I**
Teaches the practical statistical tools social scientists use to analyze real-world problems. Split into four modules, each taught by a different instructor. The first module introduces SAS and SPSS; modules 2-4 are problem-based and cover topics such as ANOVA, multivariate regression, and cluster analysis. Prereq: Any statistics course. **Semester Hours:** 3 to 3

**ECON 4102 - Applied Statistics Using SAS and SPSS II**
(Continuation of ECON 4101.) Students use the skills they learned in the previous semester to analyze a social issue of their choosing and present their findings. Note: In addition to lectures, weekly one-on-one meetings between faculty and students are required. Prereq: ECON 4101. **Semester Hours:** 3 to 3

**ECON 4110 - Money and Banking**
Surveys major monetary and fiscal institutions such as commercial banks, the federal reserve system, savings institutions, and the structure of debt. The relationships between households, firms and financial intermediaries are explored, and the tools available to macroeconomic policy makers are described and evaluated. Prereq: ECON 4081. **Semester Hours:** 3 to 3

**ECON 4150 - Economic Forecasting**
Teaches forecasting techniques used in business and government to project trends and short-term fluctuations. Actual data are employed in instruction and labs. State-of-the-art spreadsheet and algorithms are introduced as part of the course work. Prereq: Undergraduate statistics or permission of instructor. Cross-listed with ECON 5150. **Semester Hours:** 3 to 3

**ECON 4210 - Public Finance**
Surveys topics dealing with the economics of government activity, including the provision of public goods; the economics of the political process; welfare programs; pollution externalities; benefit-cost analysis; the U.S. tax structure; and the effects of taxes on economic behavior, economic performance and the distribution of income. Prereq: ECON 2022. **Semester Hours:** 3 to 3

**ECON 4230 - Law and Economics**
Applies economic theory to legal decision making. Topics include property law, tort law, contract law, the common law, crime and punishment, comparisons to traditional forms of legal decision making and the economic approach to politics. Prereq: ECON 2022. **Semester Hours:** 3 to 3

**ECON 4240 - Economic Policy Analysis**
Deals with the application of economic analysis to the government policy-making process. Topics include public goods provision, externalities, cost-benefit analysis, judicial decision making, the economic analysis of the political process, government regulation of business, and tax incidence. Prereq: ECON 2012, 2022 and 3801. **Semester Hours:** 3 to 3

**ECON 4310 - Managerial Economics**
The course adapts standard theory to more realistically discuss enterprise structure, firm and managerial behavioral incentives, and strategic behavior. Once a foundation is laid, successful and unsuccessful strategies and case studies are presented. Cross-listed with ECON 5310. **Semester Hours:** 3 to 3

**ECON 4320 - Financial Economics**
This course focuses on the economics of decision-making under conditions of risk and uncertainty. Topics include theories of efficient markets, rational expectations, speculative bubbles, random walks, portfolio analysis, options, derivatives and future markets. Emphasis is on the application of basic theories to
economic agents' behavior and case studies. Prereq: ECON 2022, 3811, 3801. Cross-listed with ECON 5320. **Semester Hours:** 3 to 3

**ECON 4410 - International Trade**
Trade theory identifies who wins and loses from trade and why there are usually overall gains. Explores issues in immigration, globalization, income inequality, tariffs, dumping, the WTO, the environment, wages, and growth strategies among others. Prereq: ECON 2022. Cross-listed with ECON 5410. **Semester Hours:** 3 to 3

**ECON 4420 - International Finance**
The international adjustment process, including the foreign exchange market, balance of payments disequilibria, price and income adjustment, fiscal and monetary policy, and the international monetary system. Prereq: ECON 2012. **Semester Hours:** 3 to 3

**ECON 4430 - Economic Growth**
Explores causes of rapid growth or decline over long periods for different regions of the world. Inequality, sustainability, culture, climate, technology and resources all play significant roles. Data and examples are used to determine the important influences. Prereq: ECON 2022 and ECON 3811. **Semester Hours:** 3 to 3

**ECON 4530 - Economics of Natural Resources**
Examines economic models of renewable resource management and models of exhaustible resource depletion. Analyzes decisions made by private firms and governments affecting the methods and rate of resource development. Examines the effects of resource development on economic growth and environmental quality and the effects of economic development on resource scarcity. Prereq: ECON 2022. Cross-listed with ECON 5530. **Semester Hours:** 3 to 3

**ECON 4540 - Environmental Economics**
Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 2022. Cross-listed with ECON 5540. **Semester Hours:** 3 to 3

**ECON 4550 - Game Theory and Economic Applications**
An introduction to economic applications of game theory. Concepts such as strategic and extensive form games, existence and selection of equilibrium will be covered. These concepts will be applied to understand market structure, location decisions, price competition, contracting, and auctions. Prereq: ECON 4071. **Semester Hours:** 3 to 3

**ECON 4610 - Labor Economics**
Studies problems associated with the determination of wages, hours, and working conditions in the American economy. Strong emphasis placed on current research in such areas as welfare reform, minimum wage, return to schooling, immigration, labor market discrimination, and trade unions. Prereq: ECON 2012, 2022 and any statistics course. **Semester Hours:** 3 to 3

**ECON 4640 - Sports Economics**
Applies economic analysis to sports. Explores topics such as competition, on-field performance, players' compensation, profits in professional sports, anti-trust and labor law, the impact of sports on local
communities and the links between athletics and education. Prereq: ECON 2022. **Semester Hours:** 3 to 3

**ECON 4660 - Health Economics.**
This course focuses on the analysis of current health care markets. Topics include the production of health, demand for health care, physician and hospital behavior, health insurance, medical malpractice, health externalities, managed care and the affordable. **Semester Hours:** 3 to 3

**ECON 4716 - Comparative Economic Systems**
Critical examination of capitalism, socialism, communism and alternative systems. Focuses on the comparative study of various countries and the implementation and management of their economic systems. Prereq: ECON 2022. **Semester Hours:** 3 to 3

**ECON 4740 - Industrial Organization**
Examines the determinants of, and linkages between, market structure, firm conduct, and industrial performance. Topics include: determinants of the market size; impact of different market structures on prices and outputs; strategic behavior of firms to prevent entry or induce exit of rival firms; collusion; price discrimination; advertising; competition, monopoly, and innovation; implications for economic efficiency and public policy. Prereq: ECON 4071. Cross-listed with ECON 5740. **Semester Hours:** 3 to 3

**ECON 4770 - Economic Development--Theory and Problems**
Introduces theory and practice of economic development. Topics include development and growth models, economic planning, income distribution, human and capital resources, foreign investment and the multinationals, technology transfer, trade and development. Discussions of current issues regarding world debt, economic stabilization, the new protectionism, empirical studies, and examples of development in various countries. Prereq: ECON 2012 or ECON 2022. **Semester Hours:** 3 to 3

**ECON 4811 - Introduction to Econometrics**
Introduces econometric methods and their applications to quantitative economic problems. Simple and multiple regression models and problems encountered in their applications are developed in lectures and applied computer projects. Prereq: ECON 3811 or equivalent. **Semester Hours:** 3 to 3

**ECON 4840 - Independent Study: ECON**
**Semester Hours:** 1 to 3

**ECON 4850 - Honors Independent Study: ECON**
**Semester Hours:** 1 to 3

**ECON 5030 - Data Analysis with SAS**
Covers techniques for handling and interpreting economic data and conducting econometric analyses using SAS programming. Provides hands-on data management and analyses with large data sets with applications to business and economics, and prepare students for SAS Base Programmer certification exam. Prereq: ECON 3811 or equivalent. Cross-listed with ECON 4030. **Semester Hours:** 3 to 3

**ECON 5050 - Special Economic Problems**
Provides students the opportunity to critically evaluate some practical and theoretical problems under supervision, and to present results of their thinking to fellow students and instructors for critical evaluation. Prereq: Permission of instructor. Cross-listed with ECON 4050. **Semester Hours:** 1 to 8
ECON 5051 - Data Analysis and Research Methodology
Consists of a series of lectures on the nature of conducting research, and discussions of the ways professional economists approach research problems. A review of spreadsheet applications and statistical packages are conducted. Prereq: ECON 4071 and 4811 or permission of instructor. Semester Hours: 1.5 to 1.5

ECON 5052 - Data Analysis and Research Methodology II
Develops student skills in data analysis and applications to economic issues and policy evaluation. Hands-on demonstration and student participation in empirical strategies using statistical packages in the social sciences (i.e. SAS). Emphasis on programming, research strategies and interpretation of results. Prereq: ECON 5051 or permission of instructor. Semester Hours: 1.5 to 1.5

ECON 5073 - Microeconomic Theory
Fundamental features of partial equilibrium theory of the firm, consumer and market. General equilibrium and welfare economic topics are examined. Features of the models that have empirical applications are accentuated. Prereq: ECON 5803. Semester Hours: 3 to 3

ECON 5083 - Macroeconomic Theory
Examines the major macroeconomic models within a common framework. Differences in the foundations, structure, and policy implications of the competing models are analyzed. Prereq: ECON 5803 or permission of the instructor. Semester Hours: 3 to 3

ECON 5090 - History of Economic Thought
Traces the development of economic thought from ancient times to the 20th century. Considers the context in which these ideas were developed and their relationship to modern economic thought and contemporary economic problems. Prereq: ECON 2012 and ECON 2022. Cross-listed with ECON 4091. Semester Hours: 3 to 3

ECON 5150 - Economic Forecasting
Teaches forecasting techniques used in business and government to project trends and short-term fluctuations. Actual data are employed in instruction and labs. State-of-the-art spreadsheet and algorithms are introduced as part of the course work. Prereq: ECON 3811. Cross-listed with ECON 4150. Semester Hours: 3 to 3

ECON 5310 - Managerial Economics
The course adapts standard theory to more realistically discuss enterprise structure, firm and managerial behavioral incentives, and strategic behavior. Once a foundation is laid, successful and unsuccessful strategies and case studies are presented. Cross-listed with ECON 4310. Semester Hours: 3 to 3

ECON 5320 - Financial Economics
Studies the financial decision making process of individuals and business entities, and the workings of financial institutions. Topics include the essentials of optimal portfolio, financial management, financial innovations, and the globalization of financial markets. Emphasis is on the application of basic theories to economic agents' behavior and the case studies. Prereq: ECON 5073 or permission of instructor. Semester Hours: 3 to 3

ECON 5410 - International Trade
Trade theory identifies who wins and loses from trade and why there are usually overall gains. Explores issues in immigration, globalization, income inequality, tariffs, dumping, the WTO, the environment,
Semester Hours: 3 to 3

**ECON 5530 - Economics of Natural Resources**
Examines economic models of renewable resource management and models of exhaustible resource depletion. Analyzes decisions made by private firms and governments affecting the methods and rate of resource development. Examines the effects of resource development on economic growth and environmental quality and the effects of economic development on resource scarcity. Prereq: ECON 5073. Cross-listed with ECON 4530. Semester Hours: 3 to 3

**ECON 5540 - Environmental Economics**
Economic approach to environmental problems: relationship between ownership structures, externalities and environmental damage; poverty, population pressure, and environmental degradation; valuation of environmental amenities; sustainability of economic activity; cost-benefit analysis applied to the environment; evaluation of alternative instruments for environmental control. Prereq: ECON 5073. Cross-listed with ECON 4540. Semester Hours: 3 to 3

**ECON 5660 - Health Economics**
Introduces students to analytical skills and economic methods, and demonstrates how these methods can be applied to issues in health policy and management. Topics include: demand for health and medical care; health care costs, health reform, medical technology; market for health insurance; physicians, hospitals, and managed care; pharmaceuticals; regulations in the U.S. health care sector; demand for addictive substances; infant and maternal health; international comparisons of health care systems. Prereq: Permission of instructor. Semester Hours: 3 to 3

**ECON 5740 - Industrial Organization**
Examines the determinants of, and linkages between, market structure, firm conduct, and industrial performance. Topics include: determinants of the market size; impact of different market structures on prices and outputs; strategic behavior of firms to prevent entry or induce exit of rival firms; collusion; price discrimination; advertising; competition, monopoly, and innovation; implications for economic efficiency and public policy. Prereq: Permission of instructor. Cross-listed with ECON 4740. Semester Hours: 3 to 3

**ECON 5800 - Special Topics**
Current economics topics to be determined by the instructor. Prereq: ECON 3801 or MATH 1401. Semester Hours: 1 to 3

**ECON 5803 - Mathematical Economics**
Introduces the use of mathematics in advanced micro- and macro-economic analysis. Emphasis on model-building techniques, solution methods, and economic interpretations. Prereq: ECON 4071 and 4081. Semester Hours: 3 to 3

**ECON 5813 - Econometrics I**
Theory and application of statistical techniques used to analyze economic problems. Topics include simple and multiple regression models, simultaneous equation models, and the problems encountered in their application. Students formulate models, obtain data, estimate models, interpret results and, forecast. Prereq: ECON 4811 or equivalent. Semester Hours: 3 to 3
ECON 5823 - Econometrics II
Second course in the econometrics sequence, covering intermediate topics in cross-section and time series analysis. Topics include limited dependent variables, autoregressive and distributed lag models, longitudinal data analysis and unit roots, co-integration and other time-series topics. Prereq: ECON 5083 and 5813. Semester Hours: 3 to 3

ECON 5840 - Independent Study
Semester Hours: 1 to 3

ECON 5939 - Internship
Semester Hours: 1 to 6

ECON 5950 - Master’s Thesis
Semester Hours: 1 to 4

ECON 6010 - Advanced Microeconomic Theory
Recent and contemporary literature on fundamentals of economic theory. Consideration of value theory with particular emphasis on methodology, theory of demand, theory of the firm, and theory of distribution. Prereq: ECON 5073. Semester Hours: 3 to 3

ECON 6020 - Advanced Macroeconomic Theory
Considers general equilibrium and aggregative analysis in economic theory, with particular emphasis given to the theory of employment, consumption and investment. Prereq: ECON 5083. Semester Hours: 3 to 3

ECON 6053 - Seminar In Applied Economics
Familiarizes students with applied research in economics. Students read, discuss, and critique articles in economic journals. Emphasis is placed on research design and methods employed in these articles to prepare students for development of their own research projects in subsequent courses. Topics vary with instructor, and may include international economics, labor economics, monetary theory, public or finance and development economics. Prereq: ECON 5813, 5073, 5083 at the instructor’s discretion. Semester Hours: 1.5 to 1.5

ECON 6054 - Seminar In Applied Economics II
Familiarizes students with state-of-the-art applied economic research. Students read, discuss, and critique articles published in economic journals. Note: Topics vary with the instructor. Prereq: ECON 5813, 5073, 5083 at the instructor’s discretion. Semester Hours: 1.5 to 1.5

ECON 6060 - Special Topics
Special topics in advanced microeconomics. Consideration of value theory based upon methodology, theory of demand, and theory of distribution. Prereq: ECON 3801. Semester Hours: 1 to 3

ECON 6073 - Research Seminar
Focuses on training students to do rigorous research in economics. Topics include the analysis of large data sets, further development of econometric skills, and writing a research paper. Note: Students attend lectures and also meet regularly with the instructor in the process of doing a sophisticated research project. Prereq: ECON 5823 and 6053. Semester Hours: 3 to 3
ECON 6110 - Money and Central Banking
Monetary and financial institutions, with focus on relationships among domestic monetary policy, interactional credit and balance of payments. Prereq: ECON 5083. Semester Hours: 3 to 3

ECON 6210 - Public Finance
Advanced economic theory applied to the problems of public and private sector decision making. Applied topics in taxation, education, voting theory, welfare economics, externalities and public goods. Prereq: ECON 5073. Semester Hours: 3 to 3

ECON 6410 - International Trade
Contemporary and classical literature on theories of international trade. Topics include the determination of the pattern and terms of trade, the relationship between growth and trade, and commercial policy. Prereq: ECON 5073. Semester Hours: 3 to 3

ECON 6420 - International Finance
Topics in international finance, including exchange rate determination, the adjustment process, international financial markets and the international monetary system. Prereq: ECON 5073. Semester Hours: 3 to 3

ECON 6610 - Labor Economics
Advanced study of the labor market, including: history, nature, and function of labor organizations; the process of wage determination; and the formation of public policy. Prereq: ECON 5073 and 5813. Semester Hours: 3 to 3

ECON 6770 - Economic Growth and Development
Considers the role of planning in economic development, with particular reference to investigation of planning problems, especially in less developed countries. Prereq: ECON 5073 and 5803. Semester Hours: 3 to 3

ECON 6801 - Advanced Mathematical Economics
Addresses economic dynamics, formal mathematical modeling in economics, and optimization in economic theory. Prereq: ECON 5803 or permission of instructor. Semester Hours: 3 to 3

ECON 6810 - Econometrics and Forecasting
Covers advanced topics in cross-sectional and time-series analysis. Emphasizes important theoretical and empirical issues encountered in applied work in economics and business. Topics include problems of structural change and model misspecification, instrumental variables, simultaneous equations models, distributed lags, maximum likelihood estimation, qualitative and limited dependent variables, A remark models, vector-autoregressions, issues on exogeneity and causality. Through the use of econometric software programs and actual data, students learn to execute estimation and forecasting projects soundly. Prereq: ECON 5813 and 5823. Semester Hours: 3 to 3

ECON 6840 - Independent Study
Semester Hours: 1 to 3

ECON 6950 - Master’s Thesis
Semester Hours: 1 to 6
Educational Foundations Courses (EDFN)

EDFN 1000 - Democracy & Public Schooling
Examines the history of U.S. public schooling through landmark court cases. Investigates/analyzes how apartheid came to be institutionalized, how forces of desegregation achieved a series of momentous victories, and how those victories have been undermine **Semester Hours:** 3 to 3

EDFN 3000 - Undocumented Mexican Immigration
The socio-legal construction of Mexican undocumented immigration from the early decades of the twentieth century to the current era is addressed. Social justice questions including access to higher education arising from the racialization of Latino/a immi **Semester Hours:** 3 to 3

EDFN 4000 - Food Justice in City & Schools
Food justice examines systemic inequities in access to healthy food. The history of school/community gardens, developments in urban agriculture and school/city policies are examined. The intersection of urban agriculture, hunger, and schooling/learning is **Semester Hours:** 3 to 3

EDFN 5000 - Food Justice in City & Schools
Food justice examines systemic inequities in access to healthy food. The history of school/community gardens, developments in urban agriculture and school/city policies are examined. The intersection of urban agriculture, hunger, and schooling/learning is **Semester Hours:** 3 to 3
Educational Leadership & Innovation Courses (EDLI)

EDLI 8994 - Doctoral Dissertation PhD

**Semester Hours:** 1 to 10
Education Administration & Supervision Courses (EDUC)

EDUC 5000 - Special Topics: Administrative Leadership and Policy Studies
Specific topics vary. Focus is on faculty-developed options to standard course offerings to facilitate program development and distance-learning activities. Semester Hours: 0.5 to 10

EDUC 5001 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5002 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5003 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5004 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5005 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5006 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5007 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5008 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5009 - Special Topics: Administrative Leadership and Policy Studies
Semester Hours: 1 to 10

EDUC 5010 - Paraeducator Supervision Academy
Provides the paraeducator with knowledge and skills to work effectively in teams. Paraeducators refine their knowledge of the characteristics of paraprofessionals in education, the distinction between professional and paraprofessional roles and responsibili Semester Hours: 1 to 1

EDUC 5015 - Developmental Intervention Supervisor Academy (DISA)
Developmental Intervention Supervisor Academy provides early intervention professionals with the knowledge and skills to work effectively in teams and to utilize and supervise Developmental Intervention Assistants (DI Assistant is the title used in Colora Semester Hours: 1 to 1

EDUC 5020 - Trainers of Paraeducator Academy
Provides the professional educator with the skills to provide effective presentations to paraprofessionals in schools. Semester Hours: 1 to 1
EDUC 5025 - Developmental Intervention Trainers Academy (DITA)
Developmental Intervention Trainer Academy (DITA) is offered to early interventional professionals who have completed EDUC 5015 (DISA). DITA provides the participants skills to become effective trainers who deliver training to Developmental Intervention. **Semester Hours:** 1 to 1

EDUC 5030 - Top Cadre of Trainers (TOPCAT) Seminar
Provides CO-TOP Trainers (school professionals who have been through the PSA: EDUC 5010 and TOPA: EDUC 5020) ongoing support in their roles as supervisors and trainers of paraeducators. Through this seminar trainers receive updated information about CO-TO. **Semester Hours:** 3 to 3

EDUC 5040 - Mentoring Novice and Pre-Service Teachers
Designed to help participants develop or enhance the skills necessary to successfully work with candidates who are completing teacher education programs. Concentrates on supervision and conference skills, adult learning theory, and communication skills. **Semester Hours:** 1 to 1

EDUC 5050 - Computer Application for Educational Management
Studies the theoretical and applied knowledge of central and school-based administrative educational applications of modern computer technology. **Semester Hours:** 3 to 3

EDUC 5070 - Elementary School Curriculum
An integrating course dealing with the history, development, problems, and practices of the curriculum of the elementary school. **Semester Hours:** 3 to 3

EDUC 5090 - Senior High School Curriculum
This course is concerned with the history, development, principles, problems, practices, and trends of the curriculum of the senior high school. **Semester Hours:** 3 to 3

EDUC 5100 - Curriculum and Program Development and Evaluation
Fundamentals of curriculum and program development, including theoretical foundations of U.S. curriculum, practical criteria to guide decision making, specific models and processes for curriculum or program development and appraisal, emerging issues, prob. **Semester Hours:** 3 to 3

EDUC 5400 - Special Education Seminar for Principals
This course is designed for principals and prospective principals to investigate the new leadership responsibilities that are emerging in the delivery of special education at the building level. The course reflects the emerging role of the principal in the building. **Semester Hours:** 3 to 3

EDUC 5700 - Administrative Leadership in Educational Organizations
Introduces students to key concepts, theories, and research in providing leadership to educational organizations. Special emphasis is placed on the topics of organizational behavior, leadership, culture change and power, as they relate to the administrative. **Semester Hours:** 1 to 6

EDUC 5710 - Administering the Environment of Public Schools
A seminar course which focuses on problems and issues in developing an effective school environment. Emphasis is placed upon inter-relationship of law, finance, strategic planning, culture, political governance, and school or community relations. Prereq: **Semester Hours:** 1 to 6
EDUC 5720 - Supervision of the Curricular and Instructional Program of the School
This seminar addresses the supervisory issues involved in administering curricular and instructional programs in schools. Special emphasis is placed upon teacher appraisal, assessment techniques, curriculum design, and instructional effectiveness. Prereq: Semester Hours: 1 to 6

EDUC 5730 - Administering the School Improvement Process
A seminar course focusing on problems and issues in developing effective schools. This course builds on concepts from organizational behavior and leadership and orients students toward planning, executing, and assessing school improvement programs. Emphas Semester Hours: 1 to 6

EDUC 5751 - Principal/Administrator Licensing I
This program section (1 of 4) combines foundational learning activities in leadership, curriculum and supervision, school improvement, and the school environment via distance learning. Field applications are related to those foundations, and students deve Semester Hours: 5 to 9

EDUC 5752 - Principal Administrator Licensing II
This program section (2 of 4) combines advanced learning activities in leadership, curriculum and supervision, school improvement, and the school environment via distance-learning technology that build on the foundational activities in EDUC 5751 with fiel Semester Hours: 5 to 9

EDUC 5753 - Principal/Administrator Licensing III
This program section (3 of 4) combines foundational learning activities in leadership, curriculum and supervision, school improvement, and the school environment via distance learning that build on foundational activities in EDUC 5752. Field applications Semester Hours: 5 to 9

EDUC 5754 - Principal or Administrator Licensing IV
This program section (4 of 4) combines foundational learning activities in leadership, curriculum and supervision, school improvement, and the school environment via distance learning that build on foundational activities in EDUC 5753. Students complete t Semester Hours: 5 to 9

EDUC 5830 - Governance and Administration of Education
Development of governance structures and of administration as a field of study in education. Influence of governance and views of administration on educational organizations' goals, functions, and personnel. Semester Hours: 3 to 3

EDUC 5831 - School Law
Recent developments, including administrative implications of significant court decisions for school operations. For superintendents, principals, school board members, prospective administrators, and teachers. Semester Hours: 3 to 3

EDUC 5832 - Group Development and Training
Organizational theory and practice for school leadership personnel with emphasis on group and organization development, group problem identification and solutions, conflict management skills and processes, role behaviors and goal setting. Semester Hours: 3 to 3

EDUC 5833 - School Business Management
Emphasizes school-site level management. Includes instruction in planning, budgeting, evaluation and management. Semester Hours: 3 to 3
EDUC 5834 - Seminar in School Administration
Knowledge and insight about organizational behavior drawing upon education and related social science concepts. **Semester Hours:** 3 to 3

EDUC 5835 - Supervision of Instruction
Studies instructional supervision concepts with practical application. Effective instruction, supervision, and program evaluation in relation to school-wide improvement. Leadership skills in staff development, curriculum development, group development, di **Semester Hours:** 3 to 3

EDUC 5836 - Workshop: Educational Administration, Curriculum and Supervision
**Semester Hours:** 1 to 4

EDUC 5840 - Independent Study: EDUC Master's. **Semester Hours:** 1 to 4

EDUC 5930 - Clinical Practice in Administrative Leadership
Prereq: Admission to the program. **Semester Hours:** 1 to 5

EDUC 5931 - Internship in Curriculum
**Semester Hours:** 1 to 6

EDUC 5950 - Master's Thesis
**Semester Hours:** 1 to 8

EDUC 6000 - Special Topics: Administrative Leadership and Policy Studies
Specific topics vary; focus is on faculty-developed options to standard course offerings to facilitate program development and distance-learning activities. **Semester Hours:** 1 to 10

EDUC 6001 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10

EDUC 6002 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10

EDUC 6003 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10

EDUC 6004 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10

EDUC 6005 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10

EDUC 6006 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10

EDUC 6007 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10

EDUC 6008 - Special Topics: Administrative Leadership and Policy Studies
**Semester Hours:** 1 to 10
EDUC 6009 - Special Topics: Administrative Leadership and Policy Studies  
**Semester Hours:** 1 to 10

EDUC 6010 - Special Topics: Administrative Leadership and Policy Studies  
**Semester Hours:** 1 to 10

EDUC 6101 - Initial Portfolio Analysis for Administrator Licensure  
Students work with faculty members to develop a portfolio related to the professional standards of practice for educational administrators. Faculty members review the portfolio and provide an initial analysis for licensure. Prereq: M.A. or certification in educational administration.  
**Semester Hours:** 3 to 3

EDUC 6102 - Initial Portfolio Analysis for Principal Licensure  
Students work with faculty members to develop a portfolio related to the professional standards of practice for principals. Faculty members review the portfolio and provide an initial analysis and recommendation for licensure. Prereq: M.A. or certification in educational administration.  
**Semester Hours:** 3 to 3

EDUC 6103 - Portfolio Product Development for Administrative Licensure  
Students work with the professor to develop the products needed to ensure compliance with the new state standards for administrative licensure. Prereq: M.A. or certification in educational administration.  
**Semester Hours:** 1 to 6

EDUC 6104 - Portfolio Product Development for Principal Licensure  
Students work with the professor to develop the products needed to ensure compliance with the new state standards for principal licensure. Prereq: M.A. or certification in educational administration.  
**Semester Hours:** 1 to 6

EDUC 6105 - Portfolio Evaluation for Administrative Licensure  
Students work with the professor to conduct a detailed evaluation of portfolios to ensure that they meet the state standards for administrator licensure. The professor assembles a team of faculty and practicing professionals for the evaluation process. Prereq: M.A. or certification in educational administration.  
**Semester Hours:** 3 to 3

EDUC 6106 - Portfolio Evaluation for Principal Licensure  
Students work with the professor to conduct a detailed evaluation of portfolios to ensure that they meet the state standards for principal licensure. The professor assembles a team of faculty and practicing professionals for the evaluation process. Prereq: M.A. or certification in educational administration.  
**Semester Hours:** 3 to 3

EDUC 6840 - Independent Study  
**Semester Hours:** 1 to 4

EDUC 6930 - Clinical Practice for Administrative Leadership  
**Semester Hours:** 1 to 7

EDUC 6951 - Master’s Thesis  
**Semester Hours:** 4 to 4
EDUC 7000 - Special Topics in Administration, Supervision, and Curriculum Development  
**Semester Hours:** 1 to 3

EDUC 7120 - Curriculum of Middle Level School  
Deals with the history, development, principles, problems, practices, and trends of the curriculum of the middle level school. **Semester Hours:** 3 to 3

EDUC 7140 - Student Activities Curriculum  
Principles, problems, and procedures for improvement of extra class activities, student councils, and home rooms in the secondary school. **Semester Hours:** 3 to 3

EDUC 7150 - Doctoral Seminar in Curricular Theories  
An intensive study of current theories of public school curriculum related to trends in actual practices in elementary and secondary schools. **Semester Hours:** 3 to 3

EDUC 7160 - Processes and Materials in Curriculum Appraisal  
Designed to provide curriculum workers with skills in the process of assessment of curriculum programs and skill in the appraisal of curriculum materials. **Semester Hours:** 3 to 3

EDUC 7340 - Doctoral Seminar: Problems and Trends in Education  
A broad overview of current problems in schools and school systems and consideration of practices and policies in U.S. schools for solution of such problems. Evaluates procedures for solving educational problems. **Semester Hours:** 3 to 3

EDUC 7350 - Elementary Principalship  
Two-week in-depth examination of the elementary school principalship. Required for Type D administrative certification, elementary school. Prereq: Permission of instructor. **Semester Hours:** 3 to 3  
**When Offered:** SUMMER

EDUC 7360 - Administration and Supervision of Elementary School  
For administrators and teachers. Purposes, practices, and trends in administration and educational leadership. **Semester Hours:** 3 to 3

EDUC 7370 - Administration and Supervision of Senior High School  
Current administrative principles and practices essential to effective organization and management, with emphasis on the educational leadership of the principal. **Semester Hours:** 3 to 3

EDUC 7380 - Doctoral Seminar: Theory of Educational Administration  
Studies organizational models, theories, and communication patterns; leadership roles and behavior; and organizational change. Attention to recent research in administrative theory. **Semester Hours:** 3 to 3

EDUC 7400 - Doctoral Seminar in School Finance  
For advanced graduate students. Problems of educational finance; theory, practice and control; equalization funds; federal-state-local relations in finance; budgeting; salary schedules; retirement; and school bonds. **Semester Hours:** 3 to 3

EDUC 7410 - Educational Facilities Planning  
Determination of school plant needs; relation of educational and architectural services; criteria of adequate school plants, site development, building operation and management; financial problems. **Semester Hours:** 3 to 3  
**When Offered:** FASPRSUM
EDUC 7420 - Personnel Development and Training
Management of human resources in educational organizations. Deals with shared roles between site
development, building operation and management; financial problems. **Semester Hours:** 3 to 3

EDUC 7430 - School and Community Relations
Examines interactions of schools and their communities, citizen role or involvement in governance of
education, internal and external communication concepts and practices, politics of education, community
power and pressure groups, organizational culture **Semester Hours:** 3 to 3

EDUC 7490 - Doctoral Seminar
**Semester Hours:** 3 to 3

EDUC 7500 - Strategic Human Capital Development
This course focuses on understanding and leveraging the personnel function of an educational
organization. You will learn how to strategically align and maximize your human capital with
organizational strategic objectives. Cross-listed with DSEP 7500. **Semester Hours:** 3 to 3

EDUC 7510 - Strategic Organizational Management
An effective partnership between the board, community and institutional leader is essential to fulfilling
the mission of an educational organization. This course examines the importance of strategic visioning,
strategic planning, and specific communicati **Semester Hours:** 3 to 3

EDUC 7520 - Strategic System Improvement
The fundamental purpose of educational organizations (schools, districts, community colleges, higher
education, non-profits) is to ensure high levels of learning for all. This course addresses topics such as
data development and management, accountable **Semester Hours:** 3 to 3

EDUC 7530 - Leadership Development
Successful leaders are able to articulate, protect and promote what is important. This course will examine
the challenges of educational leadership and help participants clarify the core values essential to their
success as a leader. **Semester Hours:** 3 to 3

EDUC 7560 - Administration and Supervision in the Junior High School and Middle School
Purposes, practices, and trends in administration of the middle level school. Current administrative
principles and practices essential to effective organization and management. Emphasis is on leadership of
the principal at the middle level school. **Semester Hours:** 3 to 3

EDUC 7630 - Doctoral Seminar: Junior and/or Senior High School Education
For advanced students. Problems, theories, and trends in secondary education. Includes field work and
individual projects. **Semester Hours:** 3 to 3

EDUC 7700 - Doctoral Pro Seminar
This seminar integrates multiple doctoral labs, assists students to focus on dissertation topics, and
facilitates inclusion of regional or national researches in students' PhD experiences. Prereq: Admission to
the PhD program. **Semester Hours:** 1 to 1

EDUC 7800 - Doctoral Research Seminar: Education Administration, Curriculum-
Supervision
This seminar focuses on doctoral research study in these areas of educational research. **Semester
Hours:** 3 to 3
EDUC 7810 - Doctoral Seminar in School Law
An in-depth examination of the American legal process as it pertains to administration, planning, and delivery of educational programs. Involves self-selected research followed by individual or group presentations. **Semester Hours:** 3 to 3

EDUC 7820 - Doctoral Seminar in Curriculum
Advanced seminar relating to theory and practice in curriculum building. Includes both elementary and secondary levels. **Semester Hours:** 3 to 3

EDUC 7823 - Doctoral Seminar in Educational Supervision
Advanced exploration of current instructional supervision concepts with exercises linking theory with professionals to solve instructional problems. **Semester Hours:** 3 to 3

EDUC 7825 - Doctoral Seminar in Educational Leadership
Seminar dealing with processes and patterns of educational leadership in the schools. Various theories of leadership are considered in relation to students’ leadership behaviors. May be taken more than one semester for credit with advisor's approval. **Semester Hours:** 3 to 3

EDUC 7840 - Independent Study: EDUC
Doctoral. **Semester Hours:** 1 to 4

EDUC 7911 - Practicum in Education Administration, Supervision and Curriculum
**Semester Hours:** 1 to 4

EDUC 7921 - Readings in Education Administration, Curriculum and Supervision
**Semester Hours:** 1 to 4

EDUC 7931 - Internship in Educational Administration and Supervision
Prereq: Permission of instructor. **Semester Hours:** 1 to 6

EDUC 7932 - Internship in Curriculum
Permission of instructor required. **Semester Hours:** 1 to 6

EDUC 8997 - Doctoral Dissertation Ed D
**Semester Hours:** 1 to 10
Electrical Engineering Courses (ELEC)

**ELEC 1201 - Introduction to Electrical Engineering**
Introduces the field of electrical engineering and the computer -- its primary tool. ELEC faculty members explain the various specialties within the field by demonstration. Word processors, spreadsheets, and engineering software are introduced. Note: This course is not available to students who have taken ELEC 2142. ENGR 1000 cannot be substituted for ELEC 1201. Prereq: High School Trigonometry. **Semester Hours:** 1 to 1

**ELEC 1510 - Logic Design**
The design of combinatorial and sequential switching circuits. Topics include Boolean algebra, Boolean function minimization technique, combinatorial circuit analysis and synthesis, synchronous sequential circuit analysis and synthesis, algorithmic state machine design, asynchronous sequential circuit analysis and synthesis. **Semester Hours:** 3 to 3

**ELEC 1520 - Embedded Systems Engineering I**
Programming concepts are introduced from a hardware design standpoint. Assembly language and the "C" language are used to interface and manipulate hardware. Microcontroller programming for electrical engineering applications is studied. Prereq: ELEC 1510. **Semester Hours:** 3 to 3

**ELEC 2132 - Circuit Analysis I**
Introduces circuit analysis: basic principles, operational amplifier circuits, first-order and second-order circuits, steady-state sinusoidal analysis with phasor mathematics. Prereq: MATH 2411 and PHYS 2311. Cross-listed with CSCI 2132. **Semester Hours:** 3 to 3

**ELEC 2142 - Circuit Analysis II**
Sequential course after ELEC 2132. Topics include: Solution of circuits using Laplace transforms, frequency domain analysis, additional steady-state solutions, Bode plots, active filters, pulses, impul ses, and computer-aided analysis. Prereq: ELEC 213 **Semester Hours:** 3 to 3

**ELEC 2520 - Embedded Systems Engineering 2**
A second semester computer engineering course covering basic computer architecture including CPU’s, memory, peripherals, and operating systems including development tools, Kernel selection, file systems, and storage device manipulation, boot loaders, USB, networking, device drivers, and real-time operating system usage. Prereq: ELEC 1520. **Semester Hours:** 3 to 3

**ELEC 2531 - Logic Laboratory**
Experiments in digital logic utilizing both computer simulation and actual analysis using integrated circuits. Initially, combinational logic circuits are studied, including circuits such as binary adders and multipliers, followed by sequential circuits, including counters. Meters and oscilloscopes are introduced. Use of computer-aided design tools facilitating design, simulation, and implementation of digital systems using field-programmable logic devices are an integral part of the entire course. Prereq/Coreq: ELEC 1510. Cross-listed with CSCI 2531. **Semester Hours:** 1 to 1

**ELEC 2552 - Sophomore Circuits Laboratory**
Conduct experiments in circuit measurement using oscilloscopes, power supplies, and function generators. Verify basic circuitry, basic circuit theorems such as Ohm's Law, Kirchhoff's Law, and Thevenin's theorem and Norton's theorem. Learn by experiments: impedance functions, transfer functions, resonance, Fourier series and analog filters. Prereq/coreq: ELEC 2142. **Semester Hours:** 1 to 1
ELEC 3030 - Electric Circuits and Systems
This basic electrical engineering course is for non-majors (does not apply to BSEE degree). Students study circuit analysis, transformers, electric motors, and simple electronic circuits (diodes and transistors). Prereq: MATH 2421 and PHYS 2331. Cross-listed with MECH 3030. Semester Hours: 3 to 3

ELEC 3133 - Electromagnetic Fields
Basic material is covered, including: vector analysis in generalized coordinates, Maxwell’s equations postulated for free space and extended to material regions and boundary conditions, uniform plane waves for free space and for materials, and static and quasi-static electric and magnetic fields. Prereq: ELEC 2132, MATH 3195, 2421 and PHYS 2331. Semester Hours: 3 to 3

ELEC 3164 - Energy Conversion
Theory of transformers. Energy conversion concepts. Basic rotating energy converters, including direct current, synchronous and induction machines and applications. Prereq: ELEC 2142. Semester Hours: 3 to 3

ELEC 3215 - Electronics I
The learning objective is fundamental semiconductor theory as applied to electronic circuits. Topics include: semiconductor theory, P-N junctions and diode applications, power supply design, transistor (BJT) theory and applications, low-frequency amplifiers, FET and MOSFET devices. Prereq: ELEC 2132, PHYS 2331 and CHEM 1130. Semester Hours: 3 to 3

ELEC 3225 - Electronics II
BJT and FET transistor models at high frequencies, multistage amplifiers, frequency response of amplifiers. Feedback, operational amplifiers, oscillators, power amplifiers, and introduction to power electronics. Prereq: ELEC 2142 and 3215. Semester Hours: 3 to 3

ELEC 3316 - Linear Systems Theory
Introduces the fundamentals of signals and systems analysis. Topics include: time domain analysis of continuous and discrete time systems, frequency domain (Laplace and z-transform) analysis, applications to filters and feedback systems, Fourier transform for both continuous and discrete time signals, sampling and signal reconstruction, applications to communication systems and state space representation. Learning experience is enhanced by using MATLAB-based examples and experiments. Prereq: ELEC 2142. Semester Hours: 3 to 3

ELEC 3651 - Digital Hardware Design
The specification and design of large digital hardware systems. Applications include using a hardware description language and simple digital control circuits. Prereq: ELEC 2531 and ELEC 2520. Semester Hours: 3 to 3

ELEC 3715 - Electronics Laboratory
Design and experimental verification of the operation of filter circuits, power supply circuits, transistor amplifier circuits and FET circuits. Prereq: ELEC 2552. Prereq/Coreq: ELEC 3215 Semester Hours: 1 to 1

ELEC 3724 - Energy Conversion Laboratory
Basic electro-mechanical energy conversion concepts as applied to the synchronous machine, induction machine, and DC machine; the transformer; applications. Prereq: ELEC 2142. Prereq or Coreq: ELEC 3164. Semester Hours: 1 to 1
ELEC 3735 - Junior Laboratory
Design and measure: several nonlinear op-amp circuits, a multi-stage amplifier, and a complementary-symmetry output stage. Oral presentations on experiments to be given. Prereq: ELEC 3715. Prereq/Coreq: ELEC 3225. **Semester Hours:** 1 to 1

ELEC 3817 - Engineering Probability and Statistics
Topics include: definition of probability, conditional probability, independence, combined experiments and Bernoulli trials, random variables, joint distribution and density functions, correlations, sample mean and variance. Also, introduction to random processes, auto and cross correlation functions, spectral density of random signals, responses of a linear system to random inputs. Prereq: MATH 3195 and 2421. **Semester Hours:** 3 to 3

ELEC 3939 - Internship
Students gain engineering design experience involving application of specific technical concepts and skills in a supervised industrial environment. (Must have approval from ELEC faculty.) Prereq: ELEC 2142. **Semester Hours:** 1 to 3

ELEC 3999AE - ELEC Equivalent-Upper Div
**Semester Hours:** 1 to 5

ELEC 4005 - IC Design
Explores digital integrated circuit design including MOS processing steps, physical operation, building blocks of digital circuits, advanced nMOS, pMOS and CMOS circuit design, silicon VLSI technology and circuit and chip level. Spice and lay-out Editor are used. The physical relationship between circuit design and actual silicon layout and structure and technology are emphasized. Prereq: Graduate standing or permission of instructor. Prereq: ELEC 3225. Cross-listed with ELEC 5005. **Semester Hours:** 3 to 3

ELEC 4025 - Device Electronics
A course relating performance and limitations of solid state devices to their structures and technology. For both advanced circuit and device engineers. Semiconductor physics and technology, pn-junction and MOS devices used in modern integrated circuits. Prereq: ELEC 3225 and senior standing. Cross-listed with ELEC 5025. **Semester Hours:** 3 to 3

ELEC 4133 - Advanced Electromagnetic Fields
Topics include: Poynting's power theorem, reflection and transmission of uniform plane waves in layered media, two-conductor transmission lines, rectangular wave guides, Smith Chart elements of radiation and s antenna theory. Prereq: ELEC 3133. Cross-listed with ELEC 5233. **Semester Hours:** 3 to 3

ELEC 4136 - Control Systems Analysis
Introduces students to the fundamentals of analysis and design of feedback systems. Topics include: mathematical models of linear continuous-time systems applied to modeling physical systems in the time and frequency domain, control system characteristics, Routh's stability and transient response analysis, Nyquist stability and polar plots, analysis and design of linear control systems by root locus and frequency response, methods, compensator implementation, finite-precision numerical effects, round-off errors, and computer-based design applications. Prereq: ELEC 3316; Prereq/Coreq: ELEC 3817. **Semester Hours:** 3 to 3

ELEC 4164 - Electric Drive Systems
Covers power electronics drives for rotating electric machinery. Topics include power electronics elements for drives, load characteristics, dynamic modeling of AC machines, fundamental control algorithms,
simulation and practical commercial drives. Prereq: ELEC 3164. Cross-listed with ELEC 5164. Semester Hours: 3 to 3

ELEC 4170 - Electric Drive Systems Laboratory
Includes hands-on experience on experience on rotating electric machine drives. Experiments include drives for induction, DC, and synchronous machines. Up-to-date industrial equipment and advanced computer controller will be utilized. Prerequisite or Co-requisite: ELEC 4164/5164 or equivalent.
Semester Hours: 1 to 1

ELEC 4174 - Power Electronic Systems
Topics to be covered include: power electronics fundamentals and applications in power systems; uncontrolled, semi-controlled and fully controlled power semiconductors; converters design and control. Prereq: ELEC 3164. Cross-listed with ELEC 5174. Semester Hours: 3 to 3

ELEC 4184 - Power Systems Analysis
Topics to be covered include: complex power; per-unit quantities; modeling of generators, transformers and transmission lines; power flow problem; economic dispatch; faults and sequence networks; and an introduction to power system protection and dynamics. Prereq: ELEC 3164. Cross-listed with ELEC 5184. Semester Hours: 3 to 3

ELEC 4225 - Advanced Electronics
Switching state models of discrete components and integrated circuits, including logic gates, comparators, and operational amplifiers. Input, output, and transfer characteristics. Non-ideal properties. Analog-digital and digital-analog conversion. MOS-integrated circuits. Prereq: ELEC 3215, 3225, 3735. Semester Hours: 3 to 3

ELEC 4247 - Communication Theory

ELEC 4248 - Digital Communication Systems
Introduces digital communication systems covering elements of information theory; mathematical representation of signals and systems; modulation and demodulation for the additive Gaussian noise channel; performance analysis of various transmission formats; synchronization; coded waveforms; decoding algorithms; and other related topics. Prereq: ELEC 3316, 3817; recommended ELEC 4247. Cross-listed with ELEC 5248. Semester Hours: 3 to 3

ELEC 4249 - Space Communications Systems
Presents the art of space communications system design around the framework of the link budget and the essential analysis tool of the radio system designer. The budget is examined from theoretical and practical viewpoints. Pointers and motivation for further study in each of the related engineering disciplines are provided. Topics to be examined include satellite orbits, propagation, antennas, noise, modulation, coding and hardware or software. Prereq: Permission of instructor. Cross-listed with ELEC 5249. Semester Hours: 3 to 3
ELEC 4276 - Digital Control Systems
Topics to be covered include: discrete-time systems and the z-transform, characteristics of open-loop and closed-loop discrete-time systems, time-response characteristics and stability analysis, design of digital and hybrid control systems using z-transform, root locus, frequency domain, and state variable compensation techniques, compensator on, implementation, and computer-based design applications. Prereq: ELEC 3316 and ELEC 3817. Cross-listed with ELEC 5276. Semester Hours: 3 to 3

ELEC 4309 - Senior Design Project I
Design methodology and tools, project planning and team building, ethics in engineering and research, career planning and portfolio building. Project designs are completed and presented to the class. Prereq: Students must complete their Senior/30 hour check prior to enrollment. Prereq/Coreq: All required ELEC 3000-level classes and labs. ELEC 4309 and ELEC 4319 must be completed in subsequent academic semesters. Semester Hours: 3 to 3

ELEC 4319 - Senior Design Project II
Project designs completed in ELEC 4309 are constructed and tested. Oral and written presentations of the completed project performance are required. Prereq: ELEC 4309. All required ELEC 3000-level classes and labs. Students must complete their Graduation Agreement prior to enrollment. ELEC 4309 and ELEC 4319 must be completed in subsequent academic semesters. Semester Hours: 3 to 3

ELEC 4373 - Optical Engineering
This course introduces some of the most important concepts in optical engineering and prepares students a solid foundation to apply them to applications in the industry and academic research. Prereq: ELEC 3133 Electromagnetic Fields. Cross-listed with ELEC 5373. Semester Hours: 3 to 3

ELEC 4406 - Control Systems Laboratory
This lab includes system identification, design of velocity control systems, design of PID controllers and control systems using state variable feedback. Prereq: ELEC 3225, ELEC 3316, and ELEC 3735. Prereq/Coreq: ELEC 3817. Cross-listed with ELEC 5276. Semester Hours: 1 to 1

ELEC 4423 - Radio Frequency Laboratory
Projects involve modern RF analyzers, wave-guide devices, time-domain techniques, characterization of filters/amplifiers, signal propagation and scattering, harmonic mixing, and radio frequency identification. Students will gain experience using MATLAB for data acquisition and processing. Cross-listed with ELEC 5423. Semester Hours: 1 to 1

ELEC 4435 - Advanced Electronics Laboratory
Projects related to digital logic, analog and digital switches, A/D and D/A converters, and design of signal filters. Prereq: ELEC 3225 and 3735; Prereq or Coreq: ELEC 4225. Semester Hours: 1 to 1

ELEC 4444 - Power Systems Laboratory
This lab introduces the student to modern computational tools used in power system analysis. Algorithms to solve the "power flow problem," the "economic dispatch problem," and the "optimal power flow problem" are discussed and implemented in the Matlab-Simulink mathematical analysis software package. Prereq: ELEC 4184. Semester Hours: 1 to 1

ELEC 4466 - Adaptive Control System Design
ELEC 4467 - Communications Laboratory
Analysis and design in three main areas: traditional analog communications at low and medium frequencies, digital communications, and microwave communications systems. Extensive use of spectrum analysis from low frequencies up to microwave range. Projects include noise, AM, FM, PM, PLL, sampling, quantizing, encoding, TDM, FSK, QPSK, 16QAM, receivers, and satellite communications systems. Prereq: ELEC 3735; Prereq or Coreq: ELEC 4247 or ELEC 4248. Semester Hours: 1 to 1

ELEC 4474 - Power Electronics Laboratory
The power electronics laboratory introduces students to seven fundamental switchmode power conversion topologies, along with voltage and current feedback control, assembled on a reconfigurable power pole circuit board with external power supplies and laboratory. Coreq: ELEC 4174. Cross-listed with ELEC 5474. Semester Hours: 1 to 1

ELEC 4501 - Microprocessor Based Design
Covers advanced treatment of embedded system design using microprocessors. Analog input circuitry is interfaced to a microprocessor, and a PC board layout is created to develop a complete system design. Software/Operating System is implemented for realtime I/O. Prereq/Coreq: ELEC 3225, ELEC 3651, and ELEC 3735. Cross-listed with ELEC 5501. Semester Hours: 3 to 3

ELEC 4511 - Hardware-Software Interface
Computer engineering methods in hardware and software design applied to problems drawn from the mini- and micro-computer systems field. Hardware and software techniques for the design of combined hardware or software are developed. Interface and real-time Semester Hours: 3 to 3

ELEC 4521 - Microprocessor Laboratory
Provides support for the projects assigned in ELEC 4501 - a complete embedded system is designed, built and tested. Coreq: ELEC 4501. Semester Hours: 1 to 1

ELEC 4555 - VLSI Circuit Simulation

ELEC 4561 - Hardware-Software Lab
Projects related to the software interface of a processor to external devices. Topics include A/D converters, serial and parallel interfaces. Coreq: ELEC 4511. Semester Hours: 1 to 1

ELEC 4637 - Digital Signal Processing

ELEC 4644 - Introduction to Biomedical Imaging
An important component of the recent expansion in biomedical engineering is the area of biomedical imaging. This ELEC 4644/5644 course is an introduction to biomedical imaging systems, not only
covering the fundamentals of imaging physics but also the applications of four primary biomedical imaging modalities: X-Ray Computed Tomography (CT), Magnetic Resonance Imaging (MRI), Nuclear Medicine (i.e. PET, SPECT), and Ultrasound Imaging. Prereq: ELEC 3316 and ELEC 4637. Cross-listed with ELEC 5644. **Semester Hours:** 3 to 3

**ELEC 4678 - Quantum Electronics**
The course teaches students to understand the basic concepts of quantum mechanics and to learn the mathematical tools needed and to be familiar with some of the technical knowledge that applies quantum mechanics to various advanced problems in engineering. Prereq: PHYS 2331 and MATH 3195. Cross-listed with ELEC 5678. **Semester Hours:** 3 to 3

**ELEC 4688 - Introduction to Nondestructive Testing**
A basic, broad understanding of the principles of nondestructive testing and evaluation is provided. The main objective of this course is to attract students to NDT fields and eventually help address the increasing needs of NDT engineers and technicians. Interaction and collaboration with local NDT industries will also be emphasized. As an introductory course, a broad interdisciplinary knowledge of NDT will be covered in the following sub-areas: Visual, Penetrant, Magnetic Particle, Eddy Current, Microwave, Ultrasonic, and Radiography. Prereq: ELEC 1201 and ELEC 3316. Cross-listed with ELEC 5688. **Semester Hours:** 3 to 3

**ELEC 4723 - High Performance Computer Architecture**
High Performance Computer Architecture covers the design of advanced computing systems. In particular, the course includes the design of modern microprocessors, characteristics of the memory hierarchy, and issues involved in multithreading and multicore architectures. Prereq: ELEC 3651 Digital Hardware Design. Cross-listed with ELEC 5723. **Semester Hours:** 3 to 3

**ELEC 4727 - Computer Vision & Image Processing Acceleration**
Real-time constraints on computer-vision and image processing applications have motivated numerous explorations of multicore architectures to provide more efficiency through hardware parallelism and acceleration. This course undertakes the study of image processing and computer vision algorithms in the context of parallel hardware. Cross-listed with ELEC 5727. **Semester Hours:** 3 to 3

**ELEC 4755 - Renewable Energy Systems**
This course considers electrical generation using renewable energy sources of a variety of types. While examining many developing technologies, it concentrates on the design and application of photovoltaic and wind electrical generation. It examines current methods of classification of wind and solar sites, and discussed aspects which must be considered when choosing sites for wind or solar installations. It examines photovoltaic and thermal solar technologies, inverter technologies, and their integration into the power grid. Also considered are micro-hydro and fuel cell technologies. Renewable system economics and legislative effects are also discussed. Cross-listed with ELEC 5755. **Semester Hours:** 3 to 3

**ELEC 4800 - Special Topics**
**Semester Hours:** 1 to 3

**ELEC 4840 - Independent Study: ELEC**
An opportunity for independent creative work. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

**ELEC 5005 - IC Design**
Explores digital integrated circuit design including MOS processing steps, physical operation, building blocks of digital circuits, advanced nMOS, pMOS and CMOS circuit design, silicon VLSI technology and
circuit and chip level. Spice and lay-out Editor are used. The physical relationship between circuit design and actual silicon layout and structure and technology are emphasized. Prereq: Graduate standing or permission of instructor. Cross-listed with ELEC 4005. **Semester Hours:** 3 to 3

**ELEC 5025 - Device Electronics**
A course relating performance and limitations of solid state devices to their structures and technology. For both advanced circuit and device engineers. Semiconductor physics and technology, pn-junction and MOS devices used in modern integrated circuits. Prereq: ELEC 3225 and senior standing. Cross-listed with ELEC 4025. **Semester Hours:** 3 to 3

**ELEC 5033 - Advanced Electromagnetic Fields**
Topics include: Poynting’s power theorem, reflection and transmission of uniform plane waves in layered media, two-conductor transmission lines, rectangular wave guides, Smith Chart elements of radiation and s antenna theory. Prereq: ELEC 3133. Cross-listed with ELEC 4133. **Semester Hours:** 3 to 3

**ELEC 5133 - Electromagnetic Radiation and Antenna**
Solution of inhomogeneous wave equation. Radiation fields of elementary dipole, linear wire antenna, uniform and non-uniform linear arrays. Array synthesis. Farzone field patterns, directivity and beamwidth. Diffraction fields of aperture sources, horn antenna, conic surface reflector sources, lens antenna. Ray tracing methods. Transient-receive link. Selected Topics. Prereq: ELEC 4133, graduate standing and permission of instructor. **Semester Hours:** 3 to 3

**ELEC 5164 - Electric Drive Systems**
Covers power electronics drives for rotating electric machinery. Topics include power electronics elements for drives, load characteristics, dynamic modeling of AC machines, fundamental control algorithms, simulation and practical commercial drives. Prereq: ELEC 3164. Cross-listed with ELEC 4164. **Semester Hours:** 3 to 3

**ELEC 5170 - Advanced Electric Drive Systems**
Covers advanced theory and implementation techniques for rotating electric machinery drives. Topics include field oriented control theory, detailed dynamic modeling of induction machine/drive system, advanced control algorithms and controller design. Prereq: ELEC 4164, 5164 or equivalent. **Semester Hours:** 3 to 3

**ELEC 5174 - Power Electronic Systems**
Topics to be covered include: power electronics fundamentals and applications in power systems; uncontrolled, semi-controlled and fully controlled power semiconductors; converters design and control. Prereq: ELEC 3164 and graduate standing or permission of instructor. Cross-listed with ELEC 4174. **Semester Hours:** 3 to 3

**ELEC 5184 - Power Systems Analysis**
Topics to be covered include: complex power; per-unit quantities; modeling of generators, transformers and transmission lines; power flow problem; economic dispatch; faults and sequence networks; and an introduction to power system protection and dynamics. Prereq: ELEC 3164 and graduate standing or permission of instructor. Cross-listed with ELEC 4184. **Semester Hours:** 3 to 3

**ELEC 5194 - Power Systems Operation and Control**
This course introduces the student to various operational strategies the power industry uses today to operate the power system. Topics to be covered include: economic dispatch, unit commitment, optimal power flow (linear and nonlinear), transmission congestion, control areas, state estimation, and an
ELEC 5210 - Optimization Methods in Engineering
Unconstrained optimization, gradient methods, conjugate direction methods, data fitting and function estimation. Applications in control, system identification and radar systems. Optimization over a convex set, LMS algorithms in adaptive systems, convergence properties. Nonlinear programming, Lagrange multipliers, projection algorithms, games and minimax theorem, application to H infinity control, communication and signal processing. Prereq: MATH 3191 and 3200/3195. Semester Hours: 3 to 3

ELEC 5220 - Methods of Engineering Analysis

ELEC 5230 - Advanced Linear Systems
Mathematical description of both continuous and discrete-time systems; vector, normed and inner-product spaces; state-space, impulse response and transfer function descriptions; state-transition response matrices; eigenvalues and eigenfunctions; controllability; canonical form; state feedback; observers; realization theory. Prereq: MATH 3191, MATH 3200/3195 and permission of instructor. Semester Hours: 3 to 3

ELEC 5248 - Digital Communication Systems
Introduces digital communication systems covering elements of information theory; mathematical representation of signals and systems; modulation and demodulation for the additive Gaussian noise channel; Performance analysis of various transmission formats; synchronization; coded waveforms; decoding algorithms; and other related topics. Prereq: ELEC 3316, 3817; recommended ELEC 4247. Cross-listed with ELEC 4248. Semester Hours: 3 to 3

ELEC 5249 - Space Communications Systems
Presents the art of space communications system design around the framework of the link budget and the essential analysis tool of the radio system designer. The budget is examined from theoretical and practical viewpoints. Pointers and motivation for further study in each of the related engineering disciplines are provided. Topics to be examined include satellite orbits, propagation, antennas, noise, modulation, coding and hardware or software. Prereq: Permission of instructor and graduate standing. Cross-listed with ELEC 4249. Semester Hours: 3 to 3

ELEC 5250 - Information Theory
Introduces information theory and its application in computer science, communication theory, coding and applied mathematics. Entropy, mutual information, data compression and storage, channel capacity, rate distortion, hypothesis testing. Error detecting and correcting codes, block codes and sequential codes. Prereq: ELEC 3817 or CSCI 4535 or MATH 3800. Cross-listed with CSCI 5217. Semester Hours: 3 to 3

ELEC 5252 - Computer Communication Networks
Comprehensive study of issues arising in modern computer-communication networks, both wire-line and wireless, carrying traffics with heterogeneous characteristics. A conceptual and analytical approach to the design of network protocols in harmony with the appropriate modeling of the traffic and network environments. Issues covered include routing, transmission, performance monitoring, as well as and
network management in ATM multi-media networks. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

**ELEC 5276 - Digital Control Systems**
Analysis and design of discrete-time systems, as occurs when a digital computer is used to control physical systems. Topics include difference equations, Z-transform, sampled-data system modeling, sampling, discrete equivalents, stability, and discrete control design by root locus, direct design, frequency-response, and state space. Prereq: ELEC 3316, ELEC 3817, and graduate standing. Cross-listed with ELEC 4276. **Semester Hours:** 3 to 3

**ELEC 5294 - Advanced Power Electronic Systems**
Topics to be covered include: three-phase diode/thyristor bridge rectifiers; three-phase voltage source converters; matrix converters; FACTS devices; Custom Power devices; converter's design, control and modulation strategies. Prereq: ELEC 4174 or ELEC 5174. **Semester Hours:** 3 to 3

**ELEC 5373 - Optical Engineering**
This course introduces some of the most important concepts in optical engineering and prepares students a solid foundation to apply them to applications in the industry and academic research. Prereq: ELEC 3133 Electromagnetic Fields. Cross-listed with ELEC 4373. **Semester Hours:** 3 to 3

**ELEC 5423 - Radio Frequency Laboratory**
Projects involve modern RF analyzers, waveguide devices, time-domain techniques, characterization of devices, signal propagation and scattering, harmonic mixing, and radio frequency identification. Students will gain experience using MATLAB for data acquisition and processing. Graduate students will explore projects in greater detail. Cross-listed with ELEC 4423. **Semester Hours:** 1 to 1 **When Offered:** FALL SPR

**ELEC 5433 - Fundamentals and Applications of Plasmas**
This course provides an introduction to plasmas, also known as the fourth state of matter, in nature and industry. Topics covered include single particle motions, plasma kinetic and fluid theory, cold and warm plasma models and interaction of electromagnetic waves with plasmas. Applications ranging from space sciences to medicine are explored. Prereq ELEC 3133 for undergraduate students or permission of the instructor. No prerequisite for CEAS graduate students. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**ELEC 5436 - Nonlinear Control Systems I**
Analysis and synthesis of nonlinear feedback control systems. Linearization's and stability in the small, equivalent linearization and the describing function. The dual input describing function. Stability in the large and the second method of Lyapunov. Stability of time-varying systems. Popov's method and extensions. Prereq: ELEC 4136 or 4276. **Semester Hours:** 3 to 3

**ELEC 5444 - Power System Laboratory**
This lab introduces the student to modern computational tools used in power system analysis. Algorithms to solve the "power flow problem", the "economic dispatch problem", and the "optimal power flow problem" are discussed and implemented in the Matlab-Simulink mathematical analysis software package. Prereq: ELEC 4184 & 5184. **Semester Hours:** 1 to 1

**ELEC 5446 - Introduction to Modern Control Theory**
State space representation of dynamic systems. Canonical forms. Frequency domain analysis. Controllability and observability. Design by statespace methods: pole-placement, linear observers,
separation principle, robustness. Linear, quadratic optimum control. Prereq: ELEC 4136 or 4276.

**Semester Hours:** 3 to 3

**ELEC 5455 - Computer Methods for Device Electronics**
Numerical analysis of PN junctions, Bipolar transistors, GAAS MESFETS, and MOSFETS. Numerical solution of discrete-form equations. Finite-difference method for semiconductor devices. Two-dimensional models: DC, transient, and small signal numerical analysis. Co-req: ELEC 4025/5025. **Semester Hours:** 3 to 3

**ELEC 5456 - Sampled Data and Digital Control Systems**
Elements of sampling theory. Overview of design approaches via transform methods. Analysis and design in state space. Optimal control systems. Emphasis is placed on computer-aided design projects. Prereq: ELEC 4276. **Semester Hours:** 3 to 3

**ELEC 5466 - Adaptive Control System Design**
Basic concepts in adaptive feedback control. Overview of application areas. Stability of non-linear systems and hyperstability approach to the design of adaptive controllers. Passivity concept and Liapunov stability. Design of model reference adaptive systems, self-tuning regulators, stochastic adaptive, and dual control systems. Computer-based design applications. Emphasis is placed on design projects. Prereq: ELEC 4136 or 4276. Cross-listed with ELEC 4466. **Semester Hours:** 3 to 3

**ELEC 5474 - Power Electronics Laboratory**
The power electronics laboratory introduces students to seven fundamental switchmode power conversion topologies, along with voltage and current feedback control, assembled on a reconfigurable power pole circuit board with external power supplies and laboratory. Cross-listed with ELEC 4474. **Semester Hours:** 1 to 1

**ELEC 5476 - Optimal Control Systems**

**ELEC 5486 - Modeling and System Identification**

**ELEC 5496 - Robust Control**
Background mathematics: function spaces and operators, and factorization theory. Stability theory: stability and stabilizability parameterization, closed-loop transfer matrices. Model-Matching Theory: solution existence, SISO Design, the Nehari problem. Performance bounds. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

**ELEC 5501 - Microprocessor-Based Design**
Covers advanced treatment of embedded system design using microprocessors. Analog input circuitry is interfaced to a microprocessor, and a PC board layout is created to develop a complete system design.
Software/Operating System is implemented for realtime I/O. Prereq: Graduate standing or permission of instructor. Cross-listed with ELEC 4501. **Semester Hours:** 3 to 3

**ELEC 5511 - Hardware-Software Interface**
Computer engineering methods in hardware and software design applied to problems drawn from the mini- and micro-computer systems field. Hardware and software techniques for the design of combined hardware or software are developed. Interface and real-time programming techniques are considered. Graduate level requires additional projects and homework. Prereq: Graduate standing or permission of instructor. Cross-listed with ELEC 4511. **Semester Hours:** 3 to 3

**ELEC 5521 - Design and Test of Digital Systems**
Application of hardware description languages to the design, synthesis, analysis, and testing of digital and computer systems; modeling and simulation constructs; modern hardware description languages, including VHDL, logic and behavioral synthesis; rapid-prototyping; FPGA and standard-cel ASIC design; design for testability; and electronic design automation. Prereq: ELEC 3651 or graduate standing. **Semester Hours:** 3 to 3

**ELEC 5522 - VLSI Systems**
Examines the design of very large-scale integrated (VLSI) systems from the logic to physical levels, including MOS transistor design, CMOS fabrication and design rules, device and wafer processing, inverter and complex gate design, mask level layout, VLSI system components and architectures, algorithms for VLSI computer-aided design, and testability. Prereq: ELEC 3215 and 3651 or graduate standing. **Semester Hours:** 3 to 3

**ELEC 5551 - Pattern Recognition**
Pattern recognition techniques from image processing and artificial intelligence are explored. Topics include neural networks, morphological processing, wavelets, fractals, and basic image understanding. Prereq: ELEC 3316 and 3651. **Semester Hours:** 3 to 3

**ELEC 5555 - VLSI Circuit Simulation**

**ELEC 5617 - Random Processes for Engineers**
Probability, sequences of random variables, specification of stochastic processes, stationarity, correlation functions and spectral densities, linear mean-square estimation, central limit theorems, law of large numbers, non-stationary random processes, stochastic differential equations and Karhunen-Loeve expansion, Kalman filtering. Prereq: ELEC 3316 and ELEC 3817 and permission of instructor. **Semester Hours:** 3 to 3

**ELEC 5627 - Stochastic Point Processes**
Presents modeling physical phenomena characterized by highly localized events distributed randomly in a continuum. Applications include optical communications, queuing theory, decision theory, nuclear medicine and electron microscopy. Topics include Poisson counting processes and its generalizations; stochastic differential equations used in filtering; martingales and Brownian motion. Prereq: ELEC 3817 or ELEC 5617. **Semester Hours:** 3 to 3
ELEC 5637 - Digital Signal Processing

ELEC 5638 - Digital Image Processing
Basics of two-dimensional (2-D) systems theory, including 2-D Fourier transform, Z-transform, and difference equations. Design of 2-D filters for image processing applications. Image transforms, including the 2-D FFT, cosine, Hadamard and KL. Image enhancement and restoration techniques. Method of image coding and compression. Prereq: ELEC 5637. Semester Hours: 3 to 3

ELEC 5644 - Introduction to Biomedical Imaging
An important component of the recent expansion in biomedical engineering is the area of biomedical imaging. This ELEC 4644/5644 course is an introduction to biomedical imaging systems, not only covering the fundamentals of imaging physics but also the applications of four primary biomedical imaging modalities: X-Ray Computed Tomography (CT), Magnetic Resonance Imaging (MRI), Nuclear Medicine (i.e. PET, SPECT), and Ultrasound Imaging. Prereq: Graduate standing, or permission of instructor. Cross-listed with ELEC 4644. Semester Hours: 3 to 3

ELEC 5647 - Adaptive Signal Processing

ELEC 5648 - Blind Signal Processing
Introduction to gradient optimization methods. Introduction to adaptive filtering. Principal component analysis and whitening. Robust and adaptive PCA. Blind SOS parameter estimation and deconvolution. Fundamentals of independent component analysis. Blind equalization of SIMO and MIMO systems. ICA by maximization of nongaussianity. ICA by MLE and minimization of mutual information. Applications and practical considerations. Semester Hours: 3 to 3

ELEC 5657 - Detection and Estimation Theory
Introduces detection and extraction methods used in signal processing, including decision theory; detection of known and random signals; optimum receiver design; estimation theory; Wiener filtering; Kalman-Bucy filtering; and applications to communication systems. Prereq: ELEC 5617. Semester Hours: 3 to 3

ELEC 5667 - Wavelet Theory and Applications
Topics include: fundamentals of signal decomposition; theory of filter banks; multi-resolution analysis and fast wavelet transforms; applications image and video image and video compression; and denoising and feature detection. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

ELEC 5678 - Quantum Electronics
The course teaches students to understand the basic concepts of quantum mechanics and to learn the mathematical tools needed and to be familiar with some of the technical knowledge that applies quantum
mechanics to various advanced problems in engineering. Prereq: PHYS 2331 and MATH 3195. Cross-listed with ELEC 4678. **Semester Hours:** 3 to 3

**ELEC 5687 - Optical Communication Systems**
System aspects of optical communication system design. Basic principles of sources, channels, detectors, counting statistics, amplifiers, and coding with regard to the performance limitations they place on the communication system. Prereq: ELEC 4247. **Semester Hours:** 3 to 3

**ELEC 5688 - Introduction to Nondestructive Testing**
A basic, broad understanding of the principles of nondestructive testing and evaluation is provided. The main objective of this course is to attract students to NDT fields and eventually help address the increasing needs of NDT engineers and technicians. Interaction and collaboration with local NDT industries will also be emphasized. As an introductory course, a broad interdisciplinary knowledge of NDT will be covered in the following sub-areas: Visual, Penetrant, Magnetic Particle, Eddy Current, Microwave, Ultrasonic, and Radiography. Prereq: Graduate standing, or permission of instructor. Cross-listed with ELEC 4688. **Semester Hours:** 3 to 3

**ELEC 5697 - Optical and Spatial Information Processing**
Processing of two- and three-dimensional spatial information. The scalar diffraction theory necessary to describe the information-bearing wave-front. Wave-front recording, modulations, and reconstruction. Holography, Fourier transform properties of lenses, two-dimensional convolution and correlation, pattern recognition, and optical information processing. Prereq: ELEC 3316. **Semester Hours:** 3 to 3

**ELEC 5710 - Advanced Electric Drive Systems**
Covers advanced theory and implementation techniques for rotating electric machinery drives. Topics include field oriented control theory, detailed dynamic modeling of induction machine/drive system, advanced control algorithms and controller design. Prereq: ELEC 4164/5164 or equivalent. **Semester Hours:** 3 to 3

**ELEC 5714 - Energy Systems Analysis**
Transmission line constants, including details of GMD methods, skin effect. Analysis of balanced and unbalanced line using distributed parameters, energy flow from circle diagram approach, traveling-wave phenomena, corona, power cables and fundamentals of DC transmission. Prereq: ELEC 4184. **Semester Hours:** 3 to 3

**ELEC 5720 - Practical Electric Drive Systems**
Covers practical control theory and implementation techniques for electric machine drives for rotating electric machinery using high-performance hardware and software. Topics include machine theory review, power converter, control theory, controller design and actual implementation of an induction machine drive using up-to-date microcontroller hardware and software. Prereq: ELEC 2520, ELEC 4164/5164 or equivalent. **Semester Hours:** 3 to 3

**ELEC 5723 - High Performance Computer Architecture**
High Performance Computer Architecture covers the design of advanced computing systems. In particular, the course includes the design of modern microprocessors, characteristics of the memory hierarchy, and issues involved in multithreading and multicore architectures. Prereq: ELEC 3651 Digital Hardware Design. Cross-listed with ELEC 4723. **Semester Hours:** 3 to 3
ELEC 5725 - Advanced Electric Machinery
Covers theoretical principles and techniques of electric machine analysis focusing on rotating machinery. Topics include various machine definitions, properties and analysis, software tools, and examples. Prereq: ELEC 3164 or equivalent. **Semester Hours:** 3 to 3

ELEC 5727 - Computer Vision & Image Processing Acceleration
Real-time constraints on computer-vision and image processing applications have motivated numerous explorations of multicore architectures to provide more efficiency through hardware parallelism and acceleration. This course undertakes the study of image processing and computer vision algorithms in the context of parallel hardware. Cross-listed with ELEC 4727. **Semester Hours:** 3 to 3

ELEC 5755 - Renewable Energy Systems
This course considers electrical generation using renewable energy sources of a variety of types. While examining many developing technologies, it concentrates on the design and application of photovoltaic and wind electrical generation. It examines current methods of classification of wind and solar sites, and discussed aspects which must be considered when choosing sites for wind or solar installations. It examines photovoltaic and thermal solar technologies, inverter technologies, and their integration into the power grid. Also considered are micro-hydro and fuel cell technologies. Renewable system economics and legislative effects are also discussed. Cross-listed with ELEC 4755. **Semester Hours:** 3 to 3

ELEC 5764 - Power Distribution Systems
Use of per-unit methods to find transient voltage behavior of industrial power systems resulting from motor starting, spotwelders and similar stimuli. System and device responses due to series and shunt capacitors and problems of subharmonics and over-excitation on induction motors. Design of power distribution systems. Prereq: ELEC 4184. **Semester Hours:** 3 to 3

ELEC 5774 - Power Systems Dynamics and Protection
Topics to be covered include: power system dynamic fundamentals, various stability problems, such as angle, frequency and voltage stability; protection of power systems apparatus and protective relays coordination. Prereq: ELEC 4184/5184 or graduate standing. **Semester Hours:** 3 to 3

ELEC 5800 - Special Topics
Intermediate courses of variable title and variable credit, usually offered once by guest lecturers. See current departmental notices for details. **Semester Hours:** 1 to 3

ELEC 5840 - Independent Study: ELEC
Offers the opportunity for independent, creative work. Prereq: Permission of instructor. **Semester Hours:** 1 to 6

ELEC 5980 - Statistical Quality Control
Introduces statistical methods of quality control. Statistical process control, process capability, statistical design of experiments and total quality management. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

ELEC 6800 - Special Topics
**Semester Hours:** 1 to 3

ELEC 6950 - Master's Thesis
**Semester Hours:** 1 to 8
ELEC 6960 - Master's Report
Semester Hours: 1 to 8

ELEC 7800 - Special Topics
Courses of variable title and variable credit, usually offered once by guest lecturers. See current departmental notices for details. Semester Hours: 1 to 3

ELEC 7801 - Special Topics
Semester Hours: 1 to 3

ELEC 7802 - Special Topics
Semester Hours: 1 to 3

ELEC 7803 - Special Topics
Semester Hours: 1 to 3

ELEC 7804 - Special Topics
Semester Hours: 1 to 3

ELEC 7805 - Special Topics
Semester Hours: 1 to 3

ELEC 7806 - Special Topics
Semester Hours: 1 to 3

ELEC 7807 - Special Topics
Semester Hours: 1 to 3

ELEC 7808 - Special Topics
Semester Hours: 1 to 3

ELEC 7809 - Special Topics
Semester Hours: 1 to 3

ELEC 7840 - Independent Study: ELEC
Offers the opportunity for independent, creative work. Prereq: Permission of instructor. Semester Hours: 1 to 6

ELEC 8990 - Doctoral Dissertation
Semester Hours: 1 to 10
Elementary Education Courses (ELED)

ELED 4800 - Curriculum Workshop
Semester Hours: 1 to 4

ELED 5060 - Improvement of Instruction
Designed to assist the educator in the systematic improvement of instruction. Emphasis is on the emergent knowledge related to successful classroom practices, techniques of assessment, analysis, and action related to the improvement of professional skills Semester Hours: 3 to 3

ELED 5140 - Elementary Curriculum: Integrating Language Arts with Literature
Integrating the language arts (reading, writing, listening, speaking) with children's literature. Selection of materials and development and presentation of ways to use children's literature in teaching the language arts. Required for post-baccalaureate p Semester Hours: 3 to 3

ELED 5150 - Elementary Curriculum: Teaching Mathematics, Science and Social Studies
Emphasis is on the role of the classroom teacher in development, implementation, and evaluation of contemporary interdisciplinary curricula. The course demonstrates the relationship between educational theory and classroom pedagogy, and is required for th Semester Hours: 6 to 6

ELED 5160 - Expressive Arts
Familiarizes participants with drama, music, dance, movement, (P E, dance and health) and visual arts. Provides a rationale for the arts in the elementary curriculum and ways in which arts can be integrated into classroom activities. Semester Hours: 3 to 3

ELED 5170 - Community and Interpersonal Relations
Provides an opportunity for students to develop communication and interpersonal skills that enable them to facilitate positive student self-concept and interaction among professional educators, the community, and social groups. Exposes the student to the Semester Hours: 3 to 3

ELED 5200 - Classroom Management
Instructional management, physical management, and behavior management are studied as interactive components in the establishment and maintenance of an effective learning environment. Cross-listed with SECE 5200. Semester Hours: 3 to 3

ELED 5320 - Advanced Language Arts in Elementary School
Current thought, as determined by research and practice in the various areas of the language arts; listening, speaking, reading and writing. Issues, trends, and innovative practices for the practicing teacher. Semester Hours: 3 to 3

ELED 5340 - Multicultural Science Education
This course examines literature in science education related to multicultural issues, topics will be framed by an understanding of equity in diverse, urban classrooms and how it informs curriculum and instruction. Cross-listed with ENVS 5340. Semester Hours: 3 to 3

ELED 5350 - Issues And Problems In Science Education
Emphasis on experimental programs and implementation of the newer programs. Supervision and curriculum development considered. Semester Hours: 3 to 3
ELED 5400 - Contemporary Mathematics for Elementary Schools
Surveys contemporary content and methodology with emphasis on interrelations among topics and techniques for providing learning for conceptual understanding through active problem solving. Cross-listed with MATH 3040. **Semester Hours:** 3 to 3

ELED 5401 - Assessment in Mathematics Education
Curriculum-based assessment focusing on the nature of assessment and its relation to evaluation and grading; teacher-made assessments; valid and authentic assessment; methods for assessing conceptual learning of mathematics, procedures, and problem solving **Semester Hours:** 3 to 3

ELED 5410 - Teaching Numbers and Arithmetic
Teaching methodologies related to arithmetic and its applications. Covers mathematical attitudes, problem solving, math manipulatives, numeration, number concepts, number theory, algorithms, fractions, decimals, calculators and integration of arithmetic **Semester Hours:** 3 to 3

ELED 5411 - Mathematics Education and Gender
Investigates gender-inclusive curriculum and teaching methods, equity and assessment, mathematical life histories, women in mathematics history, women's individual development and voice, single-sex programs and gender differences. **Semester Hours:** 3 to 3

ELED 5415 - Math Science Connections: Indoors
(Primarily for pre-secondary teachers.) Explores science concepts through activities appropriate for middle-grade students. Topics include how the nature of science and mathematics informs pedagogy, national and state standards, gravity, density, electric **Semester Hours:** 3 to 3

ELED 5416 - Math-Science Connections: Outdoor
(Primarily for pre-secondary teachers.) Explores science concepts through outdoor activities appropriate for middle-grade students. Topics include how the nature of science and mathematics informs pedagogy, national and state standards, earth science and **Semester Hours:** 3 to 3

ELED 5417 - Structure of Rational Numbers
Focuses on pedagogical practices that use multiple solution strategies to examine the structure of rational numbers. The assigned problems engage elementary and secondary teachers in investigation of mathematical equivalence, properties, unitization, par **Semester Hours:** 3 to 3

ELED 5418 - Mathematical Modeling
Elementary and secondary teachers explore settings where mathematics is utilized in everyday activities. Teachers create mathematical models to describe events or situations in the world and use a variety of modeling strategies to solve problems. Prereq: **Semester Hours:** 3 to 3

ELED 5419 - Exploring the Structure of Geometry Using Technology
Develops elementary and secondary teachers' conceptual understanding of geometric properties, theorems and axiomatic systems through dynamic computer software investigations. Using the software enhances and extends teachers' ability to solve complex prob **Semester Hours:** 3 to 3

ELED 5430 - Topics in Mathematics Education
An in-depth study of topics such as mathematics and learning, teaching perspectives and practices, mathematics curricula, mathematical topics in education (e.g., geometry, testing, arithmetic), mathematics labs, calculators and computers. (May be repeated **Semester Hours:** 3 to 3
ELED 5440 - Problem Solving and Geometry in the Elementary School
Covers problem solving, spatial visualization, informal geometry, and computer software with emphasis on incorporating these topics into the elementary curriculum. **Semester Hours:** 3 to 3

ELED 5450 - Social Studies in Elementary School
Review and analysis of current innovations and concept formation in the social studies. Involves student development and implementation of materials for trial in classroom instruction. **Semester Hours:** 3 to 3

ELED 5464 - Teaching About Ethnicity, Race and Prejudice
Designed to introduce the nature of racial and ethnic groups, prejudice, discrimination, and ethno violence. It also includes the teaching about these and related topics and deals with resolving problems of intergroup relations in schools and institutions. **Semester Hours:** 3 to 3

ELED 5470 - Introduction to Middle School
Covers history and philosophy of the middle school, organization plans, team teaching, integrating content areas, characteristics of the early adolescent, and classroom management. **Semester Hours:** 3 to 3

ELED 5480 - Museum Studies in Paleontology
A practical laboratory-based course covering aspects of museum studies related to paleontological collections. Students learn how to stabilize and prepare bones removed from fossil quarries; learn molding and casting techniques for bones and fossils; assist. **Semester Hours:** 3 to 3

ELED 5490 - Middle School Curriculum
Explores the unique curriculum requirements of transient youth. Topics include team teaching, interdisciplinary curricula, flexible scheduling, basic skills development, guidance functions, fine arts, practical arts, industrial arts, career education, teams. **Semester Hours:** 3 to 3

ELED 5510 - Teacher Leadership: Theory to Reality
Working with colleagues in schools to make a difference as a team member and a change agent requires knowledge and skills that are "more than teachers, yet different from administrators" (Danielson, 2006). This course will provide teachers with skill building. **Semester Hours:** 3 to 3

ELED 5520 - Teacher Leadership: Essential Knowledge
Teacher leaders need expertise about what constitutes a quality curriculum and how best to guide others to develop lessons with assessments that reflect essential standards. They use culturally responsive and differentiated teaching strategies to assure the development of effective school-based health education programs. **Semester Hours:** 3 to 3

ELED 5530 - Teacher Leadership: Vital Skills
Teacher leaders need skills in collaboration, facilitation and coaching in order to work with colleagues in ways that will optimally impact student learning. This course will provide theory and practice in models of adult learning, professional development. **Semester Hours:** 3 to 3

ELED 5540 - Foundations of School Health Education
This course is an overview of the principles of behavior theory as they relate to health education in both theory and practice. The course will examine the characteristics of effective school-based health education programs. Issues of ethnicity, culture. **Semester Hours:** 3 to 3
ELED 5550 - Curriculum Materials in Health Education
This course will support the application of behavior theory as it applies to specific health content knowledge and skills. Special attention will be given to the skills, instructional strategies, and techniques needed to develop a culturally responsive Semester Hours: 3 to 3

ELED 5560 - Health Education Teaching Practices
The course provides an overview of health education teaching and learning strategies for use in school settings. Action research will be introduced and utilized as a method to examine current teaching practices. Role-play, student assessment development Semester Hours: 3 to 3

ELED 5660 - Energy Education
Explores current energy problems. Students examine such topics as fuels from plants, fuels from wastes, fossil fuels, nuclear energy, wind energy, geothermal energy, solar energy, and energy conservation. Includes demonstration of available educational resources Semester Hours: 3 to 3

ELED 5775 - Knowledge of Teaching
Designed for experienced teachers. This course assists them to update their knowledge of research on teaching and extend their use of research findings in their classroom teaching. Prereq: Teaching certificate. Semester Hours: 1 to 3

ELED 5780 - Storytelling
Explores the history, function, philosophy and techniques of storytelling. Includes collecting, selecting, preparing, developing and delivering stories. Research and resources are emphasized. Semester Hours: 1 to 4

ELED 5800 - Curriculum Workshop for Elementary Teachers
Opportunity to work on projects and problems in the school in which the student is employed: conferences, study groups, discussion, and work in curriculum construction. Topics and credit hours vary. Prereq: 18 semester hours in education and teaching experience Semester Hours: 0.5 to 4

ELED 5840 - Independent Study
Semester Hours: 1 to 4

ELED 5910 - Advanced Practicum: Elementary
This course is not to be used as an independent study, it is to be used by students approved in advance by the director of teacher education. Prereq: Permission of instructor. Fulfills the student teaching requirement for students seeking a second endorsement Semester Hours: 1 to 4

ELED 5920 - Readings in Elementary Education
Semester Hours: 1 to 4

ELED 5930 - Internship in Elementary Education
Semester Hours: 1 to 8

ELED 6100 - Seminar: Elementary Education
Students work on individual topics and report orally and in writing. Semester Hours: 3 to 3
ELED 6110 - Science and Math Curriculum Studies
Students examine frameworks for curriculum design, discuss the psychological and philosophical foundations of curricula, and analyze the curriculum that they use in their own teaching. Students synthesize what teachers must do in order to effectively imp Semester Hours: 3 to 3

ELED 6120 - International Perspectives on the Curriculum
Considers schooling patterns in the U.S., the U.K., Japan, Australia and several European countries. Examines different approaches to curriculum issues in relation to social, historical and economic factors. Prereq: FNDS 5500 or permission of instructor. Semester Hours: 3 to 3

ELED 6600 - Special Topics: Laboratory in Educational Leadership and Innovation
Laboratories are organized by professors to engage students in on-going research programs. They provide opportunities for students to extend and apply knowledge and skills developed in course work. The laboratories enable students to complete portfolio re Semester Hours: 1 to 6

ELED 6950 - Master’s Thesis
Semester Hours: 4 to 4

ELED 7600 - Special Topics: Laboratory in Educational Leadership and Innovation
Laboratories are organized by professors to engage students in on-going research programs. They provide opportunities for students to extend and apply knowledge and skills developed in course work. The laboratories enable students to complete portfolio re Semester Hours: 1 to 6

ELED 7840 - Independent Study: ELED
Semester Hours: 1 to 3
English Courses (ENGL)

ENGL 1010 - Writing Workshop
Focuses on the abilities and skills needed to write effective expository prose. Emphasizes frequent writing, both in and out of class, with special attention to writing short essays well. Writers learn to write confidently at the sentence and paragraph levels, and to develop their grammatical and mechanical skills. **Semester Hours:** 3 to 3

ENGL 1020 - Core Composition I
Provides opportunities to write for different purposes and audiences, with an emphasis on learning how to respond to various rhetorical situations; improving critical thinking, reading, and writing abilities; understanding various writing processes; and gaining a deeper knowledge of language conventions. **Semester Hours:** 3 to 3

ENGL 1050 - Vocabulary for Professionals
Studies English words derived from Latin and Greek by analyzing their component parts (prefixes, stems, and suffixes). Cross-listed with LATN 1050. **Semester Hours:** 3 to 3

ENGL 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

ENGL 1200 - Introduction to Fiction
Introduces class members to the works of famous authors as well as to major themes, elements, and techniques of fiction in both short stories and novels. **Semester Hours:** 3 to 3

ENGL 1400 - Literary Studies
Helps students develop a sense of literary techniques and issues so they can bring an improved critical sensibility to their reading and writing. Note: Designed for students who are seriously interested in literature. Prereq or Coreq: ENGL 1020. **Semester Hours:** 3 to 3

ENGL 1601 - Telling Tales: Narrative Art in Literature and Film
Asks students to explore how stories determine who we are. Everything people do fits into a narrative pattern, evident everywhere from TV news to memory to daily schedules. We tell ourselves stories about ourselves and others—how do these stories shape who we are as cultural beings? Prereq or Coreq: ENGL 1020. **Semester Hours:** 3 to 3

ENGL 2030 - Core Composition II
Focuses on academic and other types of research-based writing and builds on the work completed in ENGL 1020. Focuses on critical thinking, reading and writing as well as working with primary and secondary source material to produce a variety of research-based essays. Emphasis on using both print-based and electronic-based information. Prereq: ENGL 1020. **Semester Hours:** 3 to 3

ENGL 2060 - Introduction to Writing Studies
Introduces students to the topics of study in the English Writing major. Topics include writing studies (literacy, genre, research, and multimodality), rhetoric (history and theory), and the teaching of writing (pedagogy and practice). Prereq: ENGL 1020 **Semester Hours:** 3 to 3

ENGL 2070 - Grammar, Rhetoric and Style
Teaches the basics of English grammar in order to develop a rhetorical and stylistic confidence in reading and writing, using an approach that is more descriptive than prescriptive. Teaches students how to
evaluate the grammatical choices of established writers and how to develop flexibility in the grammatical choices they make in their own writing. Prereq: ENGL 1020 or equivalent. **Semester Hours:** 3 to 3

**ENGL 2154 - Introduction to Creative Writing**
Reading, discussing, writing short fiction and poetry in a workshop setting. Prereq: ENGL 1020. **Semester Hours:** 3 to 3

**ENGL 2250 - Introduction to Film**
Introduces students to the critical study of cinema as an art form and a cultural phenomenon. Topics include cinematography, editing, mise-en-scene and sound; the connections between cinema and related art forms; film genres; the social dimensions of film production and reception; and films by such key filmmakers as Alfred Hitchcock, Maya Deren and Spike Lee. **Semester Hours:** 3 to 3

**ENGL 2300 - Topics in Literature and Film**
Courses supplement the regular program of the department, offering such topics as: literary perceptions of motherhood, Asian-American literature, literary classics of science, and contemporary women writers. Note: Can be taken more than once if topics vary. **Semester Hours:** 3 to 3

**ENGL 2310 - Topics in Literature and Film**

**ENGL 2320 - Topics in Literature and Film**

**ENGL 2330 - Topics in Literature and Film**

**ENGL 2340 - Topics in Literature and Film**

**ENGL 2390 - Writing the Short Script**
Examines narrative screenwriting elements--premise, theme, conflict, protagonist/antagonist, setting/situation, dialogue, plot structure, imagery--required to create a strong narrative short film. Prereq: ENGL 1020. **Semester Hours:** 3 to 3

**ENGL 2415 - Introduction to Movie Writing**
Examines structural and dramatic elements required to write a feature-length screenplay. Students conceptualize, plan, write and then re-write to complete the first ten pages of their own feature-length screenplay. **Semester Hours:** 3 to 3

**ENGL 2450 - Introduction to Literature**
Provides the terms and skills for analyses of a variety of narratives. Develops critical thinking, reading, and writing necessary for succeeding in the discipline. Prereq: ENGL 1020. Note: required introductory course for English majors, English minors, and English education. **Semester Hours:** 3 to 3

**ENGL 2510 - Greek and Roman Mythology**
Surveys influential literature from Greece and Rome. Among the Greek works are Homer's epics, Sophocles's tragedies, Plato's and Aristotle's philosophical writings. Among the Roman works are the writings of Vergil, Ovid, the elegists and historians. a brief look at Augustine's writings concludes the course. **Semester Hours:** 3 to 3
ENGL 2520 - The Bible as Literature
Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with RLST 2700. **Semester Hours:** 3 to 3

ENGL 2600 - Great Works in British and American Literature
Traces the traditions of British and American literature from medieval times to the present, by examining a variety of texts, studying the impact of different time periods, and cultural movements on the evolving literary tradition. **Semester Hours:** 3 to 3

ENGL 2840 - Independent Study: ENGL
**Semester Hours:** 1 to 3

ENGL 3001 - Critical Writing
Introduces literary theory to provide extensive practice in writing about literature. Note: Required of English majors and minors with a literature option and education English majors. Prereq: ENGL 2450. **Semester Hours:** 3 to 3

ENGL 3020 - Poetry Workshop
Practical workshop for developing poetic craft, focusing on writing process and specialized topics. **Semester Hours:** 3 to 3

ENGL 3050 - Fiction Workshop
Beginning workshop for defining and developing narrative craft, focusing on writing process and specialized topics. **Semester Hours:** 3 to 3

ENGL 3070 - Film History I
Examines the history of cinema from its 19th-century origins until the early sounds era. Explores important developments and influences in American and international cinema, including the origins of Hollywood narrative, avant-garde cinema, German Expressionism, and Soviet Cinema. Prereq: Must have 30 semester hours or permission of the instructor. **Semester Hours:** 3 to 3

ENGL 3075 - Film Genres
An intensive study of films of one or more significant genres, such as comedy, film noir, science fiction. Prereq: Must have 30 semester hours or permission of the instructor. Note: May be taken more than once when genres vary. **Semester Hours:** 3 to 3

ENGL 3080 - Film History II
Examines world cinema from 1938 to the present, with examples from major movements and directors--such as Film Noir, Italian Neo-Realism, the French New Wave, Jean Renoir, Agnes Varda, John Ford, Alfred Hitchcock and Werner Herzog. Prereq: Must have 30 semester hours or permission of the instructor. **Semester Hours:** 3 to 3

ENGL 3084 - Multimedia Composition
Offers students opportunities to examine and compose texts where language is integrated with other media, such as video, still images, music, etc. Includes basic instruction in digital multimedia composition and design tools. ENGL 2070 recommended. Prereq: Must have completed 45 credit hours. **Semester Hours:** 3 to 3
ENGL 3085 - Film Directors
An intensive study of the films of one or more major directors, such as Chaplin, Keaton, Hitchcock, Welles, Coen Brothers. Prereq: Must have 30 semester hours or permission of the instructor. Note: May be taken more than once when directors vary. Semester Hours: 3 to 3

ENGL 3106 - Advocate Practicum
Hands-on course introduces writers to the UCD student newspaper "The Advocate," and allows students to write and edit more effectively. Students work with faculty, professionals, and student editors to practice and produce writing for actual publication. Prereq: ENGL 2030. Semester Hours: 3 to 3

ENGL 3154 - Technical Writing
Introduces the study and writing of technical documents. Emphasizes the processes, style, structure, and forms of technical writing. Attention is paid to audience analysis, organization, clarity and precision. ENGL 2070 recommended. Prereq: Must have completed 45 credit hours. Semester Hours: 3 to 3

ENGL 3160 - Language Theory
Provides a basic introduction to linguistics and language theory, including phonetics, grammar, semantics, pragmatics, sociolinguistics, cognitive processing, and language acquisition. Includes practical applications of the theories and methodologies presented. ENGL 2070 recommended. Prereq: Must have completed 45 credit hours. Semester Hours: 3 to 3

ENGL 3170 - Business Writing
Focuses on the strategies and techniques of business writing, with emphasis on reader, message and form. ENGL 2070 recommended. Prereq: Must have completed 45 credit hours. Semester Hours: 3 to 3

ENGL 3200 - From Literature to Film
Explores the relationship between literature and cinema; the process of adapting and transforming a novel into a feature-length film; and the historical, cultural, and commercial influences that shaped the creation of each novel and film studied. Prereq: Must have 30 semester hours or permission of the instructor. Semester Hours: 3 to 3

ENGL 3300 - Topics in Film
Courses supplement the department's regular course offerings. Recent topics have included women and film, movies as history and film comedy. Prereq: Must have 30 semester hours or permission of the instructor. Note: Open to both majors and non-majors. Can Semester Hours: 3 to 3

ENGL 3310 - Topics in Film
Semester Hours: 3 to 3

ENGL 3320 - Topics in Film
Semester Hours: 3 to 3

ENGL 3330 - Topics in Literature
Courses supplement the department's regular course offerings. Recent topics have included Tolkien and international short stories. Prereq: Must have 30 semester hours or permission of the instructor. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. Semester Hours: 3 to 3

ENGL 3340 - Topics in Literature
Semester Hours: 3 to 3
ENGL 3350 - Topics in Literature
Semester Hours: 3 to 3

ENGL 3405 - Topics in Writing
Semester Hours: 3 to 3

ENGL 3415 - Screenwriting Workshop
Continues and expands ENGL 2415. By the end of ENGL 3415, students have completed the first two acts of their screenplay. Note: May be repeated a second time in a different semester to complete entire screenplay. Semester Hours: 3 to 3

ENGL 3416 - Magazine Writing
An intensive, practical course in writing non-fiction with an emphasis on journalistic approaches for daily, weekly, and monthly publications. Prereq: ENGL 1020. Semester Hours: 3 to 3

ENGL 3417 - Writing for the Mass Media
Students will examine public relations writing techniques and journalistic style, public relations theory and ethics, and practical client work. Prereq: ENGL 1020. Semester Hours: 3 to 3

ENGL 3417 - Modern Drama
How does drama change from the pioneering realism of Ibsen and Chekhov to the Absurdism of Ionesco and Pinter and beyond? The course covers plays in English and translation from the late nineteenth to the twenty-first century, with attention to performance as well as literary texts. Prereq: Must have 30 hours or the permission of the instructor. Cross-listed with WGST 3450. Semester Hours: 3 to 3

ENGL 3480 - American Literature to the Civil War
Surveys American literature from the colonial era to the Civil War. Prereq: ENGL 1020. Semester Hours: 3 to 3

ENGL 3520 - Religious Narratives
Investigates the language and structure of religious discourse in Western literature. Welcomes interdisciplinary and comparative perspectives with a focus on cultural constructions of the sacred. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with RLST 3720. Semester Hours: 3 to 3

ENGL 3661 - Shakespeare
Introduces some of Shakespeare's major plays and poems, which usually includes Richard II, Romeo and Juliet, Measure for Measure, Othello, King Lear, Anthony and Cleopatra and The Tempest. Prereq: Must have 30 semester hours or permission of the instructor. Semester Hours: 3 to 3

ENGL 3700 - American Literature after the Civil War
Surveys American literature from the Civil War to the contemporary era. Prereq: ENGL 1020. Semester Hours: 3 to 3
ENGL 3795 - Race and Ethnicity in American Literature
Focuses alternately on one of several ethnic American literary traditions (e.g. African American, Chicano) and their historical, geographical, social and economic communities. **Semester Hours:** 3 to 3

ENGL 3798 - International Perspectives in Literature and Film
Fosters an understanding of peoples outside of the U.S. through the study and appreciation of non-western literature. Investigates how historical, cultural, and ideological forces constitute race, ethnicity, nationalism, and alienation in a single country or across a region. Topic and country/region varies by semester. Note: May be repeated for credit when title and content are different. All texts in English translation. **Semester Hours:** 3 to 3

ENGL 3840 - Independent Study: ENGL
Prereq: Must have 30 semester hours or permission of the instructor. **Semester Hours:** 1 to 3

ENGL 3939 - Internship
Employment situations designed and supervised by members of the faculty; concepts and skills developed in the classroom are used in business and public service contexts. Prereq: Junior standing and 2.75 grade-point average. Before enrolling, students should contact the Career Center. Note: Up to six hours may be counted toward the major. **Semester Hours:** 1 to 3

ENGL 3995 - Travel Study
An intensive course focusing on cinematic, literary, or rhetorical topics enriched through travel. Subtitles reflect specific area of concentration. Students may repeat course with different topics. Registration is through the Office of International Affairs. **Semester Hours:** 3 to 6

ENGL 4000 - Studies of Major Authors
An intensive study of works of one major British or American author. Examples: Dickens, Woolf or James. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5000. **Semester Hours:** 3 to 3

ENGL 4025 - Advanced Poetry Workshop
Advanced poetic craft, including exercises in mode, genre and advanced revision. Prereq: ENGL 3020 (or equivalent) for English majors and minors only; all others must obtain permission of instructor. **Semester Hours:** 3 to 3

ENGL 4055 - Advanced Fiction Workshop
Advanced workshop for developing and deepening narrative craft, focusing on writing process and specialized topics. Prereq: ENGL 3050, English major and minor only; all others must obtain permission of instructor. **Semester Hours:** 3 to 3

ENGL 4080 - History of English Language
Examines how English has changed since A.D. 800 through examples of writing from different periods, with attention to the way various groups have enriched our vocabulary and altered our syntax. Prereq: ENGL 2070 or one year of a college foreign language. Cross-listed with ENGL 5080. **Semester Hours:** 3 to 3

ENGL 4088 - Literary Editing: Copper Nickel
Literary editing in theory and practice, using UCD's nationally recognized journal "Copper Nickel." Topics may include evaluating fiction, poetry and nonfiction; design and aesthetics; line editing; the...
ENGL 4160 - Poetics
"Mechanics" of poetry in English, including meter, rhythm, rhyme, line, and other systems of measurement and logic. Emphasis is on historical development of poetic art in English. Prereq: ENGL 1400 or permission of instructor. Cross-listed with ENGL 5160. Semester Hours: 3 to 3

ENGL 4166 - History of American Poetry
Examines major American poets and poetic trends from the colonial period to the present, with attention to cultural contexts and to development of distinctively American practices. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5166. Semester Hours: 3 to 3

ENGL 4180 - Argumentation and Logic
Explores the history of logic and its role in argumentation, studies various types of logical structures, and analyzes current uses of argumentation, with attention to writing arguments on current public issues. ENGL 3084 recommended. Prereq: Must have completed 60 credit hours. Semester Hours: 3 to 3

ENGL 4190 - Special Topics in Rhetoric and Writing
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. ENGL 3084 recommended. Prereq: Must have completed 60 semester hours. Cross-listed with ENGL 5190. Semester Hours: 3 to 3

ENGL 4200 - History of the English Novel I
Rise and development of the English novel from its beginnings in the 18th century through the mid-19th century, including such writers as Defoe, Fielding, Austen and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5200. Semester Hours: 3 to 3

ENGL 4210 - History of the English Novel II
Overview of the English novel from mid-19th century to World War II, emphasizing the important developments which the form underwent in the hands of notable novelists, including Charles Dickens, the Brontes, George Eliot, Henry James, Joseph Conrad, D.H. Lawrence and Virginia Woolf. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5210. Semester Hours: 3 to 3

ENGL 4220 - African-American Literature
Surveys African-American literature with special emphasis on post-Civil War writing. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5220, ETST 4220. Semester Hours: 3 to 3

ENGL 4230 - The American Novel
Surveys major developments in the American novel from the 18th century to the 21st century. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5230. Semester Hours: 3 to 3

ENGL 4235 - Faulkner
Studies the works of Faulkner's high period with special attention to southern themes and Faulkner's experimentation with narrative form. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5235. Semester Hours: 3 to 3
ENGL 4236 - The American Short Story
Traces the development of the short story in the United States, from its beginnings in colonial tales to its contemporary renaissance as a dominant literary form. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5236. **Semester Hours:** 3 to 3

ENGL 4240 - Topics in Contemporary American Literature
Seminar focusing on a segment of contemporary American literature. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5240. **Semester Hours:** 3 to 3

ENGL 4250 - Twentieth Century Fiction
Deals with novels originating in a variety of countries in an effort to see the similarities and differences that varying nationalities bring to the genre. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5250. **Semester Hours:** 3 to 3

ENGL 4280 - Proposal and Grant Writing
Focuses on research, design, composition, and editing original proposals. Includes idea development, identification of funding sources, and the creation of persuasive documents. ENGL 3084 recommended. Prereq: Must have completed 60 semester hours. Cross-listed with ENGL 5280. **Semester Hours:** 3 to 3

ENGL 4290 - Rhetoric and the Body
Investigates the relationship between rhetoric and the body, with attention to theoretical and practical implications. Welcomes interdisciplinary perspectives, and often considers rhetorical topics from historical, medical, disability studies, economic, and/or gendered perspectives. **Semester Hours:** 3 to 3

ENGL 4300 - History of British Drama
Intended as a survey of British drama from the miracle plays of the medieval period, through the Renaissance and Restoration, to the "kitchen sink" realists of the 1960s. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5300. **Semester Hours:** 3 to 3

ENGL 4306 - Survey of Feminist Thought
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 5306, HIST 4306, 5306, WGST 4306, 5306. **Semester Hours:** 3 to 3

ENGL 4320 - History of Poetry in English
Studies the major schools and eras of English prosody, including the poetry of Great Britain and the United States, from the medieval period to the present. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5320. **Semester Hours:** 3 to 3

ENGL 4350 - History of American Drama
Studies American drama from its foundations in the 18th century through movements including realism, expressionism, symbolism, agit-prop, black nationalism, feminism, and performance art. Drama read as both text and performance, as sometimes supporting the status quo and as sometimes subverting it. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5350. **Semester Hours:** 3 to 3
ENGL 4400 - Old English I
Instruction in the Old English language. Prereq: Must have 30 semester hours or permission of the instructor. One year of college foreign language or ENGL 2070 recommended. Cross-listed with ENGL 5400. **Semester Hours:** 3 to 3

ENGL 4410 - Old English II: Beowulf
Continuing training in the reading of Old English and intensive reading of Beowulf. Prereq: ENGL 4400 or 5400. Cross-listed with ENGL 5410. **Semester Hours:** 3 to 3

ENGL 4420 - Film Theory and Criticism
(1) Familiarizes students with some of the central concepts and debates in film theory and criticism, both classic and contemporary, (2) enables students to develop advanced analytic and interpretive skills, and (3) guides students toward discovering and articulating original critical and theoretical perspectives. Prereq: ENGL 2250 and 3070, 3080 or permission of instructor. Cross-listed with ENGL 5420. **Semester Hours:** 3 to 3

ENGL 4460 - Contemporary World Literature
Surveys literature written by world writers since World War II. Prereq: Must have 30 semester hours or permission of the instructor. Note: Texts read in English. Cross-listed with ENGL 5460. **Semester Hours:** 3 to 3

ENGL 4500 - Medieval Literature
Introduces representative writers from the Norman Conquest to about 1550. Emphasis on a variety of genres, including religious poetry, Arthurian romance, dream vision and drama. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5500. **Semester Hours:** 3 to 3

ENGL 4510 - Whores and Saints: Medieval Women
Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 5510, RLST 4730/5730, WGST 4510/5510. **Semester Hours:** 3 to 3

ENGL 4520 - English Renaissance
Introduces some of the important writers in this major period of English literature (1500-1660). Special attention to the works of Sidney, Milton, Spenser, Shakespeare, Donne, Herbert and Johnson. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5520. **Semester Hours:** 3 to 3

ENGL 4530 - Milton
Extensive reading in John Milton's poetry (Lycidas, Paradise Lost, Paradise Regained, Samson Agonistes) as well as his political, social and theological writings. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5530. **Semester Hours:** 3 to 3

ENGL 4540 - Restoration and the 18th Century
Introduces some of the important writers of the "Age of Reason." Emphasis on such figures as Bunyan, Burke, Dryden, Johnson, Pope and Swift. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5540. **Semester Hours:** 3 to 3
ENGL 4560 - English Romanticism
Studies major works of the chief English writers of the first part of the 19th century, with emphasis on such representative figures as Wollstonecraft, Godwin, Blake, Wordsworth, Coleridge, Hazlitt, Byron, Keats and Shelley. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5560. **Semester Hours:** 3 to 3

ENGL 4580 - The Victorian Age
Examines the main currents of Victorian thought in prose and poetry from about 1830 to the end of the century, including such writers as Browning, Carlyle, Mill, Newman, Ruskin, Swinburne and Tennyson. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5580. **Semester Hours:** 3 to 3

ENGL 4600 - Modernism
Modernist literature from the beginning of the 20th century through World War II, including such writers as Eliot, Joyce, Forester, Ford, Yeats, Woolf and Barnes. Examines the social-political influences as well as the aesthetic and stylistic elements which define modernist writing. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5600. **Semester Hours:** 3 to 3

ENGL 4601 - Principles and Practices of Second Language Acquisition
Overview of basic principles and practices in the learning and teaching of English as a second language. ENGL 3160 recommended. Prereq: Must have completed 60 semester hours, or instructor permission. Cross-listed with ENGL 5601. **Semester Hours:** 3 to 3

ENGL 4610 - Narrative: Form and Theory
A critical and theoretical exploration of the elements of narrative - e.g., plot, character, dialogue, discourse - in literature and film. This course is especially useful for fiction-writing students in the Creative Writing Track. Prereq: ENGL 2450. Cross **Semester Hours:** 3 to 3

ENGL 4651 - Second Language Writing
Topics include: similarities between first & second language writing, the processes of composition & revision, teacher response to student writing, student processing of feedback, writing assessment, and the reading/writing connection. ENGL 3160 recommended. Prereq: Must have completed 60 credit hours. Cross-listed with ENGL 5651. **Semester Hours:** 3 to 3

ENGL 4720 - Honors in English
Designed for students taking departmental honors in English. Prereq: Students must have written permission from the honors advisor. **Semester Hours:** 1 to 3

ENGL 4730 - Chaucer
Extensive reading in Chaucer's works in Middle English, including his lyrics, dream visions, Troilus and Criseyde, and the Canterbury Tales. Examines sources, historical and ideological factors influencing the texts. Prereq: 30 semester hours or permission of the instructor. Cross-listed with ENGL 5730. **Semester Hours:** 3 to 3

ENGL 4735 - Philosophy and Literature
Considers the philosophical dimensions of literature. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5735, PHIL 4730, 5730. **Semester Hours:** 3 to 3
ENGL 4740 - Honors in Writing
Designed for students taking departmental honors in English writing. Prereq: Student must have written permission from honors director and faculty advisor. **Semester Hours:** 1 to 3

ENGL 4745 - Humanistic Writing About Medicine and Biology
Investigates medical and biological writing over the last two centuries with an emphasis on reception, ethical issues, and the differences between professional and popular writing. Prereq: Must have 30 hours or the permission of the instructor for ENGL 4745. Cross-listed with 5745. **Semester Hours:** 3 to 3

ENGL 4770 - Topics in English: Film and Literature
May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Prereq: Must have 30 semester hours or permission of the instructor. Cross-listed with ENGL 5770. **Semester Hours:** 3 to 3

ENGL 4800 - Special Topics in Creative Writing
Writing-intensive courses combining reading, directed writing, peer- and instructor-led workshops in a topic to be determined by instructor. Topics may include projects in a specialized genre, such as science fiction or noir writing, or in a field of prof **Semester Hours:** 3 to 3

ENGL 4810 - Literary Editing Practicum
Practicum for students interested in editing in a literary field, e.g., literary magazines, book manuscripts, anthology projects. Each semester the parameter of the practicum will be set by the instructor. Prereq: English majors and minors. All other **Semester Hours:** 3 to 3

ENGL 4820 - Senior Poetry Workshop
Capstone workshop for students within the Creative Writing major track or Creative Writing minor. Emphasis on a single, sustained project developed by the student. Prereq: ENGL 3020 and 4025 for English majors. All other students must obtain permission **Semester Hours:** 3 to 3

ENGL 4830 - Advanced Rhetorical Analysis
Immerses students in advanced methods for conducting rhetorical analysis and for reading critically. Students are expected to learn multiple frameworks for performing analysis on rhetorical artifacts. **Semester Hours:** 3 to 3

ENGL 4840 - Independent Study: ENGL
**Semester Hours:** 1 to 3

ENGL 4850 - Senior Fiction Workshop
Capstone workshop designed to deepen the understanding of narrative, and consciously apply the strategies of narrative craft to modern markets. Course will focus on the writing and publishing processes, culminating in a classroom narrative defense and sub **Semester Hours:** 3 to 3

ENGL 4920 - Directed Readings
Explores an area of English literature not covered in regular course work. Note: May be taken as a precursor to honors essay, in which case student should consult with the honors advisor. Prereq: Senior status. **Semester Hours:** 3 to 6
ENGL 4990 - Senior Writing Project in Creative Writing or Film Studies
Individual writing project consisting of a creative manuscript or critical study. Manuscript must be 30 pages of high quality text. Note: Available only to students in the creative writing and film tracks. Prereq: Senior standing. Semester Hours: 3 to 3

ENGL 4991 - Senior Seminar in Writing
Students focus on rhetorical studies through extensive reading, writing, discussion, and reflection upon their own literacy practices. Students produce individual and collaborative writing projects for a final portfolio. Prereq: ENGL 3084, senior standing and EWRT majors. Semester Hours: 3 to 3

ENGL 4995 - Senior Writing Project
Individual writing project in any genre and any discipline upon approval of faculty advisor. Manuscript must be 30 pages of high quality text. Prereq: Senior standing. Semester Hours: 3 to 3

ENGL 4999 - Literary Studies Senior Seminar
Allows students to pursue, learn, and apply advanced methodologies such as bibliographical, archival/historical, or cultural and ideological, and apply them to a single author, genre, or period of text. Students engage in research under the tutelage of the Semester Hours: 3 to 3

ENGL 5000 - Studies of Major Authors
An intensive study of works of one major British or American author. Examples: Dickens, Woolf or James. Cross-listed with ENGL 4000. Semester Hours: 3 to 3

ENGL 5001 - Special Topics
This variable credit course offers intensive study of the teaching of writing in a collaborative action-oriented approach. Semester Hours: 1 to 6

ENGL 5080 - History of the English Language
Examines how English has changed since A.D. 800 through examples of writing from different periods, with attention to the way various groups have enriched our vocabulary and altered our syntax. Prereq: ENGL 2070 or one year of a college foreign language. Cross-listed with ENGL 4080. Semester Hours: 3 to 3

ENGL 5093 - Teaching of Writing
Deals with the analysis of rhetorical theory with an emphasis on practical applications in the classroom, with attention to alternative pedagogies in teaching. Semester Hours: 3 to 3

ENGL 5100 - Literary Research and Writing
Designed to prepare students for graduate scholarship and writing in literature; should be taken soon after entering the program. Introduction to the research methodologies of literary scholarship as well as the practical strategies and the formal and stylistic standards for writing graduate-level analytical-interprettive essays. Prereq: Must be enrolled or accepted into the MA in English, Literature Option program. Semester Hours: 3 to 3

ENGL 5110 - Denver Writing Project
An intensive extended workshop in the development of one's personal and professional writing and in the teaching of writing. Open to those who are members of the Denver Writing Project. Semester Hours: 3 to 9
ENGL 5120 - Denver Writing Project Advanced Institute
Advanced institutes provide intensive examination of an issue related to the teaching of writing. The specific issues are of two kinds--repeatable ones such as "Alumni Institute" and "Writing Retreat" and variable, such as "Action Research" and "Writing Across the Curriculum." **Semester Hours:** 1 to 1

ENGL 5150 - Research Methods
Designed to prepare students for graduate scholarship in language, literacy, and the teaching of writing; should be taken soon after entering the program. Introduction to the research methods and stylistic standards for graduate-level writing. Prereq: graduate student standing **Semester Hours:** 3 to 3

ENGL 5160 - Poetics
"Mechanics" of poetry in English, including meter, rhythm, rhyme, line, and other systems of measurement and logic. Emphasis is on historical development of poetic art in English. Prereq: ENGL 1400 or permission of instructor. Cross-listed with ENGL 4160. **Semester Hours:** 3 to 3

ENGL 5166 - History of American Poetry
Examines major American poets and poetic trends from the colonial period to the present, with attention to cultural contexts and to development of distinctively American practices. Cross-listed with ENGL 4166. **Semester Hours:** 3 to 3

ENGL 5171 - Language Theory
Introduces linguistic theory to the beginning graduate student. Builds upon the material included in the undergraduate class, by adding materials pertaining to the teaching of writing and graduate language studies. **Semester Hours:** 3 to 3

ENGL 5190 - Special Topics in Rhetoric and Writing
Focuses on particular issues in rhetoric and writing as they pertain to reading and writing, including language and gender, language and culture, and language of political action. Cross-listed with ENGL 4190. **Semester Hours:** 3 to 3

ENGL 5200 - History of the English Novel I
Rise and development of the English novel from its beginnings in the 18th century through the mid-19th century, including such writers as Defoe, Fielding, Austen and Shelley. Cross-listed with ENGL 4200. **Semester Hours:** 3 to 3

ENGL 5210 - History of the English Novel II
Overview of the English novel from mid-19th century to World War II, emphasizing the important developments which the form underwent in the hands of notable novelists, including Charles Dickens, the Brontes, George Eliot, Henry James, Joseph Conrad, D.H. Lawrence and Virginia Woolf. Cross-listed with ENGL 4210. **Semester Hours:** 3 to 3

ENGL 5220 - African-American Literature
Surveys African-American literature with special emphasis on post-Civil War writing. Cross-listed with ENGL 4220, ETST 4220. **Semester Hours:** 3 to 3

ENGL 5230 - The American Novel
Surveys major developments in the American novel from the 18th century to the 21st century. Cross-listed with ENGL 4230. **Semester Hours:** 3 to 3
ENGL 5235 - Faulkner
Studies the works of Faulkner's high period with special attention to southern themes and Faulkner's experimentation with narrative form. Cross-listed with ENGL 4235. **Semester Hours:** 3 to 3

ENGL 5236 - The American Short Story
Traces the development of the short story in the United States, from its beginnings in colonial tales to its contemporary renaissance as a dominant literary form. Cross-listed with ENGL 4236. **Semester Hours:** 3 to 3

ENGL 5240 - Topics In Contemporary American Literature
Seminar focusing on a segment of contemporary American literature. Cross-listed with ENGL 4240. **Semester Hours:** 3 to 3

ENGL 5250 - Twentieth Century Fiction
Deals with novels originating in a variety of countries in an effort to see the similarities and differences that varying nationalities bring to the genre. Cross-listed with ENGL 4250. **Semester Hours:** 3 to 3

ENGL 5280 - Proposal and Grant Writing
Focuses on research, design, composition, and editing original proposals. Includes idea development, identification of funding sources, and the creation of persuasive documents. Prereq: ENGL 1020. Cross-listed with ENGL 4280. **Semester Hours:** 3 to 3

ENGL 5300 - History of British Drama
Intended as a survey of British drama from the miracle plays of the medieval period, through the Renaissance and Restoration, to the "kitchen sink" realists of the 1960s. Cross-listed with ENGL 4300. **Semester Hours:** 3 to 3

ENGL 5306 - Survey of Feminist Thought
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, HIST 4306, 5306, WGST 4306, 5306. **Semester Hours:** 3 to 3

ENGL 5320 - History of Poetry in English
Studies the major schools and eras of English prosody, including the poetry of Great Britain and the United States, from the medieval period to the present. Cross-listed with ENGL 4320. **Semester Hours:** 3 to 3

ENGL 5350 - History of American Drama
Studies American drama from its foundations in the 18th century through movements including realism, expressionism, symbolism, agit-prop, black nationalism, feminism, and performance art. Drama read as both text and performance, as sometimes supporting the status quo and as sometimes subverting it. Cross-listed with ENGL 4350. **Semester Hours:** 3 to 3

ENGL 5400 - Old English I
Instruction in the Old English language. One year of college foreign language or ENGL 2070 recommended. Cross-listed with ENGL 4400. **Semester Hours:** 3 to 3
ENGL 5410 - Old English II: Beowulf
Continuing training in the reading of Old English and intensive reading of Beowulf. Prereq: ENGL 5400 or 4400. Cross-listed with ENGL 4410. **Semester Hours:** 3 to 3

ENGL 5420 - Film Theory and Criticism
(1) Familiarizes students with some of the central concepts and debates in film theory and criticism, both classic and contemporary, (2) enables students to develop advanced analytic and interpretive skills, and (3) guides students toward discovering and articulating original critical and theoretical perspectives. Prereq: ENGL 2250 and 3070, 3080 or permission of instructor. Cross-listed with ENGL 4420. **Semester Hours:** 3 to 3

ENGL 5460 - Contemporary World Literature
Surveys literature written by world writers since World War II. Note: Texts read in English. Cross-listed with ENGL 4460. **Semester Hours:** 3 to 3

ENGL 5500 - Medieval Literature
Introduces representative writers from the Norman Conquest to about 1550. Emphasis on a variety of genres, including religious poetry, Arthurian romance, dream vision and drama. Cross-listed with ENGL 4500. **Semester Hours:** 3 to 3

ENGL 5510 - Whores and Saints: Medieval Women
Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 4510, RLST 4730/5730, WGST 4510/5510. **Semester Hours:** 3 to 3

ENGL 5520 - English Renaissance
Introduces some of the important writers in this major period of English literature (1500-1660). Special attention to the works of Sidney, Milton, Spenser, Shakespeare, Donne, Herbert and Johnson. Cross-listed with ENGL 4520. **Semester Hours:** 3 to 3

ENGL 5530 - Milton
Extensive reading in John Milton's poetry (Lycidas, Paradise Lost, Paradise Regained, Samson Agonistes) as well as his political, social and theological writings. Cross-listed with ENGL 4530. **Semester Hours:** 3 to 3

ENGL 5540 - Restoration and the 18th Century
Introduces some of the important writers of the "Age of Reason." Emphasis on such figures as Bunyan, Burke, Dryden, Johnson, Pope and Swift. Cross-listed with ENGL 4540. **Semester Hours:** 3 to 3

ENGL 5560 - English Romanticism
Studies major works of the chief English writers of the first part of the 19th century, with emphasis on such representative figures as Wollstonecraft, Godwin, Blake, Wordsworth, Coleridge, Hazlitt, Byron, Keats and Shelley. Cross-listed with ENGL 4560. **Semester Hours:** 3 to 3

ENGL 5580 - The Victorian Age
Examines the main currents of Victorian thought in prose and poetry from about 1830 to the end of the century, including such writers as Browning, Carlyle, Mill, Newman, Ruskin, Swinburne and Tennyson. Cross-listed with ENGL 4580. **Semester Hours:** 3 to 3
ENGL 5600 - Modernism
Modernist literature from the beginning of the 20th century through World War II, including such writers as Eliot, Joyce, Forester, Ford, Yeats, Woolf and Barnes. Examines the social-political influences as well as the aesthetic and stylistic elements which define modernist writing. Cross-listed with ENGL 4600. **Semester Hours:** 3 to 3

ENGL 5601 - Principles and Practices of Second Language Acquisition
Overview of basic principles and practices in the learning and teaching of English as a second language. Cross-listed with ENGL 4601. **Semester Hours:** 3 to 3

ENGL 5610 - Narrative: Form and Theory
A critical and theoretical exploration of the elements of narrative - e.g., plot, character, dialogue, discourse - in literature and film. This course is especially useful for fiction-writing students in the Creative Writing Track. Prereq: Graduate standing. **Semester Hours:** 3 to 3

ENGL 5650 - American Literature to the Civil War
Graduate survey of American literature from the Colonial period to the Civil War, with particular attention to the question of what makes this literature distinctly American. Explores a wide range of genres of American literature in an effort to assess how this tradition of letters shaped our historical past and continues to influence contemporary American culture and ideology. Prereq: Graduate standing. **Semester Hours:** 3 to 3

ENGL 5651 - Second Language Writing
Topics include the similarities between first and second language writing, the processes of composition and revision, teacher response to student writing, student processing of feedback, writing assessment, and the reading or writing connection. Cross-listed with ENGL 4651. **Semester Hours:** 3 to 3

ENGL 5655 - American Literature: Civil War to the Cold War
Graduate survey of American literature from the Civil War to the Cold War considered central to the tradition of American literature. Students will consider how new ideas about gender, race, class, nationality, postcoloniality, history, and aesthetics have influenced the field of American literary studies. Prereq: Graduate standing. **Semester Hours:** 3 to 3

ENGL 5730 - Chaucer
Extensive reading in Chaucer's works in Middle English, including his lyrics, dream visions, Troilus and Criseyde, and the Canterbury Tales. Examines sources, historical and ideological factors influencing the texts. Prereq: 30 semester hours or permission of the instructor. Cross-listed with ENGL 4730. **Semester Hours:** 3 to 3

ENGL 5735 - Philosophy and Literature
Considers the philosophical dimensions of literature. Cross-listed with ENGL 4735, PHIL 5730, 4730. **Semester Hours:** 3 to 3

ENGL 5745 - Humanistic Writing About Medicine and Biology
Investigates medical and biological writing over the last two centuries with an emphasis on reception, ethical issues, and the differences between professional and popular writing. Prereq: Must have 30 hours or the permission of the instructor for ENGL 4745. Cross-listed with ENGL 4745. **Semester Hours:** 3 to 3
ENGL 5770 - Topics in English: Film and Literature
May look at specific genres, aesthetic approaches to literature, ideological or socio-political agendas, or other special topics in literature and/or film. Cross-listed with ENGL 4770. Semester Hours: 3 to 3

ENGL 5840 - Independent Study: ENGL
Semester Hours: 1 to 3

ENGL 5913 - Practicum in Language and Rhetoric
Supervised work in applied language or rhetoric and the teaching of writing. Semester Hours: 1 to 3

ENGL 5939 - Internship
Semester Hours: 1 to 3

ENGL 6001 - Critical Theory in Literature and Film
Designed to enrich students' understanding of a variety of modes of theoretical discourse that have influenced modern critical practice in literary and film studies. While the course explores the evolution of criticism, it gives primary emphasis to recent developments. Semester Hours: 3 to 3

ENGL 6002 - Rhetorical Theory
Examines the principles and applications of rhetorical theory and its relationship to writing. Semester Hours: 3 to 3

ENGL 6010 - Studies of Major Authors
Note: May be repeated when topics vary. Semester Hours: 3 to 3

ENGL 6011 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6012 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6013 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6014 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6015 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6016 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6017 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6018 - Studies in Major Authors
Semester Hours: 3 to 3

ENGL 6019 - Studies in Major Authors
Semester Hours: 3 to 3
ENGL 6090 - Studies in Major Authors  
**Semester Hours:** 3 to 3

ENGL 6110 - Special Topics in Literature  
An intensive study of specialized topics in English and/or American literature. Note: May be repeated when topics vary. **Semester Hours:** 3 to 3

ENGL 6111 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6112 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6113 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6114 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6115 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6116 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6117 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6118 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6119 - Special Topics in Literature  
**Semester Hours:** 3 to 3

ENGL 6120 - Special Topics in Film  
An intensive study of specialized topics in film. Note: May be repeated when topics vary. **Semester Hours:** 3 to 3

ENGL 6121 - Special Topics in Film  
**Semester Hours:** 3 to 3

ENGL 6122 - Special Topics in Film  
**Semester Hours:** 3 to 3

ENGL 6123 - Special Topics in Film  
**Semester Hours:** 3 to 3

ENGL 6124 - Special Topics in Film  
**Semester Hours:** 3 to 3
ENGL 6125 - Special Topics in Film  
Semester Hours: 3 to 3

ENGL 6126 - Special Topics in Film  
Semester Hours: 3 to 3

ENGL 6127 - Special Topics in Film  
Semester Hours: 3 to 3

ENGL 6128 - Special Topics in Film  
Semester Hours: 3 to 3

ENGL 6129 - Special Topics in Film  
Semester Hours: 3 to 3

ENGL 6840 - Independent Study  
Semester Hours: 1 to 3

ENGL 6920 - Directed Readings  
Offers graduate student's instruction on an individual basis. Serves as preparation for the MA (literature) comprehensive examination.  
Semester Hours: 3 to 3

ENGL 6950 - Master's Thesis  
Semester Hours: 1 to 6

ENGL 6960 - Master's Project  
Semester Hours: 1 to 6

ENGL 6970 - Portfolio Exam in Rhetoric and Teaching of Writing  
In the portfolio exam, students prepare the culminating document of students' MA work, a portfolio combining reflection on work done at CU Denver with a forward look at students' career goals.  
Semester Hours: 3 to 3
Engineering Courses (ENGR)

ENGR 1000 - Introduction to Engineering
Introduces engineering profession, engineering design and practice; and the tools used by engineers to accomplish design. The specialties within engineering are described. Students are involved in application projects and use word processors, spreadsheets and engineering software. Note: ENGR 1000 cannot be substituted for ELEC 1201. Prereq: High school trigonometry. Semester Hours: 1 to 1

ENGR 1111 - Psychological and Social Implications of Technology
This course will explore the impact of technology and its advances on human beings from an emotional, psychological, and social perspective. Discussions will include ethical, moral, and multicultural implications of technological advances from a global perspective and will require students to critically analyze issues that arise from such advances. Semester Hours: 3 to 3

ENGR 3400 - Technology and Culture
Explores the cultural and political foundations of technology and the impact of technology upon the individual and society. Contributions to technological advances and the impact of technology on women and diverse ethnic groups are examined in the context of specific engineering designs and case studies. Prereq: One course in social sciences, one course in humanities, one course in science. (Satisfies the multicultural diversity requirement of the UCDHSC core curriculum). Semester Hours: 3 to 3

ENGR 3600 - International Dimensions of Technology and Culture
This course provides students with an understanding of how science, technology and international issues interrelate in a world that has become more interconnected and interdependent. The course will focus on the technical, organizational and cultural aspects of information and other technologies with an emphasis on their impact on third world countries. Prereq: One course in social sciences, one course in humanities, one course in science. (Satisfies the international perspectives requirement of the UCDHSC core curriculum). Semester Hours: 3 to 3

ENGR 3995 - Global Technology, Business & Culture
Semester Hours: 3 to 3 When Offered: SUMMER

ENGR 4150 - Seminar: Special Topics in Engineering
A flexible seminar format dealing with topics of special interest in engineering. Topics vary from semester to semester. Prereq: Senior standing. Cross-listed with ENGR 5150 and 7150. Semester Hours: 0 to 1 When Offered: FALL SPR

ENGR 4208 - Special Topics
Semester Hours: 1 to 3

ENGR 4218 - Special Topics
Semester Hours: 1 to 3

ENGR 4228 - Special Topics
Semester Hours: 1 to 3

ENGR 4238 - Special Topics
Semester Hours: 1 to 3

ENGR 4248 - Special Topics
Semester Hours: 1 to 3

ENGR 4258 - Special Topics
Semester Hours: 1 to 3

ENGR 4268 - Special Topics
Semester Hours: 1 to 3

ENGR 4278 - Special Topics
Semester Hours: 1 to 3
ENGR 4288 - Special Topics  
**Semester Hours:** 1 to 3

ENGR 4298 - Special Topics  
**Semester Hours:** 1 to 3

ENGR 4840 - Independent Study  
**Semester Hours:** 1 to 3

ENGR 5150 - Seminar: Special Topics in Engineering  
A flexible seminar format dealing with topics of special interest in engineering on a graduate level. Topics vary from semester to semester. Prereq: Graduate standing. Cross-listed with ENGR 4150 and 7150.  
**Semester Hours:** 0 to 1  
**When Offered:** FALL SPR

ENGR 5208 - Special Topics  
**Semester Hours:** 1 to 3

ENGR 5301 - Systems Engineering: Principles and Practice  
**Semester Hours:** 3 to 3

ENGR 5302 - Systems Engineering: Planning and Management  
**Semester Hours:** 3 to 3

ENGR 5303 - Special Topics: Systems Engineering  
**Semester Hours:** 3 to 3

ENGR 5800 - Long Range Infrastructure Planning and Design: Colorado 2050  
The goal of this course is to equip students to address the problems of long term future resource limitation and its influence on urban infrastructure in Colorado.  
**Semester Hours:** 3 to 3

ENGR 7150 - Seminar: Special Topics in Engineering  
A flexible seminar format dealing with topics of special interest in engineering on an advanced graduate level. Topics vary from semester to semester. Prereq: Graduate standing. Cross-listed with ENGR 4150 and 5150.  
**Semester Hours:** 0.5 to 0.5  
**When Offered:** FALL SPR
Entrepreneurship Courses (ENTP)

ENTP 2550 - Introductory Accounting for Entrepreneurs and the Arts
An integration of financial and managerial accounting processes as they relate to Entrepreneurs, Arts & Media managers and similar applications. This course will cover the analysis and interpretation of financial statements, asset and liability valuation and the determination of net income. Incorporates the use of accounting information to make decisions focusing on cost behavior analysis, budgeting and product costing in entrepreneurial and arts related businesses. Prereq: MATH 1010, MATH 1110, or MATH 1070. Cross-listed with ACCT 2550. Semester Hours: 3 to 3

ENTP 3000 - Principles of Entrepreneurship
Focuses on the concepts, skills, know-how, practical information, attitudes and alternatives that are relevant for start-up companies. The materials are designed to enhance the student's capacity to anticipate HR, financial, marketing problems through the application of proper planning. The primary objective of the course is to teach participants the practical aspects of entrepreneurship in order to change the odds of success. Semester Hours: 3 to 3

ENTP 3120 - Legal Issues for Entrepreneurs
Skills in legal and factual analysis and the application of ethical theories are addressed with an emphasis on applicability for entrepreneurs. The cases are drawn from a variety of functional areas such as accounting, information systems, finance, management, marketing and production. Topics include: agency law, business organizations, securities, venture capital, employment law, real property, entrepreneurial aspects of intellectual property law, consumer law and international law. Note: For non business majors only. Does not count towards an Entrepreneurship certificate. Prereq: ENTP 3000 or equivalent. Cross-listed with BLAW 4120. Semester Hours: 3 to 3

ENTP 3780 - Preparing A Business Plan
This course is designed to assist students who want to turn their new business idea into a viable new business concept through the development of a comprehensive business plan. This course teaches the process and the key steps for preparing a business plan for a new business venture. A well developed business plan is critical to new venture success and includes the following: analysis of the potential demand for the product or service and the potential customers; identifies competitive advantages and strategies, and marketing strategies; generates pro forma financial projections; and, describes the management team needed successfully lead the business. Note: For nonbusiness majors only. Does not count towards business degree but does count towards Entrepreneurship Certificate. Prereq: ACCT 2200, and MKTG 3000 or MUSC 4750 or ENTP 3000. Semester Hours: 3 to 3

ENTP 4028 - Leadership and Entrepreneurship in Ireland
This 2-week course in Ireland provides students with an overview of key leadership principles for creating strategies and managing teams in new ventures in the US and abroad. This course provides the student with an overview of key leadership principles for creating strategy and managing teams in a new venture. It introduces leadership concepts critical to gaining true organizational commitment, and focuses on case studies relevant to common business issues. By exploring what entrepreneurial leaders actually do, and how they do it, the student will examine the principles of strategic planning, and how visionary leadership is required to develop an organization that is able to execute the strategy through measurable goals and objectives. Cross-listed with INTB 4028 & 6028. Semester Hours: 3 to 3
ENTP 4950 - Special Topics
A variety of topics in entrepreneurship are offered. Consult the current "Schedule Planner" for semester offerings. Prereq: Topics vary. **Semester Hours:** 0 to 3

ENTP 6020 - The Business Plan
Business plan development which incorporates all key ingredients necessary for various users. Includes the ins and outs of business plans for new ventures through environmental scans of new business opportunities, case studies, by sharing the experience of entrepreneurs and investors that have been through the process and by writing a business plan, either individually or with a team of other students. **Semester Hours:** 3 to 3

ENTP 6021 - Corporate Entrepreneurship
This course considers innovation and new-business creation strategies from within an existing organization. It will explore various growth models intended to help organizations build their revenues in ways that are consistent with the business? Strategic orientation and constraints. **Semester Hours:** 3 to 3 **When Offered:** FALL

ENTP 6028 - Leadership and Entrepreneurship In Ireland
This 2-week course in Ireland provides students with an overview of key leadership principles for creating strategies and managing teams in new ventures in the US and abroad. This course provides the student with an overview of key leadership principles for creating strategy and managing teams in a new venture. It introduces leadership concepts critical to gaining true organizational commitment, and focuses on case studies relevant to common business issues. By exploring what entrepreneurial leaders actually do, and how they do it, the student will examine the principles of strategic planning, and how visionary leadership is required to develop an organization that is able to execute the strategy through measurable goals and objectives. Cross-listed with INTB 4028 & 6028. **Semester Hours:** 3 to 3 **When Offered:** FALL

ENTP 6620 - New Venture Operations and Project Management
Introduces an operations model for developing internal and external operation plans for new ventures. Project management knowledge and skills are used to build operation plans. **Semester Hours:** 3 to 3 **When Offered:** FALL

ENTP 6642 - Exploring Social Entrepreneurship
Study the people and organizations addressing pressing social and environmental issues facing society today. Understand and develop innovative models providing solutions to these issues. Apply theory to real situations via site visits, case studies and guest speakers. **Semester Hours:** 3 to 3 **When Offered:** FALL

ENTP 6644 - Social Entrepreneurship in the Developing World
Solving Developing World’s challenges using creative and entrepreneurial approaches. New generation of leaders are not just interested in the bottom line, but they are looking at the triple bottom line: People, Profit and the Planet. They are changing the **Semester Hours:** 3 to 3 **When Offered:** SPRING

ENTP 6800 - Special Topics in Entrepreneurship
A variety of topics in entrepreneurship are offered. Consult the current 'schedule Planner' for semester offerings. **Semester Hours:** 3 to 3

ENTP 6801 - Building Biotechnology
Fundamentals of Life Science Technology and Entrepreneurship. Session topics include introduction to bioinnovation and entrepreneurship, tech transfer, accounting and finance basics, financing, opportunity
assessment, legal and regulatory environments, clinical trials, project management, ethics and societal issues and team building. Cross-listed with IDPT 6301. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**ENTP 6802 - Regulatory Environment of Life Science Innovation**
This course is designed to familiarize graduate level engineering, business, law and life science students with the fundamentals of the life science technology commercialization including drugs, devices, diagnostics, healthcare IT and platform applications. Cross-listed with IDPT 7302. **Semester Hours:** 3 to 3 **When Offered:** FALL

**ENTP 6807 - Small Business Marketing and Personal Branding**
Learn how to create successful marketing strategies in both Entrepreneurial and Intrapreneurial environments and personal branding. The course work will demonstrate the imperative link between marketing and personal branding through case studies, projects, guest speakers and reading materials. **Semester Hours:** 3 to 3 **When Offered:** SUMMER

**ENTP 6808 - Practicum in Sustainable Business Research**
This course is an online practicum research course in sustainable business with online lectures, resources and video focused on an original research paper/case study. Students should have taken a course or have knowledge/experience in sustainable business. **Semester Hours:** 3 to 3 **When Offered:** SUMMER

**ENTP 6822 - Legal and Ethical Issues of Entrepreneurship**
This course addresses the legal issues most frequently encountered by entrepreneurs and others involved in start-ups and small, closely held or family businesses. The focus is on how to avoid legal problems and how best to cope when they arise. Topics include choice of business form, legal aspects of raising capital, taxation, intellectual property law, employment law, product liability, e-commerce and the problems of managing lawyers and litigation. Note: Cannot receive credit for both BUSN 6540 and this course. **Semester Hours:** 3 to 3

**ENTP 6824 - Entrepreneurial Financial Management**
Includes financial and legal aspects, financial reporting and cash flow analysis, financial planning, budgeting, working capital management, asset decisions, obtaining capital, business valuation, franchising, lease versus buy decisions, and financial asp **Semester Hours:** 3 to 3

**ENTP 6826 - International Entrepreneurship**
Provides the student with an overview of key trends and developments in international business. Familiarize the student with selected theories and concepts of international business and how it affects entrepreneurial functions, including finance, marketing, accounting, organization design and management. **Semester Hours:** 3 to 3

**ENTP 6834 - Entrepreneurial Marketing**
Designed to help students learn about best practices with recent lessons on Internet economy. Companies large and small face unique challenges successfully building a competitive advantage with limited marketing resources. Covers the analysis of marketing opportunities, identification of the targets, audience, and the development of a marketing strategy, brand positioning and an integrated marketing plan. Reviews product and service development processes. Provides a basis for establishing pricing and pricing plans. Assesses Internet economy. **Semester Hours:** 3 to 3
ENTP 6838 - Real Estate for the Entrepreneur
This course will address issues critical to the success of any new venture location including business site selection and negotiation of real estate leases and purchases. General principles of real estate development, financing and urban planning, applicable to entrepreneurs, will also be discussed. Zoning, affordable housing, ADA issues, property management, real estate investing, historic preservation and selected taxation issues are also covered. **Semester Hours:** 3 to 3

ENTP 6840 - Independent Study: ENTP
**Semester Hours:** 3 to 3

ENTP 6842 - New Concept Development
Understand business concepts, competitive offerings and potential customers’ wants at their most fundamental level in this theory-driven course designed to help entrepreneurs assess the viability of new business concepts in potential markets. The course **Semester Hours:** 3 to 3

ENTP 6846 - Marketing a New Business
The objective is to help entrepreneurs learn the latest techniques involved in taking a new business or service concept to market. It includes a theoretical analysis of how products diffuse, product life cycle issues, qualitative and quantitative research techniques (including exposure to an analytical software program), consumer behavior issues, strategic positioning given the nature of the product, the company and the external environment, promotion of the new concept and issues regarding the implementation of a marketing solution surrounding the new venture. **Semester Hours:** 3 to 3

ENTP 6848 - Leadership in New Ventures
Provides the student with an overview of key leadership principles for creating strategy and managing teams in a new venture. It introduces leadership concepts critical to gaining true organizational commitment and focuses on case studies relevant to common business issues. By exploring what entrepreneurial leaders actually do and how visionary leadership is required to develop an organization that is able to execute the strategy through measurable goals and objectives. **Semester Hours:** 3 to 3

ENTP 6854 - Design & Manage Entrepreneurial Organizations
This course is about building, running and growing an entrepreneurial organization. It is about creating an organization that will sustain high performance over a long period of time and become a premier institution in its field. **Semester Hours:** 3 to 3

ENTP 6862 - Strategic Web Development
This course teaches students how to create a web presence that will support the purpose of the organization and help fuel the growth of the venture. The course covers the importance of website visibility to new business operations and the basics of designing and implementing web sites. It also covers how to utilize search engines, social networks, blogs and other online tools to support and promote your business. **Semester Hours:** 3 to 3
Environmental Sciences Courses (ENVS)

ENVS 1042 - Introduction to Environmental Sciences
This laboratory or survey course develops a basic understanding of ecological relationships and environmental systems. Issues such as the effects of human activities on earth's environment, extinction or diversity, greenhouse effect, hazardous or toxic wastes and human population growth are discussed. **Semester Hours:** 4 to 4

ENVS 1342 - Environment, Society and Sustainability
Overview of perspectives on environmental issues within the context of sustainable development and taking a systems approach. The focus is on social science approaches to explore the human footprint on the earth, environmentalism, scientific uncertainty, policy creation and social change. **Semester Hours:** 3 to 3

ENVS 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 3 to 3

ENVS 3082 - Energy and the Environment
For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote a sustainable society. Prereq: One course in college science or mathematics. Cross-listed with PHYS 3082. **Semester Hours:** 3 to 3

ENVS 3500 - Topics in Environmental Sciences
Note: Topics may vary from one offering to the next. **Semester Hours:** 1 to 6

ENVS 4210 - Mining and the Environment
Mineral resources such as metals have played an important role in human civilization. However, the extraction, processing, and use of metals have left a legacy of damage to the environment and human health. These impacts and their mitigation are examined. Prereq: One course in college mathematics or science. **Semester Hours:** 3 to 3

ENVS 4500 - Topics In Environmental Sciences
Note: Topics may vary from one offering to the next. Prereq: Varies according to the topic. **Semester Hours:** 1 to 6

ENVS 4840 - Independent Study: ENVS
**Semester Hours:** 1 to 3

ENVS 4850 - Understanding and Communicating Field Methods
Interdisciplinary course that presents a balanced overview of common field methods and how to communicate them effectively to a general audience. Includes hands-on experience with various field methods (e.g., transects, survey design, historical assessment, GIS, etc.) and communication strategies. Prereq: Introductory geography or environmental science course, and graduate or advanced upper-level standing, or instructor permission. Cross-listed with ENVS 5850 and GEOG 4850/5850. **Semester Hours:** 3 to 3
ENVS 4900 - Colloquium
Engages students and faculty in discussion of current and pertinent world topics, including specific readings, (guest) presentations, and creation of working research papers, among other items. Students and faculty may work in research groups to accomplish specific goals. Prereq: Advanced Standing (undergrad). Cross-listed with ENVS 5900, GEOG 4900 and 5900. Semester Hours: 1 to 1

ENVS 4995 - Travel Study
Rigorous yet flexible fieldwork-based experience exploring geographical and environmental phenomena in diverse world locations. Course begins with intensive regional and methodological introductions, followed by on location field investigations in environmental analyses, cultural studies, GIS applications, tourism evaluation and/or hazards assessment. Prereq: GEOG 1202 and GEOG 1302, or permission of instructor. Cross-listed with ENVS 5995, GEOG 4995, and GEOG 5995. Semester Hours: 3 to 9

ENVS 4998 - Geography By Rail
Systematic and geographic exploration of region(s) mainly via train, focused on creating broad understanding of peoples, cultures, and landscapes. This course represents an intensive, field-based experience that may encompass both physical and cultural characteristics of place and space. Prereq: GEOG 1202 and 1302, or equivalent as determined by instructor. Cross-listed with ENVS 5998 and GEOG 4998/5998. Semester Hours: 1 to 12

ENVS 5010 - Landscape Geochemistry
A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological, and ecological timeframes, together with anthropogenic activities. Prereq: Introductory college-level physical geography or environmental science course or permission of instructor. Cross-listed with GEOG 4010/GEOL 4010. Semester Hours: 3 to 3

ENVS 5020 - Earth Environments and Human Impacts
Basic concepts describing earth's biomes and physical environment are presented in a systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion. Cross-listed with GEOG 4020, GEOL 4020. Semester Hours: 3 to 3

ENVS 5030 - Environmental Geology
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with GEOL 4030 and 5030. Semester Hours: 3 to 3

ENVS 5280 - Environmental Hydrology
Examination of hydrologic processes in relation to climate, soils, vegetation, land-use practices, and human interactions. Natural scientific perspectives emphasized; field and laboratory included. Prereq: GEOG 1202 and one of: 1) GEOG 3232; 2) GEOG 4240/GEOL 4240/GEOG 5240; 3) GEOG 4010/GEOL 4010/ENVS 5000. Cross-listed with GEOG 4280 and GEOL 4280. Semester Hours: 4 to 4
ENVS 5340 - Multicultural Science Education
This course examines literature in science education related to multicultural issues. Topics will be framed by an understanding of equity in diverse, urban classrooms and how it informs curriculum and instruction. Cross-listed with ELED/SECE 5340. **Semester Hours:** 3 to 3

ENVS 5403 - Unsaturated Zone Hydrology
Focuses on water and contaminant transport through the unsaturated zone, infiltration and drainage, and heat and gas transport. Students learn to design, perform field installation, and collect data in order to model and predict contaminant movement on/off site. Prereq: Chemistry, physics, calculus or permission of instructor. Cross-listed with GEOL 4402. **Semester Hours:** 3 to 3

ENVS 5410 - Aquatic Chemistry
Course objectives are to: (1) identify and understand chemical and physical principles and processes that control the composition of natural water, (2) prepare students to critically evaluate scientific literature and experimental design related to water quality and environmental remediation, and (3) examine the validity of environmental water data. Prereq: Graduate status and general chemistry and/or CHEM 4700. **Semester Hours:** 3 to 3

ENVS 5450 - Urban Food and Agriculture: Perspectives and Research
Provides an overview of research & practices in urban farming. Critically reviews emergent models of local food production/distribution. Compares new practices to traditional agribusiness. Assesses the prospects for solving sustainability problems within the modern agro-food system. Prerequisite GEOG 3401. Cross-list GEOG 4450. **Semester Hours:** 3 to 3 **When Offered:** SPRING

ENVS 5460 - Sustainable Urban Agriculture Field Study I
Provides a field-based overview of urban farm planning & management. Topics: range/land conservation, native/invasive species, water distribution, animal husbandry, government interaction, local markets, community relations, conservation easements and issues pertaining to urban farming. Prerequisite ENVS 5450. Cross-list GEOG 4460. **Semester Hours:** 3 to 3 **When Offered:** FALL

ENVS 5470 - Sustainable Urban Agriculture Field Study II
Provides a field-based overview of current practices in local agricultural production. Emphasis will be placed on sustainable practices and their most efficient situation, Special consideration will be given to plausible solutions for food insecure communities both local and global. Prerequisite ENVS 5450, 5460. Cross-list GEOG 4470. **Semester Hours:** 3 to 3 **When Offered:** SPRING

ENVS 5500 - Topics in Environmental Sciences
Topics may vary from one offering to the next. **Semester Hours:** 1 to 6

ENVS 5513 - Geology of the Grand Canyon
Raft down the Grand Canyon and examine the geology of igneous, sedimentary, and metamorphic rocks from the Precambrian to the Holocene. Study marine and terrestrial fossils, migmatisation and observe modern sedimentary processes. Cross-listed: GEOL 4513. **Semester Hours:** 3 to 5

ENVS 5600 - Applied Statistics for the Natural Sciences
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; ANOVA and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of an instructor. Cross-listed with GEOG 4770, GEOL 4770, 5770. **Semester Hours:** 3 to 3
ENVS 5620 - Health Risk Communication
Acquaints students with contemporary theory, research, and practice in health risk communication. Cross-listed with COMM 5620/4620, HBSC 5620/4620 and PBHL 4620. **Semester Hours:** 3 to 3

ENVS 5700 - Synthesis for Interdisciplinary Science
Synthesis is an approach in interdisciplinary research and education that links ideas, data and methods. This course develops synthesis skills through the lens of systems theory. It includes exercises for synthetic thinking, examination of integrative thinking. **Semester Hours:** 3 to 3

ENVS 5730 - Air Quality Modeling and Analysis
Emphasizes the use of air dispersion modeling tools. Topics include: sources and effects of air pollution, use of the WWW, and analysis of modeling results. Note: For graduate students in environmental sciences or engineering, and for those working in the environmental field. Prereq: Graduate standing. **Semester Hours:** 3 to 3

ENVS 5840 - Independent Study: ENVS
**Semester Hours:** 1 to 3

ENVS 5850 - Understanding and Communicating Field Methods
Interdisciplinary course that presents a balanced overview of common field methods and how to communicate them effectively to a general audience. Includes hands-on experience with various field methods (e.g., transects, survey design, historical assessment, GIS, etc.) and communication strategies. Prereq: Introductory geography or environmental science course, and graduate or advanced upper-level standing, or instructor permission. Cross-listed with ENVS 4850 and GEOG 4850/5850. **Semester Hours:** 3 to 3

ENVS 5900 - Colloquium
Engages students and faculty in discussion of current and pertinent world topics, including specific readings, (guest) presentations, and creation of working research papers, among other items. Students and faculty may work in research groups to accomplish specific goals. Prereq: Graduate student status. Cross-listed with ENVS 4900, GEOG 4900 and 5900. **Semester Hours:** 1 to 1

ENVS 5939 - Internship
**Semester Hours:** 1 to 6

ENVS 5995 - Travel Study
Rigorous yet flexible fieldwork-based experience exploring geographical and environmental phenomena in diverse world locations. Course begins with intensive regional and methodological introductions, followed by on-location field investigations in environmental analyses, cultural studies, GIS applications, tourism evaluation and/or hazards assessment. Prereq: GEOG 1202 and GEOG 1302, or permission of instructor. Cross-listed with ENVS 4995, GEOG 4995, and GEOG 5995. **Semester Hours:** 3 to 9

ENVS 5998 - Geography By Rail
Systematic and geographic exploration of region(s) mainly via train, focused on creating broad understanding of peoples, cultures, and landscapes. This course represents an intensive, field-based experience that may encompass both physical and cultural aspects. **Semester Hours:** 1 to 12

ENVS 6000 - Environmental Sciences Seminar
Student and faculty presentations of UCDHSC research projects and other current environmental sciences topics. All environmental sciences students are encouraged to attend, but credit is given only to students
who present seminars. Two semesters of this course are required to receive a M.S. in Environmental Science degree: these students must register for this seminar and give presentations the first semester they are in the M.S.E.S. program and the semester in which they defend their master’s project. Prereq: Must be an M.S. in Environmental Science student. **Semester Hours:** 1 to 1

**ENVS 6002 - Environmental Sciences Seminar**
Introduces research and professional development in the environmental sciences, focusing on current issues and trends in the field, methods of developing research and project proposals, and defense of a proposal written during the semester. Students are introduced to the environmental sciences faculty and their research programs. Prereq: Must be an MS Environmental Science student or permission of instructor. **Semester Hours:** 3 to 3

**ENVS 6200 - Risk Assessment**
The process of determining the likelihood and extent of harm that may result from an activity or event. Topics covered are: hazard identification, dose-response evaluation, exposure assessment, and risk characterization. The subjects of risk management, risk perception, and risk communication are also discussed. Prereq: Graduate standing or permission of instructor. Cross-listed with CVEN 5494, HBSC 7340. **Semester Hours:** 3 to 3

**ENVS 6210 - Human Health and Environmental Pollution**
Examines the roles of technology and society in the etiology and control/prevention of adverse health outcomes associated with releases of toxic substances. Examples come from experience and the literature on occupational cancer and reproductive hazards, occupational and environmental regulation of hazardous wastes, air, and water pollution. Cross-listed with HBSC 7210. **Semester Hours:** 3 to 3

**ENVS 6220 - Toxicology**
Introduces the field of toxicology. Emphasizes the mechanisms by which chemicals produce toxic effects and the methods for assessing toxicity. Note: Designed for students in the environmental sciences and occupational health fields. Prereq: One year college chemistry and one year college biology. Cross-listed with HBSC 7360. **Semester Hours:** 3 to 3

**ENVS 6230 - Environmental Epidemiology**
Provides a basic understanding of the methods used to study the effects on human health of exposures to physical, chemical, or biological factors in the external environment. The course explains the use of epidemiologic methods through a problem solving approach to investigating environmental health case studies. Prereq: A basic statistics course and graduate standing or permission of instructor. Cross-listed with HBSC 7310. **Semester Hours:** 3 to 3

**ENVS 6840 - Independent Study: ENVS**
**Semester Hours:** 1 to 3

**ENVS 6950 - Master’s Thesis**
**Semester Hours:** 1 to 6

**ENVS 6960 - Master’s Report**
**Semester Hours:** 3 to 6
Educational Psychology Courses (EPSY)

EPSY 5000 - Psychological Foundations of Education
Surveys the results of psychological inquiry with emphasis on applications to educational practices. Major topics are motivation, behavior, learning, development, measurement, and characteristics of teachers and students. Semester Hours: 2 to 4

EPSY 5020 - Advanced Psychological Foundations of Education
Selected topics in educational psychology are examined; theoretical issues, current research and applications assume the primary emphasis. The course is intended primarily for students who have had prior professional experiences in teaching and psycho-educational practices. Semester Hours: 3 to 3

EPSY 5050 - Children's Thinking
A review of the psychology of children’s thinking emphasizing developmental changes in modes of thought. Topics include conceptual behavior, problem solving, intelligence, creativity, humor, play and others. Semester Hours: 3 to 3

EPSY 5100 - Advanced Child Growth and Development
Systematic study of the major theories of child growth and development. Focuses on current research regarding infants and children and the implications of such research for education. Semester Hours: 3 to 3

EPSY 5110 - Human Learning
A review of the research on human learning, including related topics such as information processing and motivation. Various theories of learning are examined in-depth, and their applications to teaching and practices in schools (and in other educational settings). Semester Hours: 3 to 3

EPSY 5120 - Behavior Analysis
A systematic survey of current theory in learning and behavior. The course emphasizes analysis of behavior and behavior change via reinforcement schedules. Semester Hours: 3 to 3

EPSY 5140 - Advanced Adolescent Growth and Development
Systematic study of the major theories of adolescent growth and development. Focuses on current research regarding adolescents and the implications of the research for education. Semester Hours: 3 to 3

EPSY 5160 - Behavior Disorders in Exceptional Children
An in-depth study of the psychological, social, and behavioral problems of exceptional learners. Topics include identification, etiology, educational assessment and strategies, non-educational interventions, parent involvement, programming and evaluation. Semester Hours: 3 to 3

EPSY 5170 - Behavior Analysis and Intervention
An application-oriented course that focuses on the development of social and affective skills for children and adolescents. Students gain actual experiences in the analysis and implementation of a variety of behavioral, ecological and psycho-educational interventions. Semester Hours: 3 to 3

EPSY 5180 - Psychology of Gifted, Talented and Creative Children
Examines the nature of gifted, talented, and creative children from an educational psychology perspective. Topics addressed include historical antecedents, identification, characteristics of such children, research initiatives, measurement issues, relevant Semester Hours: 3 to 3
EPSY 5200 - Social Psychology of Learning
An analysis of social-psychological concepts, such as self-concept, attitude development, person perception, group processes and related phenomena. Applications to education and other settings are considered. **Semester Hours:** 3 to 3

EPSY 5220 - Adult Learning and Education
Surveys theories and principles of adult learning and adult education with emphasis on practical applications and design of programs of instruction for adult learners. **Semester Hours:** 3 to 3

EPSY 5240 - Cognition and Instruction
Explores recent developments in cognition and their implications for instructional practices. Includes theory and research in cognitive psychology and resultant educational practices. **Semester Hours:** 3 to 3

EPSY 5260 - Child Study and Observation
Involves extensive, systematic observation of young children. Recorded observations are analyzed in terms of child development theories, children's background, setting variables, and are then presented in written and elaborated form. **Semester Hours:** 3 to 3

EPSY 5500 - Student Teaching
Involves an extended period (usually one school year) of apprenticeship teaching under the daily supervision of mentor/master teachers. Over time, the student discusses teaching strategies with the mentor and a university supervisor—and takes on increasi **Semester Hours:** 2 to 4

EPSY 5800 - Workshop: School Applications of Educational Psychology
Research, development, and other scholarly activities in educational psychology are studied and reviewed. Applications are then made to school and other educational settings, with student practice and utilization of techniques emphasized. **Semester Hours:** 1 to 4

EPSY 5840 - Independent Study
**Semester Hours:** 1 to 4

EPSY 5920 - Readings in Educational Psychology
**Semester Hours:** 1 to 4

EPSY 6000 - Seminar in Educational Psychology
Examines classic research, major trends, and personalities in the field of educational psychology, broadly conceived. Also includes the history of the field, major divisions in educational psychology, professional organizations, and (as appropriate) the t **Semester Hours:** 3 to 3

EPSY 6120 - Family Dynamics
Review and analysis of issues related to families with exceptional or at-risk young children. Topics include coping skills, family involvement, parent-child interaction, and sources of support. Special attention is given to current research and its applic **Semester Hours:** 3 to 3

EPSY 6170 - Assessment of Infants Who are At-Risk
Provides classroom and field-based experience in the assessment of young children, birth to three years. Topics include selection, administration and interpretation of a variety of tests. Norm-referenced and criterion-referenced tests and observational me **Semester Hours:** 3 to 3
EPSY 6200 - Human Development Over the Life Span
An inquiry into the experience and meaning of human development over the full span of life. Both analytical and reflective modes of exploration are utilized to approach the study of personhood and the courses and themes of life. **Semester Hours:** 3 to 3

EPSY 6250 - Advanced Abnormal Psychology
The major objective of this course is to help the student develop a professional level of understanding of the major disorders commonly subsumed under the term "psychopathology" and related treatments. Classification of disorders in the DSM IV is utilized **Semester Hours:** 3 to 3

EPSY 6350 - Theories of Personality Development and Change
Advanced course in personality theory intended to assist students in becoming aware of their personal theory of personality and its implications for change. Students are introduced to an array of personality theories, taught to recognize the assumptions of **Semester Hours:** 3 to 3

EPSY 6500 - Student Teaching: Implementation and Reflection
Involves an extended period (usually one school year) of apprenticeship teaching under the daily supervision of mentor/master teachers. Over time, the student discusses teaching strategies with the mentor and a university supervisor--and takes on increasing **Semester Hours:** 2 to 4

EPSY 6600 - Human Motivation
Reviews the research on human motivation. Various theories of human motivation are examined in-depth, and their applications are considered for both teacher and learner in educational settings, primarily (and, in other settings, secondarily). Prereq: EPSY **Semester Hours:** 3 to 3

EPSY 6840 - Independent Study: EPSY
**Semester Hours:** 1 to 4

EPSY 6910 - Practicum in Educational Psychology
Field-based experiences in settings (schools, businesses, governmental agencies, special projects) that are linked closely to the student's professional objectives. Requires a minimum of 150, 225 or 300 clock hours under supervision (two-four credit hours **Semester Hours:** 2 to 4

EPSY 6950 - Master's Thesis
**Semester Hours:** 4 to 4

EPSY 7601 - Special Topics: Laboratory in Educational Leadership and Innovation
Laboratories are organized by professors to engage students in on-going research programs. They provide opportunities for students to extend and apply knowledge and skills developed in course work. The laboratories enable students to complete portfolio re **Semester Hours:** 1 to 6

EPSY 7910 - Educational Psychology Practicum
**Semester Hours:** 2 to 4

**Ethnic Studies Courses (ETST)**

**ETST 1111 - Freshman Seminar**
*Semester Hours: 3 to 3*

**ETST 2000 - Introduction to Ethnic Studies**
Multi-disciplinary survey of contemporary and historical research analyses of the diverse social, economic, political, and cultural facets of African American, American Indian, Asian American, and Latino communities and cultures. *Semester Hours: 3 to 3*

**ETST 2024 - Race and Ethnic Relations**
Surveys race and ethnicity, facts and myths about great populations, and the social and cultural sources of bias and discrimination. *Semester Hours: 3 to 3*

**ETST 2036 - American Indian Cultural Images**
Analysis of images and perceptions of American Indians in American culture, as seen in politics, education, film, photography, advertising, art, literature and the media. *Semester Hours: 3 to 3*

**ETST 2105 - African American Contemporary Social Issues**
Exposes students to those areas of intellectual, social, cultural, economic, political, and educational concerns relevant to the African American experience. Principally an introductory survey of primary issues currently affecting the African American population. *Semester Hours: 3 to 3*

**ETST 2115 - Genocide in the 21st Century: Darfur and Beyond**
Introduces students not only to the first genocide of the twenty-first century, in which over 400,000 ethnic Sudanese have been forcibly wiped out and millions displaced, but also studies the root cause of genocide and some of the past genocides. *Semester Hours: 3 to 3*

**ETST 2125 - The Bi-Racial Family**
Covers specific issues related to the biracial/bicultural family in the U.S., including the socio-cultural factors involved. Parenting concerns and skills for professional application will be included. *Semester Hours: 3 to 3*

**ETST 2145 - The Gullah in Novel and Film**
Explores the history and culture of a distinct group of African Americans known as Gullah/Geechee, whose ancestors were brought to the U.S. as part of a specialized and often illegal slave trade that existed in coastal South Carolina and Georgia. *Semester Hours: 3 to 3*

**ETST 2155 - African American History**
Surveys the history of African Americans. Study interpretations, and analysis of major problems, issues, and trends affecting the African American population from pre-slavery to the present. *Semester Hours: 3 to 3*

**ETST 2165 - Cultural Diversity Awareness in the Workplace**
An analytical assessment aimed at understanding the impact and effectiveness of cultural diversity awareness. Participants focus on understanding their own cultural biases, recognizing the impact of cultural values, and gain an appreciation for the value of diversity in work organizations. *Semester Hours: 3 to 3*
ETST 2294 - Race and the Media
Virtually all Americans are susceptible to the blatant and subtle socializing and conditioning effects of the modern media (film, television, the internet). Explains the variety of cultural values transmitted through the media, with particular emphasis on racial issues. Semester Hours: 3 to 3

ETST 2400 - Issues in Chicano/a Education
Historical overview of segregation, landmark court cases and immigration policy in the education of Chicano/as in Colorado and nationally from 1920 to the present. The intersection of these issues in the education of undocumented students is also examined. Cross-listed with TCED 2400. Semester Hours: 3 to 3

ETST 2496 - American Indian Literature
Introduces American Indian literature and other expressive forms, with emphasis on their aesthetic, linguistic, psychological, and historical properties, as well as the contemporary social and cultural influences upon native authors and their material. Semester Hours: 3 to 3

ETST 2606 - The American Indian Experience
Surveys the relationships between Indian and non-Indian peoples, particularly in the context of the unique interaction between tribes and the federal government. Cross-listed with RLST 2680. Semester Hours: 3 to 3

ETST 2840 - Independent Study: ETST
Semester Hours: 1 to 3

ETST 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

ETST 3001 - Urban Sociology
The city and urban society are examined in terms of social structure, residential and institutional patternings, process of interaction, demographic processes, and patterns of growth and change. Prereq: SOCY 1001 or permission of instructor. Cross-listed with SOC 3001. Semester Hours: 3 to 3

ETST 3002 - Ethnicity, Health and Social Justice
Surveys core issues contributing to racial or ethnic minority differences in health status. Historical and contemporary U.S. health and social policy, including the areas of environmental health, sexual and reproductive health, children and immigrants, are examined. Cross-listed with HBSC 3002 and PBHL 3002. Semester Hours: 3 to 3

ETST 3010 - Conference Participation
Semester Hours: 1 to 1

ETST 3108 - Chicano/a and Latino/a History
An historical analysis of person's descendant from Mexico and Latin America. Areas of focus include ethnohistorical backgrounds, current interrelations, and social movements in both rural and urban groups. Other topics include: cultural patterns, identity maintenance, social reforms and problems of national incorporation. Semester Hours: 3 to 3
ETST 3110 - Indigenous Studies
Examines how communities in diverse world regions preserve tradition, share knowledge, and respond to influences both within and outside of their immediate environments. **Semester Hours:** 3 to 3

ETST 3129 - Contemporary Latin American Literature
The best of contemporary Latin American novels. Examines how U.S. policies in Latin America affect literary creation. Note: Taught in English. **Semester Hours:** 3 to 3

ETST 3211 - Hip Hop Music & Culture
Covers the historical trajectory of hip hop music and culture from inception, aims to restructure stereotypes and offer a deeper perspective into how hip hop defines the identities of individuals as well as the consciousness of the masses within society. **Semester Hours:** 3 to 3

ETST 3216 - Federal Law and American Indians
Examines the legal and political history of the U.S. in relation to American Indian Nations. Focuses on specific laws and Supreme Court cases in federal Indian law, with analysis of U.S. policy. There will be some comparison with Indian policies of other countries. Cross-listed with PSCI 3214. **Semester Hours:** 3 to 3

ETST 3224 - U.S. Middle East Culture and Religion
Explores the history and development of the various major religions, cultures, and ethnic groups in the Middle East, their evolution and interaction in the U.S., and the historical impact and influence of the region, which continues to this day. Study of the region is timely and relevant due to U.S. involvement in various conflicts and peace efforts. **Semester Hours:** 3 to 3

ETST 3230 - African American Family
Exploration of the African American family social institution. Emphasis on historical roots and African influence is still enmeshed in the functioning of the family in modern society. Factors responsible for the ability of the family to meet the challenging society. **Semester Hours:** 3 to 3

ETST 3254 - Race and Ethnicity in the Inner City
This dynamic course combines aspects of urban studies and sociology. Contemporary cultural factors of the minority ghetto experience are investigated as elements in urban crisis. Emphasis is placed on possible solutions through government agencies and community organization. **Semester Hours:** 3 to 3

ETST 3272 - Global Media
Introduction to leading issues in the study of transnational media. The course will focus on the global media environment in the early 21st century, diverse countries, a variety of media, and social issues. **Semester Hours:** 3 to 3

ETST 3274 - Power, Poverty, Culture
Studies the process that has rendered certain groups poor for generations. Studies African Americans, Whites, Chicanos/as and Latinos/as, and other ethnic groups that have lived in this society in a state of poverty. **Semester Hours:** 3 to 3

ETST 3297 - Social History of Asian Americans
Introductory-level course surveys the social history of Asian American groups from the mid-19th century to the present. Examines immigration patterns, the development of communities, social and economic problems, and anti-Asian movements and activities. Cross-listed with SOCY 3297. **Semester Hours:** 3 to 3
ETST 3307 - Selected Topics: Asian Americans
Examines specific topics on Asian Americans to be selected by the instructor and the students. Detailed study of subjects relating to the Asian American experience and communities. **Semester Hours:** 3 to 3

ETST 3350 - Colonial Latin America
Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with HIST 3350. **Semester Hours:** 3 to 3

ETST 3357 - Asian American Literature
Readings in this course examine the experiences of men and women in different generations; how each group attempts to maintain traditional values in a foreign land, to assimilate, and to forge a new identity. Includes short stories, poetry, essays, and novels by leading Asian American writers. **Semester Hours:** 3 to 3

ETST 3365 - Aztlan in the United States: Chicano History from 1821
Explores the impact of U.S. rule on the Southwest, paying particular attention to legal, economic, and social changes that created new political and cultural identities in the Southwest. Cross-listed with HIST 3365. **Semester Hours:** 3 to 3

ETST 3394 - Literature of Social Protest from an Ethnic Perspective
The literature of social protest of various ethnic groups is examined from a literary perspective and with reference to political and social theories. **Semester Hours:** 3 to 3

ETST 3396 - History of the American Indian
Indigenous nations in North America comprise hundreds of diverse cultures. This course examines U.S. Indian policy and how indigenous nations responded; how they creatively adapted, and resisted cultural change; and how they continue to persist culturally, socially, and politically. Cross-listed with HIST 3396. **Semester Hours:** 3 to 3

ETST 3408 - Social Psychology of Latinos/as
Exposes students to research on Latinos/as in the areas of intelligence and achievement, language and learning ability, attitudes, perception and motivation. **Semester Hours:** 3 to 3

ETST 3567 - Asian American Women
Examines processes of change in values, roles, and relations of Asian American women, using contemporary and historical readings that address problems such as generational differences, assimilation, and changing roles. **Semester Hours:** 3 to 3

ETST 3574 - Topics in Ethnic Studies
Topics vary from term to term, based upon interest and availability of instructors in specialized areas. **Semester Hours:** 3 to 3

ETST 3616 - Selected Topics: American Indians
Detailed study of subjects related to American Indian experience and communities. Note: Specific topics to be selected by the instructor and students. **Semester Hours:** 3 to 3
ETST 3697 - Contemporary Asian American Issues
Examines several contemporary Asian American issues, including the adaptation of new immigrants and refugees, economic and educational problems, ethnic identity, intermarriage, anti-Asian discrimination and other civil rights issues, and recent political activism. **Semester Hours:** 3 to 3

ETST 3704 - Culture, Racism and Alienation
The effects of racism on the personality of participants in racist cultures. **Semester Hours:** 3 to 3

ETST 3794 - Ethnic Diversity in American Literature
Surveys the cultural perspectives of various ethnic writers and their contributions to American literature. **Semester Hours:** 3 to 3

ETST 3838 - History of the Mexican American in Colorado
Mexican Americans in Colorado from the 1800's to the present. Topics include founding of Colorado towns, labor strikes, farm worker issues, land and water rights, the Chicano Movement and political power. **Semester Hours:** 3 to 3

ETST 3840 - Independent Study: ETST
**Semester Hours:** 1 to 3

ETST 3842 - Independent Study: ETST
**Semester Hours:** 1 to 3

ETST 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

ETST 4000 - Research Methods in Ethnic Studies
Emphasizes the acquisition of a variety of data or information collection and analytic skills, especially those applicable to historical and social inquiry in ethnic studies. **Semester Hours:** 3 to 3

ETST 4144 - Indigenous Political Systems
Surveys political theory and practice in indigenous societies in the Americas. Examines the impact of indigenous political thought on Euro-American politics, especially the U.S. Constitution, and explores the contemporary impact of indigenous people on current politics. Cross-listed with PSCI 4144. **Semester Hours:** 3 to 3

ETST 4146 - Indigenous Politics
Surveys the status of the world's native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Cross-listed with PSCI 4146, 5145. **Semester Hours:** 3 to 3

ETST 4156 - The Arab-Israeli Peace Process
Critical analysis of Arab and Israeli perspectives on the on-going peace negotiations in the Middle East. Historical background and religious-cultural aspects of current problems. Prereq: Upper division standing. Cross-listed with PSCI 4156. **Semester Hours:** 3 to 3

ETST 4220 - African-American Literature
Surveys African-American literature with special emphasis on post-Civil War writing. Cross-listed with ENGL 4220 and 5220. **Semester Hours:** 3 to 3
ETST 4411 - Modern Mexico
Designed to familiarize students with the critical issues of Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 4411, 5411. **Semester Hours**: 3 to 3

ETST 4515 - The African American in Politics
Examines African American politics in the U.S.; the role of African American interest groups, structure and function of African American political organizations, goals and political styles of African American politicians, trends, and the future of African American politics in the United States. **Semester Hours**: 3 to 3

ETST 4555 - International Women’s Resistance
Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 4555/5555 and WGST 4555/5555. **Semester Hours**: 3 to 3

ETST 4558 - Chicano and Latino Politics
Analysis of the social, cultural, and economic factors that affect political behavior of Latinos. Special attention is paid to the Mexican American cultural heritage and to relations between Mexican Americans and Anglo Americans. Cross-listed with PSCI 4554. **Semester Hours**: 3 to 3

ETST 4574 - Special Topics
**Semester Hours**: 3 to 3

ETST 4616 - Selected Topics: Chicanos/as and Latinos/as
Examines various contemporary issues in ethnic studies regarding Chicanos/as and Latinos/as. **Semester Hours**: 3 to 3

ETST 4726 - North American Indian Art
Surveys major tribal styles of the North American continent. **Semester Hours**: 3 to 3

ETST 4730 - Peoples and Cultures of Sub-Saharan Africa
Covers various types of societies and civilizations that have existed in sub-Saharan Africa. Explores foragers, pastoralists, agricultural societies, chiefdoms, kingdoms, and empires, as these emerged and interacted with each other. Details their ideas and social orders, including the following topics: race, ethnicity, kinship, politics, economics, religion, magic, witchcraft, sorcery, marriage, age, gender, stratification, art, literature and oral traditions. Also addresses the impact of colonialism, the rise of nations, changes in the post-colonial period, warfare, and the impact of globalism on Africa today. Prereq: Upper division standing. Cross-listed with ANTH 4730 and 5730. **Semester Hours**: 3 to 3

ETST 4768 - Chicano/Chicana Narrative and Social History
Provides a general, chronological, and thematic introduction to short stories and novels written by U.S. citizens of Mexican descent. Begins with early 20th century narratives by women, continues with the corrido and Post-World War II male writers, and ends with more recent publications by contemporary women writers. Social, historical, and political backgrounds are also emphasized, along with an analysis of the literary techniques and motifs. Cross-listed with ENGL 4768. **Semester Hours**: 3 to 3
ETST 4827 - Women and the Law
Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with PSCI 4827 and WGST 4827. **Semester Hours:** 3 to 3

ETST 4840 - Independent Study: ETST
**Semester Hours:** 1 to 3

ETST 4960 - Senior Seminar in Ethnic Studies
Examines recent research in ethnic studies. Intended to be the capstone course for students minoring in ethnic studies. **Semester Hours:** 3 to 3
Film & Video Production Courses (FILM)

FILM 1060 - Camera/Multi-Media Production
In a lecture/lab setting, students will develop knowledge of equipment and skills in studio multi-camera production and the use of multi-media for live performances. Working together students will crew, produce and direct multi-camera studio and live productions. **Semester Hours:** 3 to 3

FILM 2050 - Film/Video Prod/Post II
Students create productions using three-chip digital cameras and advanced techniques. Preproduction through post-productivity working with actors, and maximizing production values are stressed. Students employ a range of cinematic techniques to tell stories, convey character state of mind, and communicate information and meaning. **Semester Hours:** 3 to 3

FILM 3100 - History of Film Production I
Surveys international film history from a production perspective from the origins of the medium to the development of sound. **Semester Hours:** 3 to 3

FILM 3150 - History of Film Production II
Surveys international film history from a production perspective, beginning with the introduction of sound to the present. **Semester Hours:** 3 to 3

FILM 3207 - Directing Workshop
Students work on scene studies rehearsed outside and presented in class. Emphasis is on capturing performance: working with actors and cameras to reveal character, deliver narrative and illuminate subtext. **Semester Hours:** 3 to 3

FILM 3264 - Advanced Digital Effects
Students will study software and create projects with advanced visual effects. With industry standard techniques in animation, applying compositing, image acquisition and motion graphics. Students will create a variety of projects by the end of the semester. **Semester Hours:** 3 to 3

FILM 3300 - Advanced Lighting for Film and Video
Students master film and video set lighting techniques for studio and locations. Focus is on art, technology, methodology, exposure, instruments, rigging and terminology. **Semester Hours:** 3 to 3

FILM 3400 - Intermediate Screenwriting
Emphasis is on creating character, conflict and structure through the use of theme, motifs, subplots, and story tone. Students complete the first act and a 25-page feature film treatment or the first draft of a feature-length script. **Semester Hours:** 3 to 3

FILM 3600 - Denver Film Festival
Students in this course will know how to contextualize films in terms of content and form. Through film viewing, written assignments, and critical analysis students learn to describe, classify and appreciate narrative, craft and artistic intent. **Semester Hours:** 3 to 3

FILM 4400 - Advanced Screenwriting
This course focuses on creating and refining a feature length dramatic script (90-120 pages). Students will view films, read essays and articles, and analyze styles. They will apply these techniques and use this information to improve their own work. **Semester Hours:** 3 to 3
FILM 4600 - Topics in Film
Specialized topics in film and video. **Semester Hours:** 1 to 3

FILM 4720 - Reel Prep
Students will work with a faculty member to prepare a sample of the student's creative work and projects in an "Industry standard" format used to secure employment. This work is referred to as an artist's "Reel". **Semester Hours:** 1 to 1

FILM 4840 - Independent Study: FILM
**Semester Hours:** 1 to 3

FILM 5500 - Writing for Episodic Television
Explores the constructive and critical process of writing prime-time dramatic television. Each student is guided through a series of viewings, readings, and writing exercises culminating with the written completion of an episode from a current television series. **Semester Hours:** 3 to 3

FILM 5600 - Topics in Film
Specialized topics in film and video. **Semester Hours:** 1 to 3

FILM 5840 - Independent Study: FILM
**Semester Hours:** 1 to 3
Fine Arts Courses (FINE)

**FINE 1001 - Introduction to Art**
The course introduces visual analysis and critical examination of art from prehistory to modern times. Through reading, vocabulary development, group discussions, tests, and research projects, students will learn how to appreciate art and critically evaluate form, content, and context. **Semester Hours:** 3 to 3

**FINE 1100 - Drawing I**
This course explores the act of drawing as a process of visual thought as an initial step to artistic expression. Students will develop an understanding of the basic principles of drawing as a way of learning to see. **Semester Hours:** 3 to 3

**FINE 1111 - Freshman Seminar**
**Semester Hours:** 1 to 3

**FINE 1120 - Digital Photography for Non-Majors**
Students will learn fundamentals of digital photography through creative assignments that promote a broad understanding of the photographic medium. Topics include digital camera operation, sizing and resolution, principles of design, and interpreting photographic meaning. This course is designed for non-art majors. **Semester Hours:** 3 to 3

**FINE 1140 - Topics in Photography**
**Semester Hours:** 1 to 3

**FINE 1150 - Introduction to Darkroom Photography**
Students learn traditional, film-based photographic practice. Topics such as camera functions, film processing, black and white darkroom printing, color theory and alternative darkroom techniques are explored through demonstrations, critiques, readings and discussions of historical and contemporary photography. **Semester Hours:** 3 to 3

**FINE 1400 - Two Dimensional Design**
Focuses on the concepts and visual elements of all forms of two-dimensional art. Students gain an understanding of basic design principles as they analyze and visually articulate formal concerns in viewing contemporary and historical artworks as applied to studio problems. **Semester Hours:** 3 to 3

**FINE 1435 - Intro to Electronic Art and Design**
A lecture/art-studio course for high school students that provides an introduction to the computer and its artistic and commercial possibilities. Through projects, lectures, discussions and readings, students explore techniques of production including digital photographic manipulation, sound editing, and web animation. **Semester Hours:** 2 to 2

**FINE 1500 - Three-Dimensional Design**
Students explore the elements of art and the principles of design applied to three-dimensional design while developing an understanding of material properties, techniques, processes and tools. Creative practice is accompanied by written, theoretical and verbal critical thinking skills. **Semester Hours:** 3 to 3

**FINE 1810 - Digital Animation Foundations: Producing Animation**
A lecture/lab course that explores the theory, practices and fundamentals of producing 3D animation. Students will explore the foundations of the animation process including the production pipeline, studio
organizations, traditional animation techniques, foundational cinematography, storyboarding and character development. **Semester Hours:** 3 to 3

**FINE 1820 - Digital Animation Foundations: Introduction to Digital 3D**
A lecture/lab course that explores the foundations of creating digital 3D content. Primary focus is an introduction to current 3D software. Class lectures, demonstrations and hands-on application will expose the student to the expectations for commercial high-end 3D animation production. **Semester Hours:** 3 to 3

**FINE 2010 - The Graphic Novel Workshop**
This course introduces students to the visual language of the graphic novel through the creation of sequential imagery and page development. Students will delve into the pictorial methods found in both historical and contemporary comic books, Manga and alternative cartooning. **Semester Hours:** 3 to 3

**FINE 2015 - Intermedia Foundations**
Students will develop techniques, strategies and methodologies for investigating contemporary ideas informed by theories of visual culture while implementing critical concepts into creative production centered in digital media. Course work includes creative projects, research assignments, critiques and presentations. **Semester Hours:** 3 to 3

**FINE 2030 - Life Drawing**
This course introduces the student to the human figure, addressing anatomy, movement and proportion. Discussion of historic and contemporary critical methods supplement studio practice. Exploring a variety of drawing media, students expand their drawing skills. **Semester Hours:** 3 to 3

**FINE 2130 - Experiments in Color/Photography for Non-Majors**
Explores both practical and innovative ways to manipulate color materials. Students gain technical mastery in understanding their cameras, using creative camera controls, color balancing film, and exposing color film while creating a portfolio of work that reveals experimental and innovative uses of color photographic materials. **Semester Hours:** 3 to 3

**FINE 2140 - Topics in Photography**
**Semester Hours:** 1 to 3

**FINE 2155 - Introduction to Digital Photography**
Students learn digital image manipulation, input and output strategies, and digital camera functions through assignments that emphasize conceptual development. Presentations, readings, projects and class discussions help students gain an understanding of the role of digital imaging in contemporary photography. **Semester Hours:** 3 to 3

**FINE 2200 - Painting I**
This course is an introduction to the language of painting. Students will learn to develop composition in layers, working from value to color and from direct observation to abstraction while exploring the range of visual possibilities that painting offers. **Semester Hours:** 3 to 3

**FINE 2405 - Introduction to Digital Design**
A project-based exploration of the design potentials of vector, raster and motion based digital media. Through project critiques, discussion and demonstration students will create projects that examine technology as an art medium and a design strategy. **Semester Hours:** 3 to 3
FINE 2415 - Typography Studio
A studio course that teaches principles of typography and organization that is the foundation of design and artistic practice. Through drawing, editing, and moving typographic forms, students will create projects that examine how typography is used to create meaning. **Semester Hours:** 3 to 3

FINE 2428 - Introduction to Scientific Media Design
Through lectures, writings, readings, and discussions students will be introduced to Scientific Media Design as a profession as well as the history and emerging directions in the field. **Semester Hours:** 3 to 3

FINE 2500 - Bronze Casting and Metal Sculpture
Students learn lost wax casting with ceramic shell investment and bonded sand. Modeling, foundry work, centrifugal casting and welding for cast metal is introduced, as is steel fabrication and mixed media. Individual vocabularies are explored and design skills required. **Semester Hours:** 3 to 3

FINE 2510 - Wood and Metal Sculpture
Wood, metal fabrication and introduction of the found object are premise for the exploration of individual visual vocabularies. Investigation and design are applied towards developing conceptual ideas while students advance skills in the metal and wood studios. **Semester Hours:** 3 to 3 **When Offered:** FALL

FINE 2600 - Art History Survey I
A lecture course studying Western art from cave paintings to medieval times, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the arts. **Semester Hours:** 3 to 3

FINE 2610 - Art History Survey II
A lecture course studying Western art from the Renaissance to the present, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students will demonstrate knowledge of historical development **Semester Hours:** 3 to 3

FINE 2810 - Digital Animation Techniques: Surface Modeling
A lecture/lab course focused on the mastery of creating surface models for digital 3D content. Students will develop skills/knowledge about the processes and techniques for building complex 3D objects with an emphasis on artistic excellence through application of current 3D technologies. **Semester Hours:** 3 to 3

FINE 2820 - Digital Animation Techniques: Surface Properties
A lecture/lab course focused on mastery of creating surface textures/materials for digital 3D content. Students will develop skills/knowledge about the processes and techniques for creating realistic 3D textures/materials with an emphasis on artistic excellence through application of current 3D technologies. Note: Offered through Extended Studies (Continuing and Professional Education) due to separate tuition structure. Acceptance to the Digital Animation Center is competitive by interview/portfolio review with the Area Head for the program. **Semester Hours:** 3 to 3

FINE 2830 - Digital Animation Techniques: Lighting
A lecture/lab course focused on mastery of lighting the digital 3D environment. Students will develop skills/knowledge about the processes and techniques for creating realistic 3D lighting/lighting effects with an emphasis on artistic excellence through application of current 3D technologies. **Semester Hours:** 3 to 3
FINE 2850 - Digital Animation Techniques: 3D Character Creation
A lecture/lab course focused on mastery of skills for creating digital 3D characters. Students will develop skills/knowledge to shape, mold, transform/articulate, deform digital 3D shapes creating digital characters with an emphasis on artistic excellence through application of current 3D technologies. **Semester Hours:** 3 to 3

FINE 2995 - Travel Study
Created for students doing travel study in a foreign country. Students register through the Office of International Education. **Semester Hours:** 1 to 15

FINE 3001 - Digital Illustration Studio
This course focuses on digital mixed media and design thinking in the creation of illustrations within design constraints established by the client rather than the artist. Students learn methods for design thinking, critical assessment and refinement of illustration processes. **Semester Hours:** 3 to 3

FINE 3002 - Spatial Draw for Illustrators
Spatial Drawing for Illustrators focuses on the visualization of three-dimensional subjects in pictorial space. Theoretical and historical concepts of linear and optical perspective are examined; projects cover traditional and modernist approaches to creating the illusion of space. **Semester Hours:** 3 to 3

FINE 3015 - Interdisciplinary Practices
By creating a variety of assigned projects, students will learn interdisciplinary methods relevant to contemporary visual culture. Ultimately they will understand these concepts and their importance within creative production through assigned readings, class discussions, critiques and presentations to their peers. **Semester Hours:** 3 to 3

FINE 3030 - The Media of Drawing
This course introduces students to the notion of drawing from life through an exploration of drawing methods/materials in the creation of artist's books- including learning various binding techniques and studying movement and juxtaposition as we draw in and from these books. **Semester Hours:** 3 to 3

FINE 3050 - Figure Painting
This course is an exploration of representing the human form in pictorial space. Students will gain a knowledge of figural color, proportion, scale and space; and will understand the conceptual and visual weight carried by expressive gesture and figural **Semester Hours:** 3 to 3

FINE 3110 - Imaging and Identity
A lecture course that analyzes representations of cultural diversity within the arts. Through visual analysis, vocabulary acquisition, discussion, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to pursue critical thinking when interpreting imagery. **Semester Hours:** 3 to 3

FINE 3120 - Visual Culture Studies
A lecture course about visual culture, theory, and literacy since the Industrial Revolution. Through visual analysis, vocabulary acquisition, discussion, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze imagery. **Semester Hours:** 3 to 3

FINE 3130 - Photography, Optics and Perspectives in Italy
In this study abroad seminar course, students develop an understanding of their work within the context of the history of art and photography, particularly the artistic and scientific breakthroughs of the
Renaissance, by exposing them to strategies and theories exemplified by the remarkably diverse and historically significant artwork that is available in collections in Florence, Italy. **Semester Hours:** 3 to 3

**FINE 3135 - Historic Photographic Processes in Italy**
Investigates the relationship between critical concepts and alternative photographic processes in the unique cultural and artistic setting of Florence, Italy. Students create images using historic photographic methods such as salted paper, P.O.P., albumen, photo-polymer gravure and bromoil. **Semester Hours:** 3 to 3

**FINE 3150 - Feminism and Art**
A lecture course about feminist art, activism, theory, and artists. Through visual analysis, vocabulary acquisition, discussion, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze art. **Semester Hours:** 3 to 3

**FINE 3160 - Color and Studio Lighting**
Students explore traditional color photography, lighting techniques, concept development, and expressive uses of the medium. Topics include chromogenic printing, color theory, 4x5 technique and studio lighting. Students gain insight into the creative imp **Semester Hours:** 3 to 3

**FINE 3161 - The Silver Fine Print**
Students learn advanced black and white darkroom techniques while translating ideas into photographic form. Techniques include the zone system, split filter printing, toning, montage printing, and film/paper choices. Students gain insight into photograp **Semester Hours:** 3 to 3

**FINE 3162 - The Digital Fine Print**
Students learn the art of digital printing as it relates to photographic practice and theory. Assignments focus on conceptual development, advanced image manipulation, workflow, color management. Students gain insight into the role of digital imaging in **Semester Hours:** 3 to 3 **When Offered:** FALL

**FINE 3171 - Concepts and Processes in Photography**
Students develop skills in alternative photographic techniques. Processes covered include camera-less and pinhole photography, reticulation, non-silver printing, liquid emulsions, digital/traditional cross-manipulation. Students gain insights into the r **Semester Hours:** 3 to 3

**FINE 3172 - Digital Bookmaking**
Students create handmade artists books using digital technologies. Projects build skills in idea development, use of text and image, digital image manipulation, digital printing, scanning and bookbinding. Students learn strategies for creating visual na **Semester Hours:** 3 to 3

**FINE 3175 - Creative Commercial Applications**
Students learn how photographers apply creative, technical and conceptual skills to commercial photographic practice. Topics covered may include editorial strategies; studio or location photography; commercial business practices; advertising photography; **Semester Hours:** 3 to 3

**FINE 3200 - Intermediate Painting and Drawing I**
In this course students develop a body of work that expands on previous course work, to make the transition from assignment-based work to an independent body of work, and to prepare for advanced level study in painting and drawing. **Semester Hours:** 3 to 3
FINE 3210 - Intermediate Painting and Drawing II
In this course students continue to develop a body of work begun in Intermediate I, making the transition from assignment-based work to an independent body of work. Students are prepared in Intermediate II for advanced study in painting and drawing. **Semester Hours:** 3 to 3

FINE 3220 - Intermediate Drawing
In this course students develop an artistic voice through the creation of a series of work that stretch a chosen concept. Students will explore complex approaches to the picture plane and search our unique motifs, juxtapositions and frames of reference. **Semester Hours:** 3 to 3

FINE 3230 - Abstract Drawing
This course explores abstract drawing as a focus for creative expression through the concept, methods and techniques of abstraction. Students explore strategies in abstract composition, mark-making and expressive use of materials as they develop a complex visual vocabulary of form. **Semester Hours:** 3 to 3

FINE 3240 - Abstract Painting and Drawing
This course explores the methods of abstraction as applied to painting and drawing. Through developing a body of paintings and drawings, students will gain an understanding of complex formal structures in the development of their work. **Semester Hours:** 3 to 3

FINE 3250 - Sculpture: Contemporary Artists and Concepts
Provides the art student (sculpture majors and non-majors) with a focused opportunity to look at contemporary sculpture, installation and performance art and to examine the philosophical issues, processes and methods motivating practicing artists today. **Semester Hours:** 3 to 3

FINE 3260 - Portraiture
This is an advanced course in portraiture using both drawing and painting media. Working from observation and focusing on the anatomical structure, the artist will gain a greater command in portraying complex expressions of the human face. **Semester Hours:** 3 to 3

FINE 3300 - Painting, Drawing and the Printed Image
This course explores the role of technology in the history of painting/drawing alongside studio practice. Students produce works that explore personal symbolism through the combination of graphically printed and hand-produce marks while utilizing technolo **Semester Hours:** 3 to 3

FINE 3310 - Drawing and the Printed Image
The role of the printed image and technology in relation to drawing is explored. Student will produce works of art that combine photomechanical imagery with the hand painted mark by utilizing digital technology and screen printing in combination with painting. **Semester Hours:** 3 to 3

FINE 3340 - Topics in Studio Art
**Semester Hours:** 1 to 3

FINE 3342 - Topics in Studio Art
**Semester Hours:** 1 to 3

FINE 3343 - Topics in Studio Art
**Semester Hours:** 1 to 3
FINE 3350 - Topics in Multimedia
Specialized topics are offered in new multimedia technologies, theories, processes and conceptual thinking. Course titles are unique and changing semester to semester. **Semester Hours**: 3 to 3

FINE 3400 - Introduction to Web Design and Digital Imaging
A studio course for non-design-majors that explores the design and creation of web sites for personal and professional use. Through critiques, discussion and research, students learn the basics of digital imaging and illustration as well as principles of user-interface design. Note: class may not be taken by Digital Design majors for credit toward degree. **Semester Hours**: 3 to 3

FINE 3405 - Introduction to Digital Video
A studio course for non-design-majors that focuses on the basics of storytelling using digital video. Through class projects, screenings, discussions and readings, students explore the concepts of montage and strategies to develop compelling video for art **Semester Hours**: 3 to 3

FINE 3414 - Motion Design I
A course devoted to understanding time based imagery that focuses on utilizing video and motion graphics as a creative communication tool. Students create projects that explore topics using video, animation, time and motion using a non-linear digital editing software. **Semester Hours**: 3 to 3

FINE 3415 - Design Studio I
In a design laboratory students learn to turn ideas into visual solutions through the application of design principles. Through lectures, writings, readings, discussion and critiques of projects assigned students will build visual literacy in relation to digital design. **Semester Hours**: 3 to 3

FINE 3424 - Interactive Media
A course exploring how interactive media can be used to convey a message and deliver information. Through critiques, discussion and research, students will learn principles of user interface design, aesthetics and structure including their potential cultural impact. **Semester Hours**: 3 to 3

FINE 3434 - 3D Motion Design
A course devoted to 3D as a medium for creating works of art. Through demonstration, discussion, readings and project based explorations, students will learn to navigate and create in the 3D digital environment. **Semester Hours**: 3 to 3 **When Offered**: FALL

FINE 3438 - Text, Image and Electronic Art
A workshop-laboratory devoted to examining advanced concepts concerning the role of image and text within time-based and interactive media in design/artistic practices. Through creative investigations, readings and discussion students consider the new and **Semester Hours**: 3 to 3

FINE 3444 - Interactive Media II
An intense course devoted to using interactivity as a medium for communicating ideas and information. Through creative investigations, readings and discussions, students will create projects that explore active viewer participation using vector/ raster animation, non-linear editing and viewer interaction. **Semester Hours**: 3 to 3 **When Offered**: FALL

FINE 3448 - Scientific Media Design I
In a studio environment students will engage in the profession of scientific media design via tailored projects with local scientists and organizations. Through readings, discussions and critiques, students will examine best practices in visual communica **Semester Hours**: 3 to 3 **When Offered**: FALL
FINE 3450 - Digital Painting
Digital Painting is a studio designed for student exploration of artistic expression using digital tools for traditional painting and illustration techniques. **Semester Hours:** 3 to 3

FINE 3454 - Motion Design II
An intense course devoted to using time and motion as a medium for communicating ideas and information. Through creative investigations, readings and discussions students explore linkages between non-linear editing, animation and 3-dimensional animation. **Semester Hours:** 3 to 3 **When Offered:** SPRING

FINE 3464 - Design Studio II
In a studio environment students will develop advanced projects using animation, interactivity and motion graphics to create innovative solutions to design problems. Students will learn to apply design theory to practice through discussion, critiques and **Semester Hours:** 3 to 3 **When Offered:** SPRING

FINE 3474 - Narrative and Experience
A workshop-laboratory that focuses on narrative structure and its ability to create, control and manipulate viewer and user-experience. Through creative explorations, students will examine issues of identity, reception and audience and develop approaches. **Semester Hours:** 3 to 3 **When Offered:** SPRING

FINE 3500 - Modeling and Casting the Figure
Study of the human figure from life and imagination directs visual vocabulary towards expression three dimensionally. Mold making using rubber, alginate and plaster is introduced for casting in metal, resin, synthetics, plastic, paper and biodegradable materials. Drawing is included. **Semester Hours:** 3 to 3 **When Offered:** SPRING

FINE 3505 - Sculpture Topics
Developed to cover new technical and conceptual areas of sculpture. Some topics may expand traditional processes, others may introduce new processes and ideas. **Semester Hours:** 3 to 3

FINE 3510 - Installation Art
Students learn to modify the way a particular space is experienced through material intervention in everyday public or private spaces. Material use ranges from everyday and natural materials to new media such as video, sound, performance, computers and the Internet. **Semester Hours:** 3 to 3

FINE 3515 - Public Art
Students connect with professional/visiting artists installing public art works on campus for the Auraria Sculpture Park. Public relations, installation techniques, curatorial and administration skills are developed. Students learn to establish, maintain and promote the current sculpture collection on campus. **Semester Hours:** 3 to 3

FINE 3520 - Sculpture: Contemporary Artists and Concepts
Provides the art student (sculpture majors and non-majors) with a focused opportunity to look at contemporary sculpture, installation and performance art, and to examine the philosophical issues, processes, and methods, motivating practicing artists today. **Semester Hours:** 3 to 3

FINE 3525 - Environmental Sculpture
Students create environmental site-specific work to exist in a certain place. This involves temporary outdoor landscaping combined with permanently site sculptured elements. The format, the political, the
historical, or the social context of the natural environment will be explored. **Semester Hours:** 3 to 3

**When Offered:** FALL

**FINE 3530 - Iron Casting**
Students will learn traditional and innovative mold making techniques for casting iron. Working with lost wax, sand molds and space age materials students will cast ingots molds to final object. Furnace and Cupola design and fabrication techniques are researched. **Semester Hours:** 3 to 3  **When Offered:** SPRING

**FINE 3535 - Sculpture Rendering**
Students apply traditional and mixed media drawing skills, photography and digital reproduction to depict the sculptural object in two and three-dimensional space. Students learn to construct small-scale models and develop sculpture proposals. Drawing as sculpture medium is explored. **Semester Hours:** 3 to 3  **When Offered:** SPRING

**FINE 3600 - Art History Survey III: Non-Western Art**
A lecture course on nonwestern art, including major cultures, periods, and artists. Through visual analysis, vocabulary acquisition, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze t **Semester Hours:** 3 to 3

**FINE 3630 - History of Photography**
Students examine the history of photography from its origins to the present. Emphasis is placed on photography as an artistic medium. Topics covered include important movements, photographers, and technical innovations, as well as photographer's broader role in visual culture. **Semester Hours:** 3 to 3

**FINE 3631 - Photography: Theory and Criticism**
Students investigate the historical texts of photographic criticism. Readings relate to photography as a fine art form, concentrating on 1970 to the present. Through discussions, readings and critical writing, students examine and appreciate the signif **Semester Hours:** 3 to 3

**FINE 3635 - Photography Now**
Students investigate trends in fine art photography from 1990 through the present. By examining current topics, styles, and techniques students gain insights into contemporary photographic practice and its relationship to the history and future of the me **Semester Hours:** 3 to 3

**FINE 3640 - Topics in Art History**
**Semester Hours:** 1 to 3

**FINE 3644 - Topics in Art History**
**Semester Hours:** 1 to 3

**FINE 3810 - Digital Animation Studio: Set/Environment Design**
A mid-program capstone studio course focuses on developing a project from preproduction through final product using a standard production pipeline model within a collaborative work environment. Students will design and create high-production value CG set/environment utilizing current 3D technologies.  **Semester Hours:** 3 to 3

**FINE 3820 - Digital Animation Techniques: Rigging and Animation**
A lecture/lab course focused on mastery of skills for rigging and animating digital 3D objects/characters. Students explore the processes/techniques of animation rigging, its relationship to the skeletal/muscular
articulated joints for manipulating character bones, muscle deformations, clothes and facial features. **Semester Hours:** 3 to 3

**FINE 3830 - Digital Animation Technique: Character Animation**
A lecture/lab course focused on mastery of skills for animating digital 3D objects/characters. Students explore the process/techniques of key frame/pose-to- pose animating considering character performance, thought, constraints and velocity with an emphasis on artistic excellence through applications of current 3D technologies. **Semester Hours:** 3 to 3

**FINE 3845 - Digital Animation Discovery and Preproduction Seminar**
A seminar course focused on the development and preproduction phases for the DAC senior thesis short. The principle focus of the course will be story development, preproduction activities and organizing the production team and production pipeline for the thesis short. **Semester Hours:** 3 to 3

**FINE 3850 - Digital Animation Techniques: Dynamic Simulation**
A lecture/lab course exploring the theory/techniques of dynamic and particle simulations for 3D content. Students explore how to develop effects (smoke, fire, steam, explosions) and dynamic materials (cloth), with an emphasis on artistic excellence through application of current 3D technologies. **Semester Hours:** 3 to 3

**FINE 3939 - Internship**
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. **Semester Hours:** 1 to 3

**FINE 3995 - Travel Study**
Created for students doing travel study in a foreign country. Students register through the Office of International Education. **Semester Hours:** 1 to 15

**FINE 4000 - Advanced Drawing I**
This course is the first advanced level study of drawing. Students will explore techniques and develop a rigorous body of drawings that express their concepts and theories through various processes needed in creating an independent body of work. **Semester Hours:** 3 to 3

**FINE 4001 - Adv Illustration Studio I**
Advanced Illustration Studio I is a conceptual illustration studio course that focuses students on assigned problems with constraints. Design-thinking methods and research are used to communicate a concept and discover the potentials of illustration media from plastic to digital. Prereq: FINE 3002 and 3260. **Semester Hours:** 3 to 3

**FINE 4002 - Adv Illustration Studio II**
In preparation for BFA Thesis, students refine their visual voice within a marketplace context. Students learn essential illustration marketing and business practices in order to develop a portfolio for a particular market or gallery setting. Prereq: FINE 4001 and 4020. **Semester Hours:** 3 to 3

**FINE 4003 - Adv Illustration Studio III**
Advanced Illustration Studio III is a capstone course and the culmination of the Illustration Program. Students focus on the development of individual style and the refinement of a portfolio made ready for submission. Prereq: FINE 4002. **Semester Hours:** 3 to 3
FINE 4010 - Advanced Drawing II
This course is the second advanced level study of drawing. Students will create a more rigorous and challenging body of work that emphasizes a stylistic development of critical ideas and methodologies that were developed in the first level of advanced drawing. **Semester Hours:** 3 to 3

FINE 4020 - Anatomy for the Artist
An intensive study of the human figure, focusing on its structure, movement and proportions. Skeletal and muscular systems are explored in depth using the classic texts of artistic anatomy to enhance students’ drawings from observation. **Semester Hours:** 3 to 3

FINE 4050 - Design in a Global Workplace
Through intensive participatory workshops, study tours, and lectures this class examines the advantages of interdisciplinary community-based collaboration. This class also examines the complexities of cross discipline collaborations including multiple professional agendas, political and business establishments and the needs of the community. **Semester Hours:** 3 to 6  **When Offered:** SUMMER

FINE 4100 - Painting & Drawing Theory & Practice
This course focuses on a study of critical art theory from 1900 to now and its effects on art practice. Students read, research, discuss writing, and produce artwork while forming connections between published critical theory and their own creative ideas. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. **Semester Hours:** 3 to 3

FINE 4140 - Topics in Photography
**Semester Hours:** 1 to 3

FINE 4195 - Advanced Photography I
Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. **Semester Hours:** 3 to 3

FINE 4196 - Advanced Photography II
Students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. Students build expertise in the area of professional development in photography. **Semester Hours:** 3 to 3

FINE 4200 - Advanced Painting and Drawing I
This is the first level of advanced studies in painting/drawing where students create a body of work that expresses a more complex individual vision. Students learn to develop their artistic practice with self-directed processes in support of focused conc. **Semester Hours:** 3 to 3

FINE 4210 - Advanced Painting/Drawing II
This is the second level of advanced studies in painting/drawing in which students expand and refine their body of creative work in preparation for the BFA Thesis Exhibition and advance their artistic practice by articulating their sources, processes and **Semester Hours:** 3 to 3

FINE 4340 - Topics in Studio Art
**Semester Hours:** 1 to 3
FINE 4350 - Topics in Digital Design
Specialized topics are offered in new design technologies, theories, processes and conceptual thinking. Course subjects are unique and changing semester to semester. Semester Hours: 1 to 3

FINE 4400 - Design Studio III
Set up as a collaborative studio, students learn to identify problems in the cultural and urban environment and design solutions that address those problems. Through discovery and research students will learn how design can be a catalyst for change. Semester Hours: 3 to 3 When Offered: FALL

FINE 4434 - Virtual Landscapes
In a studio environment students will explore place in relation to contemporary digital art practice. Through readings, lectures and production of projects assigned, students will create work that addresses the natural, urban and virtual environment. Semester Hours: 3 to 3

FINE 4448 - Scientific Media Design II
In a collaborative environment, students work with real-world clients to create innovative design solutions to scientific problems. Through advanced visualization techniques, discussions, and critiques, students examine thesis topics and learn how process is central to Scientific Media Design. Semester Hours: 3 to 3

FINE 4450 - Social Engagement by Design
Through lectures, discussions and conducting onsite research in international settings, students will become familiar with professional practitioners' Perspectives and experiences in the field of socially engaged design while interrogating current practices, policies, and expectations that inform community engagement and by Design. Semester Hours: 3 to 6 When Offered: SUMMER

FINE 4480 - The Practice of Design
Through lectures, studio visits and research, students will engage the profession and examine the role of the artist as a designer. Projects will focus on resumes, interview techniques, portfolio and business practices to prepare students for entering the profession. Semester Hours: 3 to 3 When Offered: FALL

FINE 4495 - Design Studio IV: Thesis
Through critique, research, and writing students will critically explore a thesis topic and develop professional quality visual solutions. Students will create work that expresses their personal artistic vision in relation to significant contemporary and historical artists and practice. Semester Hours: 3 to 3 When Offered: SPRING

FINE 4500 - Kinetic Sculpture
Students explore movement and balance in sculptural work using pivot points and motors. Sound, projection, sensors and mechanics provide cause and effect scenarios in conjunction with knowledge, materials, and techniques acquired to date in the program. Semester Hours: 3 to 3 When Offered: FALL

FINE 4505 - Performance Art
Students use the human body as a vehicle and premise to examine social, political and personal concerns through events and situations around conceptual idea, time, space, and a relationship between performer and audience. Site, object and documentation are integral components. Semester Hours: 3 to 3 When Offered: SPRING
FINE 4510 - Advanced Sculpture
Individual decision-making is stressed in developing a strong body of work. Competent technical skills and conceptual ideology are expanded to achieve complete visual experiences and development of conceptual ideas. Semester Hours: 3 to 3

FINE 4520 - Performance/Installation in Fine Art
Individual and collaborative projects, pieces, and events that develop one's attitudes, trust, and abilities to express through the awareness of space, environment, and the human condition and body. Semester Hours: 3 to 3

FINE 4522 - Interdisciplinary Art in Ireland
The interdisciplinary course introduces students to the methods and concepts of contemporary site-specific art as critical theory through lecture and critique and as practice in the rural/urban landscape and studio along Ireland's County Clare coastline in the Burren region. Semester Hours: 6 to 6

FINE 4524 - Topics in Art History
Semester Hours: 3 to 3

FINE 4525 - Museum Studies
A seminar about museums and art galleries as institutions for the preservation and exhibition of cultural materials. Through writing assignments, discussions, site visits, and analysis, students will demonstrate knowledge and critical thinking on the dis Semester Hours: 3 to 3

FINE 4600 - History of Modern Design: Industrial Revolution-Present
A lecture course involving the history of design from the Industrial Revolution to the present. The course will address the graphic design, typography, architecture, Decorative arts, and new media from each period/major design movement in that time frame. Semester Hours: 3 to 3

FINE 4610 - Pre-Columbian Art
A lecture course on the art and architecture of Mesoamerica and the Andes before the Spanish conquest. Through visual analysis, vocabulary acquisition, discussion, exams, and writing assignments, students will demonstrate knowledge of historical developments Semester Hours: 3 to 3

FINE 4620 - American Art
A lecture course on the art of the United States from colonial times to the present. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability Semester Hours: 3 to 3

FINE 4625 - Studio Creative Process
Provides students with an understanding of the artistic creative process which is learned through an examination of pre-studio, studio and post-studio practices. Prereq: Must have at least two art history survey courses. Semester Hours: 3 to 3

FINE 4630 - History of Latin American Art:1520-1820
A lecture course studying Latin American art of 1520-1820, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the arts. Cross-listed with FINE 5630. Semester Hours: 3 to 3
FINE 4632 - Media History and Aesthetics
This survey class will present the current and historic impact of media technology on the arts and professional design practice. Through lectures, research and discussion students will become familiar with issues specific to digital media and design. **Semester Hours:** 3 to 3

FINE 4650 - Nineteenth-Century Art
A lecture course on European movements from the French Revolution through Postimpressionism. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 4660 - Twentieth-Century Art
A lecture course on art and architecture from Postimpressionism to the year 2000. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 4670 - Greek and Roman Art
A lecture course on art and architecture from ancient Greece and Rome. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 4680 - Art of the Middle Ages
A lecture course on western European art and architecture from the fourth to the fourteenth centuries. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 4690 - Renaissance Art
A lecture course on Renaissance art of Italy and Northern Europe, including the principal artists and concepts. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. Cross-listed with FINE 5690. **Semester Hours:** 3 to 3

FINE 4700 - Italian Renaissance Art
A lecture course about developments in Italian Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 4705 - Northern Renaissance Art
A lecture course about developments in Northern Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 4710 - Baroque and Rococo Art
A lecture course on Italy, Spain, France, England, and the Netherlands during the seventeenth and eighteenth centuries. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of his art. **Semester Hours:** 3 to 3

FINE 4712 - Applied Digital Media
This lab course provides students with the opportunity to execute practical applications in the use of digital 3D media for commercial and/or non-profit venue. **Semester Hours:** 1 to 3
FINE 4730 - Arts of Japan
A lecture course on selected themes and periods in Japanese art. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 4750 - Arts of China
A lecture course on selected themes and periods in the arts and architecture of China. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability **Semester Hours:** 3 to 3

FINE 4770 - Art of India and Southeast Asia
A lecture course on selected themes and periods in the arts of India and Southeast Asia. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability **Semester Hours:** 3 to 3

FINE 4790 - Methods in Art History
A seminar about the various research methodologies in the history of art. Through reading, discussion, research, writing assignments, and presentations, students will demonstrate knowledge of art historiography. **Semester Hours:** 3 to 3  **When Offered:** FALL

FINE 4810 - Digital Animation Studio: Animation Production I
First semester of a yearlong capstone focuses on production of the BFA thesis short. As a team, students assume key management/production roles to organize, produce and complete a high-production value animated short and student "demo reel" with real-world production pipeline. **Semester Hours:** 3 to 3

FINE 4820 - Digital Animation Studio: Animation Production Thesis
This third and final course in the three-semester capstone series focuses on the completion and marketing of the DAC short film, preparation for the BFA thesis defense, and development of the student's self-promotion demo reel and professional package (resume, website). **Semester Hours:** 3 to 3

FINE 4840 - Independent Study: FINE
**Semester Hours:** 1 to 3

FINE 4950 - Studio BFA Thesis
Studio: BFA Thesis involves the preparation, exhibition and critical faculty response to students? Creative work. Course work focuses on contemporary trends in the arts, the commerce of the arts and the professional practices necessary to an artist? Self-promotion. **Semester Hours:** 3 to 3

FINE 4951 - Bachelor of Art Thesis
A seminar that emphasizes creative and original research through the composition of a substantial paper on a topic in art history. Through discussion, presentations, and individual readings, students will demonstrate skills in research, writing, and critical faculties. **Semester Hours:** 3 to 3

FINE 4990 - Contemporary Art: 1960 to Present
A lecture course about developments in art and architecture since 1960. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the **Semester Hours:** 3 to 3
FINE 4995 - Travel Study
Created for students doing travel study in a foreign country. Students register through the Office of International Education. **Semester Hours:** 1 to 15

FINE 5000 - Graduate Drawing
Students are independently directed through an intensive process of critical investigation of drawing. Students will develop professional creative work through a rigorous exploration of process and content, while researching the role of contemporary drawing in artistic, cultural and social discourse. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: Graduate Level Standing. **Semester Hours:** 3 to 3

FINE 5020 - Graduate Anatomy for Artists
An intensive figure drawing course that focuses on structure, movement and proportions. Skeletal and muscular systems are studied using the classic texts of artistic anatomy. A research paper examining the figure in relation to architecture, perspective and pictorial narrative is also required. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. Prereq: Graduate Level Standing. **Semester Hours:** 3 to 3  
**When Offered:** SPRING

FINE 5190 - Graduate Photography
Graduate students create an independent body of photographic work that integrates sophisticated concepts with technical mastery. Through critiques, presentations and discussions, students relate subject matter to historical and contemporary context. **Semester Hours:** 3 to 3

FINE 5200 - Graduate Painting/Drawing I
An intensive painting course for students who want to further their development of an independent body of work beyond the advanced level. Students will produce mature work using self-directed means of rigorous artistic productivity based on previous body **Semester Hours:** 3 to 3

FINE 5210 - Graduate Painting/Drawing II
An intensive painting course for students who want to further their development of an independent body of work beyond the advanced level. Students will produce mature work using self-directed means of rigorous artistic productivity based on previous body **Semester Hours:** 3 to 3

FINE 5340 - Topics in Studio Art
**Semester Hours:** 1 to 3

FINE 5350 - Topics in Multimedia
Specialized topics are offered in new multimedia technologies, theories, processes and conceptual thinking. Course titles are unique and changing semester to semester. Prereq: Multimedia majors must have completed all required FINE 2000 level classes with a 2.75 GPA or have passed a portfolio review. Other majors must have permission of instructor as course prerequisites may vary depending on course subject matter. Priority seating is given to multimedia majors. **Semester Hours:** 3 to 3

FINE 5448 - Scientific Media Design III
Set up as a collaborative studio course, students work with real-world clients to create innovative design solutions to scientific problems. Through advanced visualization techniques, discussions, and critiques, students will learn how process is central to Scientific Media Design. **Semester Hours:** 3 to 3
FINE 5450 - Social Engagement by Design
Through lectures, discussions and conducting onsite research in international settings, students will become familiar with professional practitioners' perspectives and experiences in the field of socially engaged design while interrogating current practices, policies, and expectations that inform community engagement and by Design. **Semester Hours:** 3 to 6 **When Offered:** SUMMER

FINE 5500 - Graduate Sculpture I
A tutorial format which asks students to be self-directed. Conceptual ideology is expanded through research connected to projects. Portfolio documentation and presentation are required. **Semester Hours:** 3 to 3

FINE 5510 - Graduate Sculpture II
A self-directed format where students engage in mentored individualized projects as an extension of FINE 5500, Graduate Sculpture I. Conceptual ideology is expanded through research connected to projects. Portfolio documentation and presentation are required. **Semester Hours:** 3 to 3

FINE 5522 - Interdisciplinary Art in Ireland
The interdisciplinary course introduces students to the methods and concepts of contemporary site-specific art as critical theory through lecture and critique and as practice in the rural/urban landscape and studio along Ireland's County Clare coastline in the Burren region. **Semester Hours:** 6 to 6

FINE 5524 - Topics in Art History
**Semester Hours:** 3 to 3

FINE 5525 - Museum Studies
A seminar about museums and art galleries as institutions for the preservation and exhibition of cultural materials. Through writing assignments, discussions, site visits, and analysis, students will demonstrate knowledge and critical thinking on the display of art. **Semester Hours:** 3 to 3

FINE 5600 - History of Modern Design: Industrial Revolution-Present
A lecture course involving the history of design from the Industrial Revolution to the present. The course will address the graphic design, typography, architecture, decorative arts, and new media from each period/major design movement in that time frame. **Semester Hours:** 3 to 3

FINE 5610 - Pre-Columbian Art
A lecture course on the art and architecture of Mesoamerica and the Andes before the Spanish conquest. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 5620 - American Art
A lecture course on the art of the United States from colonial times to present. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 5625 - Studio Creative Process
Provides students with an understanding of the artistic creative process which is learned through an examination of pre-studio, studio and post-studio practices. Prereq: Must have at least two art history survey courses. **Semester Hours:** 3 to 3
FINE 5630 - History of Latin American Art: 1520-1820
A lecture course studying Latin American art of 1520-1820, including major artists and periods. Through visual analysis, vocabulary acquisition, exams, and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the arts. Cross-listed with FINE 4630. **Semester Hours:** 3 to 3

FINE 5632 - History of Digital Media
Art historical survey and critical discourse of digital and electronic multimedia that covers the influences which have shaped this medium, its major contributors, the technological innovations and cultural impacts on society as an art form and commercial market form. Prereq: Junior standing or permission of instructor. **Semester Hours:** 3 to 3

FINE 5644 - Topics in Art History
**Semester Hours:** 1 to 3

FINE 5650 - Nineteenth-Century Art
A lecture course on European movements from the French Revolution through Postimpressionism. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 5660 - Twentieth-Century Art
A lecture course on art and architecture from Postimpressionism to the year 2000. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 5670 - Greek and Roman Art
A lecture course on art from ancient Greece and Rome. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 5680 - Art of the Middle Ages
A lecture course on western European art and architecture from the fourth to the fourteenth centuries. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 5690 - Renaissance Art
A lecture course on Renaissance art of Italy and Northern Europe, including the principal artists and concepts. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours:** 3 to 3

FINE 5700 - Italian Renaissance Art
A lecture course about developments in Italian Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to a **Semester Hours:** 3 to 3
FINE 5705 - Northern Renaissance Art
A lecture course about developments in Northern Renaissance art and architecture. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to **Semester Hours: 3 to 3**

FINE 5710 - Baroque and Rococo Art
A lecture course on Italy, Spain, France, England, and the Netherlands during the seventeenth and eighteenth centuries. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours: 3 to 3**

FINE 5730 - Arts of Japan
A lecture course on selected themes and periods in Japanese art. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours: 3 to 3**

FINE 5750 - Arts of China
A lecture course on selected themes and periods in the arts and architecture of China. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours: 3 to 3**

FINE 5770 - Art of India and Southeast Asia
A lecture course on selected themes and periods in the arts of India and Southeast Asia. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours: 3 to 3**

FINE 5790 - Methods in Art History
A seminar about the various research methodologies in the history of art. Through reading, discussion, research, writing assignments, and presentations, students will demonstrate knowledge of art historiography. **Semester Hours: 3 to 3** **When Offered: FALL**

FINE 5800 - Art Seminar
Required of Fine Arts majors in the B.F.A. and B.A. studio degree tracks majoring in Painting/Drawing, Photography or Sculpture. Course work covers research into professional practices, business practices, creative practice and career development. Note: Students missing the first 2 classes of this course may be administratively dropped. Students will not be allowed to add course if they have missed the first 2 classes. **Semester Hours: 3 to 3**

FINE 5840 - Independent Study: FINE
**Semester Hours: 1 to 3**

FINE 5939 - Internship
**Semester Hours: 1 to 6**

FINE 5990 - Contemporary Art: 1960-Present
A lecture course about developments in art and architecture since 1960. Through visual analysis, vocabulary acquisition, discussion, exams and writing assignments, students will demonstrate knowledge of historical developments and an ability to analyze the art. **Semester Hours: 3 to 3**
FINE 5995 - Travel Study
Created for students doing travel study in a foreign country. Students register through the Office of International Education. **Semester Hours:** 1 to 15
Film and Television Courses (FITV)

FITV 1000 - Introduction to Visual Culture
Provides fundamentals in academic theories surrounding visual culture. Topics include representation, spectatorship, mass media and popular culture, new media, and scientific images. Student participation is through discussion, creative projects, reading, and written response. Cross-listed with THTR 1000. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

FITV 1040 - Lighting, Grip, and Sound Introductory Workshop
The purpose of this course is to acquire basic competence with all film/video production equipment. The course acts as an introductory look at maintaining professionalism, efficiency, and safety in film/video sets for cast and crew. **Semester Hours:** 3 to 3

FITV 1050 - Production I Basics of Film and Television
Learn the fundamentals of video production including idea creation, videography, composing a professional image, cinematic lighting, sound track recording and construction, non-linear software. Individual and collaborative productions for film, video, and TV will be created. **Semester Hours:** 3 to 3

FITV 1200 - Aesthetics of Television
The course will combine viewing of television programs with reading, writing and discussing television as students begin to understand intellectually, and learn to take an analytical view of this remarkable phenomenon. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

FITV 1550 - Scriptwriting 1 - Fiction
Critical exploration of dramatic writing for stage and screen. Understand how imagery, character, story, narrative structure, literary conventions, and more, impact compelling writing. Utilize effective writing and critiquing strategies focused on drafting and writing an original film/TV script. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

FITV 1600 - Writing Short Film: Non Fiction
Students study basic writing elements such as idea generation, character building, and scene setting while writing short non-fiction screenplays or teleplays for production. **Semester Hours:** 3 to 3

FITV 2040 - Introduction to Digital Effects
Learn the fundamentals of digital effects, animation, compression, and color correction as you incorporate graphic elements into your productions. Demonstrate the skills to utilize software applications used to create 2D, 3D animation, and motion graphics, green screen technology. **Semester Hours:** 3 to 3

FITV 2050 - Production II Film and Television Techniques
Through a series of assigned film and TV projects students will be introduced to various genres of filmmaking, while building upon the skills of preproduction, production, and post-production. Prereq: FITV 1050/TFVP 1050. **Semester Hours:** 3 to 3 **When Offered:** SPRING

FITV 2090 - Production Management for Film and Television
Students will learn the various aspects of planning, scheduling, budgeting, and managing both television and film productions. Students will develop skills for conceptualizing projects from script to screen. **Semester Hours:** 3 to 3
FITV 2220 - Acting for Film and Television
Provides the study, skill development and workshop experience for the actor in various media - including film, television, commercial, and voice-over work. Students do physical exercises, vocal training, develop vocabulary, and scene exercises. Cross-listed with other courses. Semester Hours: 3 to 3 When Offered: FALL

FITV 2570 - Directing for Film and Television
Through a series of assigned video projects, students will practice the art of directing several film and television projects. Applying communication skills and directing techniques to the process. Semester Hours: 3 to 3

FITV 2670 - Cinematography for Directors
Students create film and TV projects that exhibit effective use of light, composition, depth of field, focal length. Student directors will learn how to collaborate with cinematographers and understand the science of photography, lenses, and lighting. Semester Hours: 3 to 3 When Offered: SPRING

FITV 3040 - TV Studio Production
Working in a multi-camera television studio environment, students in this course will experience each aspect of creating multiple live-to-tape television programs. Students will work in teams to create a television pilot as well as individual projects. Semester Hours: 3 to 3 When Offered: SPRING

FITV 3050 - Production III: Junior Project
Students will refine their knowledge of single-camera film and TV techniques in this hands-on, collaborative course. Students will conceptualize, develop, and shoot a short film or television project throughout the semester. Emphasis on storytelling, production design, production management, and cinematography. Semester Hours: 3 to 3

FITV 3060 - Editing for Film and Television
Students will apply post-production skills learned in previous courses to edit projects produced in Prod 3/Jr Project. This course will emphasize the completion of a professional broadcast-quality production with full audio and visual sweetening. Students will attain advanced editing skills through a longer format project. Semester Hours: 3 to 3

FITV 3090 - Producing Episodic Television
Students explore and develop skills in the collective practices necessary for the full production of an episodic television series. Students will actively participate in various aspects of episodic television production including preproduction, production, and post-production. Semester Hours: 3 to 3

FITV 3200 - History of Film to 1937
The development of cinema in the early 1880s brought with it a wealth of techniques still used today, from the close-up to crosscutting and montage. In this course students will view, analyze, research, and critique the beauty and sophistication of silent film from its beginnings through the late 1930s. Semester Hours: 3 to 3 When Offered: FALL

FITV 3300 - History of Film from 1938
Take a journey through the many genres of film, from the introduction of sound to the present. Students will trace the development of various Hollywood genres and examine films that represent major developments in American cinema. In this course students will view, analyze, research, and critique films from 1938 to the present. Semester Hours: 3 to 3 When Offered: SPRING
FITV 3350 - Editing Aesthetics
A historical, theoretical, and practical hands-on approach to deconstructing and utilizing editing aesthetics. Students will consider the theory behind editing strategies that elicit an emotional or response from viewers, and put those theories to practice through demonstrative production exercises as well as analytical writing. Semester Hours: 3 to 3

FITV 3500 - Writing for Episodic Television
Explores the constructive and critical process of writing prime-time dramatic television and alternative broadcast platforms. Each student is guided through a series of viewings, readings, and writing exercises culminating with the written completion of television episodes for an original series. Semester Hours: 3 to 3

FITV 4000 - Senior Thesis Production
The first course of a two-part capstone experience in which students collaborate, plan, cast, budget, and produce a professional quality film/TV project or script. Projects/scripts will be completed in FITV 4010. Semester Hours: 3 to 3 When Offered: FALL

FITV 4010 - Senior Thesis Post-Production
Second course of a two-part capstone experience in which students collaborate on post-production to complete the film/TV/script project. Emphasis will be on editing, color-correcting, audio sweetening, graphics, finishing a fine-cut of their project; students will seek distribution and exhibition. Semester Hours: 3 to 3 When Offered: SPRING

FITV 4050 - Shooting Action
In this production workshop, students will analyze films and storyboards, and shoot projects created for specific action and special effects outcomes. In addition, students will examine a variety of techniques used to create action scenes in preparation for a professional film/TV project. Semester Hours: 3 to 3 When Offered: FALL

FITV 4055 - Documentary Production
Students produce non-fiction film/TV productions in collaboration with non-profit organizations while exploring and experiencing industry practices. Prereq: FITV 2050/TFVP 2050. Semester Hours: 3 to 3
Finance Courses (FNCE)

FNCE 1000 - Intro to Risk Mgmt Insurance Careers
Provides a comprehensive overview of available Risk Management and Insurance careers. For all majors. Emphasis will be on interactions with industry professionals to provide hands-on knowledge and opportunities for in-depth discussion. **Semester Hours:** 1 to 1 **When Offered:** FASPRSUM

FNCE 2939 - Internship
**Semester Hours:** 1 to 3

FNCE 3000 - Principles of Finance
This course provides an introduction to financial markets and institutions, interest rates and the time value of money, principles of security valuation, concepts of risk and return, costs of capital and capital budgeting. Note: This course is required in the Business Core. A grade of 'C' or better must be earned to receive credit as a core course and to take subsequent courses for which it is a prerequisite. **Semester Hours:** 3 to 3

FNCE 3500 - Management of Business Capital
Students learn the basic principles of managing capital in the business firm. Topics include financial statement analysis, management of working capital, theory and management of capital structure and cost of capital. A grade of 'C' or better must be earned to receive credit for this course and to take subsequent courses for which it is a prerequisite. Prereq: MATH 1080, DSCI 2010, ACCT 2220, FNCE 3000 with a grade of 'C' or better. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

FNCE 3600 - Financial Markets and Institutions
Focuses on the supply and demand for loanable funds, the process of money creation, the structure of interest rates, and the role of banks and the Federal Reserve in the financial system. Special attention is devoted to the impact of monetary and fiscal policies on interest rates, the flow of funds and economic activity; and the operation of financial markets and institutions. A grade of 'C' or better must be earned in this course to receive credit for the area of emphasis and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3000. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

FNCE 3700 - Investment and Portfolio Management
In this course students learn about the different types of investment vehicles, including methods to estimate their value and analyze their risk. They will also be introduced to portfolio management, including the identification of objectives and constraints and the analysis and use of investment information. Topics include the functioning of security markets, asset allocation, security valuation, and portfolio analysis. A grade of 'C' or better must be earned to receive credit for the course, and to take subsequent courses for which it is a prerequisite. Note: FNCE 3700 and FNCE 3600 may be taken concurrently. Prereq: FNCE 3500 (and its prerequisites). **Semester Hours:** 3 to 3

FNCE 3809 - Introduction to Risk Management
This course introduces students to fundamentals of risk and risk management for businesses and individuals. Insurance is among the risk management tools examined. The insurance industry and carrier operations are also explored. Prereq: FNCE 3000. **Semester Hours:** 3 to 3

FNCE 3840 - Independent Study: FNCE
**Semester Hours:** 1 to 3
FNCE 3939 - Internship
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: Senior standing and approval of Business advisor. Semester Hours: 1 to 3

FNCE 3949 - Experiential Learning with Risk Management Industry
This course will connect students to risk management service providers, through the Risk Management and Insurance (RMI) Program. The students will either intern, or carry out independent projects with specific providers. The RMI program and faculty will supervise and monitor task and assignments, and coordinate with the providers to maximize the learning experience. Prereq: FNCE 3809. Semester Hours: 3 to 3

FNCE 4129 - Practical Enterprise Risk Mgmt
Skills in legal and factual analysis and the application of ethical theories are advanced and refined through integrative cases. Topics include insurance law, personal property law, intellectual property law, agency, business organizations, securities, employment law, and consumer law. Special focus is placed on the relationship between insurance and risk and the topics covered. Prereq: BLAW 3000. Cross-listed with FNCE 6409. Semester Hours: 3 to 3

FNCE 4370 - International Financial Management
Financial management in the international environment. Topics include international capital movements; international operations as they affect the financial functions; foreign and international institutions; and the foreign exchange process. Also considers foreign exchange theory and risk management, financial requirements, problems, sources, and policies of firms doing business internationally. A grade of 'C' or better must be earned to receive credit for the course and to take subsequent courses for which it is a prerequisite. Prereq: FNCE 3000. Semester Hours: 3 to 3 When Offered: FASPRSUM

FNCE 4382 - Survey of Financial and Commodity Derivatives
Course provides an overview of financial & commodity derivatives & their markets. Covers futures, options, interest rate & currency swaps, convertible bonds, asset backed securities, mortgage derivatives. Diagrams and simple mathematics are used to show how these instruments work & how they are used in corporate financing. This is a combined graduate/undergraduate course and needs superior mathematical and analytical skills. Prereq: FNCE 3500, FNCE 3700, may be tested into the course. Semester Hours: 3 to 3 When Offered: FASPRSUM

FNCE 4500 - Corporate Financial Decisions
This is a required capstone course for the financial management emphasis. It uses the case method to develop the analytical and decision making skills of students. Students are required to apply theories and concepts learned in previous finance and accounting classes to real world scenarios. Topical coverage includes financial analysis, planning, control, working capital management, long-term investment and financing decisions and corporate valuation. A grade of 'C' or better must be earned to receive credit towards graduation. Prereq: FNCE 3000, FNCE 3500 and FNCE 3700 all with a grade of 'C' or better and senior standing. Semester Hours: 3 to 3

FNCE 4709 - Life and Health Insurance
The course is designed to provide the student with the basic understanding of life and health insurance concepts. The course will focus on a needs analysis for individual life insurance needs in preserving an estate or creating an estate. We also focus on the needs of the family and the preservation of the income stream for meeting short and long term needs and how we accomplish this via life insurance. We also will look at life insurance in terms of business planning using such concepts as key person life insurance, funding buy sell agreements, and related needs. On the health side, we will use a needs analysis approach
to provide health coverage for the individual and family. We also explore the employee benefits arena and how businesses will focus on providing group medical coverage and related benefits in an ever changing health care environment with health care reform being phased in. We also will explore the internal workings of life and health insurance companies by reviewing the critical functions that include underwriting, information technology, agent/producer roles, claims, policy owner services, actuarial services, etc. Prereq: FNCE 3000. **Semester Hours:** 3 to 3

**FNCE 4750 - Business Intelligence and Financial Modeling**
In this course, the student learns to analyze and solve financial problems with spreadsheet models, apply Oracle Financial and Business Intelligence software that is widely used in corporate financial operations and model risk and uncertainty with Monte Carlo software. Prereq: ISMG 2050, FNCE 3000 and ISMG 3000 (or ACCT 3054) with a grade of 'C' or better. Cross-listed with ISMG 4750. **Semester Hours:** 3 to 3

**FNCE 4809 - Property & Casualty Insurance**
Introduces students to fundamentals of risk & risk management for businesses & uses of property, casualty, liability, directors and officers insurance, including cost and pricing issues. Types of insurance companies, agencies, and brokerages are also explored, along with insurance company financial mgmt & current trends in insurance industry. **Semester Hours:** 3 to 3

**FNCE 4840 - Independent Study: FNCE**
**Semester Hours:** 1 to 8

**FNCE 4909 - Corporate Risk Management**
The ultimate goal of corporate risk management is to maximize firm value by shaping a firm's risk profile. The risk management team identifies the type and level of risk exposure faced by their company. This helps the executive choose which risks to bear and which risks to transfer to other entities, in three basic ways: modifying the firm's operations, adjusting its capital structure, and employing targeted financial instruments such as derivatives, insurance contracts, and structured financial products. Prereq: FNCE 3500, FNCE 3700, and FNCE 3809. Cross-listed with FNCE 6909. **Semester Hours:** 3 to 3

**FNCE 4950 - Special Topics**
Research methods and results, special topics and professional development in finance. Prerequisites vary according to topic and instructor requirements. **Semester Hours:** 3 to 3

**FNCE 5939 - Internship**
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: 21 semester hours and 3.5 GPA. **Semester Hours:** 1 to 3

**FNCE 6129 - Practical Enterprise Risk Management**
Involves identifying the risks and opportunities faced by a firm, assessing them, developing and implementing a plan to address them, and then monitoring progress. In this course, students will learn the basics of ERM while working with risk management professionals to develop and present components of such a plan. Prereq: BUSN 6640 (not strictly enforced). Cross-listed with FNCE 4129. **Semester Hours:** 3 to 3

**FNCE 6290 - Quantitative Methods for Finance**
This course provides a statistical foundation for subsequent courses in the Master of Science in Finance program. Major topics include descriptive statistics, probability theory, statistical estimation and inference and regression analysis. The emphasis is on **Semester Hours:** 3 to 3
FNCE 6300 - Macroeconomics and Financial Markets
Covers the U.S. financial system in the global economy. Specific topics include financial institutions, money creation and monetary policy; the Federal Reserve System and its operation; the international financial system; interest rate determination, yield curves, and their relation to fiscal policy; the role of households and business in financial markets; stock markets; and money markets and instruments. (Required for the M.S. in Finance degree.) Prereq: BUSN 6620 (may be taken concurrently if student has previous economics coursework). Semester Hours: 3 to 3

FNCE 6310 - Financial Decisions and Policies
Emphasizes investment and financing decisions, and the analysis of the financial condition of the firm. Specific topics include capital budgeting, cost of capital, financing mix and strategy, firm valuation and management of working capital. Instruction is by the case method. Prereq: BUSN 6640. Semester Hours: 3 to 3

FNCE 6330 - Investment Management Analysis
In this course students will learn investment theories and how to apply them to portfolio management. Topics covered include asset allocation, security markets, the analysis and use of investment information, risk analysis and security valuation. This course is required for the M.S. in Finance degree. Prereq: BUSN 6620 and BUSN 6640. Semester Hours: 3 to 3

FNCE 6340 - Business Firm Valuation
In this class, students will learn two valuation techniques, fundamental valuation and relative valuation, to value a business. These techniques are useful in such situations as valuing firms for mergers and acquisitions and valuing stocks for investment purposes. Some of the topics included are valuation of start-up firms, valuation of privately held firms, and valuation of firms with negative earnings. Prereq: BUSN 6640. Semester Hours: 3 to 3

FNCE 6350 - Financial Innovations
Innovations include zero coupon bonds, inflation indexed bonds, structured notes, asset-backed securities, collateralized mortgage obligations, and interest rate swaps. The student learns about the markets and pricing of these securities, and how they affect interest rate risk. The course prepares the student for careers in corporate treasury management, structured financing, swaps trading, and mortgage backed securities design. Prereq: BUSN 6640. Semester Hours: 3 to 3

FNCE 6360 - Management of Financial Institutions
Overview of financial institutions and their risk management/financial performance management issues such as: management of operational, credit, liquidity, interest-rate, capital, off-balance sheet, and environmental risks; Uniform Bank Performance Report (UBPR) risk/performance analysis, hedging techniques and regulations/performance/risk. Prereq: BUSN 6640. Semester Hours: 3 to 3

FNCE 6365 - Banking Principles and Practices
Covers money and capital markets, commercial lending, asset and liability management, loan portfolio management and bank management. This class is only available to Colorado Graduate School of Banking students. Similar material is covered in FNCE 6300 and FNCE 6360. Therefore Business School students must enroll in those courses. Banking students cannot receive credit for FNCE 6300 or FNCE 6360. Semester Hours: 3 to 9

FNCE 6370 - International Financial Management
Addresses financial management in an international context that considers international capital movements and foreign exchange problems, and international operations as they affect financial
functions. It reviews foreign and international institutions and the foreign exchange process and considers financial requirements, problems, sources and policies of firms doing business internationally. Prereq: BUSN 6640. Cross-listed with INTB 6372. **Semester Hours:** 3 to 3

**FNCE 6372 - Business Forecasting**

Uses modern forecasting methods applied to marketing, finance, accounting, human resources management and supply chain and production management decision-making. This course focuses on practical applications of forecasting techniques, choosing and comparing appropriate methods and applying the results to workplace situations. Note: Can only receive credit for either DSCI 6230 or FNCE 6372. Prereq: BUSN 6530 or FNCE 6290. Cross-listed with DSCI 6230. **Semester Hours:** 3 to 3

**FNCE 6380 - Futures and Options**

This covers both speculation and hedging using futures and options. The student learns about futures pricing, how futures are related to the underlying commodities and how to design hedges. Stock index futures and interest rates futures get particular attention. The course covers the theory and application of option pricing, focusing on the binomial and Black-Scholes models. Popular options trading strategies are discussed. This course is useful for those who wish to trade or become portfolio managers, as well as those who plan on corporate treasury management. Prereq: BUSN 6640 and FNCE 6382 or permission of the instructor. **Semester Hours:** 3 to 3

**FNCE 6382 - Survey of Financial and Commodity Derivatives**

This course provides an overview of financial and commodities derivatives and their respective markets. It covers options, futures, swaps and asset backed securities and their use in risk management. The course also discusses the economic issues in commodities markets, analyzes price and volume risk and shows how spot and future prices are related. This course is suitable for both MBA and MS (Finance) students, however, MS-Finance students who are more interested in the more rigorous knowledge necessary for trading derivatives are advised to take FNCE 6380. FNCE 6382 can be substituted by FNCE 6380 for those students who have taken a derivatives course prior to entering our program or with the approval of the FNCE 6380 instructor. Prereq: BUSN 6640. **Semester Hours:** 3 to 3

**FNCE 6410 - Real Options and Decisions Under Uncertainty**

This is an applied course in making investment decisions under uncertainty and flexibility. Traditional NPV analysis using tools such as Discounted Cash Flow (DCF) model assumes that once an investment decision has been made, managers have no control over the outcome and they remain passive throughout the life of the project. Most corporate projects, however, have a great deal of flexibility in terms of their execution. This course will help students develop skills to identify and analyze real options so that they may approach real world corporate investment decisions in a strategic manner. This course may be used to fulfill the requirement for an options course in the MS (Finance) program. Prereq: BUSN 6640. **Semester Hours:** 3 to 3

**FNCE 6411 - International Corporate Governance**

Discusses the structure and goals of the modern corporation, the primary governance mechanisms used to help companies achieve these goals, and how and why these roles, goals, and mechanisms vary across nations. The topics to be covered in the course include how share ownership, particularly by institutional shareholders, managerial compensation and board of director activities are being used to improve corporate governance systems. The class compares the Codes of Best Governance Practices from several countries as well as recent innovations in individual company governance rating systems. Prereq: BUSN 6640. Note: Students cannot receive credit for both FNCE 6411 and INTB 6411. Cross-listed with INTB 6411. **Semester Hours:** 3 to 3
**FNCE 6420 - Mergers and Acquisitions**  
Examines the processes and decisions by which mergers, takeovers and other corporate restructuring occur, the transactions occur. Analyzes merger and acquisition decisions as part of strategic decision making, and how firms are valued in mergers. Discusses the market for corporate control and the public policy implications of mergers and corporate governance. Prereq: BUSN 6640. **Semester Hours:** 3 to 3

**FNCE 6450 - Short-Term Financial Management**  
This course is a survey of methods for managing short term assets and liabilities. Specific topics include the analysis of the firm's liquidity and cash flow, banking relationships; collection and disbursement systems; management of short term investment and financing; management of receivables, payables and inventory; and short term forecasting. This course is affiliated with the Association of Financial Professionals, allowing students earning at least a 'B' to sit for the Certified Treasury Professional (CTP-A) exam. Prereq: BUSN 6640. **Semester Hours:** 3 to 3

**FNCE 6460 - Emerging Market Finance**  
This course aims to explore key emerging market finance issues from the perspectives of corporations, investors and markets. Emerging economies are deemed to be the engine of growth opportunities in the world economy. However, compared with developed markets, they typically have some unique features in their economic systems and financial markets, and thus different risk and return characteristics, leading to special considerations of capital budgeting, financing and investing in these economies. This course is to help develop a better understanding of financial markets, corporate finance and investments in emerging economies, with case studies on some major emerging markets (e.g., China, India). Prereq: BUSN 6620 and 6640. Cross-listed with INTB 6460. **Semester Hours:** 3 to 3

**FNCE 6480 - Financial Modeling**  
Develops and implements financial models for purposes of financial planning and decision making. This course is intended to allow the student to increase her or his knowledge and skill in the development of various types of computer-based financial planning models. The students are exposed to the uses of a variety of computer software packages that can be used for modeling financial planning problems. Prereq: BUSN 6640, knowledge of computer and spreadsheet software. **Semester Hours:** 3 to 3

**FNCE 6800 - Special Topics**  
Experimental course offered irregularly for the purpose of presenting new subject matter in finance. Prerequisites vary depending upon topics covered. (Consult the 'Schedule Planner' for semester offerings.) Prereq: BUSN 6640 **Semester Hours:** 3 to 3

**FNCE 6809 - Principles of Risk and Insurance**  
Prepares students for advanced work in insurance and risk management. The course first covers the nature of risk and risk fundamentals, insurer operations, and insurance regulation. It then considers the principal techniques of managing risk exposures and the bases for decision making in management of business and personal risks. Prereq: BUSN 6640 (not strictly enforced). **Semester Hours:** 3 to 3  
**When Offered:** **FALL**

**FNCE 6840 - Independent Study: FNCE**  
Instructor approval required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. **Semester Hours:** 1 to 8

**FNCE 6909 - Corporate Risk Management**  
The ultimate goal of corporate risk management is to maximize firm value by shaping a firm's risk profile. The risk management team identifies the type and level of risk exposure faced by their company. This
helps the executive choose which risks to bear and which risks to transfer to other entities, in three basic ways: modifying the firm's operations, adjusting its capital structure, and employing targeted financial instruments such as derivatives, insurance contracts, and structured financial products. Prereq: FNCE 3500, FNCE 3700, and FNCE 3809. Cross-listed with FNCE 6909. **Semester Hours:** 3 to 3

**FNCE 6995 - Travel Study**

**Semester Hours:** 3 to 3
Foundations Courses (FNDS)

FNDS 5000 - Teaching as a Profession
General foundations of education course for pre-service candidates. Provides a broad overview of the historical, sociological, philosophical, and legal foundations of education. Includes an examination of contemporary issues in schooling, school organization. **Semester Hours:** 3 to 3

FNDS 5050 - Critical Issues in American Education
Examines the social values and forces in American society which shape or influence the aims, philosophies, methods, content, and problems of the American educational enterprise. **Semester Hours:** 3 to 3

FNDS 5100 - Education in Other Countries
Comparative examination of the political, historical, philosophical, sociological, economic, religious and other foundational aspects of education in several selected countries. **Semester Hours:** 3 to 3

FNDS 5410 - History and Philosophy of Modern Education
Examines Western intellectual heritage from the 16th to the 20th century; tracing corresponding development of educational theory and practice and its continuing impact on modern society. **Semester Hours:** 3 to 3

FNDS 5420 - History and Philosophy of Education: Twentieth Century America
Designed around selected themes from 20th century American social, political, and economic history. Students examine such issues as immigration, racism, war, and social reform to identify the larger societal forces, ideas, and values that have shaped contemporary education. **Semester Hours:** 3 to 3

FNDS 5500 - Contemporary Philosophies of Education
Provides an examination of selected contemporary philosophies and their impact on educational thought and practice. Students are challenged to determine their own educational philosophy, while yet recognize and respect the variety of beliefs of educators. **Semester Hours:** 3 to 3

FNDS 5800 - Seminar: Foundations of Education
An in-depth exploration of topics, issues, and ideas largely generated by students through their other course experiences in foundations. Prereq: At least one graduate level course in foundations and permission of instructor. **Semester Hours:** 3 to 3

FNDS 5810 - Special Topics
Variable credit courses designed to deal with specific areas of content not covered in-depth in other program offerings; e.g., the social structure of the classroom. **Semester Hours:** 1 to 3

FNDS 5840 - Independent Study: FNDS
**Semester Hours:** 1 to 4

FNDS 5920 - Readings in Foundations of Education
Critical examination of very recent publications in the field of foundations: books and professional journal publications. Prereq: At least one graduate-level course in foundations and permission of instructor. **Semester Hours:** 3 to 3

FNDS 6350 - Seminar: Foundations of Education
**Semester Hours:** 3 to 3
**FNDS 6600 - Special Topics: Laboratory in Educational Leadership and Innovation**
Laboratories are organized by professors to engage students in on-going research programs. They provide opportunities for students to extend and apply knowledge and skills developed in course work. The laboratories enable students to complete portfolio re **Semester Hours:** 1 to 6

**FNDS 6920 - Readings in Foundations of Education**
**Semester Hours:** 3 to 3

**FNDS 6950 - Master’s Thesis**
**Semester Hours:** 3 to 3

**FNDS 7370 - Dissertation Seminar**
**Semester Hours:** 1 to 1

**FNDS 7420 - History and Philosophy of Education: Twentieth Century America**
Designed around selected themes from 20th century American social, political and economic history. Students examine such issues as immigration, racism, war, and social reform to identify the larger societal forces, ideas, and values that have shaped conte **Semester Hours:** 3 to 3

**FNDS 7500 - Contemporary Philosophies of Education**
Provides an examination of selected contemporary philosophies and their impact on educational thought and practice. Students are challenged to determine their own educational philosophy, while yet recognize and respect the variety of beliefs of educators. **Semester Hours:** 3 to 3

**FNDS 7600 - Special Topics: Laboratory in Educational Leadership and Innovation**
Laboratories are organized by professors to engage students in on-going research programs. They provide opportunities for students to extend and apply knowledge and skills developed in course work. The laboratories enable students to complete portfolio re **Semester Hours:** 1 to 6

**FNDS 7840 - Independent Study: FNDS**
**Semester Hours:** 1 to 4

**FNDS 7930 - Teaching Internship in Foundations of Education**
**Semester Hours:** 3 to 3

**FNDS 8990 - Doctor of Philosophy Dissertation**
**Semester Hours:** 3 to 10

**FNDS 8991 - Doctor of Education Dissertation**
**Semester Hours:** 3 to 10
French Courses (FREN)

FREN 1000 - Introduction to Cultures of the French-Speaking World
Introduces students to the many cultures of the French-speaking world. Taught in English for accessibility to students from different colleges at the University. The countries studied are: France, its overseas departments (Guadeloupe and Martinique) and territories (Tahiti); Quebec; Senegal; and other African countries. **Semester Hours:** 3 to 3

FREN 1010 - Beginning French I
Basic grammatical and syntactic structures are introduced, together with an elementary vocabulary and cultural items that allow the student to carry on simple conversations in French. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. No previous study of French is required. **Semester Hours:** 5 to 5

FREN 1020 - Beginning French II
(Continuation of FREN 1010.) More complex grammatical structures are introduced, and literary and cultural readings are added. Elementary vocabulary and cultural awareness are expanded to enable the student to carry on more complicated conversations. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: FREN 1010 with a grade of 'C' (2.0) or higher. **Semester Hours:** 5 to 5

FREN 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

FREN 2110 - Intermediate French I: Grammar Review, Reading and Composition
Designed to further develop all the language skills, with particular emphasis on reading and writing, and to further continue students’ introduction to French culture. Students review grammar and vocabulary, read and discuss Le Petit Prince, and express their reactions to the text both orally and in writing. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: FREN 1020 with a grade of 'C' (2.0) or higher. **Semester Hours:** 3 to 3

FREN 2120 - Intermediate French II: Grammar Review and Conversation
Designed to further develop all the language skills, with particular emphasis on speaking, and to continue students’ introduction to French culture. Students review grammar and vocabulary, read and discuss short cultural texts and participate in oral activities intended to increase communication skills. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: FREN 2110 with a grade of 'C' (2.0) or higher. **Semester Hours:** 3 to 3
FREN 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

FREN 2995 - Travel Study
An intensive language and culture course, taught in Amiens, France. Students are enrolled in either beginning, intermediate, or advanced courses at the University of Picardie/Jules Verne. Afternoon sessions and weekends include excursions to Paris, the northern coasts, lectures, movies, business tours, discussions, and field trips. Register through the Office of International Education. Prereq: FREN 2110. Semester Hours: 1 to 6

FREN 3010 - French Phonetics and Pronunciation
Helps students acquire speech habits through knowledge of phonetics. Topics include the function of the speech organs, accurate production and recognition of sound, and the use of phonetic symbols. Note: Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3

FREN 3020 - Oral Practice
Conversation course, using dialogues, debates, small-group discussion, and short oral presentations to improve fluency in spoken French and to build vocabulary. Discussions center around current issues. Note: Students with native or near-native-level proficiency will not be allowed to take FREN 3020. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3

FREN 3050 - Advanced Grammar and Composition
Rigorous review of grammar (including past and future tenses, conditional mood and nominal phrase), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, syntax and grammar. Note: May be taken before or after FREN 3060. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3

FREN 3060 - Advanced French Language Skills
Rigorous review of grammar (including subjunctive, interrogative, verbal phrase and passive voice), along with development of writing skills through analysis and discussion of selections from French writers. Through questions and written exercises, students familiarize themselves with vocabulary, spelling, and grammar. Note: May be taken before or after FREN 3050. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3
FREN 3112 - Survey of French Literature I
Introduces survey of the major literary trends and prominent writers of French literature from 842 A.D. to the end of the 18th century. Note: May be taken before or after FREN 3122. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3

FREN 3120 - French Cultural Identities: Myths and Realities
The self-assured demeanor of the average French man or woman both attracts and confounds. In fact, a French person's behavior -- or that of the French government -- can seem impossible to decode if not understood within an authentically French context. This course examines that context and explores how the French view everyday life. Includes analysis of classic French films. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3

FREN 3122 - Survey of French Literature II
Introduces survey of the major literary trends (romanticism, realism and existentialism) and writers of the 19th and 20th centuries. Students become acquainted with prominent writers of the period such as Beauvoir, Chateaubriand, Hugo, Balzac, Flaubert, Proust, Camus and Sartre. Note: May be taken before or after FREN 3112. Prereq: FREN 2120 or permission of instructor. Semester Hours: 3 to 3

FREN 3130 - Current Topics of the French-Speaking World
Combines discussion and writing on political, economic, and social conditions in contemporary France and the Francophone world. Articles from current French newspapers, news magazines, television broadcasts, and the World Wide Web are analyzed for a better understanding of modern French culture. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3

FREN 3140 - Contemporary Francophone Cultures
Through the reading of short stories and cultural texts, engages students in the exploration of cultures of the Francophone world. Addresses political, economic and geographic status of each region as well as societal identity, immigration, the individual and cultural identity. Prereq: FREN 2120 or equivalent. Semester Hours: 3 to 3

FREN 3200 - The Francophone World in the Post-Colonial Era
Focuses on the many Francophone regions of the world, including (but not limited to) France, North and West Africa, Southeast Asia, and the Caribbean, and surveys a wide span of subject matter as it pertains to the post-colonial situations in these regions. Taught in English. Prereq: Sophomore standing. Semester Hours: 3 to 3

FREN 3840 - Independent Study: FREN
Semester Hours: 1 to 3

FREN 3939 - Internship
Semester Hours: 1 to 3

FREN 3970 - Special Topics
Varying topics in French and Francophone language, literature and culture appropriate to the 3000 level, not otherwise covered by regular courses. Prereq: FREN 2120 or equivalent. Note: May be taken more than once, provided that the topic is different each time. Semester Hours: 3 to 3

FREN 3995 - Travel Study
An intensive language and culture course, taught in Amiens, France. Students are enrolled in either beginning, intermediate, or advanced courses at the University of Picardie/Jules Verne. Afternoon
sessions and weekends include excursions to Paris, the northern coasts, lectures, movies, business tours, discussions, and field trips. (Register through the Office of International Education.) Prereq: FREN 2120 or equivalent. **Semester Hours:** 3 to 6

**FREN 4010 - Advanced Composition: Stylistics**
Focuses on improvement of writing skills and development of the student's ability to compose logically and convincingly. The writing styles to be studied include: narration, description, portrait, persuasive essay and report. Prereq: FREN 3050 or 3060 plus one other 3000-level French course or permission of instructor. **Semester Hours:** 3 to 3

**FREN 4050 - Advanced French for Business**
Concentrates on the technical language necessary to meet the economic and commercial needs of the modern world. Prepares students for the practical certificate of business and economic French of the Paris Chamber of Commerce. Note: Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 3050 or 3060 plus one other 3000-level French course or permission of instructor. **Semester Hours:** 3 to 3

**FREN 4082 - Introduction to Translation**
Introduces the methodology and practice of written translation from English to French/French to English. Students will learn techniques on how to avoid word by word translation, faulty sentence structure and anglicisms by focusing on grammar, syntax and vocabulary. Note: Students must demonstrate third-year competence and advanced writing skills in English. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: FREN 3050 or 3060 and one other upper-division French class. Cross-listed with FREN 5082. **Semester Hours:** 3 to 3

**FREN 4200 - French Civilization Through the Nineteenth Century**
Development of French culture and civilization from a historical perspective, beginning with the origins of France and continuing through the 19th century. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4210. Prereq: Two 3000-level courses or permission of instructor. **Semester Hours:** 3 to 3

**FREN 4210 - French Civilization - Twentieth and Twenty-First Centuries**
(Continuation of FREN 4200) The development of French culture and civilization in a historical perspective from the beginning of the 20th century to the present. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Note: May be taken before or after FREN 4200. Prereq: Two 3000-level courses or permission of instructor. **Semester Hours:** 3 to 3

**FREN 4310 - Seventeenth Century Literature**
An in-depth study of the century considered to be the pinnacle of French theatre. Includes plays by Racine, Moliere and Corneille, as well as poetry by Lafontaine and Boileau. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. **Semester Hours:** 3 to 3
FREN 4360 - Eighteenth Century Novel, Theater and Poetry
Studies several novels and plays characteristic of the 18th century as well as some of the more famous poems. Includes Diderot, Rousseau, Voltaire, Marivaux and Laclos. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Semester Hours: 3 to 3

FREN 4430 - Nineteenth Century French Novel
Development of the French novel during the 19th century. Includes such writers as Stendhal, Hugo, Balzac, George Sand, Flaubert, Maupassant and Zola. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Cross-listed with FREN 5430. Semester Hours: 3 to 3

FREN 4480 - Twentieth Century French Novel
Represents novels of the 20th century, a period of great innovation in the French novel. Authors generally treated are Camus, Giono, Ernaux and Duras. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Cross-listed with FREN 5480. Semester Hours: 3 to 3

FREN 4490 - Twentieth Century French Theater
Surveys the major movements in French literature of the 20th century as represented in the theater arts. Such authors as Jarry, Artaud, Apollinaire, Giraudoux, Sartre, and Beckett are discussed. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Semester Hours: 3 to 3

FREN 4500 - Black Literature of the French-Speaking World
Black poetry, drama, and novel of the French-speaking world in the 20th century. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Semester Hours: 3 to 3

FREN 4510 - French Women Writers
Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Cross-listed with FREN 5510 and WGST 4511/5511. Semester Hours: 3 to 3

FREN 4600 - History of the French Language
Studies phonological, morphological, and syntactic changes in the language of Gaul from Latin to modern French. Prereq: FREN 3010 and FREN 3050 or FREN 3060 or permission of instructor. Cross-listed with FREN 5600. Semester Hours: 3 to 3

FREN 4840 - Independent Study: FREN
Semester Hours: 1 to 3

FREN 4841 - Independent Study: FREN
Semester Hours: 1 to 3

FREN 4970 - Special Topics
Varying topics in French and Francophone language, literature and culture appropriate to the 4000 level, not otherwise covered by regular courses. Prereq: FREN 2120 or equivalent. Note: May be taken more than once, provided that the topic is different each time. Semester Hours: 3 to 3
FREN 4995 - Travel Study
For students doing travel study in France; register through the Office of International Education. Cross-listed with FREN 5995. **Semester Hours:** 1 to 15

FREN 5082 - Introduction to Translation
Introduces the methodology and practice of written translation from English to French/French to English. Students will learn techniques on how to avoid word by word translation, faulty sentence structure and anglicisms by focusing on grammar, syntax and vocabulary. Note: Students must demonstrate third-year competence and advanced writing skills in English. Students with native or near-native level proficiency in French must consult with the French advisor before enrolling in this course. These students may, in some cases, take this course. The instructor of the course and/or the French advisor reserve the right to determine the level of linguistic proficiency of the student and his or her admission to the class by means of an oral interview and/or placement exam scores. Prereq: Graduate standing in French. Cross-listed with FREN 4082. **Semester Hours:** 3 to 3

FREN 5200 - French Civilization Through the Nineteenth Century
Development of French culture and civilization from a historical perspective, beginning with the origins of France and continuing through the 19th century. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Prereq: Graduate standing in French. **Semester Hours:** 3 to 3

FREN 5210 - French Civilization - Twentieth and Twenty-First Centuries
(Continuation of FREN 5200) The development of French culture and civilization in a historical perspective from the beginning of the 20th century to the present. Includes historical background, sciences and techniques, daily life, the arts, literature and philosophy, and religion. Prereq: Graduate standing in French. **Semester Hours:** 3 to 3

FREN 5430 - Nineteenth Century French Novel
Development of the French novel during the 19th century. Includes such writers as Stendhal, Hugo, Balzac, George Sand, Flaubert, Maupassant and Zola. Prereq: Graduate standing in French. Cross-listed with FREN 4430. **Semester Hours:** 3 to 3

FREN 5480 - Twentieth Century French Novel
Represents novels of the 20th century, a period of great innovation in the French novel. Authors generally treated are Camus, Giono, Ernaux and Duras. Prereq: Graduate standing in French. Cross-listed with FREN 4480. **Semester Hours:** 3 to 3

FREN 5510 - French Women Writers
Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Cross-listed with FREN 4510 and WGST 4511/5511. **Semester Hours:** 3 to 3

FREN 5600 - History of the French Language
Studies phonological, morphological, and syntactic changes in the language of Gaul from Latin to modern French. Prereq: Graduate standing in French. Cross-listed with FREN 4600. **Semester Hours:** 3 to 3

FREN 5840 - Independent Study: FREN
**Semester Hours:** 1 to 3
FREN 5995 - Travel Study
For students doing travel study in France; register through the Office of International Education. Cross-listed with FREN 4995. **Semester Hours:** 1 to 15
Global Energy Management Courses (GEMM)

GEMM 6000 - 21st Century Global Energy Issues and Realities
Introduction to the global energy industry’s past, present and future. Current and historical issues in regions such as: Atlantic Basin, former Soviet Union, east of Suez, North and South America will be covered. World production centers and markets are discussed to include relevant energy security, scenario planning, risk management and regulation, deregulation, and environmental concerns. Note: Students will learn the geographic distribution of energy resources worldwide including governmental systems. 
Semester Hours: 3 to 3

GEMM 6100 - Global Energy Economics
Course includes energy geo-economics with and introduction to managerial tools of the trade. Topics will include world energy markets-demand and supply; refining and marketing, energy forecasts, oil and gas transportation, and National Oil Companies vs. International Oil Companies. An introduction to environmental economics will also help students connect the energy industry to sustainable work practices. In addition students will learn the geographic distribution of energy resources worldwide along with the political and government systems associated with those resources. Semester Hours: 3 to 3

GEMM 6200 - Environmental, Regulatory, Legal & Political Environment in the Energy Industry
Exploration of current political situations regarding the energy industry, its environmental impact in the short and long term. Topics include climate change, pollution, solid wastes and conversions to natural resources. Students will become familiar with national and international energy laws and regulations, financial arrangements, confidentiality, and bidding agreements. Semester Hours: 3 to 3

GEMM 6210 - Energy and the Law: Property and Contracts
The elective will focus on the process of managing the use and development of land resources in a sustainable way. Topics such as; public controls, powers used for land regulation, and an intro to real estate will be covered to enhance students understanding of land management and its application to the energy industry. Semester Hours: 3 to 3

GEMM 6220 - Interacting With Foreign Governments And State Enterprises
Globalization of many energy companies, dwindling U.S. energy sources, and growing overseas energy demand have increased the need for energy professionals to gain expertise in doing business with foreign governments and state enterprises, which play a much greater role in the ownership and operation of energy extraction and energy delivery in virtually all countries beyond the United States and Canada. This course reviews negotiation strategies in the context of uncertain contract enforcement, volatility and uncertainty of prices and restrictions, and highly contentious political contexts. It also reviews the approaches for interacting effectively with state enterprises that are often undercapitalized and inefficient, and examines how valuation of energy assets can take into account political risk, and requirements to provide infrastructure and social services. Semester Hours: 3 to 3

GEMM 6300 - Technical Aspects of Energy Science
This course will familiarize students with the newest renewable and alternative energy sources. The course does not focus on hydrocarbon sources but examines challenges and opportunities that exist for the establishment of the new energy sources to become viable in the industry. Semester Hours: 3 to 3
GEMM 6400 - Leadership and Decision Making in the Global Energy Environment
Students will examine leadership from an energy executive perspective. Topics include: how execs lead, change, innovation, interacting with top management teams, the board, leadership issues involved with governance of the firm, strategies for enhancing executive influence and ethics and responsibilities associated with exec. Semester Hours: 3 to 3

GEMM 6410 - People Management in the Global Energy Environment
Explains that people are energy's most important asset. Students will learn the latest research in human resource theories, study models, and learn how to develop organizational effectiveness from the firm’s human capital. Concepts on: effective teamwork, attracting and retaining talent and using HR processes such as performance management and development to drive engagement will be discussed. Semester Hours: 3 to 3

GEMM 6430 - Organizational Behavior in the Energy Industry
Students will learn how to lead and manage human assets inside energy industries. Students will be exposed to fundamental principles of human behavior and increase their competence of working in diverse settings. Proper management can lead to a sustainable competitive advantage, because of management of employees and developing them into enthusiasts of your firm. Semester Hours: 3 to 3

GEMM 6450 - Strategic Management of the Energy Industry
The course focuses on how to improve an organization’s competitiveness in a changing global environment. Emphasis on sustainable strategies, students develop skills to formulate, implement and evaluate organizational strategies in the rapidly changing environment. Semester Hours: 3 to 3

GEMM 6460 - Integrated Information Management for Energy Firms
This course covers issues associated with developing an integrated information managing strategy to identify major information categories used with an energy firm. It covers relationships to business processes to guide applications development and facilitate the integration and sharing of data. Using case studies from energy firms operational, administrative and strategic systems will be discussed. Semester Hours: 3 to 3

GEMM 6470 - Energy Marketing
This course covers the challenges faced by energy industries in developing branding, and developing new markets. Marketing both products and the company to its stakeholders, in the face of competitive pressures, students learn practical marketing tools and how they can be used to effect corporate strategy. Semester Hours: 3 to 3

GEMM 6500 - Energy Accounting in the Global Markets
The course builds a basic understanding of how to convey to decision makers, in and out of the firm, information about its resources. Emphasis on; analysis of income statements, balance sheet, statement and cash flows (historical financial accounting information) with specific coverage of cost-volume-profit, variance, forecasting, joint interest accounting and measurement of divisional performance. Semester Hours: 3 to 3

GEMM 6600 - Introduction To Financial Management In The Energy Industry
Introduction to fundamental principal of asset valuation and financing in competitive global markets. Providing the tools necessary to analyze day-to-day financial issues in the energy industry (time value of money, valuation of income streams, risk weighted investment returns.) Topics such as: risk management, arbitrage, hedging and foreign exchange will be covered. Semester Hours: 3 to 3
GEMM 6610 - Advanced Financial Management in the Energy Industry
This course is focused on understanding the costs and benefits of various forms of capital. By examining internal and external managers, students will be able to assess alternative capital sources to achieve their strategic objectives. The course will introduce effective investor communication techniques. Semester Hours: 3 to 3

GEMM 6620 - Energy Asset & Production Management for the Energy Industry
The course covers management of an organization's energy resources and facilities as well as broader coverage of project management. Portfolio strategy, planning, scope, time, cost, quality and organizational effectiveness will be addressed. Also when budget, material, vendor relations or other factors disrupt a project, students will be prepared on how to react. Semester Hours: 3 to 3

GEMM 6630 - Commercialization Management of Renewable Energies
This course will focus on the business aspects running a renewable energy entity either as a separate company or sector within an established company. Students taking this course have completed a previous course on the basic science of renewable energy. This course is intended to focus on leadership issues and decision making regarding renewable energy. As a significant part of the course, students will learn how to review information and data supplied to them by engineers, accountants, finance, marketing, scientists, and other stakeholders within and outside their company including federal, state, and local governments and regulatory agencies to make sound business decisions. Semester Hours: 3 to 3

GEMM 6690 - Special Topics
This elective course is intended to be a variable-credit course specially designed to provide national and international learning opportunities. The course will offer concentrated problem-solving experiences within the energy industry through travel to industry-significant cities and regions, while meeting and visiting with people working and dealing with issues in the industry. Semester Hours: 1 to 3
Geography Courses (GEOG)

GEOG 1102 - World Regional Geography
Analysis of the relationships of man and the landscape based on geographic distributions in the world. *Semester Hours: 3 to 3*

GEOG 1111 - Freshman Seminar
*Semester Hours: 1 to 3*

GEOG 1202 - Introduction to Physical Geography
The science that studies the processes, forms, and spatial or geographic structures of natural systems operating at or near the earth's surface, including weather, climate, and landform processes. *Semester Hours: 3 to 3*

GEOG 1302 - Introduction to Human Geography
Systematic introduction to basic concepts and approaches in human geographic analysis. *Semester Hours: 3 to 3*

GEOG 1332 - Topics in Science
A series of five-week modules on various topics in physical geography. Section 001. Violent Storms. Analysis of the causes, characteristics, and regional patterns of thunderstorms, tornadoes and hurricanes, emphasizing the hazards associated with each type of storm. Section 002. Elementary Surveying. Introduces the various techniques of running a traverse, location of points by intersection and resection, determination of distance by pacing, chaining, stadia and trigonometry and carrying of elevations. Section 003. Basic Navigation. Introduces the principles of navigation using the sun as the celestial body. Emphasis is on determining latitude and longitude at solar noon. Section 004. Earthquakes. The characteristics, causes, and results of earth movements along faults. Section 005. Waves and Beaches. Analysis of wind-generated waves in the open ocean and the changes that occur as waves enter shallow water, forming surf. The tides and seismic sea waves are discussed for comparison. Section 006. Rivers and Flood Plains. Introduces the nature of stream channels and stream landscapes, with emphasis on the problems associated with man's occupation of such landscapes. Section 007. World Food and Hunger. Analysis of the world food problem with emphasis on the nutritional characteristics of major foods, the physical factors affecting food production, and the potential of the world's land for producing food. Section 008. Volcanoes. Why do some volcanoes erupt and some flow? Why do they occur where they do? How do they affect the environment and man? We discuss these aspects and other characteristics of volcanoes in this course section. *Semester Hours: 1 to 1*

GEOG 1602 - Introduction to Urban Studies
Surveys the process of urbanization, emphasizing the development of American cities and using Denver as an example. Topics covered include the evolution of metropolitan form and land use patterns, cultural landscape formation, city planning and architectural design, and urban social and policy issues. *Semester Hours: 3 to 3*

GEOG 2080 - Introduction to Mapping and Map Analysis
Studies major elements in the preparation of thematic maps, including sources of data collection and manipulation of data, and cartographic techniques for display of data. *Semester Hours: 3 to 3*

GEOG 2202 - Natural Hazards
Surveys those physical phenomena that often cause substantial damage when they occur in areas of human settlement. *Semester Hours: 3 to 3*
GEOG 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

GEOG 3100 - Geography of Colorado
An analysis of the physical environment, history of settlement, and resource base of Colorado in relation to present economic patterns of the state. Semester Hours: 3 to 3

GEOG 3110 - Geography of North America
Systematic study of the physical, cultural, economic, and political relationships that shape the landscape of the United States, Canada, Greenland, and the U.S.-Mexico Borderlands. Semester Hours: 3 to 3

GEOG 3120 - Geography of Europe
An analysis of the physical environment, resource utilization, economic development and cooperation in Europe. A cultural and political geography which focuses on continuity and change in Eastern and Western Europe. Semester Hours: 3 to 3

GEOG 3130 - Central America and the Caribbean
Surveys the physical environment and cultural development of Central America and the Caribbean Islands. Semester Hours: 3 to 3

GEOG 3140 - Geography of South America
The physical environment, cultural development, and political instability within the area are analyzed. Influence of the landscape and climate, as well as Iberian cultural and land tenure patterns on historic settlement and modern growth are discussed. Problems associated with population, economics, politics, education, and geography are emphasized. Semester Hours: 3 to 3

GEOG 3150 - Middle East
Physical, cultural, and economic approach to the arid lands of the Middle East, including Arab land of the Sahara. Semester Hours: 3 to 3

GEOG 3160 - Geography of China
Geographic survey of the physical, cultural, and economic features characterizing the geography of China. Semester Hours: 3 to 3

GEOG 3232 - Weather and Climate
Introduces the processes and systems that govern both day-to-day weather and longer-term climate variations. Covers instrumentation and weather forecasting techniques. Prereq: GEOG 1202 or permission of instructor. Semester Hours: 3 to 3

GEOG 3240 - Colorado Climates
Provides a broad overview of the various weather and climate patterns that are found within the state of Colorado. To accomplish this, the state of Colorado will be divided into regions which (hopefully) have a large degree of homogeneity in terms of weather and climate controls. Note: Taught in a seminar style with students giving presentations and reports on their findings about a given region. Prereq: GEOG 1202 and/or GEOG 3232 or permission of instructor. Semester Hours: 3 to 3

GEOG 3300 - Population and Resources in the World Environment
Increasing world human populations are examined in the context of regional and global resources. Opposing viewpoints are studied, and students are required to complete a case study of a self-selected
issue analyzing viewpoints associated with relevant opposing opinions. Prereq: upper division standing. **Semester Hours:** 3 to 3

**GEOG 3302 - Water Resources**
Introduces water resources aimed at students with little or no background in the field. This is a broad course covering topics ranging from the physical aspects of water to water politics and international law. While the course is largely a lecture format, discussion of current issues is a significant part of the class. **Semester Hours:** 3 to 3

**GEOG 3401 - Geography of Food and Agriculture**
An overview of food systems and agriculture as they impact an increasingly urbanized planet. We will survey historical food production and preservation, food justice and insecurity, land-use and preservation, as well as local and global systems of distribution and consumption. **Semester Hours:** 3 to 3

**GEOG 3411 - Globalization and Regional Development**
Addresses global political-restructuring and its implications for regional development in the U.S. Both historical and contemporary processes of globalization are examined. Topics include: the environmental basis of American industrial growth, the relationship between technological change and geographical shifts, the rise and decline of Fordism, the transfer of Japanese manufacturing methods to the U.S., the role of regional and national industrial policy, and the social consequences of globalization for labor and communities. **Semester Hours:** 3 to 3

**GEOG 3430 - Geography of Tourism**
Geographic analysis of trends in recreation, travel, and tourism, and their economic, social, and environmental impacts. Examines growth and change in resorts and tourist destination areas. Prereq: GEOG 1302 or 3411. **Semester Hours:** 3 to 3

**GEOG 3440 - Ecotourism**
The geographic study of a growing segment in contemporary tourism aimed at the provision of low impact travel to fragile, pristine and usually protected areas with the purpose of directly benefitting local communities and ecological conservation. The course surveys leading destination areas for ecotourism worldwide. GEOG 1302, GEOG 3411 or GEOG 3430 recommended. **Semester Hours:** 3 to 3

**GEOG 3501 - Geography of Health**
Offers a critical geographic perspective to human health issues, examining disease distributions, how changing relationships between people and their environments (natural, built, and social environments) influence health, and different approaches to the study of health in geography. **Semester Hours:** 3 to 3

**GEOG 3770 - Geography and Film**
Geographic analysis of past and current film production and distribution systems and the complex relationships between film making and place in feature, documentary and educational film. Prereq: GEOG 1302 or 2411. **Semester Hours:** 3 to 3

**GEOG 3840 - Independent Study: GEOG**
**Semester Hours:** 1 to 3

**GEOG 3939 - Internship**
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3
GEOG 3990 - Special Topics
Investigation of current topics in geography such as analysis of issues (crime, public transportation), techniques (socioeconomic impact analysis), or areas of specialization (climatology). Prereq: Vary with each topic, but no less than six hours in relevant social or physical science. **Semester Hours:** 3 to 3

GEOG 4000 - Planning Methods I
Focuses on the application of statistical, quantitative, and mathematical techniques and computer applications for urban and regional planning and policy development. Major topics include types of data, sampling, basic probability distributions, hypothesis **Semester Hours:** 3 to 3

GEOG 4010 - Landscape Geochemistry
A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere, biosphere, and pedosphere during geological, and ecological **Semester Hours:** 3 to 3

GEOG 4020 - Earth Environments and Human Impacts
Basic concepts describing earth's biomes and physical environment are presented in a systems context. Global warming assessment, from both political and scientific perspectives, is then presented. Model visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion. Prereq: GEOG 1202 and 3232 or permission of instructor. Cross-listed with ENVS 5020, GEOL 4020. **Semester Hours:** 3 to 3

GEOG 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 2080 or permission of instructor. Cross-listed with **Semester Hours:** 3 to 3

GEOG 4070 - Remote Sensing II: Advanced Remote Sensing
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Pre **Semester Hours:** 3 to 3

GEOG 4080 - Introduction to GIS
Introduces Geographic Information Systems (GIS), including justification, hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data. Includes **Semester Hours:** 3 to 3

GEOG 4081 - Cartography and Computer Mapping
Provides an introduction to the art and science of cartography (map making). Students will learn about design principles, tools and techniques of map production, culminating in the creation of a high-quality map through hands-on exercises. Prereq: GEOG 20 **Semester Hours:** 3 to 3

GEOG 4085 - GIS Applications for the Urban Environment
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The sele **Semester Hours:** 3 to 3
GEOG 4090 - Environmental Modeling with Geographic Information Systems
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed Semester Hours: 3 to 3

GEOG 4095 - Deploying GIS Functionality on the Web
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: Semester Hours: 3 to 3

GEOG 4150 - Place, Landscape, and Meaning
Investigates concepts that constitute place and landscape—how they are not just simply "there." Incorporates different schools of thought to help understand why landscapes are objects inseparable from us and open to multiple interpretations and meanings. Prereq: Introductory human geography or instructor permission. Cross-listed with GEOG 5150. Semester Hours: 3 to 3

GEOG 4220 - Environmental Impact Assessment
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor Semester Hours: 3 to 3

GEOG 4230 - Hazard Mitigation and Vulnerability Assessment
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 5230. Semester Hours: 3 to 3

GEOG 4235 - GIS Applications in the Health Sciences
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 5235, HBSC 7235. Semester Hours: 3 to 3

GEOG 4240 - Geomorphology
Investigates changes in Earth’s physical landscapes incl. aeolian, coastal, fluvial, glacial, karst, periglacial & volcanic processes & landforms as related to rock decay, soils & climatic forcings. Field trips and hands-on tasks using a variety of geo Semester Hours: 3 to 3

GEOG 4260 - Natural Resource Planning and Management
Considers methods for managing renewable and non-renewable resources using both legislative and economic controls. The role of technology, ideologies, and equity are discussed. Decision making techniques are applied to problems of resource and environment Semester Hours: 3 to 3

GEOG 4265 - Sustainability in Resources Management
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 5265. Semester Hours: 3 to 3
GEOM 4270 - Glacial Geomorphology
Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL 4270/5270. **Semester Hours:** 3 to 3

GEOM 4280 - Environmental Hydrology
Examination of hydrologic processes in relation to climate, soils, vegetation, land-use practices, and human interactions. Natural scientific perspectives emphasized; field and laboratory included. Prereq: GEOG 1202 AND one of: 1) GEOG 3232; 2) GEOG 4240/GEOL 4240/GEOG 5240; 3) GEOG 4010/GEOL 4010/ENVS 5000. Cross-listed with GEOL 4280 and ENVS 5280. **Semester Hours:** 4 to 4

GEOM 4335 - Contemporary Environmental Issues
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 5335. **Semester Hours:** 3 to 3

GEOM 4350 - Environment and Society in the American Past
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 5350. **Semester Hours:** 3 to 3

GEOM 4400 - Regional Economic Development
Examines the economies of metropolitan, rural, state, and national regions, placing each within the fabric of global relations that direct capital, manage productive activities, and govern prosperity's geography. Organized both sectorally and spatially, **Semester Hours:** 3 to 3

GEOM 4420 - The Politics of Nature
Examines how economic systems, scientific discovery, institutional policies, and environmental knowledge converge to shape the environment and mediate the way societies understand, manage and respond to environmental changes in both the United States and the developing world. Cross-listed with GEOG 5420. **Semester Hours:** 3 to 3

GEOM 4440 - Science, Policy and the Environment
Examines the social, economic and political forces shaping scientific discovery and the development and enforcement of environmental policy. Students will examine perspectives on issues such as risk, expertise, uncertainty and objectivity that influence the problem-defining, standard-setting and policy-making process. Cross-listed with GEOG 5440. **Semester Hours:** 3 to 3

GEOM 4450 - Urban Food and Agriculture: Perspectives and Research
Provides an overview of research & practices in urban farming. Critically reviews emergent models of local food production/distribution. Compares new practices to traditional agribusiness. Assesses the prospects for solving sustainability problems within the modern agro-food system. Prerequisite GEOG 3401. Cross-list ENVS 5450. **Semester Hours:** 3 to 3 **When Offered:** SPRING

GEOM 4460 - Sustainable Urban Agriculture Field Study I
Provides a field-based overview of urban farm planning & management. Topics: range/land conservation, native/invasive species, water distribution, animal husbandry, government interaction, local markets,
community relations, conservation easements and issues pertaining to urban farming. Prerequisite GEOG 4450. **Semester Hours:** 3 to 3 **When Offered:** FALL

**GEOG 4470 - Sustainable Urban Agriculture Field Study II**
Provides a field-based overview of current practices in local agricultural production. Emphasis will be placed on sustainable practices and their most efficient situation, Special consideration will be given to plausible solutions for food insecure communities both local and global. Prerequisite GEOG 4450, 4460. Cross-list ENVS 5460. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**GEOG 4630 - Transportation Planning I: Transport Network Analysis**
Examines several important aspects of the transport network: accessibility and connectivity of nodes and linkages and the volume and direction of the flow of a transport network. Descriptive, predictive, and planning methods and models discussed include g **Semester Hours:** 3 to 3

**GEOG 4640 - Urban Geography: Denver and the U.S.**
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular emphasis is placed on the U.S. and Colorado's Front Range. Cross-listed with GEOG 5640. **Semester Hours:** 3 to 3

**GEOG 4670 - Transportation Planning II: Urban Transportation Planning**
Examines major issues of transportation in urban development, the urban transportation system, the relationship between land use planning and transportation planning, urban transportation planning processes and selected issues. Introduces the use of two s **Semester Hours:** 3 to 3

**GEOG 4680 - Urban Sustainability: Perspectives and Practice**
Examines various perspectives on sustainability, including ambiguities and opportunities of sustainability as a conceptual framework. Class also examines what sustainability looks like in practice, using numerous topics such as poverty and urban farming to water and climate change. Cross-listed with GEOG 5680. **Semester Hours:** 3 to 3

**GEOG 4700 - Synthesis for Interdisciplinary Science**
Synthesis is an approach in interdisciplinary research and education that links ideas, data and methods. This course develops synthesis skills through the lens of systems theory. It includes exercises for synthetic thinking, examination of integrative t **Semester Hours:** 3 to 3

**GEOG 4710 - Disasters, Climate Change, and Health**
Provides a review of the impacts of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, and adaptation. Prereq: GEOG 2202 or GEOG 3501. **Semester Hours:** 3 to 3

**GEOG 4770 - Applied Statistics for the Natural Sciences**
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; ANOVA and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of instructor. Cross-listed with ENVS 5600, GEOL 4770, 5770. **Semester Hours:** 3 to 3
GEOG 4840 - Independent Study: GEOG
Independent research primarily for undergraduate majors. Prereq: Permission of department. Semester Hours: 1 to 3

GEOG 4850 - Understanding And Communicating Field Methods
Interdisciplinary course that presents a balanced overview of common field methods and how to communicate them effectively to a general audience. Includes hands-on experience with various field methods (e.g., transects, survey design, historical assessment, GIS, etc.) and communication strategies. Prereq: Introductory geography or environmental science course, and graduate or advanced upper-level standing, or instructor permission. Cross-listed with GEOG 5850 and ENVS 4850/5850. Semester Hours: 3 to 3

GEOG 4900 - Colloquium
Engages students and faculty in discussion of current and pertinent world topics, including specific readings, (guest) presentations, and creation of working research papers, among other items. Students and faculty may work in research groups to accomplish specific goals. Prereq: Advanced Standing (undergrad). Cross-listed with ENVS 4900, ENVS 5900, GEOG 5900. Semester Hours: 1 to 1

GEOG 4940 - Senior Seminar
Introduces students to the professional literature in the field. Various professionals and faculty lecture about geography/planning research and careers. Semester Hours: 3 to 3

GEOG 4950 - Honors Thesis
A capstone course designed to promote critical thinking, research methodology, and writing/oral presentation skills. Students design and develop a research project under the supervision of a faculty advisor. Each student gives an oral presentation or defense of his or her thesis at the end of the semester in which they enroll. Prereq: GEOG 4940 and junior or senior standing. Semester Hours: 3 to 3

GEOG 4990 - Special Topics
Semester Hours: 3 to 3

GEOG 4995 - Travel Study
Rigorous yet flexible fieldwork-based experience exploring geographical and environmental phenomena in diverse world locations. Course begins with intensive regional and methodological introductions, followed by on-location field investigations in environmental analyses, cultural studies, GIS applications, tourism evaluation and/or hazards assessment. Prereq: GEOG 1202 and GEOG 1302, or permission of instructor. Cross-listed with ENVS 4995, ENVS 5995, and GEOG 5995. Semester Hours: 3 to 9

GEOG 4998 - Geography By Rail
Systematic and geographic exploration of region(s) mainly via train, focused on creating broad understanding of peoples, cultures, and landscapes. This course represents an intensive, field-based experience that may encompass both physical and cultural Semester Hours: 1 to 12

GEOG 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Cross-listed with GEOG 4060, GEOL 4060, GEOL 5060. Completion of Semester Hours: 3 to 3
GEOG 5070 - Remote Sensing II: Advanced Remote Sensing
Focuses on digital image processing of satellite and aerial images. Students explore the nature of digital image data, gain an understanding of image analysis using PCs, and learn about the use of analysis products in the development of GIS databases. Pre Semester Hours: 3 to 3

GEOG 5080 - Introduction to GIS
Introduces Geographic Information Systems (GIS), including justification, hardware/software, database design, and data conversion. GIS is a computer-based mapping system providing a graphical interface to locational and relational attribute data. Includes Semester Hours: 3 to 3

GEOG 5081 - Cartography and Computer Mapping
Provides an introduction to the art and science of cartography (map making). Students will learn about design principles, tools and techniques of map production, culminating in the creation of a high-quality map through hands-on exercises. Cross-listed wi Semester Hours: 3 to 3

GEOG 5085 - GIS Applications for the Urban Environment
Takes a more detailed look at basic concepts presented in the introductory GIS course, concentrating on how GIS is used to solve real-world geographic problems. Various GIS applications within both the natural and social sciences are highlighted. The sele Semester Hours: 3 to 3

GEOG 5090 - Environmental Modeling with Geographic Information Systems
Expands the basic knowledge of GIS to spatial models. Establishes a comprehensive framework that can be used to address a wide range of applications in natural and built environments. Prereq: GEOG 4080 or GEOG 5080 or permission of instructor. Cross-listed with GEOG 4090. Semester Hours: 3 to 3

GEOG 5095 - Deploying GIS Functionality on the Web
Covers the core principles and technologies that allow the deployment of geographic information system (GIS) functionality over the World Wide Web. Hands-on exercises make use of the latest commercial software as well as open source technologies. Prereq: GEOG 4080 or GEOG 5080, computer science background, or permission of instructor. Cross-listed with GEOG 4095. Semester Hours: 3 to 3

GEOG 5150 - Place, Landscape, and Meaning
Investigates concepts that constitute place and landscape--how they are not just simply "there." Incorporates different schools of thought to help understand why landscapes are objects inseparable from us and open to multiple interpretations and meanings. Prereq: Introductory human geography or graduate standing. Cross-listed with GEOG 4150. Semester Hours: 3 to 3

GEOG 5220 - Environmental Impact Assessment
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor Semester Hours: 3 to 3

GEOG 5230 - Hazard Mitigation and Vulnerability Assessment
Examines hazard mitigation and its planning and policy implications, emphasizing how vulnerability assessments play an integral role. Students explore how mitigation minimizes the impacts from hazards and use GIS to conduct a local study. Prereq: GEOG 2202 or permission of instructor. Cross-listed with GEOG 4230. Semester Hours: 3 to 3
GEOG 5235 - GIS Applications in the Health Sciences
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 4235, HBSC 7235. **Semester Hours:** 3 to 3

GEOG 5240 - Geomorphology
Investigates changes in Earth's physical landscapes incl. aeolian, coastal, fluvial, glacial, karst, periglacial & volcanic processes & landforms as related to rock decay, soils & climatic forcings. Field trips and hands-on tasks using a variety of geomorphological techniques. **Semester Hours:** 3 to 3

GEOG 5265 - Sustainability in Resources Management
Sustainability and sustainable development are the dominant economic, environmental and social issues of the 21st century. Follows a multi-disciplinary approach to these concepts. Case studies demonstrate their implementation in different geographical, ecological and socio-economic conditions worldwide. Prereq: ENVS 1042 or permission of instructor. Cross-listed with GEOG 4265. **Semester Hours:** 3 to 3

GEOG 5270 - Glacial Geomorphology
Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL 4270/5270. **Semester Hours:** 3 to 3

GEOG 5335 - Contemporary Environmental Issues
Provides an overview of environmental challenges facing society today, focusing on how humans impact and change the environment. Opposing views and environmental policy at the local, state, national, and international levels are explored. Cross-listed with GEOG 4335. **Semester Hours:** 3 to 3

GEOG 5350 - Environment and Society in the American Past
Overview of the geographical development of North American society from the late 15th century to the mid-20th century. A comparative regional approach emphasizing relationships between natural resource exploitation, cultural landscape formation and environmental change. Cross-listed with GEOG 4350. **Semester Hours:** 3 to 3

GEOG 5420 - The Politics of Nature
Examines how economic systems, scientific discovery, institutional policies, and environmental knowledge converge to shape the environment and mediate the way societies understand, manage and respond to environmental changes in both the United States and the developing world. Cross-listed with GEOG 4420. **Semester Hours:** 3 to 3

GEOG 5440 - Science, Policy and the Environment
Examines the social, economic and political forces shaping scientific discovery and the development and enforcement of environmental policy. Students will examine perspectives on issues such as risk, expertise, uncertainty and objectivity that influence the problem-defining, standard-setting and policy-making process. Cross-listed with GEOG 4440. **Semester Hours:** 3 to 3

GEOG 5640 - Urban Geography: Denver and the U.S.
Uses a combined lecture/seminar format to explore research themes in urban geography. Topics covered include both historical and contemporary processes of urban development and transformation. Particular
emphasis is placed on the U.S. and Colorado’s Front Range. Cross-listed with GEOG 4640. **Semester Hours:** 3 to 3

**GEOG 5680 - Urban Sustainability: Perspectives and Practice**
Examines various perspectives on sustainability, including ambiguities and opportunities of sustainability as a conceptual framework. Class also examines what sustainability looks like in practice, using numerous topics such as poverty and urban farming to water and climate change. Cross-listed with GEOG 4680. **Semester Hours:** 3 to 3

**GEOG 5710 - Disasters, Climate Change, and Health**
Provides a review of the impacts of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, and adaptation. Prereq: GEOG 2202 or GEOG 3501. **Semester Hours:** 3 to 3

**GEOG 5840 - Independent Study**
Section 1, economic; 2, physical; 3, urban; 4, social; 5, quantitative; 6, transportation. **Semester Hours:** 1 to 3

**GEOG 5850 - Understanding And Communicating Field Methods**
Interdisciplinary course that presents a balanced overview of common field methods and how to communicate them effectively to a general audience. Includes hands-on experience with various field methods (e.g., transects, survey design, historical assessment, GIS, etc.) and communication strategies. Prereq: Introductory geography or environmental science course, and graduate or advanced upper-level standing, or instructor permission. Cross-listed with GEOG 4850 and ENVS 4850/5850. **Semester Hours:** 3 to 3

**GEOG 5900 - Colloquium**
Engages students and faculty in discussion of current and pertinent world topics, including specific readings, (guest) presentations, and creation of working research papers, among other items. Students and faculty may work in research groups to accomplish specific goals. Prereq: graduate student status. Cross-listed with ENVS 4900, ENVS 5900, GEOG 4900. **Semester Hours:** 1 to 1

**GEOG 5939 - Internship**
**Semester Hours:** 1 to 6

**GEOG 5990 - Special Topics In Geography**
Course content varies from semester to semester, depending on faculty member teaching the course. Prereq: Graduate standing. **Semester Hours:** 1 to 6

**GEOG 5995 - Travel Study**
Rigorous yet flexible fieldwork-based experience exploring geographical and environmental phenomena in diverse world locations. Course begins with intensive regional and methodological introductions, followed by on-location field investigations in environmental analyses, cultural studies, GIS applications, tourism evaluation and/or hazards assessment. Prereq: GEOG 1202 and GEOG 1302, or permission of instructor. Cross-listed with ENVS 4995, ENVS 5995, and GEOG 4995. **Semester Hours:** 3 to 9

**GEOG 5998 - Geography By Rail**
Systematic and geographic exploration of region(s) mainly via train, focused on creating broad understanding of peoples, cultures, and landscapes. This course represents an intensive, field-based experience that may encompass both physical and cultural environments. **Semester Hours:** 1 to 12
### GEOG 6300 - Foundations Seminar in Human-Environmental Interaction
This seminar allows students to gain a deeper appreciation for historical and contemporary geographical approaches to understanding the relationship between society and the environment through a survey review of seminal concepts, theories and debates that have shaped the discipline. **Semester Hours:** 3 to 3

### GEOG 6700 - Integrated Methods
Geographers employ a variety of quantitative and qualitative methods in their research. The course presents these methods as a continuum, rather than separate typologies, and reviews the difference between integrated and mixed methods. Students will evaluate how and when to apply various methods to most appropriately elicit data. **Semester Hours:** 3 to 3

### GEOG 6750 - Research Design
Reviews research framework common to all geographers. Reviews the key steps in designing and executing high-caliber independent research, including topic selection, literature review and data collection analysis. Students will develop competence in applying relevant theories from the natural and social sciences through projects. **Semester Hours:** 3 to 3

### GEOG 6800 - Community-Based Research Practicum
Service-based learning course for students to apply the concepts and skills presented throughout the masters program in a community setting. Students will participate in a real-world, studio based project that meets the needs of a government, non-governmental, or private sector organization and will produce a scoped product. **Semester Hours:** 3 to 3

### GEOG 6840 - Independent Study: GEOG
Independent research for graduate major students. Prereq: Permission of department. **Semester Hours:** 1 to 3

### GEOG 6950 - Master's Thesis
**Semester Hours:** 6 to 6

### GEOG 8990 - Doctor's Thesis
**Semester Hours:** 1 to 8
Geology Courses (GEOL)

GEOL 1022 - History of Life
Non-technical study of fossils through time and their relationships to environments through earth history. Includes discussion of evolution and extinction events and current controversies. **Semester Hours:** 3 to 3

GEOL 1072 - Physical Geology: Surface Processes
Introductory course in physical geology that covers surface processes and landforms, and includes one all-day field trip. Note: Required for geology majors. **Semester Hours:** 4 to 4

GEOL 1082 - Physical Geology: Internal Processes
Introductory course in physical geology that covers internal processes and properties of the earth’s interior, with plate tectonics as the underlying theme. Includes one all-day field trip. Note: Required for geology majors. **Semester Hours:** 4 to 4

GEOL 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

GEOL 1115 - Earth Sciences Content
Covers content areas of undergraduate earth sciences. Topics include physical geology; historical geology; oceanography; meteorology; and astronomy. **Semester Hours:** 1 to 3

GEOL 1202 - Introduction to Oceanography
Surveys modern scientific knowledge of the world’s oceans. Intended for non-science students, the course offers a non-quantitative introduction to the major facts and principles of physical, chemical, biological, and geological oceanography. The impact of natural and anthropic events on the marine environment are included. **Semester Hours:** 3 to 3

GEOL 1302 - Introduction to Astrogeology
Surveys the geology of the planets and their environments in space, including the origin and destiny of the universe. Intended for non-majors, the course provides an introduction to the geological origin, evolution, structure, and geomorphology of the planets. **Semester Hours:** 3 to 3

GEOL 1400 - Geology of the National Parks
Combines lecture and laboratory exercises to help students interpret Earth history using the national parks as examples. Students learn to identify the common rocks and minerals, and how to interpret topographic and geologic maps. **Semester Hours:** 3 to 3

GEOL 1402 - Introduction to the Ice Ages
Surveys the natural history of earth's ice ages, the processes that led to paleoclimatic change, environmental changes, and the effects on the geological earth. Included are topics in ocean-atmosphere influences, glaciers, glacial geology, influences on world flora and fauna, extinction of pleistocene mammal populations and the emergence of hominids. **Semester Hours:** 3 to 3

GEOL 1840 - Independent Study: GEOL
**Semester Hours:** 1 to 3
GEOL 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

GEOL 3011 - Mineralogy
Principles of mineralogy, including crystallography, crystal chemistry, and a systematic study of the more important nonsilicate and silicate minerals. Origins and occurrences of minerals. Prereq: Physical geology and college-level chemistry. Semester Hours: 4 to 4

GEOL 3032 - Geology of Colorado
Introductory course focused on the geology of Colorado. The course is divided into two parts: the first half covers general principles of geology, and the second is devoted to the observation of rock types, structures, and geologic relationships in the field. Discussion of plate tectonics, rock formation, construction and interpretation of geologic maps, the geologic time scale, geologic provinces of Colorado, evolution of major landforms, formation and development of mineral resources of Colorado, and current topics in environmental geology. Semester Hours: 3 to 3

GEOL 3100 - Current Perspectives on the Evolution of Consciousness and Culture
Studies of evolution traditionally regard morphology (anatomy)/behavior and mind/consciousness as separate fields that belong either in biology/paleontology or in psychology/philosophy. The "middle ground" behavior, anthropology, social systems, is also treated separately in most cases. Recent approaches tend toward a more holistic view using unifying principles and "laws of nature" that show similar processes (dissipative effects, information theory, development theory) operating across all fields. Examines the relationships and common threads between the physical anatomical evolution of organisms and their behavior perception and consciousness. Prereq: Introductory course in evolution (biology/paleontology), psychology, philosophy, anthropology or permission of instructor. Cross-listed with PHIL 3100 and RLST 4280. Semester Hours: 3 to 3

GEOL 3102 - Dinosaurs Past and Present
A broad-based, non-technical new look at the world's most popular prehistoric animals. Stresses the rapid and perennial growth of knowledge about dinosaurs and the relevance of such knowledge in the 20th century. Prereq: Introductory geology and/or biology are recommended. Semester Hours: 3 to 3

GEOL 3231 - Introductory Petrology
Introduces classification, distribution, and origin of igneous, metamorphic, and sedimentary rocks, including their identification in hand-held specimens. Prereq: Physical geology and mineralogy. Semester Hours: 4 to 4

GEOL 3411 - Introductory Paleontology
Studies invertebrate fossils, including a survey of the organic world and its history in the geological past. Includes an introduction to evolution and paleoecology, and discussion of the uses of fossils in geologic correlations. Prereq: Introductory geology-surface processes, or an introductory biology class. Semester Hours: 4 to 4

GEOL 3415 - Museum Studies in Paleontology
A practical laboratory-based course covering aspects of museum studies related to paleontological collections. Students learn how to stabilize and prepare bones removed from fossil quarries; learn molding and casting techniques for bones and fossils; assist with the cataloging and curation of the collection; and participate in designing museum displays. Prereq: At least one science class. Cross-listed with ELED 5480, SECE 5480. Semester Hours: 3 to 3
GEOL 3418 - Field Paleontology
Introduces methods of paleontological field techniques, including care and maintenance of a late Jurassic
dinosaur quarry, field conservation techniques, quarry map-making and surveying, paleontological
sampling, and fossil extraction. Students also contribute to research and fossil collections at CU-Denver.
Prereq: At least one science class. Semester Hours: 1 to 1

GEOL 3421 - Sedimentation and Stratigraphy
Introduces the principles of sedimentology and stratigraphy. Emphasis is on dynamic processes within
sedimentary environments and the resulting stratigraphic record. Prereq: GEOL 1082 or equivalent.
Semester Hours: 4 to 4

GEOL 3840 - Independent Study: GEOL
Semester Hours: 1 to 3

GEOL 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised
employment situations. Prereq: Junior standing and 2.75 GPA. Semester Hours: 1 to 3

GEOL 4010 - Landscape Geochemistry
A holistic approach to studying the role chemical elements play in synthesis/decomposition cycles, and
the resultant environment from interaction of the lithosphere with the hydrosphere, atmosphere,
biosphere, and pedosphere during geological, and ecologi Semester Hours: 3 to 3

GEOL 4020 - Earth Environments and Human Impacts
Basic concepts describing earth's biomes and physical environment are presented in a systems context.
Global warming assessment, from both political and scientific perspectives, is then presented. Model
visualization of these concepts to consider human impacts on Earth's biomes is discussed. Earth system
viewpoint, having links of Earth's biomes to oceans and atmosphere, completes the course discussion.
Cross-listed with ENVS 5020, GEOG 4020. Semester Hours: 3 to 3

GEOL 4030 - Environmental Geology
Applies geological information to interactions between people and the physical environment. Increasing
awareness of its importance in our society means that this is an expanding field as companies are required
to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior
standing in sciences or geography, or permission of instructor. Cross-listed with ENVS 5030 and GEOL
5030. Semester Hours: 3 to 3

GEOL 4060 - Remote Sensing I: Introduction to Environmental Remote Sensing
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of
urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080
or consent of instructor. Cross-listed with GEOL 5060, GEOG 4060, 5060. Semester Hours: 3 to 3

GEOL 4111 - Field Methods In Geology
Introduction to the basic methods of geologic mapping (metamorphic, sedimentary, and igneous rocks),
including use of the Brunton compass and Jacob Staff, as well as preparation of measured stratigraphic
sections, geologic maps, and geologic cross-sections. Prereq: GEOL 1072 or GEOG 1202, GEOL 3421
strongly recommended. Cross-listed with GEOL 5111. Semester Hours: 3 to 3
GEOL 4240 - Geomorphology
Investigates changes in Earth’s physical landscapes incl. aeolian, coastal, fluvial, glacial, karst, periglacial & volcanic processes & landforms as related to rock decay, soils & climatic forcings. Field trips and hands-on tasks using a variety of geom. **Semester Hours:** 3 to 3

GEOL 4270 - Glacial Geomorphology
Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL 4270/5270. **Semester Hours:** 3 to 3

GEOL 4280 - Environmental Hydrology
Examination of hydrologic processes in relation to climate, soils, vegetation, land-use practices, and human interactions. Natural scientific perspectives emphasized; field and laboratory included. Prereq: GEOG 1202 and one of: 1) GEOG 3232; 2) GEOG 4240/GEOL 4240/GEOG 5240; 3) GEOG 4010/GEOL 4010/ENVS 5000. Cross-listed with GEOG 4280 and ENVS 5280. **Semester Hours:** 4 to 4

GEOL 4402 - Unsaturated Zone Hydrology
Focuses on water and contaminant transport through the unsaturated zone, infiltration and drainage, and heat and gas transport. Students learn to design, perform field installation, and collect data in order to model and predict contaminant movement on/off site. Prereq: Chemistry, physics, calculus or permission of instructor. Cross-listed with ENVS 5403. **Semester Hours:** 3 to 3

GEOL 4460 - Vertebrate Paleontology and Evolution
Surveys the evolutionary history of the backboned animals from primitive fish through dinosaurs to man. Includes paleoecology, functional morphology, and uses of vertebrate fossils in geologic correlations. Prereq: Introductory geology, biology or anthropology. **Semester Hours:** 3 to 3

GEOL 4513 - Geology of the Grand Canyon
Raft down the Grand Canyon and examine the geology of igneous, sedimentary, and metamorphic rocks from the Precambrian to the Holocene. Study marine and terrestrial fossils, migmatisation and observe modern sedimentary processes. Prereq: GEOL 1072 or 10 **Semester Hours:** 3 to 5

GEOL 4770 - Applied Statistics for the Natural Sciences
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; Anova and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of instructor. Cross-listed with GEOL 5770, GEOG 4770, ENVS 5600. **Semester Hours:** 3 to 3

GEOL 4780 - Engineering Geology
Studies geology as utilized in engineering and environmental practice. Emphasizes a conceptual integration of geologic materials, processes, and rates of change as a basis for successful application of geologic knowledge to environmental planning and engineering design projects. Prereq: MATH 2411 and CVEN 2121. Cross-listed with GEOL 5780 and CVEN 4780. **Semester Hours:** 4 to 4

GEOL 4840 - Independent Study: GEOL
**Semester Hours:** 1 to 3
GEOL 4995 - Travel Study
Fieldwork- and research-based experience studying a diverse selection of geologic settings worldwide. Students individually research geologic areas of interest in an assigned region, followed by on-location field investigations and measurements of geologic data and phenomena. Note: Topics vary depending on region under study, student interest, and faculty specialty. Prereq: GEOL 1072 and 1082, or permission of instructor. Cross-listed with GEOL 5995. Semester Hours: 3 to 9

GEOL 5001 - RM-MSMSP: Earth Processes I
Systematic study of geological concepts, rock and mineral formation, plate tectonics, volcanism and earthquakes, landforms and weathering, historical environmental interpretation. Includes a field component. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: Permission of project director. Semester Hours: 4 to 4

GEOL 5002 - RM-MSMSP: Earth Sciences II - Sedimentology and Paleontology
Field and lecture course building on Earth Sciences I, which covers internal earth processes. Students learn about erosional processes and how sedimentary rocks are deposited and may be preserved; the different ways fossils are preserved; describing rocks in the field; and collecting, preparing and describing fossils. Provides an overview of the geology of the area so that students can place the detailed studies in context. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: GEOL 5001 (or equivalent) or permission of project director. Semester Hours: 4 to 4

GEOL 5003 - RM-MSMSP: Earth Science in Context
Designed for teachers in the RM-MSMSP program. Topics include global climate change, glaciers, coastal geology, volcanism, and their effects on culture. Monuments such as Florissant Fossil Beds, Ice Core, Cave of the Winds and a quarry will be visited. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Semester Hours: 4 to 4

GEOL 5004 - RM-MSMSP Research Experience for Teachers - Geology Cohort
A five-week research exploration in which RM-MSMSP teachers will raise their level of relevant scientific understanding by engaging in a "hands-on" workshop, transforming what they have learned into new curricular materials that will improve the scientific abilities of their students and hopefully stimulate them to consider a STEM career. Note: Credit may not apply toward any CLAS degree. Semester Hours: 1 to 6

GEOL 5030 - Environmental Geology
Applies geological information to interactions between people and the physical environment. Increasing awareness of its importance in our society means that this is an expanding field as companies are required to address the environmental consequences of their actions. Prereq: Entry into MSES program, senior standing in sciences or geography, or permission of instructor. Cross-listed with GEOL 4030 and ENVS 5030. Semester Hours: 3 to 3

GEOL 5060 - Remote Sensing I: Introduction to Environmental Remote Sensing
An in-depth treatment of the use of aerial photographs and other forms of imagery for the analysis of urban-industrial patterns, vegetation, agriculture, landforms, and geologic structure. Prereq: GEOG 3080 or consent of instructor. Cross-listed with GEOL 4060, GEOG 4060, 5060. Semester Hours: 3 to 3

GEOL 5111 - Field Methods in Geology
Introduction to the basic methods of geologic mapping (metamorphic, sedimentary, and igneous rocks), including use of the Brunton compass and Jacob Staff, as well as preparation of measured stratigraphic
sections, geologic maps, and geologic cross-sections. Prereq: GEOL 1072 or GEOG 1202, GEOL 3421 strongly recommended. Cross-listed with GEOL 4111. **Semester Hours:** 3 to 3

**GEOL 5240 - Geomorphology**
Investigates changes in Earth’s physical landscapes incl. aeolian, coastal, fluvial, glacial, karst, periglacial & volcanic processes & landforms as related to rock decay, soils & climatic forcings. Field trips and hands-on tasks using a variety of geomo **Semester Hours:** 3 to 3

**GEOL 5270 - Glacial Geomorphology**
Provides an in-depth view of the processes and systems found in glacial environments. Topics include: evidence of past glaciation; present-day glacial extent; glacier dynamics; glacial erosional processes and landforms; glacial depositional processes and landforms. Prereq: GEOG 1202 or GEOL 1072. Cross-listed with GEOG/GEOL 4270/5270. **Semester Hours:** 3 to 3

**GEOL 5770 - Applied Statistics for the Natural Sciences**
Surveys statistical techniques including: quick review of basic statistics, tests for normality and outliers, display of data; simple and multiple regression; Anova and its relation to regression. Emphasis on computer or stat-pak analysis and interpretation of statistical results. Prereq: College algebra and GEOG 3080, or consent of an instructor. Cross-listed with GEOL 4770, GEOG 4770, ENVS 5600. **Semester Hours:** 3 to 3

**GEOL 5780 - Engineering Geology**
Studies geology as utilized in engineering and environmental practice. Emphasizes a conceptual integration of geologic materials, processes, and rates of change as a basis for successful application of geologic knowledge to environmental planning and engineering design projects. Cross-listed with GEOL 4780 and CVEN 5780. **Semester Hours:** 4 to 4

**GEOL 5939 - Internship**
**Semester Hours:** 1 to 6

**GEOL 5950 - Master’s Thesis**
**Semester Hours:** 1 to 8

**GEOL 5995 - Travel Study**
Fieldwork- and research-based experience studying a diverse selection of geologic settings worldwide. Students individually research geologic areas of interest in an assigned region, followed by on-location field investigations and measurements of geologic data and phenomena. Note: Topics vary depending on region under study, student interest, and faculty specialty. Prereq: GEOL 1072 and 1082, or permission of instructor. Cross-listed with GEOL 4995. **Semester Hours:** 3 to 9

**GEOL 6840 - Independent Study: GEOL**
**Semester Hours:** 1 to 3

**GEOL 6950 - Master’s Thesis**
**Semester Hours:** 1 to 8

**GEOL 6960 - Master’s Project**
**Semester Hours:** 1 to 8
Greek Courses (GREK)

GREK 1010 - Greek I: Biblical
Intended for students of languages, religious studies, and philosophy. Introduces the forms and syntax of Greek so that in the 13th week students will be able to read about 85% of the New Testament in the original language. **Semester Hours:** 5 to 5

GREK 1020 - Greek II: Biblical
A continuation of 1st-semester Biblical and Classical Greek. Covers the remaining forms and syntax of the textbook, with an emphasis on sight-reading passages from the New Testament. At the end of the course we will read, translate and study short fragments and lines written by some Pre-Socratic philosophers such as Thales, Anaxagoras, Anaximander, Heraclitus, and Parmenides. Prereq: GREK 1010. **Semester Hours:** 5 to 5

GREK 2110 - Greek III: Classical
Introduction to classical Greek, followed by reading of Plato's "Apology" with selections from "Pre-Socratic philosophers" (e.g. Xenophanes of Colophon, Zeno of Elea, Pythagoras) and Aristotle. Prereq: GREK 1020. **Semester Hours:** 3 to 3
German Courses (GRMN)

GRMN 1000 - Germany and the Germans
Introduces the ways in which the various aspects of German culture help define German life and national identity. By examining art, music and media, primarily of the 20th century, students explore what it means to be German. Note: Taught in English. **Semester Hours:** 3 to 3

GRMN 1010 - Beginning German I
Introduces basic grammar, sentence structure and speech patterns. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. **Semester Hours:** 5 to 5

GRMN 1020 - Beginning German II
(Continuation of GRMN 1010.) Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: GRMN 1010 or one year of high school German. **Semester Hours:** 5 to 5

GRMN 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

GRMN 2110 - Intermediate German I
(Continuation of German 1020.) Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: GRMN 1020 or two years of high school German. **Semester Hours:** 3 to 3

GRMN 2130 - Intermediate German II
A fourth-semester course designed for those majoring or minoring in International Affairs. Along with grammar review, the course deals with contemporary topics in cultural, political, economic and social affairs. Note: Open to all those wanting to satisfy a fourth semester language requirement to qualify for upper division German courses. Satisfies the language requirement for the minor in International Affairs, may be applied to the major and minor in German, and will satisfy the fourth-semester foreign requirement at most graduate schools. Prereq: GRMN 2110 or placement by exam. **Semester Hours:** 3 to 3

GRMN 2150 - Intermediate German II: Grammar Review and Oral Practice
Prepares students for upper division. German language skills courses. Students practice abilities gained in previous semesters of language instruction, improve conversational abilities, develop skills using reference works, learn tactics for reading and discussing newspaper style German and develop written composition abilities. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Taught in German. Prereq: GRMN 2110 or equivalent. **Semester Hours:** 3 to 3
GRMN 2210 - Readings and Translation
Stresses reading and translation skills rather than speaking. Students work with short German texts in a variety of areas: natural and social sciences, history and literature. Note: Taught in English. Prereq: GRMN 1020. Semester Hours: 3 to 3

GRMN 2240 - Intermediate Composition and Vocabulary Building
A fourth-semester composition and vocabulary building course. Note: Taught in English. Prereq: GRMN 2110 or 2210. Semester Hours: 3 to 3

GRMN 2840 - Independent Study: GRMN
Semester Hours: 1 to 3

GRMN 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours with 2.75 GPA. Semester Hours: 1 to 3

GRMN 2995 - Travel Study
For students doing travel study in Germany; register through the Office of International Education. Semester Hours: 1 to 15

GRMN 3030 - Advanced Conversation: Idioms and Vocabulary Building
An advanced conversation course, using small-group discussion, skits, and short oral presentations to improve fluency in spoken German and to build vocabulary. Prereq: GRMN 2130 or fourth semester equivalency. Semester Hours: 3 to 3

GRMN 3050 - Phonetics and Pronunciation of German
Students acquire skills for articulating German with a high degree of accuracy, and systematically develop a more native-like pronunciation of German. Students learn basic linguistic principles for the purpose of gaining insight into the mechanics of spoken German. Note: Taught in German. Prereq: GRMN 2130. Semester Hours: 3 to 3

GRMN 3060 - Advanced German Language Skills I
An advanced course in German language skills with equal emphasis devoted to speaking, listening, reading and writing. Students improve their cultural awareness, pronunciation, and vocabulary as well. Specific grammar topics include: subjunctive I and II, participles I and II, extended adjectives, verb tenses, gender of nouns, and reflexive. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. Semester Hours: 3 to 3

GRMN 3070 - Advanced German Language Skills II
An advanced course in German language skills with equal emphasis devoted to speaking, listening, reading and writing. Students improve their cultural awareness, pronunciation and vocabulary. Specific grammar topics include: semantic categories, functions of nouns, determiners, adjectives, relative clauses, pronouns. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. Semester Hours: 3 to 3

GRMN 3080 - Advanced German Language Skills III
An advanced course in German language skills with equal emphasis devoted to speaking, listening, reading and writing. Students improve their cultural awareness, pronunciation, and vocabulary as well. Specific grammar topics include: prepositions and idioms, "da" compounds, German syntax, clause
typology numerals, and time expressions. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. **Semester Hours:** 3 to 3

**GRMN 3090 - Advanced German Language Skills IV**
An advanced course in German language skills with equal emphasis devoted to speaking, listening, reading, and writing. Students improve their cultural awareness, pronunciation and vocabulary. Specific grammar topics include: modal verbs, complex clause and sentence structure, "werden," passive voice, double infinitives, perfect infinitives, and dependent infinitives. Note: Primary language of instruction for this course is German. Prereq: GRMN 2130 or permission of instructor. **Semester Hours:** 3 to 3

**GRMN 3110 - Introduction to German Literature I**
Selected readings from German short stories, drama, and poetry, primarily from the modern period. Emphasis on techniques of reading. Note: Primary language of instruction for this course is German. Prereq: GRMN 2110. **Semester Hours:** 3 to 3

**GRMN 3130 - Current Topics of the German-Speaking World**
Combines discussion and writing on political, economic, and social conditions in contemporary Germany, Austria and Switzerland. Articles from current German newspapers, magazines, television broadcasts, and the World Wide Web are analyzed for a better understanding of how citizens of these countries see themselves and the world. Prereq: Any third-year German course. **Semester Hours:** 3 to 3

**GRMN 3200 - Current German Society and Culture**
Provides students with a detailed overview of the systems in modern, united Germany such as social, educational, and political. Examines how Germany sees itself as a vital member of the EU. Exposes students to rudimentary use of the German language. Prereq: Sophomore standing or permission of instructor. **Semester Hours:** 3 to 3

**GRMN 3230 - German Civilization I: From Medieval Through Age of Idealism**
Selected highlights of major cultural aspects of the Middle Ages, the Reformation, the Enlightenment, and the Age of Idealism. **Semester Hours:** 3 to 3

**GRMN 3240 - German Civilization II: The Modern Age**
Selected highlights of major cultural aspects of the later 19th century, the Wilhelminian period, the Weimar Republic, the Third Reich, and the period since 1945. **Semester Hours:** 3 to 3

**GRMN 3310 - Techniques of Translation**
Trains students in strategic translation skills that aid in rapid comprehension of short German texts and the ability to render them into well written contemporary English. Students choose content areas of individual interest (e.g. history, literature, chemistry). Prereq: GRMN 2130 or permission of instructor. **Semester Hours:** 3 to 3

**GRMN 3512 - Faust in Literature and Music**
Surveys the Faust legend in literature and music. Includes works by Marlowe, Goethe, Berlioz, Schumann, Gounod, Boito and others. **Semester Hours:** 3 to 3

**GRMN 3540 - German Cinema and Society**
Studies several key German films from 1918 to the present that illuminate the political/cultural discourses of their times. Readings from historical and film-critical texts aid in contextualizing the films. Note: Taught in English. **Semester Hours:** 3 to 3
GRMN 3840 - Independent Study: GRMN  
**Semester Hours:** 1 to 3

GRMN 3939 - Internship  
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

GRMN 3995 - Travel Study  
For students doing travel study in Germany; register through the Office of International Education. **Semester Hours:** 1 to 15

GRMN 4050 - Advanced German Phonetics and Language History  
Students develop advanced phonetic skills for analyzing the sounds and orthography of German. They apply these skills by examining the diachronic (historic) developments in the grammatical and phonological structures of German over the last two millennia. Note: Taught in German. Prereq: GRMN 3050 or equivalent. **Semester Hours:** 3 to 3

GRMN 4840 - Independent Study: GRMN  
**Semester Hours:** 1 to 3

GRMN 4995 - Travel Study  
For students doing travel study in Germany; register through the Office of International Education. **Semester Hours:** 1 to 15

GRMN 5995 - Travel Study  
For students doing travel study in Germany; register through the Office of International Education. **Semester Hours:** 1 to 15
Health & Behavioral Sciences Courses (HBSC)

**HBSC 1111 - Freshman Seminar**
*Semester Hours: 3 to 3*

**HBSC 2001 - Understanding Community and Public Health**
The field of public health combines a broad diversity of strategies and methods from the health and social sciences to address contemporary public health issues. This course introduces undergraduate students to the mission, history, knowledge base, values, concepts, and tools of community and public health. *Semester Hours: 3 to 3*

**HBSC 2051 - Introduction to Population Studies**
Examines current issues in population growth, fertility, mortality and migration in the United States and globally. Introduces students to the basic tools of demography and encourages them to think critically about the causes and consequences of population change. Cross-listed with PBHL 2051. *Semester Hours: 3 to 3*

**HBSC 3001 - Introduction to Epidemiology**
Introduces the basic concepts of public health and epidemiology, including assessment of disease in the community, the study of causation and association of disease with lifestyle and environmental risk factors, as well as related special topics. Cross-listed with PBHL 3001. *Semester Hours: 4 to 4*

**HBSC 3002 - Ethnicity, Health and Social Justice**
Surveys core issues contributing to racial or ethnic minority differences in health status. Historical and contemporary U.S. health and social policy, including the areas of environmental health, sexual and reproductive health, children and immigrants, are examined. Cross-listed with ETST 3002 and PBHL 3002. *Semester Hours: 3 to 3*

**HBSC 3010 - Human Sexuality and Public Health**
The focus of this course is on human sexuality using a public health lens, examining a number of sexual health issues and their relationship to individual, familial, organizational, and social-level influences. Additionally, we will focus on identifying both primary prevention and intervention approaches to reducing sexual risk factors and increasing healthy behaviors. Cross-listed with PBHL 3010. *Semester Hours: 3 to 3*

**HBSC 3021 - Fundamentals of Health Promotion**
Provides an overview of the field of health promotion, including an introduction to key theories and methods, as well as exposure to the breadth of programs and diversity of settings through several case studies. Includes attention to health behaviors as contributors to current public health problems and community-based approaches to health promotion in addressing them. Cross-listed with PBHL 3021. *Semester Hours: 3 to 3*

**HBSC 3031 - Health, Human Biology and Behavior**
Introduces the multi-factorial nature of human health and well-being. The course considers the influences of biology (genetics), behavior, environment, culture and social determinants, and health policy on the nature of disease and health problems from an integrated perspective. Cross-listed with PBHL 3031. *Semester Hours: 3 to 3*
HBSC 3041 - Health, Culture and Society
This course examines health and illness for individuals, families, and societies from multiple international perspectives, focused on topics such as traditional vs. Western medicine, characteristics of healers and therapeutic relationships, and stigmatized segments of society and their health status. Cross-listed with PBHL 3041. **Semester Hours:** 3 to 3

HBSC 3071 - Global Topics in Sexual and Reproductive Health
Surveys trends and determinants of sexual and reproductive health around the globe and in the United States. Examines the social and behavioral determinants of sexual and reproductive health and the influence of policy. Cross-listed with PBHL 3071. **Semester Hours:** 3 to 3

HBSC 3200 - Human Migration: Nomads, Sojourners, and Settlers
Explores the relationship between human migration, voluntary and forced, and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners, and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with ANTH 3200 and PBHL 3200. **Semester Hours:** 3 to 3

HBSC 3939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

HBSC 4020 - Global Health: Comparative Public Health Systems
Within a limited period of time, middle and low income countries have experienced dramatic changes that affect the length and quality of peoples’ lives. The health indicators for each country reflect a rich and meaningful context within interacting systems. **Semester Hours:** 3 to 3

HBSC 4021 - Community Health Assessment
Introduces applied methods of public health, including: analyzing community-level assessment data, developing a causal model for selected health outcomes, maximizing community participation in the assessment process, developing assessments as a team, and setting the stage for effective intervention and evaluation. Prereq: Upper division standing, a course in statistics, and an introductory course in epidemiology (HBSC 4001, 5001). Cross-listed with HBSC 5021. **Semester Hours:** 3 to 3

HBSC 4031 - Ethnographic Research in Public Health
Qualitative, ethnographic tools for practical applications in public health, including methods of direct observation, informant interviews, focus groups, structured ethnographic methods, rapid assessment and participatory action research. Basic analytic strategies, including review of computer software, coding and data display techniques. Cross-listed with HBSC 5031 and PBHL 4031. **Semester Hours:** 3 to 3

HBSC 4040 - Social Determinants of Health
This course explores social inequalities in physical and mental health, the illness experience, the healing professions, health policy, relations between providers and patients, and the structure, access to, and financing of health care organizations, with some cross-national discussions. Prereq: Upper-division standing. Cross-listed with HBSC 5040, PBHL 4040, SOCY 4040/5040. **Semester Hours:** 3 to 3

HBSC 4060 - Evolutionary Medicine
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and
various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with HBSC 5060, ANTH 4060 and 5060, PBHL 4060. **Semester Hours:** 3 to 3

**HBSC 4080 - Global Health Practice**
A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: HBSC/ANTH 4010/5014, HBSC/ANTH 4020/5024, HLTH 6070 or equivalent. Cross-listed with HBSC 5080, ANTH 4080 and 5080. **Semester Hours:** 3 to 3

**HBSC 4090 - Political Economy of Drugs**
Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: Introductory course in Cultural Anthropology. Cross-listed with ANTH 4090/5090, HBSC 5090, and PBHL 4090. **Semester Hours:** 3 to 3

**HBSC 4110 - Public Health Perspectives on Family Violence**
Public health views family violence from a prevention perspective. Our exploration of child abuse, intimate partner violence, and other forms of family violence will complement other disciplinary approaches by focusing heavily on the community and social factors that contribute to abusive relationships. Theories of power and coercion and approaches to researching these issues will be analyzed and discussed through our exploration of the various forms of family violence. Prereq: Advanced undergraduate standing. Cross-listed with HBSC 5110 and PBHL 4110. **Semester Hours:** 3 to 3

**HBSC 4200 - The Global HIV/AIDS Epidemic**
Provides a foundation for a critical analysis of HIV/AIDS in global context, concerning topics such as disease, the body, ethnicity/race, gender, sexuality, risk, addiction, power, and culture together with a set of ethnographic texts that explore the epidemic's impact. Cross-listed with HBSC 5200 and PBHL 4200. **Semester Hours:** 3 to 3

**HBSC 4620 - Health Risk Communication**
Acquaints students with contemporary theory, research, and practice in health risk communication. Cross-listed with HBSC 5620, COMM 4620/5620, ENVS 5620, and PBHL 4620. **Semester Hours:** 3 to 3

**HBSC 4840 - Independent Study**
This course requires active independent learning based upon a written curricular outline and agreement with a faculty from Health and Behavioral Sciences who supervises the student's work throughout the semester. Prereq: Permission of instructor required. **Semester Hours:** 3 to 3

**HBSC 4995 - Travel Study**
A flexible format that permits courses to be taught in various areas of the world. Prereq: Upper division undergraduate standing and permission of instructor. Cross-listed with HBSC 5995. **Semester Hours:** 3 to 9

**HBSC 4999 - Topics in the Health and Behavioral Sciences**
An in-depth study of selected social science perspectives/theories and their applications to population health. Topics will vary from semester to semester, with a particular emphasis on current, salient
population health problems. Prereq: Junior or senior standing or permission of instructor. Cross-listed with HBSC 5999 and PBHL 4999. **Semester Hours:** 3 to 3

### HBSC 5020 - Global Health: Comparative Public Health Systems
Within a limited period of time, middle and low income countries have experienced dramatic changes that affect the length and quality of peoples’ lives. The health indicators for each country reflect a rich and meaningful context within interacting systems of economic, social, cultural patterns, and environmental and social justice. Analysis and contrast of public health indicators such as the millennium development goals develop an understanding of the complexity against a background of change. Prereq: Upper division and/or graduate standing. Cross-listed with HBSC 4020 and PBHL 4020. **Semester Hours:** 3 to 3

### HBSC 5021 - Community Health Assessment
Introduces applied methods of public health, including: analyzing community-level assessment data, developing a casual model for selected health outcomes, maximizing community participation in the assessment process, developing assessments as a team, and setting the stage for effective intervention and evaluation. Prereq: Upper division standing, a course in statistics, and an introductory course in epidemiology (HBSC 5001, 4001). Cross-listed with HBSC 4021. **Semester Hours:** 3 to 3

### HBSC 5031 - Ethnographic Research in Public Health
Qualitative, ethnographic tools for practical applications in public health, including methods of direct observation, informant interviews, focus groups, structured ethnographic methods, rapid assessment and participatory action research. Basic analytic strategies, including review of computer software, coding and data display techniques. Cross-listed with HBSC 4031 and PBHL 4031. **Semester Hours:** 3 to 3

### HBSC 5040 - Social Determinants of Health
This course explores social inequalities in physical and mental health, the illness experience, the healing professions, health policy, relations between providers and patients, and the structure, access to, and financing of health care organizations, with some cross-national discussions. Prereq: Graduate standing. Cross-listed with HBSC 4040, PBHL 4040, SOCY 4040/5040. **Semester Hours:** 3 to 3

### HBSC 5060 - Evolutionary Medicine
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with HBSC 4060, ANTH 4060 and 5060, PBHL 4060. **Semester Hours:** 3 to 3

### HBSC 5080 - Global Health Practice
A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: HBSC/ANTH 5014/4010, HBSC/ANTH 5024/4020, HLTH 6070 or equivalent. Cross-listed with HBSC 4080, ANTH 4080 and 5080, PBHL 4080. **Semester Hours:** 3 to 3

### HBSC 5090 - Political Economy of Drugs
Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: Introductory course in Cultural Anthropology. Cross-listed with ANTH 4090/5090, HBSC 4090, and PBHL 4090. **Semester Hours:** 3 to 3
HBSC 5110 - Public Health Perspectives on Family Violence
Public health views family violence from a prevention perspective. Our exploration of child abuse, intimate partner violence, and other forms of family violence will complement other disciplinary approaches by focusing heavily on the community and social factors that contribute to abusive relationships. Theories of power and coercion and approaches to researching these issues will be analyzed and discussed through our exploration of the various forms of family violence. Prereq: Graduate standing. Cross-listed with HBSC 4110 and PBHL 4110. **Semester Hours:** 3 to 3

HBSC 5200 - The Global HIV/AIDS Epidemic
Provides a foundation for a critical analysis of HIV/AIDS in global context, concerning topics such as disease, the body, ethnicity/race, gender, sexuality, risk, addiction, power, and culture together with a set of ethnographic texts that explore the epidemic’s impact. Cross-listed with HBSC 4200 and PBHL 4200. **Semester Hours:** 3 to 3

HBSC 5620 - Health Risk Communication
Acquaints students with contemporary theory, research, and practice in health risk communication. Cross-listed with HBSC 4620, COMM 5620/4620, ENVS 5620, and PBHL 4620. **Semester Hours:** 3 to 3

HBSC 5840 - Independent Study
This course requires active independent learning based upon a written curricular outline and agreement with a faculty from Health and Behavioral Sciences who supervises the student's work throughout the semester. Prereq: Permission of instructor required. **Semester Hours:** 3 to 3

HBSC 5939 - Internship
**Semester Hours:** 1 to 6

HBSC 5995 - Travel Study
A flexible format that permits courses to be taught in various areas of the world. Prereq: Graduate standing and permission of instructor. Cross-listed with HBSC 4995. **Semester Hours:** 3 to 9

HBSC 5999 - Topics in the Health and Behavioral Sciences
An in-depth study of selected social science perspectives/theories and their applications to population health. Topics will vary from semester to semester, with a particular emphasis on current, salient population health problems. Prereq: Graduate standing or permission of instructor. Cross-listed with HBSC 4999 and PBHL 4999. **Semester Hours:** 3 to 3

HBSC 6320 - Human Genetics: Legal, Ethical and Social Issues
Examines legal, ethical, and social issues that have come about with advances in human genetics. Topics include privacy, informed consent, discrimination, forensics, medical malpractice, and property rights. Prereq: Graduate standing. Cross-listed with HBSC 7320, ANTH 6041. **Semester Hours:** 3 to 3

HBSC 6840 - Independent Study: HBSC
**Semester Hours:** 1 to 3

HBSC 7001 - Colloquium Series in the Health and Behavioral Sciences
Features presentations by core, affiliated and adjunct faculty; alumni; distinguished guest speakers; and students nearing completion of the dissertation. The goal is to expose students to cutting-edge applications of health-related social and biological science research and to introduce students to the research interests of core and affiliated HBS faculty, advanced students, and alumni who they might
otherwise not have the opportunity to meet. Note: Required for ALL first and second year students but open to all graduate students and faculty. May be taken up to three times for credit. **Semester Hours:** 1 to 1

**When Offered:** FALL

**HBSC 7011 - Theoretical Perspectives in Health and Behavioral Science I**
Covers the following subject areas: philosophy and epistemology of the social and behavioral sciences as they are applied in public health and health care contexts; historical perspectives of Western biomedicine and public health; cross-cultural perspectives on health systems; class, ethnic, and gender correlates of health and sickness; critical perspectives on Western health and health care models; and the structure and organization of health care systems. Note: Part I of a required, two-semester, interdisciplinary, team-taught, seminar-format course that meets three hours a week for the academic year. Prereq: Admission to the Health and Behavioral Sciences program. **Semester Hours:** 3 to 3

**HBSC 7021 - Theory in Health and Behavioral Sciences**
Covers theories utilized in development and assessment of public health programs with goals to improve health. Students acquire skills in theory building and testing and how to best utilize theory to address pressing health concerns. Prereq: HBSC 7011. **Semester Hours:** 3 to 3

**HBSC 7031 - Human Ecology and Environmental Adaptation**
Focuses on the interplay of biology, environment, culture, and behavior in the causes and exacerbation of disease. The course includes the following topics: health in environmental and evolutionary contexts; models of causation in biomedicine and other medical systems; individual, community, and population manifestations of health and disease; and biocultural interaction in disease process. Specific case studies drawn from contemporary health problems are used to illustrate in detail the nature of these processes. Prereq: Admission to the Health and Behavioral Sciences program. **Semester Hours:** 3 to 3

**HBSC 7041 - Research Design and Methods in the Health and Behavioral Sciences I**
This course has four principal aims: (1) to provide students a working knowledge of research methodology as applied to field research efforts; (2) to enable students to apply research methodologies to areas of particular interest in the health and behavioral sciences; (3) to expose students to data manipulation techniques common to social science quantitative research; and (4) to teach basic research proposal development techniques. Prereq: Admission to the Health and Behavioral Sciences program. **Semester Hours:** 3 to 3

**HBSC 7051 - Qualitative Research Design and Methods**
Much of the data collected in the social sciences is interview- and text-based. This course explores methods for collecting and analyzing these data and theoretical paradigms that underlie these methods. Cross-listed with ANTH 6063. **Semester Hours:** 3 to 3

**HBSC 7061 - Quantitative Methods in the Health and Behavioral Sciences**
This course introduces students to multivariate regression methods - a set of statistical models that relate an outcome variable to a set of predictor variables. The course emphasizes understanding and applying regression models to address social science research questions. **Semester Hours:** 3 to 3

**HBSC 7061 - Social Statistics**
This course covers the theory and application of basic and advanced statistical methods for social and health research. **Semester Hours:** 3 to 3
HBSC 7071 - Social and Behavioral Determinants of Health and Disease
Surveys the distribution, determinants, and psychological and behavioral aspects of health and disease. Social, economic, environmental, and cultural variations in and determinants of health, disease, and quality of life, as well as barriers to access and utilization, geopolitical influences, environmental and social injustice, historical trends, and future directions are addressed. Prereq: HBSC 5001 or equivalent. **Semester Hours:** 3 to 3

HBSC 7111 - Applications of the Health and Behavioral Sciences
The purpose of this course is to help students select and refine a dissertation research topic. Each student, through presentations and discussions of their work, will receive feedback from fellow students and the instructor, and will have an opportunity to improve written and oral presentation skills. Prereq: HBSC 7041. **Semester Hours:** 3 to 3

HBSC 7120 - Human Reproductive Technologies and the Law
Examines the legal, ethical, and social issues that have come about with advances in assisted reproductive technologies (ART). Illustrates how lawyers, judges, bioethicists, legislators, and policy makers have addressed these issues. Prereq: Graduate standing. **Semester Hours:** 3 to 3

HBSC 7121 - Dissertation Proposal and Research
**Semester Hours:** 6 to 8

HBSC 7210 - Human Health and Environmental Pollution
Examines the roles of technology and society in the etiology and control/prevention of adverse health outcomes associated with releases of toxic substances. Examples come from experience and the literature on occupational cancer and reproductive hazards, occupational and environmental regulation of hazardous wastes, air, and water pollution. Cross-listed with ENVS 6210. **Semester Hours:** 3 to 3

HBSC 7235 - GIS Applications in the Health Sciences
Examines how GIS is used throughout the health care industry and public health. Covers environmental health, disease surveillance, and health services research. Students critically review current literature and gain hands-on experience with GIS software. Prereq: GEOG 4080 or GEOG 5080, public health background, or consent of instructor. Cross-listed with GEOG 4235, GEOG 5235. **Semester Hours:** 3 to 3

HBSC 7310 - Environmental Epidemiology
Provides a basic understanding of the methods used to study the effects on human health of exposures to physical, chemical, or biological factors in the external environment. The course explains the use of epidemiologic methods through a problem solving approach to investigating environmental health case studies. Prereq: A basic statistics course and graduate standing or permission of instructor. Cross-listed with ENVS 6230. **Semester Hours:** 3 to 3

HBSC 7320 - Human Genetics: Legal, Ethical and Social Issues
Examines legal, ethical, and social issues that have come about with advances in human genetics. Topics include privacy, informed consent, discrimination, forensics, medical malpractice, and property rights. Prereq: Graduate standing. Cross-listed with HBSC 6320, ANTH 6041. **Semester Hours:** 3 to 3

HBSC 7340 - Risk Assessment
The process of determining the likelihood and extent of harm that may result from an activity or event. Topics covered are: hazard identification, dose-response evaluation, exposure assessment, and risk characterization. The subjects of risk management, risk perception, and risk communication are also
discussed. Prereq: Graduate standing or permission of instructor. Cross-listed with CVEN 5494, ENVS 6200. **Semester Hours:** 3 to 3

**HBSC 7360 - Toxicology**
Introduces the field of toxicology. Emphasizes the mechanisms by which chemicals produce toxic effects and the methods for assessing toxicity. Note: Designed for students in the environmental sciences and occupational health fields. Prereq: One year college chemistry and one year college biology. Cross-listed with ENVS 6220. **Semester Hours:** 3 to 3

**HBSC 7400 - Topics in the Health and Behavioral Sciences**
A flexible seminar format for dealing with topics of special interest in the health and behavioral sciences. Topics to be considered vary from semester to semester. Prereq: Graduate standing. **Semester Hours:** 3 to 3

**HBSC 8990 - Doctoral Dissertation**
Prereq: Admission to the Health and Behavioral Sciences program. **Semester Hours:** 1 to 10
Health Humanities Courses (HEHM)

HEHM 3100 - Introduction to Culture, Society and Medicine
This course introduces students to the rich field of medical humanities. It examines how various disciplines analyze relationships among culture, society and medicine, and what humanistic approaches can teach us about biomedical theory and health care. **Semester Hours:** 3 to 3
Historic Preservation Courses (HIPR)

HIPR 6010 - Preservation Theory and Practice
The practice of historic preservation has evolved in a specific policy context. This introductory course introduces basic American institutions and laws associated with preservation as well as standards, definitions, and practices associated with these. **Semester Hours:** 3 to 3

HIPR 6090 - Special Topics in Historic Preservation
Various topics in historic preservation, according to current faculty and student interests. Prereq: HIPR 6010 or permission of instructor. **Semester Hours:** 3 to 3

HIPR 6110 - Regionalisms & the Vernacular
This class explores the history of the built environment from the perspective of evolutionary change; peoples attempting to meet utilitarian needs, respond to environmental forces, societal expectations, and aesthetic aspirations through design. The course looks closely at vernacular structures in a global context. Prereq: HIPR 6010 or permission of instructor. Cross-listed with ARCH 6350. **Semester Hours:** 3 to 3

HIPR 6170 - Preservation Design Studio
Preservation Design Studio provides a project-based learning experience for Historic Preservation students; who are typically integrated into a pre-approved studio of one of the College of Architecture & Planning's departments. Topics vary according to faculty interests. Co-req: HIPR 6171. Cross-listed: Varies by semester. **Semester Hours:** 4 to 4

HIPR 6171 - Preservation Design Seminar
Preservation Design Seminar supports fuller discussion of key themes and concepts in HIPR 6170. Topics vary according to faculty interests. Co-req: HIPR 6170. Cross-listed: Varies by semester. **Semester Hours:** 2 to 2

HIPR 6210 - Survey, Significance, Recognition
This course covers the concept of "historic significance" and develops skills in understanding and professionally utilizing this concept. Procedures and skills are introduced. Prereq: HIPR 6010 or permission of instructor. **Semester Hours:** 3 to 3

HIPR 6310 - Documentation, Analysis, Representation
This methods course focuses on skills development in in-situ documentation of the historic environment. The course includes modules on: a) historic records, b) archaeological evidence, c) building and site measurement, d) photographic & photometric methods, e) geo-spatial data, f) graphic representation, and g) reporting formats. Prereq: HIPR 6010 or permission of instructor. Cross-listed with ARCH 6352. **Semester Hours:** 3 to 3

HIPR 6410 - Urban Conservation: Context for Reuse
This course begins with the premise that human habitats, and especially cities, are dynamic and ever changing; and that the preservationist cannot (and should not try) to freeze cities in a static representation of the past. The course deals with both the philosophical and political contexts, but emphasizes the role of strategic design intervention in the shaping of evolving cities. This includes traditional preservation activities, but also recognizes the importance of progressive change. Readings are diverse, but at least two case study cities are used to ground the concepts. Class activities include: a) research, b) field study, c) design, and d) presentation. Prereq: HIPR 6010 is recommended. **Semester Hours:** 3 to 3
**HIPR 6510 - Building Conservation**
This course emphasizes the relationship between knowledge acquisition, professional judgement, and design modification. Topics include: 1) Historic Building Types & Methods, 2) Field and Lab Methods of Building Assessment, and 3) Management of Building Rehabilitation. The course takes an integrative approach to the scientific, aesthetic, managerial and legal dimensions of preservation. Prereq: HIPR 6010 or permission of instructor. Cross-listed with ARCH 6351. **Semester Hours:** 3 to 3

**HIPR 6610 - Reading the City**
Design and planning professionals, including preservationists, must learn to work in environments with which they have had little previous knowledge. This course emphasizes gaining understanding of a novel environment and translating that knowledge into a well researched and media savvy professional presentation. Students prepare a research plan, then conduct research on a relatively unfamiliar urban environment, such as Chicago (or other major city), returning to prepare, present, and critically reflect upon their applied research through a media-savy final project. Prereq: HIPR 6410 is recommended. Cross-listed with ARCH 6290. **Semester Hours:** 3 to 3

**HIPR 6840 - Independent Study**
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to historic preservation. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

**HIPR 6851 - Professional Project**
The Professional Project is one of two options for completing the Capstone Requirement. There are multiple ways of satisfying this requirement, but the agreed upon Project must show critically reviewed evidence of professional competence in the field of historic preservation. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

**HIPR 6930 - Internship**
Designed to provide professional practice experience. The internship is composed of eight to twelve hours per week working in a professional preservation setting during the regular semester. Prereq: Permission of instructor. **Semester Hours:** 3 to 3

**HIPR 6951 - Thesis**
The Thesis is one of two options for completing the Capstone Requirement. Students may choose to develop a specialized thesis in some topic related to historic preservation. Prereq: LDAR 6949. **Semester Hours:** 6 to 6
History Courses (HIST)

HIST 1016 - World History to 1500
Surveys the rise of civilizations and their interactions from prehistoric to modern times. The emphasis is on the understanding of the various styles or characteristics of civilizations within a global context. **Semester Hours:** 3 to 3

HIST 1026 - World History Since 1500
Surveys the interactions of the world's civilizations in modern times. The emphasis is on understanding the concept of modernization within a global context. **Semester Hours:** 3 to 3

HIST 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

HIST 1211 - Western Civilization I
Introduces ancient Mediterranean civilization and the birth of Europe. Covers topics on economics and society, political organization, intellectual history, and art from 3000 B.C. to A.D. 1500. **Semester Hours:** 3 to 3

HIST 1212 - Western Civilization II
Introduces modern European civilization and its spread over the world. Covers topics on economics and society, political organization, intellectual history, and art from A.D. 1500 to the 20th century. **Semester Hours:** 3 to 3

HIST 1361 - U.S. History to 1876
Provides an introduction to the major forces, events and individuals that shaped the historical development of American society, beginning with the European settlement of America and concluding with the Civil War, reconstruction and the early growth of an industrial order. **Semester Hours:** 3 to 3

HIST 1362 - U.S. History Since 1876
Provides an introduction to the major forces, events, and individuals that shaped the historical development of American society from the Civil War to the present. **Semester Hours:** 3 to 3

HIST 1381 - Paths to the Present
Examines several topics of profound interest to historians world wide: nature and technology, secular and religious faiths, and concepts of political union. The experience of the U.S. as it relates to the experiences of other periods and cultures. **Semester Hours:** 3 to 3

HIST 1400 - Controversies in History
Examines a variety of cases where historians have significant disagreement or diverse interpretations regarding "what happened" and "why," to come to an understanding of what historians do and how they do it. **Semester Hours:** 3 to 3

HIST 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

HIST 3031 - Theory and Practice of History: An Introduction to the Major
Introduces history majors to the discipline at the outset of their course work. Covers historiographical trends and methodologies, and familiarizes students with the various types of research and writing they
are likely to encounter in their classes. Note: This course should be taken as early as possible, and must be taken before HIST 4839. **Semester Hours:** 3 to 3

**HIST 3121 - The World at War, 1914-1945**
Examines World Wars I and II as episodes in a protracted conflict among the nations of the capitalist West, the emerging states of Asia and the colonial world, and the USSR. Studies the causes and consequences of the wars. **Semester Hours:** 3 to 3

**HIST 3230 - The American Presidency**
Explores the presidency in U.S. History. Topics include: ideological and constitutional foundations; expansion of presidential power in domestic politics and international relations; evolution of presidential campaigns; and dimensions of presidential leadership in politics, society and culture. **Semester Hours:** 3 to 3

**HIST 3231 - Famous U.S. Trials**
History of the origins and development of the American constitution, with the famous trials and landmark Supreme Court decisions. **Semester Hours:** 3 to 3

**HIST 3232 - The American Colonies to 1750**
The maturation of the American colonies within the British Empire, the development of commercial and intellectual centers, the creation of uniquely American politics, and the unfolding of critical differences between North and South. **Semester Hours:** 3 to 3

**HIST 3235 - U.S. Labor History, 1800 to the Present**
Explores the experiences, contributions, and struggles of working-class Americans from the Civil War to the present. Areas of focus include pre-industrial and post-industrial labor, slavery, agricultural labor, gender and working class culture outside of the work place. Particular attention is paid to immigration, ethnicity, race and gender, as they relate to the history of America's laboring class. Prereq: Upper division standing. **Semester Hours:** 3 to 3

**HIST 3343 - Women in U.S. History**
An analysis of women's place in society, in the work place, and in the political arena over the last 300 years. Cross-listed with WGST 3343. **Semester Hours:** 3 to 3

**HIST 3345 - Immigration and Ethnicity in American History**
Explores the personal and collective experience of immigrants to America. Discusses problems of assimilation, urban and rural experiences, and implications for politics, the economy and social attitudes. **Semester Hours:** 3 to 3

**HIST 3347 - African-American History, 1619-Present**
Explores the African-American experience, including definitions of citizenship, strategies for protest and resistance, models of leadership, religious life and cultural expression, divisions of class, color and gender. **Semester Hours:** 3 to 3

**HIST 3348 - The African-American Protest Tradition, 1865 - Present**
Examines a series of influential African-American activists and considers such themes as intra-racial divisions, Pan-Africanism, black nationalism, the use of the courts and legal efforts, and black conservatism. **Semester Hours:** 3 to 3
HIST 3349 - Social Movements in 20th Century America
By surveying the major American social movements of the twentieth century, this course will explore how Americans have created categories of race, ethnicity, culture, and sexuality and how elite and marginalized citizens have deployed these categories in politics. **Semester Hours:** 3 to 3

HIST 3350 - Colonial Latin America
Surveys the creation of colonial empires by Spain and Portugal, 1492-1808. Topics include Native American responses to European incursions, women in colonial society, and slavery in Latin America. Cross-listed with ETST 3350. **Semester Hours:** 3 to 3

HIST 3360 - Denver History
Introduces the social, political, economic, and cultural life of this mile high metropolis. Founded in the 1858 gold rush, Denver has grown into a five-county metropolis of over two million. Explore this boom and bust history in lectures, slide shows and walking tours. This course offers students a chance to do their own primary source research project, as well as exams and book reports. Note: Open to all students. **Semester Hours:** 3 to 3

HIST 3364 - Native Americans and Spaniards in North America
Examines the interactions between Native Americans and Spanish invaders beginning in the 16th century. The course explores the impact of colonialism in what is today the American Southwest. Focuses on Native American adaptation and resistance to the European presence. **Semester Hours:** 3 to 3

HIST 3365 - Aztlan in the United States: Chicano History from 1821
Explores the impact of U.S. rule on the Southwest, paying particular attention to legal, economic, and social changes that created new political and cultural identities in the Southwest. Cross-listed with ETST 3365. **Semester Hours:** 3 to 3

HIST 3366 - Environmental History of North America
Examines the conversation that the peoples of North America have had with the earth, from Indian prehistory to modern industrial civilization. Out of the people-land dialogue has emerged a variety of cultures, some of which, as we shall see, successfully adapted to their environment, while others failed. Prereq: HIST 1361, 1362, 1381 or 1382. **Semester Hours:** 3 to 3

HIST 3396 - History of the American Indian
Indigenous nations in North America comprise hundreds of diverse cultures. This course examines U.S. Indian policy and how indigenous nations responded; how they creatively adapted, and resisted cultural change; and how they continue to persist culturally, socially, and politically. Cross-listed with ETST 3396. **Semester Hours:** 3 to 3

HIST 3451 - Introduction to African History
By looking at specific examples of the cultural, political, and economic experience of African society, this course attempts to introduce and make comprehensive the diverse history of the people of Africa. **Semester Hours:** 3 to 3

HIST 3460 - Introduction to Latin American History
Surveys the historical development of the modern Latin American countries, beginning with the independence movements of the early 19th century. Emphasizes the 20th century issues and problems that have characterized these countries and affected their relations with the United States. **Semester Hours:** 3 to 3
HIST 3470 - Introduction to Asian History
Introduces the origin and development of civilization in China, Japan and Korea. Explores the relationship between culture and civilization. Readings are drawn from literature, religion, philosophy, anthropology and history. **Semester Hours:** 3 to 3

HIST 3471 - Islam and Asia
The course traces patterns of identity construction and compares social, political and cultural practices across regions and through Asia's diverse states and empires. Taking a broad survey of historical processes led by Asian Muslims, the course asks: why did some regions of Asia convert to Islam in large measure and others not? Why has the nineteenth century been called "Islam’s Indian century?" "What is the difference...” between creating a Muslim homeland like Pakistan and an Islamic state like Iran? **Semester Hours:** 3 to 3

HIST 3480 - Introduction to European History
Students are introduced to the major themes of European history and culture from the Enlightenment to the present. **Semester Hours:** 3 to 3

HIST 3481 - Ancient Greece
A history of the Greek-speaking world, from the Bronze Age depicted in Homer's epics to Alexander the Great and the Hellenistic Kingdoms. The course addresses the political, intellectual, socioeconomic, and military history of the eastern Mediterranean, with an emphasis on Greece. **Semester Hours:** 3 to 3

HIST 3482 - Rome: City and Empire
Pagan Rome from its earliest beginnings to the rise of Christianity. Emphasis is on the military, socioeconomic, and political history of Rome, its empire in Italy, and its domination of the Mediterranean World (ca. 800 B.C. to A.D. 300). **Semester Hours:** 3 to 3

HIST 3483 - Introduction to Modern South Asia
Surveys the social, economic, and political processes that shaped modern South Asia. Considers issues in contemporary political debates within their original historical contexts and trace the power of relationships that affected changes, long-term continuities, and revivals. **Semester Hours:** 3 to 3

HIST 3484 - British Isles to 1714
A sampler of the rich, diverse, and dramatic history of the peoples of the British Isles. State formation, economic and social change and cultural values are several of the themes threaded through this survey course. **Semester Hours:** 3 to 3

HIST 3485 - British Isles Since 1714
This course examines the dramatic rise of the British industrial, commercial, and political empire during the 18th and 19th centuries and its equally dramatic decline in the 20th century. **Semester Hours:** 3 to 3

HIST 3486 - Renaissance and Reformation
Explores the late 13th through middle 17th centuries when European art and culture changed dramatically, and when Europe was torn by explosive ideological conflicts and religious upheaval. **Semester Hours:** 3 to 3

HIST 3487 - Medieval Europe
Surveys the general history of Europe from the fall of Rome to the opening of modern Europe. **Semester Hours:** 3 to 3
HIST 3488 - Tudor-Stuart England
England’s rise from obscurity in 1487 to the dawn of her age of European and world dominance in the early 18th century. Family life and popular culture as well as Henry VIII, Queen Elizabeth, Parliament, and Cromwell. **Semester Hours:** 3 to 3

HIST 3500 - African History in Novels and Films
Introduces modern Africa through the eyes of creative artists. Various topics, such as childhood, religion, and colonialism, are presented from various points of view--African and non-African. **Semester Hours:** 3 to 3

HIST 3601 - Colorado History
Presents the story of the people, society, and culture of Colorado from the earliest Native Americans, through the Spanish influx, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the tourists, and the modern twentieth-century state. **Semester Hours:** 3 to 3

HIST 3606 - Science, Technology, and Society in the Modern World
Examines the relationships among science, technology, and society from the early 19th century to the present. **Semester Hours:** 3 to 3

HIST 3706 - Age of Revolution
Examines revolutions in selected societies around the world during the period from 1750 to 1950. The specific revolutions chosen may vary, but representative upheavals in both the Western and non-Western worlds are examined. **Semester Hours:** 3 to 3

HIST 3810 - Topics
Topics in history with varying subtitles reflecting course content. **Semester Hours:** 3 to 3

HIST 3840 - Independent Study: History
**Semester Hours:** 1 to 3

HIST 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

HIST 3995 - Travel Study
Created for students doing travel study in a foreign country; register through the Office of International Education. **Semester Hours:** 1 to 15

HIST 4027 - Enlightenment and Revolution
In this course students explore the relationship of ideas and events in Europe during the 17th and 18th centuries. Modernizing trends in the European economy, religion, science, states and international affairs leading up to the French Revolution. Cross-listed with HIST 5027. **Semester Hours:** 3 to 3

HIST 4028 - Nations and Classes: 19th Century Europe
Focuses on material and ideological changes in 19th century Europe, exploring social, cultural, political, economic, and intellectual developments. Cross-listed with HIST 5028. **Semester Hours:** 3 to 3
HIST 4029 - Age of Anxiety in Europe
Looks at Europe at the end of the nineteenth century in an effort to determine if there is any relation between the peculiarities in culture at the time and the horrors in politics that followed. Cross-listed with HIST 5029. **Semester Hours:** 3 to 3

HIST 4030 - Europe During the World Wars
Covers the history of the two world wars and their origins, political and social upheaval during the interwar economic crisis, the rise of communism, Italian fascism and Nazism, with an emphasis on cultural production and intellectual life. Cross-listed with HIST 5030. **Semester Hours:** 3 to 3

HIST 4031 - Contemporary Europe
History of Europe since 1945. Students study the economic, social, and political history of Europe since World War II, with a special emphasis on the Cold War and intellectual currents. Cross-listed with HIST 5031. **Semester Hours:** 3 to 3

HIST 4032 - Globalization in World History Since 1945
An interdisciplinary course on contemporary world history and globalization. While the course is historically structured, economic, political, and sociological matters are explored. Cross-listed with HIST 5032. **Semester Hours:** 3 to 3

HIST 4034 - Core Themes in European History
Core themes in modern Europe, 1750 to the present. Cross-listed with HIST 5034. **Semester Hours:** 3 to 3

HIST 4035 - Crisis and Transformation: Europe's 20th Century
This course examines 20th century European history focusing on themes of crisis and transformation. We will explore how devastating wars, economic depression, stark ideological divisions, and revolutionary social, political and cultural movements dramatically changed Europe over the course of the century. Cross-listed with HIST 5035. **Semester Hours:** 3 to 3

HIST 4046 - Victorians and Victorianism
Taking an interdisciplinary perspective, this course examines English people and English life during the reign of Queen Victoria, 1837-1901. What were the defining features of the Victorian age? What did it mean to be "Victorian?" When and why did the Victorian paradigm break down? Cross-listed with HIST 5046. **Semester Hours:** 3 to 3

HIST 4051 - Britain and The Empire
Examines 19th and 20th century British history, addressing social, cultural, and political themes. Explores industrialization, state growth, and imperialism; relationships between race, gender, and class; and the ways in which colonizers and the colonized experienced empire. Cross-listed with HIST 5051. **Semester Hours:** 3 to 3

HIST 4055 - The Atlantic Slave Trade: Africa, Caribbean and U.S.
Presents a broad overview of the slave trade in the Atlantic World, including discussion of the slave plantation, the creation of Caribbean societies and the consequences of independence from Britain. Cross-listed with HIST 5055. **Semester Hours:** 3 to 3

HIST 4062 - Modern France, 1789 to the Present
Considers the shaping of modern France from the 18th century Bourbon Monarchy and aristocratic society to today's liberal democracy, in which multiculturalism, globalization and supranational
institutions call into question the very nature of French identity. Cross-listed with HIST 5062. **Semester Hours:** 3 to 3

**HIST 4071 - Modern Germany**
Surveys the major political, institutional, social, economic, and cultural developments that have occurred in Germany since the late 18th century. Cross-listed with HIST 5071. **Semester Hours:** 3 to 3

**HIST 4074 - Post-War Germany**
Historical survey of Germany since the second world war, with an emphasis on culture and society. Cross-listed with HIST 5074. **Semester Hours:** 3 to 3

**HIST 4075 - Travel Stories and Origins of Cultural Anthropology**
Examines the early history of cultural anthropology by means of classic travel literature. Cross-listed with HIST 5075. **Semester Hours:** 3 to 3

**HIST 4076 - History of Modern Science**
Surveys the history of science from the 18th century to the present. Treats all disciplines, from physics to physiology, in an attempt to understand how the natural world came to dominate our sense of ourselves. Cross-listed with HIST 5076. **Semester Hours:** 3 to 3

**HIST 4082 - Reform and Revolution in Russia: The 1860s to 1917**
Emphasis upon Russia’s attempts to modernize, beginning with great reforms of the 1860s and 1870s; increasing polarization of government and opposition groups. Examines governmental point of view through several monographs and revolutionary theory, including those of Marx, Engels, Lenin and Trotsky. Cross-listed with HIST 5082. **Semester Hours:** 3 to 3

**HIST 4083 - Russia Since 1917**
Studies the development of the Soviet Union from its formation in the October Revolution, through the Civil War, the new economic policy, industrialization, collectivism, the Stalinist purges, up to the present. Cross-listed with HIST 5083. **Semester Hours:** 3 to 3

**HIST 4086 - Eastern Europe**
Studies the countries of Eastern Europe from their origins in the Middle Ages to the present. Cross-listed with HIST 5086. **Semester Hours:** 3 to 3

**HIST 4133 - Management of Material Culture and Museum Collections**
This course provides in-depth knowledge of the rudiments of material culture documentation, preservation and management. While we have designed this class for those interested in working in history museums, this is also appropriate for those students who want to learn the place of artifacts in studying history. Cross-listed with HIST 5133. **Semester Hours:** 3 to 3

**HIST 4201 - Core Themes in U.S. History**
This course surveys major themes in U.S. history. Cross-listed with HIST 5201. **Semester Hours:** 3 to 3

**HIST 4210 - The American Revolution**
The crisis of the British Empire in North America from the end of the French and Indian War to the ratification of the American Constitution. Topics include the emerging economy, constitutional arguments against Britain, the conduct of the war, and the definition of a republic. Cross-listed with HIST 5210. **Semester Hours:** 3 to 3
HIST 4212 - Civil War and Reconstruction
Begins with the causes and outbreak of the American Civil War, describes the military conflict and the social aspects of the war, examines the federal efforts to reconstruct the southern states, and protect the rights of Black citizens after 1865. Cross-listed with HIST 5212. **Semester Hours:** 3 to 3

HIST 4213 - The Gilded Age and Early 20th Century Challenges: U.S. History, 1865-1932
Topical study of major events in America, including Reconstruction; the rise of industry and the workers' response; westward expansion and the plight of Native Americans; urbanization and immigration; agrarian upheaval; Progressivism; World War I; the challenges of the 1920s and the onset of the Great Depression. Cross-listed with HIST 5213. **Semester Hours:** 3 to 3

HIST 4216 - History of American Popular Culture
Explores the evolution of film, radio, television, and popular music from the 1940s to the 1980s. The course uses these and other forms of popular art to examine American history in this era. The course focuses on the shifting trends in popular culture, how that culture reflects the larger themes in American history, and how these media have impacted the national experience. Cross-listed with HIST 5216. **Semester Hours:** 3 to 3

HIST 4217 - Consumer Culture
This interdisciplinary course examines the dynamics of the consumer culture in the context of social, economic, and technological history. The analysis begins with 17th century European origins, and continues through recent world developments, emphasizing the U.S. since 1800. Note: Open to all students. Cross-listed with HIST 5217. **Semester Hours:** 3 to 3

HIST 4219 - Depression, Affluence and Anxiety: U.S. History, 1929 to the Present
Examines major developments, focusing on the causes of the Depression and efforts to combat it; World War II and postwar readjustments; the Cold War and challenges of world leadership; unparalleled prosperity; Civil Rights movement; the Vietnam War; and economic uncertainties amidst general prosperity. Cross-listed with HIST 5219. **Semester Hours:** 3 to 3

HIST 4220 - U.S. Foreign Policy Since 1912
The main thrust is the emergence of the U.S. from isolation toward full-scale participation in the affairs of Europe and other areas. Special attention is given to U.S. intervention in two world wars, the Cold War, and the over extension of U.S. commitments since 1960. Cross-listed with HIST 5220. **Semester Hours:** 3 to 3

HIST 4222 - U.S. Society and Thought to 1860
Major topics include the evolution of Protestantism from Puritans to Transcendentalists; humanitarian reforms such as abolition, temperance, and women's rights; European influences on American thought; the effect of industrialization on the development of class society; and American nostalgia for agrarian life. Cross-listed with HIST 5222. **Semester Hours:** 3 to 3

HIST 4223 - U.S. Society and Thought Since 1860
Topical survey of the main currents of American thought and their impact upon society. Topics include American philosophy, literature (extensively), art, music, immigration and urbanization, technology, extremism of both left and right, and education. Cross-listed with HIST 5223. **Semester Hours:** 3 to 3

HIST 4225 - Urban America: Colonial Times to the Present
Rise of the American city from colonial times to present. Major emphasis on the process of urbanization since 1840: town promotion, the industrial city, immigration, boss politics and reform, urban technology,
transportation systems, minorities, city planning, and the future of urban America. Cross-listed with HIST 5225. Semester Hours: 3 to 3

HIST 4226 - U.S. Business History
Surveys the major changes in business practices from colonial times to the present. Primary emphasis is placed on the Industrial Revolution and after. Topics include the emergence of major personalities in the Industrial Revolution; the rise of giant corporations; the response of industrial labor unions; government intervention and regulations and the emergence of the post-industrial society. Cross-listed with HIST 5226. Semester Hours: 3 to 3

HIST 4227 - American West
Introduces the diverse peoples, places, and approaches to the development of the trans-Missouri West from prehistoric times to the present. Cross-listed with HIST 5227. Semester Hours: 3 to 3

HIST 4228 - Western Art and Architecture
Introduces art and architecture of the American West, emphasizing their historical context. Students are required to do book reports and a research paper. Course includes walking tours and museum visits. Cross-listed with HIST 5228. Semester Hours: 3 to 3

HIST 4229 - Colorado Historic Places
Introduces community architecture, folklore, and history for all students. Students learn how to survey, describe, and designate significant historical structures and districts. Cross-listed with HIST 5229. Semester Hours: 3 to 3

HIST 4230 - Women in the West
Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the Western states. Cross-listed with HIST 5230 and WGST 4230/5230. Semester Hours: 3 to 3

HIST 4231 - History in Museums
This core course for the museum studies area of public history introduces students to the theory and practice of museum operations. It covers the basics of museum administration, museum collection and preservation, and museum interpretation from both theoretical and practical points of view. Cross-listed with HIST 5231. Semester Hours: 3 to 3

HIST 4232 - Historic Preservation
Introduces the history, methodology, and goals of historic preservation. Guest speakers, field trips, research projects, and book reports. Cross-listed with HIST 5232. Semester Hours: 3 to 3

HIST 4234 - Introduction to Public History
An overview of history outside the academic setting. Students have the opportunity to learn about jobs through on-site visits and presentations made by people engaged in a wide variety of occupations in history other than teaching. Cross-listed with HIST 5234. Semester Hours: 3 to 3

HIST 4235 - Sports and American Society
Examines American society and culture through the history of recreational and professional sport. Issues include class, race, gender, religion, business and politics. Cross-listed with HIST 5235. Semester Hours: 3 to 3
HIST 4236 - Colorado Mining and Railroads
Focuses on the transportation network that shaped the inland West, and its key role in the extractive industry that gave Colorado its start and nourished the highest state through adolescence. Cross-listed with HIST 5236. **Semester Hours:** 3 to 3

HIST 4238 - U.S. History Through Fiction
Explores American history through novels, based on the idea that fiction offers a superb "window" through which to view the past, especially to understand the texture of American society. Prereq: Upper division standing. Cross-listed with HIST 5238. **Semester Hours:** 3 to 3

HIST 4240 - National Parks History
Introduces how the National Park Service uses history to identify, designate, preserve, and interpret America's most outstanding historic and natural history sites. After tours of NPS sites, students select from a wide range of projects. Note: Open to all students. Cross-listed with HIST 5240. **Semester Hours:** 3 to 3

HIST 4242 - Oral History
Trains public history students in the collection of oral history interviews. Students master core readings on the theory, practice, and ethics of oral history. Cross-listed with HIST 5242. **Semester Hours:** 3 to 3

HIST 4243 - Public History Administration
Introduces students to the skills, practice, and ethics of public history administration. Cross-listed with HIST 5243. **Semester Hours:** 3 to 3

HIST 4244 - Interpretation of History in Museums: Exhibits and Education
This course allows students to gain in-depth knowledge of historical interpretation through exhibits and education in a museum setting. This class is designed for those preparing to work in history museums but is also appropriate for teachers and others who want to learn how museum programs interpret history with artifacts and other historical materials. Cross-listed with HIST 5244. **Semester Hours:** 3 to 3

HIST 4245 - Heritage Tourism
History and historic sites have become big business in 21st century tourism. The heritage tourism industry is explored in this introductory course for all interested students focusing on how academic history and historians can partner with tourism and recreation interests. Cross-listed with HIST 5245. **Semester Hours:** 3 to 3

HIST 4303 - Sex and Gender in Modern Britain
Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 5303 and WGST 4303/5303. **Semester Hours:** 3 to 3

HIST 4306 - Survey of Feminist Thought
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 5306, WGST 4306, 5306. **Semester Hours:** 3 to 3
HIST 4307 - History of Sexuality
Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 5307 and WGST 4307/5307. **Semester Hours:** 3 to 3

HIST 4308 - Crime, Policing, and Justice in American History
Focuses on changing legal and cultural definitions of crime, the role of the police, the evolution of punishment in theory and practice, and the role of mass culture in shaping the social history of crime and justice. Cross-listed with HIST 5308. **Semester Hours:** 3 to 3

HIST 4345 - Gender, Science, and Medicine: 1600 to the Present
Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 5345 and WGST 4345/5345. **Semester Hours:** 3 to 3

HIST 4346 - Medicine and Society: the Ancients to the Present
Surveys change and continuity in definitions of health and illness, interactions between patients and practitioners, the practice of medical authority, and the relationships between science, clinical medicine, and the provision of health care. Cross-listed with HIST 5346. **Semester Hours:** 3 to 3

HIST 4347 - History of Biology
Examines the development of modern biology from the mid-18th century to the present. Students will look at intellectual, methodological, institutional and social contexts in an attempt to answer the question of how biology became the "pre-eminent" science. **Semester Hours:** 3 to 3

HIST 4348 - Mind and Malady: A History of Mental Illness
Examines the history of mental illness from the mid-18th century to the present, focusing on the institutionalization of the mentally ill, the origin of psychiatry, the development of models of mental illness and the evolution of clinical treatment. Cross-listed with HIST 5348. **Semester Hours:** 3 to 3

HIST 4411 - Modern Mexico
Designed to familiarize students with the critical issues in Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 5411, ETST 4411. **Semester Hours:** 3 to 3

HIST 4412 - Mexico and the United States: People and Politics on the Border
Examines the convoluted relations between these two republics, focusing on diplomatic, cultural, and social interactions. Cross-listed with HIST 5412. **Semester Hours:** 3 to 3

HIST 4414 - Nationalism and State Building in Latin America, 1750-1850
Explores the problems of nationalism and post-colonial state building by examining the late colonial and early national periods of Latin American history. The course discusses the impact of the enlightenment, the events of the Wars of Independence, and the quandaries faced by the new nations. Cross-listed with HIST 5414. **Semester Hours:** 3 to 3

HIST 4415 - Social Revolutions in Latin America
A theoretical framework and an empirical basis for understanding the large-scale social movements that have influenced the course of Latin American nations. Cross-listed with HIST 5415. **Semester Hours:** 3 to 3
HIST 4416 - The Age of Imperialism
Examines causes, character, and consequences of imperialism in the industrial era (ca. 1840-1975). Through intense study of selected cases, students gain an understanding of the different dynamics and varieties of imperialist control. **Semester Hours:** 3 to 3

HIST 4417 - Commodities and Globalization: Dessert in World History
Traces the impact of “dessert commodities” (sugar, cacao, vanilla and coffee) on Latin America during an early period of globalization (nineteenth century). Explores cultural shifts in North Atlantic countries that created the incessant demand for dessert. Prereq: Senior or graduate student standing. Cross-listed with HIST 5417. **Semester Hours:** 3 to 3

HIST 4418 - Trade and Premodern World History
Explores the interconnections that shaped premodern world history, considering the ways that the production, exchange, and consumption of cloth were tied to specific forms of political power, social and religious organization, and long distance economic relationships. Cross-listed with HIST 5418. **Semester Hours:** 3 to 3

HIST 4420 - Traditional China: China to 1600
A general introduction to the history of China from the advent of historic civilization to the point of the great encounter with the West. Cross-listed with HIST 5420. **Semester Hours:** 3 to 3

HIST 4421 - Modern China
Surveys Chinese history in the modern era. Includes examination of Western domination of China; revolution and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST 5421. **Semester Hours:** 3 to 3

HIST 4422 - Livng thr Mao's China: Life, Mat. Cult, Movies, 1949-76
Introduces students to ordinary people's daily life in Mao's China (1949-1976) through an exploration of material culture, movies and scholarship. This course pays particular attention to the ways people's everyday living intertwined with politics. Cross-listed with HIST 5422. **Semester Hours:** 3 to 3

HIST 4431 - Modern Japan
Course of Japanese history since the Perry expedition. Covers Japanese Westernization and industrialization, the expansion of empire and defeat in World War II, the occupation, and the amazing technological and social transformation since the occupation years. Cross-listed with HIST 5431. **Semester Hours:** 3 to 3

HIST 4451 - Southern Africa
An in-depth history of the clash of peoples and cultures in Africa south of the Zambezi River. African and Afrikaner political, economic and cultural development in a single land and the consequences of several competing nationalisms existing side by side are examined. Apartheid and African opposition to it are analyzed. Cross-listed with HIST 5451. **Semester Hours:** 3 to 3

HIST 4455 - African Struggle for Independence
An assessment of African leadership from the colonial era to the present. Cross-listed with HIST 5455. **Semester Hours:** 3 to 3

HIST 4460 - The Islamic World's Golden Age
The Islamic world's golden age before European expansion was characterized by sophisticated business institutions, scholarship, new technologies, and art. This class asks: What roles did Islam play in
connecting diverse societies across broad regions? What characterized these territories? Cross-listed with HIST 5460. **Semester Hours:** 3 to 3

**HIST 4461 - The Modern Middle East**
Cross-listed with HIST 5461. **Semester Hours:** 3 to 3

**HIST 4471 - The Second World War**
The War in its totality: causes, military strategies (equal treatment to European and Pacific theaters), campaigns, impact of technology and weapons, political and social upheaval. Cross-listed with HIST 5471. **Semester Hours:** 3 to 3

**HIST 4472 - The 1950s: Korean War, the Cold War and Social Transformation**
A critical and methodical exploration of several of the social, cultural, and political events of the 1950s. Investigates the complex interaction between politics and culture during this decade, paying close attention to anti-Communist thought and the Korean War. Cross-listed with HIST 5472. **Semester Hours:** 3 to 3

**HIST 4475 - The Vietnam War**
Covers the conflict in Vietnam, with roots in the period prior to World War II. Main topics include the rise of nationalism in French Indochina, the war against the French, the Northern move to unify Vietnam, American intervention, and eventual victory of the Northern regime. Cross-listed with HIST 5475. **Semester Hours:** 3 to 3

**HIST 4501 - World History for Educators**
Introduces world history for candidates for teaching positions. Discussion of themes, problems of research and interpretation, and relevant instructional methods. Prereq: Upper division standing. Cross-listed with HIST 5501. **Semester Hours:** 3 to 3

**HIST 4503 - Topics in History of Science**
Themes vary from year to year. Possible topics: Darwinism, Nature of Memory, Time and Space, Origins. Cross-listed with HIST 5503. **Semester Hours:** 3 to 3

**HIST 4504 - Animals in U.S. History**
Human-animal relationships offer powerful and unexpected perspectives on the American past. An eclectic range of readings and viewings, written assignments and contemplative experiences will contextualize contemporary practices, beliefs, and ethics -- vegetarianism, hunting, pet-keeping, and many others -- in historical context. Cross-listed with HIST 5504. **Semester Hours:** 3 to 3

**HIST 4621 - Explorers and Exploration**
Examines the history of travel and exploration from the 13th century to the present. Readings draw primarily from first-person accounts to understand why people voyage, what they hope to discover, and what happens to them along the way. Cross-listed with HIST 5621. **Semester Hours:** 3 to 3

**HIST 4622 - Oceans In History**
Explores emerging historical scholarship of transoceanic exchanges, relations, and transformations in early modern world history. Examines how historians analyze and conceptualize global interactions. Topics include voluntary and forced migrations, resistance and revolution, transoceanic economic relations, piracy, and environmental change. Cross-listed with HIST 5622. **Semester Hours:** 3 to 3
HIST 4645 - Archival Management
This course studies theory and principles pertaining to the management of current and non-current records, public and private archival materials, as well as the administration of archival manuscript depositories for housing records of historical value. Cross-listed with HIST 5645. Semester Hours: 3 to 3

HIST 4810 - Special Topics
Cross-listed with HIST 5810. Semester Hours: 1 to 3

HIST 4839 - History Seminar
Covers the use of documentary sources and historical criticism, with students utilizing these skills in a historical research paper. Note: Required for history majors. Preferably taken in the senior year. Prereq: HIST 3031. Semester Hours: 3 to 3

HIST 4840 - Independent Study: HIST
Semester Hours: 1 to 3

HIST 4849 - Independent Study History Honors Research Paper
Students competing for history honors must take this course to prepare their honors paper. The course requires students to produce a finished research paper of professional quality under the direction of a history faculty member. Prereq: Open to advanced history majors only. Semester Hours: 3 to 3

HIST 4850 - History in the Community: History Day Mentoring
Under direction of UCD history faculty, students participate in the Denver Public Schools National History Day program. They gain teaching experience by mentoring DPS students in preparation of History Day projects, and may also participate in judging local and state History Day contests. Prereq: Permission of department chair. Semester Hours: 1 to 3

HIST 5027 - Enlightenment and Revolution
In this course students explore the relationship of ideas and events in Europe during the 17th and 18th centuries. Modernizing trends in the European economy, religion, science, states and international affairs leading up to the French Revolution. Cross-listed with HIST 4027. Semester Hours: 3 to 3

HIST 5028 - Nations and Classes: 19th Century Europe
Focuses on material and ideological changes in 19th century Europe, exploring social, cultural, political, economic, and intellectual developments. Cross-listed with HIST 4028. Semester Hours: 3 to 3

HIST 5029 - Age of Anxiety in Europe
Looks at Europe at the end of the nineteenth century in an effort to determine if there is any relation between the peculiarities in culture at the time and the horrors in politics that followed. Cross-listed with HIST 4029. Semester Hours: 3 to 3

HIST 5030 - Europe During the World Wars
Covers the history of the two world wars and their origins, political and social upheaval during the interwar economic crisis, the rise of communism, Italian fascism and Nazism, with an emphasis on cultural production and intellectual life. Cross-listed with HIST 4030. Semester Hours: 3 to 3
HIST 5031 - Contemporary Europe
History of Europe since 1945. Students study the economic, social, and political history of Europe since World War II, with a special emphasis on the Cold War and intellectual currents. Cross-listed with HIST 4031. **Semester Hours:** 3 to 3

HIST 5032 - Globalization in World History Since 1945
An interdisciplinary course on contemporary world history and globalization. While the course is historically structured, economic, political, and sociological matters are explored. Cross-listed with HIST 4032. **Semester Hours:** 3 to 3

HIST 5034 - Core Themes in European History
Core themes in modern Europe, 1750 to the present. Cross-listed with HIST 4034. **Semester Hours:** 3 to 3

HIST 5035 - Crisis and Transformation: Europe's 20th Century
This course examines 20th century European history focusing on themes of crisis and transformation. We will explore how devastating wars, economic depression, stark ideological divisions, and revolutionary social, political and cultural movements dramatically changed Europe over the course of the century. Cross-listed with HIST 4035. **Semester Hours:** 3 to 3

HIST 5046 - Victorians and Victorianism
Taking an interdisciplinary perspective, this course examines English people and English life during the reign of Queen Victoria, 1837-1901. What were the defining features of the Victorian age? What did it mean to be "Victorian?" When and why did the Victorian paradigm break down? Cross-listed with HIST 4046. **Semester Hours:** 3 to 3

HIST 5051 - Britain and The Empire
Examines 19th and 20th century British history, addressing social, cultural, and political themes. Explores industrialization, state growth, and imperialism; relationships between race, gender, and class; and the ways in which colonizers and the colonized experienced empire. Cross-listed with HIST 4051. **Semester Hours:** 3 to 3

HIST 5055 - The Atlantic Slave Trade: Africa, Caribbean and U.S.
Presents a broad overview of the slave trade in the Atlantic World, including discussion of the slave plantation, the creation of Caribbean societies and the consequences of independence from Britain. Cross-listed with HIST 4055. **Semester Hours:** 3 to 3

HIST 5062 - Modern France: 1789 to the Present
Considers the shaping of modern France from the 18th century Bourbon Monarchy and aristocratic society to today's liberal democracy, in which multiculturalism, globalisation and supranational institutions call into question the very nature of French identity. Cross-listed with HIST 4062. **Semester Hours:** 3 to 3

HIST 5071 - Modern Germany
Surveys the major political, institutional, social, economic, and cultural developments that have occurred in Germany since the late 18th century. Cross-listed with HIST 4071. **Semester Hours:** 3 to 3

HIST 5074 - Post-War Germany
Historical survey of Germany since the second world war, with an emphasis on culture and society. Cross-listed with HIST 4074. **Semester Hours:** 3 to 3
HIST 5075 - Travel Stories and Origins of Cultural Anthropology
Examines the early history of cultural anthropology by means of classic travel literature. Cross-listed with HIST 4075. **Semester Hours:** 3 to 3

HIST 5076 - History of Modern Science
Surveys the history of science from the 18th century to the present. Treats all disciplines, from physics to physiology, in an attempt to understand how the natural world came to dominate our sense of ourselves. Cross-listed with HIST 4076. **Semester Hours:** 3 to 3

HIST 5082 - Reform and Revolution in Russia: The 1860s to 1917
Emphasis upon Russia's attempts to modernize, beginning with great reforms of the 1860s and 1870s; increasing polarization of government and opposition groups. Examines governmental point of view through several monographs and revolutionary theory, including those of Marx, Engels, Lenin and Trotsky. Cross-listed with HIST 4082. **Semester Hours:** 3 to 3

HIST 5083 - Russia Since 1917
Studies the development of the Soviet Union from its formation in the October Revolution, through the Civil War, the new economic policy, industrialization, collectivism, the Stalinist purges, up to the present. Cross-listed with HIST 4083. **Semester Hours:** 3 to 3

HIST 5086 - Eastern Europe
Studies the countries of Eastern Europe from their origins in the Middle Ages to the present. Cross-listed with HIST 4086. **Semester Hours:** 3 to 3

HIST 5133 - Management of Material Culture and Museum Collections
This course provides in-depth knowledge of the rudiments of material culture documentation, preservation and management. While we have designed this class for those interested in working in history museums, this is also appropriate for those students who want to learn the place of artifacts in studying history. Cross-listed with HIST 4133. **Semester Hours:** 3 to 3

HIST 5201 - Core Themes in U.S. History
This course surveys major themes in U.S. history. Cross-listed with HIST 4201. **Semester Hours:** 3 to 3

HIST 5210 - The American Revolution
The crisis of the British Empire in North America from the end of the French and Indian War to the ratification of the American Constitution. Topics include the emerging economy, constitutional arguments against Britain, the conduct of the war, and the definition of a republic. Cross-listed with HIST 4210. **Semester Hours:** 3 to 3

HIST 5212 - Civil War and Reconstruction
Begins with the causes and outbreak of the American Civil War, describes the military conflict and the social aspects of the war, and examines the federal efforts to reconstruct the southern states and protect the rights of Black citizens after 1865. Cross-listed with HIST 4212. **Semester Hours:** 3 to 3

HIST 5213 - The Gilded Age and Early 20th Century Challenges: U.S. History, 1865-1932
Topical study of major events in America, including Reconstruction; the rise of industry and the workers' response; westward expansion and the plight of Native Americans; urbanization and immigration; agrarian upheaval; Progressivism; World War I; the challenges of the 1920s and the onset of the Great Depression. Cross-listed with HIST 4213. **Semester Hours:** 3 to 3
HIST 5216 - History of American Popular Culture
Explores the evolution of film, radio, television, and popular music from the 1940s to the 1980s. The course uses these and other forms of popular art to examine American history in this era. The course focuses on the shifting trends in popular culture, how that culture reflects the larger themes in American history, and how these media have impacted the national experience. Cross-listed with HIST 4216. Semester Hours: 3 to 3

HIST 5217 - Consumer Culture
This interdisciplinary course examines the dynamics of the consumer culture in the context of social, economic, and technological history. The analysis begins with 17th century European origins, and continue through recent world developments, emphasizing the U.S. since 1800. Note: Open to all students. Cross-listed with HIST 4217. Semester Hours: 3 to 3

HIST 5219 - Depression, Affluence and Anxiety: U.S. History, 1929 to the Present
Examines major developments, focusing on the causes of the Depression and efforts to combat it; World War II and postwar readjustments; the Cold War and challenges of world leadership; unparalleled prosperity; Civil Rights movement; the Vietnam War; and economic uncertainties amid general prosperity. Cross-listed with HIST 4219. Semester Hours: 3 to 3

HIST 5220 - U.S. Foreign Policy Since 1912
The main thrust is the emergence of the U.S. from isolation toward full-scale participation in the affairs of Europe and other areas. Special attention is given to U.S. intervention in two world wars, the Cold War, and the overextension of U.S. commitments since 1960. Cross-listed with HIST 4220. Semester Hours: 3 to 3

HIST 5222 - U.S. Society and Thought to 1860
Major topics include the evolution of Protestantism from Puritans to Transcendentalists; humanitarian reforms such as abolition, temperance, and women’s rights; European influences on American thought; the effect of industrialization on the development of class society; and American nostalgia for agrarian life. Cross-listed with HIST 4222. Semester Hours: 3 to 3

HIST 5223 - U.S. Society and Thought Since 1860
Topical survey of the main currents of American thought and their impact upon society. Topics include American philosophy, literature (extensively), art, music, immigration and urbanization, technology, extremism of both left and right, and education. Cross-listed with HIST 4223. Semester Hours: 3 to 3

HIST 5225 - Urban America: Colonial Times to the Present
Rise of the American city from colonial times to present. Major emphasis on the process of urbanization since 1840: town promotion, the industrial city, immigration, boss politics and reform, urban technology, transportation systems, minorities, city planning, and the future of urban America. Cross-listed with HIST 4225. Semester Hours: 3 to 3

HIST 5226 - U.S. Business History
Surveys the major changes in business practices from colonial times to the present. Primary emphasis is placed on the Industrial Revolution and after. Topics include the emergence of major personalities in the Industrial Revolution; the rise of giant corporations; the response of industrial labor unions; government intervention and regulation; and the emergence of the post-industrial society. Cross-listed with HIST 4226. Semester Hours: 3 to 3
HIST 5227 - American West
Introduces the diverse peoples, places, and approaches to the development of the trans-Missouri West from prehistoric times to the present. Cross-listed with HIST 4227. **Semester Hours:** 3 to 3

HIST 5228 - Western Art and Architecture
Introduces Western art and architecture, emphasizing their historical context. Students are required to do book reports and a major research paper. Course includes walking tours and museum visits. Cross-listed with HIST 4228. **Semester Hours:** 3 to 3

HIST 5229 - Colorado Historic Places
Introduces community architecture, folklore, and history for all students. Students learn how to survey, describe, and designate significant historical structures and districts. Cross-listed with HIST 4229. **Semester Hours:** 3 to 3

HIST 5230 - Women in the West
Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the Western states. Cross-listed with HIST 4230 and WGST 4230/5230. **Semester Hours:** 3 to 3

HIST 5231 - History in Museums
This core course for the museum studies area of public history introduces students to the theory and practice of museum operations. It covers the basics of museum administration, museum collection and preservation, and museum interpretation from both theoretical and practical points of view. Cross-listed with HIST 4231. **Semester Hours:** 3 to 3

HIST 5232 - Historic Preservation
Introduces the history, methodology, and goals of historic preservation. Guest speakers, field trips, research projects, and book reports. Cross-listed with HIST 4232. **Semester Hours:** 3 to 3

HIST 5234 - Introduction to Public History
An overview of history outside the academic setting. Students have the opportunity to learn about jobs through on-site visits and presentations made by people engaged in a wide variety of occupations in history other than teaching. Cross-listed with HIST 4234. **Semester Hours:** 3 to 3

HIST 5235 - Sports and American Society
Examines American society and culture through the history of recreational and professional sport. Issues include class, race, gender, religion, business and politics. Cross-listed with HIST 4235. **Semester Hours:** 3 to 3

HIST 5236 - Colorado Mining and Railroads
Focuses on the transportation network that shaped the inland West, and its key role in the extractive industry that gave Colorado its start and nourished the highest state through adolescence. Cross-listed with HIST 4236. **Semester Hours:** 3 to 3

HIST 5238 - U.S. History Through Fiction
Explores American history through novels, based on the idea that fiction offers a superb "window" through which to view the past, especially to understand the texture of American society. Cross-listed with HIST 4238. **Semester Hours:** 3 to 3
HIST 5240 - National Parks History
Introduces how the National Park Service uses history to identify, designate, preserve, and interpret America's most outstanding historic and natural history sites. After tours of NPS sites, students select from a wide range of projects. Note: Open to all students. Cross-listed with HIST 4240. **Semester Hours:** 3 to 3

HIST 5242 - Oral History
Trains public history students in the collection of oral history interviews. Students master core readings on the theory, practice, and ethics of oral history. Cross-listed with HIST 4242. **Semester Hours:** 3 to 3

HIST 5243 - Public History Administration
Introduces students to the skills, practice, and ethics of public history administration. Cross-listed with HIST 4243. **Semester Hours:** 3 to 3

HIST 5244 - Interpretation of History in Museums: Exhibits and Education
This course allows students to gain in-depth knowledge of historical interpretation through exhibits and education in a museum setting. This class is designed for those preparing to work in history museums but is also appropriate for teachers and others who want to learn how museum programs interpret history with artifacts and other historical materials. Cross-listed with HIST 4244. **Semester Hours:** 3 to 3

HIST 5245 - Heritage Tourism
History and historic sites have become big business in 21st century tourism. The heritage tourism industry is explored in this introductory course for all interested students focusing on how academic history and historians can partner with tourism and recreation interests. Cross-listed with HIST 4245. **Semester Hours:** 3 to 3

HIST 5303 - Sex and Gender in Modern Britain
Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 4303 and WGST 4303/5303. **Semester Hours:** 3 to 3

HIST 5306 - Survey of Feminist Thought
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 4306, WGST 4306, 5306. **Semester Hours:** 3 to 3

HIST 5307 - History of Sexuality
Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 4307 and WGST 4307/5307. **Semester Hours:** 3 to 3

HIST 5308 - Crime, Policing, and Justice in American History
Focuses on changing legal and cultural definitions of crime, the role of the police, the evolution of punishment in theory and practice, and the role of mass culture in shaping the social history of crime and justice. Cross-listed with HIST 4308. **Semester Hours:** 3 to 3
HIST 5345 - Gender, Science, and Medicine: 1600 to the Present
Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 4345 and WGST 4345/5345. Semester Hours: 3 to 3

HIST 5346 - Medicine and Society: the Ancients to the Present
Surveys change and continuity in definitions of health and illness, interactions between patients and practitioners, the practice of medical authority, and the relationships between science, clinical medicine, and the provision of health care. Cross-listed with HIST 4346. Semester Hours: 3 to 3

HIST 5347 - History of Biology
Examines the development of modern biology from the mid-18th century to the present. Students will look at intellectual, methodological, institutional and social contexts in an attempt to answer the question of how biology became the "pre-eminent" science. Semester Hours: 3 to 3

HIST 5348 - Mind and Malady: A History of Mental Illness
Examines the history of mental illness from the mid-18th century to the present, focusing on the institutionalization of the mentally ill, the origin of psychiatry, the development of models of mental illness and the evolution of clinical treatment. Cross Semester Hours: 3 to 3

HIST 5411 - Modern Mexico
Designed to familiarize students with the critical issues in Mexican political, economic and social history. Traces the emergence of independence and the difficult consolidation of an independent nation state. Cross-listed with HIST 4411, ETST 4411. Semester Hours: 3 to 3

HIST 5412 - Mexico and the United States: People and Politics on the Border
Examines the convoluted relations between these two republics, focusing on diplomatic, cultural and social interactions. Cross-listed with HIST 4412. Semester Hours: 3 to 3

HIST 5414 - Nationalism and State Building in Latin America, 1750-1850
Explores the problems of nationalism and post-colonial state building by examining the late colonial and early national periods of Latin American history. The course discusses the impact of the enlightenment, the events of the Wars of Independence, and the quandaries faced by the new nations. Cross-listed with HIST 4414. Semester Hours: 3 to 3

HIST 5415 - Social Revolutions in Latin America
A theoretical framework and an empirical basis for understanding the large-scale social movements that have influenced the course of Latin American nations. Cross-listed with HIST 4415. Semester Hours: 3 to 3

HIST 5417 - Commodities and Globalization: Dessert in World History
Traces the impact of "dessert commodities" (sugar, cacao, vanilla and coffee) on Latin America during an early period of globalization (nineteenth century). Explores cultural shifts in North Atlantic countries that created the incessant demand for dessert. Prereq: Senior or graduate student standing. Cross-listed with HIST 4417. Semester Hours: 3 to 3

HIST 5418 - Trade and Premodern World History
Explores the interconnections that shaped premodern world history, considering the ways that the production, exchange, and consumption of cloth were tied to specific forms of political power, social and
religious organization, and long distance economic relationships. Cross-listed with HIST 4418. **Semester Hours:** 3 to 3

**HIST 5420 - Traditional China: China to 1600**
A general introduction to the history of China from the advent of historic civilization to the point of the great encounter with the West. Cross-listed with HIST 4420. **Semester Hours:** 3 to 3

**HIST 5421 - Modern China**
Surveys Chinese history in the modern era. Includes examination of Western domination of China, revolution, and internal fragmentation of China; Japanese attacks and World War II; and civil war and the communist revolution. Cross-listed with HIST 4421. **Semester Hours:** 3 to 3

**HIST 5422 - Livng thr Mao’s China: Life, Mat. Cult, Movies, 1949-76**
Introduces students to ordinary people's daily life in Mao's China (1949-1976) through an exploration of material culture, movies and scholarship. This course pays particular attention to the ways people's everyday living intertwined with politics. Cross **Semester Hours:** 3 to 3

**HIST 5431 - Modern Japan**
Course of Japanese history since the Perry expedition. Covers Japanese Westernization and industrialization, the expansion of empire and defeat in World War II, the occupation, and the amazing technological and social transformation since the occupation years. Cross-listed with HIST 4431. **Semester Hours:** 3 to 3

**HIST 5451 - Southern Africa**
An in-depth history of the clash of peoples and cultures in Africa south of the Zambezi River. African and Afrikaner political, economic and cultural development in a single land and the consequences of several competing nationalisms existing side by side are examined. Apartheid and African opposition to it are analyzed. Cross-listed with HIST 4451. **Semester Hours:** 3 to 3

**HIST 5455 - African Struggle for Independence**
An assessment of African leadership from the colonial era to the present. Cross-listed with HIST 4455. **Semester Hours:** 3 to 3

**HIST 5460 - The Islamic World’s Golden Age**
The Islamic world's golden age before European expansion was characterized by sophisticated business institutions, scholarship, new technologies, and art. This class asks: What roles did Islam play in connecting diverse societies across broad regions? What characterized these territories? Cross-listed with HIST 4460. **Semester Hours:** 3 to 3

**HIST 5461 - The Modern Middle East**
Cross-listed with HIST 4461. **Semester Hours:** 3 to 3

**HIST 5464 - Problems and Methods in Teaching History and Social Studies I**
Introduces students to problems and methods in secondary education history and social studies teaching. This course focuses primarily on the teaching of history. Note: Open to students in the Initial Professional Teacher Education program or a relevant graduate program, and to practicing teachers. **Semester Hours:** 3 to 3
HIST 5465 - Problems and Methods in Teaching History and Social Studies II
Introduces students to problems and methods in secondary education history and social studies teaching. This course focuses broadly on the teaching of all the social studies fields, including history, economics, government, and geography. Note: Open to students in the Initial Professional Teacher Education program or a relevant graduate program, and to practicing teachers. Prereq: HIST 5464. **Semester Hours:** 3 to 3

HIST 5466 - Teaching About Ethnicity, Race, and Prejudice
Examines the history of ethnic identity and race relations in North America and applies that knowledge to teaching practices. Questions how teachers should approach the topics of race, ethnicity, and discrimination in our collective history and society. **Semester Hours:** 3 to 3

HIST 5471 - The Second World War
The war in its totality: causes, military strategies (equal treatment to European and Pacific theaters), campaigns, impact of technology and weapons, political and social upheaval. Cross-listed with HIST 4471. **Semester Hours:** 3 to 3

HIST 5472 - The 1950s: Korean War, the Cold War and Social Transformation
A critical and methodical exploration of several of the social, cultural, and political events of the 1950s. Investigates the complex interaction between politics and culture during this decade, paying close attention to anti-Communist thought and the Korean War. Cross-listed with HIST 4472. **Semester Hours:** 3 to 3

HIST 5475 - The Vietnam War
Covers the conflict in Vietnam, with roots in the period prior to World War II. Main topics include the rise of nationalism in French Indochina, the war against the French, the Northern moves to unify Vietnam, American intervention, and eventual victory of the Northern regime. Cross-listed with HIST 4475. **Semester Hours:** 3 to 3

HIST 5501 - World History for Educators
Introduces world history for candidates for teaching positions. Discussion of themes, problems of research and interpretation, and relevant instructional methods. Prereq: Upper division standing. Cross-listed with HIST 4501. **Semester Hours:** 3 to 3

HIST 5502 - World History For Educators Workshops
Designed for world history teachers who wish to enhance their knowledge of world history content and pedagogy. If taken in total, the course is comparable to a college survey course in world history plus teaching guides. **Semester Hours:** 1 to 1

HIST 5503 - Topics in History of Science
Themes vary from year to year. Possible topics: Darwinism, Nature of Memory, Time and Space, Origins. Cross-listed with HIST 4503. **Semester Hours:** 3 to 3

HIST 5504 - Animals in U.S. History
Human-animal relationships offer powerful and unexpected perspectives on the American past. An eclectic range of readings and viewings, written assignments and contemplative experiences will contextualize contemporary practices, beliefs, and ethics -- vegetarianism, hunting, pet-keeping, and many others -- in historical context. Cross-listed with HIST 4504. **Semester Hours:** 3 to 3
HIST 5621 - Explorers and Exploration
Examines the history of travel and exploration from the 13th century to the present. Readings draw primarily from first-person accounts to understand why people voyage, what they hope to discover, and what happens to them along the way. Cross-listed with HIST 4621. Semester Hours: 3 to 3

HIST 5622 - Oceans In History
Explores emerging historical scholarship of transoceanic exchanges, relations, and transformations in early modern world history. Examines how historians analyze and conceptualize global interactions. Topics include voluntary and forced migrations, resistance and revolution, transoceanic economic relations, piracy, and environmental change. Cross-listed with HIST 4622. Semester Hours: 3 to 3

HIST 5645 - Archival Management
This course studies theory and principles pertaining to the management of current and non-current records, public and private archival materials, as well as the administration of archival manuscript depositories for housing records of historical value. Cross-listed with HIST 4645. Semester Hours: 3 to 3

HIST 5810 - Special Topics
Cross-listed with HIST 4810. Semester Hours: 1 to 3

HIST 5840 - Independent Study: History
Semester Hours: 1 to 3

HIST 5939 - Internship
Semester Hours: 1 to 6

HIST 5995 - Travel Study
Created for students doing travel study in a foreign country; register through the Office of International Education. Semester Hours: 1 to 15

HIST 6013 - Introduction to the Professional Study of History
Semester Hours: 3 to 3

HIST 6840 - Independent Study: HIST
Semester Hours: 1 to 3

HIST 6920 - Readings in European History
Semester Hours: 3 to 3

HIST 6925 - Readings in Early U.S. History
Semester Hours: 3 to 3

HIST 6926 - Readings in Later U.S. History, 1865-1932
Semester Hours: 3 to 3

HIST 6927 - Readings in Public History
Semester Hours: 3 to 3

HIST 6929 - Readings in Later U.S. History, 1929 to the Present
Semester Hours: 3 to 3
HIST 6931 - Readings: Special Subjects in History
Readings in topics in history with varying subtitles reflecting course content. Prereq: Graduate standing.  
**Semester Hours:** 3 to 3

HIST 6939 - Internship
**Semester Hours:** 1 to 6

HIST 6950 - Master's Thesis
**Semester Hours:** 1 to 6

HIST 6951 - Masters Project: Advanced History Curriculum Development
Students develop curricula for secondary-level history courses; must demonstrate thorough knowledge of subjects; understanding of historiographic and methodological problems; command of primary sources and their uses in teaching; and describe teaching strategies, methods, and assessments to be used in the curricula. Prereq: Permission of instructor.  
**Semester Hours:** 1 to 6

HIST 6952 - Master's Project: Public History
Public history majors may use three credits to complete a public history project. Projects can entail creating an exhibit, organizing a museum or archival collection, conducting a preservation survey, or similar activities. Students are required to prepare a paper describing the process and results of their project.  
**Semester Hours:** 3 to 3

HIST 6980 - Seminar in European History
**Semester Hours:** 3 to 3

HIST 6981 - Seminar in British History
**Semester Hours:** 3 to 3

HIST 6986 - Seminar in Later U.S. History
**Semester Hours:** 3 to 3

HIST 6989 - Seminar: Special Subjects in History
**Semester Hours:** 3 to 3

HIST 6992 - Seminar: Colorado Studies
This advanced interdisciplinary seminar on Colorado starts with a survey of the published literature. Students then select a research topic of their own and complete a publishable paper using primary sources.  
**Semester Hours:** 3 to 3

HIST 6993 - Seminar: History of Technology
Explores American and worldwide cases, modern and pre-modern, of technological development through seminar readings and individual research. Considers how technologies evolve within historical contexts and how societies demonstrate values and beliefs as they manipulate nature, building lifestyles and social orders.  
**Semester Hours:** 3 to 3
Health Administration Courses (HLTH)

HLTH 6010 - Health Care Systems
Introduces the structure and function of the medical care delivery system. Includes basic concepts and measures of health, disease, quality, values, needs and utilization; issues in health care manpower, institutions and system organization; general issues in policy, reimbursement and regulation; broad community, and organizational considerations in medical care organizations. The student is introduced to the principles of epidemiology and environmental health and demonstrates the application of epidemiology concepts to planning for the healthcare service needs of a population. **Semester Hours:** 3 to 3 **When Offered:** FALL

HLTH 6040 - Health Care Financial Management
Theory of insurance applied to healthcare, including benefits design and co-payments. Existing and proposed competition in insurance markets, including rating methodologies and selection issues. Managed care and medical spending accounts as responses to problems with traditional insurance. Managerial accounting methods useful for analyzing contracts and managing profitability are presented. Prereq: BUSN 6550 and 6621 or permission of instructor. **Semester Hours:** 3 to 3 **When Offered:** FALL

HLTH 6055 - Transformational Leadership/Transforming Organizations
Focuses on the manager's ability to generate transformational changes within the organization. In order to heal the organization, the manager must become a transformational leader, skilled in metaphysical as well as traditional management skills. Transfor **Semester Hours:** 3 to 3 **When Offered:** FALL

HLTH 6070 - International Health Policy and Management
A framework for understanding national health reform policy and management issues in the U.S. and other nations, including industrialized, developing, and transforming nations. This course combines classroom and on-line teaching. **Semester Hours:** 3 to 3 **When Offered:** FALL

HLTH 6071 - Introduction To Health Information Technology
Examines what needs transforming in healthcare to improve value, safety, and appropriateness of care, and what the role of IT is in that transformation. IT also examines the challenges of cultural change and IT strategy in succeeding with clinical information projects. Differences between installation, implementation, transition and actual transformation are suggested, and methods for managing subcultures in healthcare (IT, clinical, administrative) are reviewed. Cross-listed with ISMG 6071. **Semester Hours:** 3 to 3 **When Offered:** SPRING

HLTH 6072 - Fundamentals of Health Information Technology Management
Provides an introduction to the management of information technology in healthcare. A description of information processing, the origin, content, evolution of healthcare information systems, and the methodologies deployed to acquire and manage information requirements are discussed. Cross-listed with ISMG 6072. **Semester Hours:** 3 to 3 **When Offered:** FALL

HLTH 6075 - International Health Travel Study
Experiential course, which is designed to open students up to innovative health delivery practices in an international location. Students learn how health issues such as reproductive health, infectious diseases, mental health, health and economy, and chronic diseases are handled in community and public health settings. Class trips are usually 14-18 days to an Asian country during the month of January. Prereq: HLTH 6010 or permission of instructor. **Semester Hours:** 3 to 3
HLTH 6740 - Profiles in Health Care
This colloquium provides a rare opportunity for students to interact with top CEOs from health care organizations around the country. Students learn about HMOs, hospitals, medical group practices, consulting, managing careers, how to get jobs, and how to be successful in a job. **Semester Hours:** 3 to 3  
**When Offered:** SPRING

HLTH 6800 - Special Topics
Offered irregularly. Current interests in the health management field. Topics recently offered include: international health, ethics, general systems theory, and key issues for health systems. Consult the current 'Schedule Planner' for semester offerings. Prerequisites vary according to topics and instructor requirements. **Semester Hours:** 3 to 3

HLTH 6840 - Independent Study: HLTH
Instructor approval required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. **Semester Hours:** 1 to 8

HLTH 6911 - Health Field Studies
The objective of this course is to expose students to health care organizations with which they are not familiar. Each student is assigned to a health care organization and given a specific problem or project to complete. Prereq: HLTH 6010 or permission of instructor. After registration, please contact Errol.Biggs@ucdenver.edu for further instructions. **Semester Hours:** 3 to 3
Humanities Courses (HYMN)

**HUMN 1012 - The Humanistic Tradition: Modes of Expression**
Familiarizes students with humanistic modes of expression through the study of history, literature, philosophy, music, and the visual and dramatic arts. **Semester Hours:** 3 to 3

**HUMN 3250 - Introduction to Law Studies**
Introduces students to the materials and methods of law studies. Students learn how to read case law, brief a case, make a course outline, analyze fact patterns, and perform legal research and writing projects. **Semester Hours:** 3 to 3

**HUMN 5000 - 19th Century Philosophy**
Covers the systematic work of such German idealists as Hegel, Fichte, and Shelling, as well as responses to those systems by such authors as Marx, Kierkegaard, and Nietzsche. Prereq: PHIL 3002 or 3022. Cross-listed with PHIL 4000/5000 and SSCI 5000. **Semester Hours:** 3 to 3

**HUMN 5013 - Philosophical Problems in the Social Sciences and the Humanities**
Presents an overview of key theoretical issues currently emerging across academic disciplines. Examines questions about reality, knowledge, ethics that affect social research and writing in the humanities. Readings explore how contemporary philosophical and cultural discourses have altered theory and method. Assignments include influential theoretical pieces by key historical and contemporary thinkers, examples of application in social research, and interpretations of thought and affect in cultural contexts. Cross-listed with PHIL/SSCI 5013. **Semester Hours:** 3 to 3

**HUMN 5020 - Elements of Social Thought**
Introduces students to the disciplines that comprise the social sciences (classical anthropology, sociology, sociology of religion, philosophy of history, political theory, classical psychology, etc.). Provides necessary tools for interdisciplinary students to understand the social infrastructure of contemporary society. Cross-listed with SSCI 5020 and PHIL 5020. **Semester Hours:** 3 to 3

**HUMN 5025 - Methods and Texts of the Humanities**
Exposes the beginning graduate student to exemplary works and methodologies of select humanistically oriented disciplines, such as philosophy, fine arts, literature, history, communication, music, and theatre. **Semester Hours:** 3 to 3

**HUMN 5101 - Pragmatism: Classical American Philosophy**
The most significant philosophical tradition born in the United States is pragmatism. Examines several of the most important classical works of this tradition, the influence of thinkers who have helped pragmatism, and the contemporary relevance of this tradition. Figures who may be included in this course are: Emerson, Pierce, Royce, James, Dewey, Mead, Rorty. Prereq: An introductory course in philosophy. Cross-listed with PHIL 4101, 5101, SSCI 5101. **Semester Hours:** 3 to 3

**HUMN 5220 - Aesthetics and the Philosophy of Art**
Introduction to major theories of aesthetics and contemporary discussions of problems in aesthetics and the philosophy of art, including topics such as: the nature of art, interpretation and evaluation in art. Cross-listed with PHIL 4220/5220. **Semester Hours:** 3 to 3

**HUMN 5242 - Bioethics**
Examines some of the major moral issues confronting the nation's health care system. The class will search for solutions to such problems as financing health care for those unable to do so on their own,
determining the extent of a patient’s right to both refuse and demand certain types of medical treatment, and allocating scarce medical resources such as life-saving vital organs. The springboard for examining these issues will be the doctor or patient relationship framed by the moral principles of respect for persons and beneficence. Cross-listed with PHIL 4242, PHIL 5242, SSCI 5242. **Semester Hours:** 3 to 3

**HUMN 5250 - Environmental Ethics**
While human industry/technology creates enormous material prosperity, it can result in devastating environmental damage. This course analyzes the moral values, consequences and duties implied in relationships between human beings, animals and ecological systems, while seeking out new and ethical approaches. Cross-listed with PHIL 4250/5250 and SSCI 5250. **Semester Hours:** 3 to 3

**HUMN 5520 - The City Beautiful: Art, Architecture and Theory in Urban History**
How did cities develop and what were the buildings that filled these spaces? Posing this question initially, this course takes a case-study approach to surveying the concerns confronting different cultures as they developed their urban environments sociologically, anthropologically, architecturally and spatially. Cross-listed with SSCI 5520. **Semester Hours:** 3 to 3

**HUMN 5550 - Paris 1910: Art, Philosophy and Psychology**
Traces the influences of philosophy, psychology, and art in the English, French, and German-speaking worlds in the early twentieth century. This intellectual history is extended to broader cultural and political contexts. Key period is between 1910 and 1968, when modernity’s key aspirations and tensions became explicit. Cross-listed with PHIL 5550 and SSCI 5550. **Semester Hours:** 3 to 3

**HUMN 5600 - Philosophy of Religion**
Nature of religion and methods of studying it. Cross-listed with PHIL 4600, 5600, RLST 4060, 5060, and SSCI 5600. **Semester Hours:** 3 to 3

**HUMN 5650 - Reflections on Modernity**
Explores modernity as a historical epoch and a theoretical space, looking at the commentaries and reflections of influential 20th century thinkers including Adorno, Arendt, Levinas, Merleau-Ponty, Habermas and Foucault. Examines how the theoretical inclinations of modernity were influenced by politics, art, literature and culture. Cross-listed with PHIL 5650 and SSCI 5650. **Semester Hours:** 3 to 3

**HUMN 5660 - Visual Arts: Interpretations and Contexts**
Provides graduate-level interdisciplinary study in the historiography, methodologies, and theories used to understand how visual arts, including painting, sculpture, photography, film and performance art influence the making of culture. Students gain critical skills for analyzing a variety of visual and aesthetic products of culture. Prereq: Upper-division undergraduate or graduate standing. **Semester Hours:** 3 to 3

**HUMN 5710 - Women and Religion**
A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women’s involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with SSCI 4710/5710, WGST 4710/5710, RLST 4710/5710. **Semester Hours:** 3 to 3

**HUMN 5720 - Sexuality, Gender and Their Visual Representation**
Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visuality, feminism, race and queer theory. Explores representations of
femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with SSCI 5720 and WGST 5720. **Semester Hours:** 3 to 3

**HUMN 5750 - Philosophical Psychology**
Explores debates about psyche and body, mind and world, self and others, and consciousness and nature. Examines the philosophical questions related to those debates that arise within theories of perception, affect and cognition offered by influential psychological models. Cross-listed with PHIL 5755, SSCI 5750. **Semester Hours:** 3 to 3

**HUMN 5770 - Imperialism, Post-Colonial Theory & Visual Discourse**
Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create meaning. **Semester Hours:** 3 to 3

**HUMN 5833 - Existentialism**
Examines one of the most influential movements in recent European thought, beginning with existentialism’s 19th century roots, and continuing on to the existentialist philosophers of the 20th century. Figures covered may include Dostoyevsky, Kierkegaard, Nietzsche, Heidegger, Sartre and de Beauvoir. Cross-listed with PHIL 4833/5833 and SSCI 5833. **Semester Hours:** 3 to 3

**HUMN 5840 - Independent Study: HUMN**
**Semester Hours:** 1 to 3

**HUMN 5920 - Philosophy of Media and Technology**
A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 4920, 5920, SSCI 5920. **Semester Hours:** 3 to 3

**HUMN 5924 - Directed Research and Reading in Interdisciplinary Humanities**
Provides background reading, theory and research approaches for students to develop a thesis, project, or an individualized theme for the oral exam based on their interdisciplinary focus. **Semester Hours:** 3 to 3

**HUMN 5933 - Philosophy of Eros**
Why is philosophy an erotic activity, and what are the implications of this insight? We will explore these issues, first, by reading Plato’s erotic dialogues: Lysis, Symposium and Phaedrus. Then we will focus on Freud’s influential (and controversial) appropriation of Plato’s thought in the writings that span his career, from The Interpretation of Dreams (1900) to Civilization and its Discontents (1930) and beyond. Finally, we will survey post-Freudian theories of Eros, such as Michel Foucault’s History of Sexuality, as well as the more recent contributions of thinkers such as Jonathan Lear, Thomas Nagel, Martha Nussbaum and Slavoj Zizek. Cross-listed with PHIL 4933/5933, SSCI 5933, and WGST 4933/5933. **Semester Hours:** 3 to 3

**HUMN 5939 - Internship**
**Semester Hours:** 1 to 6

**HUMN 5950 - Master’s Thesis**
**Semester Hours:** 1 to 8
HUMN 5960 - Master's Project
Semester Hours: 1 to 8

HUMN 5984 - Topics: Interdisciplinary Humanities
Semester Hours: 3 to 3
International Business Courses (INTB)

INTB 2939 - Internship

Semester Hours: 1 to 3

INTB 3000 - Global Perspectives
Globalization brings both opportunities and anxieties that need to be fully explored, discussed and understood both by the business and non-business student. This interdisciplinary course is designed to stimulate thought, perspective, discussion and debate for business and non-business students on issues ranging from globalization; political economy and geopolitics; the environment; cultures; finances; economic integration; trade; global regions; emerging markets; human rights; terrorism and conflict; leadership, ethics and values; entrepreneurship, to future trends in global issues. The Global Perspective course is designed (1) to increase and promote both business and non-business students' capacity for international understanding and international enterprise through the study and discussion of global business environment-related issues from multiple points of views in a neutral forum. (2) It is to provide students with the awareness that global issues cannot be viewed in isolation, that they are all interrelated.

Semester Hours: 3 to 3

INTB 3901 - The Construction of the European Union
An overview of past and future development in Europe, including economic, political, and social aspects from the point of view of EU members, bordering countries, and world powers. The single market and its repercussions for businesses and the impact of the creation of a single market are studied. Offered through the ACI Semester in Paris program. Prereq: Acceptance to the ACI program. Semester Hours: 3 to 3

INTB 3902 - Intercultural Management: European Values and Behavior
An in-depth study of European cultural differences and what unites the European nations. Histories and cultures of European countries are used to understand differences in communication, management, and organizational development. Case studies provide a synthesis of European and U.S. management practices. Offered through the ACI Semester in Paris program. Prereq: Acceptance to the ACI program. Semester Hours: 3 to 3

INTB 3903 - International Business Law
Provides a legal framework necessary for international business transactions and judicial risks. Combining theory and case studies, the course covers contract law, dispute settlement, and international business specific operations: international sales, distribution and exclusive concession contracts, franchise contracts, commercial agency contracts, and technology transfer contracts. Offered through the ACI Semester in Paris program. Prereq: BLAW 3000 and acceptance to the ACI program. Semester Hours: 3 to 3

INTB 3904 - International Negotiation
Studies the position of the company in the international marketing process; general knowledge of negotiators' external environments; preparation of a negotiation and the negotiating process; and expression of each party within the context of a contract. Offered through the ACI Semester in Paris program. Prereq: Acceptance to the ACI program. Semester Hours: 3 to 3

INTB 3905 - International Marketing and Distribution
A practical view of the development of foreign markets, emphasizing strategic decisions of international development and analysis of company expertise regarding preferences and entrance into the marketplace. Problems pertaining to implementation of international sales policies and evolution of product
distribution are also studied. Offered through the ACI Semester in Paris program. Prereq: MKTG 3000 and acceptance to the ACI program. **Semester Hours:** 3 to 3

**INTB 3906 - International Communication and Consumer Behavior**
Examines the influence of culture on purchasing and consuming as well as the importance of cultural values in consumer behavior. Provides the necessary framework to understand the current global market situation (product development, global market structures, global marketing strategies). An analysis of communication and advertising in an international context. Prereq: MKTG 3000 and acceptance to the ACI program. **Semester Hours:** 3 to 3

**INTB 3907 - European Marketing and Management of a Product Line**
Trains students to analyze the main characteristics and trends of the European marketing environment and business development. With extensive use of case studies, it examines such issues as European product launches. Prereq: MKTG 3000 and acceptance to the ACI program. **Semester Hours:** 3 to 3

**INTB 3908 - Organizations and Culture**
Introduces a range of ideas about organizations and how they work. Issues of internationalization in the context of organizational structure and culture, covering such topics as the global-local dilemma, the "transnational" approach and structural criteria. Modern organizational challenges assessed: innovation and technology. Prereq: MGMT 3000 and acceptance to ACI program. **Semester Hours:** 3 to 3

**INTB 3909 - Single Market, European Law and Euroland**
Overview of past and future steps in the development of Europe, economics, political and social aspects from the point of view of EU members, bordering countries (Central Europe) and world powers (United States, Japan and Asia). The single market and its repercussions for business (free access to the market, common rules, single currency) and the impact of the single market on their strategies. Prereq: Acceptance to the ACI program. **Semester Hours:** 3 to 3

**INTB 3910 - International Corporate Finance**
The objective of this seminar is to provide an overview of international corporate finance, understand the main differences in accounting standards, interpret and critically analyze the financial reports issued by international firms, and have a working knowledge of cost accounting principles. Prereq: FNCE 3100 and acceptance to the ACI program. **Semester Hours:** 3 to 3

**INTB 3911 - The United States Of Europe**
The objectives of this seminar are to allow students to obtain a practical knowledge of and develop a thorough understanding of the integrative process taking place among several European countries, and to give them a unique chance to become familiar with the various political, economical, legal, cultural, and human aspects of the European community being developed and institutionalized, on a brand new, historical, and transnational level. Prereq: Acceptance to the ACI program. **Semester Hours:** 3 to 3

**INTB 3912 - Global Marketing-Communication**
**Semester Hours:** 3 to 3

**INTB 3939 - Internship**
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: Senior standing and a 3.5 GPA. **Semester Hours:** 1 to 3

**INTB 4028 - Travel Study Topics**
**Semester Hours:** 3 to 3
INTB 4400 - Environments of International Business
An overview of the environmental complexities that arise when business activities and firms cross national borders. Key international business environmental complexities associated with country differences, cross-border trade and investment, and global monetary system are examined. Prereq: MGMT 3000 and junior standing. Cross-listed with MGMT 4400. Semester Hours: 3 to 3

INTB 4410 - Operations of International Business
Focuses on the impact of environmental factors on international business operations and the identification and analysis of complex strategic and operational issues facing business firms in global markets. The strategies and structures of international businesses, alternative foreign market entry modes, and the unique roles of various business functions at international business firms are explained and assessed. Prereq: INTB 4400 or MGMT 4400. Cross-listed with MGMT 4410. Semester Hours: 3 to 3

INTB 4950 - Special Topics in International Business
Current topics in international business are occasionally offered. Consult the 'Schedule Planner' for specific course offerings or contact an advisor for information. Prereq: Topics vary depending on the topic and the instructor requirements. Semester Hours: 3 to 3

INTB 5800 - Special Topics in International Business
Current topics in international business are occasionally offered. Consult 'Schedule Planner' for specific course offerings or contact an advisor for information. Prereq: Topics vary depending on the topic and the instructor requirements. Semester Hours: 3 to 3

INTB 5939 - Internship
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: 21 semester hours and a 3.5 grade-point average. Semester Hours: 1 to 3

INTB 6000 - Introduction to International Business
An overview of the international business environment, the impact of environmental factors on international business operations, and the identification of current and complex managerial issues facing organizations engaged in international business. Semester Hours: 3 to 3

INTB 6020 - Cross-Cultural Management
Focuses on the management of diverse socio-cultural and political norms and values in the global marketplace. The goal of this course is to develop skills in managing impacts of such values and norms on the effectiveness of international business operations and managerial activities. Prereq: INTB 6000 or permission of instructor. Semester Hours: 3 to 3

INTB 6022 - International Business Negotiations
Examines the international dimensions of business negotiations. It addresses the impact of the cultural, legal, political environments in the negotiation process, and examines similarities and differences in negotiation styles and approaches across borders. (This course qualifies as an international elective for the MS in International Business program.) Semester Hours: 3 to 3

INTB 6024 - International Trade Finance and Management
Provides an overview of international trade finance and trade management. It examines the roles played by various parties involved in international trade, addresses key methods of international payment and related financing, and provides practical experiences on how to manage the import and export trade
management process. (This course qualifies as an international elective for the MS in International Business program.) **Semester Hours:** 3 to 3

**INTB 6026 - International Marketing**
Explores problems, practices, and strategies involved in marketing goods and services internationally. Emphasizes analysis of uncontrollable environments, legal systems, and economic conditions, as they affect international marketing planning. (This course qualifies as an international elective for the MS in International Business program.) Prereq: BUSN 6560. Note: Students cannot receive credit for both MKTG 6020 and INTB 6026. Cross-listed with MKTG 6020. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**INTB 6028 - Travel Study Topics**
**Semester Hours:** 3 to 3

**INTB 6040 - Managing Global Talent**
This course has two objectives: (1) to understand the impact of cultural differences in the management of people in multinational firms; and (2) to compare and contrast critical human resource issues in the contexts of domestic and international operations. Topics include recruitment, staffing, training, performance appraisal, compensation, and labor and management relations in markets around the world. (This course qualifies as an international elective for the MS in International Business program.) Prereq: MGMT 6380 or BUSN 6520 (or equivalent). Cross-listed with MGMT 6040. **Semester Hours:** 3 to 3

**INTB 6060 - The Legal Aspects of International Business**
Analyzes the legal aspects of international business transactions and considers risk-reducing mechanisms such as letters of credit and arbitration. The course examines NAFTA, the European union, and other international trading structures and rules, giving the background for export or import activities. (This course qualifies as an international elective for the MS in International Business program.) **Semester Hours:** 3 to 3

**INTB 6080 - Global Competition**
Focuses on the dynamics of the interface between international business operations and their market environments. It addresses the changing structure of international competitive environments and its implications for companies engaged in international business. It examines various approaches to and issues in structuring international business deals in dynamic global competitive environments. (This course qualifies as an international elective for the MS in International Business program.) Prereq: INTB 6000 or permission of instructor. **Semester Hours:** 3 to 3

**INTB 6082 - Marketing in Emerging Markets**
Explores problems, practices, and strategies involved in marketing goods and services in emerging markets. Emphasizes analysis of uncontrollable environmental forces, including cultures, governments, legal systems, and economic conditions, as they affect the marketing plan. (This course qualifies as an international elective for the MS in International Business program.) Prereq: BUSN 6560. Note: Students cannot receive credit for both MKTG 6080 and INTB 6082. Cross-listed with MKTG 6080. **Semester Hours:** 3 to 3

**INTB 6094 - Marketing Issues in the Chinese Environment**
This course assesses numerous marketing and marketing related topics in the Chinese environment with the objective of helping the graduate student develop managerial and marketing expertise. In specific, the course pinpoints key developments in the Chinese business environment, develops expertise in conducting market opportunity analysis, assesses market entry conditions and strategies and applies
marketing mix strategies in the context of the Chinese environment. Note: It is recommended for students to take BUSN 6560 or INTB 6000 prior to this course. Cross-listed with MKTG 6094. **Semester Hours:** 3 to 3

**INTB 6200 - International Business Policy**
The objective of this course is to develop competence relevant to strategy formulation and implementation in a multi-national enterprise, and in an international context. Provides theoretical knowledge, skills, and sensitivities that help deal effectively with the strategic and managerial problems of managing in a global environment. Prereq: INTB 6000 and 18 graduate credit hours. **Semester Hours:** 3 to 3

**INTB 6370 - International Accounting**
Designed to expose students to the international aspects of accounting and financial management. Includes discussion of some of the different financial accounting practices across countries; financial statement analysis in a global context. IFRS's are reviewed and compared with the requirements of US GAAP. Note: Students cannot receive credit for both ACCT 6370 and INTB 6370. Prereq: BUSN 6550 or equivalent. Cross-listed with ACCT 6370 and ACCT 4370. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**INTB 6372 - International Financial Management**
Addresses financial management in an international context that considers international capital movements and foreign exchange problems, and international operations as they affect financial functions. It reviews foreign and international institutions and the foreign exchange process and considers financial requirements, problems, sources, and policies of firms doing business internationally. Meets concurrently with FNCE 6370. Prereq: BUSN 6640. Cross-listed with FNCE 6370. **Semester Hours:** 3 to 3

**INTB 6411 - International Corporate Governance**
Discusses the structure and goals of the modern corporation, the primary governance mechanisms used to help companies achieve these goals, how and why these roles, goals, and mechanisms vary across nations. The topics to be covered in the course include how share ownership, particularly by institutional shareholders, managerial compensation and board of director activities are being used to improve corporate governance systems. The class compares the Codes of Best Governance Practices from several countries as well as recent innovations in individual company governance rating systems. (This course qualifies as an international elective for the MS in International Business program.) Prereq: BUSN 6640. Note: Students cannot receive credit for both FNCE 6411 and INTB 6411. Cross-listed with FNCE 6411. **Semester Hours:** 3 to 3

**INTB 6460 - Emerging Market Finance**
This course aims to explore key emerging market finance issues from the perspectives of corporations, investors and markets. Emerging economies are deemed to be the engine of growth opportunities in the world economy. However, compared with developed markets, they typically have some unique features in their economic systems and financial markets, and thus different risk and return characteristics, leading to special considerations of capital budgeting, financing and investing in these economies. This course is to help develop a better understanding of financial markets, corporate finance and investments in emerging economies, with case studies on some major emerging markets (e.g., China, India). Prereq: BUSN 6620 and 6640. Cross-listed with FNCE 6460. **Semester Hours:** 3 to 3

**INTB 6750 - Research Methods in International Business**
Focuses on three major issues: (1) research design from an international management perspective (e.g., qualitative, quantitative and ethnographic); (2) topical issues (e.g., culture, international negotiations,
mergers and alliances); (3) trends in international business research (e.g., cross-national project teams, emerging theoretical perspectives). This course qualifies as an international elective for the MS in International Business program. Prereq: INTB 6000 and BUSN 6530 or equivalent. **Semester Hours:** 3 to 3

**INTB 6800 - Special Topics in International Business**
Current topics in international business are occasionally offered. This includes international field study courses. Consult the 'Schedule Planner' for specific course offerings or contact an advisor for information. (This course qualifies as an international elective for the MS in International Business program.) Prereq: Topics vary depending on topic and instructor requirements. **Semester Hours:** 3 to 3

**INTB 6840 - Independent Study**
Instructor approval required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. (This course qualifies as an international elective for the MS in International Business program.) **Semester Hours:** 1 to 8

**INTB 6870 - Global Climate Change**
Global climate change may be one of the most important challenges facing business in the 21st century. This course will introduce the potential impacts of climate, then discuss possible regulatory responses to and business risks and opportunities that may emerge if climate change occurs. Cross-listed with BUSN 6870. **Semester Hours:** 3 to 3

**INTB 6950 - Master's Thesis**
Prereq: INTB 6750. **Semester Hours:** 1 to 8
Instructional Technology Courses (INTE)

**INTE 5110 - Instructional Development and Production**
Systematic analysis, design, development, production, and evaluation of instructional units and materials. Apply systems design model and instructional theories to the development of learning resources. Topics include needs assessment; learner, content, g **Semester Hours:** 2 to 4

**INTE 5120 - Instructional Models, Strategies and Tactics**
Instructional development principles and procedures for developing instructional sequences for facts, concepts, procedures and principles. Application of different instructional and development models. **Semester Hours:** 3 to 3

**INTE 5140 - Performance Technology**
Analysis to determine whether human performance problems are problems that can be solved by instruction or by other means, such as organizational redesign, incentives, or performance support systems. **Semester Hours:** 3 to 3

**INTE 5160 - Managing Information and Learning Technology Programs**
Problems in the organization and administration of information learning and technology programs and projects. Topics include project management, personnel administration, budget development, resource planning, and team collaboration. **Semester Hours:** 3 to 3

**INTE 5200 - Designing and Organizing an Online Course**
This course helps educators transition to teaching online. Create online experiences, activities, assessments, and resources. Explore blended learning environments, synchronous and asynchronous instruction, the use of emerging technologies and trends. **Semester Hours:** 3 to 3

**INTE 5250 - Facilitating and Fostering Online Learning**
This course provides a foundation for effective online teaching strategies in course management, communication, motivation, social presence and facilitation. Explores several online teaching strategies and approaches for creating engaging learning experiences. **Semester Hours:** 3 to 3

**INTE 5310 - Producing Educational Materials**
Design and production of materials such as videos, multimedia, presentations and websites to support learning goals. **Semester Hours:** 3 to 3

**INTE 5330 - Digital Storytelling**
Introduction to methods and strategies for design and production of digital stories. Topics include principles of design, procedures of the development process, use of stories for education and personal development and introduction to multimedia tools for **Semester Hours:** 2 to 2

**INTE 5340 - Digital Storytelling in the Curriculum**
Integration of digital stories in the curriculum. Review of settings and purposes for educational uses of digital stories. Methods re-using and presenting stories for instruction; facilitating student creation of stories; developing instructional units; p **Semester Hours:** 3 to 3

**INTE 5345 - Exploring Culture Through Digital Storytelling**
**Semester Hours:** 3 to 3
INTE 5350 - Leadership for Digital Storytelling  
Train the trainer workshop for digital storytelling. Includes practice and training in facilitation methods in narrative/group workshop methods as well as technical software instruction. Additional activities include review of storytelling principles and **Semester Hours:** 2 to 2

INTE 5370 - Digital Video For Interactivity  
Digital video design and production for online and multimedia instruction. Topics include needs assessment and media selection; scripting and design; shooting; lighting; sound; editing; formats and conversion; and multimedia integration. **Semester Hours:** 3 to 3

INTE 5410 - Designing Text and Graphics for Instruction  
Instructional, structural, and typographic principles and techniques for designing text and illustration-based instructional materials, including programmed instruction, job aids, diagrams, documents, user manuals and online text. **Semester Hours:** 3 to 3

INTE 5510 - Integrating Technology in the Curriculum  
Principles and practices of technology integration in K12 classrooms and schools. Topics include: support for standards-based curriculum; evaluation and selection of resources; roles of technology in support of learning; teacher and learner roles; adaptin **Semester Hours:** 2 to 3

INTE 5520 - Technologies for Learning and Productivity  
Using a wide variety of technological tools, including word processing, database, spreadsheet, graphics, presentation, and communications software, facilitate learning and manage the instructional process. **Semester Hours:** 1 to 4

INTE 5600 - Multimedia Authoring  
Teaches the use of multimedia authoring tools to develop multimedia instruction or World Wide Web resources. Skills include: producing programs to meet educational needs; integrating digital content into office applications and multimedia resources. Prere **Semester Hours:** 3 to 3

INTE 5610 - Principles for Designing Multimedia  
Theory and practice of designing effective instruction for World Wide Web and multimedia delivery. Prereq: INTE 5600. **Semester Hours:** 3 to 3

INTE 5640 - Technology of Student-Centered Learning Environments  
Theory and principles behind complex learning environments aimed at developing student responsibility, collaborative learning, and higher order thinking methods for technology support are examined. **Semester Hours:** 3 to 3

INTE 5650 - Policies and Planning for eLearning Programs  
Methods and strategies for planning, implementing and evaluating e-learning and distance-learning programs. Review of trends and issues currently affecting learning programs and delivery of online and hybrid forms of education. **Semester Hours:** 3 to 3

INTE 5660 - Designing and Teaching in eLearning Environments  
In this hands-on course, students use a variety of tools and strategies to design and teach in eLearning environments. The course covers critical aspects of designing and teaching an online course, such as planning a successful online learning experience **Semester Hours:** 3 to 3
INTE 5665 - Social Media & Digital Culture
The focus of this course is on how educators leverage networked social tools, technologies, and environments to address educational needs, opportunities, and problems of practice; and establish and nurture their own professional learning through participation. Semester Hours: 3 to 3 When Offered: FALL SPR

INTE 5670 - Developing eLearning Instruction
In this applied course, students build an online learning course (as planned during INTE 5660) while developing basic skills with Web and multimedia eLearning authoring tools. You will learn how to enhance online courses by incorporating interactivity, co Semester Hours: 3 to 3

INTE 5680 - Integrating Media in eLearning Environments
Students develop and integrate media resources into eLearning environments, applying principles of media selection and multimedia learning. You will survey and sample a variety of tools for production of audio, video, and multimedia content and examine with Semester Hours: 3 to 3

INTE 5690 - Enhancing Web-based Learning Environments with JavaScript and PHP Programming
Using JavaScript and PHP, this course teaches the technologies behind Web design that turn static HTML pages into interactive Web applications. Issues to consider with each technology are explored so intelligent decisions can be made when adopting a parti Semester Hours: 4 to 4

INTE 5710 - Telecommunications and Networking in Education
Overview of computer-mediated communications (CMC) and networking and applications to education. Topics include: operating systems; hardware/software troubleshooting; networking in education and classroom and lab management. Prereq: Basic computer experience Semester Hours: 3 to 3

INTE 5830 - Information and Learning Technologies Workshop
Specific titles vary depending upon the specific skill areas within information and learning technologies. Semester Hours: 0.5 to 4

INTE 5840 - Independent Study: INTE
Semester Hours: 1 to 4

INTE 5990 - Special Topics in Instructional Technology
Semester Hours: 1 to 6

INTE 5998 - Professional Development Activities
Provides guidance for professional development through participation in appropriate state, regional, and national conferences for meeting leaders and colleagues while upgrading professional knowledge and skills in the field. Prereq: Enrollment in a graduate Semester Hours: 1 to 2

INTE 6110 - Managing Instructional Development
Organization, supervision and budgeting of instructional development projects in training and education. Semester Hours: 3 to 3

INTE 6120 - Design Studio For Project Management and Collaboration
Collaborative management of instructional-design projects meeting demonstrated needs in real-life settings. Skills include: management of time, personnel and resources; meeting client needs and expectations; communication with team and client; information Semester Hours: 2 to 6
INTE 6130 - Implementing and Evaluating Instruction
Methods for implementing instructional materials in field settings; evaluating materials for learning impact and program revision. Semester Hours: 3 to 3

INTE 6515 - Leadership for Learning Technologies Integration
Leadership for integrating technology into a standards-based curriculum. Through mentoring, service, or training, model and assist teachers and administrators in adopting technologies and information resources to support learning and assessment activities Semester Hours: 3 to 3

INTE 6530 - Development Projects in Information and Learning Technologies
The creation and application of instructional systems combining unique instructional advantages of technologies to emphasize high levels of interactivity. Advanced projects must meet specific objectives to cover program design and development, hardware and Semester Hours: 3 to 3

INTE 6710 - Creative Designs for Instructional Materials
This course is a project-based exploration of instructional-materials design theories, principles, and best practices used to communicate complex information to a diverse audience for the purpose of teaching and learning. You will apply unique design app Semester Hours: 3 to 3

INTE 6720 - Research in Information and Learning Technologies
Analysis, evaluation, and production of research in instructional technology. Methods for observing instruction, assessing learning, and collecting participants reports to improve instruction. Development of recommendations for action based on research Semester Hours: 3 to 3

INTE 6730 - Comparative Models of Instructional Design
Advanced seminar in analyzing the theoretical foundations and the instructional implications of different models and theories of instructional design. Semester Hours: 3 to 3

INTE 6740 - Learning Processes Applied to Instructional Technology
Principles of learning and instruction for technology-mediated learning. Topics include case-based and project-based teaching and other inquiry-learning strategies; tutorial and direct-instruction; and self-directed learning. Semester Hours: 2 to 3

INTE 6750 - Current Trends and Issues in Instructional Technology
This course examines definitions, history, core concepts, and current trends and issues related to the practice of instructional technology. Topics include instructional systems design, theories of learning and instruction, change management, performance Semester Hours: 3 to 3

INTE 6760 - Advanced Seminar in Instructional Design and Development
Topical seminars to investigate issues, new models, or techniques in the field of instructional design and development. Semester Hours: 3 to 3

INTE 6840 - Independent Study: INTE
Semester Hours: 1 to 4

INTE 6930 - Internship in Information and Learning Technologies
Placement in a business, school or field setting where professional skills are applied to assess needs, design, develop and evaluate an instructional system, and provide leadership for change. Semester Hours: 1 to 4
INTE 6950 - Master's Thesis
A master's thesis is part of the degree track options for use in conjunction with, or in lieu of, comprehensive exams. Credit hours, topic, and workload are determined by the student's advisor. Prereq: Completion of all other course requirements and permission of advisor. **Semester Hours:** 4 to 4

INTE 6960 - Master's Project
Credit hours, topic, and work load are determined by the student's advisor. Prereq: Completion of all other course requirements and permission of advisor. **Semester Hours:** 1 to 4

INTE 6999 - Leadership and Practice in Information and Learning Technologies
Reflective examination of the adoption and use of information and learning technologies in applied settings. Topics include change strategies, system analysis, planning and evaluating technology use, and roles of technology specialists. **Semester Hours:** 3 to 3
Initial/Professional Teacher Education Courses (IPTE)

IPTE 4002 - Math Instruction and Assessment
Designed to prepare elementary teachers to teach mathematics in elementary schools while applying the six principles of the National Council of Teachers of Mathematics (NCTM) (equity, curriculum, teaching, learning, assessment and technology) to the four areas of mathematical learning (number sense, statistics and probability, geometry and measurement, and mathematical functions). Teachers explore ways to help all elementary students become flexible and resourceful problem solvers in mathematics. Prereq: MATH 3040. Concurrent enrollment in an internship or permission of an instructor is required. Admission into the IPTE Program. Cross-listed with IPTE 5002. Semester Hours: 2 to 2

IPTE 4005 - Social Studies in the Elementary Curriculum
Designed to prepare elementary teachers to support students’ learning related to the Colorado social studies standards. The course includes attention to social studies curriculum and teaching resources, approaches and strategies for effective teaching and assessment of social studies content, and to the teaching of literacy and math within social studies content. The course also helps teachers understand how to model democratic ideals in a classroom. Cross-listed with IPTE 5005. Semester Hours: 2 to 2

IPTE 4006 - Integrated Science and Social Studies in the Elementary Curriculum
Designed to support elementary teachers in developing an understanding and appreciation of active science and social studies explorations in elementary classrooms, learning various methods of teaching and assessing science and social studies that prepare students to meet content standards, developing authentic applications and integrating with other elementary content areas, including literacy and math, to support more holistic learning. Cross-listed with IPTE 5006. Semester Hours: 4 to 4

IPTE 4026 - Content Literacy Assessment and Instruction Teaching Lab
The secondary literacy teaching lab is designed to support novice and experienced teachers from all content areas in examining students’ reading and writing performance data and using the data to plan instruction that assist secondary students in meeting reading and writing standards through work in content area classes. Conducted by teacher experts who possess knowledge of literacy strategies useful in content area teaching, labs utilize the data from the students that the lab participants are teaching. Prereq: IPTE 4025 and IPTE 4910 or teaching experience. Concurrent enrollment in an internship or permission of instructor required. Admission into the IPTE Program. Cross-listed with IPTE 5026. Semester Hours: 1 to 1

IPTE 4050 - Planning for the First Year of Teaching
Designed to assist those who are about to enter into their first year of teaching in planning for the first year, with a focus on: 1) creating community; 2) professional learning; and 3) curriculum and instruction. Cross-listed with IPTE 5050. Semester Hours: 1 to 1

IPTE 4120 - Negotiating the Classroom Culture with Children
A central purpose of classroom management is to establish and maintain a learning environment that fosters both effective and efficient instruction in the context of a positive social culture that models democratic ideals for students. This course focuses on the dimensions of classroom life as they are directly influenced by the social and cultural background of elementary students. Prereq: Concurrent enrollment in an internship. Admission into the IPTE Program. Cross-listed with IPTE 5120. Semester Hours: 3 to 3
**IPTE 4121 - Negotiating the Classroom Culture with Adolescents**
A central purpose of classroom management is to establish and maintain a learning environment that fosters both effective and efficient instruction in the context of a positive social culture that models democratic ideals for students. This course focuses on the dimensions of classroom life as they are directly influenced by the social and cultural background of middle and high school students. Prereq: Concurrent enrollment in an internship is required. Admission into the IPTE Program. Cross-listed with IPTE 5121.  
**Semester Hours:** 3 to 3

**IPTE 4130 - Democratic Schooling: Issues of Laws and Ethics**
Designed to provide an understanding of the legal, social, ethical, and democratic context of schools, the teacher's legal and ethical role in schools, and to examine the related issues that currently face teachers, parents, students, legislators and administrators. The aim is to facilitate the clarification of a personal value system through readings and discussions of the foundations of schooling in America. Cross-listed with IPTE 5130.  
**Semester Hours:** 3 to 3

**IPTE 4351 - Inquiry Science Methods**
Designed to provide an in-depth study of inquiry science methods and how inquiry science supports standards-based education. The course provides a review of research on the pedagogy that supports student understanding, problem solving and creativity through the use of inquiry science. Participants learn a variety of methods, techniques and resources for teaching inquiry science, understand the processes of "doing" science, and develop lessons that actively engage students in science in their own classrooms. Prereq: Concurrent enrollment in an internship or permission of instructor is required. Admission into the IPTE Program. Cross-listed with IPTE 5351.  
**Semester Hours:** 3 to 3

**IPTE 4460 - Thoughtful Inquiry in Teaching Social Studies: Culture, People and Change**
Focuses on the themes of culture, people, and change, this course equips secondary teachers with the skills and knowledge needed to plan and implement secondary social studies curriculum using integrated methodology. Additionally, this course increases teachers' understanding regarding the role of social studies education in the school curriculum and familiarizes teachers with problems, issues, and trends associated with social studies curricula. Prereq: Concurrent enrollment in an internship or permission of instructor required. Cross-listed with IPTE 5460.  
**Semester Hours:** 3 to 3

**IPTE 4465 - Thoughtful Inquiry in Teaching Social Studies: Power, Technology and Society**
Focuses on the themes of power, technology, and society, this course equips secondary teachers with the knowledge and skills needed to plan and implement secondary social studies curriculum using integrated methodology. Additionally, this course increases teachers' understanding regarding the role of social studies education in the school curriculum and familiarizes teachers with problems, issues, and trends associated with social studies curricula. Prereq: Concurrent enrollment in an internship or permission of instructor required. Cross-listed with IPTE 5465.  
**Semester Hours:** 3 to 3

**IPTE 4800 - Special Topics: Initial and Professional Teacher Ed**
Workshop in Initial and Professional Teacher Education. Specific content will vary. Cross-listed with IPTE 5800.  
**Semester Hours:** 3 to 3

**IPTE 4911 - Internship and Site Seminar II**
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school (e.g., general and special education, bilingual education, Title I services, etc.). Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time
requirements are specified in the School Internship Handbook. In partner schools, the partner school site coordinator and the site professor are responsible for coaching and supervising teacher candidates and for supporting the clinical teachers in their work with teacher candidates. Site coordinators and professor conduct site seminars focused on providing teacher candidates with information about the partner school context and support for success within that context. In internships outside of partner school settings, cooperating teachers, district coordinators, and/or university professors work with teacher candidates in the classroom and in seminars. Prereq: IPTE 4910 with a B or better. Admission into the IPTE Program. Cross-listed with IPTE 5911. **Semester Hours:** 2 to 2

**IPTE 4912 - Internship and Site Seminar III**
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school (e.g., general and special education, bilingual education, Title I services, etc.). Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the School Internship Handbook. In partner schools, the partner school site coordinator and the site professor are responsible for coaching and supervising teacher candidates and for supporting the clinical teachers in their work with teacher candidates. Site coordinators and professor conduct site seminars focused on providing teacher candidates with information about the partner school context and support for success within that context. In internships outside of partner school settings, cooperating teachers, district coordinators, and/or university professors work with teacher candidates in the classroom and in seminars. Prereq: IPTE 4911 with a B or better. Admission into the IPTE Program. Cross-listed with IPTE 5912. **Semester Hours:** 3 to 3

**IPTE 4913 - Internship and Site Seminar IV**
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school (e.g., general and special education, bilingual education, Title I services, etc.). Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the School Internship Handbook. In partner schools, the partner school site coordinator and the site professor are responsible for coaching and supervising teacher candidates and for supporting the clinical teachers in their work with teacher candidates. Site coordinators and professor conduct site seminars focused on providing teacher candidates with information about the partner school context and support for success within that context. In internships outside of partner school settings, cooperating teachers, district coordinators, and/or university professors work with teacher candidates in the classroom and in seminars. Prereq: IPTE 4912, with a B or better, passing score on the Place/Praxis content exam and satisfactory progress in the program. Cross-listed with IPTE 5913. **Semester Hours:** 6 to 6

**IPTE 4915 - Internship and Seminar I**
Teachers working in their own classrooms while earning an initial teaching license engage in assessment, instruction, management, and collaborate with their colleagues across the full range of educational programs in their school (e.g., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers attend monthly seminars focused on current challenges and/or performance-based assessments. Prereq: Continuing contract as a teacher, satisfactory completion of the preceding internship, and concurrent enrollment in scheduled IPTE coursework. **Semester Hours:** 4 to 4
IPTE 4916 - Internship and Seminar II
Teachers working in their own classrooms while earning an initial teaching license engage in assessment, instruction and management and collaborate with their colleagues across the full range of educational programs in their school (e.g., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers attend monthly seminars focused on current challenges and/or on performance-based assessments. Prereq: IPTE 4915 and continuing contract as a teacher. Semester Hours: 4 to 4

IPTE 4917 - Internship and Seminar III
Teachers working in their own classrooms while earning an initial teaching license engage in assessment, instruction and management and collaborate with their colleagues across the full range of educational programs in their school (e.g., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers attend monthly seminars focused on current challenges and/or on performance-based assessments. Prereq: Continuing contract as a teacher, satisfactory completion of the preceding internship, and concurrent enrollment in scheduled IPTE coursework. Semester Hours: 4 to 4

IPTE 4918 - Internship and Seminar IV
Teachers working in their own classrooms while earning in initial teaching license engage in assessment, instruction and management and collaborate with their colleagues across the full range of educational programs in their school (i.e., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers attend monthly seminars focused on current challenges and/or on performance-based assessments. Prereq: A continuing teaching contract; satisfactory completion of the preceding internships and coursework and concurrent enrollment in scheduled coursework or permission of instructor. Semester Hours: 4 to 4

IPTE 5002 - Math Instruction and Assessment
Designed to prepare elementary teachers to teach mathematics in elementary school while applying the six principles of the National Council of Teachers of Mathematics (NCTM) (equity, curriculum, teaching, learning, assessment and technology) to the four areas of mathematical learning (number sense, statistics and probability, geometry and measurement, and mathematical functions). Teachers explore ways to help all elementary students become flexible and resourceful problem solvers in mathematics. Prereq: MATH 3040. Concurrent enrollment in an internship or permission of an instructor is required. Cross-listed with IPTE 4002. Semester Hours: 2 to 2

IPTE 5005 - Social Studies in the Elementary Curriculum
Designed to prepare elementary teachers to support students’ learning related to the Colorado social studies standards. The course includes attention to social studies curriculum and teaching resources, approaches and strategies for effective teaching and assessment of social studies content, and to the teaching of literacy and math within social studies content. The course also helps teachers understand how to model democratic ideals in a classroom. Cross-listed with IPTE 4005. Semester Hours: 2 to 2
IPTE 5006 - Integrated Science and Social Studies in the Elementary Curriculum
Designed to support elementary teachers in developing an understanding and appreciation of active science and social studies explorations in elementary classrooms, learning various methods of teaching and assessing science and social studies that prepare students to meet content standards, developing authentic applications and integrating with other elementary content areas, including literacy and math, to support more holistic learning. Cross-listed with IPTE 4006. **Semester Hours:** 1 to 4

IPTE 5026 - Content Literacy Assessment and Instruction Teaching Lab
The secondary literacy teaching lab is designed to support novice and experienced teachers from all content areas in examining students' reading and writing performance data and using the data to plan instruction that assist secondary students in meeting reading and writing standards through work in content area classes. Conducted by teacher experts who possess knowledge of literacy strategies useful in content area teaching, labs utilize the data from the students that the lab participants are teaching. Prereq: IPTE 5025 and 5910 or teaching experience. Concurrent enrollment in an internship or permission of instructor required. Cross-listed with IPTE 4026. **Semester Hours:** 1 to 1

IPTE 5050 - Planning for the First Year of Teaching
Designed to assist those who are about to enter into their first year of teaching in planning for the first year, with a focus on: 1) creating community; 2) professional learning; and 3) curriculum and instruction. Prereq: IPTE 5913 with a grade of "B" or better. Cross-listed with IPTE 4050. **Semester Hours:** 1 to 1

IPTE 5070 - Teacher Inquiry I
The teachers develop a greater understanding of strategies and methods for conducting classroom and beyond-the-classroom inquiry that help them explore important questions about teaching and learning. Prereq: IPTE 5913 with a grade of "B" or better. **Semester Hours:** 2 to 2

IPTE 5071 - Teacher Inquiry II
Part II: Teachers conduct school and/or community-based inquiries in collaboration with each other and/or with their mentor teachers. Teachers share their clinical findings with their new school colleagues. Prereq: IPTE 5070. **Semester Hours:** 1 to 1

IPTE 5080 - Principles and Practice of Change
Teachers read widely from the literature on the societal, institutional, managerial, and political contexts of change in schooling. They examine their roles as instructional leaders, reflective practitioners and change agents as they use scholarly treatment of these topics in their daily work. Prereq: IPTE 5912 with a grade of "B" or better. **Semester Hours:** 3 to 3

IPTE 5120 - Negotiating the Classroom Culture with Children
A central purpose of classroom management is to establish and maintain a learning environment that fosters both effective and efficient instruction in the context of a positive social culture that models democratic ideals for students. This course focuses on the dimensions of classroom life as they are directly influenced by the social and cultural background of elementary students. Prereq: Concurrent enrollment in an internship. Cross-listed with IPTE 4120. **Semester Hours:** 3 to 3

IPTE 5121 - Negotiating the Classroom Culture with Adolescents
A central purpose of classroom management is to establish and maintain a learning environment that fosters both effective and efficient instruction in the context of a positive social culture that models democratic ideals for students. This course focuses on the dimensions of classroom life as they are directly influenced by the social and cultural background of middle and high school students. Prereq: Concurrent enrollment in an internship. Cross-listed with IPTE 4121. **Semester Hours:** 3 to 3
IPTE 5130 - Democratic Schooling: Issues of Laws and Ethics
Designed to provide an understanding of the legal, social, ethical, and democratic context of schools, the teacher's legal and ethical role in schools, and to examine the related issues that currently face teachers, parents, students, legislators and administrators. The aim is to facilitate the clarification of a personal value system through readings and discussions of the foundations of schooling in America. Cross-listed with IPTE 4130. **Semester Hours:** 3 to 3

IPTE 5351 - Inquiry Science Methods
Designed to provide an in-depth study of inquiry science methods and how inquiry science supports standards-based education. The course provides a review of research on the pedagogy that supports student understanding, problem solving and creativity through the use of inquiry science. Participants learn a variety of methods, techniques and resources for teaching inquiry science, understand the processes of "doing" science, and develop lessons that actively engage students in science in their own classrooms. Prereq: Concurrent enrollment in an internship or permission of instructor is required. Cross-listed with IPTE 4351. **Semester Hours:** 3 to 3

IPTE 5460 - Thoughtful Inquiry in Teaching Social Studies: Culture, People and Change
Focuses on the themes of culture, people, and change, this course equips secondary teachers with the skills and knowledge needed to plan and implement secondary social studies curriculum using integrated methodology. Additionally, this course increases teachers' understanding regarding the role of social studies education in the school curriculum and familiarizes teachers with problems, issues, and trends associated with social studies curricula. Prereq: Concurrent enrollment in an internship or permission of instructor required. Cross-listed with IPTE 4460. **Semester Hours:** 3 to 3

IPTE 5465 - Thoughtful Inquiry in Teaching Social Studies: Power, Technology and Society
Focuses on the themes of power, technology, and society, this course equips secondary teachers with the knowledge and skills needed to plan and implement secondary social studies curriculum using integrated methodology. Additionally, this course increases teachers' understanding regarding the role of social studies education in the school curriculum and familiarizes teachers with problems, issues, and trends associated with social studies curricula. Prereq: Concurrent enrollment in an internship or permission of instructor required. Cross-listed with IPTE 4465. **Semester Hours:** 3 to 3

IPTE 5690 - Curriculum and Methods in Foreign Language
Methodology to teaching French, German, and Spanish in an urban setting. Prereq: Concurrent enrollment in an internship required. **Semester Hours:** 3 to 3

IPTE 5691 - Curriculum and Methods in Foreign Language II
Methodology to teaching French, German, and Spanish in an urban setting. Prereq: Concurrent enrollment in an internship required. **Semester Hours:** 3 to 3

IPTE 5800 - Special Topics
**Semester Hours:** 3 to 3

IPTE 5800 - Special Topics: Initial & Professional Teacher Ed
Workshop in Initial and Professional Teacher Education. Specific content will vary. Cross-listed with IPTE 4800. **Semester Hours:** 3 to 3

IPTE 5840 - Independent Study: IPTE
**Semester Hours:** 1 to 4
IPTE 5910 - Internship and Site Seminar I
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school (e.g., general and special education, bilingual education, Title I services, etc.). Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the School Internship Handbook. In partner schools, the partner school site coordinator and the site professor are responsible for coaching and supervising teacher candidates, and for supporting the clinical teachers in their work with teacher candidates. Site coordinators and professor conduct site seminars focused on providing teacher candidates with information about the partner school context and support for success within that context. In internships outside of partner school settings, cooperating teachers, district coordinators, and/or university professors work with teacher candidates in the classroom and in seminars. Cross-listed with IPTE 4910. **Semester Hours:** 2 to 2

IPTE 5911 - Internship and Site Seminar II
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school (e.g., general and special education, bilingual education, Title I services, etc.). Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the School Internship Handbook. In partner schools, the partner school site coordinator and the site professor are responsible for coaching and supervising teacher candidates and for supporting the clinical teachers in their work with teacher candidates. Site coordinators and professor conduct site seminars focused on providing teacher candidates with information about the partner school context and support for success within that context. In internships outside of partner school settings, cooperating teachers, district coordinators, and/or university professors work with teacher candidates in the classroom and in seminars. Prereq: IPTE 5910 with a B or better. Cross-listed with IPTE 4911. **Semester Hours:** 2 to 2

IPTE 5912 - Internship and Site Seminar III
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school (e.g., general and special education, bilingual education, Title I services, etc.). Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the School Internship Handbook. In partner schools, the partner school site coordinator and the site professor are responsible for coaching and supervising teacher candidates and for supporting the clinical teachers in their work with teacher candidates. Site coordinators and professor conduct site seminars focused on providing teacher candidates with information about the partner school context and support for success within that context. In internships outside of partner school settings, cooperating teachers, district coordinators, and/or university professors work with teacher candidates in the classroom and in seminars. Prereq: IPTE 5911 with a B or better. Cross-listed with IPTE 4912. **Semester Hours:** 3 to 3

IPTE 5913 - Internship and Site Seminar IV
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school (e.g., general and special education, bilingual education, Title I services, etc.). Additionally, teacher candidates participate in the activities of a school community (the school, its classrooms and the
community in which the school exists). Graduated learning activities for each internship and time requirements are specified in the School Internship Handbook. In partner schools, the partner school site coordinator and the site professor are responsible for coaching and supervising teacher candidates and for supporting the clinical teachers in their work with teacher candidates. Site coordinators and professor conduct site seminars focused on providing teacher candidates with information about the partner school context and support for success within that context. In internships outside of partner school settings, cooperating teachers, district coordinators, and/or university professors work with teacher candidates in the classroom and in seminars. Prereq: IPTE 5912, with a B or better, passing score on the Place/Praxis content exam and satisfactory progress in the program. Cross-listed with IPTE 4913. **Semester Hours:** 6 to 6

**IPTE 5915 - Internship and Seminar I**
Teachers working in their own classrooms while earning an initial teaching license engage in assessment, instruction, management, and collaborate with their colleagues across the full range of educational programs in their school (e.g., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers attend monthly seminars focused on current challenges and/or performance-based assessments. Prereq: Continuing contract as a teacher, satisfactory completion of the preceding internship, and concurrent enrollment in scheduled IPTE coursework. **Semester Hours:** 4 to 4

**IPTE 5916 - Internship and Seminar II**
Teachers working in their own classrooms while earning an initial teaching license engage in assessment, instruction and management and collaborate with their colleagues across the full range of educational programs in their school (e.g., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers attend monthly seminars focused on current challenges and/or performance-based assessments. Prereq: IPTE 5915 and continuing contract as a teacher. **Semester Hours:** 4 to 4

**IPTE 5917 - Internship and Seminar III**
Teachers working in their own classrooms while earning an initial teaching license engage in assessment, instruction and management and collaborate with their colleagues across the full range of educational programs in their school (e.g., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers attend monthly seminars focused on current challenges and/or performance-based assessments. Prereq: Continuing contract as a teacher, satisfactory completion of the preceding internship, and concurrent enrollment in scheduled IPTE coursework. **Semester Hours:** 4 to 4

**IPTE 5918 - Internship and Seminar IV**
Teachers working in their own classrooms while earning in initial teaching license engage in assessment, instruction and management and collaborate with their colleagues across the full range of educational programs in their school (i.e., general and special education, bilingual education, Title I services, etc.). They also participate in the activities of a school community (the school and the community in which the school exist). Supervision and coaching of the teacher is negotiated by the employing district and the university but is likely to be a joint responsibility of district or school and university personnel. Teachers
attend monthly seminars focused on current challenges and/or on performance-base assessments. Prereq: A continuing teaching contract; satisfactory completion of the preceding internships and coursework and concurrent enrollment in scheduled coursework or permission of instructor. **Semester Hours:** 4 to 4

**IPTE 5919 - Second Endorsement Internship or Guest Student Teaching**
A specially arranged internship for those seeking a second endorsement in an area in which they are already teaching or wish to teach and/or for those from another state who wish to do their student teaching in Colorado and transfer credits back to their home institution. The number of credits and possible fee is arranged according to circumstances. Prereq: Letter from employing district certifying employment in teaching field for which licensure is sought or a letter from home institution certifying readiness to student teach. **Semester Hours:** 4 to 12
Information Systems Courses (ISMG)

ISMG 2050 - Introduction to Business Problem Solving
Focuses on the technology and problem solving skills necessary for students to succeed both at school and in the business world. Focuses on business decision making using spreadsheets, database and web tools. Students solve problems in statistics, accounting, finance, marketing, management and information systems. The objective is to provide problem solving methods necessary for students to succeed in the business community. This is a business core course therefore a grade of a 'C' or better must be earned to satisfy Business graduation and prerequisites for other business courses. **Semester Hours:** 3 to 3

ISMG 2075 - Introduction to Microsoft Access
Introduction to Microsoft Access prepares students to use data bases to analyze data and solve real-life business problems. It challenges students to use critical thinking and analysis to find efficient and effective solutions to real-life business situations. Students will use databases to solve problems in accounting, finance, and information systems. Prereq: Computer Competency. **Semester Hours:** 1 to 1

ISMG 2200 - Introduction to Business Programming
Examines how business applications are developed. Emphasis is placed on developing complete and user-friendly programming solutions to business problems. Students are introduced to an object-oriented programming language for implementing event-driven business problem solutions. Prereq: ISMG 2050. **Semester Hours:** 3 to 3

ISMG 2800 - Designing for the Web
Students examine how the Web is evolving to support a variety of business needs. The course covers the design and usability principals necessary for improving online interactions via traditional websites as well as using technologies promoting collaboration and information sharing (e.g. social networks, blogs, wikis, forms). Topics include: the principles of web page and web site design; hypertext markup language, cascading style sheets, streaming video, online collaboration technologies; client and server scripting; and the process of testing and publishing web sites. Prereq: ISMG 2050 or taken concurrently with ISMG 2050. **Semester Hours:** 3 to 3 **When Offered:** SPRING

ISMG 3000 - Technology In Business
Covers the role of information technology in business organizations. It exposes students to innovative and interesting technologies and illustrates how those technologies are changing the way businesses operate. It highlights the importance of IT in or **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

ISMG 3100 - Information Technology Hardware and Software
Provides the hardware/software technology background to enable systems development personnel to understand tradeoffs in computer architecture for effective use in business environment. System architecture for single user, central, and networked computing systems; single and multi-user operating systems. Prereq: ISMG 3000. **Semester Hours:** 3 to 3

ISMG 3200 - Programming, Data, File and Object Structures
Provides an understanding of algorithm development, programming, computer concepts, and the design and application of data and file structures. Includes an understanding of the logical and physical structure of both programs and data. The "JAVA" programming language will be used as the vehicle for investigating a variety of data structure topics. Topics include: data structures and representation; characters, records, files and multimedia; precision of data; information representation, organization and storage; algorithm development; object representation compared to conventional data flow notation;
programming control structures; program correctness, verification, and validation; file structures and representation. Prereq: ISMG 2200. **Semester Hours:** 3 to 3

**ISMG 3300 - Social Media in Business**
Social media has become a central component of many business activities including marketing, HR, product management and the supply chain. In this course, we examine the organizational use of social media technologies such as blogs and social networks, as well as the use of social media analytics to drive business strategy. Cross-listed with MKTG 3300. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**ISMG 3500 - Enterprise Data and Content Management**
The success of today's business often hinges on the ability to turn mountains of data into critical information to make right decisions quickly and efficiently. This course introduces students to data, content and multimedia management using current enterprise data management tools. Topics include: Oracle SQL for relational database and for multi-media content; Oracle forms and reports, XML, and content management. Prereq: ISMG 2050 or equivalent, transfer credit VALIDATION (may need ISMG 2075 - 1 credit). **Semester Hours:** 3 to 3 **When Offered:** FALL

**ISMG 3600 - System Strategy, Architecture and Design**
This course is designed to provide the understanding of current concepts related to information systems development in an organizational context. It emphasizes the interactive nature of the analysis and design process. Topics include: requirements analysis, model based analysis and design; evaluating outsourcing, COTS and other systems acquisition options; and quality, six-sigma, and ethics in design. New concepts such as agile modeling and extreme programming are covered. Prereq: ISMG 2050 or equivalent, transfer credit VALIDATION (may need ISMG 2075 - 1 credit). **Semester Hours:** 3 to 3 **When Offered:** SPRING

**ISMG 3939 - Internship**
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: Senior standing and 3.5 GPA. **Semester Hours:** 1 to 3

**ISMG 4200 - Building Business Applications**
Examines how business technologies are designed and implemented. Usability, logic, and platform selection issues are highlighted through the development of simple business systems. Includes Windows interface design; storing, retrieving, and manipulating information; real time decision making; task automation through iteration; platform selection (mobile, desktop or web); and web programming. Prereq: ISMG 2800. **Semester Hours:** 3 to 3 **When Offered:** FALL

**ISMG 4300 - Information Security and Compliance**
This course covers information security threats and various mechanisms available to organizations to defend against information compromise. It offers thorough analysis of state, national, and international information security regulations with which businesses must comply, including the Sarbanes-Oxley, Gramm-Leach-Billey and Hippa Acts. The regulatory compliance analysis will include measures the organizations must and should perform to be in compliance. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**ISMG 4500 - Database Management and Applications**
The success of today's business often hinges on the ability to turn mountains of data into critical information and to utilize the critical information to make the right decisions quickly and efficiently. This course introduces students to the basic principles of data management and utilization. Topics include data modeling, normalization and database design, query formulation using SQL and QBE and interface
design. Actual database management systems products (e.g. Oracle and Access) are utilized to
demonstrate the design of database applications in management, marketing, finance, accounting and
other business areas. Each student will also design a working database system as a project. Prereq: ISMG
3000. **Semester Hours:** 3 to 3

**ISMG 4600 - Systems Analysis and Design**
Provides an understanding of the system development and maintenance process. It enables students to
evaluate and choose a system development methodology. Topics include: systems development life cycle
phases, structured analysis and design, object-oriented analysis and design; prototyping, joint application
development (JAD) and structured walk-through; communication, interviewing, interpersonal and
presentation skills; risk and feasibility analysis, project management, systems operations and support.
Prereq: ISMG 3000. **Semester Hours:** 3 to 3

**ISMG 4700 - Business Data Communications and Networking**
Provides an in-depth knowledge of data communications and networking requirements including:
networking and telecommunications technologies, hardware, and software. Emphasis is upon the analysis
and design of networking applications in organizations. Management of telecommunications networks,
cost-benefit analysis, and evaluation of connectivity options are also covered. Students learn to evaluate,
select, and implement different communication options within an organization. Topics include: network
hardware and software; network configuration; network applications; distributed versus centralized
systems; network architectures, topologies and protocols; network performance analysis; privacy,
security, reliability; management of telecommunications, and communications standards. Prereq: Jr.
Standing. **Semester Hours:** 3 to 3 **When Offered:** *SPRING*

**ISMG 4750 - Business Intelligence and Financial Modeling**
In this course, the student learns to analyze and solve financial problems with spreadsheet models, apply
Oracle Financial and Business Intelligence software that is widely used in corporate financial operations
and model risk and uncertainty with Monte Carlo software. Prereq: ISMG 2050, FNCE 3000 and ISMG
3000 (or ACCT 3054) with a grade of 'C' or better. Cross-listed with FNCE 4750. **Semester Hours:** 3 to 3

**ISMG 4760 - Customer Relationship Management**
This marketing-theory driven course examines customer relationship management (CRM) as a key
strategic process for organizations. Composed of people, technology and processes, effective CRM
optimizes the selection or identification, acquisition, growth and retention of desired customers to
maximize profit. Besides presenting an overview of the CRM process, its strategic role in the organization
and its place in marketing, students have an opportunity to create simulated CRM database using popular
software package that help to illustrate what CRM can do, its advantages and limitations. Prereq: MKTG
3000 and ISMG 3000. Cross-listed with MKTG 4760. **Semester Hours:** 3 to 3

**ISMG 4780 - Accounting and Information Systems Processes and Controls**
The course is designed to develop knowledge and skills used to understand and evaluate corporate
accounting processes and systems. It focuses on financial and information system internal controls and
the flow of corporate information through accounting system. A financial system objective and risk
assessment approach is used to present concepts and techniques for evaluating the adequacy of system
processes and controls. Prereq: Completion of ACCT 2200 and 2220 with a grade of 'C' or better. Strictly
enforced. Cross-listed with ACCT 4780, 6510 and ISMG 6510. **Semester Hours:** 3 to 3
ISMG 4800 - eBusiness Systems Development
Students analyze business problems and develop data-driven eBusiness applications to solve them. Development skills include presenting and receiving information through a web site, validating entered information and storing entered information in text files or databases. Students develop an understanding of the principles of web page and web site design; standard object models, Hypertext Markup Language, client scripting and server programs for database and file access; testing, software quality assurance; and the process of publishing Web pages. Prereq: ISMG 2200. Semester Hours: 3 to 3

ISMG 4840 - Independent Study
Semester Hours: 1 to 8

ISMG 4900 - Project Management and Practice
Covers the factors necessary for successful management of enhancement projects. Both technical and behavioral aspects of project management are discussed. The focus is on management of development for enterprise-level systems. Topics include: managing the system lifecycle; requirements determination, logical design, physical design, testing, implementation; metrics for project management; managing expectations: superiors, users, team members and others related to the project; determining skill requirement and staffing the project; cost-effectiveness analysis; reporting and presentation techniques; effective management of both behavioral and technical aspects of the project; change management. Note: Successful completion of this course meets the educational requirements to sit for both the PMP and CAPM exams. Prereq: ISMG 2200. Cross-listed with CSCI 4900 and MGMT 4900. Semester Hours: 3 to 3

ISMG 4950 - Special Topics
Seldom offered. This course varies from offering to offering. Typically, it is a research-oriented course exploring new developments in information systems. Prerequisites vary according to topic. Semester Hours: 3 to 3

ISMG 5939 - Internship
Supervised experiences involving the application of concepts and skills in an employment situation. Semester Hours: 1 to 3

ISMG 6020 - .Net Programming Fundamentals
This course is designed to provide a thorough introduction to the .Net programming environment. C# is studied as the target object-oriented programming language. Principles of object-oriented programming are demonstrated using programming constructs taken from the business domain. Students are required to apply this knowledge through a series of C# programming exercises, which includes developing Windows Forms applications for the desktop and mobile platforms. Prereq: Basic knowledge of a programming language such as JAVA, C, or Basic. Semester Hours: 3 to 3 When Offered: SPRING

ISMG 6040 - Business Process Management
Designing effective information systems for business requires an awareness of the organization(s) business processes and how to manage and streamline them. The objectives of the course are for students to understand the importance of business processes; the main types of business processes; and the evolution of business process management; business process outsourcing; business process re-engineering; business process redesign; technology enabled business processes; and automated workflow. An important activity is graphically mapping business processes, which are transformed into an application or set of applications. The organization needs to manage the electronic workflow to monitor that the work gets done and allow changes to the workflow. Case studies of organizations are studied for most topics to enhance understanding. The group projects let students apply their knowledge of the
course to a specific organization. By the end of this course students should have an appreciation of the important process-centric issues in business systems design. **Semester Hours:** 3 to 3  **When Offered:**  **SPRING**

**ISMG 6060 - Analysis, Modeling and Design**
Provides an understanding and application of systems analysis and design processes. Students are exposed to system development life cycle (SDLC), structured systems analysis and design methods, object-oriented analysis and design methods, prototyping and commercial off-the-shelf package software approaches, and joint and rapid application development. Emphasizes the skills required for system analysts such as analytical, interpersonal, technical, fact-finding, and project management skills. Topics include data, process and object modeling, input-output and user interface design, and systems implementation and support. To provide an opportunity to develop these skills, an information system project is completed by a group of students. Students use a Case tool for their group project. **Semester Hours:** 3 to 3  **When Offered:**  **SPRING**

**ISMG 6071 - Introduction to Health Information Technology**
Examines what needs transforming in healthcare to improve value, safety and appropriateness of care, and what the role of IT is in that transformation. It also examines the challenges of cultural change and IT strategy in succeeding with clinical information projects. Differences between installation, implementation, transition and actual transformation are suggested and methods for managing subcultures in healthcare (IT, clinical, administrative) are reviewed. Cross-listed with HLTH 6071. **Semester Hours:** 3 to 3  **When Offered:**  **SPRING**

**ISMG 6072 - Fundamentals of Health Information Technology Management**
Provides an introduction to the management of information technology in healthcare. A description of information processing, the origin, content, evolution of healthcare information systems and the methodologies deployed to acquire and manage information requirements are discussed. Cross-listed with HLTH 6072. **Semester Hours:** 3 to 3  **When Offered:**  **FALL**

**ISMG 6080 - Database Management Systems**
The success of today's business often hinges on the ability to utilize critical information to make the right decisions quickly and efficiently. Transforming mountains of data into critical information to improve decision making is a skill every business decision maker must posses. This focus course covers the database design topics with a focus on enabling business decision making. Detailed topics include collecting, capturing, querying and manipulating data (using SQL and QBE) for simple to medium complex business applications. Commercial database products (e.g. ORACLE and ACCESS) are utilized to demonstrate the design of database applications in management, marketing, finance, accounting, and other business areas. Students will be able to design and implement simple to medium complex database applications after successful completion of this course. **Semester Hours:** 3 to 3  **When Offered:**  **FALL**

**ISMG 6120 - Internet and Mobile Technologies**
Communication, knowledge sharing, and information acquisition within and between businesses are critical for long term strategic business success. Technological advancements are radically changing the way business communication and knowledge sharing is performed. This course will briefly examine traditional concepts of wired local area networks for reference purposes, but then will focus on how newer mobile technologies are changing the way business communication and knowledge transfer are conducted. Mobile technologies that will be examined in this course include: WiFi wide area networks, wireless local area networks, cellular telephones, smart phones, and other portable computing devices. **Semester Hours:** 3 to 3  **When Offered:**  **FALL**
ISMG 6180 - Information Systems Management and Strategy
The effective use of information technology requires the alignment of competitive strategies, business processes, and IT applications. In this course, we take a top management perspective to the development of policies and plans that maximize the contribution of IT to organizational goals. We begin by examining the systems that support the operational, administrative, and strategic needs of organizations. We then investigate the approaches used to manage the IT function, taking into account legacy and emerging technologies. The vital role of the CIO and project champions are explored. Note: Students cannot receive credit for both ISMG 6180 and BUSN 6610. Cross-listed with BUSN 6610. Semester Hours: 3 to 3 When Offered: FASPRSUM

ISMG 6200 - Global Information Systems
Will focus on managing information technology globally and the new organizational and information technology designs that firms are establishing to meet the ever-growing global requirements. The course will cover such issues as how information is used and how information technology is deployed by multinationals in different countries, the state of information technology and telecommunication industries in countries around the world, how global firms gain strategic benefits from information technology, and how firms manage and use global virtual teams. Prereq: ISMG 6040 or 6120 or BUSN 6610. Semester Hours: 3 to 3 When Offered: FALL

ISMG 6220 - Business Intelligence Systems
This course covers technical and managerial issues associated with the development and use of decision support systems, expert systems, executive information systems, and advanced intelligent systems. The DSS component covers decision theory, model management, and business intelligence with an emphasis on how decision-making can be supported using data warehouses, OLAP, and data mining and visualization tools. The ES component focuses on knowledge acquisition, representation, reasoning, and using advanced intelligent systems, over the web. In addition, collaboration, communication, enterprise decision support system integration, impacts, and the future of MSS are discussed. The use of DSS and online analytical processing (OLAP) and the selection of decision support applications and tools are important learning objectives for this course. Critical to the success of DSS is the use of data warehouses. The basics of data warehousing are covered through a variety of companies' experiences. The course also covers Business Performance Management (BPM) and the use of digital dashboards and balanced scorecards as evolution of EIS. Hands-on experience is provided through the use of leading-edge technologies including MicroStrategy business intelligence tool. Prereq: ISMG 6080. Cross-listed with BUSN 6812. Semester Hours: 3 to 3 When Offered: SPR SUM

ISMG 6240 - Website Development Practice and Technologies
Presents a broad coverage of design principles and techniques to develop effective web sites. The course emphasizes: (1) understanding the principles of web page and web site design and the process of publishing web pages, (2) developing client-side scripts for use in web sites, (3) using server-side programs or scripts to develop dynamic web sites using databases, and (4) understanding technologies for managing large web sites including XML schemas, content management systems and web services. Prereq: ISMG 6080. Semester Hours: 3 to 3 When Offered: FALL

ISMG 6280 - Service Oriented Architecture
Explores "Service Oriented Architecture" (SOA), which refers to a design pattern made up of components and interconnections that stress interoperability and location transparency. Covers the latest heterogeneous models for carrying out large scale distributed computing using Web services. The fundamentals of defining, designing, building, testing and rolling-out a SOA system are explored using tools from major Web service vendors. Also, looks at the impact of SOA on software quality, efficiency, performance and flexibility. Prereq: ISMG 6060. Semester Hours: 3 to 3 When Offered: FALL
ISMG 6420 - Global Enterprise Systems
Examines the evolution of global enterprise systems - from internally focused enterprise resource planning (ERP) client or server systems to externally focused eBusiness. Studies the types of issues managers need to consider in implementing cross-functional integrated enterprise systems. Examines the general nature of global enterprise computing, re-engineering principles and the technical foundations of client or server systems and enterprise information architectures. Students learn about the global enterprise systems marketplace. Topics include the tools and methodology, modules, processes and industry initiatives. Finally, the course looks into the future and predicts enterprise system trends. The objective of the course is to make students aware of the potential and limitations of global enterprise systems. The objective will be reached through case studies, lectures, guest speakers and a group project. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3 When Offered: FALL

ISMG 6430 - Information Systems Security and Privacy
Designed to develop knowledge and skills for security of information and information systems within organizations. Focuses on concepts and methods associated with planning, designing, implementing, managing, and auditing security at all levels and on all systems platforms, including enterprise systems. This course presents techniques for assessing risk associated with accidental and intentional breaches of security as well as disaster recovery planning. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3 When Offered: SPRING

ISMG 6450 - IT Project Management
Focuses on how firms successfully manage the adoption of Information Technology. Projects and program management principles are the primary focus of this course. Topics covered include approaches to prioritizing projects, estimating cost and time-to-market, build vs. buy decision, planning, monitoring and controlling implementation, measurement, total cost of ownership, effective management of both behavioral and technical aspects of the project and change management. Prereq: ISMG 6180 or BUSN 6610 (6810). Semester Hours: 3 to 3 When Offered: FALL

ISMG 6460 - Emerging Technologies
Provides an introduction to the expansive array of information technologies that form the infrastructure of a modern business enterprise. Emphasis is placed on learning conceptual technological foundations and understanding the business value of the various technologies. The purpose of the course is to develop the student's ability to discuss recent technological advancements with other Information Technology professionals and management. Technology assessment is emphasized. Prereq: ISMG 6180 or BUSN 6610 (6810). Cross-listed with BUSN 6800. Semester Hours: 3 to 3 When Offered: FALL

ISMG 6480 - Data Warehouse and Administration
Management of large, complex data warehouses and operational databases involves technical skills and background needed by information systems professionals as well as tactical and strategic issues faced by information technology managers. This course provides conceptual knowledge, practical skills, and policy background for prospective information systems professionals and information technology managers. The course covers business aspects, conceptual background, and product material about management of data warehouses and operational databases. Assignments and projects involve Oracle skills for database administration and tactical or strategic issues faced by information technology management. Prereq: ISMG 6080. Semester Hours: 3 to 3 When Offered: SPRING

ISMG 6510 - Accounting and Information Systems Processes and Controls
Designed to develop knowledge and skills used to understand and evaluate corporate accounting processes and systems. Focuses on financial and information system internal controls and the flow of corporate information through an accounting system. A financial system objective and risk assessment
approach issued to present concepts and techniques for evaluating the adequacy of system processes and controls. Cross-listed with ACCT 6510, 4780 and ISMG 4780. **Semester Hours:** 3 to 3

**ISMG 6800 - Special Topics**
A variety of advanced topics are offered in this course. Past topics include the human-computer interface, software engineering, artificial intelligence, graphical user interface, project management and electronic commerce. Consult the current 'Schedule Planner' for semester offerings. Note: Seldom offered. **Semester Hours:** 3 to 3

**ISMG 6810 - Business Intelligence in Healthcare**
Provides students with an overview of how business intelligence is used in the healthcare industry. Students study the evolution of IT in healthcare including enterprise systems and systems integration. Next the course looks at the evolution of business intelligence in general. Using case studies and hands on exercises, students learn about different aspects of business intelligence in various subsets of the healthcare industry. **Semester Hours:** 3 to 3 **When Offered:** FALL

**ISMG 6820 - Business Intelligence and Financial Modeling**
This course will introduce students to the application of business intelligence in a corporate finance setting. Financial data intelligence is essential for effective decision making throughout the firm, in finance directly and in other functions supported by the finance department. Strategy setting, budgeting, and new product development are just a few decision areas where finance personnel play an active role. In this course, we learn how to apply Oracle e-Business Suite, a finance and business intelligence software tool that provides modules for financial reporting, analysis, budgeting, and planning. These tools enable finance personnel to access and analyze corporate data in support of critical decision making across the enterprise. Students will also analyze data through the use of financial models built in Microsoft Excel. The development of complex financial models will provide students with valuable hands-on experience with a software tool used widely incorporate finance departments. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**ISMG 6830 - IT Governance and Service Management**
Deals with interrelated decisions on clarifying the business role of IT, defining integration and standardization requirements for the IT architecture, shared and enabling services for the IT infrastructure and business need for SaaS, and governance of cl **Semester Hours:** 3 to 3

**ISMG 6840 - Independent Study: ISMG**
Instructor approval required. Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. **Semester Hours:** 1 to 8

**ISMG 6950 - Master’s Thesis**
**Semester Hours:** 1 to 8

**ISMG 7001 - AI-Based Decision Making**
Introduces decision making concepts. It covers a range of approaches, techniques and tools for decision aiding and describes how they can be used to support decision processes. The topics include human decision making, decision support systems, knowledge-based systems, and AI methods that support decision making, like machine learning, Bayesian networks and association rules. Prereq: MS in C.S.E. or I.S. **Semester Hours:** 3 to 3
ISMG 7002 - Computer Security
A broad overview of computer security, roughly divided into three unequal components: a) the history of
codes and ciphers; b) basic cryptographic techniques, for example, symmetric cryptography,
authentication techniques, and asymmetric cryptosystems, and: c) applications to current and future
computer-related technologies, for example, network security, wireless communication, quantum
cryptography, and more. Prereq: CSCI 5451. Cross-listed with CSCI 7002. Semester Hours: 3 to 3

ISMG 7200 - Advances In Management Information Systems
Provides an introduction to research methodologies engaged in Management Information System
Research, including measurement, sampling, survey research, experiments, quasi-experiments and some
qualitative research methods. Prereq: admission into the CSIS Ph.D. program and knowledge of basic
statistics. Cross-listed with CSCI 7200. Semester Hours: 3 to 3 When Offered: FALL

ISMG 7210 - Topics In Analytical Research In Management Information Systems
Provides a detailed coverage of selected analytical research in information systems. Prereq: Admission to
the CSIS Ph.D. program. Cross-listed with CSCI 7210. Semester Hours: 3 to 3

ISMG 7211 - Topics In Behavioral and Organizational Research In Management Information
Systems
Provides a detailed coverage of selected behavioral and organizational research in information systems.
Prereq: admission to the CSIS Ph.D. program. Cross-listed with CSCI 7211. Semester Hours: 3 to 3

ISMG 7220 - Research methods: Design and Analysis
Research methods: Design and Analysis. Topics include: research design, approaches to gathering data;
sampling methods; linear multivariate analysis methods emphasizing structural equations models; and a
brief survey of other methods such as cluster analysis, multidimensional scaling, methods such as neural
nets, CART and/or genetic algorithms. While much of the material is of general interest, the course
emphasizes methods and situations to prepare students in the CS/IS Ph.D. program for research in their
field(s). The course includes student projects involving the analysis of data using appropriate software,
whose results are presented to the class. Prereq: BUSN 6530 (or equivalent) and either Ph.D. student
status or permission of instructor. Cross-listed with DSCI 6220. Semester Hours: 3 to 3

ISMG 7551 - Parallel and Distributed Systems
Examines a range of topics involving parallel and distributed systems to improve computational
performance. Topics include parallel and distributed programming languages, architectures, networks,
algorithms and applications. Prereqs: Graduate Standing. Cross-listed with CSCI 7551. Semester
Hours: 3 to 3

ISMG 7552 - Advanced Topics in Parallel Processing
Examines the advances of sequential computers for gaining speed and application of these techniques to
high-speed supercomputers of today. Programming methodologies of distributed and shared memory
multiprocessors, vector processors and systolic arrays are compared. Performance analysis methods for
architectures and programs are described. Cross-listed with CSCI 7552. Semester Hours: 3 to 3

ISMG 7574 - Advanced Topics in Operating Systems
Covers the advanced topics in operating systems by examining functionality and performance issues in
CPU Scheduling, communications, distributed file systems, distributed operating systems, shared-
memory multiprocessors and real-time operating systems. In addition to studying papers, reviews, and
presentations, students carry out a semester long team project within the scope of one of the above topics.
Prereqs: CSCI 3453 or CSCI 5573. Cross-listed with CSCI 7574. Semester Hours: 3 to 3
ISMG 7582 - Artificial Intelligence
Approaches to design of systems for solving problems usually solved by humans, especially those related to intelligent decision making. Emphasis on various types of knowledge representation. Cross-listed with CSCI 7582. **Semester Hours:** 3 to 3

ISMG 7654 - Algorithms For Communication Networks

ISMG 7765 - Computer Networks
An in-depth study of active research topics in computer networks. Topics include: Internet protocols, TCP/UDP, congestion and flow control, IP routings, mobile IP, P2P overlay networks, network security, performance, and other current research topics. Prereq: Graduate Standing. Cross-listed with CSCI 7765. **Semester Hours:** 3 to 3

ISMG 7799 - Topics in Network Computing
Studies the active research topics in network based computing such as Cluster, Grid computing, P2P Computing, Pervasive Computing, Workflow system and Cloud Computing. Students will study key papers in the literature, and submit a research term project. Prereq: Graduate Standing. Cross-listed with CSCI 7799. **Semester Hours:** 3 to 3

ISMG 7800 - Special Topics
A variety of advanced topics are offered at the Ph.D. level in this course. Consult the current 'Schedule Planner' for semester offering. **Semester Hours:** 3 to 3 **When Offered:** SPRING

ISMG 7840 - Independent Study: Pre-Dissertation Research
Conduct pre-dissertation research under the supervision of a faculty member. Prereq: BUSN 6530. **Semester Hours:** 1 to 6

ISMG 8990 - Dissertation Development
Supports development of a dissertation in conjunction with a student’s advisor. Prereq: Completion of first year and second year papers (ISMG 7840). **Semester Hours:** 1 to 15
Initial Teacher Education Courses (ITED)

ITED 4700 - Instructional Teamwork Academy
The academy consists of four modules of varying length for a total of 15 clock hours of instructional time. The course consists of introductory material regarding teamwork, delineation of roles and responsibilities, classroom instruction, and behavior management. **Semester Hours:** 1 to 1

ITED 4710 - Student Supervision Academy
The focus of the 15 clock hour academy is the effective management of large groups of students on playgrounds, in lunchrooms, halls, locker rooms, parking lots where buses are loading, on buses and in other instructional settings. **Semester Hours:** 1 to 1

ITED 4720 - Interpersonal Skills Academy
The focus of this 15 hour academy is on developing effective interpersonal skills that are necessary for working as part of a team. Throughout this academy importance of issues of diversity based on culture, experience and gender in communication and conflict resolution processes is highlighted. **Semester Hours:** 1 to 1

ITED 4730 - Personal Growth and Development Academy
This 15 contact hour academy covers self-appraisals, participation in the evaluation process and plan for continued professional growth and development, stress-management strategies and using creativity in dealing with problematic situations. **Semester Hours:** 1 to 1

ITED 4740 - Behavior Management
This academy gives the paraeducator knowledge and skill in instructional methods that support students who have challenging behaviors in inclusive classrooms, resource rooms, self-contained classrooms, domestic settings, and in the community. These modules focus on the interactions that paraeducators have with students whose behaviors are challenging and on the role they play in assisting the professional members of their team with behavior challenges. **Semester Hours:** 1 to 1

ITED 4750 - Instructional Strategies Academy
This academy gives the paraeducator knowledge and skills in analyzing the teaching environment and individual student needs for the particular level of support, degree of adaptation or accommodation or modification and instructional method that would best facilitate learning. **Semester Hours:** 1 to 1

ITED 4760 - Instructional Technology Academy
This 15 contact hour academy is intended to provide paraeducators with skills in operating typical school-wide technologies. The focus is on examining the types of technology used daily, as well as those types that they may not currently have skills in using but which can broaden their repertoire of available skills. **Semester Hours:** 1 to 1

ITED 4770 - Vocabulary and Comprehension
Paraeducators are provided with the skills needed to assist classroom teachers in meeting literacy needs of students in the areas of vocabulary and comprehension. Skills applicable to assisting diverse populations such as special education, Title 1, ELA, and General Education. **Semester Hours:** 1 to 1

ITED 4780 - Assisting with Phonemic Awareness and Phonics in the Classroom
This academy provides the paraeducator with skills and techniques needed to assist literacy needs of diverse populations of students with phonemic awareness and phonics as it relates to the early, emergent and fluent reader. **Semester Hours:** 1 to 1
ITED 4790 - Assisting with Reading Fluency in the Classroom
This academy provides the paraeducator with skills needed to assist literacy needs of diverse populations of students in the area of reading fluency. It covers important fluency concepts and terms and the use of a variety of research-based instructional techniques that improve fluency at the word, phrase, sentence and connected text levels. **Semester Hours:** 1 to 1

ITED 4800 - Grades K-4 Mathematics
This academy is designed to provide paraeducators with the skills and knowledge needed to assist students, grades K through four, with mathematics skills taught in the classroom. The course content is designed and adapted from standards recommended by the National Council of Teachers of Mathematics. It includes the specific skill building areas of number sense, computational techniques, algebraic thinking, geometry, measurement, data and probability as they apply to grades K-4 learners. **Semester Hours:** 1 to 1

ITED 4810 - Number Theory and Rational Numbers
This academy provides paraeducators with the skills and knowledge needed to assist students with specific mathematics skills typically taught in grades five through eight. This academy solidifies the concepts learned in assisting with K-4 math and provides a base for assisting with high school mathematics. It includes the specific skill building areas of number sense; computational techniques for fractions, decimals and percents and their related applications as they apply to intermediate and middle school learners. The course content is designed and adapted from the standards recommended by the National Council of Teachers of Mathematics. **Semester Hours:** 1 to 1

ITED 4820 - Algebraic Concepts and Spatial Reasoning
This academy provides paraeducators with the skills and knowledge needed to assist students, grades 5-8, with the mathematics skills taught in the classroom. The course content is designed and adapted from standards recommended by the National Council of Teachers of Mathematics. It includes the specific skill building areas of real number building properties; graphical representations; algebraic concepts and problem solving; data and probability; and spatial reasoning skills as they apply to intermediate and middle school learners. **Semester Hours:** 1 to 1

ITED 5022 - Learning and Classroom Management Strategies for Secondary Schools
Provides knowledge to create and manage classrooms conducive to the well-being and learning of a diverse student population. Included are instructional strategies for addressing content standards, managing curriculum, instruction, assessments, classrooms, **Semester Hours:** 3 to 3

ITED 5023 - Literacy Strategies for Secondary Schools
Provides knowledge and practice using specific literacy methods and assessment, to enhance content learning, and meet reading and writing standards. Instructional strategies for special needs and language-minority students are also emphasized. **Semester Hours:** 3 to 3

ITED 5025 - Reading Instruction and Assessment K-5
Using and expanding upon background knowledge from prerequisites, participants learn about specific reading instruction and assessment routines and techniques. Through guided in-school placements, student’s link course readings, discussion and practice, **Semester Hours:** 3 to 3

ITED 5800 - Special Topics in Education
Addresses a specific topic that is current and relevant to the needs of a specific group of educators and/or an educational context. **Semester Hours:** 1 to 4
ITED 5801 - Special Topics in Education
Semester Hours: 1 to 4

ITED 5802 - Special Topics in Education
Semester Hours: 1 to 4

ITED 5803 - Special Topics in Education
Semester Hours: 1 to 4

ITED 5804 - Special Topics in Education
Semester Hours: 1 to 4

ITED 5805 - Special Topics in Education
Semester Hours: 1 to 4

ITED 5840 - Independent Study
Semester Hours: 1 to 4
Language Literacy & Culture Courses (LALC)

LALC 5010 - ELA Foundations
The course is an introduction to the historical and legal foundations of bilingual and English as a second language education at the federal, state, and district levels. Course participants will examine the ways in which language education history at the Semester Hours: 1 to 1

LALC 5055 - Linking Assessment and Instruction in Language and Literacy, Part I
This is the first of a two-part sequence on linking assessment to curriculum and instruction. Focus is on both monolingual speakers of English and second language learners. Assessments include both oral and written language (reading and writing) as well a Semester Hours: 3 to 3

LALC 5060 - Linking Assessment and Instruction in Language and Literacy, Part II
This is the second of a two-part sequence on linking assessment to curriculum development and instruction. The focus is on both monolingual speakers of English and second language learners. Prereq: LALC 5030, 5055 and 5140. Semester Hours: 3 to 3

LALC 5100 - Theories and Methods of Second Language Teaching
Provides an overview of approaches to second language teaching. Emphasis is on development of a personal philosophy of second language teaching. Topics covered include first and second language acquisition, contributions of psychology and linguistics, and Semester Hours: 3 to 3

LALC 5724 - Colorado Writing Project I
Teachers will experience participating in writers' workshop, writing several pieces, taking them through revision and workshop groups. Teachers will also read, discuss, and respond to texts about teaching writing and preparing students to take state writ Semester Hours: 4 to 4

LALC 5726 - Colorado Writing Project II
Teachers will experience participating in writers' workshop, writing several pieces, taking them through revision and workshop groups. Teachers will also read, discuss, and respond to texts about teaching writing and preparing students to take state writ Semester Hours: 4 to 4

LALC 5728 - Colorado Writing Project III
Teachers will experience participating in writers' workshop, writing several pieces, taking them through revision and workshop groups. Teachers will also read, discuss, and respond to texts about teaching writing and preparing students to take state writ Semester Hours: 4 to 4
Latin Courses (LATN)

**LATN 1010 - Elementary Latin I**
Introduces grammar, syntax, and vocabulary of Classical Latin, with an emphasis on preparing students to read Latin while improving English grammar and vocabulary skills. Two semesters of Latin may be used to fulfill the CLAS language competency requirement. **Semester Hours:** 5 to 5

**LATN 1020 - Beginning Latin II**
Completes the presentation of basic Latin grammar, syntax and vocabulary. Introduces students to Latin literature through readings in select authors adapted to meet the needs of beginning students. Prereq: LATN 1010 or equivalent. **Semester Hours:** 5 to 5

**LATN 1050 - Vocabulary for Professionals**
Studies English words derived from Latin and Greek by analyzing their component parts (prefixes, stems, and suffixes). Cross-listed with ENGL 1050. **Semester Hours:** 3 to 3

**LATN 1100 - Building Vocabulary From Greek and Latin Words**
Students learn to decipher unfamiliar words by breaking them down to their Latin or Greek roots. Prereq: None. **Semester Hours:** 3 to 3

**LATN 2010 - Intermediate Latin I**
Introduces advanced Latin grammar, vocabulary, syntax, and stylistics of Latin prose via readings in Caesar, Cicero and Livy. Includes review of basic Latin grammar, plus introduction to Latin prose composition and Latin rhetoric. Emphasis on historical, cultural, social context of authors and works. Prereq: LATN 1020 or equivalent. **Semester Hours:** 3 to 3

**LATN 2020 - Intermediate Latin II**
(Continuation of LATN 2010.) Completes the presentation of advanced Latin grammar, vocabulary, syntax, and stylistics of Latin prose. Continues the study of Latin prose composition and Latin rhetoric with emphasis on historical, cultural, and social context of authors and works. Prereq: LATN 2010 or equivalent. **Semester Hours:** 3 to 3

**LATN 2840 - Independent Study**
**Semester Hours:** 1 to 3

**LATN 3000 - Medical Terminology**
The course enables students to understand medical terms by learning the Greek and Latin word elements that form these terms. **Semester Hours:** 3 to 3
Literacy, Language, & Culturally Respectful Teaching Courses (LCRT)

LCRT 1111 - Introduction to College Literacy for Migrant Populations
An introductory course designed to provide a college-level reading/writing and artistic experience for high school aged migrant student populations. Students are apprenticed in philosophic, social scientific and legal modes of reasoning and writing in con Semester Hours: 3 to 3

LCRT 5010 - Foundations of Language
Designed for veteran and novice teachers to gain an understanding of the broad fields of literacy and language education. Participants examine key educational philosophies based on the writings of important scholars in the field, on topics such as the po Semester Hours: 3 to 3

LCRT 5020 - Workshop in Literacy and Language Teaching
This course involves critical examination of reading process and instruction. Teachers develop an understanding of the principles of sociopsycholinguistic theory in learning and teaching. Organization options for reading instruction for native and non-nat Semester Hours: 3 to 3

LCRT 5028 - Adolescent Literacy, Part I
Focuses on supporting adolescents' developing literacy understandings across content areas in the upper elementary grades through high school. Importance is placed on putting new teaching practices in place. Attention is given to both reading and writing Semester Hours: 3 to 3

LCRT 5029 - Adolescent Literacy, Part II
The second in a sequence of courses focusing on adolescents’ developing literacy understandings across content areas in upper elementary grades through high school. Attention is given to comprehension and critical thinking including revision and editing s Semester Hours: 3 to 3

LCRT 5050 - Linguistic and Cultural Issues in Linking Assessment and Instruction
This course provides general orientation to the assessment of linguistically and culturally diverse students. Focus is on using assessment to guide and instruction and includes examination of assessment of oral and written language, attitude and classroom Semester Hours: 3 to 3

LCRT 5055 - Linking Assessment and Instruction in Language and Literacy
Focus is on both monolingual speakers of English and second language learners. Assessments include both oral and written language (reading and writing) as well as attitudinal measures and classroom arrangements. Semester Hours: 3 to 3

LCRT 5080 - Teachers as Readers and Writers
Teachers engage in experiences designed to expand and improve their own literacy interests, abilities, and attitudes. Literacy experiences include readers' workshop, writers' workshop, literature studies, and authors' circles. In addition, teachers reflec Semester Hours: 3 to 3

LCRT 5140 - Multicultural Education
Develops an understanding of the pluralistic nature of U.S. society and the role of the school within this social context. Examines the legal and cultural history of language education in Colorado and the U.S. as well as the impact of changing demographi Semester Hours: 3 to 3
LCRT 5150 - Culture of the Classroom
Provides a classroom-focused examination on linguistic and cultural diversity. The legal history of language and literacy education in the U.S., Colorado, and local school districts is studied with a focus on implications for instructional practice. Par Semester Hours: 3 to 3

LCRT 5200 - Theory and Methods of English Education
Focuses on teaching/learning theories and practical classroom strategies for teaching English Language Arts to adolescent learners in middle school, junior high school, and high school classes. Cross-listed with UEDU 4200 and 5200. Semester Hours: 3 to 3

LCRT 5201 - Adolescent Literature
Reading and evaluating fiction and non-fiction appropriate for students in middle and senior high school. Emphasis is on modern literature written for students from a variety of ethnic backgrounds. This course is also appropriate for teachers working with Semester Hours: 3 to 3

LCRT 5210 - Literacy Development Pre K-3rd Grade
Focuses on children's developing literacy understandings and proficiencies beginning in the preschool years. Attention is given to language development, assessment, and instruction in pre-kindergarten through third grade, partnerships with community liter Semester Hours: 3 to 3

LCRT 5220 - Literacy Routines and Assessment, Pre K-3rd Grade
This course will focus on the routines and practices which allow for student specific instruction and assessment in the Early Literacy classroom. Participants will examine and critique current literacy routines and assessments needed to best meet the need Semester Hours: 3 to 3

LCRT 5230 - Early Literacy Instruction
Participants will examine Pre K-3rd grade literacy instruction to understand how to meet the needs of young students. The course will analyze instructional practices for young gifted, special needs and English language learning students to best meet the n Semester Hours: 3 to 3

LCRT 5700 - Language and Literacy Portfolios: Development, Reflection and Empowerment
In this course, teachers learn: (1) to compile and assess student portfolios to inform instruction and communicate progress, and (2) to experience developing personal portfolios with particular focus on self-reflection and empowerment over the course of t Semester Hours: 3 to 3

LCRT 5710 - Primary Literacy: Pre-3rd Grade
Provides teachers with a basic understanding of reading and writing development in preschool and early primary grades. Specific strategies are considered for using and teaching reading and writing in early primary grades. Semester Hours: 3 to 3

LCRT 5720 - Writing: Process, Development, and Teaching Grades 3-12
This course presents current theories of writing development as they relate to classroom practices. Participants in the course will use these theories to help analyze the writings of students in real classrooms. Understanding of the theories will also be Semester Hours: 3 to 3

LCRT 5730 - Language and Literacy Across the Curriculum
Explores the value and use of reading and writing as tools for learning across the curriculum on a K-12 basis. Specific needs and strategies for assisting at-risk and second language learners are also discussed. Semester Hours: 3 to 3
LCRT 5750 - Children's Literature in Spanish
Taught in Spanish, this course presents children's literature from Spanish speaking countries and Spanish speaking authors, along with teaching methodologies and avenues of further research in the field. Prereq: senior-level proficiency in Spanish. **Semester Hours:** 3 to 3

LCRT 5770 - Effective Literacy Instruction for Second Language Learners
Students explore and critique various methods and strategies for teaching reading and writing to non-native English speakers. Students acquire a foundation in written language acquisition for both first and second language learners. **Semester Hours:** 3 to 3

LCRT 5780 - Connecting Cultures Through Literature
This course looks at the issue of multicultural literacy for K-8th grade and how children's and young adult literature can be used to create a high quality multicultural curriculum which enhances literacy development and covers all the content areas. **Semester Hours:** 3 to 3

LCRT 5790 - Children's Literature Through the Ages
A basic children's literature course which looks at the historical development of children's literature. This course also looks at various genre in children's literature, how to critique and choose literature for instruction and children's literature aware **Semester Hours:** 3 to 3

LCRT 5795 - Current Children's Literature
The focus of this course is on children's literature from the past 10 years, including established and newer authors and illustrators. Various genres will be covered, as participants learn to critique children's literature and how to choose books for inst **Semester Hours:** 3 to 3

LCRT 5800 - Sociolinguistics: Language Variation and its Implications for Teaching
Provides an introduction to the field of educational sociolinguistics and research of classroom discourse. Students are introduced to the collection and analysis of oral and written language in educational contexts. Basic concepts and key issues regarding **Semester Hours:** 3 to 3

LCRT 5810 - Wksp: Lang Acq & Development
Provides students with an opportunity to examine current research on language acquisition and development, and to apply their knowledge to the learners in their teaching situation. The course focuses on language development and use in educational settings **Semester Hours:** 3 to 3

LCRT 5830 - Wrkshp-Multicultural EDU
Provides students with the experiences in multicultural methodology training. How to utilize community members, para-professionals, and peers to facilitate learning in a multicultural environment. **Semester Hours:** 3 to 3

LCRT 5831 - Reading Recovery: Observation Survey
A workshop class which introduces the participants to an understanding of literacy acquisition and prepares them to implement the Reading Recovery Program within their school or district. Prereq: reading and language arts methods. A minimum of three years **Semester Hours:** 2 to 2

LCRT 5835 - Special Topics: Literacy and Language
Specific topics vary but will include the exploration of literacy development and instruction in particular populations or with specific focuses. **Semester Hours:** 0.5 to 3
LCRT 5840 - Independent Study: LCRT
Semester Hours: 1 to 4

LCRT 5911 - Reading Recovery Practicum: Early Intervention (Theory, Procedures and Practice)
A field experience which extends the participants' understanding of literacy acquisition and prepares them to implement the Reading Recovery Program within their school or district. Prereq: LALC 5831.
Semester Hours: 3 to 3

LCRT 5920 - Readings in Multicultural
Provides students with an opportunity to examine the current literature as it relates to trends in contemporary issues in the area of multicultural education. Semester Hours: 3 to 3

LCRT 5925 - Selected Readings: Advanced Study in Literacy and Language
Prereq: written permission of instructor. Semester Hours: 1 to 3

LCRT 6090 - Research Seminar
An advanced course which focuses on specific issues in language, language acquisition and language teaching. Semester Hours: 3 to 3

LCRT 6713 - Intro To Language Policy
This course examines the legal, ideological, and historic foundations of language policies. The course also review connections with related topics such as language rights, language and power, and issues from the sociology of language such as language loyalty. Semester Hours: 3 to 3

LCRT 6840 - Independent Study: LCRT
Semester Hours: 1 to 4

LCRT 6910 - Seminar and Practicum in Literacy and Language, K-6
Provides opportunities for advanced students in the M.A. program to apply concepts acquired in course work and other educational experiences to specific situations. Students will work in schools, classrooms, administrative offices, or community centers (a Semester Hours: 3 to 3

LCRT 6911 - Seminar and Practicum in Literacy and Language, 7-12+
Provides opportunities for advanced students in the M.A. program to apply concepts acquired in course work and other educational experiences to specific situations. Students will work in schools, classrooms, administrative offices, or community centers (a Semester Hours: 3 to 3

LCRT 6913 - Reading Recovery: Practicum
A practicum which refines the participants' understanding of literacy acquisition and finalizes preparation to implement the Reading Recovery Program within their school/district. Prereq: LALC 5831 and 5911. Reading and language arts methods. A minimum of three years primary teaching or reading teaching experience. Semester Hours: 4 to 4

LCRT 6915 - Seminar and Practicum in Literacy Professional Development
This final practicum is designed for teachers to enhance their education as reading professionals in two ways. First, by continuing to reflect on and analyze their own teaching, participants will deepen their understanding of how to assess and design instruction. Semester Hours: 3 to 3
LCRT 6950 - Master's Thesis

Semester Hours: 4 to 4
Landscape Architecture Courses (LDAR)

LDAR 5501 - Landscape Architecture Design Studio 1
Introduction to basic strategies, methods and techniques of landscape architectural design with emphasis in theory, history, analysis and criticism. First in a three studio course sequence. Semester Hours: 6 to 6

LDAR 5502 - Landscape Architecture Design Studio 2
Strategies, methods and techniques of landscape architectural design with emphasis in more complex issues, design processes and development and the application of theory and research. Second in a three studio course sequence. Prereq: LDAR 5501 or permission of department chair. Semester Hours: 6 to 6

LDAR 5503 - Landscape Architecture Design Studio 3
Problem-based studio covering the approaches, technologies and means for planning and designing sites to accommodate an intensive development program on a particular site within a regional context. Covers issues definition, site analysis, programming, development of design strategies, evaluation site planning, placemaking, regionalism and communication. Prereq: LDAR 5501 and LDAR 5502 or permission of department chair. Semester Hours: 6 to 6

LDAR 5510 - Graphic Media in Landscape Architecture
Introduces basic principles and methods associated with analog and digital drawing-plan, sections, perspectives, color, shading, composition and projection. Semester Hours: 3 to 3

LDAR 5521 - History of Landscape Architecture
Investigates architectural thought from antiquity to the present. Begins with a review of Greek ideals and proceeds -- through an appreciation of landscape and nature as essential cultural constituents -- with a survey of major themes such as Renaissance Humanism, Enlightenment, Rationalism, Romantic Historicism, Neo-Medievalism, the varieties of Modernism, Neo-Eclecticism and the most recent directions in landscape and garden design. Semester Hours: 3 to 3

LDAR 5532 - Landform Manipulation
Focuses on the fundamental technical aspects of landscape architectural design and implementation of related topography, grading and drainage design, landform manipulation, earthwork calculations, and road alignment. Note: course is to be taken with LDAR 6641, Computer Applications in Landscape Architecture. Semester Hours: 3 to 3

LDAR 5572 - Landscape Ecology
Focuses on the study of physiography, cultural factors, and aesthetic criteria in relation to landscape, spatial organization, and urban and regional structure. Emphasizes continuity and change in an ecology of both natural and man-made landscape. Semester Hours: 3 to 3

LDAR 5573 - Applied Advanced Landscape Ecology Workshop
Issues of sustainability and designing or planning at multiple and temporal scales (watershed, regional, site) provides basis for advanced studies in ecological-based design, planning, and restoration to accomplish project goals with minimal ecological impact. Prereq: LDAR 5572. Semester Hours: 3 to 3

LDAR 6520 - Landscape Architecture in Other Cultures
Various studies of landscape architecture and urbanism in foreign countries. Semester Hours: 1 to 9
LDAR 6604 - Landscape Architecture Design Studio 4
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the first in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503 or permission of department chair. **Semester Hours:** 3 to 3

LDAR 6605 - Landscape Architecture Design Studio 5
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the second in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503, 6604 or permission of department chair. **Semester Hours:** 3 to 3

LDAR 6606 - Landscape Architecture Design Studio 6
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the first in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503, 6604, 6605 or permission of department chair. **Semester Hours:** 6 to 6

LDAR 6607 - Landscape Architecture Design Studio 7
Advanced landscape architecture design studio covering situations of urbanization and change of various scales and complexities. This is the second in a two studio course sequence. Prereq: LDAR 5501, 5502, 5503, 6604, 6605, 6606 or permission of department chair. **Semester Hours:** 3 to 3

LDAR 6608 - Landscape Architecture Design Studio 8
Advanced design studio that reflects topical situations in landscape architectural practice and/or applied research interests of instructor. This is the first in a two studio sequence. Prereq: LDAR 5501, 5502, 5503, 6604, 6605, 6606, 6607 or permission of department chair. **Semester Hours:** 3 to 3

LDAR 6620 - Landscape Architecture Theory and Criticism
Focuses on exploring and assessing current state of theory in landscape architecture and related design disciplines and the ideas undergoing contemporary design approaches. Narrative and explanatory theories are the objects of study. Emphasis is placed on history and pedagogic theories and their theories and relationships to other disciplines such as art, ecology, geography, architecture and anthropology. **Semester Hours:** 3 to 3

LDAR 6622 - Visual Quality Analysis
Introduces a range of philosophies, methods, and techniques in visual landscape analysis. Emphasis is placed on application of methods and techniques, urban and regional context and scale, as well as visual impact assessment and simulation. **Semester Hours:** 3 to 3

LDAR 6624 - The Built Environment in Other Cultures I: Research Design
Intends to broaden students' perspectives by asking them to examine design within another culture. Students prepare a proposal of study including a statement of the problem to be addressed, the type of field research to be undertaken, and the nature of the report to be produced. Cross-listed with ARCH 6624. **Semester Hours:** 3 to 3

LDAR 6625 - Landscape Architecture Field Studies
Critical field evaluation of built works of landscape architecture including field measurement, mappings, sketches, photography, written evaluations and applied projects. **Semester Hours:** 3 to 3
LDAR 6631 - Landscape Construction Materials and Methods
Develops understanding of detailed design processes, construction materials and selection of construction methods and documents. Typically taken with LDAR 6605 and 6606 (LDAR Design Studios 5 and 6). **Semester Hours:** 3 to 3

LDAR 6632 - Site Planning - Environment and Society
Sites are relationships within environmental and social settings. Therefore a design approach should be primarily ethical, secondarily technical. This course examines the implications of site through landscape and planning methodologies, the conceptual c **Semester Hours:** 3 to 3

LDAR 6641 - Computer Applications in Landscape Architecture
Introduces digital technologies and methods commonly used in Landscape Architecture including primarily CADD, visualization, simulation, graphic design, GIS and other emerging applications. Includes hands-on exercises. **Semester Hours:** 3 to 3

LDAR 6642 - Landscape Architecture Digital Design Workshop
Introduces surveys, and provides hands-on experiences in the disciplines, principles, software, and theories for engaging digital design in landscape architectural practice and research. Prereq: LDAR 6641. **Semester Hours:** 3 to 3

LDAR 6670 - Plants in Design
Focuses on the study of design methods used in landscape architecture. Formal design principles, spatial sequencing, and plant functions are applied in design studies, based on botanical aesthetic traits and physical requirements of a wide variety of plant material. **Semester Hours:** 3 to 3

LDAR 6671 - Plant Material Identification
Students learn the names, characteristics and site requirements of plants including trees, shrubs, ground covers and perennials commonly used in built works in the Colorado region. Methods are transferable to other regions. **Semester Hours:** 3 to 3

LDAR 6686 - Special Topics: Landscape Architecture
Various topical concerns are offered in landscape architecture history, theory, elements, concepts, methods, implementation strategies, and other related areas. **Semester Hours:** 3 to 3

LDAR 6710 - Landscape Representation
Focuses on developing understanding of various advanced analog and digital techniques for application in landscape analysis and design. Prereq: LDAR 5510. **Semester Hours:** 3 to 3

LDAR 6711 - Advanced Landscape Architectural Graphics Workshop
Focuses on developing expertise in various drawing, reprographics, digital, and photographic techniques used in practice for enhanced effectiveness in graphic communication. Prereq: LDAR 5510. **Semester Hours:** 3 to 3

LDAR 6712 - Green Roofs/Living Systems
The primary objective for this seminar is to give students a general understanding of green roof systems, vegetated roofs above underground architecture and vertical vegetated systems. The seminar will engage in critiques and discussions using international, national and local case studies, covering history, typologies, function, design, master planning and costs. **Semester Hours:** 3 to 3
LDAR 6720 - Finding Common Ground
Focuses on principles and societal variables that influence the structure of urban neighborhood space through research application. Prereq: LDAR 6640. **Semester Hours:** 3 to 3

LDAR 6721 - Regionalism
Explores environmental and cultural factors that shape regionally responsive design. Prereq: LDAR 5521 and 6620 or permission of instructor. **Semester Hours:** 3 to 3

LDAR 6722 - Contested Terrains
Explores the different processes, factors and forces and determines and influences occupation, land use and built form through the phenomena of conflict and contestation. Design is inherently located within the disputes and discourses involving landscape as location and resource. **Semester Hours:** 3 to 3

LDAR 6723 - Cinema and the Landscape
Explores landscapes in conjunction with cinema, examining the processes, images, stereotypes, and myths associated with the historical development of film and the creation of film theory within a context of space, race and representation. Interconnects film theory and criticism and landscape architecture, through the creation of short digital essays that examine the complexity of issues related to spatial meaning. **Semester Hours:** 3 to 3

LDAR 6724 - American Landscape Arch
Introduces the origins, theories and practitioners of landscape architecture in the United States from the founding of the ASLA in 1899 through the present. This period drew from many realms, including the arts, land ethics, political ideologies, and social agendas. The material covered offers a base for understanding trends and ideas embedded within or underpinning the contemporary American landscape. Prereq: LDAR 5521 **Semester Hours:** 3 to 3

LDAR 6725 - Design Communications
In this seminar students will learn research and writing skills to produce articles in clear, readable, and substantial prose, from academic criticism to general interest reviews; writing forms and styles, including essays, reports, award applications and writing for oral presentation; and editing basics. Prereq: History and/or theory of landscape architecture or architecture. **Semester Hours:** 3 to 3

LDAR 6730 - International Studies Preparation
The course will prepare students to go to China, for 10-day International Summer School, 5-week China Summer Urban Design Joint Studio, 9-month Gensler Internship, and 1-year LA Dual Degree program. Topics include historic, geographic and cultural issues, and language lessons. Cross-listed with ARCH 6730, URBN 6730, and URPL 6730. **Semester Hours:** 1 to 3

LDAR 6750 - Professional Practice
Focuses on studies in the professional practice of landscape architecture and related professions and case problems in initiating and managing a professional practice. Explores the essential elements of professional practice and equips students with the fundamental knowledge and skills requisite to an understanding of and participation in the conduct of practice in landscape architecture. Covers organization of the landscape office, professional services of landscape architects, fee structures and fee management, contracts, legal rights and responsibilities, management, marketing, and delivery of professional services. **Semester Hours:** 3 to 3
**LDAR 6840 - Independent Study**
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to landscape architecture or urban design. Prereq: Permission of instructor. **Semester Hours:** 1 to 3

**LDAR 6910 - Teaching Assistantship**
Work with a faculty member in a course to assist with course preparation and delivery. Prereq: Permission of program chair and instructor. **Semester Hours:** 3 to 3

**LDAR 6930 - Landscape Architecture Internship**
Designed to provide professional practice experience. The student is placed in a landscape architectural and/or design office by the College and receive credit instead of pay. Must complete the second-year level before taking this course. **Semester Hours:** 3 to 3

**LDAR 6949 - Research Tools & Methods**
Introduces the thesis in landscape architecture and establishes the scholarly basis for the research and construction of a Master's Thesis project. This course will provide the student with the research practices and methodologies to develop the scholarship and products required to produce a Thesis Project Proposal. Completion of this course is a prerequisite for the student to submit the Thesis Proposal for departmental approval to continue with the remaining 9 credits of thesis to be undertaken in their final semester in the program. Cross-listed with ARCH 6473. **Semester Hours:** 3 to 3

**LDAR 6950 - Thesis Research**
The student works closely with a landscape architecture faculty advisor and thesis committee to develop the thesis proposal through focused research. Research might entail both written and graphic inquiry leading to specific products with conclusive ideas that set the stage for the completion of the thesis in the following semester. Part of the Landscape Architecture Thesis sequence. Prereq: LDAR 6949 and permission of department chair. **Semester Hours:** 3 to 3

**LDAR 6951 - Landscape Architecture Thesis**
The Landscape Architecture thesis is expected to advance the field of landscape architecture by offering new insights into aspects of design, technology, history or professional principles. In this course, the student continues to work independently, but closely with a landscape architecture faculty advisor and thesis committee to complete the thesis. The thesis might take on different final forms (written volume, drawings, maps, digital images), depending on the subject inquiry. For further information on the Landscape Architecture Thesis Track consult the Landscape Architecture Thesis Guidelines. Prereq: LDAR 6949 and 6950. **Semester Hours:** 6 to 6
Mathematics Courses (MATH)

MATH 1009 - Computer-Based Algebraic Problem Solving
A laboratory-based problem solving course focused on personal computing applications. Topics include general problem solving techniques, deductive reasoning, elementary probability, computer algebraic software, optimization, graphical analysis, systems of equations, spreadsheets, functions, descriptive statistics, linear programming and elementary programming logic. Prereq: basic high school algebra and some familiarity with Microsoft Windows. Semester Hours: 3 to 3

MATH 1010 - Mathematics for the Liberal Arts
Designed to give liberal arts students the skills required to understand and interpret quantitative information that they encounter in the news and in their studies, and to make quantitatively-based decisions in their lives. Topics include a survey of logic and analysis of arguments, identifying fallacies in reasoning, working with numbers and units, linear and exponential relations and essentials of probability and statistics. The emphasis is on applications with case studies in economics, finance, environmental sciences, health, music and science. Prereq: three years of high school mathematics. Semester Hours: 3 to 3

MATH 1070 - Algebra for Social Sciences and Business
Topics in algebra designed for students who intend to take business calculus. Functions, graphs, scatter plots, curve-fitting, solving systems of equations, polynomial and rational functions, and selected other topics. Note: Graphics calculator required. No co-credit with MATH 1110 or MATH 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. Semester Hours: 3 to 3

MATH 1080 - Polynomial Calculus
A one-semester course in single-variable calculus. Topics include limits, derivatives, differentiation rules, integration and integration rules. Emphasis is on applications to business and social sciences. Note: No knowledge of trigonometry is required. Semester Hours: 3 to 3

MATH 1110 - College Algebra
Topics in algebra designed for students who intend to take the calculus sequence. Functions, domains, ranges, graphs, data scatter plots and curve fitting, solving equations and systems of equations, polynomial functions, rational functions, and selected other topics. Graphic calculators and/or computer algebra systems are used extensively. Applications are emphasized. Note: No co-credit with either MATH 1070 or 1130. Prereq: intermediate algebra and satisfactory score on the placement exam. Semester Hours: 3 to 3

MATH 1111 - Freshman Seminar
Semester Hours: 1 to 3

MATH 1120 - College Trigonometry
Topics in trigonometry, analytic geometry, and elementary functions designed for students who intend to take the calculus sequence. Angles and trigonometry functions of acute angles, analytic trigonometry, fundamental trigonometric functions and identities including hyperbolic trigonometry, parametric equations, and polar coordinate system. Graphic calculators and/or computer algebra systems are used extensively. Applications are emphasized. Prereq: MATH 1110 and placement test. No joint credit with MATH 1130. Semester Hours: 3 to 3
MATH 1130 - Precalculus Mathematics
Condensed treatment of the topics in MATH 1110 and 1120. Prereq: satisfactory score on the placement exam. No co-credit with MATH 1070, 1110 or 1120. **Semester Hours:** 4 to 4

MATH 1401 - Calculus I
First course of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include limits, derivatives, applications of derivatives, and the definite integral. Note: No co-credit with MATH 1080. Prereq: MATH 1120 or 1130 and satisfactory score on the placement exam. **Semester Hours:** 4 to 4

MATH 1840 - Independent Study.
**Semester Hours:** 1 to 3

MATH 2411 - Calculus II
The second of a three-semester sequence (MATH 1401, 2411, 2421) in calculus. Topics covered include exponential, logarithmic, and trigonometric functions, techniques of integration, indeterminate forms, improper integrals and infinite series. Prereq: MATH 1401. **Semester Hours:** 4 to 4

MATH 2421 - Calculus III
The third of a three-semester sequence in Calculus (MATH 1401, 2411 and 2421). Topics include vectors, vector-valued functions, partial differentiation, differentiation, multiple integration, and vector calculus. Prereq: MATH 2411. **Semester Hours:** 4 to 4

MATH 2511 - Discrete Structures
Covers the fundamentals of discrete mathematics, including: logic, sets, functions, growth of functions, algorithms, matrices, mathematical reasoning, proofs, induction, relations, graphs, trees and combinatorics. There is an emphasis on how discrete mathematics applies to computer science in general, and algorithm analysis in particular. Prereq: CSCI 2421. Cross-listed with CSCI 2511. **Semester Hours:** 3 to 3

MATH 2810 - Topics
Topics in mathematics with various subtitles reflecting course content. Prereq: permission of instructor. **Semester Hours:** 1 to 3

MATH 2830 - Introductory Statistics
Basic statistical concepts, summarizing data, probability concepts, distributions, confidence intervals, hypothesis testing. Prereq: intermediate algebra. **Semester Hours:** 3 to 3

MATH 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

MATH 3000 - Introduction to Abstract Mathematics
Students learn to prove and critique proofs of theorems by studying elementary topics in abstract mathematics, including logic, sets, functions, equivalence relations and elementary combinatorics. Prereq: MATH 2411. **Semester Hours:** 3 to 3

MATH 3040 - Mathematics for Elementary Teachers
Topics include intuitive and logical development of geometric ideas relevant to K-6 curriculum; measurement of length, area, volume, mass, angle, temperature, time and the metric system. Further
study of the rational number system, probability and statistics, applications and problem solving. Note:
Carries credit only for elementary education majors. Prereq: 3 years of high school mathematics. Cross-
listed with ELED 5400. Semester Hours: 3 to 3

MATH 3191 - Applied Linear Algebra
Topics include systems of equations, Gaussian elimination with partial pivoting, LU--decomposition of
matrices, matrix algebra, determinants, vector spaces, linear transformations, eigen values and
applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411. Semester Hours: 3 to 3

MATH 3195 - Linear Algebra and Differential Equations
Presents the essential ideas and methods of linear algebra and differential equations, emphasizing the
connections between and the applications of both subjects. The course is designed for students in the
sciences and engineering. Note: No co-credit with MATH 3200 and MATH 3191. Prereq: MATH 2411.
Semester Hours: 4 to 4

MATH 3200 - Elementary Differential Equations
First and second order differential equations, Laplace transforms, systems of equations, with an emphasis
on modeling and applications. Note: No co-credit with MATH 3195. Prereq: MATH 2411; coreq is MATH
3191. Semester Hours: 3 to 3

MATH 3210 - Higher Geometry I
Studies the foundations of modern geometry by examining axiomatic systems for various geometries, with
an emphasis on non-Euclidean hyperbolic geometry. Prereq: MATH 3000. Cross-listed with MCKE 5210.
Semester Hours: 3 to 3

MATH 3250 - Problem Solving Tools
Students learn and refine both problem solving techniques and computer programming skills. Examples,
exercises, and projects are taken from a wide range of mathematical topics including algebra, calculus,
linear algebra and probability. Note: This course will not count toward a graduate degree in applied
mathematics. Prereq: MATH 2411. Coreq: either MATH 3191 or MATH 3195. Cross-listed with MATH
5250. Semester Hours: 3 to 3 When Offered: SPRING

MATH 3301 - Introduction to Operations Research I - Deterministic Systems
A mathematical approach to decision making based on optimization. Topics include linear programming,
network flows and production models. Prereq: MATH 3191 or 3195. Semester Hours: 3 to 3

MATH 3302 - Operations Research II
Elementary stochastic processes and standard nondeterministic operations research models: Markov
chains, Poisson processes, renewal processes, queuing theory, inventory models, Markov decision
processes, simulation. Prereq: MATH 3191 and 3800. Semester Hours: 3 to 3

MATH 3440 - Introduction to Symbolic Logic
Covers truth functional and quantificational logic through polyadic first order predicate calculus and
theory of identity. Attention is given to such problems in metatheory as proofs of the completeness and
consistency of systems of logic. Prereq: MATH 3000. Cross-listed with PHIL 3440. Semester Hours: 3
to 3 When Offered: SPRING

MATH 3511 - Mathematics of Chemistry
Multivariate functions, probability and statistics for chemistry, matrices and vectors, mathematics of
reaction kinetics and symmetry point groups. Course covers mathematics needed for CHEM 4511 and
4521. Can also be an elective for the mathematics minor. Prereq: MATH 2411, CHEM 2031, CHEM 2061. **Semester Hours:** 4 to 4 **When Offered:** FALL

**MATH 3800 - Probability and Statistics for Engineers**
Basic probability theory, discrete and continuous random variables, point and interval estimation, test of hypotheses, one-way analysis of variance, and simple linear regression. Note: no co-credit with MATH 4810. Prereq: MATH 2411; coreq: MATH 2421. **Semester Hours:** 3 to 3

**MATH 3939 - Internship**
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

**MATH 4010 - History of Mathematics**
A history of the development of mathematical techniques and ideas from early civilization to the present, including the inter-relationships of mathematics and sciences. Prereq: MATH 1401. Cross-listed with MATH 5010. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**MATH 4012 - An Advanced Perspective on Number and Operation**
Advanced study of number and operation, including why the various procedures from arithmetic work and connections to algebraic reasoning. Focuses on using rigorous mathematical reasoning and multiple representations to explain concepts. Note: For undergraduate majors, this course only counts toward the mathematics education option. Prereq: MATH 3000 or permission of instructor. Cross-listed with MATH 5012. **Semester Hours:** 2 to 2

**MATH 4013 - An Inquiry-based Approach to Geometry**
An inquiry-based approach to middle-level and Euclidean geometry. Topics include: polygons and the angle relationships, constructions, Pythagorean theorem and perimeter, area and volume, similarity and congruence, circles. Note: For undergraduate majors, this course only counts toward the mathematics education option. Prereq: MATH 3000 or permission of instructor. Cross-listed with MATH 5013. **Semester Hours:** 1 to 1

**MATH 4014 - Statistical Knowledge for Teaching**
A problem-based statistics seminar aimed at secondary teachers. Topics include: the central limit theorem, the law of large numbers, probability, measures of central tendency and variability, sampling distributions, regression, and hypothesis testing. Note: For undergraduate majors, this course only counts toward the mathematics education option. Prereq: MATH 3800 or permission of instructor. Cross-listed with MATH 5014. **Semester Hours:** 1 to 1

**MATH 4015 - Capstone Course for Secondary Teachers**
High school mathematics from an advanced perspective: analyses of alternative definitions, extensions and generalizations of familiar theorems; discussions of historical contexts in which concepts arose; applications of mathematics. Note: For undergraduate majors, this course only counts toward the mathematics education option. Prereq: MATH 3210, MATH 4310, MATH 3140 or permission of instructor. Cross-listed with MATH 5015. **Semester Hours:** 3 to 3

**MATH 4027 - Topics in Mathematics**
Special topics in mathematics will be covered; consult 'Schedule Planner' for current topics and prerequisites. **Semester Hours:** 3 to 3
MATH 4101 - Applied Statistics Using SAS and SPSS I
Teaches the practical statistical tools social scientists use to analyze real-world problems. Course split into four modules, each taught by a different instructor. The first module introduces SAS and SPSS; modules 2-4 are problem-based and cover topics such as ANOVA, multivariate regression, and cluster analysis. Prereq: any statistics course. **Semester Hours:** 3 to 3

MATH 4102 - Applied Statistics Using SAS and SPSS II
(Continuation of MATH 4101.) Students use the skills they learned in the previous semester to analyze a social issue of their choosing and present their findings. In addition to lectures, weekly one-on-one meetings between faculty and student are required. Prereq: MATH 4101. **Semester Hours:** 3 to 3

MATH 4110 - Theory of Numbers
Every other year. Topics include divisibility, prime numbers, congruencies, number theoretic functions, quadratic reciprocity, and special diophantine equations, with applications in engineering. Prereq: MATH 3000. Cross-listed with MATH 5110. **Semester Hours:** 3 to 3

MATH 4140 - Introduction to Modern Algebra
Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields and polynomials. Prereq: MATH 3000 and either MATH 3191 or MATH 3195. Cross-listed with MCKE 5140. **Semester Hours:** 3 to 3

MATH 4201 - Topology
Metric spaces and topological spaces, compactness, separation properties, and connectedness. Prereq: MATH 3000. **Semester Hours:** 3 to 3

MATH 4220 - Higher Geometry II
Studies affine and projective geometries. Coordinates are introduced in this framework. Planes and higher dimensional spaces are examined. Prereq: MATH 3191. **Semester Hours:** 3 to 3

MATH 4310 - Introduction to Real Analysis I
Calculus of one variable, the real number system, continuity, differentiation, integration theory, sequence and series. Prereq: MATH 2421 and 3000. Cross-listed with MCKE 5310. **Semester Hours:** 3 to 3

MATH 4320 - Introduction to Real Analysis II
Convergence, uniform convergence; Taylor's theorem; calculus of several variables including continuity, differentiation and integration; Picard's theorem in ordinary differential equations and Fourier series. Prereq: MATH 4310. **Semester Hours:** 3 to 3

MATH 4387 - Regression Analysis, Modeling and Time Series
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering, behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 5387. **Semester Hours:** 3 to 3

MATH 4390 - Game Theory
Begins with an introduction to the mathematical theory of games and the definition of a solution, including extensive and normal forms of representation. The fundamental minimax theorem is presented first as the foundation for two-person matrix games, then extended with fixed point theory to other
games. Principles of dominance and solution methods are presented, plus applications to economics,
political science, engineering, and other fields. An introduction to n-person game theory is included, with
basic terms and concepts. Prereq: MATH 2421, 3191 and 3800/4810. Cross-listed with MATH 5390.

**Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

**MATH 4394 - Experimental Designs**
Infrequent. Completely randomized block designs factorial and fractional factorial experiments, balanced
incomplete block designs, responses surface methods. Prereq: MATH 4387. Cross-listed with MATH
5394. **Semester Hours:** 3 to 3

**MATH 4408 - Applied Graph Theory**
Introduces discrete structures and applications of graph theory to computer science, engineering,
operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and
Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows.
Prereq: CSCI/MATH 2511 or MATH 3000. Cross-listed with CSCI 4408 and MCKE 5408. **Semester
Hours:** 3 to 3

**MATH 4409 - Applied Combinatorics**
Every other year. Major emphasis is on applied combinatorics and combinatorial algorithms, with
applications in computer science and operations. Topics include general counting methods, generating
functions, recurrence relations, inclusion-exclusion, and block designs. Prereq: MATH 3000. Cross-listed
with MCKE 5409. **Semester Hours:** 3 to 3

**MATH 4450 - Complex Variables**
Infrequent. Topics include complex algebra, Cauchy-Riemann equations, Laurent expansions, theory of
residues, complex integration, and introduction to conformal mapping. Prereq: MATH 2421 and MATH
3000. **Semester Hours:** 3 to 3

**MATH 4576 - Mathematical Foundations of Artificial Intelligence I**
Infrequent. Fundamentals course that complements other approaches, such as in engineering,
psychology, and business administration. Here, the emphasis is on the mathematical foundations. Topics
include logical inference, problem solving, heuristic search, neural search, neural nets, analogical
reasoning and learning. Models and paradigms also consider different measures of uncertainty. Prereq:
CSCI 2511, MATH 2511/3000 and 3191. Cross-listed with MATH 5576. **Semester Hours:** 3 to 3

**MATH 4590 - Applied Math Senior Sem**
**Semester Hours:** 1 to 1

**MATH 4650 - Numerical Analysis I**
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer.
Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, 3191 or
3195, and programming experience. Cross-listed with CSCI 4650, 5660, and MATH 5660. **Semester
Hours:** 3 to 3

**MATH 4660 - Numerical Analysis II**
Numerical differentiation and integration, numerical solution of ordinary differential equations, and
numerical solutions of partial differential equations as time allows. Prereq: MATH 3195 or both 3191 and
3200; MATH or CSCI 4650 or 5660; or programming experience. Cross-listed with MATH 5661, CSCI
4660 and 5661. **Semester Hours:** 3 to 3 **When Offered:** FALL SUM
MATH 4674 - Parallel Computing and Architectures
Infrequent. Examines a range of topics involved in using parallel operations to improve computational performance. Parallel architectures, parallel algorithms, parallel programming languages, interconnection networks, and their relation to specific computer architectures. Prereq: MATH 4650. Cross-listed with MATH 5674. Semester Hours: 3 to 3

MATH 4733 - Partial Differential Equations
Infrequent. Initial/Boundary value problems for first-order, wave, heat and Laplace Equations; maximum principles; Fourier Series and applications. Prereq: MATH 2421 and 3200. Cross-listed with MATH 5733. Semester Hours: 3 to 3

MATH 4779 - Math Clinic
The clinic is intended to illustrate the applicability and utility of mathematical concepts. Research problems investigated originate from a variety of sources--industry, government agencies, educational institutions, or nonprofit organizations. Prereq: consult Schedule Planner or instructor. Cross-listed with MATH 5779. Semester Hours: 3 to 3

MATH 4788 - Bioinformatics
Provides a broad exposure to the basic concepts and methodologies of bioinformatics and their application to analyzing genomic and proteomic data. Topics may include dynamic programming algorithms, graph theoretic techniques, hidden Markov models, phylogenetic trees, RNA/protein structure prediction and microarray analysis. Prereq: CSCI 1410 and MATH 3191 or 3195. Cross-listed with CSCI 4788, PHYS 4788. Semester Hours: 3 to 3

MATH 4791 - Continuous Modeling
Every other year. Surveys mathematical problems that arise in natural sciences and engineering. Topics may include population models, epidemic models, mechanics, heat transfer and diffusion, tomography, pharmaco-kinetics, traffic flow, fractal models, wave phenomena, and natural resource management. Most models discussed are based on differential and integral equations. Emphasis is formulation and validation of models as well as methods of solution. Prereq: MATH 3191 and 3200. Cross-listed with MATH 5791. Semester Hours: 3 to 3

MATH 4792 - Probabilistic Modeling
Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810, 5310 and some programming experience. Cross-listed with MATH 5792. Semester Hours: 3 to 3

MATH 4793 - Discrete Math Modeling
Every other year. Focuses on the use of graph theory and combinatorics to solve problems in a wide variety of disciplines. Applications are selected from computer science, communication networks, economics, operations research, and the social, biological and environmental sciences. Prereq: MATH 3191 and 4408. Cross-listed with MATH 5793. Semester Hours: 3 to 3

MATH 4794 - Optimization Modeling
Every other year. Principles of model formulation and analysis are developed by presenting a wide variety of applications, both for natural phenomena and social systems. Examples of optimization models to represent natural phenomena include principles of least time and energy. Examples in social systems include resource allocation, environmental control and land management. Specific applications vary, but are chosen to cover a wide scope that considers dichotomies, such as discrete vs. continuous, static vs.
dynamic, and deterministic vs. stochastic. Some computer modeling language (like GAMS) is taught. Prereq: MATH 2421 and 3191. Cross-listed with MATH 5794. **Semester Hours:** 3 to 3

**MATH 4810 - Probability**
Examines elementary theory of probability, including independence, conditional probability, and Bayes' theorem; random variables, expectations and probability distributions; joint and conditional distributions; functions of random variables; limit theorems, including the central limit theorem. Note: No co-credit with MATH 3800. Prereq: MATH 3191; Coreq: MATH 2421. Cross-listed with MATH 5310. **Semester Hours:** 3 to 3

**MATH 4820 - Statistics**
Point and confidence interval estimation, principles of maximum likelihood, sufficiency and completeness, tests of simple and composite hypothesis, linear models and multiple regression, analysis of variance. Prereq: MATH 3800 or MATH 4810 (preferred). Cross-listed with MATH 5320. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**MATH 4830 - Applied Statistics**
Review of estimation, confidence intervals and hypothesis testing; Anova; categorical data analysis; non-parametric tests; linear and logistic regression. Prereq: an introductory course in statistics such as MATH 2830 or permission of instructor. Cross-listed with MATH 5830. **Semester Hours:** 3 to 3

**MATH 4840 - Independent Study**
Variable credit depending on the student's needs. Offered for the advanced student who desires to pursue a specific topic in considerable depth. Note: Supervision by a full-time faculty member is necessary, and the dean's office must concur. Students may register for this course more than once with departmental approval. **Semester Hours:** 1 to 3

**MATH 5010 - History of Mathematics**
A history of the development of mathematical techniques and ideas from early civilization to the present, including the inter-relationships of mathematics and sciences. Prereq: MATH 1401. Not open to students who have had MATH 4010. No credit for applied math graduate students. Cross-listed with MATH 4010. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**MATH 5012 - An Advanced Perspective on Number and Operation**
Advanced study of number and operation, including why the various procedures from arithmetic work and connections to algebraic reasoning. Focuses on using rigorous mathematical reasoning and multiple representations to explain concepts. Note: Does not count toward graduate degrees in applied mathematics. Prereq: MATH 3000 or permission of instructor. Cross-listed with MATH 4012. **Semester Hours:** 2 to 2

**MATH 5013 - An Inquiry-based Approach to Geometry**
An inquiry-based approach to middle-level and Euclidean geometry. Topics include: polygons and the angle relationships, constructions, Pythagorean theorem and perimeter, area and volume, similarity and congruence, circles. Note: Does not count toward a graduate degree in applied mathematics. Prereq: MATH 3000 or permission of instructor. Cross-listed with MATH 4013. **Semester Hours:** 1 to 1

**MATH 5014 - Statistical Knowledge for Teaching**
A problem-based statistics seminar aimed at secondary teachers. Topics include: the central limit theorem, the law of large numbers, probability, measures of central tendency and variability, sampling
distributions, regression, and hypothesis testing. Note: Does not count toward a graduate degree in applied mathematics. Prereq: MATH 3800 or permission of instructor. Cross-listed with MATH 4014. **Semester Hours:** 1 to 1

**MATH 5015 - Capstone Course for Secondary Teachers**  
High school mathematics from an advanced perspective: analyses of alternative definitions, extensions and generalizations of familiar theorems; discussions of historical contexts in which concepts arose; applications of mathematics. Note: Does not count toward a graduate degree in applied mathematics. Prereq: MATH 3210, MATH 4310, MATH 3140 or permission of instructor. Cross-listed with MATH 4015. **Semester Hours:** 3 to 3

**MATH 5016 - RM-MSMSP Research Experience for Teachers - Math Cohort**  
The Research Experience for Teachers (RET) program is a five-week research exploration in which twelve RM-MSMSP teachers will raise their level of relevant mathematics understanding by engaging in a "hands on" workshop, transforming what they have learned. **Semester Hours:** 1 to 6

**MATH 5017 - Topics in Mathematics for Teachers**  
Topics vary from semester to semester. Designed for professional mathematics teachers. Note: This course will not count toward a degree in applied mathematics. Prereq: permission of instructor. **Semester Hours:** 0.3 to 50

**MATH 5027 - Topics in Applied Mathematics**  
Selected topics in mathematical problems arising from various applied fields such as mechanics, electromagnetic theory, economics and biological sciences. Prereq: permission of instructor. **Semester Hours:** 3 to 3

**MATH 5070 - Applied Analysis**  
Metric spaces, uniform convergence, elements of Banach spaces, elements of functions of complex variable. Problem solving and independent proof writing. Review of selected advanced topics in analysis for the PhD preliminary examination. Prereq: MATH 4320. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**MATH 5110 - Theory of Numbers**  
Every other year. Topics include divisibility, prime numbers, congruences, number theoretic functions, quadratic reciprocity, and special diophantine equations, with applications in engineering. Prereq: MATH 3000. Cross-listed with MATH 4110. **Semester Hours:** 3 to 3

**MATH 5135 - Functions of a Complex Variable**  
Infrequent. The complex plane, infinite series and products, elementary special functions, Cauchy-Riemann equations, conformal mapping, complex integration, Cauchy integral theory, and residue theory. Prereq: MATH 4320; MATH 5070 recommended. **Semester Hours:** 3 to 3

**MATH 5198 - Mathematics for Bioscientists**  
Infrequent. Develops mathematical reasoning: introduces linear algebra, discrete structures, graph theory, probability, and differential equations, using applications to molecular biology. Note: No credit for mathematics or engineering students. Prereq: MATH 2411. **Semester Hours:** 3 to 3

**MATH 5250 - Problem Solving Tools**  
Students learn and refine both problem solving techniques and computer programming skills. Examples, exercises, and projects are taken from a wide range of mathematical topics including algebra, calculus,
linear algebra and probability. Note: This course will not count toward a graduate degree in applied mathematics. Coreq: MATH 2421. Cross-listed with MATH 3250. **Semester Hours:** 3 to 3 **When Offered:** FALL

**MATH 5310 - Probability**
Examines elementary theory of probability, including independence, conditional probability, and Bayes' theorem; random variables, expectations and probability distributions; joint and conditional distributions; functions of random variables; limit theorems, including the central limit theorem. Prereq: MATH 2421 and 3191. Cross-listed with MATH 4810. **Semester Hours:** 3 to 3

**MATH 5320 - Statistics**
Point and confidence interval estimation, principles of maximum likelihood, sufficiency and completeness, tests of simple and composite hypothesis, linear models and multiple regression, analysis of variance. Prereq: MATH 3800. MATH 4810 highly recommended, but not required. Cross-listed with MATH 4820. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**MATH 5350 - Mathematical Theory of Interest**
Rates of interest, term structure of interest rates, force of interest, yield rate, principal, equation of value, annuity, perpetuity, stocks, bonds, other financial instruments. Prereq: MATH 4810/5310. **Semester Hours:** 3 to 3

**MATH 5351 - Actuarial Models**
Severity models, frequency models, aggregate models, risk measures, ruin theory, construction and selection of empirical models, credibility, simulation. Prereq: Probability (MATH 4810/5310), Statistics (MATH 4820/5320). **Semester Hours:** 3 to 3

**MATH 5387 - Regression Analysis, Modeling and Time Series**
Topics include linear and multiple regression, basic experimental designs, one-way analysis of variance. Emphasis is on practical aspects and applications of linear models to the analysis of data in business engineering and behavioral, biological and physical sciences. Prereq: MATH 3191 and 3800/4820. Cross-listed with MATH 4387. **Semester Hours:** 3 to 3 **When Offered:** FALL

**MATH 5390 - Game Theory**
Infrequent. Begins with an introduction to the mathematical theory of games and the definition of a solution, including extensive and normal forms of representation. The fundamental minimax theorem is presented first, as the foundation for two-person matrix games, then extended with fixed point theory to other games. Principles of dominance and solution methods are presented, plus applications to economics, political science, engineering, and other fields. An introduction to n-person game theory is included, with basic terms and concepts. Prereq: MATH 2421, 3191 and 3800/4810. Cross-listed with MATH 4390. **Semester Hours:** 3 to 3

**MATH 5394 - Experimental Designs**
Infrequent. Completely randomized block designs, factorial and fractional factorial experiments, balanced incomplete block designs, response surface methods. Prereq: MATH 4387 and 5387. Cross-listed with MATH 4394. **Semester Hours:** 3 to 3

**MATH 5410 - Modern Cryptology**
Every other year. Deals with the mathematics that underlies modern cryptology. Topics include: classical cryptology, public and private key cryptosystems, secret sharing schemes, authentication schemes, linear
feedback shift registers, discrete logarithm and elliptic curve-based schemes. Prereq: MATH 3191. 
**Semester Hours:** 3 to 3

**MATH 5432 - Computational Graph Theory**
Infrequent. Algorithmic techniques in graph theory and other discrete mathematics areas. Typical topics include: branch-bound algorithms, matching, colorings, domination, min-plus algebra, simulated annealing and related heuristics, NP-completeness theory. Prereq: a course in graph theory and some programming experience. **Semester Hours:** 3 to 3

**MATH 5446 - Theory of Automata**
Infrequent. Studies the relationships between classes of formal languages (regular, context-free, context-sensitive, phrase-structure) and classes of automata (finite-state, pushdown, Turing machines). Additional topics include decidability and computability issues. Prereq: MATH 3000 and 3140. Cross-listed with CSCI 5446. **Semester Hours:** 3 to 3

**MATH 5490 - Network Flows**
Every other year. Begins with the classical min-cost flow problem, defined on an ordinary network. Other problems, such as shortest path, are also shown in this class. Both theory and algorithms are presented. Extensions include generalized networks, nonlinear costs, fixed charges, multi-commodity flows and additional applications, such as in communications networks. Prereq: Graduate standing in math or computer science. **Semester Hours:** 3 to 3

**MATH 5576 - Mathematical Foundations of Artificial Intelligence I**
Infrequent. A fundamentals course that complements other approaches, such as in engineering, psychology, and business administration. Here the emphasis is on the mathematical foundations. Topics include logical inference, problem solving, heuristic search, neural nets, analogical reasoning and learning. Models and paradigms also consider different measures of uncertainty. Prereq: CSCI 2511, MATH 2511/3000 and 3191. Cross-listed with MATH 4576. **Semester Hours:** 3 to 3

**MATH 5593 - Linear Programming**
A linear program is an optimization problem that seeks to minimize or maximize a linear function subject to a system of linear in equalities and equations. This course begins with examples of linear programs and variations in their representations. Basic theoretical foundations covered include polyhedra, convexity, linear inequalities and duality. Two classes of solution algorithms are given: simplex methods and interior point methods. The primary emphasis of this course is on mathematical foundations, and applications are used to illustrate the main results. Prereq: MATH 3191. **Semester Hours:** 3 to 3 **When Offered:** FALL

**MATH 5610 - Computational Biology**
Every other year. Basic introduction and mathematical foundations. Topics include comparative genomics; proteomics; phylogeny; dynamic programming and sequence alignment; gene expression arrays and clustering; Bayesian networks; structure prediction and hidden Markov models. Prereq: CSCI 1410 or equivalent programming experience, and MATH 3191 or 3195. **Semester Hours:** 3 to 3

**MATH 5660 - Numerical Analysis I**
Methods and analysis of techniques used to resolve continuous mathematical problems on the computer. Solution of linear and nonlinear equations, interpolation and integration. Prereq: MATH 2411, 3191 or 3195, and programming experience. Cross-listed with CSCI 4650, 5660, and MATH 4650. **Semester Hours:** 3 to 3
MATH 5661 - Numerical Analysis II
Numerical differentiation and integration, numerical solution of ordinary differential equations, and numerical solutions of partial differential equations as time allows. Prereq: MATH 3195 or both 3191 and 3200; MATH or CSCI 4650 or 5660; or programming experience. Cross-listed with MATH 4660, CSCI 4660 and 5661. **Semester Hours:** 3 to 3  **When Offered:** SPRING

MATH 5674 - Parallel Computing and Architectures
Infrequent. Examines a range of topics involved in using parallel operations to improve computational performance. Parallel architectures, parallel algorithms, parallel programming languages, interconnection networks, and their relation to specific computer architectures. Prereq: MATH 4650. Cross-listed with MATH 4674. **Semester Hours:** 3 to 3

MATH 5718 - Applied Linear Algebra
Topics include: Vector spaces, practical solution of systems of equations, projections, eigenvalues and eigenvectors, unitary transformations, Schur QR, singular value decompositions, similarity transformations, Jordan forms, and positive definite matrices. Prereq: MATH 3191. **Semester Hours:** 3 to 3  **When Offered:** FALL

MATH 5733 - Partial Differential Equations
Infrequent. Initial/Boundary value problems for first-order, wave, heat and Laplace Equations; maximum principles; Fourier Series and applications. Prereq: MATH 2421 and 3200; graduate standing. Cross-listed with MATH 4733. **Semester Hours:** 3 to 3

MATH 5779 - Math Clinic
The clinic is intended to illustrate the applicability and utility of mathematical concepts. Research problems investigated originate from a variety of sources--industry, government agencies, educational institutions, or nonprofit organizations. Prereq: consult Schedule Planner or instructor. Cross-listed with MATH 4779. **Semester Hours:** 3 to 3

MATH 5791 - Continuous Modeling
Every other year. Surveys mathematical problems that arise in natural sciences and engineering. Topics may include population models, epidemic models, mechanics, heat transfer and diffusion, tomography, pharmaco-kinetics, traffic flow, fractal models, wave phenomena, and natural resource management. Most models discussed are based on differential and integral equations. Emphasis is formulation and validation of models as well as methods of solution. Prereq: MATH 3191 and 3200. Cross-listed with MATH 4791. **Semester Hours:** 3 to 3

MATH 5792 - Probabilistic Modeling
Every other year. Markov chains; Poisson processes, continuous time Markov chains, elementary topics in queuing theory, and some mathematical aspects of Monte Carlo simulation, including random variate generation, variance reduction, and output analysis. Prereq: MATH 4810 or 5310 and some programming experience. Cross-listed with MATH 4792. **Semester Hours:** 3 to 3

MATH 5793 - Discrete Math Modeling
Every other year. Focuses on the use of graph theory and combinatorics to solve problems in a wide variety of disciplines. Applications are selected from computer science, communication networks, economics, operations research, and the social, biological and environmental sciences. Prereq: MATH 3191 and 4408. Cross-listed with MATH 4793. **Semester Hours:** 3 to 3
MATH 5794 - Optimization Modeling
Every other year. Principles of model formulation and analysis are developed by presenting a wide variety of applications, both for natural phenomena and social systems. Examples of optimization models to represent natural phenomena include principles of least time and energy. Examples in social systems include resource allocation, environmental control and land management. Specific applications vary, but are chosen to cover a wide scope that considers dichotomies, such as discrete vs. continuous, static vs. dynamic, and deterministic vs. stochastic. Some computer modeling language (like GAMS) is taught. Prereq: MATH 2421 and 3191. Cross-listed with MATH 4794. **Semester Hours:** 3 to 3

MATH 5830 - Applied Statistics
Review of estimation, confidence intervals and hypothesis testing; ANOVA; categorical data analysis; non-parametric tests; linear and logistic regression. Prereq: an introductory course in statistics such as MATH 2830 or permission of instructor. Cross-listed with MATH 4830. **Semester Hours:** 3 to 3 **When Offered:** SPRING

MATH 5840 - Independent Study
Available only with approval of graduate advisor. Subjects arranged. **Semester Hours:** 1 to 3

MATH 5939 - Internship
**Semester Hours:** 1 to 6

MATH 5950 - Master's Thesis
**Semester Hours:** 1 to 8

MATH 5960 - Master's Project
Note: Credit hours for this course will not count toward a graduate degree in Applied Mathematics. **Semester Hours:** 1 to 8

MATH 6023 - Topics in Discrete Math
Topics may include graph theory, combinatorics, matroid theory, combinatorial matrix theory, finite geometry, design theory, and discrete algorithms. Note: Since topic varies by semester, students may register for this course more than once. Prereq: permission of the instructor. **Semester Hours:** 3 to 3

MATH 6131 - Real Analysis
Every other year. Lebesgue measure and integration, general measure and integration theory, Radon-Nikodym Theorem, Fubini Theorem. Prereq: MATH 4320 or 5070. **Semester Hours:** 3 to 3

MATH 6330 - Workshop in Statistical Consulting
Students participate as consultants in a drop-in consulting service operated by the department. Seminars provide students with supervised experience in short term statistical consulting. Note: Since problems vary each semester, students may register for this course more than once. Prereq: MATH 5387. **Semester Hours:** 3 to 3

MATH 6360 - Exploratory Data Analysis
Every other year. Philosophy and techniques associated with exploratory (vs. confirmatory) data analysis, both as originally presented (John Tukey) and current computer-based implementations. Graphical displays, robust-resistant methods (lines, two-way fits), diagnostic plots, standardization. Prereq: Previous statistics course or permission of instructor. **Semester Hours:** 3 to 3
MATH 6376 - Statistical Computing
Computationally-intensive methods in statistics, including random number generation and Monte Carlo methods, data partitioning and re-sampling, numerical and graphical methods, nonparametric function estimation, statistical models and data mining methodology, analysis of large data sets. Prereq: MATH 4820/4830 and 4387. Cross-listed with MATH 7376. Semester Hours: 3 to 3

MATH 6380 - Stochastic Processes
Every other year. Markov processes in discrete and continuous time, renewal theory, martingales, Brownian motion, branching processes, and stationary processes. Applications include queuing theory, performance evaluation of computer and communication systems and finance. Prereq: MATH 3191, MATH 3200, and MATH 4810/5310. Semester Hours: 3 to 3

MATH 6384 - Analysis of Dependent Data
Infrequent. Statistical methods for the analysis of data with temporal and/or spatial dependence. Longitudinal data, stationary and non-stationary time series models, geostatistical and lattice spatial models, point processes, hierarchical models. Prereq: MATH 4820 or 4830 and MATH 4387. Semester Hours: 3 to 3

MATH 6388 - Advanced Statistical Methods for Research
Infrequent. The second in a two-semester course in applied statistics. Topics include multifactor analysis of variance and covariance, categorical data, general linear models, bootstrapping, and other computationally intensive statistical methods. Prereq: MATH 5387. Semester Hours: 3 to 3

MATH 6393 - Introduction to Bayesian Statistics
Prior and posterior distributions, conjugate models, single and multiparameter models, hierarchical models, mixture models, numerical methods for evaluating posteriors, Monte Carlo methods, and Markov chain Monte Carlo. Prereq: MATH 3800 or both MATH 4810 and MATH 4820 (or equivalent). Some computer programming experience. Semester Hours: 3 to 3

MATH 6395 - Multivariate Methods
Every other year. Multivariate distributions, hypothesis testing and estimation. Multivariate analysis of variance, discriminant analysis, multidimensional scaling, factor analysis, principal components. Prereq: MATH 5387. Semester Hours: 3 to 3

MATH 6398 - Calculus of Variations and Optimal Control
Infrequent. Standard variational problems (geodesic, time-of-transit, isoperimetric, surface, area), Euler-Lagrange equations, variational principles in mechanics, optimal control problems, necessary conditions for optimality, Pontryagin principle. Prereq: MATH 4320. Semester Hours: 3 to 3

MATH 6404 - Applied Graph Theory
Every other year. Emphasis on graph theory. Topics will include trees, digraphs and networks, intersection graphs, coloring, clique coverings, distance, paths and cycles. Topics are motivated by applications. Prereq: Graduate standing. Semester Hours: 3 to 3

MATH 6595 - Computational Methods in Nonlinear Programming
Every other year. Introduces fundamental algorithms and theory for nonlinear optimization problems. Topics include Newton, quasi-Newton and conjugate direction methods; line search and trust-region methods; active set, penalty and barrier methods for constrained optimization; convergence analysis and duality theory. Prereq: MATH 4320 and MATH 5718. Semester Hours: 3 to 3
MATH 6653 - Introduction to Finite Element Methods
Every other year. The Finite Element Method (FEM) is introduced as a generic tool for the approximation of partial differential equations that model engineering and physics problems of interest. Elliptic, hyperbolic, and parabolic equations are solved with FEM. Prereq: MATH 5660. **Semester Hours**: 3 to 3

MATH 6735 - Continuum Mechanics
Every other year. Indicial notation. Eulerian and Lagrangian coordinates. Deformation, strain, strain rate, stress. Conservation of mass, momentum, and energy. Exploitation of entropy production inequality to obtain constitutive equations for elastic, viscous, visco elastic, plastic, or porous materials. Prereq: MATH 3191 and 3200 or graduate standing. **Semester Hours**: 3 to 3

MATH 6840 - Independent Study
**Semester Hours**: 1 to 3

MATH 7101 - Topology
Every other year. Topological spaces, compactness, separation properties and connectedness. Prereq: MATH 4320. **Semester Hours**: 3 to 3

MATH 7132 - Functional Analysis
Every other year. Linear metric and topological spaces, duality, weak topology, spaces of functions, linear operators, compact operators, elements of spectral theory, and operator calculus. Prereq: MATH 6131. **Semester Hours**: 3 to 3

MATH 7376 - Statistical Computing
Computationally-intensive methods in statistics, including random number generation and Monte Carlo methods, data partitioning and re-sampling, numerical and graphical methods, nonparametric function estimation, statistical models and data mining methodology, analysis of large data sets. Prereq: MATH 4820/4830 and 4387. Cross-listed with MATH 6376. **Semester Hours**: 3 to 3

MATH 7381 - Mathematical Statistics I
Every other year. Mathematical theory of statistics. Parametric inference: discrete and continuous distributions, methods of parameter estimation, confidence intervals. Prereq: MATH 3191 and 4820/5320. **Semester Hours**: 3 to 3

MATH 7382 - Mathematical Statistics II
Every other year. (Continuation of MATH 7381.) Hypothesis testing, robust estimation, tolerance intervals, nonparametric inference, sequential methods. Prereq: MATH 7381. **Semester Hours**: 3 to 3

MATH 7384 - Mathematical Probability
Every other year. Measurable spaces, probability measures, random variables, conditional expectations and martingales. Convergence in probability, almost sure convergence, convergence in distribution, limit theorems (law of large numbers, central limit theorem, laws of iterated logarithm). Prereq: MATH 4810/5310 and MATH 5070 or MATH 6131. **Semester Hours**: 3 to 3

MATH 7385 - Stochastic Differential Equations
Brownian motion, Ito integral, Ito formula, Dynkin's formula, stochastic optimal control, boundary value problems, Girsanov theorem, mathematical finance, optimal stopping. Prereq: MATH 7384. **Semester Hours**: 3 to 3
MATH 7397 - Nonparametric Statistics
Every three years. Statistical inference without strong model assumptions. Hypothesis testing and estimation using permutations and ranks, analysis of variance, and nonparametric model fitting. Prereq: applied mathematics - statistics (PhD.) Semester Hours: 3 to 3

MATH 7405 - Advanced Graph Theory
Continuation of MATH 6404. Topics to be covered include: trees and optimization, encoding and embedding of graphs, generalized colorings and applications, perfect graphs, extremal problems, substructures, connectedness' and cycles. Prereq: MATH 6404 or permission of instructor. Semester Hours: 3 to 3

MATH 7409 - Applied Combinatorics
Every other year. Emphasis is on enumerative combinatorics. Topics include multinomial coefficients, generating functions, SDRs, Polya's enumeration theory, pigeon-hole principle, inclusion/exclusion and Moebius inversion of finite posets. Topics may also include introduction to designs and finite geometry. Semester Hours: 3 to 3

MATH 7410 - Combinatorial Structures
Every other year. Finite combinatorial structures; existence, construction and applications. Topics include Latin squares, Hadamard matrices, block designs, finite geometries and extremal and non-constructive combinatorics. Prereq: MATH 5718 and MATH 7409 or permission of instructor. Semester Hours: 3 to 3

MATH 7413 - Modern Algebra I
Every other year. Groups, rings and ideals, integral domains. Prereq: MATH 3140. Coreq: MATH 5718. Semester Hours: 3 to 3

MATH 7414 - Modern Algebra II
Every other year. Field theory, Galois theory, Modules over rings, especially over integral domains. Prereq: MATH 5718 and MATH 7413. Semester Hours: 3 to 3

MATH 7419 - Mathematical Coding Theory
Error correcting codes are used to recapture information that has been distorted in some transmission process. Various coding schemes use block codes obtained from algebraic, geometric and combinatorial structures. Topics include: fundamentals, linear, Reed-Muller, Golay, cyclic and BCH codes. Prereq: MATH 5718. Semester Hours: 3 to 3

MATH 7421 - Projective Geometry
Every other year. Synthetic and algebraic development of projective spaces. Collineation groups, representation theorems, quadratic sets and applications. Emphasis is on finite projective spaces. Prereq: MATH 5718 and MATH 7409. Semester Hours: 3 to 3

MATH 7593 - Advanced Linear Programming
Every three years. A Ph.D. level course that goes deeper into linear programming, starting from where a graduate-level course (5593) ends. Topics include advanced sensitivity analysis, sparse matrix techniques, and special structures. Additional topics, which vary, include deeper analysis of algorithms, principles of model formulation and solution analysis. Prereq: MATH 5593. Semester Hours: 3 to 3
MATH 7594 - Integer Programming
Every three years. A Ph.D. level course that uses linear programming (5593), especially polyhedral theory, to introduce concepts of valid inequalities and superadditivity. Early group-theoretic methods by Gomory and Chvatal's rounding function are put into modern context, including their role in algorithm design and analysis. Duality theory and relaxation methods are presented for general foundation and analyzed for particular problem classes. Among the special problems considered are knapsack, covering, partitioning, packing, fix-charge, traveling salesman, generalized assignment matchings. Matroids are introduced and some greedy algorithms are analyzed. Additional topics, which vary, include representability theory, heuristic search and complexity analysis. Prereq: MATH 5593. Semester Hours: 3 to 3

MATH 7595 - Advanced Nonlinear Programming
Every three years. Focuses primarily on the fundamental theory of nonlinear programming. Topics include convex analysis, optimality criteria, Lagrangian and conjugate duality, stability and sensitivity analysis. Other topics vary depending on the research interests of the instructor. Prereq: MATH 6595. Semester Hours: 3 to 3

MATH 7663 - Finite Difference Methods for Partial Differential Equations
Every other year. Consistency, stability, and convergence for difference schemes. Derivations based on Taylor series and finite series. Methods for parabolic and hyperbolic initial value problems and initial-boundary-value problems, elliptic boundary-value problems, some nonlinear problems. Prereq: MATH 5070 and MATH 5733. Semester Hours: 3 to 3

MATH 7665 - Numerical Linear Algebra
Every other year. Solution of linear equations, eigenvector and eigenvalue calculation, matrix error analysis, orthogonal transformation, iterative methods. Prereq: MATH 5660 and MATH 5718. Semester Hours: 3 to 3

MATH 7667 - Introduction to Approximation Theory
Every other year. Linear normed and Banach spaces, convexity, existence and uniqueness of best approximations, least square approximation and orthogonal polynomials, Chebyshev approximation by polynomials and other related families, splines. Prereq: MATH 5070 and MATH 5718. Semester Hours: 3 to 3

MATH 7821 - Topics in Projective Geometry
Infrequent. Advanced topics in projective geometry. Topics may include finite projective planes, free projective planes, derivation, collineation groups, higher dimensional projective spaces, ovals and ovoids. Prereq: MATH 7421. Semester Hours: 3 to 3

MATH 7822 - Topics in Linear Algebra
Infrequent. Topics may include canonical forms, bilinear and quadratic forms, and combinatorial matrix theory. Prereq: MATH 5718. Semester Hours: 3 to 3

MATH 7823 - Topics in Discrete Math
Infrequent. Advanced topics in discrete mathematics; will change from semester to semester. Prereq: MATH 7413, 6404 and 7409 or permission of instructor. Semester Hours: 3 to 3

MATH 7824 - Topics in Computational Mathematics
Infrequent. Topics include methods for differential equations, numerical optimization, approximation theory, inverse problems, and Fourier analysis. Prereq: Permission of instructor. Semester Hours: 3 to 3
MATH 7825 - Topics in Optimization
Infrequent. Some topics are extensions of those introduced in MATH 6595, while other topics are new. Examples of topics are: duality, stability, sensitivity, consistency, redundancy, principles of optimality, control theory, calculus of various global (no Semester Hours: 3 to 3

MATH 7826 - Topics in Probability and Statistics
Infrequent. Topics may include generalized linear models, information theory, robust methods, spatial statistics, sequential analysis, Monte Carlo methods, queueing theory. Note: Since topics vary each semester, students may register for this course more than once. Semester Hours: 3 to 3

MATH 7827 - Topics in Applied Mathematics
Infrequent. Topics include problems in differential equations, optimization, mathematical modeling, Fourier analysis and approximation theory. Note: Since topics vary each semester, students may register for this course more than once. Semester Hours: 3 to 3

MATH 7840 - Independent Study
Available only to Ph.D. students. Semester Hours: 1 to 3

MATH 7921 - Readings in Mathematics
Annual. Seven readings courses are offered regularly primarily for Ph.D. students at the research level in the designated fields. The seminar format requires significant student participation. Prereq: permission of instructor. Semester Hours: 1 to 1

MATH 7922 - Rdgs:Math Fndts-Cmpr Sc
Semester Hours: 1 to 1

MATH 7923 - Readings: Discrete Mathematics
Semester Hours: 1 to 1

MATH 7924 - Rdgs:Comp Mathematics
Semester Hours: 1 to 1

MATH 7925 - Readings: Optimization
Semester Hours: 1 to 1

MATH 7926 - Rdgs:Applied Prob/Stats
Semester Hours: 1 to 1

MATH 7927 - Rdgs:Comp/Math Biology
Semester Hours: 1 to 1

MATH 8660 - Mathematical Foundations of Finite Element Methods
Every other year. Theoretical foundations of finite element methods for elliptic boundary value problems, Sobolev spaces, interpolations of Sobolev spaces, variational formulation of elliptic boundary-value problems, basic error, estimates, applications to elasticity, practical aspects of finite element methods. Prereq: MATH 6653 (or equivalent programming experience), and MATH 6131/7132. Semester Hours: 3 to 3
MATH 8664 - Iterative Methods in Numerical Linear Algebra
Every other year. Preconditioned iterative methods for linear systems and eigen problems, conjugate
gradients, multigrid and domain decomposition. Prereq: MATH 5660 and MATH 7665. Semester
Hours: 3 to 3

MATH 8990 - Doctoral Dissertation
Only for students working on their Ph.D. research. Semester Hours: 1 to 10
Math Content Knowledge for Education Courses (MCKE)

**MCKE 3041 - Number and Operation**
First of three courses designed for prospective elementary teachers. Emphasis placed on the real number system and arithmetic operations. Explorations focus on place value, additive and multiplicative reasoning, the division algorithm and rational numbers. Content presented using problem solving and exploration. **Semester Hours:** 3 to 3

**MCKE 3042 - Algebra, Probability and Data Analysis**
Second of three courses designed for prospective elementary teachers. Emphasis placed on algebra, probability, and data analysis. Explorations focus on representing, analyzing, generalizing, formalizing, and communicating patterns and probabilities. Content presented using problem solving and exploration. Prereq: MCKE 3041 with 'C' or better. **Semester Hours:** 3 to 3

**MCKE 3043 - Geometry and Measurement**
Third of three courses designed for prospective elementary teachers. Emphasis placed on developing spatial reasoning skills in geometry and measurement. Explorations focus on two- and three-dimensional shapes, their properties, measurements, constructions, and transformations. Prereq: MCKE 3042 with 'C' or better. **Semester Hours:** 3 to 3

**MCKE 5000 - Algebraic Patterns and Functions I**
Systematic study of the core elements of algebra: linear, quadratic, exponential, logarithmic functions and their graphs. Includes modeling using graphing calculators and real world applications. Concepts are linked to other scientific, mathematical, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: permission of project director. **Semester Hours:** 4 to 4

**MCKE 5002 - Algebraic Patterns and Functions II**
This course is a continuation of the material covered in MATH 5000. Topics that will be covered include logarithmic, exponential and trigonometric functions and applications, parametric equations, systems of equations and inequalities, matrices and linear programming. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 5000 or permission of instructor. **Semester Hours:** 4 to 4

**MCKE 5004 - Statistics and Probability**
Studies the collection, presentation, and analysis of data; and elements and applications of counting discrete probability. Includes real world applications and technology. Concepts are linked to other scientific, mathematical, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: permission of project director. **Semester Hours:** 4 to 4

**MCKE 5005 - Geometry**
Systematic study of advanced geometric concepts: history of geometry and measurement, patterns among shapes, 2- and 3-dimensional shapes, constructions, symmetry or transformational geometry. Includes applications and activity-oriented instruction. Concepts are linked to other scientific, mathematical, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal and Sciences. Prereq: permission of project director. **Semester Hours:** 4 to 4

**MCKE 5006 - Mathematics of Change**
Systematic study of the application of calculus to the analysis of changing systems in real world applications. Emphasizes the connections that exist between calculus and aspects of middle school
MCKE 5007 - Discrete Math--Counting the Possibilities
Systematic study of basic techniques in discrete mathematics and their various applications: permutations and combinations, inclusion or exclusion, pigeonhole principle, graph theory, and recursive pattern solving. Applications to topics such as network analysis and voting theory are stressed. Concepts are linked to other scientific, mathematical, pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 5000 (or equivalent) or permission of project director. Semester Hours: 4 to 4

MCKE 5008 - Discovery and Use of the History of Math
Systematic study of the people, events, ideas and issues from the history of mathematics, focusing on historical topics that are central to the discipline and teaching of mathematics and emphasizing web research of historical topics of interest. Concepts are linked to other scientific, mathematical, and pedagogical domains. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: permission of the project director. Semester Hours: 4 to 4

MCKE 5009 - Math Modeling--Using and Applying Math
Systematic study of math modeling using algebra, geometry, discrete mathematics, rates of change, and statistics to solve real-world problems in areas such as finance, biology, economics, and physics. Concepts are linked to other scientific, mathematical, societal, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 5006 (or equivalent) or permission of instructor. Semester Hours: 4 to 4

MCKE 5011 - Mathematics and Science of Musical Instruments
A mathematical modeling course which investigates the mathematics and physics behind musical instruments while providing a deeper understanding of trigonometry and elementary calculus concepts. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 5000, 5002. Semester Hours: 4 to 4

MCKE 5018 - Topics in Mathematics Education for Teachers
Topics vary from semester to semester. Designed for professional mathematics teachers. This course will not count towards a degree in Applied Mathematics. Consent of the instructor required for enrollment. Semester Hours: 0 to 50

MCKE 5140 - Introduction to Modern Algebra
Studies the fundamental algebraic structures used in modern mathematics. Topics include groups, rings, fields, and polynomials. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 3000. Cross-listed with MATH 4140. Semester Hours: 3 to 3

MCKE 5210 - Higher Geometry I
Studies the foundations of modern geometry by examining axiomatic systems for various geometrics, with an emphasis on non-Euclidean hyperbolic geometry. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 3000. Cross-listed with MATH 3210. Semester Hours: 3 to 3
MCKE 5310 - Introduction to Real Analysis I
Calculus of one variable, the real number system, continuity, differentiation, integration theory, sequence and series. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 2421 and 3000. Cross-listed with MATH 4310. **Semester Hours:** 3 to 3

MCKE 5408 - Applied Graph Theory
Introduces discrete structures and applications of graph theory to computer science, engineering, operations research, social science, and biology. Topics include connectivity, coloring, trees, Euler and Hamiltonian paths and circuits, matching and covering problems, shortest route and network flows. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 3000. Cross-listed with MATH 4408. **Semester Hours:** 3 to 3

MCKE 5409 - Applied Combinatorics
Major emphasis is on applied combinatorics and combinatorial algorithms, with applications in computer science and operations. Topics include general counting methods, generating functions, recurrence relations, inclusion-exclusion, and block designs. Note: This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: MATH 3000. Cross-listed with MATH 4409. **Semester Hours:** 3 to 3
**Mechanical Engineering Courses (MECH)**

**MECH 1025 - CAD and Graphics for Mechanical Engineering**
Introduction to 3-D computer-aided design software, solid modeling, industry-standard engineering drawing practices, and engineering graphics. Applications to mechanical engineering. **Prereq:** High School Geometry and Algebra. **Semester Hours:** 3 to 3

**MECH 1208 - Special Topics: 1208-1298**
Subject matter to be selected from topics of current technological interest. Credit to be arranged. **Semester Hours:** 1 to 3

**MECH 2023 - Statics**
A vector treatment of force systems and their resultants; equilibrium of trusses, beams, frames, and machines, including internal forces and three-dimensional configurations, static friction, properties of areas, distributed loads and hydrostatics. **Prereq:** PHYS 2311. **Coreq:** MATH 2411. Cross-listed with CVEN 2121. **Semester Hours:** 3 to 3

**MECH 2030 - Analysis Techniques in Mechanical Engineering**
Introduces experimental methods and mathematical analysis used in engineering. Spreadsheets are used to analyze engineering data and prepare tables and graphs. Introduction to computer programming using MATLAB. **Prereq:** MATH 1401 and MECH 1025. **Semester Hours:** 3 to 3

**MECH 2033 - Dynamics**
A vector treatment of dynamics of particles and rigid bodies, including rectilinear translation, central-force, and general motion of particles, kinematics of rigid bodies, the inertia tensor, plane motion of rigid bodies, energy and momentum methods for particles, systems of particles, and rigid bodies. **Prereq:** MECH 2023 or CVEN 2121. Cross-listed with CVEN 3111. **Semester Hours:** 3 to 3

**MECH 2208 - Special Topics: 2208-2298**
Subject matter to be selected from topics of current technological interest. Credit to be arranged. **Semester Hours:** 1 to 3

**MECH 3010 - Elementary Numerical Methods and Programming**
A development of basic numerical methods used to solve engineering problems. Introduction to MATLAB to implement numerical simulations. **Coreq:** MATH 3195 or (MATH 3191 and MATH 3200). **Semester Hours:** 3 to 3

**MECH 3012 - Thermodynamics**
Introduces thermodynamic properties and state relationships, processes and cycles with work and heat transfer. Applications of the first and second laws to energy-related engineering systems. **Prereq:** MATH 1401 and PHYS 2311. **Semester Hours:** 3 to 3

**MECH 3021 - Introduction to Fluid Mechanics**
Applies exact and approximate theories to engineering problems in fluids. Examples include potential flow theory, Euler's equations for inviscid fluids, Bernoulli's equations, Navier-Stokes equations, and pipe flow. **Prereq:** MECH 2033 or CVEN 3111 and MATH 2421. **Semester Hours:** 3 to 3
MECH 3022 - Thermodynamics II
Generalized thermodynamic cycles; general thermodynamic cycle considerations, compressor, expander, heat exchanger processes, refrigeration cycles, mixtures and combustion. Prereq: ENGR 3012 and MATH 2421. **Semester Hours:** 3 to 3

MECH 3023 - System Dynamics I: Vibrations
Modeling of dynamical systems. Analysis of single and multiple degree of freedom systems. Introduction to continuous systems. Prereq: CVEN 3111 or MECH 2033, MATH 3195 or MATH 3191 and MATH 3200 and MECH 3010. Coreq: CVEN 3121 or MECH 3043. **Semester Hours:** 3 to 3

MECH 3024 - Introduction to Materials Science
The development of the physical principles relating the structural features of materials to their observed properties. Prereq: PHYS 2311. **Semester Hours:** 3 to 3

MECH 3027 - Measurements
Principles of digital and analog measurements; systems for sensing, transporting, modifying, and outputting information; systematic and random error analysis. The laboratory includes a variety of instruments and components illustrating fundamental experimental measurement techniques and methods. Prereq: MECH 3030 & MATH 3195 or (MATH 3191 & MATH 3200). **Semester Hours:** 3 to 3

MECH 3028 - Laboratory of Mechanical Measurements
Modern techniques for Mechanical measurements. Laboratory includes techniques for the calibration of transducers and analysis of Statistical uncertainty. Data Acquisition Systems used for Signal acquisition and measurement of common mechanical quantities, such as displacement, velocity, acceleration and force. Design and characterization of a second order measurement system based on strain gages. Prereq: MECH 3032. Coreq: MECH 3027. **Semester Hours:** 1 to 1

MECH 3030 - Electric Circuits and Systems
Basic electrical engineering concepts for non-majors. Basic study of circuit analysis (RLC and Op-amps), transformers and motor equations, and simple electronic circuits (diodes and transistors). Prereq: MATH 2421 and PHYS 2331. Cross-listed with ELEC 3030. **Semester Hours:** 3 to 3

MECH 3031 - Fluids/Thermal Laboratory
Laboratory exercise in compressible and incompressible fluid flow; steady state and transient heat transfer. Prereq: ENGR 3012. Coreq: MECH 3021. **Semester Hours:** 1 to 1

MECH 3032 - Electric Circuits and Systems Lab
Basic electrical engineering lab for MECH majors. Coreq: MECH 3030 or ELEC 3030. **Semester Hours:** 1 to 1

MECH 3034 - Properties of Engineering Materials
Experiments to determine material properties and the effect of processing on properties important in mechanical design. Materials include metal, polymers, and composites. Loadings include tension, compression, and bending under static, dynamic impact and creep states. Coreq: MECH 3024 or (MECH 3043 or CVEN 3121). **Semester Hours:** 1 to 1

MECH 3035 - Design of Mechanical Elements
Review of mechanics of materials and stress analysis; detailed design of various machine elements such as fasteners, springs, brakes and gears. Includes design project. Prereq: MECH 3043, CVEN 3121. Coreq: MECH 3024. **Semester Hours:** 3 to 3
MECH 3042 - Heat Transfer
Basic laws of heat transfer by conduction, convection, and radiation with engineering design applications. Includes design project. Prereq: ENGR 3012 and MATH 2421. Semester Hours: 3 to 3

MECH 3043 - Strength of Materials
Application of exact and approximate theories of stress and displacement to engineering problems in solids. Examples include torsion of rods and bending of beams. Combined stresses, principal stresses and energy methods are examined. Prereq: MECH 2023, CVEN 2121. Cross-listed with CVEN 3121. Semester Hours: 3 to 3

MECH 3065 - Intermediate Dynamics
An in-depth study of Newtonian dynamics with constraints. Mechanism synthesis using graphical and analytic techniques. Prereq: MECH 2033 or CVEN 3111 and MECH 3010. Semester Hours: 3 to 3

MECH 3145 - Manufacturing Processes Design
Basic manufacturing background will be provided to engineering students in order to: (1) apply manufacturing specifications to the design of mechanical devices, and (2) communicate with technical personnel in a production environment. Topics cover metal casting, bulk and sheet metal forming, material removal and joining and fastening processes. Prereq: MECH 1025. Semester Hours: 3 to 3

MECH 3147 - Bioengineering
Explores engineering principles that have application in biology, and principles discovered in biology which may have application in engineering. Some topics covered are: cell biology, molecular biology, viscoelasticity, physical theory of plant cell growth aerodynamics, fluid mechanics, biofluid dynamics and animal flight. Prereq: Junior standing in engineering. Semester Hours: 3 to 3

MECH 3208 - Special Topics
Subject matter to be selected from topics of current technological interest. Credit to be arranged. Semester Hours: 1 to 3

MECH 3840 - Independent Study
This category is intended for upper-division level special topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. Semester Hours: 1 to 3

MECH 4020 - Biomechanics
Static and dynamic biomechanical analysis, effects of mechanical loading on bone and cartilage, design considerations in orthopaedic devices, muscle function, biomechanics of human movement, cardiovascular biomechanics. Semester Hours: 3 to 3 When Offered: SUMMER

MECH 4023 - System Dynamics II: Controls
Introduces the Laplace Transformation. Control system analysis using root locus and frequency response methods. Basic compensation techniques are to be covered. Prereq: MECH 3023. Semester Hours: 3 to 3

MECH 4024 - Mechanical Behavior of Materials
Studies the response of materials to applied stresses. Emphasis is on the understanding of the relationships between structure and properties. Fracture mechanics and fatigue are introduced. Prereq: MECH 3024. Semester Hours: 3 to 3
MECH 4035 - Senior Design I
Group and individual projects to design engineering components and systems. Design methodology, product specs, creativity, design reviews, communication, presentations, and report writing are emphasized. MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 3035 and MECH 3042. **Semester Hours:** 3 to 3

MECH 4045 - Senior Design II
Student teams manufacture and construct and/or redesign mechanical parts or assemblies that they designed in previous course (MECH 4035). A proposal, oral progress reports, and a final written report and demonstration are required. MECH 4035 and MECH 4045 form a one year sequence and must be taken consecutively. Prereq: MECH 4035. **Semester Hours:** 3 to 3

MECH 4110 - Numerical Methods for Engineers
Introduces numerical analysis. Solution of linear and nonlinear equation systems. Numerical methods for ordinary and partial differential equations. Engineering applications. Prereq: MATH 3195 or (3191 and 3200) and some programming experience. **Semester Hours:** 3 to 3

MECH 4112 - Internal Combustion Engines
Students obtain a sufficient understanding of internal combustion engines that will allow them to perform analysis of combustion thermodynamics and actual cycles, including heat addition, heat loss, air/fuel flow, and engine design and performance. Prereq: ENGR 3012. **Semester Hours:** 3 to 3

MECH 4114 - Designing with Composites
Analysis and design of polymers and polymer-based composites. Failure criteria include static strength, stiffness, creep, fatigue, impact and fracture toughness. Design criteria include strength-to-weight ratio and cost-to-strength ratio. Prereq: MECH 3043/CVEN 3121. Cross-listed with MECH 5114. **Semester Hours:** 3 to 3

MECH 4115 - Applied Plasticity and Creep
Plastic deformation of materials applied to bulk and sheet metal manufacturing processes such as extrusion, rolling and sheet metal. Linear and nonlinear viscoelastic creep with applications to plates and shells. Prereq: MECH 3043. Cross-listed with MECH 5115. **Semester Hours:** 3 to 3

MECH 4116 - Robotics
Introduces kinematics, dynamics, and control of robot manipulators. Emphasis is placed on computer use in control of actual robots and in computer simulation of mathematical models of robots. Students must turn in a project report based on the computer simulation. Prereq: MECH 3065. **Semester Hours:** 3 to 3

MECH 4120 - Methods of Engineering Analysis
Selected topics from real analyses with applications to engineering analyses. Topics include vector calculus, ordinary differential equations, partial differential equations, and calculus of variations. Prereq: MATH 3195 or (MATH 3191 and MATH 3200). Cross-listed with MECH 5120. **Semester Hours:** 3 to 3

MECH 4132 - Power Plant Systems Design
Detailed engineering analysis and design of a thermal power plant, including heat balance, selection of equipment (boiler, turbines, heat exchangers, pumps, cooling tower), performance evaluation, economic evaluation and feasibility studies. Prereq: MECH 3022 **Semester Hours:** 3 to 3
MECH 4135 - Mechanical Systems Design
Detailed engineering design of mechanical systems. Students work in teams on a project selected for entire class. Projects are similar to typical ones from industry. Course stresses creativity, synthesis, design judgment, and analysis of real-world problems. Oral and written presentations are required. Prereq: MECH 3035. **Semester Hours:** 3 to 3

MECH 4136 - Control Systems Design
Detailed engineering design of control systems. Students work in teams on a project selected for entire class. Projects are similar to typical ones from industry. Course stresses creativity, synthesis, design judgment, and analysis of real-world problems. Oral and written presentations are required. Prereq: MECH 4023. **Semester Hours:** 3 to 3

MECH 4141 - Fluid Mechanics
Viscous incompressible fluid flows. Topics include derivation of equations governing viscous compressible fluid motion; specializations to simple flows; boundary-layer theory; similarity solutions; introduction to turbulence and Reynolds stresses. Prereq: MECH 3021. Cross-listed with MECH 5141. **Semester Hours:** 3 to 3

MECH 4142 - Thermal Systems Design
Detailed engineering design of thermal/fluids systems. Students work in teams on a project selected for entire class. Projects are similar to typical ones from industry. Course stresses creativity, synthesis, design judgment, and analysis of real-world problems. Oral and written presentations are required. Prereq: ENGR 3012 and MECH 3021. **Semester Hours:** 3 to 3

MECH 4147 - Engineering Economy
Applies economic and financial principles to evaluation of engineering alternatives. Calculation of annual costs, present worth, and prospective rates of return on investment. Review of systems analysis techniques, including simulation, linear programming, and project scheduling. Prereq: Junior standing in engineering. Cross-listed with CVEN 4077. **Semester Hours:** 3 to 3

MECH 4155 - Air Conditioning Design
Basic principles of heating and ventilating systems. Determination of heating and cooling loads. Design and layout of heating, ventilating, and air conditioning systems. Includes design project. Prereq: MECH 3022 and MECH 3042. **Semester Hours:** 3 to 3

MECH 4160 - Introduction to Operations Research
Introduces operations research, including mathematical programming models, models for decision alternatives, for procurement and inventory, and for queuing operations. Prereq: MATH 3195 or (MATH 3191 and MATH 3200). **Semester Hours:** 3 to 3

MECH 4163 - Rigid-Body Dynamics
Review of Newtonian dynamics, Lagrange’s equations for particles, systems, and rigid bodies. Conservative and non-conservative systems, moments of inertia, principal axes, angular momentum and Euler equations. Illustrations from spinning bodies, including tops, gyro-compass and rotating machinery. Prereq: MECH 2033 or CVEN 3111, MATH 3195 or (MATH 3191 and MATH 3200). Cross-listed with MECH 5163. **Semester Hours:** 3 to 3

MECH 4166 - Computerized Numerical Control (CNC) Manufacturing
Modern manufacturing engineering concepts using computerized numerical control (CNC). The students learn state-of-the-art CNC methodologies, including digitizing, drawing, generating codes, and
manufacturing, using modern CNC machines. Prereq: Junior standing in engineering. Cross-listed with MECH 5166. **Semester Hours:** 3 to 3

**MECH 4175 - Finite Element Analysis in Machine Design**
Students learn basic theory of finite element analysis (FEA) as it applies to stress analysis and design of mechanical components. Commercial package will be used giving students practical experience in the use of FEA. Prereq: MECH 3035. Cross-listed with MECH 5175. **Semester Hours:** 3 to 3

**MECH 4195 - Solid Modeling**
This is a basic course in solid modeling using Solid Works computer software. Topics include feature-based modeling, parametric part design, parent/child relationships, use of datums, patterning, relations, sweeps, blends, assembly, tolerancing, rapid prototyping, CNC manufacturing, CMM inspection, and Step standards. Prereq: Junior standing in engineering. **Semester Hours:** 3 to 3

**MECH 4208 - Special Topics**
Subject matter to be selected from topics of current technological interest. Credit to be arranged. Prereq: Senior standing or permission of instructor. **Semester Hours:** 1 to 3

**MECH 4840 - Independent Study**
This category is intended for upper division level special topics which students may wish to pursue on their own initiative, with guidance from a professor who agrees to limited consultation on the work and to award credit when the project is completed. **Semester Hours:** 1 to 3

**MECH 5020 - Biomechanics**
Static and dynamic biomechanical analysis, effects of mechanical loading on bone and cartilage, design considerations in orthopaedic devices, muscle function, biomechanics of human movement, cardiovascular biomechanics. **Semester Hours:** 3 to 3 **When Offered:** SUMMER

**MECH 5024 - Mechanical Behavior of Materials**
Students will learn about the mechanical behavior of materials using a multi-scale, materials oriented approach. The course will relate how atomistic and molecular mechanisms relate to macroscopic and continuum properties of materials across acute and long-term time scales. Prereq: MECH 3024, 3145 and 3043 (or equivalent courses). **Semester Hours:** 3 to 3 **When Offered:** FALL

**MECH 5110 - Numerical Methods for Engineers**
Introduces numerical analysis. Solution of linear and nonlinear equation systems. Numerical methods for ordinary and partial differential equations. Engineering applications. Prereq: Graduate standing or permission of instructor. Cross-listed with MECH 4110. **Semester Hours:** 3 to 3

**MECH 5114 - Designing with Composites**
Analysis and design of polymers and polymer-based composites. Failure criteria include static strength, stiffness, creep, fatigue, impact and fracture toughness. Design criteria include strength-to-weight ratio and cost-to-strength ratio. Prereq: Graduate standing or permission of instructor. Cross-listed with MECH 4114. **Semester Hours:** 3 to 3

**MECH 5115 - Applied Plasticity and Creep**
Plastic deformation of materials applied to bulk and sheet metal manufacturing processes such as extrusion, rolling and sheet metal. Linear and nonlinear viscoelastic creep with applications to plates and shells. Prereq: Graduate standing or permission of instructor. Cross-listed with MECH 4115. **Semester Hours:** 3 to 3
MECH 5120 - Methods of Engineering Analysis
Selected topics from real analyses with applications to engineering analyses. Topics include vector calculus, ordinary differential equations, partial differential equations and calculus of variations. Prereq: Graduate standing or permission of instructor. Cross-listed with MECH 4120. Semester Hours: 3 to 3

MECH 5121 - Introduction to Fluid Dynamics
Physical properties of gases and liquids; kinematics of flow fields; equations describing viscous, heat-conducting Newtonian fluids. Exact solutions and rational approximations for low- and high-speed dissipative flows, surface and internal waves, acoustics, stability, and potential flows. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

MECH 5122 - Macroscopic Thermodynamics
Axiomatic presentation of fundamentals of classical thermodynamics (first law); energy, work and heat. Equilibrium, reversible, and irreversible processes; entropy production and the second law. Applications to stability and phase equilibrium. Irreversible thermodynamics and the Onsager reciprocal relations. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

MECH 5123 - Introduction to Continuum Mechanics
Cartesian tensor notation. Deformation, strain, strain rate and compatibility. Definition of stress vector and tensor. Fundamental balance laws of mass, momentum and energy; entropy production inequality. Constitutive equations for elastic, viscoelastic and plastic materials; ideal, compressible, and viscous fluids. Beltrami-Mitchell and Navier-Stokes equations. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

MECH 5124 - Yield-Limited Behavior of Materials
Analysis of material behavior within the "elastic range," with emphasis on the phenomenon of yield and factors that influence it. Examination of the theory of dislocations; study of strengthening mechanisms in solids. Consideration of various time-dependent but reversible (inelastic) deformation phenomena. Presentation of appropriate engineering case studies to augment various topics. Prereq: MECH 5143. Semester Hours: 3 to 3

MECH 5133 - Theory of Inelastic Materials
Mathematical theory of linear viscoelasticity. Finite elements models. Solution of boundary-value problems in linear viscoelasticity. Non-Newtonian flow. Selected topics in nonlinear material behavior. Prereq: MECH 5143 or permission of instructor. Semester Hours: 3 to 3

MECH 5141 - Viscous Flow
Viscous incompressible fluid flows. Topics include derivation of equations governing viscous compressible fluid motion; specializations to simple flows; boundary-layer theory; similarity solutions; introduction to turbulence and Reynolds stresses. Prereq: Graduate standing or permission of instructor. Cross-listed with MECH 4141. Semester Hours: 3 to 3

MECH 5142 - Statistical Thermodynamics
Introduces the molecular interpretation and calculation of thermodynamic properties of matter, thermodynamic probability, distribution functions, Schrodinger wave equations and solutions and ensemble theory. Applications to ideal and real gases, solids, liquids, radiation, conduction electrons, and chemical equilibrium. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3
MECH 5143 - Theory of Elasticity
Review of the basic equations of linear theory of elasticity. St. Venant torsion and flexure. Plane strain, plane stress, and generalized plane stress. Application of conformal mapping and Fourier transform techniques. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

MECH 5144 - Plasticity and Creep
Inelastic deformation of materials such as metals, alloys, glasses, composites and polymers from the phenomenological and structural point of view. Case studies of plastic and creep deformations in engineering materials. Prereq: MECH 5143. Semester Hours: 3 to 3

MECH 5161 - Compressible Flow
Energy, continuity, and momentum principles applied to compressible flow; one-, two-, and three-dimensional subsonic, supersonic and hypersonic flows. Normal and oblique shocks, and method of characteristics. Prereq: MECH 5141 or permission of instructor. Semester Hours: 3 to 3

MECH 5162 - Heat Transfer I
Review of equations governing transport of heat by conduction and radiation. Analytical and numerical solution of boundary value problems representative of heat conduction in solids. Radiation properties of solids, liquids and gases; transport of heat by radiation. Prereq: Graduate standing or permission of instructor. Semester Hours: 3 to 3

MECH 5163 - Dynamics
Review of Newtonian dynamics, Lagrange's equation for particles, systems and rigid bodies. Conservative and non-conservative systems, moments of inertia, principal axes, angular momentum and Euler equations. Illustrations from spinning bodies, including tops, gyro-compass and rotating machinery. Prereq: Graduate standing or permission of instructor. Cross-listed with MECH 4163. Semester Hours: 3 to 3

MECH 5166 - Computerized Numerical Control (CNC) Manufacturing
Modern manufacturing engineering concepts using computerized numerical control (CNC). The students learn state-of-the-art CNC methodologies, including digitizing, drawing, generating codes, and manufacturing using modern CNC machines. Prereq: Graduate standing or permission of instructor. Cross-listed with MECH 4166. Semester Hours: 3 to 3

MECH 5172 - Heat Transfer II
Review of equations governing transport of heat in fluids in motion. Description of heat transfer in free and forced convection, including laminar and turbulent flow. Dimensional analysis and heat transfer correlations, numerical methods and combined heat transfer mechanisms. Prereq: MECH 5141 or permission of instructor. Semester Hours: 3 to 3

MECH 5175 - Finite Element Stress Analysis
Students learn basic theory of finite element analysis (FEA) as it applies to stress analysis and design of mechanical components. Commercial package will be used giving students practical experience in the use of FEA. Prereq: MECH 5143 or permission of instructor. Cross-listed with MECH 4175. Semester Hours: 3 to 3

MECH 5208 - Special Topics
Subject matter to be selected from topics of current technological interest. Credit to be arranged. Prereq: Graduate standing or permission of instructor. Semester Hours: 1 to 3
MECH 5840 - Independent Study
Available only through approval of the graduate advisor. Subjects arranged to fit needs of the particular student. Prereq: Graduate standing. **Semester Hours:** 1 to 3

MECH 5950 - Master’s Thesis
**Semester Hours:** 1 to 6

MECH 5960 - Master’s Report
Master of Science in Engineering report. Students seeking the Master of Science in Engineering, and who do not choose to do a thesis, must complete an individual project of an investigative and creative nature under the supervision of a member of the graduate faculty. **Semester Hours:** 3 to 3

MECH 5970 - Graduate Problem Course
The graduate problem course is for the solution of specific problems in MECH specialty areas. Each student is assigned a set of problems of some difficulty requiring the use of the literature of the various areas covered. Prereq: 15 hours of graduate level courses in MECH. **Semester Hours:** 3 to 3

MECH 8990 - Doctoral Dissertation
**Semester Hours:** 1 to 10 **When Offered:** FALL SPR
Management Courses (MGMT)

**MGMT 1000 - Introduction to Business**
This course will introduce students to the nature and role of business in our society. Problems confronting business are surveyed from a management, financial, economic and marketing viewpoint. Career opportunities in business are also considered. Students are advised to take this course during their freshman year and may not take it in the junior or senior years. Prereq: Open to freshman and sophomores, non-degree students and music majors at all levels. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

**MGMT 1111 - Business Freshman Seminar**
This course introduces students to the nature and role of business in our society. Career opportunities in business are also considered. MGMT 4950 - Special Topics in Management
A number of different topics in management are offered under this course number. Consult the 'Schedule Planner' for current course offerings. Prerequisites vary depending on the topic and instructor requirements. Cross-listed with MGMT 5800. **Semester Hours:** 3 to 3

MGMT 5800 - Special Topics in Management
A number of different topics in management are offered under this course number. Consult the Schedule Planner for current course offerings. Prerequisites vary depending on the topic and instructor requirements. Cross-listed with MGMT 4950. **Semester Hours:** 3 to 3
MGMT 5939 - Internship
Supervised experiences involving the application of concepts and skills in an employment situation. Prereq: 21 semester hours and 3.5 GPA. Semester Hours: 1 to 3

MGMT 6020 - Leadership in Difficult Times
The test of a leader often is their ability to lead their organizations through difficult times and crises. Such situations could be downsizing, product defects, ethical violations, a terrorist attack or a natural disaster. Successful management of these situations can strengthen and renew the organization. Inability to manage these situations can tarnish the organization's reputation and threaten its survival. This course examines leadership under stress and provides frameworks for categorizing and analyzing these difficult situations. The course also addresses strategies that leaders can use to enable their organizations to manage, recover and learn from these difficult experiences. Semester Hours: 3 to 3

MGMT 6040 - Managing Global Talent
This course has two objectives: (1) to understand the impact of cultural differences in the management of people in multinational firms; and (2) to compare and contrast critical human resource issues in the contexts of domestic and international operations. Topics include recruitment, staffing, training, performance appraisal, compensation, and labor and management relations in markets around the world. (This course qualifies as an international elective for the MS in International Business program.) Prereq: MGMT 6380 or BUSN 6520 (or equivalent). Cross-listed with INTB 6040. Semester Hours: 3 to 3

MGMT 6320 - Leading Organizational Change
Instruction in the analysis, diagnosis, and resolution of problems in organizing people at work. Models of organizational change are examined. Group experiences, analysis of cases and readings are stressed. Prereq: BUSN 6520, may be taken concurrently. Semester Hours: 3 to 3

MGMT 6360 - Designing Effective Organizations
Examines how to design organizations within the context of environmental, technological, and task constraints. The emphasis is on learning how to recognize and correct structural problems through the analysis of existing organizations in which the students are involved. Prereq: BUSN 6520, may be taken concurrently. Semester Hours: 3 to 3

MGMT 6380 - Managing People for Competitive Advantage
Focuses on the management of human resources in organizations. Oriented toward the practical application of human resources management principles in areas such as: equal employment opportunity, affirmative action, human resources planning, recruitment, staffing, benefits and compensation, labor relations, training, career management, performance management, and occupational health and safety. Prereq: BUSN 6520, may be taken concurrently. Semester Hours: 3 to 3

MGMT 6710 - Human Resources Management: Staffing
Focuses on the design and implementation of human resources management systems to recruit and select employees. Areas of study include planning, job analysis, external and internal recruitment and selection, and decision making. Prereq: MGMT 6380. Semester Hours: 3 to 3

MGMT 6720 - Human Resources Management: Training
Methods, theories, research findings, and issues in training. Topics include how to design, deliver, and evaluate training programs. Prereq: MGMT 6380. Cross-listed with MGMT 4430. Semester Hours: 3 to 3
MGMT 6730 - Human Resources Management: Performance Management
Focuses on the design and implementation of human resources management systems to assess and enhance employee performance. Areas of study include performance measurement, rater training, goal setting, and feedback. Prereq: MGMT 6380. Semester Hours: 3 to 3

MGMT 6740 - Human Resources Management: Compensation
Develop and administer pay systems considering economic and social pressures, traditional approaches and strategic choices in managing compensation. Current theory research and practice. Students design a compensation strategy and a system that translates that strategy into reality. Prereq: MGMT 6380 and BUSN 6530. Cross-listed with MGMT 4450. Semester Hours: 3 to 3

MGMT 6750 - HRM: Investing in People: HR Analytics
Managing talent-organization and deployment-and connections between talent and strategy in organizations. Rooted in a systematic, logical approach that challenges traditional ideas. Stresses the logical connections between progressive HR practices and firm performance and the use of data to demonstrate financial impact of the connections. Semester Hours: 3 to 3

MGMT 6780 - Small Business Management
The primary objective of this course is to teach future small business owners the practical aspects of small business management and to develop the skills necessary to improve the odds of success. The course will consider strategies to leverage limited resources for maximum effect in managing the small business enterprise. Also, this course covers small organization and group behavior, performance, leadership and motivation in small business settings and focuses on the owner/manager as the principal success factor in the context of a small organization. Semester Hours: 3 to 3

MGMT 6800 - Special Topics in Management
Current topics in management will be occasionally offered. Consult the 'Schedule Planner' for specific offerings or contact an advisor for information. Semester Hours: 3 to 3

MGMT 6801 - Career Strategies
The downsizing, restructuring, and re-engineering so prevalent in U.S. industries and companies have strongly affected the job and career market. Every individual must sharpen his/her competencies and skills in order to compete effectively in the changing job market. This course is designed to assist students in understanding and operating in this difficult job market. Using many of the concepts that organizations use in their strategy formulation process, and coupled with individual techniques and skills proven effective in job searches and career planning, this course prepares students to deal with the issues involved in finding a job and pursuing a career. Semester Hours: 3 to 3

MGMT 6803 - Visionary Leadership
Examines the challenges faced by visionary leaders and the approaches used by these individuals (creation, articulation, and implementation of vision) to transform organizations. Participants utilize these approaches employed by effective leaders to develop plans for their own organizational success. Group experiences, applied readings, and videos are used to clarify the opportunities available. Prereq: BUSN 6520, may be taken concurrently. Semester Hours: 3 to 3

MGMT 6804 - Bargaining and Negotiation
Designed as a seminar in bargaining, negotiation, and interpersonal conflict management. Through simulations, role plays and personal experience, students practice and develop their negotiation skills and see how negotiations differ depending on the type of situation encountered. Specific topics covered include: the nature of negotiation, the role of the negotiation context, interdependence and power,
strategies and tactics of distributive and integrative bargaining, negotiation ethics and interpersonal conflicting resolution. Prereq: BUSN 6520, may be taken concurrently. **Semester Hours:** 3 to 3

**MGMT 6806 - Corporate Entrepreneurship**
Competitive performance in a global economy requires continuous innovation and new business growth. The creation and development of new ventures is a primary strategy for internally-generated growth. Managing innovation and new ventures requires attitudes, knowledge, and practices different from those usually required for the management of mature business units. This course provides the perspective, knowledge, and specific skills required for successful entrepreneurial management. **Semester Hours:** 3 to 3

**MGMT 6808 - Leadership Development**
Instruction in the design and practice of leadership development. Case studies of effective organizations will be examined and a variety of assessment and development activities will be completed as part of the course. Students will learn how to develop others while experiencing the development techniques first hand. **Semester Hours:** 3 to 3

**MGMT 6820 - Management Field Studies**
The objective of this course is to provide an opportunity for the in-depth examination of an actual management problem in a local organization. Much like an independent study conducted under faculty guidance, each student will execute a unique project suited to his or her interests. Priority is given to MGMT students. **Semester Hours:** 3 to 3

**MGMT 6821 - Managing for Sustainability**
This course will consider how companies are using social responsibility as a competitive advantage. The so-called green revolution is calling for organizations to take on increasing responsibility for environmental conservation, employee well being, and community development. This course considers how organizations can work with various stockholders (employees, customers, communities, society-at-large) to develop and promote mutually beneficial products and solutions to key social needs and concerns. **Semester Hours:** 3 to 3

**MGMT 6822 - Business Ethics and Corporate Social Responsibility**
Covers business ethics and corporate social responsibility in the global contexts of employment, marketing, product liability, the environment and other areas. Students compare ethical theories, including utilitarianism, Kantian, Rawlsian, stockholder, stakeholder and social contract and apply some or all of these theories to actual and hypothetical case studies. The doctrine of corporate social responsibility is defined and explored and diverging views of corporate social responsibility are discussed. Examples of how corporate social responsibility can increase a company's goodwill and net income are analyzed. **Semester Hours:** 3 to 3

**MGMT 6823 - The Sustainable Business Opportunity**
This course examines the negative impact of a rapidly growing global economy on the natural and human environment. It shows that the need to create a more sustainable global economy represents a huge opportunity for business and how sustainability-based strategies drive innovation, competitive advantage and improved financial performance. It will examine both environmental aspects of sustainability like green supply chains, lifecycle analysis, energy and water efficiency, as well as initiatives that nurture and enhance the value of our human resources such as community development, employee and customer relations, employee wellness, telecommuting, and other stakeholder engagement in sustainability. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

Service industries such as health care, finance, information, entertainment, retailing, government, and professional services comprise 80% of the total employment and GDP of the US. Manufacturing firms increasing look to value-added services to improve their bottom lines; yet customer satisfaction with services has been consistently lower than with goods. This course teaches students how to design and deliver high quality services, improve customer satisfaction, and thereby increase revenues and profitability. It also addresses how small, medium, and large firms can develop marketing plans and strategies in the new service environment. A variety of teaching methods may be used to demonstrate
these concepts, such as cases, projects, field experiences, and/or guest speakers. **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**MKTG 6050 - Marketing Research**
The objectives relate to effective marketing information management and include: (1) developing an understanding of the techniques and procedures that can be used to generate timely and relevant marketing information; (2) gaining experience in developing and analyzing information that is decision oriented; and (3) being able to make recommendations and decisions based on relevant and timely information. Computer analysis and projects are employed. Prereq: BUSN 6560 (may be taken concurrently). **Semester Hours:** 3 to 3 **When Offered:** FALL SPR

**MKTG 6060 - Buyer Behavior**
Why do consumers buy? How can marketing activities influence buyer behavior? Answers to these questions are key to marketing success & business fortune. In this course, we explore how to understand the heart & soul of consumers & examine the strategic implications of consumer psychology. Course participants conduct a market segmentation project that identifies & dissects various buyer groups within a chosen market. **Semester Hours:** 3 to 3

**MKTG 6070 - Integrated Marketing Communications and Brand Identity**
A brand’s identity has a substantial influence on an organization’s financial wealth. But brand identity is not simply the result of a great product or a creative ad. Utilizing many real examples, historic approaches, and current trends, this course explores how integrated marketing communications help build a brand identity that reverberates with consumers. Participants create an integrated marketing communications campaign. Prereq: BUSN 6560 (may be taken concurrently). **Semester Hours:** 3 to 3

**MKTG 6080 - Marketing in Emerging Markets**
Explores problems, practices and strategies involved in marketing goods and services in emerging markets. Emphasizes analysis of uncontrollable environmental forces, including cultures, government, legal, systems and economic conditions as they affect marketing planning. Prereq: BUSN 6560. Note: students cannot receive credit for both MKTG 6080 and INTB 6082. Cross-listed with INTB 6082. **Semester Hours:** 3 to 3

**MKTG 6090 - Customer Relationship Management**
Involves the management of customer relationships to maximize customer service and its associated benefits at minimal cost. Includes services marketing concepts and techniques, IT applications, and software. Designed to acquaint students with practices and issues in state-of-the-art customer relationship management systems in an array of different types of organizations. The course initially focuses on the nature of customer relationship management (CRM) the interaction between strategic management planning, corporate culture and CRM. Other topics examined include successful models of CRM, managing the employee or CRM interface, marketing research, and CRM, and customer trust, loyalty, CRM customer service levels, customer service levels, customer profitability or metrics, selecting and integrating CRM software, CRM integration and timing of CRM roll-out. Prereq: BUSN 6560 (may be taken concurrently). **Semester Hours:** 3 to 3

**MKTG 6091 - Strategic Product Marketing**
Familiarizes students with key theories and practices regarding products. Successful development of a new product, or extending the life cycle of an existing product. Outlines and necessitates the understanding of product development, key concepts related to successful product management over the course of its life cycle including the way the product function adds synergy to other marketing activities and, in turn, benefits from them. **Semester Hours:** 3 to 3
MKTG 6092 - Internet Marketing
Explores how the marketing function has irreversibly changed as a result of the internet and to lay out basic marketing strategies for successful online marketing. Prereq: BUSN 6560 (may be taken concurrently). **Semester Hours:** 3 to 3

MKTG 6094 - Marketing Issues in the Chinese Environment
This course assesses numerous marketing and marketing related topics in the Chinese environment with the objective of helping the graduate student develop managerial and marketing expertise. In specific, the course pinpoints key developments in the Chinese business environment, develops expertise in conducting market opportunity analysis, assesses market entry conditions and strategies and applies marketing mix strategies in the context of the Chinese environment. Note: It is recommended for students to take BUSN 6560 or INTB 6000 prior to this course. Cross-listed with INTB 6094. **Semester Hours:** 3 to 3

MKTG 6200 - Marketing Dashboard Metrics
Dashboards help us monitor the functioning of various systems by displaying real-time process or outcome metrics. In the past, such indicators were often not available until the end of a period, which made them more "post-mortems" than management tools. **Semester Hours:** 3 to 3

MKTG 6700 - Marketing Travel Study
This is a 2-week travel course, designed to focus on the marketing of the specific country we visit. In the past the travel course has been to Spain and Costa Rica, but the country of destination may be different every time (usually offered every other year). While in the country, students will visit companies (such as advertising agencies, marketing research firms, local grocery stores, marketing departments of multinational corporations, etc.), have lectures/discussions on marketing in that country and work on a marketing plan for a local company or not-for-profit organization. Prereq: BUSN 6560. **Semester Hours:** 3 to 3

MKTG 6800 - Topics in Marketing
Courses offered irregularly for the purpose of presenting new subject matter in marketing. Consult the current 'Schedule Planner' for semester offerings. Prereq: BUSN 6560. **Semester Hours:** 3 to 3

MKTG 6820 - Sports & Entertainment Marketing
This course focuses on techniques for formulating marketing plans for various types of sports organizations. The course deals with marketing issues particularly germane to sports organizations such as: fans as consumers, fan loyalty, sports pricing, servicescapes, player development and sports sponsorships. This course includes lectures, guest speakers, cases, examinations and student group projects. **Semester Hours:** 3 to 3

MKTG 6830 - Marketing & Global Sustainability
Marketing & Global Sustainability focuses on the role of marketing in sustainable for-profit and not-for-profit companies from a global perspective. The course examines sustainable business practices and trends; green brands, green labels, and greenwash. **Semester Hours:** 3 to 3

MKTG 6840 - Independent Study
Allowed only under special and unusual circumstances. Regularly scheduled courses cannot be taken as independent study. Prereq: Permission of instructor. **Semester Hours:** 1 to 8
Modern Languages Courses (MLNG)

MLNG 1111 - Freshman Seminar  
**Semester Hours:** 1 to 3

MLNG 1995 - Travel Study Abroad  
Entry-level language and cultural instruction in country of target language. Focuses on vocabulary and grammar to teach students to express themselves in everyday situations. A basic knowledge of the language and culture will be developed through listening, reading, writing and speaking. The classes will be taught primarily in the target language and will be supplemented by cultural excursions.  
**Semester Hours:** 1 to 15

MLNG 2939 - Internship  
**Semester Hours:** 1 to 3

MLNG 4690 - Methods of Teaching Modern Languages  
Methodology of teaching foreign language in an urban setting. Note: Requirement for language majors in the teacher certification program, School of Education, CU-Denver. Cross-listed with MLNG 5690.  
**Semester Hours:** 3 to 3

MLNG 4691 - Methods of Teaching Modern Languages II  
A continuation of the study of modern language teaching methods. This second course has an emphasis on experiential learning through individual teaching demonstrations, class observations, as well as team teaching with experienced instructors. Prereq: MLNG 4690. Cross-listed with MLNG 5691.  
**Semester Hours:** 3 to 3

MLNG 5690 - Methods of Teaching Modern Languages  
Methodology of teaching foreign language in an urban setting. Requirement for language majors in the teacher certification program, School of Education, CU-Denver. Cross-listed with MLNG 4690.  
**Semester Hours:** 3 to 3

MLNG 5691 - Methods of Teaching Modern Languages II  
A continuation of the study of modern language teaching methods. This second course has an emphasis on experiential learning through individual teaching demonstrations, class observations, as well as team teaching with experienced instructors. Prereq: MLNG 5690. Cross-listed with MLNG 4691.  
**Semester Hours:** 3 to 3
Recording Arts Courses (MSRA)

**MSRA 5000 - Introduction to Graduate Studies**
Surveys existing literature and research in science, technology, and pedagogy of recording arts. Extensive use of available resources in library, electronic and print, trade and scientific publications are explored. Use of computer applications for research and publication are developed. **Semester Hours:** 3 to 3

**MSRA 5001 - MSRA Research Seminar**
In preparation for their thesis/portfolio, students learn research techniques by: applying skills from MSRA 5000, learning research design, performing research, interpreting results, and writing. Students will discover opportunities to add to the body of audio literature and recording techniques. **Semester Hours:** 3 to 3

**MSRA 5004 - Topics in Media Forensics**
Students learn theory and application through topical subjects designed to enhance theoretical and practical training in the analysis of forensic media. Emphasis will be placed on emerging technologies, methodological developments, and strengthening fundamental skills. These courses are repeatable for credit. **Semester Hours:** 1 to 3

**MSRA 5014 - Research Practices in Media Forensics**
An introduction to practical research techniques and forensic science periodicals provides students with a foundation for projects and reports in subsequent classes and for the research thesis. Library resources, research design, writing styles, and information technology will be discussed. **Semester Hours:** 3 to 3
**When Offered:** FALL

**MSRA 5054 - Experiential Lab**
Students will understand laboratory procedures and the application of A/V technology in the field and in analysis through professional conferences and site visits to crime labs and government agencies. Students will respond to experiences regarding presentation, demonstration, and discussion components. **Semester Hours:** 1 to 1

**MSRA 5114 - Foundations in Media Forensics**
Students learn the foundational processes integral to forensic audio, video, and image analysis demonstrating knowledge through reading responses and documentation of procedures and methodology used in assigned projects. Topics include: media recording technology, analog/digital theory, multimedia compression, and equipment characterization. **Semester Hours:** 3 to 3 **When Offered:** FALL

**MSRA 5124 - Forensic Science and Litigation**
Critical analysis of legal precedent and court proceedings reveal to students the correlation between science and law in the litigation of forensic evidence. Assigned reading and research papers regarding evidence admissibility and scientific methodology will prepare students for evidence examination. **Semester Hours:** 3 to 3 **When Offered:** FALL

**MSRA 5134 - Computer Forensics**
Students explore computer forensics through guided projects and group discussion. An overview of computer hardware/software and characterization of storage media and file types will be covered through mock evidence examination documenting the search, seizure, and acquisition of forensic media. **Semester Hours:** 3 to 3 **When Offered:** FALL
MSRA 5144 - MATLAB Foundations
An introduction to MATLAB workflow and its use in Media Forensics will be explored. Students will learn how to build program commands in scripts for signal analysis and to display graphical representations of data and statistics. **Semester Hours:** 2 to 2  **When Offered:** *SPRING*

MSRA 5214 - Forensic Audio Analysis
Students learn concepts through the application of techniques related to audio enhancement, digital media authentication, acoustic analysis, and automatic speaker recognition. The acquisition and analysis of digital evidence applying reliable methods prepares students for forensic audio analysis in the laboratory. **Semester Hours:** 3 to 3  **When Offered:** *SPRING*

MSRA 5224 - Forensic Video and Image Analysis
Students learn concepts through the application of techniques related to forensic video collection and image enhancement, authentication, photogrammetry, and comparison. The acquisition and analysis of digital evidence applying reliable methods prepares students for working on forensic imagery in the laboratory. **Semester Hours:** 3 to 3  **When Offered:** *SPRING*

MSRA 5244 - Mobile Phone Forensics
Students learn concepts regarding the proper handling of mobile phones to ensure evidence integrity and approaches to address the ever-changing field. Students are prepared for the acquisition and analysis of forensic media on personal devices through ex **Semester Hours:** 1 to 1

MSRA 5254 - MATLAB for Forensic Audio Analysis
Advanced application of MATLAB for the forensic analysis of audio will be presented including file access, FFT and waveform plotting, and signal detection. Through the exploration of correlation and using mean quadratic difference students will be prepared for media authentication. **Semester Hours:** 1 to 1  **When Offered:** *FALL*

MSRA 5264 - MATLAB for Forensic Video and Image Analysis
Advanced application of MATLAB for the forensic analysis of images will be presented covering image processing and analysis techniques. Through exploring analyses such as Photo Response Non-Uniformity and the BI-Dimensional DFT, students are prepared for image authenticity examinations. **Semester Hours:** 1 to 1  **When Offered:** *SPRING*

MSRA 5314 - Report Writing and Court Testimony
Students are prepared for expert witness testimony through the analysis of mock evidence, complimentary report preparation, and subsequent mock trial. This capstone experience will demonstrate a student?s technical writing and presentation skills and exercise the creation of demonstrative materials. **Semester Hours:** 3 to 3  **When Offered:** *SUMMER*

MSRA 5500 - Topics in Professional Audio
Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry. **Semester Hours:** 1 to 1

MSRA 5505 - Audio Post Production I
Reviews all aspects of audio synchronized with picture, including music, sound effects, narration, and dialog replacement. Topics studied with respect to film, video and multi-media. **Semester Hours:** 3 to 3
MSRA 5510 - Topics in Recording Arts
Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

MSRA 5530 - Live Sound Reinforcement
This course focuses on the basic elements of sound reinforcement: acoustics, equalization, equipment and mixing techniques. The major emphasis is the production of the final sonic product. **Semester Hours:** 3 to 3

MSRA 5550 - Audio Production III
Advanced studies in sound recording and reinforcement, aesthetics and techniques of multi-track analog and digital recording and stereo imaging. Team lab recording projects. **Semester Hours:** 3 to 3

MSRA 5560 - Mastering & Advanced Digital Audio
A study and practice of the art of mastering. Topics covered include: history, monitoring, signal flow, metering, jitter, audio restoration, limiting, creating a CD pre-master, & mastering for new media. Students will get practical experience mastering their own projects. **Semester Hours:** 3 to 3

MSRA 5575 - Graduate Surround Sound
This lecture-lab course deals with surround sound in film, digital TV and DVD's. Topics include monitoring, microphone techniques, recording, mixing, mastering, delivery formats and psychoacoustics. Students work on two lab projects in the semester. **Semester Hours:** 3 to 3

MSRA 5576 - Surround Sound II
Students will work on advanced surround sound projects and study mixing aesthetics, high-definition technology and authoring. Students will have advanced knowledge of these topics and produce professional, competitive material for their demo. Prereq: MSRA 5550, 5575 and 5505, or permission of instructor. **Semester Hours:** 4 to 4

MSRA 5580 - Graduate Audio Seminar I
Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. **Semester Hours:** 3 to 3

MSRA 5581 - Graduate Audio Seminar II
Capstone project based course in which students complete professional quality projects in music production and/or post production. Students refine their engineering skills and develop new skills required for integration in the music industry such as portfolio design and resume development. **Semester Hours:** 3 to 3

MSRA 5590 - Graduate Audio Production
Deals with advanced audio skills for music recording, including technical and artistic considerations. This is a required course for the MSRA degree. **Semester Hours:** 3 to 3

MSRA 5600 - Topics in Music
Various topics relating to the study of music performance, music technology and music business. **Semester Hours:** 1 to 3
MSRA 5605 - Audio Post Production II
Students will learn advanced Pro Tools techniques by designing, conceptualizing, and completing sound for a student film project. This interdisciplinary course prepares students for working relationships between Recording Arts, Film and Video areas and an entry level job in post production. **Semester Hours:** 3 to 3

MSRA 5820 - Digital Music Techniques
Studies the general principles and applications of digital music technology, emphasizing the function and operation of specific computer software. Topics include digital audio workstations, MIDI sequencers, digital signal processing programs, and dist. **Semester Hours:** 3 to 3

MSRA 5840 - Independent Study for MSRA
Allows graduate students to pursue in-depth study of an audio-related topic, to be discussed with and approved by the Graduate Advisor. A final report or other tangible results will be determined on a case-by-case basis. **Semester Hours:** 1 to 3

MSRA 6214 - Forensic Audio Analysis
Students learn concepts through the application of techniques related to audio enhancement, digital media authentication, acoustic analysis, and automatic speaker recognition. The acquisition and analysis of digital evidence applying reliable methods. **Semester Hours:** 3 to 3

MSRA 6224 - Forensic Video and Image Analysis
Students learn concepts through the application of techniques related to forensic video collection and image enhancement, authentication, photogrammetry, and comparison. The acquisition and analysis of digital evidence applying reliable methods prepare **Semester Hours:** 3 to 3

MSRA 6254 - MATLAB for Forensic Audio Analysis
Advanced application of MATLAB for the forensic analysis of audio will be presented including file access, FFT and waveform plotting, and signal detection. Through the exploration of correlation and using mean quadratic difference students will be prepared **Semester Hours:** 1 to 1

MSRA 6264 - MATLAB for Forensic Video and Image Analysis
Advanced application of MATLAB for the forensic analysis of images will be presented covering image processing and analysis techniques. Through exploring analyses such as Photo Response Non-Uniformity and the Bi-Dimensional DFT, students are prepared **Semester Hours:** 1 to 1

MSRA 6510 - Graduate Audio Studies Pedagogy
Surveys available resources for audio education. Interdisciplinary materials in physics, acoustics, engineering, music, broadcast, medicine, psychology, multi-media, theater, and film or video are reviewed. Emphasis on design and development of new methods and materials are pursued. (MSRA graduate students only.) Prereq: MUSC 5000. **Semester Hours:** 3 to 3

MSRA 6550 - Sound Design
Deals with designing sound for live theater, film, video, television, theme parks, games and soundscapes. Focuses on using technology to achieve specific esthetic aspects of audio production. This is accomplished through lectures, listening assignments, research and lab practice. (For graduate students only.) **Semester Hours:** 4 to 4
**MSRA 6950 - Thesis in Professional Audio**
With the guidance of a thesis advisor, each candidate for the MSRA degree select an approved topic for scholarly review, research and publication. The approved materials are evaluated for written and oral defense. Prereq: MUSC 5000, 5590, 6510, 6580, 6530. **Semester Hours:** 4 to 4

**MSRA 6951 - Professional Audio Portfolio Thesis**
With the guidance of a portfolio advisor, each candidate for the MSRA degree produce specified documentation and audio materials that reflect the career intentions of the candidate. A completed "Show kit" or professional "Demo" of the candidate's specialty are produced. The approved materials are evaluated for written, audio and oral defense. **Semester Hours:** 4 to 4

**MSRA 6954 - Research Thesis in Media Forensics**
Students work closely with their thesis advisor in selecting a topic for original research and scientific publication. This capstone project creates an area of specialty for MSRA-MF degree candidates. Approved materials are evaluated through report subm **Semester Hours:** 4 to 4
Math Education Courses (MTED)

MTED 5030 - Theories Of Mathematics Learning
Students will become familiar with foundational theories and conceptual frameworks in mathematics education. **Semester Hours:** 3 to 3

MTED 5040 - Mathematics Teaching - Theory and Practice
This course is designed for educators interested in developing research-based understandings and practices of K-12 mathematics teaching and learning. **Semester Hours:** 3 to 3

MTED 5050 - Critique Of Mathematics Education Research
This course is designed to deepen students' understanding of various studies in the field and increase their competence, confidence and enthusiasm in reading and applying those studies. **Semester Hours:** 3 to 3

MTED 5060 - Developmental Pathways In Students' Mathematical Thinking
The purpose of this course is for participants to develop research-based ways of determining (a) what to look for, (b) how to look for, (c) how to synthesize and report on, and (d) how to incorporate in pedagogy data-grounded inferences about children's mathematical thinking. **Semester Hours:** 3 to 3

MTED 5621 - A World Of (different) Numbers
Teachers' learning will focus on the four main number systems - Integers, Rational, Real, and Complex; on how students may progress from one to another, and on how teaching may promote students' progress. **Semester Hours:** 3 to 3

MTED 5622 - Expanding Concepts Of Algebra
Teachers' learning will focus on the key ideas of equivalence, variable, co-variation, and function; on how students may progress from one to another, and on how teaching may promote students' progress. **Semester Hours:** 3 to 3

MTED 5623 - Geometrical Ways Of Reasoning
Teachers' learning will focus on geometrical reasoning in two and three dimensions, within Euclidian and non-Euclidian axiomatic systems; on how students may progress from one to another, and on how teaching may promote students' progress. **Semester Hours:** 3 to 3

MTED 7030 - Theories Of Mathematics Learning
Students will become familiar with foundational theories and conceptual frameworks in mathematics education. **Semester Hours:** 3 to 3

MTED 7040 - Mathematics Teaching - Theory and Practice
This course is designed for educators interested in developing research-based understandings and practices of K-12 mathematics teaching and learning. **Semester Hours:** 3 to 3

MTED 7050 - Critique Of Mathematics Education Research
This course is designed to deepen students' understanding of various studies in the field and increase their competence, confidence and enthusiasm in reading and applying those studies. **Semester Hours:** 3 to 3
MTED 7060 - Developmental Pathways In Students’ Mathematical Thinking

The purpose of this course is for participants to develop research-based ways of determining (a) what to look for, (b) how to look for, (c) how to synthesize and report on, and (d) how to incorporate in pedagogy data-grounded inferences about children’s mathematical thinking. **Semester Hours:** 3 to 3
**Music Courses (MUSC)**

**MUSC 1111 - Freshman Seminar**
*Semester Hours: 3 to 3*

**MUSC 2450 - Performing Arts Management and Presentation**
Introduces students to nonprofit and for-profit arts organization issues in performance presentation including organization structure, performance production and management, development of leadership and organizational skills as well as a general understanding of the profession. *Semester Hours: 3 to 3*

**MUSC 2540 - Audio Production I**
Operating principles and performance characteristics of microphones, amplifiers, speaker systems, equalizers, mixers and multi-track recorders; acoustics of music, auditoriums and recording studios. Prereq: MUSC 2700. *Semester Hours: 3 to 3*

**MUSC 2560 - Audio Production II**
Studies include theoretical and practical music production techniques with topics covering digital audio workstations, signal flow, digital signal processing, MIDI production, synthesis, and sampling. Team lab recording projects involve recording, mixing, and other music production techniques. Prereq: MUSC 2540. *Semester Hours: 3 to 3*

**MUSC 2700 - Introduction to Music Business**
Introduces music as a business and a product, emphasizing music publishing, recording, broadcasting, marketing, licensing and legal aspects. *Semester Hours: 3 to 3*

**MUSC 2815 - Music Industry Topics**
Various topics related to music business and recording arts industries. *Semester Hours: 3 to 3*

**MUSC 3125 - Sound and Music for Video Games**
This course will give students an overview of the function of sound and music for video games including: history, sound engines, types of audio utilized, stereo and surround sound localization, music capabilities of hardware configurations and future trends in sound for video games. Prereq: MUSC 2540 and MUSC 2470 or permission of instructor. *Semester Hours: 1 to 1*

**MUSC 3210 - Music and Entertainment Marketing**
In this course students learn the essential elements of marketing as applied to the music and entertainment industry. Course topics include: marketing principles, theories and tools utilized in the music and entertainment businesses and specific industry practices and applications. Prereq: MUSC 2700. *Semester Hours: 3 to 3*

**MUSC 3220 - Artist Management**
Students learn the theory and practice of artist management as it relates to developing a career through entrepreneurship, establishing business structures for the artist, and concepts including: promotion, live performance, recording, contracts, and essential business practices. Prereq: MUSC 2700 *Semester Hours: 3 to 3*

**MUSC 3550 - Critical Listening for Recording Arts**
Students will be trained to recognize: boosts and cuts in different bands of frequencies at increasingly small increments, types of distortion, parameters for compression, delay, reverb and stereo imaging.
Students will develop a vocabulary for describing sounds and improving auditory memory. Prereq: MUSC 2560 and PHYS 3620. Coreq: MUSC 4550. **Semester Hours:** 3 to 3

**MUSC 3615 - Topics In Music Business**  
Various topics relating to the study of music business. **Semester Hours:** 3 to 3

**MUSC 3690 - Concert Promotion, Tour, and Venue Management**  
This course gives students a working knowledge of touring, presenting, promoting, marketing and management of live concerts. They will undertake an in-depth analysis from various points of reference: issues for agent, independent promoter, venue manager, tour/production manager and performer. Prereq: MUSC 3210 and MUSC 3220. **Semester Hours:** 3 to 3

**MUSC 3700 - Music and Entertainment Business in the Digital Age**  
In this course students learn the trends and developments changing the industry in the Digital Age. Course focuses on current technology, terminology and business models shaping the industry, preparing students for entry into an evolving music and entertainment industry. **Semester Hours:** 3 to 3

**MUSC 3710 - CAM Records**  
Provides students with an opportunity to use knowledge and skills from music business courses to create and execute initiatives while partnering with local artists and music-related entities for a hands-on learning experience that benefits the student and the industry. **Semester Hours:** 3 to 3

**MUSC 3715 - Music Business Modules**  
Modular courses intended to expose students to specific business and management aspects of various subindustries within the music industry. Prereq: MUSC 3210. **Semester Hours:** 1 to 1

**MUSC 3720 - Law and the Music Industry**  
Students will learn how to use and analyze music law principles through a review of essential court case studies. Students will be tested on lecture material and provided with an opportunity to complete research papers for a more in-depth examination. Prereq: MUSC 3690. **Semester Hours:** 3 to 3

**MUSC 3755 - Music Publishing**  
Students will learn key issues related to music publishing and song marketing activities, as well as the function and responsibilities of music publishers. Students will gain insight into skills needed to operate a music publishing company. Prereq: MUSC. **Semester Hours:** 3 to 3

**MUSC 3785 - Current Issues In the Music Business**  
Class discusses and analyzes cutting-edge business and legal developments in the music industry, focusing particularly on the developments' impact on historical traditions, career paths and creative applications in the field. Prereq: MUSC 3690. **Semester Hours:** 3 to 3

**MUSC 3790 - Video Production in the Arts: Music**  
Introduces the development of the contemporary music video with an emphasis on stylistic and technical analysis. Combines a lecture demonstration format with hands-on videography. Open to music, theatre, fine arts majors, and students who have successfully completed at least one College of Arts and Media course. **Semester Hours:** 4 to 4

**MUSC 3939 - Internship**  
**Semester Hours:** 1 to 3
**MUSC 4100 - Advanced Composition**
Composition of extended forms. May be repeated once for credit. Prereq: MUSC 3200. **Semester Hours:** 2 to 2

**MUSC 4500 - Topics in Professional Audio**
Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry. Prereq: MUSC 4550. Cross-listed with MSRA 5500. **Semester Hours:** 1 to 1

**MUSC 4505 - Audio Post Production I**
Reviews all aspects of audio synchronized with picture, including music, sound effects, narration, and dialog replacement. Topics studied with respect to film, video and multi-media. Prereq: MUSC 4560. Coreq: MUSC 4580. Cross-listed with MSRA 5505. **Semester Hours:** 3 to 3

**MUSC 4510 - Topics in Recording Arts**
Selected topical subjects to include live or studio sound recording, sound reinforcement, new technologies or practices in the audio industry. **Semester Hours:** 3 to 3 **When Offered:** FASPRSUM

**MUSC 4530 - Live Sound Reinforcement**
This course focuses on the basic elements of sound reinforcement: acoustics, equalization, equipment and mixing techniques. The major emphasis is the production of the final sonic product. Prereq: MUSC 4550. **Semester Hours:** 3 to 3

**MUSC 4550 - Audio Production III**
Advanced studies in sound recording and reinforcement, aesthetics and techniques of multi-track digital recording and stereo imaging. Team lab recording projects. Prereq: MUSC 2560 and PHYS 3620. Coreq: MUSC 3550. Cross-listed with MSRA 5550. **Semester Hours:** 3 to 3

**MUSC 4560 - Mastering & Advanced Digital Audio**
A study and practice of the art of mastering. Topics covered include: history, monitoring, signal flow, metering, jitter, audio restoration, limiting, creating a CD pre-master, & mastering for new media. Students will get practical experience mastering their own projects. Prereq: MUSC 3550 and MUSC 4550. **Semester Hours:** 3 to 3

**MUSC 4575 - Surround Sound**
This lecture-lab course deals with surround sound in film, digital TV and DVDs. Topics include monitoring, microphone techniques, recording, mixing, mastering, delivery formats and psychoacoustics. Students work on two lab projects in the semester. Prereq: MUSC 4505. Cross-listed with MSRA 5575. **Semester Hours:** 3 to 3

**MUSC 4580 - Audio Production Seminar I**
Faculty and majors of the music engineering program assemble to discuss and demonstrate issues of artistic and technical applications of recording technology. Student projects, faculty, and guest lectures provide topical focus. (Music facility fee applies.) Prereq: MUSC 4560. Coreq: MUSC 4505. Cross-listed with MSRA 5580. **Semester Hours:** 3 to 3

**MUSC 4581 - Audio Production Seminar II**
A capstone project based course in which students complete professional quality projects in music production and/or post production. Students refine their engineering skills and develop new skills
required for integration in the music industry such as portfolio design and resume development. Prereq: MUSC 4580. Cross-listed with MSRA 5581. **Semester Hours:** 3 to 3

**MUSC 4605 - Audio Post Production II**
Students will learn advanced Pro Tools techniques by designing, conceptualizing, and completing sound for a student film project. This interdisciplinary course prepares students for working relationships between Recording Arts, Film and Video areas and an entry level job in post production. Prereq: MUSC 4505 and MUSC 4580. Cross-listed with MSRA 5605. **Semester Hours:** 3 to 3

**MUSC 4740 - Music Business Analysis**
Students learn to analyze specific managerial situations unique to the music and entertainment industries and will understand aspects of finance, taxation, and management science. Prereq: MUSC 3720. **Semester Hours:** 3 to 3

**MUSC 4820 - Digital Music Techniques**
Studies the general principles and applications of digital music technology, emphasizing the function and operation of specific computer software. Topics include digital audio workstations, MIDI sequencers, digital signal processing programs, and distribu **Semester Hours:** 3 to 3

**MUSC 4890 - Music Business Senior Seminar**
Seminar activities focus on students developing, discussing and completing individual capstone projects. This includes an in-depth research paper and in-class presentation to allow students to explore their relevant interests in the music business. Prereq: MUSC 3720. **Semester Hours:** 3 to 3
Public Health Courses (PBHL)

PBHL 1111 - Freshman Seminar
Semester Hours: 3 to 3

PBHL 2000 - Introduction to Public Health
An overview of the discipline and practice of public health. Includes the history of the field, its population perspective, emphasis on prevention, tools and techniques. General principles of the field are illustrated through contemporary public health case studies. Semester Hours: 4 to 4

PBHL 2020 - Introduction to Environmental Health
This introductory survey course focuses on the human health implications of environmental exposures. Topics include pathways of exposure, toxicology, risk assessment, regulations, and policy development. Additionally, environmental equity, ethics, globe Semester Hours: 3 to 3

PBHL 2051 - Introduction to Population Studies
Examines current issues in population growth, fertility, mortality and migration in the United States and globally. Introduces students to the basic tools of demography and encourages them to think critically about the causes and consequences of population change. Cross-listed with HBSC 2051. Semester Hours: 3 to 3

PBHL 3001 - Introduction to Epidemiology
Introduces the basic concepts of public health and epidemiology, including assessment of disease in the community, the study of causation and association of disease with lifestyle and environmental risk factors, as well as related special topics. Cross-l Semester Hours: 4 to 4

PBHL 3002 - Ethnicity, Health and Social Justice
Surveys core issues contributing to racial or ethnic minority differences in health status. Historical and contemporary U.S. health and social policy, including the areas of environmental health, sexual and reproductive health, children and immigrants, are examined. Cross-listed with ETST 3002 and HBSC 3002. Semester Hours: 3 to 3

PBHL 3010 - Human Sexuality and Public Health
The focus of this course is on human sexuality using a public health lens, examining a number of sexual health issues and their relationship to individual, familial, organizational, and social-level influences. Additionally, we will focus on identifying both primary prevention and intervention approaches to reducing sexual risk factors and increasing healthy behaviors. Cross-listed with HBSC 3010. Semester Hours: 3 to 3

PBHL 3021 - Fundamentals of Health Promotion
Provides an overview of the field of health promotion, including an introduction to key theories and methods, as well as exposure to the breadth of programs and diversity of settings through several case studies. Includes attention to health behaviors as contributors to current public health problems and community-based approaches to health promotion in addressing them. Cross-listed with HBSC 3021. Semester Hours: 3 to 3

PBHL 3030 - Health Policy
Health policies may have a profound effect on quality of life. Accessibility, cost, quality of health care; safety of food, water, and environment; the right to make decisions about our health; these issues are vitally tied to health policies. This course Semester Hours: 3 to 3
PBHL 3031 - Health, Human Biology and Behavior
Introduces the multi-factorial nature of human health and well-being. Considers the influences of biology (genetics), behavior, environment, culture and social determinants, and health policy on the nature of disease and health problems from an integrated perspective. Cross-listed with HBSC 3031. Semester Hours: 3 to 3

PBHL 3041 - Health, Culture and Society
Examines health and illness for individuals, families, and societies from multiple international perspectives, focused on topics such as traditional vs. Western medicine, characteristics of healers and therapeutic relationships, and stigmatized segments of society and their health status. Cross-listed with HBSC 3041. Semester Hours: 3 to 3

PBHL 3070 - Perspectives in Global Health
Avian flu, disaster relief, aging populations and primary health care are key issues in a world where diseases cross borders rapidly, but health care resources may not. Examines improvements in global health, growing inequalities and social justice in health. Prereq: PBHL 2000, is recommended. Semester Hours: 3 to 3

PBHL 3071 - Global Topics In Sexual and Reproductive Health
Surveys trends and determinants of sexual and reproductive health around the globe and in the United States. Examines the social and behavioral determinants of sexual and reproductive health and the influence of policy. Cross-listed with HBSC 3071. Semester Hours: 3 to 3

PBHL 3200 - Human Migration: Nomads, Sojourners, and Settlers
Explores the relationship between human migration, voluntary and forced, and social organization and culture in the modern world. Case studies include pastoralists, foragers, refugees, immigrants, sojourners, and settlers and their impact on health, culture, identity, ethnicity, tradition and nationality. Cross-listed with ANTH 3200 and HBSC 3200. Semester Hours: 3 to 3

PBHL 3440 - Medical Sociology
This course covers key issues in population health and emphasizes how sociological perspectives both challenge and augment biomedical perspectives on health and health care. We also discuss the social causes and consequences of race/ethnic, sex, and socioeconomic disparities in health. Cross-listed with SOCY 3440. Semester Hours: 3 to 3

PBHL 3939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. Semester Hours: 1 to 3

PBHL 4020 - Global Health: Comparative Public Health Systems
Within a limited period of time, middle and low income countries have experienced dramatic changes that affect the length and quality of peoples’ lives. The health indicators for each country reflect a rich and meaningful context within interacting systems. Semester Hours: 3 to 3

PBHL 4031 - Ethnographic Research In Public Health
Qualitative, ethnographic tools for practical applications in public health, including methods of direct observation, informant interviews, focus groups, structured ethnographic methods, rapid assessment and participatory action research. Basic analytic strategies, including review of computer software, coding and data display techniques. Cross-listed with HBSC 4031/5031. Semester Hours: 3 to 3
PBHL 4040 - Social Determinants of Health
This course explores social inequalities in physical and mental health, the illness experience, the healing professions, health policy, relations between providers and patients, and the structure, access to, and financing of health care organizations, wit Semester Hours: 3 to 3

PBHL 4060 - Evolutionary Medicine
Applies evolutionary principles to an understanding of human health and illness. The view complements perspectives on health and disease emanating from biological and social sciences, but considers the health or disease process from the perspective of pathogen and host, current and previous environments, and various phases of the life cycle. Prereq: ANTH 1303. Cross-listed with HBSC 4060 and 5060, ANTH 4060 and 5060. Semester Hours: 3 to 3

PBHL 4070 - Health Disparities
The purpose of this seminar is to provide students with an understanding of how historical, psychosocial, environmental, and to some degree, biological and genetic factors contribute to inequality in health and health care. Course Prerequisites: PBHL 4040; PBHL 3001; PBHL 2051 Semester Hours: 3 to 3

PBHL 4080 - Global Health Practice
A travel-study course that provides students the opportunity to work on global health issues in the context of a supervised internship experience. In addition to a formal internship placement or directed research opportunity, students attend formal lectures and participate in seminars devoted to addressing those health issues most relevant to the country in which the course is being taught. Prereq: HBSC/ANTH 4010/5014, HBSC/ANTH 4020/5020, HLTH 6070 or equivalent. Cross-listed with ANTH 4080/5080, HBSC 4080/5080. Semester Hours: 3 to 3

PBHL 4090 - Political Economy of Drugs
Psychotropic drugs, both legal and illicit, are a predominant part of our everyday lives. This course examines their use and meaning within cultures, and the social, political and economic issues that surround their production, use and misuse. Prereq: Introductory course in Cultural Anthropology. Cross-listed with ANTH 4090/5090, and HBSC 4090/5090. Semester Hours: 3 to 3

PBHL 4099 - Capstone Experience in Public Health
Offers students the opportunity to integrate, synthesize and apply concepts learned throughout the core curriculum of the public health major to real-world issues. The course involves extensive writing and small group presentations on the epidemiological Semester Hours: 3 to 3

PBHL 4110 - Public Health Perspectives On Family Violence
Public health views family violence from a prevention perspective. Our exploration of child abuse, intimate partner violence, and other forms of family violence will complement other disciplinary approaches by focusing heavily on the community and social factors that contribute to abusive relationships. Theories of power and coercion and approaches to researching these issues will be analyzed and discussed through our exploration of the various forms of family violence. Prereq: Advanced undergraduate standing. Cross-listed with HBSC 4110/5110. Semester Hours: 3 to 3

PBHL 4200 - The Global HIV/AIDS Epidemic
Provides a foundation for a critical analysis of HIV/AIDS in global context, concerning topics such as disease, the body, ethnicity/race, gender, sexuality, risk, addiction, power, and culture together with a set of ethnographic texts that explore the epidemic's impact. Cross-listed with HBSC 4200/5200. Semester Hours: 3 to 3
PBHL 4620 - Health Risk Communication
Acquaints students with contemporary theory, research, and practice in health risk communication. Cross-listed with HBSC 4620/5620, COMM 4620/5620, ENVS 5620. **Semester Hours:** 3 to 3

PBHL 4840 - Independent Study
This course requires active independent learning based upon a written curricular outline and agreement with faculty in Public Health who supervise the student's work throughout the semester. Permission of instructor required. **Semester Hours:** 1 to 4

PBHL 4995 - Travel Study
A flexible format that permits courses to be taught in various areas of the world. Prereq: Upper division undergraduate standing and permission of instructor. **Semester Hours:** 3 to 9

PBHL 4999 - Topics In Public Health
An in-depth study of selected social science perspectives/theories and their applications to population health. Topics will vary from semester to semester, with a particular emphasis on current, salient population health problems. Prereq: Junior or senior standing or permission of instructor. Cross-listed with HBSC 4999/5999. **Semester Hours:** 0 to 4
Philosophy Courses (PHIL)

PHIL 1012 - Introduction to Philosophy: Relationship of the Individual to the World
Introductory course in philosophy that focuses on some of the central questions of philosophy, including theories of reality and the nature of knowledge and its limits. The knowledge of these areas is essential to the student for informed participation in the resolution of contemporary problems in today's society. **Semester Hours:** 3 to 3

PHIL 1020 - Introduction to Ethics and Society: The Person and the Community
Studies some of the traditional problems in ethics that tend to be focused on individual morality within the larger context of social and political philosophy. Some specific contemporary moral and social problems may be addressed, such as AIDS, abortion, famine, and individual rights versus the collective rights of society. **Semester Hours:** 3 to 3

PHIL 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

PHIL 1700 - Philosophy and the Arts
Considers philosophical questions involved in the analysis and assessment of artistic expressions and of the objects with which the arts, including the literary arts, are concerned. **Semester Hours:** 3 to 3

PHIL 2441 - Logic and Language
Introductory course that considers the significance of logical form and language use in argumentation and persuasion. Topics covered include definition, types of discourse, informal fallacies, traditional syllogisms, rules of logical inference, and problem solving similar to that found on the L.S.A.T. **Semester Hours:** 3 to 3

PHIL 2510 - Philosophy of Nature
Critical comparison of different views of nature presupposed in science, art, religion, and environmental policy. Concepts of "natural" are examined in relation to such issues as animal rights, wilderness preservation, synthetic landscape, technology, pollution, and population control. **Semester Hours:** 3 to 3

PHIL 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

PHIL 3000 - Ethics in Community Affairs
Includes an overview of ethical concepts and approaches, together with consideration of applications to contemporary cases taken from current events in for-profit, non-profit, and governmental arenas. **Semester Hours:** 1 to 1

PHIL 3002 - Ancient Greek Philosophy
History of ancient Greek thought, including traditional myth, pre-Socratic fragments, Plato's dialogues, and Aristotle's systematic philosophy. **Semester Hours:** 3 to 3

PHIL 3005 - Roman and Early Medieval Philosophy
Surveys philosophy in the Roman era, focusing on the Hellenistic schools (Epicureanism, Stoicism and Skepticism), Neoplatonic thought, the advent of Christianity, and the earliest Christian philosophers. **Semester Hours:** 3 to 3
PHIL 3010 - Medieval Philosophy
History of philosophy from Augustine through Scotus and Ockham, the 5th through the 14th centuries. **Semester Hours:** 3 to 3

PHIL 3022 - Modern Philosophy
History of philosophy from Descartes through Kant. **Semester Hours:** 3 to 3

PHIL 3032 - Twentieth Century Analytic Philosophy
Surveys representative philosophers, methods, and problems in the 20th century analytic tradition. **Semester Hours:** 3 to 3

PHIL 3100 - Current Perspectives on the Evolution of Consciousness and Culture
Studies of evolution traditionally regard morphology (anatomy)/behavior and mind/consciousness as separate fields that belong either in biology/paleontology or in psychology/philosophy. The "middle ground" behavior, anthropology, social systems, is also treated separately in most cases. Recent approaches tend toward a more holistic view using unifying principles and "laws of nature" that show similar processes (dissipative effects, information theory, development theory) operating across all fields. Examines the relationships and common threads between the physical anatomical evolution of organisms and their behavior perception and consciousness. Prereq: Introductory course in evolution (biology/paleontology), psychology, philosophy, anthropology or permission of instructor. Cross-listed with GEOL 3100 and RLST 4280. **Semester Hours:** 3 to 3

PHIL 3150 - History of Ethics
Surveys the ethical thought of major figures in the history of philosophy, beginning with Plato and ending with the 19th century. Examples: Aristotle, Hume, Kant and Mill. (Class readings of primary philosophical texts.) **Semester Hours:** 3 to 3

PHIL 3200 - Social and Political Philosophy
Examines basic issues in social and political philosophy, including justice, freedom, individuality, power and community. **Semester Hours:** 3 to 3

PHIL 3250 - Business Ethics
Surveys some of the major moral problems which arise in business, such as the nature and scope of the moral responsibilities of corporations, affirmative action, and truth in advertising. Begins with a study of moral reasoning, ethical theory, and the challenges of applying ethical theory. **Semester Hours:** 3 to 3

PHIL 3280 - War and Morality
Attempts to identify and analyze some of the major moral issues of war. When is a war just, when is it not? What are morally acceptable rules of engagement? What, if anything, justifies violating them? How does one evaluate terrorism and war against terrorism? What are moral alternatives to the violence of war? **Semester Hours:** 3 to 3

PHIL 3300 - Special Topics in Philosophy
**Semester Hours:** 1 to 3

PHIL 3350 - Metaphysics
Studies major theories of reality, including topics such as the nature of substance, space and time, and universals and particulars. **Semester Hours:** 3 to 3
PHIL 3360 - Epistemology
Study of major theories of knowledge, including such problems as perception and the distinction between belief and knowledge. **Semester Hours:** 3 to 3

PHIL 3420 - Kosmos: Theories of the Universe
A course in philosophical cosmology using material from the sciences, history and philosophy. The goal is to illuminate our present theories concerning the nature of the universe and the place of life within it. Cross-listed with RLST 4260. **Semester Hours:** 3 to 3

PHIL 3440 - Introduction to Symbolic Logic
Covers truth functional and quantificational logic through polyadic first order predicate calculus and theory of identity. Attention is given to such problems in metatheory as proofs of the completeness and consistency of systems of logic. Cross-listed with MATH 3440. **Semester Hours:** 3 to 3

PHIL 3500 - Ideology and Culture: Racism and Sexism
Surveys the nature and role of racism and sexism. Topics may include ideology theory, naturalism, the equal protection clause, recent scientific discussion, sociolegal history, and social constructionism. **Semester Hours:** 3 to 3

PHIL 3550 - Philosophy of Death and Dying
Historical overview of the metaphysical question of whether there is life after bodily death, beginning with classical arguments through the current debate over such phenomena as near death experiences and deathbed visions. Also focuses on ethical controversies such as suicide, euthanasia, and capital punishment, and the efficacy of philosophical consolations for grief. Prereq: Three hours of philosophy; preferably PHIL 1012. **Semester Hours:** 3 to 3

PHIL 3656 - Contemporary Religious Ethics: Jewish and Christian Traditions
Historical and thematic introduction to ethics in Judaism, Roman Catholicism and Protestantism. A study of selected ethical issues: bio-medical, social justice, sexuality, economic justice, business and personal ethics. Prereq: English composition; intro to philosophy; world religions; world history; junior status. **Semester Hours:** 3 to 3

PHIL 3666 - Asian Philosophies and Religions
We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with RLST 3400. **Semester Hours:** 3 to 3

PHIL 3840 - Independent Study
**Semester Hours:** 1 to 3

PHIL 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

PHIL 3981 - Chinese Philosophy and Culture
China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools,
including Confucianism, Taoism, Mohism, Legalis, Chinese "logic," and the later schools of schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with RLST 3660. **Semester Hours:** 3 to 3

**PHIL 4000 - 19th Century Philosophy**
Covers the systematic work of such German idealists as Hegel, Fichte, and Shelling, as well as responses to those systems by such authors as Marx, Kierkegaard, and Nietzsche. Prereq: PHIL 3002 or 3022. Cross-listed with PHIL 5000, HUMAN 5000 and SSCI 5000. **Semester Hours:** 3 to 3

**PHIL 4040 - Skeptic and Believer**
Considers radical skepticism in the form of Sextus Empiricus' Outlines of Pyrrhonism. Following Peter Suber's "Essay on Classical Skepticism," the course also looks at historical responses to Pyrrhonean skepticism, especially in theories of belief. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5040. **Semester Hours:** 3 to 3

**PHIL 4101 - Pragmatism: Classical American Philosophy**
The most significant philosophical tradition born in the United States is pragmatism. Examines several of the most important classical works of this tradition, the influence of thinkers who have helped to shape pragmatism, and the contemporary relevance of this tradition. Figures who may be included are: Emerson, Pierce, Royce, James, Dewey, Mead and Rorty. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5101, HUMAN 5101, SSCI 5101. **Semester Hours:** 3 to 3

**PHIL 4150 - Twentieth Century Ethics**
Surveys representative philosophers, methods, and/or problems in 20th century ethics. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. **Semester Hours:** 3 to 3

**PHIL 4200 - Philosophical Problems and Contemporary Culture**
Issues and controversies in contemporary culture, their relation to modern theories of society, and their manifestations in the arts, science and technology, education, religion and ethics. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. **Semester Hours:** 3 to 3

**PHIL 4220 - Aesthetics and the Philosophy of Art**
Introduction to major theories of aesthetics and contemporary discussions of problems in aesthetics and the philosophy of art, including topics such as: the nature of art, interpretation and evaluation in art. Cross-listed with PHIL 5220 and HUMAN 5220. **Semester Hours:** 3 to 3

**PHIL 4230 - Postmodernism and the Social Sciences**
Traces the history of a set of ideas collectively known as postmodern. Disrupting traditional frameworks of knowledge, these concepts have had an enormous impact on the social sciences, the humanities, and the arts. Course readings expose students to the cross-disciplinary impact of postmodernism on theory, content, and method. Prereq: Upper division standing; PHIL 3002 or 3022, minimum grade of "C" in each previous philosophy course, or permission of instructor. **Semester Hours:** 3 to 3

**PHIL 4242 - Bioethics**
Examines some of the major moral issues confronting the nation's health care system. The class will search for solutions to such problems as financing health care for those unable to do so on their own,
determining the extent of a patient’s right to both refuse and demand certain types of medical treatment, and allocating scarce medical resources such as lifesaving vital organs. The springboard for examining these issues will be the doctor or patient relationship framed by the moral principles of respect for persons and beneficence. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5242, SSCI 5242, HUMN 5242. Semester Hours: 3 to 3

**PHIL 4250 - Environmental Ethics**
While human industry/technology creates enormous material prosperity, it can result in devastating environmental damage. This course analyzes the moral values, consequences and duties implied in relationships between human beings, animals and ecological systems, while seeking out new and ethical approaches. Cross-listed with PHIL 5250, HUMN 5250 and SSCI 5250. Semester Hours: 3 to 3

**PHIL 4260 - Philosophy of Law**
Surveys theoretical positions on the nature of law, with particular emphasis on American law. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5260. Semester Hours: 3 to 3

**PHIL 4270 - Philosophy of History**
Examines critical and speculative theories of history, including the problems of methodology, explanation, values, and the relationship between history and social philosophy. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Semester Hours: 3 to 3

**PHIL 4300 - Philosophy of Mind**
Consideration of the problems in the philosophy of mind, such as the mind-body problem, the problem of our knowledge of other minds, the compatibility of free will and determinism, and discussion of such concepts as action, intention, motive, desire, enjoyment, memory, imagination, dreaming and self-knowledge. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5300. Semester Hours: 3 to 3

**PHIL 4360 - American Legal Process**
Introduces students to basic issues in American jurisprudence as well as to the elements and dynamics of the modern American legal system. Cross-listed with PHIL 5360. Semester Hours: 3 to 3

**PHIL 4460 - Theories of Human Nature**
Consideration of such problems as the changeability and definability of human nature, and the possibility of a science of human nature. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Semester Hours: 3 to 3

**PHIL 4470 - Concepts of the Soul**
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with PHIL 5470 and RLST 4440, 5440. Semester Hours: 3 to 3

**PHIL 4480 - Perspectives on Good and Evil**
Examines the "problem of evil." As formulated in the philosophical tradition: if the deity is understood as perfect, then why is there evil? How can a perfect entity create imperfection? Why would an absolutely benevolent God cause or allow the innocent to suffer? Presents the classical formulation of the problem,
the traditional solutions offered, and the classical critiques of each answer. Considers the perspectives of
the various religious orientations, each of which deals differently with the question of suffering. Cross-
listed with Rlst 4480. **Semester Hours:** 3 to 3

**PHIL 4600 - Philosophy of Religion**
Nature of religion and methods of studying it. Cross-listed with HUMN 5600, PHIL 5600, RLST 4060,
5060, and SSCI 5600. **Semester Hours:** 3 to 3

**PHIL 4650 - Differing Concepts of God**
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises
throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the
Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the
God of the pantheists, the deists, and the God of the mystics. Cross-listed with PHIL 5655, RLST 4400
and 5400. **Semester Hours:** 3 to 3

**PHIL 4700 - Seminar in a Major Philosopher**
The major philosophical texts of one philosopher is studied in this course. Philosophers to be studied are
major figures in the history of philosophy such as Plato, Aristotle, Kant and Hume. Note: May be taken for
credit more than once. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy
course, or permission of instructor. **Semester Hours:** 3 to 3

**PHIL 4710 - Western Religious Thought**
Focuses on philosophers and theologians who have contributed to the evolution of the three great
religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the
ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen
may vary in different semesters. Cross-listed with RLST 4070. **Semester Hours:** 3 to 3

**PHIL 4720 - Eastern Religious Thought**
Parallels the course in Western religious thought. The great religious traditions of the East, including
Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of
key philosophical representatives of each tradition. Cross-listed with RLST 4080. **Semester Hours:** 3 to
3

**PHIL 4730 - Philosophy and Literature**
Considers the philosophical dimensions of literature. Prereq: PHIL 3002 or 3022, a minimum grade of
"C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5730, ENGL
4735 and 5735. **Semester Hours:** 3 to 3

**PHIL 4735 - Rationalism**
Addresses the fundamental questions of truth and reality through natural reason. Topics vary and may
include metaphysics and the rise of modern science; women and the enlightenment; historical problems
and linguistic analysis. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy
course, or permission of instructor. Cross-listed with PHIL 5735. **Semester Hours:** 3 to 3

**PHIL 4740 - Empiricism**
Considers the nature and importance of experience. Focuses on British Empiricism, but additional themes
which vary may include: American pragmatism, logical positivism, scientific empiricism, phenomenology
of experience. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course,
or permission of instructor. Cross-listed with PHIL 5740. **Semester Hours:** 3 to 3
PHIL 4750 - Introduction to Phenomenology
Examines the contribution of phenomenology to selected topics in the theory of meaning, philosophy of mind, ontology, and epistemology, through a study of such philosophers as Husserl, Heidegger, Sartre and Merleau-Ponty. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5750. **Semester Hours:** 3 to 3

PHIL 4760 - Kant
A close study of Immanuel Kant's revolutionary thought, focusing on Kant's ontology, epistemology, and ethical theory, as they are articulated in his Critique of Pure Reason and Critique of Practical Reason. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5830. **Semester Hours:** 3 to 3

PHIL 4770 - Hegel
A systematic study of the thought of G.W.F. Hegel through his most important and influential works: The Phenomenology of Spirit; The Encyclopedia of Philosophical Sciences; The Science of Logic; Lectures on the Philosophy of History; and his lectures on the history of philosophy, art and religion. Focus of the course varies. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5770. **Semester Hours:** 3 to 3

PHIL 4780 - Heidegger
Studies the thought of Martin Heidegger, one of the most important philosophers of the 20th century. Includes texts from both Heidegger's early and later periods, and focuses on his analyses of human subjectivity and being. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5780. **Semester Hours:** 3 to 3

PHIL 4790 - Nietzsche
A close study of Nietzsche's philosophical writings, with attention to his significance for philosophy in the 20th century and beyond. Cross-listed with PHIL 5790. **Semester Hours:** 3 to 3

PHIL 4795 - Marx and Marxism
A close study of the most influential works of Karl Marx and subsequent theorists who provide either an influential interpretation of the works of Marx or contribute to an innovative application or elaboration of the basic tenets of Marxism. Cross-listed with PHIL 5795. **Semester Hours:** 3 to 3

PHIL 4800 - Plato
A careful study of Plato's writings, emphasizing the dialogue form, and discussion of Plato's significance for the history of ethics, political theory, psychology, metaphysics and epistemology. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5800. **Semester Hours:** 3 to 3

PHIL 4810 - Aristotle
Examines Aristotle's systematic philosophy and discusses its contributions to logic, epistemology, physics, psychology, metaphysics, ethics and political theory. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5810. **Semester Hours:** 3 to 3

PHIL 4812 - Special Topics in Philosophy
Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. **Semester Hours:** 3 to 3
PHIL 4820 - Hume
Considers the work of eighteenth century philosopher David Hume. Emphasis on unity of Hume's thought. Prereq: PHIL 3002 or 3022, a minimum grade of "C" in each previous philosophy course, or permission of instructor. Cross-listed with PHIL 5820. **Semester Hours:** 3 to 3

PHIL 4833 - Existentialism
Examines one of the most influential movements in recent European thought, beginning with existentialism's 19th century roots, and continuing on to the existentialist philosophers of the 20th century. Figures covered may include Dostoyevsky, Kierkegaard, Nietzsche, Heidegger, Sartre and de Beauvoir. Prereq: PHIL 3000 or 3022, a minimum grade of "C" in each previous philosophy course or permission of instructor. Cross-listed with PHIL 5833, HUMN 5833 and SSCI 5833. **Semester Hours:** 3 to 3

PHIL 4840 - Independent Study: PHIL
**Semester Hours:** 1 to 3

PHIL 4900 - John Dewey
John Dewey was one of the most important of the American philosophers and public intellectuals of the twentieth century. Topics may include Dewey's philosophical naturalism, pragmatist epistemology, process metaphysics and philosophies of experience, aesthetics, religion, technology and democracy. Cross-listed with PHIL 5900. **Semester Hours:** 3 to 3

PHIL 4920 - Philosophy of Media and Technology
A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 5920, HUMN 5920, SSCI 5920. **Semester Hours:** 3 to 3

PHIL 4933 - Philosophy of Eros
Why is philosophy an erotic activity and what are the implications of this insight? We will explore these issues, first, by reading Plato's erotic dialogues: Lysis, Symposium and Phaedrus. Then we will focus on Freud's influential (and controversial) appropriation of Plato's thought in the writings that span his career, from The Interpretation of Dreams (1900) to Civilization and its Discontents (1930) and beyond. Finally, we will survey post-Freudian theories of eros, such as Michel Foucault's History of Sexuality, as well as the more recent contributions of thinkers such as Jonathan Lear, Thomas Nagel, Martha Nussbaum and Slavoj Zizek. Cross-listed with WGST 4933/5933, PHIL 5933, SSCI 5933, and HUMN 5933. **Semester Hours:** 3 to 3

PHIL 4950 - Honors Thesis
**Semester Hours:** 3 to 6

PHIL 4980 - Special Topics in Philosophy
**Semester Hours:** 1 to 3

PHIL 5000 - 19th Century Philosophy
Covers the systematic work of such German idealists as Hegel, Fichte, and Shelling, as well as responses to those systems by such authors as Marx, Kierkegaard, and Nietzsche. Prereq: PHIL 3002 or 3022. Cross-listed with PHIL 4000, HUMN 5000 and SSCI 5000. **Semester Hours:** 3 to 3
PHIL 5013 - Philosophical Problems in the Social Sciences and the Humanities  
Presents an overview of key theoretical issues currently emerging across academic disciplines. Examines questions about reality, knowledge, and ethics that affect social research and writing in the humanities. Readings explore how contemporary philosophical and cultural discourses have altered theory and method. Assignments include influential theoretical pieces by key historical and contemporary thinkers, examples of application in social research, and interpretations of thought and affect in cultural contexts. Cross-listed with HUMN/SSCI 5013. **Semester Hours:** 3 to 3

PHIL 5020 - Elements of Social Thought  
Introduces students to the disciplines that comprise the social sciences (classical anthropology, sociology, sociology of religion, philosophy of history, political theory, classical psychology, etc.). Provides necessary tools for interdisciplinary students to understand the social infrastructure of contemporary society. Cross-listed with SSCI 5020 and HUMN 5020. **Semester Hours:** 3 to 3

PHIL 5040 - Skeptic and Believer  
Considers radical skepticism in the form of Sextus Empiricus' Outlines of Pyrrhonism. Following Peter Suber's "Essay on Classical Skepticism," the course also looks at historical responses to Pyrrhonean skepticism, especially in theories of belief. Cross-listed with PHIL 4040. **Semester Hours:** 3 to 3

PHIL 5100 - Topics in the History of Philosophy  
**Semester Hours:** 3 to 3

PHIL 5101 - Pragmatism: Classical American Philosophy  
The most significant philosophical tradition born in the United States is pragmatism. Examines several of the most important classical works of this tradition, the influence of thinkers who have helped pragmatism, and the contemporary relevance of this tradition. Figures who may be included in this course are: Emerson, Pierce, Royce, James, Dewey, Mead and Rorty. Prereq: An introductory course in philosophy. Cross-listed with PHIL 4101, SSCI 5101, HUMN 5101. **Semester Hours:** 3 to 3

PHIL 5220 - Aesthetics and the Philosophy of Art  
Introduction to major theories of aesthetics and contemporary discussions of problems in aesthetics and the philosophy of art, including topics such as: the nature of art, interpretation and evaluation in art. Cross-listed with PHIL 4220 and HUMN 5220. **Semester Hours:** 3 to 3

PHIL 5242 - Bioethics  
Examines some of the major moral issues confronting the nation's health care system. The class will search for solutions to such problems as financing health care for those unable to do so on their own, determining the extent of a patient's right to both refuse and demand certain types of medical treatment, and allocating scarce medical resources such as lifesaving vital organs. The springboard for examining these issues will be the doctor or patient relationship framed by the moral principles of respect for persons and beneficence. Cross-listed with PHIL 4242, HUMN 5242, SSCI 5242. **Semester Hours:** 3 to 3

PHIL 5250 - Environmental Ethics  
While human industry/technology creates enormous material prosperity, it can result in devastating environmental damage. This course analyzes the moral values, consequences and duties implied in relationships between human beings, animals and ecological systems, while seeking out new and ethical approaches. Cross-listed with PHIL 4250, HUMN 5250 and SSCI 5250. **Semester Hours:** 3 to 3
PHIL 5260 - Philosophy of Law
Surveys theoretical positions on the nature of law, with particular emphasis on American law. Cross-listed with PHIL 4260. **Semester Hours:** 3 to 3

PHIL 5300 - Philosophy of Mind
Consideration of the problems in the philosophy of mind, such as the mind-body problem, the problem of our knowledge of other minds, the compatibility of free will and determinism, and discussion of such concepts as action, intention, motive, desire, enjoyment, memory, imagination, dreaming and self-knowledge. Cross-listed with PHIL 4300. **Semester Hours:** 3 to 3

PHIL 5360 - American Legal Process
Introduces students to basic issues in American jurisprudence as well as to the elements and dynamics of the modern American legal system. Cross-listed with PHIL 4360. **Semester Hours:** 3 to 3

PHIL 5470 - Concepts of the Soul
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with PHIL 4470 and RLST 4440, 5440. **Semester Hours:** 3 to 3

PHIL 5550 - Paris 1910: Art, Philosophy and Psychology
Traces the influences of philosophy, psychology, and art in the English, French, and German-speaking worlds in the early twentieth century. This intellectual history is extended to broader cultural and political contexts. Key period is between 1910 and 1968, when modernity’s key aspirations and tensions became explicit. Cross-listed with HUMN 5550 and SSCI 5550. **Semester Hours:** 3 to 3

PHIL 5600 - Philosophy of Religion
Nature of religion and methods of studying it. Cross-listed with HUMN 5600, PHIL 4600, RLST 4060, 5060, and SSCI 5600. **Semester Hours:** 3 to 3

PHIL 5650 - Reflections on Modernity
Explores modernity as a historical epoch and a theoretical space, looking at the commentaries and reflections of influential 20th century thinkers including Adorno, Arendt, Levinas, Merleau-Ponty, Habermas and Foucault. Examines how the theoretical inclinations of modernity were influenced by politics, art, literature and culture. Cross-listed with HUMN 5650 and SSCI 5650. **Semester Hours:** 3 to 3

PHIL 5655 - Differing Concepts of God
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with PHIL 4650, RLST 4400 and 5400. **Semester Hours:** 3 to 3

PHIL 5720 - Topics in Recent Philosophy
**Semester Hours:** 3 to 3

PHIL 5730 - Philosophy and Literature
Considers the philosophical dimensions of literature. Cross-listed with PHIL 4730, ENGL 4735 and 5735. **Semester Hours:** 3 to 3
PHIL 5735 - Rationalism
Addresses the fundamental questions of truth and reality through natural reason. Topics vary and may include metaphysics and the rise of modern science; women and the enlightenment; historical problems and linguistic analysis. Prereq: Six hours in Western philosophy. Cross-listed with PHIL 4735. Semester Hours: 3 to 3

PHIL 5740 - Empiricism
Considers the nature and importance of experience. Focuses on British Empiricism, but additional themes which vary may include: American pragmatism, logical positivism, scientific empiricism, phenomenology of experience. Prereq: Six credit hours in Western philosophy. Cross-listed with PHIL 4740. Semester Hours: 3 to 3

PHIL 5750 - Introduction to Phenomenology
Examines the contribution of phenomenology to selected topics in the theory of meaning, philosophy of mind, ontology, and epistemology, through a study of such philosophers as Husserl, Heidegger, Sartre and Merleau-Ponty. Cross-listed with PHIL 4750. Semester Hours: 3 to 3

PHIL 5755 - Philosophical Psychology
Explores debates about psyche and body, mind and world, self and others, and consciousness and nature. Examines the philosophical questions related to those debates that arise within theories of perception, affect and cognition offered by influential psychological models. Cross-listed with HUMN 5750, SSCI 5750. Semester Hours: 3 to 3

PHIL 5770 - Hegel
A systematic study of the thought of G.W.F. Hegel through his most important and influential works: The Phenomenology of Spirit; The Encyclopedia of Philosophical Sciences; The Science of Logic; Lectures on the Philosophy of History; and his lectures on the history of philosophy, art and religion. Focus of the course varies. Cross-listed with PHIL 4770. Semester Hours: 3 to 3

PHIL 5780 - Heidegger
Studies the thought of Martin Heidegger, one of the most important philosophers of the 20th century. Includes texts from both Heidegger's early and later periods, and focuses on his analyses of human subjectivity and being. Prereq: Six credit hours in Western philosophy. Cross-listed with PHIL 4780. Semester Hours: 3 to 3

PHIL 5790 - Nietzsche
A close study of Nietzsche's philosophical writings, with attention to his significance for philosophy in the 20th century and beyond. Cross-listed with PHIL 4790. Semester Hours: 3 to 3

PHIL 5795 - Marx and Marxism
A close study of the most influential works of Karl Marx and subsequent theorists who provide either an influential interpretation of the works of Marx or contribute to an innovative application or elaboration of the basic tenets of Marxism. Cross-listed with PHIL 4795. Semester Hours: 3 to 3

PHIL 5800 - Plato
A careful study of Plato's writings, emphasizing the dialogue form, and discussion of Plato's significance for the history of ethics, political theory, psychology, metaphysics and epistemology. Cross-listed with PHIL 4800. Semester Hours: 3 to 3
**PHIL 5810 - Aristotle**  
Examines Aristotle's systematic philosophy and discusses its contributions to logic, epistemology, physics, psychology, metaphysics, ethics and political theory. Cross-listed with PHIL 4810. **Semester Hours:** 3 to 3

**PHIL 5812 - Special Topics in Philosophy**  
**Semester Hours:** 3 to 3

**PHIL 5820 - Hume**  
Considers the work of eighteenth century philosopher David Hume. Emphasis on unity of Hume's thought. Cross-listed with PHIL 4820. **Semester Hours:** 3 to 3

**PHIL 5830 - Kant**  
A close study of Immanuel Kant's revolutionary thought, focusing on Kant's ontology, epistemology, and ethical theory, as they are articulated in his Critique of Pure Reason and Critique of Practical Reason. Cross-listed with PHIL 4760. **Semester Hours:** 3 to 3

**PHIL 5833 - Existentialism**  
Examines one of the most influential movements in recent European thought, beginning with existentialism's 19th century roots, and continuing on to the existentialist philosophers of the 20th century. Figures covered may include Dostoyevsky, Kierkegaard, Nietzsche, Heidegger, Sartre and de Beauvoir. Cross-listed with PHIL 4833, HUMN 5833 and SSCI 5833. **Semester Hours:** 3 to 3

**PHIL 5840 - Independent Study: PHIL**  
**Semester Hours:** 1 to 3

**PHIL 5900 - John Dewey**  
John Dewey was one of the most important of the American philosophers and public intellectuals of the twentieth century. Topics may include Dewey's philosophical naturalism, pragmatist epistemology, process metaphysics and philosophies of experience, aesthetics, religion, technology and democracy. Cross-listed with PHIL 4900. **Semester Hours:** 3 to 3

**PHIL 5920 - Philosophy of Media and Technology**  
A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 4920, HUMN 5920, SSCI 5920. **Semester Hours:** 3 to 3

**PHIL 5933 - Philosophy of Eros**  
Why is philosophy an erotic activity and what are the implications of this insight? We will explore these issues, first, by reading Plato's erotic dialogues: Lysis, Symposium and Phaedrus. Then we will focus on Freud's influential (and controversial) appropriation of Plato's thought in the writings that span his career, from The Interpretation of Dreams (1900) to Civilization and its Discontents (1930) and beyond. Finally, we will survey post-Freudian theories of eros, such as Michel Foucault's History of Sexuality, as well as the more recent contributions of thinkers such as Jonathan Lear, Thomas Nagel, Martha Nussbaum and Slavoj Zizek. Cross-listed with PHIL 4933, WGST 4933/5933, SSCI 5933, and HUMN 5933. **Semester Hours:** 3 to 3
Physics Courses (PHYS)

**PHYS 1000 - Introduction to Physics**
Introductory survey course for nonscientists that emphasizes the main concepts of physics. Although this course is mainly descriptive, some high school algebra will be used. The accompanying lab work is designed to illustrate the material discussed in the lectures. **Semester Hours:** 4 to 4

**PHYS 1052 - General Astronomy I**
The history of astronomy is studied from early civilizations to the present. The basic motions of the earth, moon, sun, and planets are discussed both qualitatively and quantitatively, using elementary principles of physics. Properties of our solar system are discussed in detail, including results from unmanned space probes. Note: An additional 30 hours of laboratory work (at times to be arranged), plus appropriate report preparation time, are required to complete laboratory component of the course. Prereq: High school algebra or equivalent. **Semester Hours:** 4 to 4

**PHYS 1100 - Foundations of Physics**
One-semester non-lab survey course especially designed for non-science majors. Acquaints students with some of the major principles and methods of physics. Includes applications of physics to everyday life and some discussion of the historical development of physics. Prereq: A good working knowledge of elementary algebra. **Semester Hours:** 4 to 4

**PHYS 1111 - Freshman Seminar**
**Semester Hours:** 1 to 3

**PHYS 1115 - Physics Content**
Covers content areas of undergraduate physics. Topics include matter and energy; heat and thermodynamics; atomic and nuclear structure; mechanics; electricity and magnetism; and wave characteristics. **Semester Hours:** 1 to 3

**PHYS 1332 - Explorations in Physics**
Applications of physics are explored in depth for students considering physics as a major or minor. Topics vary each semester, providing conceptual and mathematical insights and hands-on activities on how physics is used in the real world or at research frontiers. Prereq: Algebra and Trigonometry. **Semester Hours:** 3 to 3

**PHYS 1840 - Independent Study: PHYS**
Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 3

**PHYS 2010 - College Physics I**
(This course is an approved Colorado Statewide Guaranteed Transfer Course). Mechanics, heat and sound. Prereq: College algebra and trigonometry. **Semester Hours:** 4 to 4

**PHYS 2020 - College Physics II**
Electricity, magnetism, light and modern physics. Prereq: PHYS 2010. **Semester Hours:** 4 to 4

**PHYS 2030 - College Physics Lab I**
**Semester Hours:** 1 to 1

**PHYS 2040 - College Physics Lab II**
Prereq: PHYS 2030. **Semester Hours:** 1 to 1
PHYS 2311 - General Physics I: Calculus-Based
Covers vector displacement, uniform and accelerated motion, force, momentum, energy, rotating systems, oscillations, and an introduction to thermodynamics. Emphasis is on basic principles. Prereq: MATH 1401. Semester Hours: 4 to 4

PHYS 2321 - General Physics Lab I
Semester Hours: 1 to 1

PHYS 2331 - General Physics II: Calculus-Based
Covers electrostatics, magnetic fields, electromagnetic waves (including light), and optics. Prereq: PHYS 2311 and MATH 2411. Semester Hours: 4 to 4

PHYS 2341 - General Physics Lab II
Prereq: PHYS 2321. Semester Hours: 1 to 1

PHYS 2711 - Vibrations and Waves
Introduces vibrations and waves associated with physical phenomena. Analytic and numerical methods in physical contexts. Topics include harmonic oscillators, resonance, coupled oscillators, nonlinear oscillators, waves in elastic media, sound waves, pulses and dispersion. Prereq: PHYS 2331 and MATH 2411. Semester Hours: 3 to 3

PHYS 2811 - Modern Physics I
Presents a study of the events and discoveries that occurred during the latter part of the 19th and the first part of the 20th centuries which led to the discovery of quantum mechanics; namely, special relativity, particle nature of radiation, wave properties of particles, models of the atom, and the introduction of quantum mechanics. Prereq: PHYS 2331 and MATH 2411. Semester Hours: 4 to 4

PHYS 2821 - Modern Physics II
Quantum physics used for an understanding of energy levels and configuration of hydrogen atoms, strength of molecular bonds, atomic and molecular spectroscopy, solid state physics, band theory, nuclear and subatomic physics. Also includes quantum statistics, general relativity and cosmology. Prereq: PHYS 2811. Semester Hours: 3 to 3

PHYS 2840 - Independent Study: PHYS
Students must check with a faculty member before taking this course. Semester Hours: 1 to 3

PHYS 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

PHYS 3040 - Modern Cosmology
Designed for non-majors, covering the large-scale structure of the universe. Topics covered are gravitational concepts, neutron stars, pulsars, black holes, big bang universe and cosmological tests. Prereq: PHYS 2010 or equivalent. Semester Hours: 3 to 3

PHYS 3050 - General Astronomy II
Evolution of our sun and other stars is studied, as well as the methods used to gain the information. Discussion includes objects such as neutron stars, novae and supernovae, and black holes. Large-scale structures, including clusters and galaxies, are studied. Prereq: PHYS 1052, 2010 or 2311. Semester Hours: 3 to 3
PHYS 3082 - Energy and the Environment
For students of various backgrounds who wish to increase their understanding of the environmental and technical issues of supplying the energy demands of our society. Alternative energy sources and conservation are explored as solutions to promote sustainable society. Prereq: One college-level science course and MATH 1110 or equivalent. Cross-listed with ENVS 3082. Semester Hours: 3 to 3

PHYS 3120 - Methods of Mathematical Physics
Typically covers calculus of variations, special functions, partial differential equations, integral transforms, linear vector spaces, and tensor analysis. Prereq: MATH 2421 and 3195 (or equivalent) or permission of instructor. Semester Hours: 3 to 3

PHYS 3151 - Biophysics Outlook I
Designed as a companion to General Biology I (but can take stand-alone), this course explores how biophysics concepts and experimental methods add to the knowledge of life's processes at the molecular and cellular level. Prereq: PHYS 2311 and PHYS 2331. Semester Hours: 1 to 1

PHYS 3161 - Biophysics Outlook II
Designed as a companion to General Biology I (but can take stand-alone), this course explores how biophysics concepts and experimental methods contribute to the understanding of the structure and function of plants, animals & ecological systems. Prereq: PHYS 2311 and PHYS 2331. Semester Hours: 1 to 1

PHYS 3211 - Analytical Mechanics
Topics include the Lagrange and Hamiltonian formulations, the two-body problem, rigid body motion, and small oscillations. Prereq: PHYS 2711, MATH 2421 and 3195 or equivalent. Coreq: PHYS 3120. Semester Hours: 4 to 4

PHYS 3251 - Biophysics of the Body
Fundamental ideas of mechanics are used to model the form and function of the human body, including statistics, locomotion, energy, and fluid flow. Topics from analytical mechanics are included to ensure student knowledge of Lagrangian and Hamiltonian formalisms. Semester Hours: 4 to 4

PHYS 3411 - Thermal Physics
Covers the basic concepts of the three related disciplines of thermodynamics, statistical mechanics, and kinetic theory. Prereq: PHYS 2331, 2811 and MATH 2421; Coreq: MATH 3195 or equivalent. Semester Hours: 3 to 3

PHYS 3451 - Biophysics of the Cell
This course will cover the fundamentals of thermodynamics and statistical mechanics and apply these physical principles to the understanding of biological systems. Topics covered include, heat entropy, equilibrium, brownian motion, probability and statistics Semester Hours: 4 to 4

PHYS 3620 - Sound and Music
Considers the basic nature of sound waves, the ear and hearing, and musical instruments. Although this course is mainly descriptive, some high school algebra will be used. Prereq: MATH 1070 or equivalent. Semester Hours: 3 to 3

PHYS 3711 - Junior Laboratory I
Advanced laboratory in classical and modern physics. Prereq: PHYS 2811. Semester Hours: 2 to 2
PHYS 3721 - Junior Laboratory II
Advanced laboratory in classical and modern physics. Prereq: PHYS 3711. **Semester Hours:** 2 to 2

PHYS 3811 - Quantum Mechanics
A course in which both wave and matrix mechanics are developed and applied to selected problems in atomic physics. Prereq: PHYS 2811 and 3211. **Semester Hours:** 3 to 3

PHYS 3820 - Subatomic Physics
Introductory treatment of the various concepts and models used to describe nuclear and high energy particle phenomena. Prereq: PHYS 2811. **Semester Hours:** 3 to 3

PHYS 3840 - Independent Study: PHYS
Note: Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 3

PHYS 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

PHYS 4331 - Principles of Electricity and Magnetism
Elements of mathematical theory of electricity and magnetism, including electrostatics, magnetostatics, polarized media, direct and alternating current theory, and introduction to electromagnetic fields and waves. Prereq: PHYS 2331 and 3120. **Semester Hours:** 4 to 4

PHYS 4351 - Bioelectromagnetism
The fundamental theory of electric and magnetic fields is developed and applied to problems of biology and medicine. Examples in medical diagnostics and treatment are built upon rigorous application of Maxwell’s equations and constitutive models of electromagnetic properties of biomaterials. Prereq: PHYS 2331 and 3120. **Semester Hours:** 4 to 4

PHYS 4400 - Topics in Scientific Instrumentation and Laboratory Methods
Short courses on practical knowledge needed to design scientific instruments, develop technical products, and use special laboratory procedures to research. Topics include materials, mechanisms, electronics, and optics. Specific topic information is available through the physics department web site. Prereq: Two semesters of 2000-level introductory physics or instructor's permission. Cross-listed with PHYS 5400-5499. **Semester Hours:** 1 to 1

PHYS 4401 - Special Topics
**Semester Hours:** 1 to 3

PHYS 4402 - Special Topics
**Semester Hours:** 1 to 3

PHYS 4403 - Special Topics
**Semester Hours:** 1 to 3

PHYS 4510 - Optics
Presents a contemporary treatment of selected topics in optics, such as matrix methods in geometrical optics, the Fourier analysis approach to physical optics, and interaction of light with matter. Prereq: PHYS 2331, 2811 and 3120. **Semester Hours:** 3 to 3
PHYS 4550 - Astrophysics
Covers stellar astrophysics, solar physics, star formations, stellar evolution, processes in the interstellar medium, galactic dynamics and evolution, formation of galaxies and cosmology. Prereq: MATH 3195; PHYS 2821 and 3050 recommended. Semester Hours: 3 to 3

PHYS 4610 - Computational Physics
Designed to provide an understanding of the role of the computer in modern theoretical physics by studying the simulation of physical phenomena in various fields of physics. Prereq: PHYS 3120. Semester Hours: 2 to 2

PHYS 4620 - Computational Physics II
Assigns the student to an individual, advanced-level project modeling a physical phenomenon on the computer. Prereq: PHYS 4610. Semester Hours: 2 to 2

PHYS 4650 - Solid State Physics
Covers the basic thermal and electrical properties of solids which are explained in terms of the Brillouin zone structures of phonons and electrons. Prereq: PHYS 3411 and 3811. Semester Hours: 3 to 3

PHYS 4711 - Senior Laboratory I
Individual project laboratory with emphasis on modern methods of physical experimentation. Prereq: PHYS 3721. Semester Hours: 2 to 2

PHYS 4721 - Senior Laboratory II
Individual project laboratory with emphasis on modern methods of physical experimentation. Prereq: PHYS 4711. Semester Hours: 2 to 2

PHYS 4788 - Bioinformatics
Provides a broad exposure to the basic concepts and methodologies of bioinformatics and their application to analyzing genomic and proteomic data. Topics may include dynamic programming algorithms, graph theoretic techniques, hidden Markov models, phylogenetic trees, RNA/protein structure predictions and microarray analysis. Prereq: CSCI 1410, MATH 3191 or 3195. Cross-listed with CSCI 4788, MATH 4788. Semester Hours: 3 to 3

PHYS 4810 - Atomic and Molecular Structure
A course in which quantum mechanical methods are applied to problems in atomic and molecular physics, such as the one-electron atom, atomic and molecular spectra, and particle scattering. Prereq: PHYS 3811. Semester Hours: 3 to 3

PHYS 4840 - Independent Study: PHYS
Note: Students must check with a faculty member before taking this course. Semester Hours: 1 to 3

PHYS 4850 - Physics for Design and Innovation I
A service-learning project using fundamental physical principles to design a prototype scientific instrument, technical device, or technical process for a real-world client. Includes instruction on project management, intellectual property, and market analysis. Cross-listed with PHYS 5850. Semester Hours: 3 to 3

PHYS 4852 - Physics for Design and Innovation II
A capstone project using fundamental physical principles to prototype a scientific instrument, technical device or technical process. The focus is on the student’s own product idea. Includes online guided
readings on the wider context of product development. Students should consult with instructor on necessary physics and mathematics preparation for the project. Prereq: PHYS 4850. Cross-listed with PHYS 5852. **Semester Hours:** 3 to 3

**PHYS 4920 - Advanced Undergraduate Seminar**
Studies a focused topic such as: size and age of the universe, critical phenomena, non-linear optics, energy, fiber-optic communications, among others. Students research these topics and give a seminar outlining their findings. Prereq: PHYS 2811 or permission of instructor. **Semester Hours:** 1 to 1

**PHYS 4931 - Internship in Applied Physics**
Lab experience at major federal and industrial laboratories; an alternative means by which senior physics students complete their senior lab requirement. Note: To be taken in lieu of PHYS 4711 and/or 4721. Prereq: PHYS 3721. **Semester Hours:** 2 to 4

**PHYS 4939 - Internship**
**Semester Hours:** 1 to 3

**PHYS 4980 - Advanced Physics Topics**
Covers a particular topic, as announced in the 'Schedule Planner.' Note: May be taken more than once for credit in different topics. Prereq: PHYS 2811. **Semester Hours:** 1 to 3

**PHYS 5101 - RM-MSMSP: Forces and Motion**
Systematic study of the concepts of motion and the forces that cause motion to change, using daily hands-on activities that include identifying patterns by collecting, graphing or analyzing data and applying concepts to everyday phenomena. Concepts are linked to other scientific, mathematical, societal, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: Permission of project director. **Semester Hours:** 4 to 4

**PHYS 5102 - RM-MSMSP: Light, Color, and Geometrical Optics**
Systematic study of numerous phenomena in light and geometrical optics including: illumination, shadows, and pinholes; reflection and image formation with lenses; color. Concepts are linked to other scientific, mathematical, societal, and pedagogical domains. This course is not applicable toward any degree in the College of Liberal Arts and Sciences. Prereq: Permission of project director. **Semester Hours:** 4 to 4

**PHYS 5103 - Forms and Transfer of Energy**
Presents approaches to teaching basic concepts of energy with an emphasis on electricity and magnetism. Addresses the Colorado Department of Education's Grade 8 science assessment framework, specifically 2.8, 2.9 and 4.2. Course is not applicable toward any degree in physics. Prereq: Permission of project director. **Semester Hours:** 4 to 4

**PHYS 5104 - RM-MSMSP Aviation Fundamentals**
Designed for teachers in the RM-MSMSP program. Explores flight instruments, aerodynamics, safety of flight, charts/airspace, radios/communication, weather, navigation, aircraft performance, NASA microgravity and medical issues, cross country flight, route and aircraft planning, Crew resource management, aeronautical decision making and more. **Semester Hours:** 4 to 4

**PHYS 5105 - RM-MSMSP Research Experience for Teachers - Physics Cohort**
A five-week research exploration in which RM-MSMSP teachers will raise their level of relevant scientific understanding by engaging in a "hands-on" workshop, transforming what they have learned into new
curricular materials that will improve the scientific abilities of their students and hopefully stimulate them to consider a STEM career. Note: credit may not apply toward any CLAS degree. **Semester Hours:** 1 to 6

**PHYS 5400 - Topics in Scientific Instrumentation and Laboratory Methods**
Short courses on practical knowledge needed to design scientific instruments, develop technical products, and use special laboratory procedures in research. Topics include materials, mechanisms, electronics, and optics. Specific topic information is available through the physics department web site. Cross-listed with PHYS 4400-4499. **Semester Hours:** 1 to 1

**PHYS 5401 - Special Topics**  
**Semester Hours:** 1 to 3

**PHYS 5402 - Special Topics**  
**Semester Hours:** 1 to 3

**PHYS 5403 - Special Topics**  
**Semester Hours:** 1 to 3

**PHYS 5404 - Independent Study: PHYS**  
Note: Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 3

**PHYS 5405 - Physics for Design and Innovation I**  
A service-learning project using fundamental physical principles to design a prototype scientific instrument, technical device, or technical process for a real-world client. Includes instruction on project management, intellectual property, and market analysis. Cross-listed with PHYS 4850. **Semester Hours:** 3 to 3

**PHYS 5406 - Physics for Design and Innovation II**  
A capstone project using fundamental physical principles to prototype a scientific instrument, technical device or technical process. The focus is on the student's own product idea. Includes online guided readings on the wider context of product development. Students should consult with instructor on necessary physics and mathematics preparation for the project. Prereq: PHYS 4850 or 5850. Cross-listed with PHYS 5852. **Semester Hours:** 3 to 3

**PHYS 5407 - Internship**  
Note: Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 6

**PHYS 5408 - Master's Thesis**  
Note: Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 8

**PHYS 5409 - Master's Project**  
Note: Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 8

**PHYS 5410 - Advanced Physics Topics**  
Covers a particular topic as announced in the 'Schedule Planner.' Note: May be taken more than once for credit in different topics. Prereq: PHYS 2811 or permission of instructor. **Semester Hours:** 1 to 3

**PHYS 5411 - Independent Study: PHYS**  
Note: Students must check with a faculty member before taking this course. **Semester Hours:** 1 to 3
Performance Music Courses (PMUS)

PMUS 1001 - Music Appreciation
Explores the style of music in the major compositional periods, including contemporary pop styles. This course will not satisfy any degree requirements for music majors. For non-music majors who want to learn how to listen to music with greater understanding and pleasure. **Semester Hours:** 3 to 3

PMUS 1020 - Beginning Musicianship
Provides basic musical and theoretical skills to students who do not have the proficiency to enroll in Theory I and Ear Training I. Major concepts include an introduction to music fundamentals, basic ear training, introduction to sight singing and an applied understanding of the keyboard. This course will not satisfy any degree requirements for Music majors. **Semester Hours:** 3 to 3

PMUS 1021 - Piano Class For Non-Majors
Elementary group instruction in piano skills for non-majors. Course focuses upon development of basic reading and performance skills for the non-Music Major. Course is repeatable for a maximum of 4 credits. **Semester Hours:** 2 to 2

PMUS 1023 - Piano Class I
This course focuses on beginning note reading in both treble and bass clefs, learning one octave major key scales, basic harmonization, and beginning improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Coreq: PMUS 1100 and 1110. **Semester Hours:** 1 to 1

PMUS 1024 - Piano Class II
This course focuses on intermediate sight reading, technique, chord vocabulary, major and minor scales, and improvisation. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: PMUS 1023. Coreq: PMUS 1200 and 1210. **Semester Hours:** 1 to 1

PMUS 1025 - Piano Class III
Students entering this course are expected to have general fluency in major and minor scales. The course focuses on expanding chord vocabulary, sight reading, transposition, and performing more advanced repertoire. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Prereq: PMUS 1024. **Semester Hours:** 1 to 1

PMUS 1026 - Piano Class IV
Students entering this course are expected to have fluency in sight reading, major and minor scales. The course focuses on harmonizing with complex chords, playing by ear, improvisation, and playing repertoire in broader range of key signatures. Students perform in both individual and group settings. Note: This course is restricted to Music-Majors only. Course meets in Roland Piano Lab. Prereq: PMUS 1025. **Semester Hours:** 1 to 1

PMUS 1040 - Class Guitar
Designed to provide each student with a basic knowledge of the fretboard. The course material focuses on beginning note reading, basic chord forms and elementary improvisation. Students have the opportunity to perform in both individual and group settings. **Semester Hours:** 1 to 1

PMUS 1041 - Class Guitar II
This group guitar class is designed to go beyond PMUS 1040 and provide students with an advanced knowledge of the fretboard. The course material focuses on advance position note reading, complex chord
forms and scale vocabulary. Students have the opportunity to perform in both individual and group settings. **Semester Hours:** 1 to 1

**PMUS 1045 - Class Guitar I for Non-Majors**
This class will address basic techniques and concepts of playing the guitar, for non-majors. Students will gain a basic proficiency with regard to picking and fingerstyle technique, and learn essential contemporary harmony through the performance of etudes. **Semester Hours:** 1 to 1

**PMUS 1046 - Class Guitar II for Non-Majors**
This class will address basic techniques and concepts of playing the guitar, for non-majors. Students will gain a basic proficiency with regard to picking and fingerstyle technique, and learn essential contemporary harmony through the performance of etudes. **Semester Hours:** 1 to 1

**PMUS 1047 - The Beatles for Fingerstyle Guitar**
This course will examine the music of The Beatles, through harmonic analysis, technical etudes and performance practice. Students will develop a basic proficiency with regard to specific fingerstyle techniques. **Semester Hours:** 1 to 1

**PMUS 1050 - Voice Class I**
Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. **Semester Hours:** 1 to 1

**PMUS 1051 - Voice Class I for Non-Majors**
Voice technique and repertoire for non-music majors taught in a group setting. Students will learn basics of healthy singing technique and how to sing in multiple genres in both group and solo formats. For non-majors with little or no previous singing **Semester Hours:** 2 to 2

**PMUS 1060 - Voice Class II**
Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Extension of PMUS 1050, with opportunity to continue to develop individual skills in singing. Development of technique, confidence, and control through group and solo singing. Development of repertoire that includes contemporary and commercial vocal styles. **Semester Hours:** 1 to 1

**PMUS 1061 - Voice Class II for Non-Majors**
Intermediate Voice technique for non-majors taught in a group setting. Students will learn elements of technique, style and repertoire geared toward non-majors. Some singing experience or successful completion of Voice I for Non-Music Majors required. **Semester Hours:** 2 to 2

**PMUS 1100 - Music Theory I**
Study of the evolution of harmonic and melodic procedures, as derived from the common practice period of classical music, and their relationship to contemporary music concepts. Coreq: PMUS 1110 and PMUS 1023. **Semester Hours:** 3 to 3

**PMUS 1101 - Music Theory & Ear Training Lab**
Provides supplemental instruction and tutoring for students enrolled in Theory I and Ear Training Sight Signing I. Course activities include training in the following subject areas: scale formation and
identification, chord spelling and identification, interval spelling and identification, basic harmonic
analysis and rhythmic dictation. **Semester Hours:** 1 to 1 **When Offered:** FALL

**PMUS 1110 - Ear Training and Sight Singing I**
An aural skills laboratory course that reinforces the concepts taught in Music Theory I through interval,
melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing of music. Coreq:
PMUS 1100 and PMUS 1023. **Semester Hours:** 1 to 1

**PMUS 1200 - Music Theory II**
The study of harmonic and melodic elements as they relate to modern, jazz, and commercial music.
Topics include contemporary chord spelling, chord substitution, transposition, voice leading, harmonic
analysis and modes. Prereq: PMUS 1110 and PMUS 1100. Coreq: PMUS 1210 and PMUS 1023. **Semester
Hours:** 3 to 3

**PMUS 1210 - Ear Training and Sight Singing II**
An intermediate aural skills laboratory course that reinforces the concepts taught in Music Theory II
through interval, melodic, harmonic, and rhythmic dictation as well as the preparation and sight singing
of music. Prereq: PMUS 1100 and PMUS 1110. Coreq: PMUS 1200 and PMUS 1023. **Semester Hours:** 1
to 1

**PMUS 1310 - Sight Reading and Improvisation**
Explores the techniques and concepts of instrumental jazz/commercial improvisation and beginning sight
reading. Major concepts include understanding and interpreting the construction of jazz harmonic
nomenclature and the mastery of the melodic elements of improvisation. Prereq: PMUS 1200, 4.0 credits
from PMUS 1801 to PMUS 1823 (MIS Applied Lesson). **Semester Hours:** 2 to 2

**PMUS 1400 - Group Applied Lessons**
Consists of group music lessons of up to four students per group. The course meets for one hour per week.
45 minutes will be in group format and 15 minutes will be rotating private instruction. Note: PMUS 1400
is only available to majors in the Music Industry Studies degree program. Coreq: PMUS 1500 and at least
7 non-applied lesson credits. **Semester Hours:** 2 to 2

**PMUS 1410 - Percussion I Ensemble**
Beginning Ensemble. Focus on basic percussion techniques and introductory ensemble playing utilizing
Afro-Cuban literature. Comprised of percussion instruments of both definite and indefinite pitch.
Introduces rhythmic sight-reading. Develops collaborative learning, aural skills and interactive
multicultural awareness. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

**PMUS 1420 - UCD A Cappella Voices Ensemble**
Beginning Ensemble. A cappella choir. This course will focus on choral singing to further the student’s
musical and vocal skills. Emphasis will be on successful preparation for the advanced a cappella groups.
Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

**PMUS 1430 - Solo Vocal Jazz Ensemble**
Beginning Ensemble. Focus on basic performance and stylistic skills in the jazz language. Students will
learn basic and jazz vocal techniques and skills and their application in study and performance. Students
will perform in solo and duo settings. Prereq: Audition or meeting with ensemble faculty. **Semester
Hours:** 1 to 1
PMUS 1440 - Acoustic Guitar Ensemble
Beginning Ensemble. This course explores the techniques and repertoire of acoustic guitar. Musical styles include: jazz, Latin, bluegrass, Renaissance, Baroque, tango and blues. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

PMUS 1450 - Music Theatre Ensemble
Beginning Ensemble. This course consists of group rehearsals of contemporary and original music theater works with a focus on techniques, technologies, and strategies for arranging. Score reading, transposition, ranges, orchestration and composition will be covered. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

PMUS 1460 - Beginning Instrumental Ensemble
Focus on basic performance and stylistic skills in the jazz, Latin, and blues genres. Students will learn basic instrumental techniques and their application in group performances. **Semester Hours:** 1 to 1

PMUS 1470 - Performance Practice Ensemble
This beginning-level ensemble explores individual and group performance settings for first year audition-based MEIS students. Course skills include: performance protocol, presentation, self assessment and peer assessment. **Semester Hours:** 1 to 1

PMUS 1500 - General Recital
This pass/fail course is a co-requisite for all students enrolled in applied music instruction. Students will evaluate and critique musical performances and presentations as well as develop an informed understanding of live musical performance as it pertains to diversity of genre and excellence in musical achievement. **Semester Hours:** 1 to 1

PMUS 1502 - Applied Electric Bass
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1512 - Applied String Bass
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1522 - Applied Bassoon
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1532 - Applied Clarinet
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note:
Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500,
enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1542 - Applied Bass Clarinet**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note:
Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500,
enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1552 - Applied Flute**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note:
Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500,
enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1562 - Applied French Horn**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note:
Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500,
enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1572 - Applied Guitar**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note:
Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500,
enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1582 - Applied Banjo**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note:
Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500,
enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1610 - Topics in Performance Music**
Various topics related to music performance. **Semester Hours:** 1 to 1

**PMUS 1612 - Applied Drum Kit**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note:
Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500,
enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1
PMUS 1620 - Topics: Performance Music II
Various topics related to music performance. **Semester Hours:** 2 to 2

PMUS 1622 - Applied Oboe
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1630 - Topics: Performance Music III
Various topics related to music performance. **Semester Hours:** 3 to 3

PMUS 1632 - Applied World Percussion
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1642 - Applied Piano
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1652 - Applied Jazz Piano
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1662 - Applied Saxophone
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

PMUS 1672 - Applied Synthesizer
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1
**PMUS 1682 - Applied Trombone**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1692 - Applied Trumpet**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1702 - Applied Violin**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1712 - Applied Viola**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1722 - Applied Cello**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1732 - Applied Voice**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1

**PMUS 1742 - Applied Tuba**
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. **Semester Hours:** 1 to 1
PMUS 1762 - Applied Euphonium
Private music lessons for audition-based music majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Semester Hours: 1 to 1

PMUS 1801 - MIS Applied Electric Bass
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program Semester Hours: 1 to 1

PMUS 1802 - MIS Applied String Bass
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Semester Hours: 1 to 1

PMUS 1803 - MIS Applied Guitar
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Semester Hours: 1 to 1

PMUS 1804 - MIS Applied Percussion
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Semester Hours: 1 to 1

PMUS 1805 - MIS Applied Drum Kit
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Semester Hours: 1 to 1

PMUS 1806 - MIS Applied Piano
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. Semester Hours: 1 to 1
**PMUS 1807 - MIS Applied Jazz Piano**  
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

**PMUS 1808 - MIS Applied Voice**  
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

**PMUS 1809 - MIS Applied Synthesizer**  
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

**PMUS 1810 - MIS Applied Trumpet**  
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

**PMUS 1811 - MIS Applied Trombone**  
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

**PMUS 1812 - MIS Applied Tuba**  
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

**PMUS 1813 - MIS Applied French Horn**  
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1
PMUS 1814 - MIS Applied Euphonium
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors
in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits.
Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1815 - MIS Applied Banjo
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors
in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits.
Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1816 - MIS Applied Bassoon
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors
in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits.
Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1817 - MIS Applied Clarinet
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors
in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits.
Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1818 - MIS Applied Flute
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors
in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits.
Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1819 - MIS Applied Saxophone
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors
in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits.
Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1820 - MIS Applied Oboe
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental
technique, learning and performing standard repertoire, understanding the foundations of musicality,
sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors
in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits.
Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1
PMUS 1821 - MIS Applied Cello
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1822 - MIS Applied Viola
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 1823 - MIS Applied Violin
Private music lessons for Music Industry Studies majors. Lessons emphasize developing fundamental technique, learning and performing standard repertoire, understanding the foundations of musicality, sight reading and developing rhythmic accuracy. Note: Only available to non audition based music majors in the Music Industry Studies emphasis area. Coreq: PMUS 1500 and at least 7 non-applied lesson credits. Prereq: Acceptance to the MEIS program. **Semester Hours:** 1 to 1

PMUS 2092 - Commercial Piano Styles
Explores the major commercial piano styles of the twentieth century with a focus on the performance of these styles. Note: Students must have already passed PMUS 1026 (Piano Class IV) or be accepted as a pianist in an audition-based degree track in the MEIS department. **Semester Hours:** 2 to 2 **When Offered:** FALL

PMUS 2094 - Rhythm Section Techniques
This course examines jazz and contemporary techniques for the rhythm section. Students will learn styles, skills and expectations for various rhythm instruments including guitar, bass, piano, and drum kit in order to improve musical communication, accompaniment skills and creativity. **Semester Hours:** 1 to 1

PMUS 2095 - Commercial Guitar Styles and Theory - Harmony
A comprehensive guitar course that focuses on harmonic theory specific to the guitar fingerboard. Topics include: chord voicing and inversions, jazz and commercial accompaniment styles including walking bass, bossa nova, funk and finger picking. **Semester Hours:** 2 to 2

PMUS 2096 - Commercial Guitar Styles and Theory - Melody
A comprehensive guitar course that focuses on harmonic theory specific to the guitar fingerboard. Topics include: tetrachords, scales, modes, arpeggios, finger technique development and improvisation. **Semester Hours:** 2 to 2

PMUS 2097 - Commercial Singing I
Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Development of contemporary solo vocal repertoire (pop, rock, jazz, rhythm and blues) and traditional styles. Training in all aspects of vocal performance needed for live performance and recording sessions (microphone technique, stage presence, appropriate vocal styles and delivery). Development of solid understanding of vocal technique and its application to all vocal styles. **Semester Hours:** 2 to 2
PMUS 2098 - Commercial Singing II
Fundamentals of voice production: posture, breath management and support, tone, resonance, diction, phrasing and interpretation. Extension of PMUS 3010, with opportunity to continue to develop individual skills in commercial solo singing. Development of contemporary solo vocal repertoire (pop, rock, jazz, rhythm and blues) and traditional styles. Training in all aspects of vocal performance needed for live performance and recording sessions (microphone technique, stage presence, appropriate vocal styles and delivery). Development of solid understanding of vocal technique and its application to all vocal styles. Prereq: PMUS 3010. Semester Hours: 2 to 2

PMUS 2100 - Music Theory III
Exposes students to the theoretical aspects of Western European classical music from the Baroque period to the Classical period. Emphasis is placed on the melodic aspects of classical music including the creation of melody and the combining of melodies into polyphonic structures. Prereq: PMUS 1200, 1210, and 1024. Coreq: PMUS 1025 and 2110. Semester Hours: 3 to 3

PMUS 2110 - Ear Training and Sight Singing III
An advanced laboratory course designed to help students listen to music analytically and to apply the harmonic principles learned in Music Theory III to the performance of music. Prereq: PMUS 1200 and PMUS 1210. Coreq: PMUS 2100 and PMUS 1023. Semester Hours: 1 to 1 When Offered: FALL

PMUS 2200 - Jazz Theory
Explores music theory as it applies to the genres of jazz and popular music. The topics include the theory of jazz improvisation, an analysis of jazz and popular music forms, the transcription and analysis of pop/jazz rhythms and melodies, and chord substitutions. Prereq: PMUS 1200. Semester Hours: 3 to 3

PMUS 2220 - Commercial Electronic Music Composition
An investigation, analysis and application of contemporary electronic music compositional and production techniques in relation to commercial music and historical context. Prereq: PMUS 1200, PMUS 1210 and MUSC 2300. Semester Hours: 3 to 3

PMUS 2310 - Introduction to Songwriting
Studies the craft of songwriting. Emphasis is on the creation of original melodies and lyrics. A variety of non-classical contemporary musical styles are considered. Prereq: PMUS 1200, 4.0 credits from PMUS 1801 to PMUS 1823 (MIS Applied Lesson). Semester Hours: 3 to 3

PMUS 2400 - Performance Art and Experimental Music
Introduces the history, philosophies and techniques of the European and American Avant-Garde theatrical performance and music. A study of music's various roles provides students with opportunities for creative application. Semester Hours: 3 to 3

PMUS 2410 - Percussion II Ensemble
Intermediate Ensemble. Focus on percussion techniques and ensemble playing utilizing Afro-Cuban literature. Comprised of percussion instruments of both definite and indefinite pitch. Assumes basic rhythmic sight-reading ability. Introduces theoretical concepts. Develops collaborative learning, aural skills and interactive multicultural awareness. Prereq: Audition or meeting with ensemble faculty. Semester Hours: 1 to 1

PMUS 2420 - Electro/Acoustic Ensemble
Intermediate Ensemble. This course will study established methods used as agents of musical creativity in the practice of improvised music. Focus on real-time musical collaboration utilizing musical vocabularies
from a wide range of sources. Instrumentation of many kinds may be utilized. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

**PMUS 2430 - Pop/Rock Ensemble**  
Intermediate Ensemble. This course will focus on group rehearsals of contemporary music with challenging technical and vocal requirements. Students will gain experience in transcribing and creating simple arrangements, learning adequate musicality, performing presentation and group cooperation. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

**PMUS 2440 - Chamber Ensemble**  
Intermediate Ensemble. Mixed instrumental group for string, wind, brass, piano, and percussion players. Students will develop sight-reading and improvisation skills and perform student originals and arrangements including repertoire from the Baroque period through the Avant-Garde with no stylistic limitations. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

**PMUS 2450 - Bluegrass Ensemble**  
Ensemble designed to give students the opportunity to explore Bluegrass music and related folk/country styles through performance, listening and discussion. Important artists, repertoire, musical trends, and historical perspectives will be studied. **Semester Hours:** 1 to 1  
**When Offered:** FALL SPR

**PMUS 2502 - Applied Electric Bass**  
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1502 (Two semesters). **Semester Hours:** 1 to 1

**PMUS 2512 - Applied String Bass**  
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1512 (Two semesters). **Semester Hours:** 1 to 1

**PMUS 2522 - Applied Bassoon**  
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1522 (Two semesters). **Semester Hours:** 1 to 1

**PMUS 2532 - Applied Clarinet**  
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an
ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1532 (Two semesters). Semester Hours: 1 to 1

**PMUS 2542 - Applied Bass Clarinet**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1542 (Two semesters). Semester Hours: 1 to 1

**PMUS 2552 - Applied Flute**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1552 (Two semesters). Semester Hours: 1 to 1

**PMUS 2562 - Applied French Horn**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1562 (Two semesters). Semester Hours: 1 to 1

**PMUS 2572 - Applied Guitar**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572 (Two semesters). Semester Hours: 1 to 1

**PMUS 2582 - Applied Banjo**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582 (Two semesters). Semester Hours: 1 to 1

**PMUS 2612 - Applied Drum Kit**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612 (Two semesters). Semester Hours: 1 to 1
PMUS 2622 - Applied Oboe
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1622 (Two semesters). **Semester Hours:** 1 to 1

PMUS 2632 - Applied World Percussion
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632 (Two semesters). **Semester Hours:** 1 to 1

PMUS 2642 - Applied Piano
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642 (Two semesters). **Semester Hours:** 1 to 1

PMUS 2652 - Applied Jazz Piano
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1652 (Two semesters). **Semester Hours:** 1 to 1

PMUS 2662 - Applied Saxophone
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1662 (Two semesters). **Semester Hours:** 1 to 1

PMUS 2672 - Applied Synthesizer
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672 (Two semesters). **Semester Hours:** 1 to 1
PMUS 2682 - Applied Trombone
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1682 (Two semesters). Semester Hours: 1 to 1

PMUS 2692 - Applied Trumpet
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1692 (Two semesters). Semester Hours: 1 to 1

PMUS 2702 - Applied Violin
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702 (Two semesters). Semester Hours: 1 to 1

PMUS 2712 - Applied Viola
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712 (Two semesters). Semester Hours: 1 to 1

PMUS 2722 - Applied Cello
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722 (Two semesters). Semester Hours: 1 to 1

PMUS 2732 - Applied Voice
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732 (Two semesters). Semester Hours: 1 to 1
**PMUS 2742 - Applied Tuba**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1742 (Two semesters). **Semester Hours:** 1 to 1

**PMUS 2750 - Functional Guitar Skills: Acoustic Guitar Styles**
This course is designed to introduce students to the fundamental architecture and techniques of contemporary acoustic guitar styles. The first part of the course will explore the techniques, repertoire and styles of Fingerstyle Guitar, while the second half will be dedicated to Flatpicking styles and techniques. **Semester Hours:** 2 to 2

**PMUS 2751 - Functional Guitar Skills: Electric Guitar Styles**
This course is designed to introduce students to the fundamental architecture and techniques of contemporary electric guitar styles with regard to studio and live performance situations. Students will also explore the business aspects of music performance including marketing, self-assessment, career strategies, recording, and press kits. **Semester Hours:** 2 to 2

**PMUS 2762 - Applied Euphonium**
Private music lessons for audition-based music majors. Lessons emphasize developing proficient technique, learning and performing advanced repertoire, demonstrating musicality, developing rhythmic accuracy and improvising. Students perform in a general recital and jury. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1762 (Two semesters). **Semester Hours:** 1 to 1

**PMUS 3100 - US Music: Social & Political Impact**
Examines and describes the social meaning of American music with particular reference to the roles of major ethnic groups in the creation of this music and the way that the music reveals attitudes toward these groups. **Semester Hours:** 3 to 3

**PMUS 3110 - Social and Political Implications of American Music**
Examines and describes the social meaning of American music with particular reference to the roles of major ethnic groups in the creation of this music, and the way that the music reveals attitudes toward these groups. **Semester Hours:** 3 to 3

**PMUS 3200 - Popular Music Performance Skills**
Students develop live performance skills including expression, stage presence and creating energy on stage, as well as connecting with the audience. **Semester Hours:** 2 to 2  **When Offered:** FALL SPR

**PMUS 3210 - Introduction to Teaching Private Music Lessons**
Prepares students to teach private music lessons. Includes a survey of teaching styles from around the world, exercises, guest lectures, practical guidance for establishing a teaching studio and student research presentations. **Semester Hours:** 3 to 3

<th>Course Title</th>
<th>Description</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PMUS 3300</td>
<td>Advanced Jazz Improvisation</td>
<td>Explores the techniques and concepts of instrumental jazz/commercial improvisation and sight reading. Major concepts include understanding and interpreting the construction of jazz harmonic nomenclature and the mastery of the melodic elements of improvisation.</td>
<td>2 to 2</td>
</tr>
<tr>
<td>PMUS 3310</td>
<td>Intermediate Songwriting</td>
<td>Presents concepts of songwriting that build upon those presented in MUSC 2300. Students are expected to understand and discuss musical concepts and lyric structure and use these concepts in the creation of original songs. Prereq: PMUS 1024, PMUS 1200, and</td>
<td>3 to 3</td>
</tr>
<tr>
<td>PMUS 3320</td>
<td>Popular Music Arranging</td>
<td>This course will focus on techniques, technologies and strategies for contemporary arranging. Students score original compositions for various instrumentation using notation software.</td>
<td>3 to 3</td>
</tr>
<tr>
<td>PMUS 3330</td>
<td>Advanced Vocal Improvisation</td>
<td>Provides study of harmony, style and advanced improvisation techniques for vocalists. Course activities include study of scat singing, syllables, accents, rhythmic patterns, and phrasing over standard chord changes in several genres.</td>
<td>2 to 2</td>
</tr>
<tr>
<td>PMUS 3410</td>
<td>Percussion III Ensemble</td>
<td>Advanced Ensemble. Focus on percussion techniques and ensemble playing utilizing Afro-Cuban literature. Comprised of percussion instruments of both definite and indefinite pitch. Assumes intermediate rhythmic sight-reading ability. Develops collaborative learning and awareness of drumming as universal language. Prereq: Audition or meeting with ensemble faculty.</td>
<td>1 to 1</td>
</tr>
<tr>
<td>PMUS 3430</td>
<td>Jazz Combo Ensemble</td>
<td>Advanced Ensemble. Instrumental jazz group. This course will focus on group rehearsals of bebop, swing, funk, &amp; fusion. Prereq: Audition or meeting with ensemble faculty.</td>
<td>1 to 1</td>
</tr>
<tr>
<td>PMUS 3440</td>
<td>Voz de la Clave</td>
<td>Advanced Ensemble. This ensemble performs Salsa and Afro-Caribbean music. Ensemble time is spent rehearsing repertoire and learning about Latin music concepts. Prereq: Audition or meeting with ensemble faculty.</td>
<td>1 to 1</td>
</tr>
<tr>
<td>PMUS 3450</td>
<td>Singer/Songwriter Ensemble</td>
<td>Advanced Ensemble. Focus on student compositions of original songs with lyrics and instrumental accompaniment including creation of lead sheets for band performances. Individual and group songwriting is explored. Students participate in community-building activities including community engagement and a songwriting retreat. Prereq: Audition or meeting with ensemble faculty.</td>
<td>1 to 1</td>
</tr>
<tr>
<td>PMUS 3460</td>
<td>Ninth Street Singers Ensemble</td>

performance practice, identifying musical goals and preparing and performing a junior recital. Note:
Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits.
Prereq: PMUS 1502 and PMUS 2502 (two semesters each), and successful completion of sophomore
proficiency. **Semester Hours:** 2 to 2

**PMUS 3512 - Applied String Bass**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique,
memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior
performance practice, identifying musical goals and preparing and performing a junior recital. Note:
Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits.
Prereq: PMUS 1512 and PMUS 2512 (two semesters each), and successful completion of sophomore
proficiency. **Semester Hours:** 2 to 2

**PMUS 3522 - Applied Bassoon**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique,
memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior
performance practice, identifying musical goals and preparing and performing a junior recital. Note:
Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits.
Prereq: PMUS 1522 and PMUS 2522 (two semesters each), and successful completion of sophomore
proficiency. **Semester Hours:** 2 to 2

**PMUS 3532 - Applied Clarinet**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique,
memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior
performance practice, identifying musical goals and preparing and performing a junior recital. Note:
Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits.
Prereq: PMUS 1532 and PMUS 2532 (two semesters each), and successful completion of sophomore
proficiency. **Semester Hours:** 2 to 2

**PMUS 3542 - Applied Bass Clarinet**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique,
memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior
performance practice, identifying musical goals and preparing and performing a junior recital. Note:
Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits.
Prereq: PMUS 1542 and PMUS 2542 (two semesters each), and successful completion of sophomore
proficiency. **Semester Hours:** 2 to 2

**PMUS 3552 - Applied Flute**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique,
memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior
performance practice, identifying musical goals and preparing and performing a junior recital. Note:
Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits.
Prereq: PMUS 1552 and PMUS 2552 (two semesters each), and successful completion of sophomore
proficiency. **Semester Hours:** 2 to 2
PMUS 3562 - Applied French Horn
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1562 and PMUS 2562 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3572 - Applied Guitar
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572 and PMUS 2572 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3582 - Applied Banjo
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582 and PMUS 2582 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3612 - Applied Drum Kit
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612 and PMUS 2612 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3622 - Applied Oboe
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1622 and PMUS 2622 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3632 - Applied World Percussion
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632 and PMUS 2632 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

**PMUS 3642 - Applied Piano**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642 and PMUS 2642 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

**PMUS 3652 - Applied Jazz Piano**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1652 and PMUS 2652 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

**PMUS 3662 - Applied Saxophone**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1662 and PMUS 2662 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

**PMUS 3672 - Applied Synthesizer**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672 and PMUS 2672 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

**PMUS 3682 - Applied Trombone**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1682 and PMUS 2682 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2
PMUS 3692 - Applied Trumpet
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1692 and PMUS 2692 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3702 - Applied Violin
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702 and PMUS 2702 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3712 - Applied Viola
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712 and PMUS 2712 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3722 - Applied Cello
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722 and PMUS 2722 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3732 - Applied Voice
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732 and PMUS 2732 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

PMUS 3742 - Applied Tuba
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor
permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1742 and PMUS 2742 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

**PMUS 3762 - Applied Euphonium**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing and performing repertoire, demonstrating a high level of musicality, cultivating superior performance practice, identifying musical goals and preparing and performing a junior recital. Note: Students must be an audition-based music major and accepted to performance emphasis. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1762 and PMUS 2762 (two semesters each), and successful completion of sophomore proficiency. **Semester Hours:** 2 to 2

**PMUS 3772 - Applied Singer/Songwriter**
This is a 2-credit course consisting of one-on-one, hour-long weekly lessons in songwriting and performance skills. Aspects of transcription, analysis, and career development will be incorporated. Co-requisites - PMUS 1500, enrollment in an ensemble an **Semester Hours:** 2 to 2 **When Offered:** FALL SPR

**PMUS 3820 - Music History Modules**
This modular course surveys various popular, Western European, and world music styles. **Semester Hours:** 1 to 1

**PMUS 3825 - Real History of Rock and Roll**
Examines the historical and social framework developments in music from its roots in country, through jazz and blues to current trends. Special emphasis is given to guest lecturers and their expertise performing, covering and presenting the music. **Semester Hours:** 3 to 3

This course will give students an inside look at the history and radical changes brought about by the musicians, technology and the social interplay between US social history and jazz music by examining the music & musicians that performed it. **Semester Hours:** 3 to 3

**PMUS 3830 - History and Literature of Music I**
This course provides a historical perspective of Western music literature from the medieval through the classical era. **Semester Hours:** 3 to 3

**PMUS 3831 - History and Literature of Music II**
This course provides a historical perspective of Western music literature from the Romantic era through the present day. **Semester Hours:** 3 to 3

**PMUS 3840 - Independent Study: PMUS**
**Semester Hours:** 1 to 3

**PMUS 4060 - Music Theory Analysis**
Students analyze the harmonic, melodic, and formal aspects of the music from various musical time periods and genres which include Baroque, Classical, Romantic, Contemporary Classical, jazz and popular music. Prereq: PMUS 2110 and 2200. **Semester Hours:** 3 to 3
PMUS 4200 - Senior Recital Project
The capstone course for performance majors that coincides with their senior recital. The project focuses on musical and thematic material from the student's senior recital and may include: historical research, theoretical analysis, transcriptions and creation of a digital portfolio. **Semester Hours:** 2 to 2

PMUS 4310 - Advanced Songwriting
Students will continue to learn the craft of songwriting with focus on the skills of advanced lyric writing technique. Students will expand their knowledge of theoretical aspects of harmony and melody. **Semester Hours:** 3 to 3 **When Offered:** FALL

PMUS 4410 - Claim Jumpers Ensemble
Signature Ensemble. The Claim Jumpers will focus on group rehearsals of significant traditional jazz literature, masterworks of classic jazz of the 1920’s, and creativity within the traditional jazz genre at the highest level. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

PMUS 4430 - Guitar Ensemble
Signature Ensemble. Advance jazz guitar group. This course will focus on group rehearsals of bebop and fusion. Prereq: Audition or meeting with ensemble faculty. **Semester Hours:** 1 to 1

PMUS 4460 - Mix A Cappella Ensemble
Advanced a cappella performing group, working in a wide range of stylistic offerings. Enrollment by audition only. **Semester Hours:** 1 to 1

PMUS 4502 - Applied Electric Bass
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1502, PMUS 2502, PMUS 3502 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

PMUS 4512 - Applied String Bass
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1512, PMUS 2512, PMUS 3512 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

PMUS 4522 - Applied Bassoon
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1522, PMUS 2522, PMUS 3522 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2
**PMUS 4532 - Applied Clarinet**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1532, PMUS 2532, PMUS 3532 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4542 - Applied Bass Clarinet**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1542, PMUS 2542, PMUS 3542 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4552 - Applied Flute**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1552, PMUS 2552, PMUS 3552 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4562 - Applied French Horn**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1562, PMUS 2562, PMUS 3562 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4572 - Applied Guitar**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1572, PMUS 2572, PMUS 3572 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4582 - Applied Banjo**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major.
Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1582, PMUS 2582, PMUS 3582 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4600 - Topics in Music Performance**
Various topics related to music performance. **Semester Hours:** 3 to 3

**PMUS 4612 - Applied Drum Kit**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1612, PMUS 2612, PMUS 3612 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4622 - Applied Oboe**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1622, PMUS 2622, PMUS 3622 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4632 - Applied World Percussion**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1632, PMUS 2632, PMUS 3632 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4642 - Applied Piano**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1642, PMUS 2642, PMUS 3642 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4652 - Applied Jazz Piano**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson
credits. Prereq: PMUS 1652, PMUS 2652, PMUS 3652 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4662 - Applied Saxophone**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1662, PMUS 2662, PMUS 3662 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4672 - Applied Synthesizer**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1672, PMUS 2672, PMUS 3672 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4682 - Applied Trombone**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1682, PMUS 2682, PMUS 3682 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4692 - Applied Trumpet**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1692, PMUS 2692, PMUS 3692 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

**PMUS 4702 - Applied Violin**
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1702, PMUS 2702, PMUS 3702 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2
PMUS 4712 - Applied Viola
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1712, PMUS 2712, PMUS 3712 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

PMUS 4722 - Applied Cello
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1722, PMUS 2722, PMUS 3722 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

PMUS 4732 - Applied Voice
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1732, PMUS 2732, PMUS 3732 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

PMUS 4742 - Applied Tuba
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1742, PMUS 2742, PMUS 3742 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

PMUS 4762 - Applied Euphonium
Private music lessons for audition-based music majors. Lessons emphasize perfecting musical technique, memorizing professional-level repertoire, demonstrating an expert level of musicality, analyzing repertoire, achieving a musical identity, cultivating superior performance practice and preparing and performing a senior recital. Note: Students must be accepted as an audition-based music major. Instructor permission. Coreq: PMUS 1500, enrollment in an ensemble and at least 7 non-applied lesson credits. Prereq: PMUS 1762, PMUS 2762, PMUS 3762 (two semesters each), and successful completion of Junior Recital. **Semester Hours:** 2 to 2

PMUS 4772 - Applied Singer/Songwriter
This is a 2-credit course consisting of one-on-one, hour-long weekly lessons in songwriting and performance skills. Aspects of transcription, analysis, and career development will be incorporated. Plan Code: MUSC-BS SWR; Co-requisites - PMUS 1500, enro **Semester Hours:** 2 to 2  **When Offered:** FALL SPR
PMUS 4840 - Independent Study: PMUS

Semester Hours: 1 to 3
Pre-Nursing Courses (PRNU)

PRNU 2939 - Internship
Pre-Health internship offering students an opportunity to obtain hands-on experience in a clinical setting; will not apply to the Biology major. Involves application of technical concepts and skills in supervised allied health environment, such as a hospital or medical clinic. Note: May not be used as an upper-division elective. Prereq: One year of general biology with a grade of 'C' (2.0) or higher, junior standing, and a GPA of 2.75 or higher. **Semester Hours:** 1 to 3

PRNU 3939 - Internship
Pre-Health internship offering students an opportunity to obtain hands-on experience in a clinical setting; will not apply to the Biology major. Involves application of technical concepts and skills in supervised allied health environment, such as a hospital or medical clinic. Note: May not be used as an upper-division elective. Prereq: One year of general biology with a grade of 'C' (2.0) or higher, junior standing, and a GPA of 2.75 or higher. **Semester Hours:** 1 to 3
Political Science Courses (PSCI)

PSCI 1001 - Introduction to Political Science: The Quest for Freedom and Justice
Introduces the study of politics, its human importance, and its relationship to social institutions. Analysis of the relationship between individual political behavior and characteristics of the political system. Development of key concepts such as power, legitimacy, authority, political socialization, and revolution. Note: Required of all PSCI majors. **Semester Hours:** 3 to 3

PSCI 1101 - American Political System
General introduction to the American political system with emphasis upon citizen involvement, the relationships among the various levels and branches of government, formal and informal institutions, processes, and behavior. Note: Required of all PSCI majors. **Semester Hours:** 3 to 3

PSCI 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

PSCI 2001 - Topics in Political Science
Covers different areas of politics. Note: May be taken more than once for credit when topics vary. **Semester Hours:** 1 to 3

PSCI 2006 - Global Political Issues
Studies global political issues, exploring the broad forces at play in the world: international economics, national interests, military power, nationalism, ethnicity, the environment and human rights. Discussion of world events and underlying global issues, incorporating analytical tools used by political scientists. **Semester Hours:** 3 to 3

PSCI 2840 - Independent Study
An opportunity for lower division students who demonstrate academic potential to pursue the study of some subject of interest in greater detail, with supervision from a faculty member in the department. Subjects chosen and arrangements for assignments to be made between student and faculty. Prereq: One semester of course work at Downtown Denver Campus. **Semester Hours:** 1 to 3

PSCI 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. **Semester Hours:** 1 to 3

PSCI 3000 - Topics: Conference Participation
**Semester Hours:** 1 to 1

PSCI 3002 - Topics in Political Science
Covers different areas of politics. Note: May be taken more than once for credit when topics vary. **Semester Hours:** 1 to 3

PSCI 3011 - Research Methods
Design of political/social research, both qualitative and quantitative. Applications of statistical techniques and procedures to social and political phenomena. Use of computer and the Internet. **Semester Hours:** 3 to 3
PSCI 3022 - Introduction to Comparative Politics
Comparison of the basic political features of selected countries with focus on political behavior, institutions and political cultures. Themes examined include development, democratization, social movements, political instability and globalization. **Semester Hours: 3 to 3**

PSCI 3034 - Race, Gender, Law and Public Policy
Historical overview of race and gender relations in the U.S. and an examination of the treatment of issues of race and gender in the judicial system and public policy. **Semester Hours: 3 to 3**

PSCI 3035 - Political Movements: Race and Gender
Examines the emergence, growth, and decline of social movements for race and gender equality. Discussion of political issues of race and gender in the 1990s. **Semester Hours: 3 to 3**

PSCI 3042 - Introduction to International Relations
Basic background and theories of international relations with focus on the interaction between nation states, international organizations, regimes and transnational movements. Themes examined include foreign policy conduct, international security and political economy, human rights and environmental management. **Semester Hours: 3 to 3**

PSCI 3064 - Power and Empowerment in the United States
Introduces U.S. political economy. Analysis of the political and economic forces and structures that shape the opportunities available to the American people. Among topics included are reciprocal impacts of government and business, the federal budget, taxation, lobbying and special interests, community organizing, and elections. **Semester Hours: 3 to 3**

PSCI 3214 - Federal Law and American Indians
Examines the legal and political history of the U.S. in relation to American Indian Nations. Focuses on specific laws and Supreme Court cases in federal Indian law, with analysis of U.S. policy. There will be some comparison with Indian policies of other countries. Cross-listed with ETST 3216. **Semester Hours: 3 to 3**

PSCI 3333 - Utopian Transformations
Explores cutting-edge theory and practice in social change that transcends traditional left-right divisions and merely incremental reform. Utopian and transformative experiments studied include communes, worker cooperatives, neighborhood organizing, and green parties. Note: Service-learning option can fulfill major requirement. **Semester Hours: 3 to 3**

PSCI 3347 - Film and Politics
Presents historical and contemporary films to introduce students to critical evaluation of film as a political medium. Whether designed as propaganda or entertainment, films shape and reflect critical issues in our political and social culture. **Semester Hours: 3 to 3**

PSCI 3840 - Independent Study: PSCI
**Semester Hours: 1 to 3**

PSCI 3914 - The Urban Citizen
Course emphasis is community, the individual, and the good life. Experiential learning and classroom discussions about capacities of urban citizens. Focus is on social, political, and economic resources that individuals command, issues of equality and inequality, and possibilities of constructive change. Prereq: A
willingness to spend a semester working and studying together as a team in both the classroom and the community. **Semester Hours:** 3 to 3

**PSCI 3939 - Internship**
Designed experiences involving application of political concepts and skills in supervised employment situations. Prereq: Junior or senior standing and 3.0 GPA. **Semester Hours:** 1 to 3

**PSCI 4002 - Topics in Political Science**
Specialized areas of politics. Note: May be taken more than once for credit when topics vary. **Semester Hours:** 3 to 3

**PSCI 4009 - Politics of the Budgetary Process**
Develops each student's understanding of budgeting and financial management in the public and nonprofit sectors. An overview of public sector and nonprofit fiscal management is provided, along with thorough exploration of the political influences that affect financial decision-making. **Semester Hours:** 3 to 3

**PSCI 4011 - GIS in Political Science**
Computer lab course developing methodological skills in Geographic Information Systems (GIS) in political contexts. Geospatial computerized mapping skills are important in political fields such as urban planning, electoral analysis, environmental justice, demographics, public health, and criminal justice. Designed for beginners. Cross-listed with PSCI 5011. **Semester Hours:** 3 to 3

**PSCI 4014 - Media and Politics**
Explores the impact of the news media on the American political system, including public policy and citizen participation, and addresses trends in news coverage and media ownership, and their impact on public opinion. Prereq: PSCI 1001 and 1101 or permission of instructor. **Semester Hours:** 3 to 3

**PSCI 4024 - Legislatures and Legislation**
Structure and organization of legislatures, informal influences, and the process of statute law making. **Semester Hours:** 3 to 3

**PSCI 4025 - Local Governance and Globalization**
Introduces international political economy, consequences of globalization for localities, interplay between wealth and power among nations, multinational corporations, NGOs and the UN, and impact of their actions on local governments. Topics include development, aid, trade, outsourcing, eco-sustainability and global equity. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5025. **Semester Hours:** 3 to 3

**PSCI 4034 - Political Parties and Pressure Groups**
Democrats, Republicans, third parties, and pressure groups in the United States. Analysis of pressure politics and political behavior. Impact of parties and pressure groups on the public good. **Semester Hours:** 3 to 3

**PSCI 4044 - The Presidency**
An overview of the historical, constitutional, and functional aspects of the presidency. Focuses on the powers and vulnerabilities of the presidency and on the style and politics of the current president. Prereq: PSCI 1101. Cross-listed with PSCI 5044. **Semester Hours:** 3 to 3
PSCI 4057 - Religion and Politics
Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church and state;" (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 5057 and RLST 4500, 5500. **Semester Hours:** 3 to 3

PSCI 4074 - Urban Politics
The crisis and the promise of U.S. cities. Nature and roots of critical urban problems. Citizen involvement in urban decision making. Government as problem and as solution. **Semester Hours:** 3 to 3

PSCI 4084 - Local Government and Administration
Policy and administrative challenges faced by local government in the 21st century. Emphasis on cities under federalism, alternative forms of city governance, and new challenges from increasingly diverse constituents. Issues of poverty, public safety, health, transportation, environment, corruption, and accountability. Cross-listed with PSCI 5084. **Semester Hours:** 3 to 3

PSCI 4085 - Comparative Public Policy
Comparison of public policy making in such areas as health care, environment, family assistance, and employment in the United States and at least two other countries. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 5085. **Semester Hours:** 3 to 3

PSCI 4094 - Seminar: American Politics
Foundations of U.S. politics and contemporary political issues. Federal/state/community relations. Relationship among the three branches of the Federal government. Colorado controversies arising under the U.S. Constitution. Cross-listed with PSCI 5014. **Semester Hours:** 3 to 3

PSCI 4105 - Comparative Politics: Europe
An intensive and comparative analysis of the political systems and processes of Europe. Emphasis on political culture and economy; executive-legislative relationships; electoral systems; political parties and interest groups; political conflict and citizen participation; and the impact of social changes on political institutions. Cross-listed with PSCI 5105. **Semester Hours:** 3 to 3

PSCI 4115 - Third World Politics
Examines the factors challenging political stability in low income nations and the prospects for democracy and economic development. **Semester Hours:** 3 to 3

PSCI 4124 - Denver Politics
Surveys Denver's dominant political and economic forces and community agendas that compete with the downtown growth machine. Examines urban renewal strategies, gentrification and grass-roots resistance, and the role of officials in shaping Denver's distribution of wealth and life-opportunities. **Semester Hours:** 3 to 3

PSCI 4126 - Introduction to International Political Economy
A short introduction to international economy, including classic readings of international political economy (such as Smith, Ricardo, Marx, Lenin), and more recent work on globalization, applying related theories to the current world economy. **Semester Hours:** 3 to 3
PSCI 4144 - Indigenous Political Systems
Surveys political theory and practice in indigenous societies in the Americas. Examines the impact of indigenous political thought on Euro-American politics, especially the U.S. Constitution, and explores the contemporary impact of indigenous people on current politics. Cross-listed with ETST 4144. **Semester Hours:** 3 to 3

PSCI 4146 - Indigenous Politics
Surveys the status of the world’s native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Prereq: PSCI 1001. Cross-listed with PSCI 5145 and ETST 4146. **Semester Hours:** 3 to 3

PSCI 4155 - Political Systems of the Middle East and North Africa
Comparative analysis of political processes in the Middle East and North Africa. Islamic political theory and its contemporary manifestations. The role of nationalism and the quest for modernity in the political development of this region. Parties and programmed modernization in transitional politics. Violent and nonviolent change. **Semester Hours:** 3 to 3

PSCI 4156 - The Arab-Israeli Peace Process
Critical analysis of Arab and Israeli perspectives on the on-going peace negotiations in the Middle East. Historical background and religious-cultural aspects of current problems. Prereq: Upper division standing. Cross-listed with ETST 4156. **Semester Hours:** 3 to 3

PSCI 4165 - Islamic Politics and Culture
Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with RLST 3100. **Semester Hours:** 3 to 3

PSCI 4185 - Corruption in the U.S. and Abroad
Explores the causes and consequences of administrative and political corruption in developed and developing countries, and evaluates various anti-corruption strategies. Prereq: PSCI 1001 or 3022. **Semester Hours:** 3 to 3

PSCI 4186 - East Asia in World Affairs
Political and economic systems and foreign policies of East Asian powers, such as China, Japan, Taiwan, South Korea and Hong Kong; interactions of these powers and their collective economic and political roles in world affairs; major theoretical approaches to the study of East Asian powers. **Semester Hours:** 3 to 3

PSCI 4195 - Political Systems of Sub-Saharan Africa
Analysis of major types of political systems in sub-Saharan Africa and intensive case studies of selected countries exemplifying each type. **Semester Hours:** 3 to 3

PSCI 4206 - Social Movements, Democracy and Global Politics
Examines global social movements as new political actors within world politics; how theoretical perspectives in international relations and democracy address these actors; and the forms of interaction among these actors, states, and global governance institutions. Cross-listed with PSCI 5206. **Semester Hours:** 3 to 3
PSCI 4207 - Theories of Social and Political Change
Conservative, radical, and incremental approaches to change. Role of psychological and sociological factors in political change. Comparative perspectives on change. Self-perpetuation processes of power systems and their vulnerabilities. Requisites of system maintenance and system change. Selected case studies. **Semester Hours:** 3 to 3

PSCI 4215 - Women's Rights, Human Rights: Global Perspectives
Explores the global feminist movement's campaign to "engender" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Prereq: Six hours of political science or instructor permission. Cross-listed with WGST 4215. **Semester Hours:** 3 to 3

PSCI 4216 - International Politics: Human Rights
The system of nation states, concepts of national interest, goals of foreign policies, conduct of diplomacy, and the bearing of these elements on the problem of human rights. Presentation and evaluation of the solutions that have been offered for the securing of justice and the maintenance of peace. **Semester Hours:** 3 to 3

PSCI 4224 - Dictatorships in 21st Century
Analyzes and classifies political systems of non-democratic regimes. Reviews earlier and contemporary theories that explain the origins, survival and death of authoritarian regimes. Discusses the impact of dictatorial rule on domestic developments. **Semester Hours:** 3 to 3

PSCI 4225 - Democracy and Democratization
Examines the conditions under which countries turn from authoritarianism towards democracy and become stable democratic regimes. Also examines the impact of foreign and international factors on new democracies. Cross-listed with PSCI 5225. **Semester Hours:** 3 to 3

PSCI 4226 - The United Nations in World Affairs
Current operation and future potential of the United Nations as a complex actor in world affairs, both expressing conflicting interests of its participants and promoting universal goals, including world peace, human rights, and environmental protection. **Semester Hours:** 3 to 3

PSCI 4235 - Politics and Markets in Latin America
Explores political economic development in Latin America within the context of the world system. Includes the study of colonization, land tenure, foreign investment, authoritarianism, militarism, social and revolutionary movements, human rights and democratization. **Semester Hours:** 3 to 3

PSCI 4236 - American Foreign Policy
Examines the postwar events, controversies, and most recent challenges in U.S. foreign policy. Analyses of the major sources of U.S. foreign policy, such as ideology, national interests, and national power. Attention to the pattern and process of foreign policy-making. **Semester Hours:** 3 to 3

PSCI 4237 - American National Security
Examines American national security, utilizing an interdisciplinary analysis of its domestic historical development and its function in the current global context. **Semester Hours:** 3 to 3
PSCI 4248 - Gender, Globalization and Development
Analyzes the effects of globalization on the gendered processes of international development and strategies to empower women to achieve gender justice across race, class and national divisions. Cross-listed with PSCI 5245 and WGST 4248/5248. **Semester Hours:** 3 to 3

PSCI 4265 - Social Justice and Globalization
Examines issues of justice and ethical responsibility in a globalizing world. Do moral obligations of individuals and institutions end at national borders or do they encompass all human beings and extend to the environment and to future generations? Cross-listed with PSCI 5265. **Semester Hours:** 3 to 3

PSCI 4266 - International Law
Investigates the body of law that regulates relations between nations and provides a framework for solving common problems and disputes between nations. Prereq: Upper division political science major. Cross-listed with PSCI 5266. **Semester Hours:** 3 to 3

PSCI 4274 - Conflict Resolution and Public Consent Building
Alternative strategies for resolving or mediating conflicts facing public or nonprofit organizations and for building public consent, with emphasis on personal, interpersonal, organizational, interest-group, cross-cultural, and roots of conflict and bases for consent. Cross-listed with PSCI 5274. **Semester Hours:** 3 to 3

PSCI 4276 - Conflicts and Rights in International Law
Explores contending interpretations and practices in international law regarding issues such as the legitimacy of humanitarian intervention, efficacy of truth commissions, tensions between truth and justice in cases of genocide and war crimes, and legal changes needed to devise viable rules. Cross-listed with PSCI 5276. **Semester Hours:** 3 to 3

PSCI 4286 - International Relations: War or Peace?
Presents alternative theoretical frameworks for the explanation of war and peace. Investigations of the efficacy of international law, just-war norms and the UN in preventing or containing conflict. Prereq: PSCI 1001. Cross-listed with PSCI 5286. **Semester Hours:** 3 to 3

PSCI 4324 - Politics, Public Policy and Leadership
Role of politics in public and nonprofit sectors. Theories of administration and policy-making, emphasizing the role of leadership in public outcomes. Hands-on approach to case studies and use of students' policy experiences in practical application of theories. Cross-listed with PSCI 5324. **Semester Hours:** 3 to 3

PSCI 4326 - Advanced International Political Economy: Globalization
Engages the current debate about globalization. Conceptualizes globalization and evaluates the pros and cons of global trade and finance for developed and developing countries. Develops a model for a sustainable and just global economy. Prereq: PSCI 4126. Cross-listed with PSCI 5326. **Semester Hours:** 3 to 3

PSCI 4330 - U.S. Health Policy
The role of public health policy as legislated at the federal and state levels. Individual health policy (e.g. social security and managed care) and public health policy (e.g. mandatory immunizations, HIV testing, air and water quality). **Semester Hours:** 3 to 3
PSCI 4354 - Environmental Politics
Political, legal, and economic forces in environmental law and policy. Special emphasis on air and water pollution and on threats to public and agricultural land. Environmental groups and their opponents. **Semester Hours:** 3 to 3

PSCI 4365 - Global Ecological Crises
Overview of global ecological problems such as climate change, transboundary pollutions, and loss of biodiversity in an attempt to understand the political, economic, and cultural forces behind these problems and the status of legal and policy initiatives to address them. **Semester Hours:** 3 to 3

PSCI 4374 - Public Priorities for the 21st Century
Identification of and planning for social, political, and economic trends in American society likely to transform governmental, nonprofit, and private entities. Rigorous examination of and debate on competing priorities such as liberty, security, welfare, equality, diversity, growth and ecology. Cross-listed with PSCI 5374. **Semester Hours:** 3 to 3

PSCI 4407 - Early Political Thought
Main currents of political thought in their historical setting from Plato to Machiavelli, with a critical evaluation of those elements of continuing worth. **Semester Hours:** 3 to 3

PSCI 4414 - Organizational Change Agents
Explores strategies for changing public and nonprofit organizations and of ways leadership abilities can be used for this purpose. Analysis of obstacles to organizational change and of methods for overcoming them. Principles of change applied to real-life contexts. Cross-listed with PSCI 5514. **Semester Hours:** 3 to 3

PSCI 4417 - Modern Political Thought
Main currents of political thought in their historical setting from the 17th century to the present. Development of the student’s own political theory. PSCI 4407 is not a prerequisite for PSCI 4417. **Semester Hours:** 3 to 3

PSCI 4427 - Law, Politics and Justice
Analysis of the relationship of politics, law, and justice, particularly the degree to which moral norms and political concerns should and do influence legal standards and their perceived legitimacy. **Semester Hours:** 3 to 3

PSCI 4437 - Coercion and the State
An analysis of: (1) the historical emergence of the modern state; (2) the theoretical justifications for the concentration of political power and the activist state; (3) the internationalization of the European state system; and (4) anarchist and Fourth World challenges. **Semester Hours:** 3 to 3

PSCI 4444 - Contemporary Culture and Politics in America
Intellectual and experiential investigation of the interplay of culture and politics in American society, as manifested in literature, social and political philosophy, psychological writings and trends, radical movements, popular culture, and daily behavior. **Semester Hours:** 3 to 3

PSCI 4446 - Advanced Indigenous Peoples' Politics
Builds upon the theoretical and applied foundations of PSCI 4146. Intensive study of international legal and political developments are examined, particularly in the United Nations and the Organization of
American States systems. Prereq: PSCI 4144 or 4146 or permission of instructor. Cross-listed with PSCI 5446. **Semester Hours:** 3 to 3

**PSCI 4457 - American Political Thought**  
American law, politics, and conflict. History and development of American political theories and ideas from Native American roots through the colonial period to the present. Political theory and practice in the U.S. today. **Semester Hours:** 3 to 3

**PSCI 4477 - Constitutional Law I**  
Nature and scope of the following American constitutional principles as developed by the U.S. Supreme Court: federalism, jurisdiction of the federal courts, separation of powers, the taxing power, and the commerce power. Case method. **Semester Hours:** 3 to 3

**PSCI 4487 - Constitutional Law II**  
Continuation of PSCI 4477, with emphasis on the war powers of the president, citizenship, the Bill of Rights, and the Civil War amendments. (Case method.) Note: PSCI 4477 is not a prerequisite for PSCI 4487. **Semester Hours:** 3 to 3

**PSCI 4494 - Judicial Politics**  
Examines principal actors in the legal system: police, lawyers, judges, citizens. About half of this course is devoted to the study of judicial behavior, especially at the Supreme Court level. Political and personal influences on judicial behavior. **Semester Hours:** 3 to 3

**PSCI 4505 - Political System of Russia and Its Neighbors**  
The class focuses on the political values, institutions and actors of Russia and its neighboring countries, covering the political developments since the late 20th century. The relations between Russia, the European Union and the United States are also analyzed. **Semester Hours:** 3 to 3

**PSCI 4545 - Immigration Politics**  
Introduces students to central theories of migration and a survey of immigration law and policy in the 20th century. Highlights experiences of Mexican and Latin American immigrants and related topics, including: U.S.-Mexican foreign relations, bilingual education, undocumented immigration and globalization. Cross-listed with PSCI 5545. **Semester Hours:** 3 to 3

**PSCI 4554 - Chicano and Latino Politics**  
Analysis of the social, cultural, and economic factors that affect political behavior of Latinos. Special attention is paid to the Mexican American cultural heritage and to relations between Mexican Americans and Anglo Americans. Cross-listed with ETST 4558. **Semester Hours:** 3 to 3

**PSCI 4555 - International Women's Resistance**  
Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 5555, ETST 4555 and WGST 4555/5555. **Semester Hours:** 3 to 3

**PSCI 4564 - Gender and Politics**  
Analysis of the political experience of women and of strategies for change. Emphasis on the U.S. Cross-listed with WGST 4564. **Semester Hours:** 3 to 3
PSCI 4605 - Politics and Governments of South Asia
Studies the political systems of Bangladesh, India, Pakistan, Sri Lanka and Nepal. The impact of British rule on the development of political institutions on the subcontinent as well as problems of political development at all levels. **Semester Hours:** 3 to 3

PSCI 4615 - Politics and Government of China
Political and governmental changes within China, from the 19th century to the present. Primary emphasis on contemporary political systems and sociopolitical problems. China's struggle for independence and economic development. The Chinese revolutions, Maoist communism, and the post-Maoist period. **Semester Hours:** 3 to 3

PSCI 4644 - Ethical Responsibilities of Leaders
Explores concepts of ethical decision making within the context of public leadership in both the public and non-profit sectors. Universal and individual ethical standards are examined. Cross-listed with PSCI 5644. **Semester Hours:** 3 to 3

PSCI 4645 - Comparative Political Leadership
Comparative study of historical, socio-cultural, and psychological bases of political leadership. Leadership types in peasant societies, empires, and revolutionary movements. Dilemmas of democratic versus authoritarian leadership in modernizing and industrial states. **Semester Hours:** 3 to 3

PSCI 4726 - Russian and Chinese Foreign Policy
Foreign policies of Russia and China; relations with Western powers and the Third World; interaction of domestic developments and foreign policy; role of national interest, ideology, and elite personalities. **Semester Hours:** 3 to 3

PSCI 4736 - The Middle East in World Affairs
Evolution and revolution in the Middle East. The character of nationalism in the area. Analysis of inter-regional and international problems affecting the Middle East, with special emphasis on current Arab-Israeli relations. **Semester Hours:** 3 to 3

PSCI 4757 - Legal Reasoning and Writing
Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Prereq: ENGL 1020, 2030, and any one 3000-level English/writing course or COMM 3120. Cross-listed with PSCI 5747, COMM 4750, 5750. **Semester Hours:** 3 to 3

PSCI 4807 - Political Violence
Investigates different types of political violence including genocide, ethnic and religious conflict, revolution, terrorism, war, state repression and others. Introduces theories of individual, collective and institutional violence, applies them to a range of case studies and explores possible solutions. **Semester Hours:** 3 to 3

PSCI 4808 - Strategies of Peacebuilding
The course investigates the theories and strategies of peacebuilding in societies that have endured intrastate conflict and/or massive human rights violations and asks whether peace and justice and democracy can or should work together and how forgiveness a **Semester Hours:** 3 to 3
PSCI 4827 - Women and the Law
Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with ETST 4827 and WGST 4827. **Semester Hours:** 3 to 3

PSCI 4837 - Contemporary Issues in Civil Liberties
Conflicting rights of individuals and groups in several areas of civil liberties, including religious groups, free speech, sexual freedom, racial quotas, and anti-governmental actions and publications. This course includes case law, readings, guest speakers and case discussions. Cross-listed with PSCI 5837. **Semester Hours:** 3 to 3

PSCI 4840 - Independent Study: PSCI
An opportunity for advanced students with good scholastic records, and with appropriate courses completed, to pursue independently the study of some subject of special interest to them. Subjects chosen and arrangements made to suit the needs of each student. Note: Primarily for seniors. Prereq: 15 semester hours in political science and permission of instructor. **Semester Hours:** 1 to 3

PSCI 4934 - CU at the Capitol
Examines current year legislative session of Colorado General Assembly. Study of various elected leaders; Colorado party system; Governor-Assembly relations; citizen and lobbyist influence; corruption and virtue in politics; current affairs. Each student will be placed in a state government internship. **Semester Hours:** 3 to 3

PSCI 4995 - Travel Study
Students study various topics at an off-campus location, either a foreign country or another city or region in the United States, led by a Downtown Denver Campus instructor. Prereq: PSCI 1001 or 3022 or permission of instructor. Cross-listed with PSCI 5995. **Semester Hours:** 1 to 3

PSCI 5000 - State of the Discipline
Introduces graduate study in political science. Provides an overview of theories and methods in the four fields of American politics, political theory, comparative politics and international relations. Guest lectures by department faculty. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

PSCI 5005 - Political Theory After 9/11
The events of 9/11 brought into sharp focus dilemmas in international politics, including the responses to American hegemony, return of religion, nature of "terrorism" and implications for democracy. This course explores diverse interpretations of these challenges offered by major political theorists. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

PSCI 5007 - Beyond Political Correctness
Explores and critiques "political correctness" defined as "ideological narrowing, intolerance and silencing of dissent." Analysis of origins, dynamics and consequences of PC with emphasis on its advantages and disadvantages for practitioners. Foundational works, illustrative cases and contemporary voices. **Semester Hours:** 3 to 3

PSCI 5008 - Graduate Topics in Political Science
**Semester Hours:** 1 to 3
PSCI 5009 - Politics of the Budgetary Process
Explores budgeting and financial management in the public and nonprofit sectors. An overview of public sector and nonprofit fiscal management is provided, along with thorough exploration of the political influences that affect financial decision-making. Note: Offered as a special topics course in an intensive three-weekend format, which is reflected in the syllabus. **Semester Hours:** 3 to 3

PSCI 5011 - GIS in Political Science
Computer lab course developing methodological skills in Geographic Information Systems (GIS) in political contexts. Geospatial computerized mapping skills are important in political fields such as urban planning, electoral analysis, environmental justice, demographics, public health, and criminal justice. Designed for beginners. Cross-listed with PSCI 4011. **Semester Hours:** 3 to 3

PSCI 5013 - Philosophical Problems in the Social Sciences
Explores the fundamentals of the conduct of inquiry; concept formation and theory construction in the social sciences; issues related to value judgments and objectivity, social praxis, human nature and political choice. Cross-listed with SSCI 5013. **Semester Hours:** 3 to 3

PSCI 5014 - Seminar: American Politics
Foundations of U.S. politics and contemporary political issues. Federal/state/community relations. Relationship among the three branches of the Federal government. Colorado controversies arising under the U.S. Constitution. Cross-listed with PSCI 4094. **Semester Hours:** 3 to 3

PSCI 5024 - State Politics: Focus on Colorado
Analysis of unique aspects of Colorado government and politics. Political comparison of Colorado with other states. Preparation and discussion of research papers. **Semester Hours:** 3 to 3

PSCI 5025 - Local Governance and Globalization
Introduces international political economy, consequences of globalization for localities, interplay between wealth and power among nations, multinational corporations, NGOs and the UN, and impact of their actions on local governments. Topics include development, aid, trade, outsourcing, eco-sustainability and global equity. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 4025. **Semester Hours:** 3 to 3

PSCI 5044 - The Presidency
An overview of the historical, constitutional, and functional aspects of the presidency. Focuses on the powers and vulnerabilities of the presidency and on the style and politics of the current president. Prereq: Graduate status or permission of instructor. Cross-listed with PSCI 4044. **Semester Hours:** 3 to 3

PSCI 5054 - The Legislative Process
An intensive examination of the structures and interactions through which laws are made in the United States. The major emphasis is the national level, but considerable attention is devoted to state legislatures and local lawmakers. Impact of money and interest groups. **Semester Hours:** 3 to 3

PSCI 5057 - Religion and Politics
Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of “church and state;” (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 4057, and RLST 4500, 5500. **Semester Hours:** 3 to 3
PSCI 5084 - Local Government and Administration
Policy and administrative challenges faced by local government in the 21st Century. Emphasis on cities under federalism, alternative forms of city governance, and new challenges from increasingly diverse constituents. Issues of poverty, public safety, health, transportation, environment, corruption and accountability. Cross-listed with PSCI 4084. **Semester Hours:** 3 to 3

PSCI 5085 - Comparative Public Policy
Comparison of public policy making in such areas as health care, environment, family assistance, and employment in the United States and at least two other countries. Prereq: Graduate standing or permission of instructor. Cross-listed with PSCI 4085. **Semester Hours:** 3 to 3

PSCI 5094 - Seminar: Urban Politics
An intensive analysis and research of major aspects of politics and government in metropolitan areas. Impact of corporations and higher levels of government on cities. Opportunities for, and barriers to, citizen participation. **Semester Hours:** 3 to 3

PSCI 5105 - Comparative Politics: Europe
Examination and writing of research papers on selected topics of industrial democracies, especially those of Europe. Cross-listed with PSCI 4105. **Semester Hours:** 3 to 3

PSCI 5135 - Seminar: Political Economy of Latin America
Focuses on the political economies and cultures of Latin America. Particular attention is given to the impact of the export-led growth strategy on social and political development. **Semester Hours:** 3 to 3

PSCI 5145 - Indigenous Politics
Surveys the status of the world's native peoples and nations, and the role of law and politics in the future of indigenous peoples in the global arena. Examines questions of human rights, economic development, and international law and politics. Prereq: Graduate status or permission of instructor. Cross-listed with PSCI 4146 and ETST 4146. **Semester Hours:** 3 to 3

PSCI 5206 - Social Movements, Democracy and Global Politics
Examines global social movements as new political actors within world politics; how theoretical perspectives in international relations and democracy address these actors; and the forms of interaction among these actors, states, and global governance institutions. Cross-listed with PSCI 4206. **Semester Hours:** 3 to 3

PSCI 5216 - Seminar: International Relations
Introduces contending theories, empirical studies, and research methods in the field. Writing and discussion of comprehensive research papers in the field of international power politics and alternative attempts at controlling conflicts among nations. **Semester Hours:** 3 to 3

PSCI 5224 - Dictatorships in 21st Century
Analyzes and classifies political systems of non-democratic regimes. Reviews earlier and contemporary theories that explain the origins, survival and death of authoritarian regimes. Discusses the impact of dictatorial rule on domestic developments as we **Semester Hours:** 3 to 3

PSCI 5225 - Democracy and Democratization
Examines the conditions under which countries turn from authoritarianism towards democracy and become stable democratic regimes. Also examines the impact of foreign and international factors on new democracies. Cross-listed with PSCI 4225. **Semester Hours:** 3 to 3
PSCI 5236 - Seminar: American Foreign Policy
Examines selected methodological and substantive problems. Particular emphasis on elements of national
decision making, America's adaptation to the changing world, and opportunities for student contributions
through research and discussion. **Semester Hours:** 3 to 3

PSCI 5238 - Seminar: Comparative Foreign Policy
Examination of the effects of leaders, groups, institutions, strategic cultures and external influences on
national foreign policy-making processes and comparative analysis of foreign policy making of great and
emerging powers. Prereq: graduate standing. **Semester Hours:** 3 to 3

PSCI 5245 - Gender, Globalization and Development
Analyzes the effects of globalization on the gendered processes of international development and
strategies to empower women to achieve gender justice across race, class and national divisions. Cross-
listed with PSCI 4248 and WGST 4248/5248. **Semester Hours:** 3 to 3

PSCI 5246 - Seminar: National Question and Self-Determination
Designed to provide students with a broad theoretical and empirical understanding of the causes of ethnic
conflicts and to assess different strategies of conflict resolution. **Semester Hours:** 3 to 3

PSCI 5256 - Seminar: National Question and Self-Determination
Designed to provide students with a broad theoretical and empirical understanding of the causes of ethnic
conflicts and to assess different strategies of conflict resolution. **Semester Hours:** 3 to 3

PSCI 5265 - Social Justice and Globalization
Examines issues of justice and ethical responsibility in a globalizing world. Do moral obligations of
individuals and institutions end at national borders or do they encompass all human beings and extend to
the environment and to future generations? Cross-listed with PSCI 4265. **Semester Hours:** 3 to 3

PSCI 5266 - International Law
Investigates the body of law that regulates relations between nations and provides a framework for solving
common problems and disputes between nations. Prereq: Upper division political science major. Cross-
listed with PSCI 4266. **Semester Hours:** 3 to 3

PSCI 5274 - Conflict Resolution and Public Consent Building
Alternative strategies for resolving or mediating conflicts facing public or nonprofit organizations and for
building public consent, with emphasis on personal, interpersonal, organizational, interest-group, cross-
cultural, and roots of conflict and bases for consent. Cross-listed with PSCI 4274. **Semester Hours:** 3 to 3

PSCI 5276 - Conflicts and Rights in International Law
Explores contending interpretations and practices in international law regarding issues such as the
legitimacy of humanitarian intervention, efficacy of truth commissions, tensions between truth and justice
in cases of genocide and war crimes, and legal changes needed to devise viable rules. Cross-listed with
PSCI 4276. **Semester Hours:** 3 to 3

PSCI 5286 - International Relations: War or Peace?
Presents alternative theoretical frameworks for the explanation of war and peace. Investigations of the
efficacy of international law, just-war norms and the UN in preventing or containing conflict. Prereq:
Graduate status or permission of instructor. Cross-listed with PSCI 4286. **Semester Hours:** 3 to 3

PSCI 5292 - Politics, Public Policy and Leadership
Role of politics in public and nonprofit sectors. Theories of administration and policy-making,
emphasizing the role of leadership in public outcomes. Hands-on approach to case studies and use of
students’ policy experiences in practical application of theories. Cross-listed with PSCI 4324. **Semester Hours:** 3 to 3

**PSCI 5326 - Advanced International Political Economy: Globalization**  
Engages the current debate about globalization. Conceptualizes globalization and evaluates the pros and cons of global trade and finance for developed and developing countries. Develops a model for a sustainable and just global economy. Cross-listed with PSCI 4326. **Semester Hours:** 3 to 3

**PSCI 5354 - Seminar: Environmental Politics and Policy**  
Consideration of competing models of the policy process in natural-resources decision making. Focus on selected case studies. Impact of environmental and pro-growth forces on the political process. **Semester Hours:** 3 to 3

**PSCI 5374 - Public Priorities for the 21st Century**  
Identification of and planning for social, political, and economic trends in American society likely to transform governmental, nonprofit and private entities. Rigorous examination of and debate on competing priorities such as liberty, security, welfare, equality, diversity, growth and ecology. Cross-listed with PSCI 4374. **Semester Hours:** 3 to 3

**PSCI 5414 - Organizational Change Agents**  
Explores of strategies for changing public and nonprofit organizations and of ways leadership abilities can be used for this purpose. Analysis of obstacles to organizational change and of methods for overcoming them. Principles of change applied to real-life contexts. Cross-listed with PSCI 4414. **Semester Hours:** 3 to 3

**PSCI 5417 - Seminar: Practical Utopias**  
Explores of utopian theories applied in real-world experiments and political movements, including communes, worker cooperatives, neighborhood organizing and Green parties. One or more field trips and a final retreat during which the class will develop its own practical-utopian model(s). **Semester Hours:** 3 to 3

**PSCI 5446 - Advanced Indigenous Peoples' Politics**  
Builds upon the theoretical and applied foundations of PSCI 4146. Intensive study of international legal and political developments are examined, particularly in the United Nations and the Organization of American States systems. Prereq: PSCI 4144 or 4146 or permission of instructor. Cross-listed with PSCI 4446. **Semester Hours:** 3 to 3

**PSCI 5457 - Seminar: American Political Thought**  
An intensive research in and presentation of competing ideas in the development of American political thought and practice, beginning with those of the Iroquois Confederacy and the founders of the United States Constitution. **Semester Hours:** 3 to 3

**PSCI 5468 - Research Methods in Political Science**  
Analysis and evaluation of research methods, techniques, and empirical materials in political science application to Internet research. **Semester Hours:** 3 to 3

**PSCI 5477 - The U.S. Constitution: Law and Politics**  
An intensive analysis of the most recent doctrinal developments in the areas of federal jurisdiction, federalism, separation of powers, commerce, taxing and war powers, civil liberties and civil rights. Prereq: PSCI 4477 or 4487 or permission of instructor. **Semester Hours:** 3 to 3
PSCI 5545 - Immigration Politics
Introduces students to central theories of migration and a survey of immigration law and policy in the 20th century. Highlights experiences of Mexican and Latin American immigrants and related topics, including U.S.-Mexican foreign relations, bilingual education, undocumented immigration and globalization. Cross-listed with PSCI 4545. Semester Hours: 3 to 3

PSCI 5555 - International Women's Resistance
Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Prereq: Graduate status or permission of instructor. Cross-listed with PSCI 4555, WGST 4555/5555 and ETST 4555. Semester Hours: 3 to 3

PSCI 5610 - Seminar: Middle East Politics
Examines the Middle East regional system and the region's role in world politics. Investigates questions regarding politics in Iran, Iraq, Palestinian-Israeli relations, political Islam, and relations with the United States. Semester Hours: 3 to 3

PSCI 5615 - Seminar: Chinese Development
Discussion of readings about China. Analysis of several of the following: party-government relations, ideology and political behavior, leadership, diplomacy, political and economic development and post-Mao reforms. Semester Hours: 3 to 3

PSCI 5644 - Ethical Responsibilities of Leaders
Explores concepts of ethical decision making within the context of public leadership in both the public and non-profit sectors. Universal and individual ethical standards are examined. Cross-listed with PSCI 4644. Semester Hours: 3 to 3

PSCI 5726 - Seminar on U.S. and China Relations
Detailed examination of historical context and current issues in U.S./China relations. Emphasis on post-1949 period, with particular attention to post-1978 relations and issues. Prereq: Graduate status or permission of instructor. Semester Hours: 3 to 3

PSCI 5747 - Legal Reasoning and Writing
Introduces the fundamentals of legal reasoning and legal argumentation through intensive class discussion, formal debate and writing. Attention is given to the relationship between case and statutory law and their application in trial and appeals courts in the United States. Cross-listed with PSCI 4757, COMM 4750, 5750. Semester Hours: 3 to 3

PSCI 5807 - Seminar: Conflict Behavior and the Politics of Violence
Theoretical and empirical analysis of conflict behavior with special emphasis on the explanation of political violence. Revolution, international warfare, and urban unrest are studied as forms of political violence, and the role of systematic empirical research is emphasized in the development of general theories of intergroup conflict. Semester Hours: 3 to 3

PSCI 5808 - Strategies of Peacebuilding
The course investigates the theories and strategies of peacebuilding in societies that have endured intrastate conflict and/or massive human rights violations and asks whether peace and justice and democracy can or should work together and how forgiveness a Semester Hours: 3 to 3
PSCI 5827 - Seminar: Political Psychology
Role of personality variables in political attitudes, behavior, and system maintenance and change; human nature as a parameter; political relevance of psychoanalytic, behaviorist, humanistic and social psychology; alienation, ethnocentrism, dogmatism, and aggression as political variables. Prereq: Political science or psychology background. **Semester Hours:** 3 to 3

PSCI 5837 - Contemporary Issues in Civil Liberties
Conflicting rights of individuals and groups in several areas of civil liberties, including religious groups, free speech, sexual freedom, racial quotas, and anti-governmental actions and publications. This course includes case law, readings, guest speakers and case discussions. Cross-listed with PSCI 4837. **Semester Hours:** 3 to 3

PSCI 5840 - Independent Study: PSCI
**Semester Hours:** 1 to 3

PSCI 5914 - Community Development
The theory and practice of community-sensitive development. Global forces challenge communities, alternatively, with floods and droughts of international capital. By collaborating with a non-profit community-based organization, this class examines how communities develop progressive methods of engaging global forces. Prereq: Graduate standing or permission of instructor. **Semester Hours:** 3 to 3

PSCI 5939 - Internship
**Semester Hours:** 1 to 6

PSCI 5950 - Master’s Thesis
**Semester Hours:** 1 to 6

PSCI 5960 - Master’s Project
**Semester Hours:** 1 to 3

PSCI 5995 - Travel Study
Students study various topics at an off-campus location, either a foreign country or another city or region in the United States, led by a Downtown Denver Campus instructor. Prereq: PSCI 1001 or 3022 or permission of instructor. Cross-listed with PSCI 4995. **Semester Hours:** 1 to 3

PSCI 6840 - Independent Study: PSCI
**Semester Hours:** 1 to 3
Psychology Courses (PSYC)

PSYC 1000 - Introduction to Psychology I
Introduces the scientific study of behavior, including an overview of the biological basis of behavior, sensation or perception, states of consciousness, learning and memory, thinking and language, intelligence, motivation and emotion. Semester Hours: 3 to 3

PSYC 1005 - Introduction to Psychology II
Introduces the scientific study of behavior, including an overview of the history of psychology, development, personality, psychological disorders, therapy, health psychology and social behavior. PSYC 1000 is not a prerequisite for this course. Semester Hours: 3 to 3

PSYC 1111 - Freshman Seminar
Semester Hours: 1 to 3

PSYC 2050 - Improving Memory
Applies psychological principles of memory function and process to everyday settings and experiences. Covers topics such as how memory works, principles of memory improvement, and strategies for effective learning. Semester Hours: 2 to 2

PSYC 2060 - Psychology Applied to Everyday Life
A primer in psychological principles applied to everyday situations. Covers topics such as learning, stress and health, attraction and love, and personality. Semester Hours: 3 to 3

PSYC 2090 - Statistics and Research Methods
Introduces statistics and research methods in the field of psychology. Note: Intended for those who plan to major in psychology. Completion of college algebra or equivalent is recommended. Prereq: PSYC 1000. Semester Hours: 4 to 4

PSYC 2220 - Biological Basis of Behavior
Introduces the biological basis of behavior. This course will feature concepts like neurons, synaptic and hormonal transmission, and physiological set-points. Behavior of simple (invertebrate) and complex organisms (vertebrates) will be related to the activity of specific brain neural networks. Prereq: PSYC 1000 or BIOL 2051. Semester Hours: 3 to 3

PSYC 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

PSYC 2990 - Topics in Psychology
Studies special topics to be selected by the instructor. Note: May be repeated for credit. Semester Hours: 1 to 3

PSYC 3090 - Research Methods in Psychology
Covers principles of experimental methodology in Psychology. Includes active participation in data collection and interpretation, presentation of results, evaluation of scientific literature, scientific writing and advanced statistical concepts as they relate to the field of Psychology. Prereq: PSYC 1000, 1005 and 2090. Semester Hours: 3 to 3
PSYC 3104 - Behavioral Genetics
Interdisciplinary course on relationships between behavior and heredity, with emphasis on human behavioral genetics. Prereq: General biology or general psychology. Cross-listed with BIOL 3104. **Semester Hours:** 3 to 3

PSYC 3145 - Industrial and Organizational Psychology
Surveys the fields of industrial and organizational psychology. These fields apply psychological principles to improving productivity and satisfaction in the workplace. Topics include motivation, leadership, group processes, team functioning, occupational health, selection and training of employees, and performance management. Prereq: PSYC 1000, 1005, and 2090 or permission of instructor. **Semester Hours:** 3 to 3

PSYC 3205 - Human Development I: Child Psychology
Studies human development covering birth, infancy, toddler, preschool and school-aged child. Covers biological, cognitive and social processes. Prereq: PSYC 1000 or 1005. **Semester Hours:** 3 to 3

PSYC 3215 - Human Development II: Adolescence and Adulthood
Study of human development from adolescence through adulthood and aging. Covers biological, cognitive, and social processes. Prereq: PSYC 1000 or 1005. **Semester Hours:** 3 to 3

PSYC 3222 - Principles of Learning and Behavior
Introduces the scientific study of learning and behavior, focusing on "Behaviorism." Principles of operant and classical conditioning are discussed. A particular emphasis is placed on the relevance and application of these principles to understanding human behavior and psychopathology. Prereq: PSYC 1000. **Semester Hours:** 3 to 3

PSYC 3235 - Human Sexuality
Examines the physiological, psychological, and social psychological bases of human sexuality. Research on the range of sexual behaviors, individual sexual response, sexual development, sexual dysfunction, and variants of sexual orientation. Prereq: PSYC 1000, 1005 and 2090, or permission of instructor. **Semester Hours:** 3 to 3

PSYC 3254 - Introduction to Animal Behavior
Surveys the behavior of nonhuman animals, emphasizing the evolution through natural selection. Prereq: One semester of general biology, biological anthropology, or other course emphasizing evolutionary perspective. **Semester Hours:** 3 to 3

PSYC 3262 - Health Psychology
An overview of the scientific study of attitudes, behaviors, and personality variables related to health and illness. Emphasis is on the interaction of biological, psychological, and social factors that cause illness and influence its treatment and prevention. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3

PSYC 3263 - Hormones and Behavior
The hormonal regulation of behavior will be the primary focus of this course. Topics include: hormonal basis of sexual differentiation and behavioral differences, parental behavior, biological rhythms, aggression, mood and stress. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. **Semester Hours:** 3 to 3
PSYC 3265 - Drugs, Brain and Behavior
Explores the pharmacological, biological, and behavioral basis of drug effects. Topics include mechanisms of drug action, brain reward pathways, role of environment and history on drug effects, and the impact of science on drug abuse and medication development. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3 to 3

PSYC 3305 - Abnormal Psychology
Borderline disorders as extreme variations of the normal personality. Major functional and organic disorders. Theories of mental disorders and methods of psychotherapy. Prereq: PSYC 1000. Semester Hours: 3 to 3

PSYC 3405 - Family Psychology
Overview of theory and research pertaining to marital and family structure, functioning and dynamics. Prereq: PSYC 1005. Semester Hours: 3 to 3

PSYC 3505 - Psychology and the Law
Examines the legal and extralegal applications of psychology, such as assessment of insanity and competence, psychologists as expert witnesses, accuracy of eyewitness accounts, and issues relating to employment discrimination. Prereq: PSYC 1000, 1005, and 2090 or permission of instructor. Semester Hours: 3 to 3

PSYC 3600 - Topics in Psychology
Studies special topics to be selected by the instructor. Note: May be repeated for credit. Semester Hours: 1 to 3

PSYC 3610 - Psychological Trauma
Overview of psychological trauma, including: history, theoretical application, trauma models, diagnosis and treatment implications. Topics include family violence, child abuse, sexual abuse, and the trauma of war. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. Semester Hours: 3 to 3

PSYC 3611 - Psychology of Women
Reviews psychological theories and research of women's social, cultural, emotional and behavioral experience. Examines the sociocultural context of women's experience and explores women's socialization, developmental issues, cognitive abilities and achievement motivation, personality variables, stereotypes, psychological disorders, victimization, intimacy and sexuality. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. Semester Hours: 3 to 3

PSYC 3612 - Domestic Abuse
Examines the nature and extent of domestic violence. Personal characteristics and dynamics that contribute to spouse abuse are reviewed. Theories and research in the general field of family violence, victims' and perpetrators' treatment, and child abuse are discussed. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. Semester Hours: 3 to 3

PSYC 3724 - Developmental Psychobiology
Explores the biological influences on the development of brain and behavior. Emphasis is on the evolution and development, the role of experience in prenatal and postnatal development, the ontogeny of sensory systems, learning and memory, and the biological bases of language acquisition. Prereq: PSYC 1000/1005 or BIOL 2051/2061. Semester Hours: 3 to 3
PSYC 3810 - Neuropsychology
Brain organization and function and its relationship to human memory, language, perception, and other cognitive abilities. Covers the application of clinical neuropsychology to working with individuals that have neurological disorders. Prereq: PSYC 1000 and 2220 or permission of instructor. Semester Hours: 3 to 3

PSYC 3822 - Aging, Brain and Behavior
Examines the aging process, behavioral changes during senescence and the accompanying changes in the aged brain. Changes that are part of healthy aging are studied, as will age-related brain disorders. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3 to 3

PSYC 3832 - Neural Basis of Learning
Survey of advances in neuroscience that further the understanding of how neurons within our brains are modified by experience and thus influence subsequent behavior. Includes discussions of how these mechanisms contribute to various psychopathologies. Prereq: PSYC 1000, 2090, and 2220. Semester Hours: 3 to 3

PSYC 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing, completion of minimum of 12 hours in psychology with minimum grade of ’C.’ Semester Hours: 1 to 3

PSYC 4054 - Behavioral Neuroscience
The morphological, neurochemical and physiological bases of behavior. Emphasis is on structure and function of the brain. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3 to 3

PSYC 4090 - Research Design and Development
This advanced writing and research methods course is designed to help students develop independent research ideas in Psychology into formal proposals and products, such as a thesis proposal, grant application, presentation and study protocol. Prereq: PS Semester Hours: 3 to 3

PSYC 4101 - Applied Statistics Using SAS and SPSS I
Teaches the practical statistical tools social scientists use to analyze real-world problems. It is split into four modules, each taught by a different instructor. The first module introduces SAS and SPSS; modules 2-4 are problem-based and cover topics such as ANOVA, multivariate regression, and cluster analysis. Prereq: Any statistics course. Semester Hours: 3 to 3

PSYC 4102 - Applied Statistics Using SAS and SPSS II
Students use the skills they learned in the previous semester to analyze a social issue of their choosing and present their findings. Note: A continuation of PSYC 4101. In addition to lectures, weekly one-on-one meetings between faculty and students are required. Prereq: PSYC 4101. Semester Hours: 3 to 3

PSYC 4144 - Human Cognition
Studies information processing in humans, with emphasis on memory, thinking and language. Prereq: PSYC 1000. Semester Hours: 3 to 3

PSYC 4164 - Psychology of Perception
Studies sensory processes and perceptual variables. Covers processes related to vision, audition, gustation and olfaction. Prereq: PSYC 1000, 2090 and 2220 or permission of instructor. Semester Hours: 3 to 3
PSYC 4415 - Experimental Social Psychology
Surveys the field of Social Psychology, the study of the way in which cognitions, emotions, and behaviors are influenced by the presence, or perceived presence, of others. Heavily focuses on experimentation and experimental methods within the field of Social Psychology. Prereq: PSYC 1000, PSYC 1005, and PSYC 2090. Semester Hours: 3 to 3

PSYC 4455 - Theories of Personality
An in-depth look at several major theories of personality, including those from psychodynamic, behavioral, and humanistic schools of thought. Students are required to think actively and abstractly, and communicate their ideas in papers and classroom contributions. Prereq: PSYC 1000, 1005 and 2090 or permission of instructor. Semester Hours: 3 to 3

PSYC 4485 - Psychology of Cultural Diversity
Studies diversity in the development of the individual across Asian, Black, Hispanic, and Native American cultures. The experience of self, role of the family, expression of emotions, and psychology of prejudice are emphasized. Prereq: Six semester hours of psychology, sociology, and/or anthropology in any combination. Semester Hours: 3 to 3

PSYC 4500 - Psychotherapy
Overview of the major systems of psychotherapy, including psychoanalysis, person-centered therapy, family therapy, cognitive or behavioral approaches, and relationships among the various approaches. Prereq: 12 hours in psychology, including PSYC 1005 and 2090. Semester Hours: 3 to 3

PSYC 4511 - History of Psychology
Development of psychological theories since 500 B.C. Schools of psychology and their adherents. Readings of primary and secondary sources. Prereq: PSYC 1000 and 1005 plus 6 additional credit hours in psychology (12 hours total). Semester Hours: 3 to 3

PSYC 4730 - Clinical Psychology: Ethics and Issues
An in-depth exploration of the values and ideas that guide professional practice in psychology, including professional codes of conduct and philosophical ethical principles. Topics include confidentiality, informed consent, competence, integrity and respect. Prereq: 12 hours in psychology, including PSYC 1005 and 2090. Semester Hours: 3 to 3

PSYC 4803 - Principles of Psychological Testing
Principles underlying construction, validation, and use of tests of ability, intelligence, and personality and of attitude surveys. Covers statistical topics such as content and construct validity, item analysis, and reliability analysis. Prereq: A prior course in statistics. Cross-listed with PSYC 5803. Semester Hours: 3 to 3

PSYC 4840 - Independent Study: PSYC
Prereq: Permission of instructor. Semester Hours: 1 to 3

PSYC 4939 - Internship
Semester Hours: 1 to 3

PSYC 4990 - Topics in Psychology
Advanced study of special topics to be selected by the instructor. May be repeated for credit. Prereq: Permission of instructor. Cross-listed with PSYC 5990. Semester Hours: 1 to 3
PSYC 5803 - Principles of Psychological Testing
Principles underlying construction, validation, and use of tests of ability, intelligence, and personality and of attitude surveys. Covers statistical topics such as content and construct validity, item analysis, and reliability analysis. Prereq: Admission to psychology graduate program. Cross-listed with PSYC 4803. **Semester Hours:** 3 to 3

PSYC 5840 - Independent Study: PSYC
**Semester Hours:** 1 to 3

PSYC 5939 - Internship
**Semester Hours:** 1 to 6

PSYC 5990 - Topics in Psychology
Advanced study of special topics to be selected by the instructor. Note: May be repeated for credit. Prereq: Permission of instructor. Cross-listed with PSYC 4990. **Semester Hours:** 1 to 3

PSYC 6200 - Developmental Psychopathology
The study and prediction of maladaptive behaviors and processes across time. Students develop a sophisticated understanding of important concepts related to emotional and behavioral problems in children and adolescents, including DSM-IV-TR diagnostic criteria and the basic tenets of successful intervention. Prereq: Admission to the Psychology MA, Clinical program or the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. **Semester Hours:** 3 to 3

PSYC 6840 - Independent Study
A structured experience, planned and implemented with the assistance of a sponsoring faculty member in ongoing programs of research or other scholarly activity. Prereq: Admission to the graduate program in psychology. **Semester Hours:** 1 to 3

PSYC 6841 - Independent Study: PSYC
**Semester Hours:** 1 to 3

PSYC 6910 - Research Practicum
**Semester Hours:** 3 to 3

PSYC 6930 - Clinical Internship
Clinical experience in a setting which provides supervision by qualified professionals. Students participate in assessment, intervention, and/or evaluation and research. Prereq: Completion of 24 hours of course work in the UCD Psychology MA, Clinical program. **Semester Hours:** 1 to 6

PSYC 6950 - Master's Thesis
**Semester Hours:** 1 to 6

PSYC 7144 - Advanced Cognition and Emotion
Overview of contemporary psychological theories and research in human learning, memory, cognition, and emotion. Emphasis on cognitive and affective neuroscience and the physiological-psychological organization of functional systems. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor and graduate program director. **Semester Hours:** 3 to 3
**PSYC 7205 - Advanced Developmental Psychology**
A survey of neurobiological, cognitive, social and cultural processes in human development from conception through adulthood. Prereq: Admission to the Psychology MA, Clinical program or Clinical Health Psychology Ph.D. program or with permission of instructor and a graduate program director. **Semester Hours: 3 to 3**

**PSYC 7220 - Advanced Biological Bases of Behavior**
Survey course of advances in psychobiology which inform our understanding of the brain and behavior with special emphasis on perception, action, and cognition. A major goal of the course is to foster appreciation of the importance of interdisciplinary research. Prereq: Admission to the Clinical Health Psychology PhD program or permission of instructor. **Semester Hours: 3 to 3**

**PSYC 7262 - Health Psychology I**
Part I of a 2-course sequence. Presents crucial aspects of health psychology and behavioral medicine, including theoretical models, anatomy and physiology epidemiology, health promotion and primary prevention of medical problems. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor and graduate program director. **Semester Hours: 3 to 3**

**PSYC 7350 - Psychotherapy I**
Surveys some of the major schools of psychotherapy, including cognitive and cognitive-behavioral therapies as well as motivational interviewing. Coverage also includes therapy techniques, process of therapy, and treatment-outcome research. Prereq: Admission to the Psychology MA, Clinical program or the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. **Semester Hours: 3 to 3**

**PSYC 7360 - Psychotherapy II**
Theoretical approaches and techniques used in research, assessment and treatment of major forms of psychopathology, including anxiety, depression, schizophrenia and substance abuse, as well as marital problems and childhood disorders. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor and graduate program director. **Semester Hours: 3 to 3**

**PSYC 7400 - Child Assessment**
Psychometric theory and practice in assessment of children with focus on the diagnostics, the WISC-III, and personality assessment. Prereq: Admission to the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. **Semester Hours: 3 to 3**

**PSYC 7410 - Personality Assessment**
Reviews the process of selection, evaluation, administration, utilization, and interpretation of psychological tests related to psychosocial functioning. Issues of validity, reliability, utility, clinical judgement, ethics, and cross-cultural competence are reviewed. Prereq: Admission to the Clinical Health Psychology Ph.D. program, Clinical Psychology MA program, or by permission of instructor and graduate program director. **Semester Hours: 3 to 3**

**PSYC 7420 - Cognitive Assessment**
Reviews the process of selection, evaluation, administration, utilization, and interpretation of psychological tests related to cognitive functioning. Issues of validity, reliability, utility, clinical judgement, ethics, and cross-cultural competence are reviewed. Prereq: Admission to the Clinical Health Psychology Ph.D. program, Clinical Psychology MA program, or by permission of instructor and graduate program director. **Semester Hours: 3 to 3**
PSYC 7485 - Diversity in Clinical Psychology
Designed to foster understanding of diversity and its implications for clinical practice, research, and mental health policy. Students will learn to orient to the worldviews of clients from diverse backgrounds and to tailor their interventions to competently serve individuals in a pluralistic society. Prereq: Admission to the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. Semester Hours: 3 to 3

PSYC 7490 - Topics in Health Psychology Summer Lecture Series
Weekly lectures given by Clinical Health Psychology department faculty, advanced graduate students, alumni and area professionals on selected topics in the field. Note: This course is required for first, second and third-year graduate students. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor and graduate program director. Semester Hours: 1 to 1

PSYC 7500 - Advanced Psychopathology
Key features of major mental disorders in adult populations. Includes classification, DSM diagnosis, epidemiology, course and prognosis, age/culture/gender features, etiology and biological bases. Prereq: Admission to Psychology MA, Clinical program or the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. Semester Hours: 3 to 3

PSYC 7511 - Historical and Philosophical Foundations of Psychology
Philosophical and historical antecedents to contemporary psychology, with particular emphasis on clinical psychology. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor and graduate program director. Semester Hours: 3 to 3

PSYC 7520 - Experimental Psychopathology
Theories of etiology of major psychopathologies, including: personality disorders, anxiety disorders, affective disorders, substance use disorders and schizophrenia and other psychoses. Prereq: Admission to the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. Semester Hours: 3 to 3

PSYC 7700 - Clinical Research Methods
Principles of research methodology in clinical psychology. Major topics include research ethics, subject recruitment, ethnic and cultural considerations, selecting and evaluating research measures, epidemiology and comorbidity, taxonomic and outcome research and research design. Prereq: Admission to the Psychology MA, Clinical program or the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. Semester Hours: 3 to 3

PSYC 7710 - Multivariate Statistics
Topics include multiple regression, logistic regression, factor analysis, and structural equation modeling. Both experimental and non-experimental designs will be considered. Students will learn underlying theory of these techniques as well as how to perf Semester Hours: 3 to 3

PSYC 7713 - Advanced Statistics
Experimental design and analysis of controlled interventions and evaluations. Emphasis on multifactor analysis of variance, orthogonal contrasts, post-hoc tests, multiple regression, and analysis of co-variance. Prereq: Admission to the Psychology MA, Clinical program or the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. Semester Hours: 3 to 3

PSYC 7730 - Ethics and Professional Issues in Psychology
An in-depth exploration of the values and ethical ideas that guide professional practice in psychology, including philosophical ethical principles and professional codes of conduct. Specific topics include
Students are expected to be able to think about and communicate difficult ethical concepts in the form of class participation and a major paper. Prereq: Admission to the Psychology MA, Clinical program or the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. **Semester Hours:** 3 to 3

**PSYC 7830 - Clinical Interviewing**
Students practice interviewing and develop skills, including the ability to listen actively, to critique their own work and the work of others, and to think carefully about issues that arise in clinical work with clients. Prereq: Admission to the Psychology MA, Clinical program or the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. **Semester Hours:** 1 to 3

**PSYC 7910 - Clinical Practicum**
Clinical experience under supervision of licensed, doctoral-level professionals. Students participate in assessment, intervention, and/or evaluation and research in a variety of settings. Note: All field placements must be approved by the Director of Clinical Training (DCT) in advance of registration. Prereq: Completion of 24 hours of course work in the UCD Clinical Health Psychology PhD program. **Semester Hours:** 1 to 6

**PSYC 8100 - Clinical Behavioral Medicine**
Presents basic assessment and psychotherapeutic techniques used for patients with various disorders, focusing on cognitive-behavioral methods and the unique needs of patients experiencing chronic disease. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor and graduate program director. **Semester Hours:** 3 to 3

**PSYC 8200 - Teaching Skills Workshop**
Students will learn, explore, and practice the basic principles and strategies of good teaching. We will also explore research and theory for teaching at the college level. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor(s). **Semester Hours:** 3 to 3

**PSYC 8262 - Health Psychology II**
Part II of a 2-course sequence. Further aspects of health psychology and behavioral medicine, including health service utilization, patient-provider relationships, social support, terminal illness and issues related to chronic disease states. Prereq: Admission to the Clinical Health Psychology Ph.D. Program or with permission of instructor and graduate program director. **Semester Hours:** 3 to 3

**PSYC 8501 - Primary Care Psychology**
Examines emerging trends in the role of professional psychology and psychologists serving as health care providers in primary care medical settings. Knowledge, skills and attitudes as they apply to competencies unique to primary care will be covered. Prereq: Admission to the Clinical Health Psychology Ph.D. program or with permission of instructor and graduate program director. Students must also have completed PSYC 7262, 8262, and 7730, or equivalent courses. **Semester Hours:** 3 to 3

**PSYC 8502 - Cardiovascular Health Psychology**
The course focuses on research and clinical practice regarding psychological factors related to cardiovascular functioning and disease. The physiology of the cardiovascular system will be presented and primary and secondary prevention as related to psychological functioning will be emphasized. Prereq: Admission to the Clinical Health Psychology PhD program or with permission of instructor and graduate program director. **Semester Hours:** 3 to 3
PSYC 8503 - Group Interventions in Health Psychology
The course will serve as an introduction to group psychotherapy and group process principles with a focus on the design, implementation and delivery of evidence-based group interventions in the field of Clinical Health Psychology. **Semester Hours:** 3 to 3

PSYC 8550 - Advanced Social Psychology
This is a graduate level seminar that broadly covers the social bases of behavior from a social psychological perspective. It includes discussion of topics such as group processes, attribution theory, discrimination, and perspectives on attitudes. Prereq: Admission to the Clinical Health Psychology Ph.D. program or with permission of instructor. **Semester Hours:** 3 to 3

PSYC 8910 - Clinical Health Practicum
Advanced clinical experience under supervision of licensed, doctoral-level professionals. Students participate in assessment, intervention, and/or evaluation and research in a variety of health care settings to address the interface between physical and psychological functioning. Note: All field placements must be approved by the Director of Clinical Training (DCT) in advance of registration. Prereq: PSYC 7930. **Semester Hours:** 1 to 6

PSYC 8938 - Pre-Doctoral Internship
Intensive full-time clinical experience with supervision by licensed, doctoral-level professionals. Interns participate in assessment, intervention, and/or evaluation and research in a variety of settings. Students apply through the Association of Psychology Postdoctoral and Internship Centers (APPIC) national matching process. Note: All field placements must be approved by the Director of Clinical Training (DCT) in advance of registration. Prereq: Successful defense of the dissertation proposal in Clinical Health Psychology. **Semester Hours:** 1 to 3

PSYC 8990 - Doctoral Dissertation
Independent research on the doctoral dissertation in Clinical Health Psychology. Prereq: Admission to the Clinical Health Psychology Ph.D. Program. **Semester Hours:** 1 to 10
Public Administration Courses (PUAD)

**PUAD 1001 - Introduction to Leadership and Public Service**
This course provides a broad introduction to public service and encourages exploration of personal values and interests related to leadership, community, and life choices. Multiple paths to advancing the public good are explored, including volunteerism, citizenship, and service in government and nonprofits.

*Semester Hours: 3 to 3*

**PUAD 5001 - Introduction to Public Administration and Public Service**
Examines the fundamental theories, structures, and processes of governance in the United States. Explores the constitutional foundations and functions of legislative, administrative, and legal institutions. Covers topics such as federalism, public-private relations, and comparative public administration.

*Semester Hours: 3 to 3*

**PUAD 5002 - Organizational Management and Behavior**
This course provides coverage of those elements which, when combined, create a resilient learning organization. Topics include, but are not limited to, organization theory and design, managing human capital, group development and performance, inter- and intra-group communication, information management, and ethical decision making. These topics are presented within the framework of how to organize people to enhance the delivery of public services.

*Semester Hours: 3 to 3*

**PUAD 5003 - Research and Analytic Methods**
Examines quantitative research methods used to answer questions and test hypotheses in public and nonprofit settings. Methods covered include identifying and reviewing scholarly literature; formulating research questions; selecting appropriate design, data collection and sampling strategies; and analyzing data. Topics include causal and descriptive designs, interview and survey methods, and descriptive and inferential statistics such as chi square and regression.

*Semester Hours: 3 to 3*

**PUAD 5004 - Economics and Public Finance**
Analyzes the impact of public policy on allocation of resources & distribution of income in the economy.

Course explores 5 broad topics: 1) welfare & microeconomics 2) expenditure theory 3) resource mobilization (emphasis on taxation) 4) fiscal federalism

*Semester Hours: 3 to 3*

**PUAD 5005 - The Policy Process and Democracy**
Provides an introduction to theoretical and applied studies of the policy process. The policy process includes the manner in which (I) issues are conceptualized and brought to the government as problems needing action; (II) policies are designed and selected; and (III) the enacted policies are implemented, monitored, evaluated, and revised. The policy process also includes the study of politics, especially how government and non-government actors interact and exercise power in allocating societal benefits and burdens.

*Semester Hours: 3 to 3*

**PUAD 5006 - Leadership and Professional Ethics**
Examines theories of leadership applied to the public and non-profit sectors and the skills and processes employed by effective leaders. The course also considers ethical theories as applied to problems in the public and non-profit sectors; emphasizes critical thinking to address value conflicts, notably in the context of a pluralistic society; and teaches moral reasoning as a practical professional skill.

*Semester Hours: 3 to 3*
PUAD 5010 - Rocky Mountain Program
This program encourages participants to examine their public sector roles, develop an understanding of their leadership styles, develop communication skills, and enhance their ability to think more systematically and strategically in their positions. **Semester Hours:** 3 to 3

PUAD 5030 - Denver Community Leadership Forum
Designed to increase cross sector cooperation and enhance personal leadership skills and knowledge, program is administered annually February to November. Students gain skills in conflict management, participate in Outward Bound program in July, and learn leadership theories and concepts from a variety of presenters and trainers. **Semester Hours:** 3 to 3

PUAD 5110 - Seminar in Nonprofit Management
This course provides an overview of the principles and concepts that are unique to nonprofit management. Topics include executive management, funding diversity, human resource management, marketing, volunteer management and ethics. Students are also given an introduction to the history and the importance of the nonprofit sector. Cross-listed with PUAD 7110. **Semester Hours:** 3 to 3

PUAD 5115 - Effective Grant Writing for Nonprofit and Public Sector Managers
This course is designed to provide students with the knowledge and skills to perform one of the most critical functions for any public or nonprofit sector agency today: gaining funds through proposals. Students learn how to locate and analyze funding opportunities through public and private funders and how to research, plan and write effective and competitive proposals. The course provides theoretical and practical knowledge about persuasive writing, the proposal submission and review process, building effective relationships with funders and how to proceed after post-funding decisions (positive or negative). Cross-listed with PUAD 7115. **Semester Hours:** 3 to 3

PUAD 5120 - Nonprofits and Public Policy
Examines the intersection of public policy and the nonprofit world and the ways in which each affects the other. The course examines current policy issues that relate to the nonprofit sector such as conversion of nonprofit to for-profit status, regulation of the nonprofit sector, issues of financial management, the role of nonprofits in devolution and privatization of government services, tax exemptions, "charitable choice," donor control, governance and the future of the future of the sector. The course examines the ways nonprofits have affected the policy process and public policies by exploring the factors that shape social movements, nonprofit advocacy, strategies of influence, and the role of nonprofits in social movements such as Civil Rights and the environment. Cross-listed with PUAD 7120. **Semester Hours:** 3 to 3

PUAD 5125 - Civil Society and Nongovernmental Organizations
This course is designed for students interested in the international nonprofit sector. The course compares non-Western forms of civil society with the American tradition of civil society. Students will learn about the efforts of Nongovernmental Organizations (NGOs) working in Third World countries to influence democracy, free association, and/or increased political and societal pluralism. Additionally, the course will focus on NGO management and governance issues in countries where there are strict controls and limits on the activities of NGOs. Cross-listed with PUAD 7125. **Semester Hours:** 3 to 3

PUAD 5130 - Collaboration Across Sectors
The blurring of the three economic sectors - government, business and nonprofits-- continues to increase as more partnerships are developed across sectors. This course focuses on collaboration and partnerships involving public, nonprofit and for-profit organizations. Additionally, students are expected to gain an understanding of the issues and policies associated with the bidding, contracting, program delivery and
reporting processes when nonprofit organizations are contracted to achieve public sector goals and/or private sector objectives. Cross-listed with PUAD 7130. **Semester Hours:** 3 to 3

**PUAD 5140 - Nonprofit Financial Management**
Financial management is one of the core competencies of effective nonprofit managers. Every nonprofit organization needs money to sustain or advance its mission. This course provides a grounding in financial management for the "non-accountant" by focusing on an array of knowledge and management skill areas necessary for allocating and controlling resources and for analyzing, reporting and protecting the fiscal health of the organization. Topics include key accounting principles, understanding and using financial statements, the budget development process, cash flow analysis, banking relationships, using the audit report, maximizing investment policy and strategy, and understanding the boundaries of tax exemption. Cross-listed with PUAD 7140. **Semester Hours:** 3 to 3

**PUAD 5150 - Fundraising & Financial Resource Development**
Designed to provide a comprehensive overview of funding sources available to nonprofit organizations (e.g., foundation and governmental grants, individual and corporate donations, entrepreneurial sources of revenue and events.), as well as detailed inform **Semester Hours:** 3 to 3

**PUAD 5160 - Nonprofit Boards and Executive Leadership**
The important roles and responsibilities of a voluntary board of directors and the process of governing are often misunderstood. This course explores the special powers of a nonprofit board of directors as framed by and responsive to public policy. From the perspective of organizational behavior and theory, the course examines the leadership role and interplay between board members and the executive director. The examination includes a comparative analysis of different governing models, and explores fundamental questions of board composition, the role of advisor boards, achieving effective board meetings, the realm of liability, using committees, and the board’s role in fundraising, among other special subject matter. Cross-listed with PUAD 7160. **Semester Hours:** 3 to 3

**PUAD 5170 - Strategic Management for Nonprofit and Public Managers**
Designed to train public and nonprofit managers in the effective use of strategic management tools and techniques traditionally used by corporations. Strategic management tools and skills, although traditionally used by business, should not be seen as the exclusive domain of corporations. The course teaches students how to adapt traditional strategic management capabilities to the particular conditions of public and nonprofit organizations. Cross-listed with PUAD 7170. **Semester Hours:** 3 to 3

**PUAD 5180 - Social Entrepreneurship**
Designed to introduce students to the concept of social entrepreneurship. Using nonprofit (and public) organizational examples, students gain an understanding of what it means to be an innovative manager. Students study techniques designed to advance an organization's mission and increase organizational effectiveness, accountability and efficiency through the use of for-profit techniques within a nonprofit context. Cross-listed with PUAD 7180. **Semester Hours:** 3 to 3

**PUAD 5220 - Human Resource Management**
Covers human resource functions in public and nonprofit agencies. Topics include job analysis, compensation, recruiting, selection, rewarding, training and development. Contemporary issues concerning civil service reforms are also presented. Prereq: PUAD 5002 or PUAD 7002. Cross-listed with PUAD 7220. **Semester Hours:** 3 to 3
PUAD 5250 - Intergovernmental Management
Surveys the basic literature of intergovernmental management and examines the interactive role of managers at federal, state, and local levels of government. Emphasis is placed on current intergovernmental issues. Cross-listed with PUAD 7250. **Semester Hours:** 3 to 3

PUAD 5260 - Managing in a Multicultural Society
Using a systems approach, diversity within organizations is examined through the construction and review of theories in private, public, and nonprofit organizations. Existing models of managing diversity are examined and analyzed. Cross-listed with PUAD 7260. **Semester Hours:** 3 to 3

PUAD 5271 - Managing Conflict and Change
Explores the process of change in organizations, communities, society, and conflicts that arise. Through the use of relevant case studies and role playing exercises, students are provided a practical framework for looking at change and managing conflict associated with change. Cross-listed with PUAD 7271. **Semester Hours:** 3 to 3

PUAD 5280 - American Public Service Environment
Designed for SPA international students, especially those in their first or second semester, students will compare US culture and its public and nonprofit organizations (NGOs) with those in their home countries. Class sessions include: site visits; guest speakers from public and non-profit organizations; case studies, with an emphasis on applying theory to current issues in public policy and management. **Semester Hours:** 3 to 3

PUAD 5310 - Policy Formulation & Implementation
Building on PUAD 5005, students learn how policy is developed and implemented in several levels of government - local, state, federal - and within organizations themselves. The course makes use of the case studies to explore the intricacies of developing and implementing policy and the political, economic, and institutional contexts that affect these two states of policy development. Students also consider the different criteria that can be used to judge the effectiveness of programs and policies. Prereq: PUAD 5005 or 7005. Cross-listed with PUAD 7310. **Semester Hours:** 3 to 3

PUAD 5320 - Public Policy Analysis
Provides training in the systematic analysis of policy and program initiatives using an economics orientation and employing a case method. The course covers benefit-cost analysis, cost-effectiveness analysis, present values, and the treatment of multiple criteria in public sector program analysis. Prereq: PUAD 5003/7003, 5004/7004 and 5005/7005. Cross-listed with PUAD 7320. **Semester Hours:** 3 to 3

PUAD 5330 - Intermediate Statistical Analysis
Follows PUAD 5003/7003 and is focused on more advanced statistical techniques to be used in research. These techniques include the use of regression in time series analysis; binary response; nonlinear, logistic, and profit models; and factor and path analysis. Evaluating potential problems with model specification and the remedies are included. Students are required to test hypotheses using these models with a data set. Prereq: PUAD 5003 or 7003. Cross-listed with PUAD 7330. **Semester Hours:** 3 to 3

PUAD 5350 - Program Evaluation
Describes the theory and methodology for the design of social research and demonstration projects and the application of analytic and statistical methods for evaluating public programs. Focus is on the application of evaluation methods and techniques of data interpretation. Report preparation is emphasized. Prereq: PUAD 5003 or PUAD 7003 and PUAD 5005 or PUAD 7005. Cross-listed with PUAD 7350. **Semester Hours:** 3 to 3
PUAD 5361 - Capstone Seminar
In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, through the conduct of a client-based project. Students in a concentration must undertake a project related to that concentration. Students also make a juried oral presentation of the professional paper which reports project findings. This is the cumulative opportunity for students to apply concepts, theories, and research skills gained in the program to professional practice. (Successful completion of this course is an M.P.A. degree program requirement.) Cross-listed with PUAD 7361. **Semester Hours:** 3 to 3

PUAD 5370 - Media and Public Policy
Explores the conventions and practices of the print and electronic media in the United States. The course enables students to better understand the place of the media in society, the way the media look at themselves and how journalists confront conflicting values in the performance of their roles. Cross-listed with PUAD 7370. **Semester Hours:** 3 to 3

PUAD 5380 - Citizen Participation: Theory and Practice
Tackles the issues of citizen participation and community involvement in theory and practice. Students work in class on understanding the theoretical foundations that are relevant to citizen participation. Students engage in significant out-of-class projects to ground them in the practice of public involvement. Cross-listed with PUAD 7380. **Semester Hours:** 3 to 3

PUAD 5410 - Administrative Law
Examines legal aspects of policy implementation particularly the relationship between courts and administrative agencies. Covers standards of judicial review and agency action; administrative procedure and due process; selected special topics such as rights, liabilities, and immunities of public employees; and administrative discretion and scientific uncertainty. Cross-listed with PUAD 7410. **Semester Hours:** 3 to 3

PUAD 5420 - Law and Public Policy
Examines the relationship between courts and legislative assemblies. Explores how legislators use the policy process to shape and influence the exercise of judicial authority, and how the courts affect the policy process in reviewing the constitutionality of state and federal legislation. Cross-listed with PUAD 7420. **Semester Hours:** 3 to 3

PUAD 5430 - Seminar in Legal Research Methods and Public Law Scholarship
Provides law library-based training in locating and analyzing primary and secondary sources of law. Individualized guidance in understanding and using the content of legal materials in the conduct of public law scholarship and law-based writing. When take **Semester Hours:** 3 to 3

PUAD 5440 - Negotiation and Conflict Resolution
Focuses on concepts and skills necessary to negotiate policy and management decisions and manage internal and external conflicts. Designed to help students understand the dynamics that affect negotiations and to apply the principles and strategies of negotiation in a variety of decision making and dispute resolution contexts. Cross-listed with PUAD 7440. **Semester Hours:** 3 to 3

PUAD 5450 - Law of All-Hazards Management
This course conveys knowledge of the statutes, regulations and court decisions governing the management of hazards by governmental agencies. It covers local, state and federal agencies as they mitigate, prepare for, respond to and recover from naturally, accidentally and intentionally caused disasters. Cross-listed with PUAD 7450. **Semester Hours:** 3 to 3
PUAD 5460 - Political Advocacy
Addresses advocacy & lobbying issues of public policy & govt problems. Special attention is given to how advocacy process works in the public sector & policy making bodies & how lobbying techniques & processes can be understood. General focus on practical Semester Hours: 3 to 3

PUAD 5501 - Contemporary Issues in Revenue and Tax Administration and Policy
This course provides a contemporary evaluation of Colorado's tax structure, revenue system, and the state budget. The interaction of politics, the initiative process, the State Constitution, and stakeholders is studied. Cross-listed with PUAD 7501. Semester Hours: 3 to 3

PUAD 5502 - Public Financial Management and Policy
Provides basic understanding of issues & tools relevant to financial mgmt of public & non-profit org, including managerial acct (managing resources & obligations, investing idle funds, reporting, financial statement analysis, overview of budgeting, revenue Semester Hours: 3 to 3

PUAD 5503 - Governmental Budgeting
Focuses on theory and practices of government budgeting, including cycles, formats, political considerations, costing and analytical tasks. Covers both operating and capital budgeting, plus fiscal management issues. Cross-listed with PUAD 7503. Semester Hours: 3 to 3

PUAD 5540 - Organization Development
Studies the dynamics involved in managing and facilitating change in organizations by application of behavioral science knowledge. Emphasis is placed on both cognitive and experiential learning. A background in organization theory and administrative behavior is required. Cross-listed with PUAD 7540. Semester Hours: 3 to 3

PUAD 5615 - Health Policy
Draws upon existing policy models and evaluates the status of health policy formulation and implementation. Health policy topics include Medicaid and Medicare, managed care, health care reform proposals, telemedicine, the non-profit and for-profit role in health. Cross-listed with PUAD 7615. Semester Hours: 3 to 3

PUAD 5617 - Health Economics
Extends students' understanding of basic economic principles to consumer, physician, insurer, and health provider behavior. Current policy topics are analyzed from an economic perspective using published research. Students are required to write a research paper focused on analyzing a health care topic with the application of economic concepts. Prereq: PUAD 5004/7004 or equivalent economic course. Cross-listed with PUAD 7617. Semester Hours: 3 to 3

PUAD 5618 - Cost-Benefit Analysis
An intermediate-level course on the theory, methods, and application of economic evaluation in the health context. "Economic evaluation" includes cost analysis, cost-benefit analysis (CBA), cost-effectiveness analysis (CEA), and cost-utility analysis. Students are required to conduct an economic evaluation by collecting data and information related to a health area of interest. Prereq: PUAD 5003/7003, 5330/7330, and 5617/7617. Cross-listed with PUAD 7618. Semester Hours: 3 to 3

PUAD 5625 - Local Government Management
Relates the systems, processes, and principles of public management to the local government environment. Public management concepts such as strategic planning, bureaucracy, formal and informal organizational structures, human resource planning, management control, systems theory, and
administrative behavior are explored within the context of local government. Cross-listed with PUAD 7625. **Semester Hours:** 3 to 3

**PUAD 5626 - Local Government Politics and Policy**
Examines local government from the perspective of politics and public policy making. The course focuses on local government political structures, policy analysis and formulation, political forces in administrative decision making, and the relationships between professional administrators and elected officials. Cross-listed with PUAD 7626. **Semester Hours:** 3 to 3

**PUAD 5628 - Urban Social Problems**
Examines local government from the perspective of sociology and group dynamics. Course could include some or all of the following subjects: neighborhoods and community groups, class and race relations, community crime, social service issues, immigration, the underclass in American society, and related urban social problems. Cross-listed with PUAD 7628. **Semester Hours:** 3 to 3

**PUAD 5631 - Seminar in Environmental Politics and Policy**
Examines the fundamental principles of politics and policy that shape strategies of environmental protection. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in environmental politics and policy. Cross-listed with PUAD 7631. **Semester Hours:** 3 to 3

**PUAD 5632 - Seminar in Environmental Management**
Examines the practical challenges facing environmental managers today, using a series of case studies. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in the practice of environmental management. Cross-listed with PUAD 7632. **Semester Hours:** 3 to 3

**PUAD 5633 - Seminar in Natural Resource and Environmental Health Law**
Studies administrative law aspects of environmental policy implementation & enforcement, role of courts in stimulating & limiting statutory reform, & regulatory innovation. Focuses on legal aspects of natural resource allocation & mgmt, & environmental pr **Semester Hours:** 3 to 3

**PUAD 5634 - Theories of Sustainable Infrastructure Management**
This seminar introduces theories of sustainable infrastructure management from a variety of disciplinary perspectives. Students then apply them to resolution of a variety of actual infrastructure management problems. Cross-listed with PUAD 7634. **Semester Hours:** 3 to 3

**PUAD 5650 - Disaster and Emergency Management Policies**
Examines policies for the management of hazards, emergencies and disasters. Focuses on a series of case studies concerning major disasters and on management principles drawn from those cases. Examines the role of institutional processes, government organizations and nongovernmental organizations in emergency management. Cross-listed with PUAD 7650. **Semester Hours:** 3 to 3

**PUAD 5655 - Principles of Emergency Management**
This course is an introduction to the practice of emergency management. It provides instruction on the discipline of emergency management and covers not only administrative practice, but how public policy shapes how governments at all levels address haza **Semester Hours:** 3 to 3 **When Offered:** FALL
PUAD 5710 - Public Sector Technology
Technology is an integral piece of public administration today. Taking a historical/topical approach, this course examines the relationship between technology and culture; technology's role in economic growth; how technologically-driven prosperity impacts the balance between governments and markets; and the impact of information technologies on e-Government and e-Democracy. Cross-listed with PUAD 7710. **Semester Hours:** 3 to 3

PUAD 5910 - Women and Violence: A Sociological Perspective
This course is a sociological, feminist analysis of violence against women and girls that addresses the intersection of sexism and other forms of oppression such as racism, classism and heterosexism within historical, cultural, social and institutional contexts. Topics covered focus on overt and covert forms of sexual coercion, harassment and assault, battering and stalking. Cross-listed with PUAD 7910, CRJU 5910 and 7910. **Semester Hours:** 3 to 3

PUAD 5920 - Psychology of Violence Against Women
This class addresses the contributions and the limitations of current empirical and clinical psychological literatures about domestic violence. Topics covered include: distinguishing among mental health professionals regarding work with DV clients; the psychological impacts of domestic violence; services useful for responding to the needs of women and children; and an introduction to the psychology and treatment of batterers. Cross-listed with PUAD 7920, CRJU 5920 and 7920. **Semester Hours:** 3 to 3

PUAD 5930 - Battered Women and the Legal System
This course provides a practical understanding of how the following relate to battered women and their children: (a) major developments in federal, state, tribal, administrative, statutory and case law; (b) the role and responses of law enforcement, judges, attorneys, victim assistance providers and other legal system agents; and (c) the role and process of victim advocacy. Cross-listed with PUAD 5930, CRJU 5930 and 7930. **Semester Hours:** 3 to 3

PUAD 5940 - Domestic Violence Social Change and Advocacy
Info on theories & strategies behind contemp social change movements & skills necessary to organize & implement actions to influence public awareness & policy. Values of US society are complex & require advocates/activists to develop a heightened sense of **Semester Hours:** 3 to 3

PUAD 5950 - Interpersonal Violence and Health
Interpersonal violence is a major health issue. Approximately 20% of emergency room visits by women are attributable to interpersonal violence. This course will provide students with the foundational knowledge and skills necessary for responding to the health care needs of patients experiencing interpersonal violence. **Semester Hours:** 3 to 3

PUAD 5960 - Interpersonal Violence and Health
Interpersonal violence is a major health issue. Approximately 20% of emergency room visits by women are attributable to interpersonal violence. This course will provide students with the foundational knowledge and skills necessary for responding to the health care needs of patients experiencing interpersonal violence. **Semester Hours:** 3 to 3

PUAD 5961 - Interpersonal Violence, Health Advocacy and Systems Change
Explores how healthcare professionals can develop successful public & institutional discourses that transform healthcare policies & systems to address the health needs of patients experiencing interpersonal violence. Methods of advocacy, activism & organi **Semester Hours:** 3 to 3
PUAD 6600 - Special Topics: Public Administration
Studies special topics relevant to public administration, such as public/private sector partnerships, community participation, international development, conflict management, regionalism, managing economic options for Colorado, and nonprofit management and. **Semester Hours:** 1 to 4

PUAD 6840 - Independent Study: PUAD
Affords students the opportunity to do independent, creative work. Prereq: Permission of instructor. **Semester Hours:** 1 to 6

PUAD 6910 - Field Study in Public Administration
For students who have not had government experience. Studies and reports are made while students have full- or part-time administrative traineeships, internships, or similar positions in government agencies or government-related organizations. Prereq: Completion of the common core courses. It is recommended that at least three of the track courses also be completed. **Semester Hours:** 3 to 3

PUAD 6950 - Master's Thesis
**Semester Hours:** 3 to 6

PUAD 7007 - Qualitative Research Methods
Focuses on qualitative research methods that incorporate field work techniques such as observation, interviews, and content analysis. The main objective is to discover practicalities and limitations of ethnographic methods with a comparative methodology perspective. Students are required to conduct a search project. Cross-listed with PUAD 5007. **Semester Hours:** 3 to 3

PUAD 7110 - Seminar in Nonprofit Management
This course provides an overview of the principles and concepts that are unique to nonprofit management. Topics include executive management, funding diversity, human resource management, marketing, volunteer management and ethics. Students are also given an introduction to the history and the importance of the nonprofit sector. Cross-listed with PUAD 5110. **Semester Hours:** 3 to 3

PUAD 7115 - Effective Grant Writing for Nonprofit and Public Sector Managers
This course is designed to provide students with the knowledge and skills to perform one of the most critical functions for any public or nonprofit sector agency today: gaining funds through proposals. Students learn how to locate and analyze funding opportunities through public and private funders and how to research, plan and write effective and competitive proposals. The course provides theoretical and practical knowledge about persuasive writing, the proposal submission and review process, building effective relationships with funders and how to proceed after post-funding decisions (positive or negative). Cross-listed with PUAD 5115. **Semester Hours:** 3 to 3

PUAD 7120 - Nonprofits and Public Policy
Examines the intersection of public policy and the nonprofit world and the ways in which each affects the other. The course examines current policy issues that relate to the nonprofit sector such as conversion of nonprofit to for-profit status, regulation of the nonprofit sector, issues of financial management, the role of nonprofits in devolution and privatization of government services, tax exemptions, "charitable choice," donor control, governance and the future of the sector. The course also examines the ways nonprofits have affected the policy process and public policies by exploring the factors that shape social movements, nonprofit advocacy, strategies of influence, and the role of nonprofits in social movements such as Civil Rights and the environment. Cross-listed with PUAD 5120. **Semester Hours:** 3 to 3
**PUAD 7125 - Civil Society and Nongovernmental Organizations**
This course is designed for students interested in the international nonprofit sector. The course compares non-Western forms of civil society with the American tradition of civil society. Students will learn about the efforts of Nongovernmental Organizations (NGOs) working in Third World countries to influence democracy, free association, and/or increased political and societal pluralism. Additionally, the course will focus on NGO management and governance issues in countries where there are strict controls and limits on the activities of NGOs. Cross-listed with PUAD 5125. **Semester Hours: 3 to 3**

**PUAD 7130 - Collaboration Across Sectors**
The blurring of the three economic sectors - government, business and nonprofits-- continues to increase as more partnerships are developed across sectors. This course focuses on collaboration and partnerships involving public, nonprofit and for-profit organizations. Additionally, students are expected to gain an understanding of the issues and policies associated with the bidding, contracting, program delivery and reporting processes when nonprofit organizations are contracted to achieve public sector goals and/or private sector objectives. Cross-listed with PUAD 5130. **Semester Hours: 3 to 3**

**PUAD 7140 - Nonprofit Financial Management**
Financial management is one of the core competencies of effective nonprofit managers. Every nonprofit organization needs money to sustain or advance its mission. This course provides a grounding in financial management for the "non-accountant" by focusing on an array of knowledge and management skill areas necessary for allocating and controlling resources and for analyzing, reporting and protecting the fiscal health of the organization. Topics include key accounting principles, understanding and using financial statements, the budget development process, cash flow analysis, banking relationships, using the audit report, maximizing investment policy and strategy, and understanding the boundaries of tax exemption. Cross-listed with PUAD 5140. **Semester Hours: 3 to 3**

**PUAD 7150 - Fundraising & Financial Resource Development**
Designed to provide a comprehensive overview of funding sources available to nonprofit organizations (e.g., foundation and governmental grants, individual and corporate donations, entrepreneurial sources of revenue and events.), as well as detailed inform **Semester Hours: 3 to 3**

**PUAD 7160 - Nonprofit Boards and Executive Leadership**
The important roles and responsibilities of a voluntary board of directors and the process of governing are often misunderstood. This course explores the special powers of a nonprofit board of directors as framed by and responsive to public policy. From the perspective of organizational behavior and theory, the course examines the leadership role and interplay between board members and the executive director. The examination includes a comparative analysis of different governing models, and explores fundamental questions of board composition, the role of advisory boards, achieving effective board meetings, the realm of liability, using committees, and the board’s role in fundraising, among other special subject matter. Cross-listed with PUAD 5160. **Semester Hours: 3 to 3**

**PUAD 7170 - Strategic Management for Nonprofit and Public Managers**
Designed to train public and nonprofit managers in the effective use of strategic management tools and techniques traditionally used by corporations. Strategic management tools and skills, although traditionally used by business, should not be seen as the exclusive domain of corporations. The course teaches students how to adapt traditional strategic management capabilities to the particular conditions of public and nonprofit organizations. Cross-listed with PUAD 5170. **Semester Hours: 3 to 3**
PUAD 7180 - Social Entrepreneurship
Designed to introduce students to the concept of social entrepreneurship. Using nonprofit (and public) organizational examples, students gain an understanding of what it means to be an innovative manager. Students study techniques designed to advance an organization’s mission and increase organizational effectiveness, accountability and efficiency through the use of for-profit techniques within a nonprofit context. Cross-listed with PUAD 5180. **Semester Hours:** 3 to 3

PUAD 7220 - Managing People in Public and Nonprofit Organizations
The study and practice of human resource management to build effective organizations. This course reviews the process of staffing an organization, motivating and managing employees from the initial steps of describing a position and determining compensation to recruiting qualified and diverse applicants, screening and selecting good employees, hiring, training, motivating, developing and providing feedback to employees; and layoffs and promotions. Contemporary issues concerning managerial flexibility and merit pay will be reviewed. Prereq: PUAD 7002 or PUAD 5002. Cross-listed with PUAD 5220. **Semester Hours:** 3 to 3

PUAD 7250 - Intergovernmental Management
Surveys the basic literature of intergovernmental management and examines the interactive role of managers at federal, state, regional, and local levels of government. Emphasis is placed on current intergovernmental issues. Cross-listed with PUAD 5250. **Semester Hours:** 3 to 3

PUAD 7260 - Managing in a Multicultural Society
Using a systems approach, diversity within organizations is examined through the construction and review of theories in private, public, and nonprofit organizations. Existing models of managing diversity are examined and analyzed. Cross-listed with PUAD 5260. **Semester Hours:** 3 to 3

PUAD 7271 - Managing Conflict and Change
Explores the process of change in organizations, communities, and society, and conflicts that arise. Through the use of relevant case studies and role playing exercises, students are provided a practical framework for looking at change and managing conflict associated with change. Cross-listed with PUAD 5271. **Semester Hours:** 3 to 3

PUAD 7310 - Policy Formulation & Implementation
Building on PUAD 5005, students learn how policy is developed and implemented in several levels of government - local, state, federal - and within organizations themselves. The course makes use of the case studies to explore the intricacies of developing and implementing policy and the political, economic, and institutional contexts that affect these two states of policy development. Students also consider the different criteria that can be used to judge the effectiveness of programs and policies. Prereq: PUAD 5005 or 7005. Cross-listed with PUAD 5310. **Semester Hours:** 3 to 3

PUAD 7320 - Public Policy Analysis
Provides training in the systematic analysis of policy and program initiatives using an economics orientation and employing a case method. The course covers benefit-cost analysis, cost-effectiveness analysis, present values, and the treatment of multiple criteria in public sector program analysis. Prereq: PUAD 7003/5003, 7004/5004 and 7005/5005. Cross-listed with PUAD 5320. **Semester Hours:** 3 to 3

PUAD 7350 - Program Evaluation
Describes the theory and methodology for the design of social research and demonstration projects and the application of analytic and statistical methods for evaluating public programs. Focus is on the application of evaluation methods and techniques of data interpretation. Report preparation is
emphasized. Prereq: PUAD 7003 or PUAD 5003 and PUAD 7005 or PUAD 5005. Cross-listed with PUAD 5350. **Semester Hours:** 3 to 3

**PUAD 7361 - Advanced Seminar in Public Policy and Management**
In this seminar, students demonstrate their mastery of the knowledge and skills acquired in core courses, through the conduct of a client-based project. Students in a concentration must undertake a project related to that concentration. Students also make a juried oral presentation of the professional paper which reports project findings. This is the cumulative opportunity for students to apply concepts, theories, and research skills gained in the program to professional practice. (Successful completion of this course is an M.P.A. degree program requirement.) Cross-listed with PUAD 5361. **Semester Hours:** 3 to 3

**PUAD 7370 - Media and Public Policy**
Explores the conventions and practices of the print and electronic media in the United States. The course enables students to better understand the place of the media in society, the way the media look at themselves and how journalists confront conflicting values in the performance of their roles. Cross-listed with PUAD 5370. **Semester Hours:** 3 to 3

**PUAD 7380 - Citizen Participation: Theory and Practice**
Tackles the issues of citizen participation and community involvement in theory and practice. Students work in class on understanding the theoretical foundations that are relevant to citizen participation. Students engage in significant out-of-class projects to ground them in the practice of public involvement. Cross-listed with PUAD 5380. **Semester Hours:** 3 to 3

**PUAD 7410 - Administrative Law**
Examines legal aspects of policy implementation particularly the relationship between courts and administrative agencies. Covers standards of judicial review and agency action; administrative procedure and due process; selected special topics such as rights, liabilities, and immunities of public employees; and administrative discretion and scientific uncertainty. Cross-listed with PUAD 5410. **Semester Hours:** 3 to 3

**PUAD 7420 - Law and Public Policy**
Examines the relationship between courts and legislative assemblies. Explores how legislators use the policy process to shape and influence the exercise of judicial authority, and how the courts affect the policy process in reviewing the constitutionality of state and federal legislation. Cross-listed with PUAD 5420. **Semester Hours:** 3 to 3

**PUAD 7430 - Seminar in Legal Research Methods and Public Law Scholarship**
Provides law library-based training in locating and analyzing primary and secondary sources of law. Individualized guidance in understanding and using the content of legal materials in the conduct of public law scholarship and law-based writing. When take **Semester Hours:** 3 to 3

**PUAD 7440 - Negotiation and Conflict Resolution**
Focuses on concepts and skills necessary to negotiate policy and management decisions and manage internal and external conflicts. Designed to help students understand the dynamics that affect negotiations and to apply the principles and strategies of negotiation in a variety of decision making and dispute resolution contexts. Cross-listed with PUAD 5440. **Semester Hours:** 3 to 3

**PUAD 7450 - Law of All-Hazards Management**
This course conveys knowledge of the statutes, regulations and court decisions governing the management of hazards by governmental agencies. It covers local, state and federal agencies as they
mitigate, prepare for, respond to and recover from naturally, accidentally and intentionally caused disasters. Cross-listed with PUAD 5450. **Semester Hours:** 3 to 3

**PUAD 7460 - Political Advocacy**
Addresses advocacy & lobbying issues of public policy & govt problems. Special attention is given to how advocacy process works in the public sector & policy making bodies & how lobbying techniques & processes can be understood. General focus on practical **Semester Hours:** 3 to 3

**PUAD 7501 - Contemporary Issues in Revenue and Tax Administration and Policy**
This course provides a contemporary evaluation of Colorado's tax structure, revenue system, and the state budget. The interaction of politics, the initiative process, the State Constitution, and stakeholders is studied. Cross-listed with PUAD 5501. **Semester Hours:** 3 to 3

**PUAD 7502 - Public Financial Management and Policy**
Provides basic understanding of issues & tools relevant to financial mgmt. of public & non-profit org, including managerial acct (managing resources & obligations, investing idle funds, reporting, financial statement analysis, overview of budgeting, reve **Semester Hours:** 3 to 3

**PUAD 7503 - Governmental Budgeting**
Focuses on theory and practices of government budgeting, including cycles, formats, political considerations, costing and analytical tasks. Covers both operating and capital budgeting, plus fiscal management issues. Cross-listed with PUAD 5503. **Semester Hours:** 3 to 3

**PUAD 7540 - Organization Development**
Studies the dynamics involved in managing and facilitating change in organizations by application of behavioral science knowledge. Emphasis is placed on both cognitive and experiential learning. A background in organization theory and administrative behavior is required. Cross-listed with PUAD 5540. **Semester Hours:** 3 to 3

**PUAD 7600 - Special Topics: Public Administration**
Studies special topics relevant to public administration, such as public/private sector partnerships, community participation, international development, conflict management, regionalism, managing economic options for Colorado, and nonprofit management an **Semester Hours:** 1 to 4

**PUAD 7615 - Health Policy**
Draws upon existing policy models and evaluates the status of health policy formulation and implementation. Health policy topics include Medicaid and Medicare, managed care, health care reform, proposals, telemedicine, and the non-profit and for-profit role in health. Cross-listed with PUAD 5615. **Semester Hours:** 3 to 3

**PUAD 7617 - Health Economics**
Extend students' understanding of basic economic principles to consumer, physician, insurer, and health provider behavior. Current policy topics are analyzed from an economic perspective using published research. Students are required to write a research paper focused on analyzing a health care topic with the application of economic concepts. Prereq: PUAD 7004/5004 or equivalent economics course. Cross-listed with PUAD 5617. **Semester Hours:** 3 to 3

**PUAD 7618 - Cost-Benefit Analysis**
An intermediate-level course on the theory, methods, and application of economic evaluation in the health context. "Economic evaluation" includes cost analysis, cost-benefit analysis (CBA), cost-
effectiveness analysis (CEA), and cost-utility analysis. Students are required to conduct an economic evaluation by collecting data and information related to a health area of interest. Prereq: PUAD 7003/5003, 7330/5330 and 7617/5617. Cross-listed with PUAD 5618. **Semester Hours:** 3 to 3

**PUAD 7625 - Local Government Management**
Relates the systems, processes, and principles of public management to the local government environment. Public management concepts such as strategic planning, bureaucracy, formal and informal organizational structures, human resource planning, management control, systems theory, and administrative behavior are explored within the context of local government. Cross-listed with PUAD 5625. **Semester Hours:** 3 to 3

**PUAD 7626 - Local Government Politics and Policy**
Examines local government from the perspective of politics and public policy making. The course focuses on local government political structures, policy analysis and formulation, political forces in administrative decision making, and the relationships between professional administrators and elected officials. Cross-listed with PUAD 5626. **Semester Hours:** 3 to 3

**PUAD 7628 - Urban Social Problems**
Examines local government from the perspective of sociology and group dynamics. Course could include some or all of the following subjects: neighborhoods and community groups, class and race relations, community crime, social service issues, immigration, the underclass in American society, and related urban social problems. Cross-listed with PUAD 5628. **Semester Hours:** 3 to 3

**PUAD 7631 - Seminar in Environmental Politics and Policy**
Examines the fundamental principles of politics and policy that shape strategies of environmental protection. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in environmental politics and policy. Cross-listed with PUAD 5631. **Semester Hours:** 3 to 3

**PUAD 7632 - Seminar in Environmental Management**
Examines the practical challenges facing environmental managers today, using a series of case studies. Focuses on the role of institutional processes, government organizations and nongovernmental organizations in the practice of environmental management. Cross-listed with PUAD 5632. **Semester Hours:** 3 to 3

**PUAD 7633 - Seminar in Natural Resource and Environmental Health Law**
Studies administrative law aspects of environmental policy implementation & enforcement, role of courts in stimulating & limiting statutory reform, & regulatory innovation. Focuses on legal aspects of natural resource allocation & mgmt, & environmental pr **Semester Hours:** 3 to 3

**PUAD 7634 - Theories of Sustainable Infrastructure Management**
This seminar introduces theories of sustainable infrastructure management from a variety of disciplinary perspectives. Students then apply them to resolution of a variety of actual infrastructure management problems. Cross-listed with PUAD 5634. **Semester Hours:** 3 to 3

**PUAD 7650 - Disaster and Emergency Management Policies**
Examines policies for the management of hazards, emergencies and disasters. Focuses on a series of case studies concerning major disasters and on management principles drawn from those cases. Examines the role of institutional processes, government organizations and nongovernmental organizations in emergency management. Cross-listed with PUAD 5650. **Semester Hours:** 3 to 3
PUAD 7655 - Principles of Emergency Management
This course is an introduction to the practice of emergency management. It provides instruction on the discipline of emergency management and covers not only administrative practice, but how public policy shapes how governments at all levels address haza. Semester Hours: 3 to 3 When Offered: FALL

PUAD 7710 - Public Sector Technology
Technology is an integral piece of public administration today. Taking a historical/topical approach, this course examines the relationship between technology and culture; technology's role in economic growth; how technologically-driven prosperity impacts the balance between governments and markets; and the impact of information technologies on e-Government and e-Democracy. Cross-listed with PUAD 5710. Semester Hours: 3 to 3

PUAD 7910 - Women and Violence: A Sociological Perspective
This course is a sociological, feminist analysis of violence against women and girls that addresses the intersection of sexism and other forms of oppression such as racism, classism and heterosexism, within historical, cultural, social and institutional contexts. Topics covered focus on overt and covert forms of sexual coercion, harassment and assault, battering and stalking. Cross-listed with PUAD 5910, CRJU 5910 and 7910. Semester Hours: 3 to 3

PUAD 7920 - Psychology of Violence Against Women
This class addresses the contributions and the limitations of current empirical and clinical psychological literatures about domestic violence. Topics covered include: distinguishing among mental health professionals regarding work with DV clients; the psychological impacts of domestic violence; services useful for responding to the needs of women and children; and an introduction to the psychology and treatment of batterers. Cross-listed with PUAD 5920, CRJU 5920 and 7920. Semester Hours: 3 to 3

PUAD 7930 - Battered Women and the Legal System
This course provides a practical understanding of how the following relate to battered women and their children: (a) major developments in federal, state, tribal, administrative, statutory and case law; (b) the role and responses of law enforcement, judges, attorneys, victim assistance providers and other legal system agents; and (c) the role and process of victim advocacy. Cross-listed with PUAD 5930, CRJU 5930 and 7930. Semester Hours: 3 to 3

PUAD 7940 - Domestic Violence Social Change and Advocacy
Info on theories & strategies behind contemp social change movements & skills necessary to organize & implement actions to influence public awareness & policy. Values of US society are complex & require advocates/activists to develop a heightened sense of Semester Hours: 3 to 3

PUAD 8010 - Historical and Comparative Foundations of Public Administration
A doctoral seminar on developments and changes in public administration as a field of study. It examines how public administration and bureaucracy has evolved and is defined, practiced, studied and taught. It must normally be taken during the first full semester of the doctoral program. Prereq: PUAD 7001 or PUAD 5001 (or equivalent). Semester Hours: 3 to 3

PUAD 8020 - Seminar in Public Management
An in-depth examination of contemporary literature, concepts, and theories of public management. Current issues and research problems are emphasized to prepare students for their advanced research. Prereq: PUAD 7003/5003, 7004/5004 or equivalent. Semester Hours: 3 to 3
PUAD 8030 - Seminar in Public Policy
Offers an in-depth examination of contemporary literature, concepts, and theories of public policy, with an emphasis on policy process. Current issues and research problems are emphasized to prepare students for their advanced research. Prereq: PUAD 7004/5004, 7005/5005 or equivalent. Semester Hours: 3 to 3

PUAD 8040 - Seminar In Economic and Institutional Foundations of Public Affairs
Offers an in-depth examination of the economic foundations of public affairs, with an emphasis on market failures, theoretical breakdowns of the market model, and the evolution of non-market institutions, as well as analytical tools grounded in economic foundations. Prereq: PUAD 8010 and 8030. Semester Hours: 3 to 3

PUAD 8050 - Quantitative Methods I
Introduces students to the foundational principles and techniques of quantitative analysis in the social sciences generally and in public affairs specifically, including statistical inference, regression analysis, and commonly-used statistical software packages. Prereq: PUAD 8010, 8020, 8030, and 8040. Semester Hours: 3 to 3

PUAD 8060 - Seminar On The Conduct Of Empirical Inquiry
Introduces basic elements of research design in the social sciences, focusing on the relationship between theories and methods, concept development and measurement, selection of observations or cases, and alternative methods of data collection and analysis. Prereq: PUAD 5003,7003 or equivalent, PUAD 8010, 8020, 8030, and 8040. Semester Hours: 3 to 3

PUAD 8070 - Quantitative Methods II
Moves beyond basic linear regression techniques by covering advanced analytic methods, such as maximum likelihood estimation for dichotomous and ordered dependent variables. Students will also be introduced to other techniques such as time series analysis and topics such as advanced issues in measurement. Prereq: PUAD 8010, 8020, 8030, 8040, 8050, and 8060. Semester Hours: 3 to 3

PUAD 8840 - Independent Study: PUAD
(Doctoral level) Affords students the opportunity to do independent, creative work. Prereq: Permission of advisor. Semester Hours: 1 to 6

PUAD 8990 - Doctoral Dissertation
Once students are admitted to candidacy, they must be continuously registered for dissertation credit each fall and spring semester or be automatically dropped from the program. Students must register for 5 credit hours per semester. In cases where students will not be using any university resources during a particular semester, they may petition the Ph.D. director to register for fewer semester credit hours. Students must be registered for dissertation credit during the semester they have a colloquium or defense. Semester Hours: 1 to 10
Religious Studies Courses (RLST)

RLST 1610 - Introduction to Religious Studies
Religion is a complex phenomenon which involves social norms, beliefs and fears, and overarching world view. Religious experiences are among the most profound an individual can have. The course examines religious phenomena from various perspectives, including philosophical, historical, psychological, anthropological, political, sociological, the symbolic and ritual. Semester Hours: 3 to 3

RLST 2660 - World Religions
Provides an introduction to the basic beliefs and concepts of the world's great religious traditions. Covers the history, development, belief patterns, and institutional forms of the world's religions, including Judaism, Zoroastrianism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. Semester Hours: 3 to 3

RLST 2680 - The American Indian Experience
Surveys the relationships between Indian and non-Indian peoples, particularly in the context of the unique interaction between tribes and the federal government. Cross-listed with ETST 2606. Semester Hours: 3 to 3

RLST 2700 - The Bible as Literature
Introduces students to biblical literature. Selections from the various genres of writing in Hebrew (history, wisdom, prophecy, literature) are read and discussed, as well as representative sections from the New Testament, including the gospels and the writings of Paul. Cross-listed with ENGL 2520. Semester Hours: 3 to 3

RLST 3000 - Judaism, Christianity and Islam: Affinity and Difference
Judaism, Christianity and Islam have much in common, beginning with their common patriarch Abraham. But there are also elements in each that are unrecognizable from the perspectives of the other two. This course will trace the relationships among the Children of Abraham across history and in today's turbulent world. Semester Hours: 3 to 3

RLST 3060 - History of Early Christianity
History of the rise of Christianity and the decline of paganism in the Roman Empire from the birth of Jesus of Nazareth to ca. 500 A.D. Special emphasis on social, historical, legal, and cultural context of Christianity's rise and paganism's decline. Semester Hours: 3 to 3

RLST 3080 - Reformation Europe
Between the early 16th and the middle 17th centuries, Europe was torn by explosive ideological conflicts, resulting in religious upheaval, political revolution, and civil and international wars, but also underwent important experiments in representative government and economic controls. Cross-listed with HIST 4022, 5022. Semester Hours: 3 to 3

RLST 3100 - Islamic Politics and Culture
Comprehensive, in-depth study of Islam and Muslims. Islam is viewed as a "way of life" with social, economic, psychological, spiritual, and political implications. Among topics to be examined are: women in Islam, Jihad, fundamentalism, Islamic movements, Islam and the West. Cross-listed with PSCI 4165. Semester Hours: 3 to 3
**RLST 3300 - Shamanic Traditions**
Explores shamanic religious traditions across the world. This form of religion, involving spiritism, animism, trance states, and "mind power," is the oldest and most widespread religion in world history. Covers the "Shramana" disciplines of India (probable source for the name "Shamanism"), Tibet, Central Asia, Korea, China, Japan, Australia, Pacific Islands, Native America, and traditional Africa. **Semester Hours: 3 to 3**

**RLST 3400 - Asian Philosophies and Religions**
We in the Western world encounter a vastly different world, a radically different "universe of meaning," when we examine the traditions of the East. Even what we tacitly assume to be "real" is claimed by the Hindus and Buddhists of India to be a grand illusion. The world of China is, again, very different from India. An examination of Tibetan and Japanese religious forms will conclude our study of Asian thought. Cross-listed with PHIL 3666. **Semester Hours: 3 to 3**

**RLST 3500 - Religions of India**
Examines the transcendentalist philosophy of India, which rests at the foundation of the great Eastern religious traditions of Hinduism and Buddhism. The Indian ideas of God, the soul, time, the nature of the universe, and its ultimate goal are examined. **Semester Hours: 3 to 3**

**RLST 3660 - Chinese Philosophy and Culture**
China is a fascinating world with its own characteristic orientation to philosophical questions. Chinese thinkers produced the "Flowering of a Hundred Schools of Thought" in the Axial Age, the same period of time in which philosophy was coming to birth in ancient Greece. Covers some of the Chinese schools, including Confucianism, Taoism, Mohism, Legalism, Chinese "Logic," and the later schools of Neo-Confucianism, Neo-Taoism and Chinese Buddhism. Cross-listed with PHIL 3981. **Semester Hours: 3 to 3**

**RLST 3720 - Religious Narratives**
Investigates the language and structure of religious discourse in Western literature. Welcomes interdisciplinary and comparative perspectives with a focus on cultural constructions of the sacred. Cross-listed with ENGL 3520. **Semester Hours: 3 to 3**

**RLST 3740 - Biblical Traditions: Old Testament**
Investigates the history and nature of the Biblical text. Follows the tradition of critical scholarship beginning in the Enlightenment era and continued down to the present day, sometimes entitled "Secular Humanism." Topics include theories of authorship of the Torah, its general nature and content; the historical books of the Bible, the Prophets, and the Wisdom Literature. **Semester Hours: 3 to 3**

**RLST 3760 - Biblical Studies: New Testament**
Examines the books of the New Testament from a scholarly, historical-critical perspective, which views it as a historically and culturally conditioned text, reflecting the beliefs and attitudes of the authors who produced it. The course covers the canonical gospels, letters, and other writings of the New Testament. **Semester Hours: 3 to 3**

**RLST 3770 - Archaeological Discoveries Relating to the Bible**
Examines the revolutionary impact of archaeology on Biblical Studies. Among these discoveries are Egyptian, Mesopotamian, and Canaanite texts, the Dead Sea Scrolls, and the Gnostic texts. Through these investigations, the Bible will be placed in its appropriate historical, literary and cultural context. **Semester Hours: 3 to 3**
RLST 4000 - Religion and Cultural Diversity
Religion is one of the key elements which creates multiculturalism. This course explores issues in religion and religious identity in contemporary America, including Native American spiritual traditions, Jewish-American traditions, Muslim-American traditions, Asian-American traditions, the African-American Pentecostal movement, and the growth of the Black Muslim movement. Attention is also given to the question of gender issues, as the traditional model for gender roles was formulated, in part, from a religious basis. **Semester Hours:** 3 to 3

RLST 4010 - Comparative Religious Systems
A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Cross-listed with ANTH 4130, 5130, RLST 5010. **Semester Hours:** 3 to 3

RLST 4020 - Sociology of Religion
An intensive review and analysis of the fundamental tenets of religion as a social institution, with emphasis on present-day religious cults, their beliefs and activities in society. Prereq: SOCY 1001 or permission on instructor. Cross-listed with RLST 5020 and SOCY 4610, 5610. **Semester Hours:** 3 to 3

RLST 4040 - Psychology of Religion
Examines the theories developed by some of the great names in the field of psychology and their approaches to religion. Questions addressed include why people become religious, how religion functions in their lives, religious experience and assessment of the validity of religious claims. Key theorists studied include: William James, Sigmund Freud, Carl G. Jung, Abraham Maslow and Erich Fromm. Cross-listed with RLST 5040. **Semester Hours:** 3 to 3

RLST 4060 - Philosophy of Religion
Nature of religion and methods of studying it. Cross-listed with HUMN 5600, PHIL 4600, 5600, RLST 5060, and SSCI 5600. **Semester Hours:** 3 to 3

RLST 4070 - Western Religious Thought
Focuses on philosophers and theologians who have contributed to the evolution of the three great religious traditions of the West: Judaism, Christianity and Islam. Targets thinkers from three periods: the ancient or formative era, the medieval era, and the contemporary era. Note: Specific philosophers chosen may vary in different semesters. Cross-listed with PHIL 4710. **Semester Hours:** 3 to 3

RLST 4080 - Eastern Religious Thought
Parallels the course in Western religious thought. The great religious traditions of the East, including Hinduism, Buddhism, Confucianism, and Taoism, are examined as they are presented in the writings of key philosophical representatives of each tradition. Cross-listed with PHIL 4720. **Semester Hours:** 3 to 3

RLST 4100 - Special Topics in Religion
This special topics course allows for a variety of subjects to be explored in different semesters, including such issues as the nature of religious experience, communication with the divine, specific historical themes and events in religion. **Semester Hours:** 3 to 3

RLST 4160 - Mysticism
Explores the mystical strains within the world's great religious traditions. Jewish, Christian, and Islamic mystics did not always express the same beliefs and attitudes as mainstream adherents. When mystics are placed side-by-side, amazing similarities appear. One cannot always tell whether a given mystical
statement is Hindu, Jewish, Sufi, or Christian. This class examines these mystical traditions, East and West. Cross-listed with RLST 5160. **Semester Hours:** 3 to 3

**RLST 4260 - Kosmos: Theories of the Universe**
A course in philosophical cosmology using material from the sciences, history and philosophy. The goal is to illuminate our present theories concerning the nature of the universe and the place of life within it. Cross-listed with PHIL 3420. **Semester Hours:** 3 to 3

**RLST 4280 - Current Perspectives on the Evolution of Consciousness and Culture**
Studies of evolution traditionally regard morphology (anatomy)/behavior and mind/consciousness as separate fields that belong either in biology/paleontology or in psychology/philosophy. The "middle ground" behavior, anthropology, social systems, is also treated separately in most cases. Recent approaches tend toward a more holistic view using unifying principles and "laws of nature" that show similar processes (dissipative effects, information theory, development theory) operating across all fields. Examines the relationships and common threads between the physical anatomical evolution of organisms and their behavior perception and consciousness. Prereq: Introductory course in evolution (biology/paleontology), psychology, philosophy, anthropology, or permission of instructor. Cross-listed with GEOL 3100 and PHIL 3100. **Semester Hours:** 3 to 3

**RLST 4300 - Myth and Symbol**
Approaches the field of classical Greek mythology and religion from the perspective of Jungian archetypal theory. The deities of the ancient Greeks are presented as archetypal patterns with universal correlates elsewhere in world religions. A foundation in C. G. Jung's archetypal theory will be offered to ground the course material. Cross-listed with RLST 5300. **Semester Hours:** 3 to 3

**RLST 4320 - Spirituality in the Modern World**
Examines the issue of spiritual currents in the modern world. Joseph Campbell claimed that Western culture long ago lost an active sense of the sacred and that the traditional religions have not been the spiritual center for the vast majority of moderns for centuries. This class looks at the modern spiritual awakening in Shamanism, Eastern thought, the New Age movement, the men's movement, paganism and goddess religion, and the revival of traditional religious forms in recent decades. Prereq: RLST 4300. **Semester Hours:** 3 to 3

**RLST 4340 - The Hero's Journey**
The myth of the hero's journey serves as a metaphor for the vicissitudes life puts each of us through. The hero or hera represents the ego-self who undertakes the journey--a grand adventure into the realm of the unknown--to seek the treasure. He or she is greatly transformed by the process, ultimately into the great self, who wins the boon to share with all humanity. Versions of the story are found all over the world, such as in the sagas of Gilgamesh, Odysseus, Psyche, King Arthur, Dorothy of Oz, and Luke Skywalker from a galaxy far, far, away. Cross listed with ENGL 3530. **Semester Hours:** 3 to 3

**RLST 4360 - Freudian and Jungian Perspectives in Dream Analysis**
Focuses on the phenomenon of dreams in a way that differs distinctly from the traditional approach to the subject in the field of psychology. Throughout history, dreams have been regarded as prophetic, as the voice of the gods. These "spiritual" approaches to dreams are examined, as well as some major theorists on dreams, especially the work of Sigmund Freud and C. G. Jung. **Semester Hours:** 3 to 3

**RLST 4400 - Differing Concepts of God**
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the
Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the
God of the pantheists, the deists, and the God of the mystics. Cross-listed with RLST 5400, PHIL 4650
and 5655. **Semester Hours:** 3 to 3

**RLST 4420 - Goddess Traditions**
Explores the many forms which goddesses have assumed through history, including the Neolithic Great
Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate,
Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed
a full spectrum from virgins to Great Mothers to dark underworld goddesses of death and destruction.
Cross-listed with RLST 5420 and WGST 4420/5420. **Semester Hours:** 3 to 3

**RLST 4440 - Concepts of the Soul**
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a
"soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various
theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with RLST
5440 and PHIL 4470, 5470. **Semester Hours:** 3 to 3

**RLST 4460 - Death and Concepts of Afterlife**
Examines how the major religious traditions approach the issue of death. Where the Egyptians were
fascinated by death, their Mesopotamian and Hebrew neighbors saw no kind of experience continuing
after death. Concepts of the Final Judgment Day and the end of the world follow in Zoroastrianism,
Christianity, and Islam, while Indian religions developed a sophisticated theory of reincarnation and the
"art of dying." Finally, we will turn to Chinese belief in ancestral spirits. Cross-listed with RLST
5460. **Semester Hours:** 3 to 3

**RLST 4480 - Perspectives on Good and Evil**
Examines the "problem of evil." As formulated in the philosophical tradition: if the deity is understood as
perfect, then why is there evil? How can a perfect entity create imperfection? Why would an absolutely
benevolent God cause or allow the innocent to suffer? Presents the classical formulation of the problem,
the traditional solutions offered, and the classical critiques of each answer. Considers the perspectives of
the various religious orientations, each of which deals differently with the question of suffering. Cross-
listed with PHIL 4480. **Semester Hours:** 3 to 3

**RLST 4500 - Religion and Politics**
Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of
and justifications for the historical development of the Western separation of "church and state;" (3)
contemporary responses to and analyses of this separation; and (4) several current debates about public
policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 4057, 5057 and
RLST 5500. **Semester Hours:** 3 to 3

**RLST 4710 - Women and Religion**
A sociological exploration of the contemporary roles of women in religion. Course examines American and
world religious groups with an eye to women’s involvement. Considers how women have changed these
traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a
result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 4710/5710,
RLST 5710. **Semester Hours:** 3 to 3

**RLST 4730 - Whores and Saints: Medieval Women**
Studies how women are presented in texts, as well as works by women. Investigates the roles open to
women and societal attitudes toward women, who were considered seductresses, saints, scholars and
warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 4510/5510, RLST 5730 and WGST 4510/5510. **Semester Hours:** 3 to 3

**RLST 4840 - Independent Study: RLST**
Various topics in religious studies pursued in independent research. **Semester Hours:** 1 to 3

**RLST 5010 - Comparative Religious Systems**
A cross-cultural analysis of religious belief and behavior. Emphasis is placed on religions found among non-Western cultural groups and includes consideration of how major religions of the world are manifested on local levels. Cross-listed with ANTH 4130, 5130, RLST 4010. **Semester Hours:** 3 to 3

**RLST 5020 - Sociology of Religion**
An intensive review and analysis of the fundamental tenets of religion as a social institution, with emphasis on present-day religious cults, their beliefs and activities in society. Cross-listed with RLST 4020 and SOCY 4610, 5610. **Semester Hours:** 3 to 3

**RLST 5040 - Psychology of Religion**
Examines the theories developed by some of the great names in the field of psychology and their approaches to religion. Questions addressed include why people become religious, how religion functions in their lives, religious experience and assessment of the validity of religious claims. Key theorists studied include: William James, Sigmund Freud, Carl G. Jung, Abraham Maslow and Erich Fromm. Cross-listed with RLST 4040. **Semester Hours:** 3 to 3

**RLST 5060 - Philosophy of Religion**
Nature of religion and methods of studying it. Cross-listed with HUMN 5600, PHIL 4600, 5600, RLST 4060, and SSCI 5600. **Semester Hours:** 3 to 3

**RLST 5160 - Mysticism**
Explores the mystical strains within the world's great religious traditions. Jewish, Christian, and Islamic mystics did not always express the same beliefs and attitudes as mainstream adherents. When mystics are placed side-by-side, amazing similarities appear. One cannot always tell whether a given mystical statement is Hindu, Jewish, Sufi, or Christian. This class examines these mystical traditions, East and West. Cross-listed with RLST 4160. **Semester Hours:** 3 to 3

**RLST 5300 - Myth and Symbol**
Approaches the field of classical Greek mythology and religion from the perspective of Jungian archetypal theory. The deities of the ancient Greeks are presented as archetypal patterns with universal correlates elsewhere in world religions. A foundation in C. G. Jung's archetypal theory will be offered to ground the course material. Cross-listed with RLST 4300. **Semester Hours:** 3 to 3

**RLST 5400 - Differing Concepts of God**
God, gods, and goddesses have been imagined in many different modes, forms, aspects, and guises throughout human history. This course investigates Paleolithic models of God, the Great Goddess of the Neolithic era, the gods of mythological traditions, Biblical God, the abstract God of the philosophers, the God of the pantheists, the deists, and the God of the mystics. Cross-listed with RLST 4400, PHIL 4650 and 5655. **Semester Hours:** 3 to 3

**RLST 5420 - Goddess Traditions**
Explores the many forms which goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate,
Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld goddesses of death and destruction. Cross-listed with RLST 4420 and WGST 4420/5420. **Semester Hours:** 3 to 3

**RLST 5440 - Concepts of the Soul**
Asks the questions: What is the nature of the human being? What makes us "human?" Do humans have a "soul?" What is its nature? Is it different from the "spirit?" What is its ultimate fate? Examines the various theories put forward by philosophers of both Eastern and Western traditions. Cross-listed with RLST 4440 and PHIL 4470, 5470. **Semester Hours:** 3 to 3

**RLST 5460 - Death and Concepts of Afterlife**
Examines how the major religious traditions approach the issue of death. Where the Egyptians were fascinated by death, their Mesopotamian and Hebrew neighbors saw no kind of experience continuing after death. Concepts of the Final Judgment Day and the end of the world follow in Zoroastrianism, Christianity, and Islam, while Indian religions developed a sophisticated theory of reincarnation and the "art of dying." Finally, we will turn to Chinese belief in ancestral spirits. Cross-listed with RLST 4460. **Semester Hours:** 3 to 3

**RLST 5500 - Religion and Politics**
Exploration of: (1) theoretical perspectives on the relationship between religion and politics; (2) causes of and justifications for the historical development of the Western separation of "church and state;" (3) contemporary responses to and analyses of this separation; and (4) several current debates about public policy in America that reveal tensions between these two spheres. Cross-listed with PSCI 4057, 5057 and RLST 4500. **Semester Hours:** 3 to 3

**RLST 5710 - Women and Religion**
A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women’s involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 4710/5710, RLST 4710. **Semester Hours:** 3 to 3

**RLST 5730 - Whores and Saints: Medieval Women**
Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 4510/5510, RLST 4730 and WGST 4510/5510. **Semester Hours:** 3 to 3
Research & Evaluation Methods Courses (RSEM)

RSEM 5000 - Orientation to Research and Measurement in Education
Provides an overview of the research process, various types of research, and major concepts and techniques in educational measurement. The emphasis is on: (1) critiquing educational research studies; and (2) critiquing tests and other measures used in edu Semester Hours: 3 to 3

RSEM 5050 - Classroom Assessment
Provides teachers with a conceptual framework for developing new assessments of student learning and attitudes, and for evaluating and selecting assessment instruments developed by others. Techniques of performance assessment and the use of portfolios in Semester Hours: 3 to 3

RSEM 5080 - Research In Schools
Provides teachers with the competencies necessary for examining their professional experiences using formal and informal methods of inquiry. Teachers become more reflective practitioners who investigate questions that arise from their work in schools. The Semester Hours: 3 to 3

RSEM 5100 - Basic Statistics
A first-level course on the use and interpretation of descriptive and inferential statistics. Topics covered include: frequency distributions, measures of central tendency and measures of variability; shapes of distributions; standard scores; scattergra Semester Hours: 3 to 3

RSEM 5110 - Introduction to Measurement
A first-level course that examines the nature and purpose of psychological measurement. Particular attention is paid to the concepts of reliability, validity, norms, interpretation of scores, response sets, fairness in testing, and norm-referenced vs. cri Semester Hours: 3 to 3

RSEM 5120 - Introduction to Research Methods
Examines the purposes of research, the methods and designs of quantitative and qualitative research, and the processes involved in research studies. The methods of research examined include experimental designs, quasi-experimental designs, descriptive sur Semester Hours: 3 to 3

RSEM 5350 - Workshop in Instrument Development
Provides an opportunity to learn the art and technology of developing different measures in education. Students develop an instrument of their own design. Topics vary. Semester Hours: 3 to 3

RSEM 5400 - Introduction to Evaluation of Programs and Persons
Models and methods of evaluating programs and persons in education and related fields, such as business and nursing, are examined. Emphasis is given to the topics of formative and summative evaluation, frameworks for program evaluation, teacher evaluation Semester Hours: 3 to 3

RSEM 5800 - Workshop: Topics in Research and Evaluation Methodology
Topics and credit hours vary from term to term. Often workshops address a current topic in research, evaluation, or measurement by considering its scholarly foundations and its application to schools and other educational settings. Semester Hours: 1 to 4

RSEM 5840 - Independent Study: RSEM
Semester Hours: 1 to 4
RSEM 5910 - Practicum in Research and Evaluation Methodology
Supervised work in projects that provide experience in data analysis, research, measurement, or evaluation. Requires a minimum of 75, 150, 225, or 300 clock hours under supervision (for 1, 2, 3, or 4 credit hours, respectively). **Semester Hours:** 1 to 4

RSEM 5920 - Readings in Educational Statistics
**Semester Hours:** 1 to 3

RSEM 5921 - Readings in Educational Research
**Semester Hours:** 1 to 3

RSEM 5923 - Readings in Educational Measurement
**Semester Hours:** 1 to 3

RSEM 5924 - Readings in Program Evaluation
**Semester Hours:** 1 to 3

RSEM 6050 - Seminar in Assessment Policy Issues
Three public policy issues involving educational assessment are analyzed. The policy issues selected vary to reflect current policy debates. Sample issues are school accountability, grading and report cards, performance-based graduation standards, classification **Semester Hours:** 3 to 3

RSEM 6100 - Methods of Qualitative Inquiry
Prepares graduate students to conduct field research employing qualitative methods and perspectives. Students become familiar with evolving theoretical and methodological perspectives in qualitative research drawn from anthropology, clinical psychology, etc. **Semester Hours:** 3 to 3

RSEM 6200 - Single Case Research Design for Education
This course provides an overview of Single Case research Design (SCRD) within educational settings. The course will describe single case designs (SCD), specify the types of questions that SCD's are designed to answer, discuss the internal and external validity of results **Semester Hours:** 3 to 3

RSEM 7000 - Doctoral Seminar in Research Methods
Designed for students beginning doctoral work, explores conceptional and practical bases for doing and evaluating educational research. The chain of reasoning linking the conceptualization of a research problem, the posing of questions in a social process **Semester Hours:** 3 to 3

RSEM 7010 - Educational Assessment And Measurement
This advanced course incorporates foundational knowledge and application of assessment and measurement tools in school settings. Foundational concepts are utilized to better understand student achievement and growth indicators, and inferences about school performance **Semester Hours:** 3 to 3

RSEM 7050 - Methods of Survey Research
Covers the purposes and methods of survey research. Topics include: goals and uses of survey research, data collection methods, questionnaire and interview protocol design, reliability and validity of data collection methods, sampling, ways to reduce bias **Semester Hours:** 3 to 3
RSEM 7100 - Advanced Methods of Qualitative Inquiry
An advanced seminar directed at individuals who have completed an introductory course in methods of qualitative research. Topics included are qualitative data collection, data analysis, and writing about data. Students collect and analyze data. Prereq: RS Semester Hours: 3 to 3

RSEM 7110 - Intermediate Statistics
Continuation of RSEM 5100, covering more advanced methods of analyzing data, with an emphasis on the use and interpretation of descriptive and inferential techniques. Topics covered are one-way and two-way analysis of variance; power; multiple comparisons Semester Hours: 3 to 3

RSEM 7120 - Advanced Methods in Quantitative Inquiry and Measurement
Covers advanced topics in quantitative design and analysis, including advanced measurement topics. Topics include: specific types of design used in experimental, quasi-experimental, co-relational, and survey research; multivariate ANOVA, ANCOVA and MRC; f Semester Hours: 3 to 3

RSEM 7150 - Mixed Methods Research
This seminar is directed at individuals who have completed both qualitative and quantitative research courses and are interested in combining these in the mixed-method approach. Focus will be on developing the skills and knowledge needed to formulate mixe Semester Hours: 3 to 3

RSEM 7210 - Program Evaluation
This advanced course incorporates foundational knowledge and application of the topic of program evaluation as it applies to inquiry and decision making in schools and other educational settings. Semester Hours: 3 to 3

RSEM 7240 - Patterned Inquiry for Educational Administrators
This seminar provides students with a conceptual and practical basis for conducting and evaluating educational research. Its focus is on the application of research to problems of administrative practice. The seminar is also intended to prepare students for Semester Hours: 1 to 6

RSEM 7500 - Special Topics: Research and Evaluation Methods
Specific topics vary from semester to semester. Semester Hours: 1 to 6
**School Library Program Courses (SCHL)**

**SCHL 5020 - Collection Development**
Principles and practices for developing information collections to meet user needs. Includes selection, evaluation and policy and procedure development for all materials, including print, electronic technologies and multimedia. Prereq: SCHL 5530. **Semester Hours:** 3 to 3

**SCHL 5030 - Information Literacy and Reference**
Teaching, assessment, and integration of information literacy skills and educational technology standards with subject content areas. Reference collection development, policies and procedures, and use of and reference tools, including electronic resources **Semester Hours:** 3 to 3

**SCHL 5040 - Information Storage and Utilization**
Provides basic principles and practices of utilizing standard methods for organizing, accessing and storing information. Includes cataloging and classification in text-based and electronic systems. **Semester Hours:** 2 to 2

**SCHL 5100 - School Libraries in the Digital Age**
An introduction to the School Library profession, including its history, standards, organizations, and current trends. Course focuses on foundational principles and roles of school librarianship, as well as methods for developing a culturally responsive r **Semester Hours:** 4 to 4

**SCHL 5110 - Integrating Instructional Technology Practices in School Libraries**
Analyze instructional technology use in school library settings. Discuss current trends and issues related to the use of technology within schools. Emphasis integrating instructional technology that focuses on student achievement and the students' ability **Semester Hours:** 2 to 2

**SCHL 5160 - Managing School Library Programs**
Case studies in the organization and administration of school library and instructional leadership of programs and projects. Topics include project management, personnel administration, budget development, management philosophies, copyright and intellectual property **Semester Hours:** 3 to 3

**SCHL 5200 - Promoting Literature through the School Library**
Approaches the school library as a resource to promote literacy and development in children and young adults. Topics include genres of literature, methods for advising students towards appropriate reading and media resources, and the promotion of multiple **Semester Hours:** 3 to 3

**SCHL 5530 - Foundations of School Librarianship**
This course is the first course in the School Library programs and provides an overview of school librarianship. The course is designed to develop an understanding of the history of school library programs, their current place in the public school system **Semester Hours:** 2 to 2

**SCHL 5830 - School Library Workshop**
Specific content and titles vary depending upon the particular school library skills addressed in the course. **Semester Hours:** 0.5 to 4

**SCHL 5911 - School Library Field Experience-Elementary**
Provides practical experience in the management of a school library program. Includes 90 hours in an elementary school library plus instruction within an online seminar for practicum coaching and field experience goals and instructional development. Prereq **Semester Hours:** 3 to 3
SCHL 5912 - School Library Field Experience-Secondary
Provides practical experience in the management of a school library program. Includes 90 hours in a secondary (7-12) school library plus instruction within an online seminar for practicum coaching and field experience goals and instructional development. **Semester Hours:** 3 to 3

SCHL 5913 - School Library Field Experience
Field experiences in selected K-12 school libraries that meet a high professional standard. The course serves as a capstone experience for endorsement and master's degree plans and helps induct students into the School Library profession by bridging theor **Semester Hours:** 3 to 3

SCHL 6720 - Research In Information And Learning Technologies
Analyze, evaluate and interpret published research conducted in library science. Provide an introduction to qualitative and quantitative data collection and data analysis measures. A school library practitioner-based action research project will be produced **Semester Hours:** 3 to 3

SCHL 6999 - Leadership and Practice in School Libraries
Designed to be the final class in the Master's in School Libraries Program, it is a reflective examination of the nature of contemporary leadership and practice in the field and provides a structure and forum for the successful completion of the comprehe **Semester Hours:** 3 to 3
Secondary Education Courses (SECE)

SECE 4050 - Introduction to Science Teaching and Learning
Focus on conceptual development, conceptual change, collaborative learning, students' conceptions of various topics in science, practical issues encountered in facilitating learning, managing the classroom, formative and summative assessment, and different Semester Hours: 2 to 2

SECE 5050 - Introduction to Science Teaching and Learning
Focus on conceptual development, conceptual change, collaborative learning, students' conceptions of various topics in science, practical issues encountered in facilitating learning, managing the classroom, formative and summative assessment, and different Semester Hours: 2 to 2

SECE 5060 - Improvement of Instruction
Designed to assist the educator in the systematic improvement of instruction. Emphasis is on emergent knowledge related to successful classroom practices, techniques of assessment, analysis and action related to the improvement of professional skills. Cross-listed with ELED 5200. Semester Hours: 3 to 3

SECE 5200 - Classroom Management
Instructional management, physical management, and behavior management are studied as interactive components in the establishment and maintenance of an effective learning environment. Cross-listed with ELED 5200. Semester Hours: 3 to 3

SECE 5300 - Introductory Curriculum and Methods in Secondary Mathematics
Surveys secondary mathematics curriculum and methods for pre-service teachers. Topics include planning lessons, motivation, grading, constructing tests, problem solving, teaching aids, expository and discovery lessons, teaching concepts, procedures and pr Semester Hours: 3 to 3

SECE 5340 - Multicultural Science Education
This course examines literature in science education related to multicultural issues, topics will be framed by an understanding of equity in diverse, urban classrooms and how it informs curriculum and instruction. Cross-listed with ENVS 5340. Semester Hours: 3 to 3

SECE 5350 - Issues and Problems in Science Education
Recent developments in theory, curriculum, methods, and materials in secondary science, examined for their contribution to the objectives of science education. Semester Hours: 3 to 3

SECE 5400 - Curriculum in Secondary Mathematics
Investigates curriculum in middle and high school mathematics, development, history and trends, and pertinent research. Participants construct and share curriculum relevant to their interest. Semester Hours: 3 to 3

SECE 5401 - Assessment in Mathematics Education
Curriculum-based assessment covering nature of assessment and its relation to evaluation and grading; teacher-made assessments; validity and authentic assessment; techniques for assessing learning of mathematical concepts, procedures, and problem solving. Semester Hours: 3 to 3

SECE 5410 - Advanced Methods and Strategies in Secondary Mathematics
An in-depth investigation of specific methods and strategies suitable for teaching mathematics for middle and senior high schools. Participants model and share various strategies, including the expository, collaborative discovery, laboratory, and Socratic Semester Hours: 3 to 3
SECE 5411 - Mathematics Education and Gender
Investigates gender-inclusive curriculum and teaching methods, equity and assessment, mathematical life histories, women in mathematics history, women's individual development and voice, single sex programs, and gender differences. **Semester Hours:** 3 to 3

SECE 5417 - Structure of Rational Numbers
Focuses on pedagogical practices that use multiple solution strategies to examine the structure of rational numbers. The assigned problems engage elementary and secondary teachers in investigation of mathematical equivalence, properties, unitization, par **Semester Hours:** 3 to 3

SECE 5418 - Mathematical Modeling
Elementary and secondary teachers explore settings where mathematics is utilized in everyday activities. Teachers create mathematical models to describe events or situations in the world and use a variety of modeling strategies to solve problems. Prereq: **Semester Hours:** 3 to 3

SECE 5419 - Exploring the Structure of Geometry Using Technology
Develops elementary and secondary teachers' conceptual understanding of geometric properties theorems and axiomatic systems through dynamic computer software investigations. Using the software enhances and extends teachers' ability to solve complex prob **Semester Hours:** 3 to 3

SECE 5420 - Teaching Mathematics to Low Achievers
Problems and characteristics of low achievers, motivation, attitudes, scaffolding with available materials, programs for low achievers, self-esteem, mathematics laboratory and activity approach to teaching mathematics. Appropriate for all grades. **Semester Hours:** 3 to 3

SECE 5430 - Teaching Aids in Mathematics Education
Examination, production, and use of manipulative aids, audiovisual aids, and other materials for teaching mathematics. Open to elementary and secondary teachers. **Semester Hours:** 3 to 3

SECE 5440 - Topics in Mathematics Education
An in-depth study of topics such as computers, testing, learning theory and mathematics laboratories. (May be repeated as topics vary.) **Semester Hours:** 3 to 3

SECE 5460 - Secondary Social Studies Methods and Curriculum Design
Recent developments in theory and materials in the social studies are examined, and present practices are analyzed for their contribution to general goals of social studies education. Appropriate for secondary teachers and elementary teachers with a speci **Semester Hours:** 3 to 3

SECE 5464 - Teaching About Ethnicity, Race and Prejudice
Designed to introduce the nature of racial and ethnic groups, prejudice, discrimination and ethno violence. It also includes the teaching about these and related topics and deals with resolving problems of intergroup relations in schools and institutional **Semester Hours:** 3 to 3

SECE 5465 - Teaching Critical Issues in Social Studies: An Interdisciplinary Approach
An in-depth study of critical social issues related to global or international; ethnicity, race, gender and minorities; cross-cultural studies; and current societal problems. Requires an interdisciplinary approach and covers the structure of the social sc **Semester Hours:** 3 to 3
SECE 5480 - Museum Studies in Paleontology
A practical laboratory-based course covering aspects of museum studies related to paleontological collections. Students learn how to stabilize and prepare bones removed from fossil quarries; learn molding and casting techniques for bones and fossils; assi Semester Hours: 3 to 3

SECE 5490 - Middle School Curriculum
Explores the unique curriculum requirements of transient youth. Topics to be addressed include team teaching, interdisciplinary curricula, flexible scheduling, basic skills development, guidance function, fine arts, practical arts, industrial arts, career Semester Hours: 3 to 3

SECE 5500 - The Nature of Science
This course is a critical exploration of science and scientific knowledge using an epistemological approach to ask (and possibly answer) questions about sociological issues in science and implications for science research, teaching and learning. Cross-listed with ENVS 5500. Semester Hours: 3 to 3

SECE 5510 - Teacher Leadership: Theory to Reality
Working with colleagues in schools to make a difference as a team member and a change agent requires knowledge and skills that are "more than teachers, yet different from administrators" (Danielson, 2006). This course will provide teachers with skill buil Semester Hours: 3 to 3

SECE 5520 - Teacher Leadership: Essential Knowledge
Teacher leaders need expertise about what constitutes a quality curriculum and how best to guide others to develop lessons with assessments that reflect essential standards. They use culturally responsive and differentiated teaching strategies to assure t Semester Hours: 3 to 3

SECE 5530 - Teacher Leadership: Vital Skills
Teacher leaders need skills in collaboration, facilitation and coaching in order to work with colleagues in ways that will optimally impact student learning. This course will provide theory and practice in models of adult learning, professional developmen Semester Hours: 3 to 3

SECE 5540 - Foundations of School Health Education
This course is an overview of the principles of behavior theory as they relate to health education in both theory and practice. The course will examine the characteristics of effective school-based health education programs. Issues of ethnicity, cultur Semester Hours: 3 to 3

SECE 5550 - Curriculum Materials in Health Education
This course will support the application of behavior theory as it applies to specific health content knowledge and skills. Special attention will be given to the skills, instructional strategies, and techniques needed to develop a culturally responsive Semester Hours: 3 to 3

SECE 5560 - Health Education Teaching Practices
The course provides an overview of health education teaching and learning strategies for use in school settings. Action research will be introduced and utilized as a method to examine current teaching practices. Role-play, student assessment devel Semester Hours: 3 to 3

SECE 5650 - Environmental Education
Theory and practice of conservation education, which include use of resource personnel and the study of curricular and instructional development. Field experiences are incorporated. Primarily oriented to elementary and junior high school. Semester Hours: 3 to 3
SECE 5660 - Energy Education
Explores current energy problems. Students examine such topics as fuels from plants, fuels from wastes, fossil fuels, nuclear energy, wind energy, geothermal energy, solar energy and energy conservation. Included is a demonstration of available educational resources. **Semester Hours:** 3 to 3

SECE 5780 - Storytelling
Explores the history, function, philosophy, and techniques of storytelling. This class also includes collecting, selecting, preparing, developing, and delivering stories. Research and resources are emphasized. Cross-listed with ELED 5780. **Semester Hours:** 1 to 4

SECE 5800 - Curriculum Workshop for Secondary Teachers
Opportunity to construct curriculum relevant to teachers' interests. Topics and credit hours vary. **Semester Hours:** 0.5 to 4

SECE 5840 - Independent Study: SECE
**Semester Hours:** 1 to 4

SECE 5910 - Advanced Practicum in Teaching
This course is not to be used as independent study, but is to be used by students approved in advance by the director of teacher education. This course fulfills the student teaching requirement for students seeking a second endorsement. Prereq: Permission **Semester Hours:** 1 to 4

SECE 5920 - Readings in Secondary Education
**Semester Hours:** 1 to 4

SECE 5930 - Internship in Secondary Education
**Semester Hours:** 3 to 3

SECE 5950 - Master's Thesis
**Semester Hours:** 1 to 8

SECE 6100 - Seminar in Secondary Education
Students work on individual topics and report orally and in writing. Prereq: Permission of instructor. **Semester Hours:** 3 to 3

SECE 6110 - Science and Math Curriculum Studies
Students examine frameworks for curriculum design, discuss the psychological and philosophical foundations of curricula, and analyze the curriculum that they use in their own teaching. Students synthesize what teachers must do in order to effectively imp **Semester Hours:** 3 to 3

SECE 6120 - International Perspectives on the Curriculum
Considers schooling patterns in the U.S., the U.K., Japan, Australia, and several European countries, examining different approaches to curriculum issues in relation to social, historical, and economic factors. Prereq: FNDS 5500 or permission of instructor **Semester Hours:** 3 to 3

SECE 6840 - Independent Study: SECE
**Semester Hours:** 1 to 4
SECE 6910 - Geology Field Study in Hawaii for Teachers
Integrated summer field study course in Hawaii with emphasis on science education. Topics include: structural geology/volcanism, marine biology or oceanography, botany, natural energy, astronomy and human interaction. Participants are involved in hands-on Semester Hours: 3 to 3

SECE 6950 - Master’s Thesis
Semester Hours: 4 to 4
**Social Justice Courses (SJUS)**

**SJUS 2000 - Democratic Participation and Social Justice**
Examines how well the United States, Colorado and Denver are doing in addressing issues of social justice, such as inequality and environmental degradation. Explores various modes of democratic participation -- electoral politics, community activism, and lifestyle changes -- in advancing social justice. **Semester Hours:** 3 to 3

**SJUS 2010 - Social Justice: Theories, Narratives, and Technologies**
How can citizens of a democracy address social justice issues? This course examines theoretical perspectives relevant to social justice, the narratives which express and question social order, and the technologies which alternately shape and reflect local, regional, and global cultures. **Semester Hours:** 3 to 3

**SJUS 3939 - Internship**
Internship/experiential learning involving work in the community that is centered upon social justice and which includes a reflective component and some type of public dissemination. Prereq: Junior or senior standing and 3.0 GPA. **Semester Hours:** 3 to 3

**SJUS 4000 - Social Justice Capstone**
Students design and carry out research projects that address important civic issues in collaboration with community partners and present their findings to the partners and academic community. This course also involves reflection on social justice means and goals. Prereq: Junior standing. **Semester Hours:** 3 to 3

**SJUS 4840 - Independent Study**
**Semester Hours:** 3 to 3
Sociology Courses (SOCY)

**SOCY 1001 - Introduction to Sociology**
A survey course in which the main concepts that define the sociological perspective are presented, and a picture of society is provided by examining major social institutions and forms of social organization within society. **Semester Hours:** 3 to 3

**SOCY 1050 - Analysis of Modern Society**
Examines various sociological views of modern society, including those of Lundberg, Mills, Riesman, Goffman, Sorokin, Cohen and others. **Semester Hours:** 3 to 3

**SOCY 1111 - Freshman Seminar**
**Semester Hours:** 1 to 3

**SOCY 2462 - Introduction to Social Psychology**
Studies the development and functioning of persons, especially within a group context, and the dynamics of small groups. Emphasis is on import of symbols for human behavior, development of self-concepts, and the processes of competition and cooperation in group dynamics. **Semester Hours:** 3 to 3

**SOCY 3001 - Urban Sociology**
The city and urban society are examined in terms of social structure, residential and institutional patterning, process of interaction, demographic processes, and patterns of growth and change. Prereq: SOCY 1001 or permission of instructor. Cross-listed with ETST 3001. **Semester Hours:** 3 to 3

**SOCY 3010 - Sociology of Human Sexuality**
Increases the understanding of differences in views of sexuality, specifically the link between sex and reproduction and its role as the motivation for gender roles and sex acts. Explores the history of sexuality, cross-cultural studies and primate modeling. Cross-listed with WGST 3010. **Semester Hours:** 3 to 3

**SOCY 3020 - Race and Ethnicity in the U.S.**
A sociological examination of race and ethnicity in contemporary U.S. society. Includes a focus on the nature and causes of prejudice and discrimination. Dominant-minority relations are examined, with an emphasis on current status of minority groups and issues. Prereq: Six hours of social science. **Semester Hours:** 3 to 3

**SOCY 3030 - Social Change**
Process of change in Western societies and its effects on the individual, communities, and economic and political institutions. Prereq: SOCY 1001 or permission of the instructor. **Semester Hours:** 3 to 3

**SOCY 3040 - Drugs, Alcohol & Society**
Explores our culture’s relationship with drugs and alcohol from a sociological perspective, investigating all spheres of substance use: recreational, medicinal, instrumental & religious. Examines our long turbulent history with these chemicals, and the ways in which they have shaped our society. **Semester Hours:** 3 to 3

**SOCY 3050 - Sociology of Education**
Topics covered include school socialization, A.D.D. diagnoses and drugs, special education, effects of standardized testing, race, ethnicity, gender, poverty in schools, public policies and funding, teacher burnout, student aspirations, secondary education and local issues in education. Prereq: SOCY 1001 or permission of the instructor. **Semester Hours:** 3 to 3
SOCY 3080 - Sex and Gender
Causes and consequences of sex role differentiation at the individual, group and societal levels. Current issues related to changing norms and values concerning gender in modern society are examined. Cross-listed with WGST 3080. **Semester Hours:** 3 to 3

SOCY 3111 - Research Methods
Design of social research. Application of statistical techniques and procedures to social phenomena. Prereq: SOCY 1001 or permission of the instructor. **Semester Hours:** 3 to 3

SOCY 3121 - Statistics
Quantitative techniques used in analyzing social phenomena. Prereq: MATH 1070 or permission of the instructor. **Semester Hours:** 4 to 4

SOCY 3150 - History of Sociological Theory
An analysis of the major contributions and determinants of earlier social analysts to present-day social thought and analysis of pertinent sociological issues. Prereq: Junior standing. **Semester Hours:** 3 to 3

SOCY 3160 - Contemporary Sociological Theory
The explication of various conceptual approaches to the problems of social order, societal functioning and integration, social conflict, and social structural change by the examination of the work of contemporary theorists. Prereq: SOCY 3150 or permission of the instructor. **Semester Hours:** 3 to 3

SOCY 3297 - Social History of Asian Americans
Introductory-level course surveys the social history of Asian American groups from the mid-19th century to the present. Examines immigration patterns, the development of communities, social and economic problems, and anti-Asian movements and activities. Cross-listed with ETST 3297. **Semester Hours:** 3 to 3

SOCY 3300 - Advanced Social Problems
Social problems are the subject of controversy, such as that surrounding controversy may swirl around definitions (e.g., the social net and the poverty line), around degree of seriousness, about "causes," and inevitably about solutions. Controversy also centers on the "proper" role of the social theorist and social scientist, observer only or activist as well? While other disciplines study social problems, they are the very heart of the sociology perspective, and the wellspring of sociological inquiry. **Semester Hours:** 3 to 3

SOCY 3440 - Medical Sociology
This course covers key issues in population health and emphasizes how sociological perspectives both challenge and augment biomedical perspectives on health and health care. We also discuss the social causes and consequences of race/ethnic, sex, and socioeconomic disparities in health. Cross-listed with PBHL 3440. **Semester Hours:** 3 to 3

SOCY 3460 - The Social Psychology of Intergroup Relations
Study of those aspects of human interaction which deal with individuals perceiving themselves, and/or being perceived by others, as members of a social category. Focuses on the dynamics of intergroup conflicts--how they arise, what course they may take, and how they might be resolved. Prereq: Six hours of sociology, psychology, or any combination of the two. **Semester Hours:** 3 to 3

SOCY 3490 - Criminology
Theories, nature and causes of crime as a social phenomenon. Processes of making laws, breaking laws, and reaction toward the breaking of laws. **Semester Hours:** 3 to 3
SOCY 3500 - Topics in Sociology
Special topics in sociology to be selected by the instructor. Note: Can be taken more than once when topics vary. Semester Hours: 1 to 3

SOCY 3510 - Topics in Sociology
Semester Hours: 1 to 3

SOCY 3520 - Topics in Sociology
Semester Hours: 1 to 3

SOCY 3530 - Topics in Sociology
Semester Hours: 1 to 3

SOCY 3540 - Topics in Sociology
Semester Hours: 1 to 3

SOCY 3550 - Topics in Sociology
Semester Hours: 1 to 3

SOCY 3560 - Death and Dying
Designed to examine the attitudes, customs, and institutions related to death and dying in contemporary American society. Several theoretical approaches from a sociological perspective are utilized, as well as historical and cross-cultural data. Semester Hours: 3 to 3

SOCY 3600 - Social Relations
The course has two aims: first, to improve the student's abilities to observe, analyze, and understand his own behavior and that of others in everyday interpersonal situations; and second, to improve his ability to see the small group as a social system. The student is expected to demonstrate his abilities by effective participation in his group as well as in periodic written analyses. Prereq: Junior standing or permission of the instructor. Semester Hours: 3 to 3

SOCY 3650 - Sociology of Music
Focuses on the meaning/use of music in society. Explores censorship, organization of the recording industry, sociocultural contexts in which music is produced/distributed/listened to and the relationship between music and technology along with musical applications and associations. Semester Hours: 3 to 3

SOCY 3700 - Sociology of the Family
The family as a social institution. Historical development and contemporary cross-cultural analysis, with emphasis on the contemporary American family. Cross-listed with WGST 3700. Semester Hours: 3 to 3

SOCY 3710 - Sociology of Global Issues
Social issues such as race relations, social inequality, urbanization, family dynamics and global competition are examined using different theoretical perspectives. Existing policies are used to study "private troubles" and "public issues" and the relationships among global, national and local levels. Prereq: SOCY 1001 or undergraduate advisor's permission. Semester Hours: 3 to 3

SOCY 3840 - Independent Study: SOCY
Semester Hours: 1 to 3
SOCY 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

SOCY 4040 - Social Determinants of Health
This course explores social inequalities in physical and mental health, the illness experience, the healing professions, health policy, relations between providers and patients, and the structure, access to, and financing of health care organizations, with **Semester Hours:** 3 to 3

SOCY 4101 - Applied Statistics Using SAS and SPSS I
Teaches the practical statistical tools social scientists use to analyze real-world problems. Split into four modules, each taught by a different instructor. The first module introduces SAS and SPSS; modules 2-4 are problem-based and cover topics such as Anova, multivariate regression, and cluster analysis. Prereq: SOCY 3121 or permission of the instructor. **Semester Hours:** 3 to 3

SOCY 4102 - Applied Statistics Using SAS and SPSS II
Students use the skills they learned in the previous semester to analyze a social issue of their choosing and present their findings. Note: A continuation of SOCY 4101. In addition to lectures, weekly one-on-one meetings between faculty and students are required. Prereq: SOCY 4101. **Semester Hours:** 3 to 3

SOCY 4110 - Sociology of Health Care
Examines the health care institutions of the United States. Issues such as the rising cost, the effect of class, racial and gender inequality, the professionalization and monopolization of roles, the current restructuring, construction of illness and health, managed care, health care for profit and ethics of health care decisions. Cross-listed with SOCY 5110. **Semester Hours:** 3 to 3

SOCY 4120 - Popular Culture and the American Family
A course in family sociology in which the ways the American family is portrayed in the mass media and popular culture are studied. Even though the historical evolution of this reciprocal relationship is not ignored, the focus is on today's relevant issues. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5120. **Semester Hours:** 3 to 3

SOCY 4220 - Population Change and Analysis
Concepts of population change, methods of analysis, and applications to contemporary social issues. Topics include age and sex distributions, fertility, mortality, and migration, and the social causes and consequences of these phenomena. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5220. **Semester Hours:** 3 to 3

SOCY 4280 - Urban Social Space
The city simultaneously attracts and repulses us. It has openness and beauty; it is also cramped, crowded, and ugly. The city provides us with freedoms undreamed of in other times and places, yet it restricts our movements and activities. This course examines how different professionals have viewed the city, with particular attention to the spaces in the city. Both social and physical spaces are discussed. Prereq: SOCY 1001 or permission of the instructor. **Semester Hours:** 3 to 3

SOCY 4290 - Aging, Society and Social Policy
The role of the aged in today's society. Emphasizes interrelationships of the aged with the family, community, work, retirement and leisure. Prereq: Junior standing or permission of the instructor. **Semester Hours:** 3 to 3
**SOCY 4340 - Juvenile Delinquency**
Factors involved in delinquent behavior. Problems of adjustment of delinquents, and factors in treatment and post-treatment adjustment. Prereq: 6 hours of sociology or criminal justice or permission of the instructor. **Semester Hours:** 3 to 3

**SOCY 4440 - Social Inequality**
Investigates the distribution of wealth, income, social class and economic power in the United States with a focus on social institutions and factors that shape inequality. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5440. **Semester Hours:** 3 to 3

**SOCY 4460 - Hate Groups and Group Violence**
Social sciences help us understand the phenomena of hate groups and group violence and contribute toward their elimination. Examples are examined using theoretical perspectives on different levels of analysis and within different areas of research. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5680. **Semester Hours:** 3 to 3

**SOCY 4475 - Self and Identity**
A course in social psychology focusing on individuals in social interaction. Focuses on self-conception, identity presentation of self, and self and emotion management. Major theories and research in social psychology literature are examined. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5475. **Semester Hours:** 3 to 3

**SOCY 4510 - Advanced Study of Social Change**
Historical change of societies from one epoch to another (e.g., from feudalism to capitalism) and from one stage to another (e.g., competitive capitalism to monopoly capitalism), with focus on attendant social processes such as development of the working class, the rise of the corporation, the expanding role of the state, the irrationality of growth, and economic crises and imperialism. Prereq: SOCY 1001 or permission of the instructor. **Semester Hours:** 3 to 3

**SOCY 4520 - Collective Behavior**
Social, cultural, and psychological factors affecting behavior in unpredictable situations. An in-depth analysis of social change through such phenomena as riots, crowds, publics and social movements. Prereq: SOCY 1001 or permission of the instructor. **Semester Hours:** 3 to 3

**SOCY 4610 - Sociology of Religion**
An intensive review and analysis of the fundamental tenets of religion as a social institution, with emphasis on present-day religious cults, their beliefs and activities in society. Prereq: SOCY 1001 or permission of the instructor. Cross-listed with SOCY 5610, RLST 4020, 5020. **Semester Hours:** 3 to 3

**SOCY 4640 - Sociology of Childhood and Adolescence**
An in-depth overview of the theories and research regarding the life course understanding of infancy, childhood and adolescence. Children's lives and cultures in relation to adults and their transition from childhood to adolescence are studied. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5640. **Semester Hours:** 3 to 3

**SOCY 4650 - Sociology of Adulthood and Aging**
An in-depth overview of the theories and research using the life course understanding of adulthood and aging. Adult's lives, transition from adulthood to elderly status, and social policy issues are also studied. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5650. **Semester Hours:** 3 to 3
SOCY 4690 - Crime and Inequality Over the Life Course
A life-course perspective on issues of inequality and crime. Studies transitions, trajectories and turning points as key features of the life course. Considers how life inequalities and criminal behavior are shaped by the timing of experiences, historical and geographic contexts, other people’s lives, and human agency. **Semester Hours:** 3 to 3

SOCY 4700 - Sociology of Law
Consideration of the formulation, interpretation, and legitimacy of legal rules within the context of social organization. The examination of a major social institution in modern society. **Semester Hours:** 3 to 3

SOCY 4770 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5770. **Semester Hours:** 3 to 3

SOCY 4771 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5771. **Semester Hours:** 3 to 3

SOCY 4772 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5772. **Semester Hours:** 3 to 3

SOCY 4773 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5773. **Semester Hours:** 3 to 3

SOCY 4774 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 5774. **Semester Hours:** 3 to 3

SOCY 4780 - Violence in Relationships
Course focuses on the study of violence among individuals involved in intimate relationships; factors in society such as norms, laws and institutions that are related to creating violence among intimates; and social policies, prevention, intervention and treatment programs. Prereq: SOCY 1001, or a social science course. Cross-listed with SOCY 5780. **Semester Hours:** 3 to 3

SOCY 4831 - Senior Seminar
Seminar for senior sociology majors considering important concepts, issues, and problems in sociology. Prereq: Junior standing and SOCY 1001. **Semester Hours:** 3 to 3

SOCY 4840 - Independent Study: SOCY
**Semester Hours:** 1 to 3
**SOCY 4910 - Research Practicum**
Practical experiences for undergraduates in application of principles of research design and data processing to a social research problem selected by the instructor. Prereq: Permission of instructor required. **Semester Hours:** 1 to 3

**SOCY 5000 - Professional Seminar: Sociological Inquiry**
Orients new graduate students to key elements of graduate and professional levels of sociological inquiry. Topics include analyses of basic theoretical and epistemological issues, the history and contemporary development of the discipline, essential research programs and an introduction to faculty research. **Semester Hours:** 3 to 3

**SOCY 5014 - Classical Sociological Theory**
Examines the emergence and development of sociological ideas, concepts, and principles. Introduces students to the historical and social contexts in which theories of society are instituted. Particular attention is paid to the importance of and implication to contemporary sociology made by classical sociologists such as Durkheim, Marx, and Weber. Prereq: SOCY 4150. **Semester Hours:** 3 to 3

**SOCY 5015 - Contemporary Sociological Theory**
The explication of various conceptual approaches to the problem of social order, societal functioning and integration, social conflict, and social structural change by the examination of the work of contemporary theorists. Note: Required for M.A. students in sociology. Prereq: Must have successfully completed an undergraduate course in contemporary sociological theory and SOCY 5014. **Semester Hours:** 3 to 3

**SOCY 5024 - Seminar: Research Methods I**
Problems and procedures in research design, data collection and processing. Note: Required for M.A. graduate students in sociology. **Semester Hours:** 3 to 3

**SOCY 5040 - Social Determinants of Health**
This course explores social inequalities in physical and mental health, the illness experience, the healing professions, health policy, relations between providers and patients, and the structure, access to, and financing of health care organizations, with some cross-national discussions. Prereq: Graduate standing. Cross-listed with SOCY 4040, PBHL 4040, HBSC 4040/5040. **Semester Hours:** 3 to 3

**SOCY 5110 - Sociology of Health Care**
Examines the health care institutions of the United States. Issues such as the rising cost, the effect of class, racial and gender inequality, the professionalization and monopolization of roles, the current restructuring, construction of illness and health, managed care, health care for profit and ethics of health care decisions. Cross-listed with SOCY 4110. **Semester Hours:** 3 to 3

**SOCY 5120 - Popular Culture and the American Family**
A course in family sociology in which the ways American family is portrayed in the mass media and popular culture are studied. Even though the historical evolution of this reciprocal relationship is not ignored, the focus is on today's relevant issues. Cross-listed with SOCY 4120. **Semester Hours:** 3 to 3

**SOCY 5183 - Seminar: Quantitative Data Analysis**
A research-oriented seminar stressing the utilization of social data already collected in the test or generation of sociological theory. Note: Required for M.A. graduate students in sociology. **Semester Hours:** 3 to 3
SOCY 5220 - Population Change and Analysis
Concepts of population change, methods of analysis, and applications to contemporary social issues. Topics include age and sex distributions, fertility, mortality, and migration, and the social causes and consequences of these phenomena. Cross-listed with SOCY 4220. **Semester Hours:** 3 to 3

SOCY 5430 - Societies in Transition
A description and analysis of changing social structures and social relationships as a response to technological innovation and change. **Semester Hours:** 3 to 3

SOCY 5440 - Social Inequality
Investigates the distribution of wealth, income, social class and economic power in the United States with a focus on social institutions and factors that shape inequality. Prereq: Junior standing or permission of the instructor. Cross-listed with SOCY 4440. **Semester Hours:** 3 to 3

SOCY 5475 - Self and Identity
A course in social psychology focusing on individuals in social interaction. Focuses on self-conception, identify presentation of self, and self and emotion management. Major theories and research in social psychology literature are examined. Cross-listed with SOCY 4475. **Semester Hours:** 3 to 3

SOCY 5480 - Graduate Special Topics
**Semester Hours:** 1 to 3

SOCY 5500 - Graduate Special Topics
**Semester Hours:** 1 to 3

SOCY 5550 - Seminar: Sociology of the Family
An intensive review and analysis of the family as a social institution. **Semester Hours:** 3 to 3

SOCY 5610 - Sociology of Religion
An intensive review and analysis of the fundamental tenets of religion as a social institution, with emphasis on present-day religious cults, their beliefs and activities in society. Cross-listed with SOCY 4610, RLST 4020, 5020. **Semester Hours:** 3 to 3

SOCY 5640 - Sociology of Childhood and Adolescence
An in-depth overview of the theories and research regarding the life course understanding of infancy, childhood and adolescence. Children's lives and cultures in relation to adults and their transition from childhood to adolescence are studied. Cross-listed with SOCY 4640. **Semester Hours:** 3 to 3

SOCY 5650 - Sociology of Adulthood and Aging
An in-depth overview of the theories and research using the life course understanding of adulthood and aging. Adult's lives, transition from adulthood to elderly status, and social policy issues are also studied. Cross-listed with SOCY 4650. **Semester Hours:** 3 to 3

SOCY 5660 - Seminar: Social Psychology
Sociological approaches to the study of the self, role theory, persons in situations, identifications, socialization, and other characteristics of persons in society. **Semester Hours:** 3 to 3
SOCY 5680 - Hate Groups and Group Violence
Social sciences help us understand the phenomena of hate groups and group violence and contribute toward their elimination. Examples are examined using theoretical perspectives on different levels of analysis and within different areas of research. Cross-listed with SOCY 4460. Semester Hours: 3 to 3

SOCY 5690 - Crime and Inequality Over the Life Course
A life-course perspective on issues of inequality and crime. Studies transitions, trajectories and turning points as key features of the life course. Considers how life inequalities and criminal behavior are shaped by the timing of experiences, historical and geographic contexts, other people’s lives, and human agency. Semester Hours: 3 to 3

SOCY 5750 - Seminar: Criminology
An intensive review and analysis of the literature and research dealing with sociology of crime in modern society. Semester Hours: 3 to 3

SOCY 5770 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Cross-listed with SOCY 4770. Semester Hours: 3 to 3

SOCY 5771 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Cross-listed with SOCY 4771. Semester Hours: 3 to 3

SOCY 5772 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Cross-listed with SOCY 4772. Semester Hours: 3 to 3

SOCY 5773 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Cross-listed with SOCY 4773. Semester Hours: 3 to 3

SOCY 5774 - Advanced Topics in Sociology
Advanced study of special topics in sociology to be selected by the instructor. Note: May be repeated for credit when topics vary. Cross-listed with SOCY 4774. Semester Hours: 3 to 3

SOCY 5780 - Violence in Relationships
Course focuses on the study of violence among individuals involved in intimate relationships; factors in society such as norms, laws and institutions that are related to creating violence among intimates; and social policies, prevention, intervention and treatment programs. Prereq: SOCY 1001, or a social science course. Cross-listed with SOCY 4780. Semester Hours: 3 to 3

SOCY 5840 - Independent Study: SOCY
Semester Hours: 1 to 3

SOCY 5910 - Research Practicum
Semester Hours: 1 to 3

SOCY 5920 - Guided Readings in Sociology
Semester Hours: 1 to 3
**SOCY 5930 - Internship in Sociology**  
**Semester Hours:** 1 to 6

**SOCY 5939 - Internship**  
**Semester Hours:** 1 to 6

**SOCY 5955 - Master’s Thesis**  
**Semester Hours:** 1 to 6

**SOCY 5964 - Master’s Report**  
**Semester Hours:** 1 to 3
Spanish Courses (SPAN)

SPAN 1000 - Introduction to Cultures of the Spanish Speaking World
Introduces students to the Spanish-speaking cultures of Spain, Latin America, and the United States through a historical overview and a focus on contemporary politics and culture. Note: Taught in English. **Semester Hours:** 3 to 3

SPAN 1010 - Beginning Spanish I
Introduces basic Spanish pronunciation and grammar, useful vocabulary and idioms. Readings and class discussions relating to the Hispanic world. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. **Semester Hours:** 5 to 5

SPAN 1011 - Intensive Spanish
SPAN 1011/1021 combines both semesters of the first year, and meets the needs of highly motivated students of the language and culture. Prereq: Students having studied Spanish previously should not enroll in SPAN1011/1021 without first consulting a department advisor. Cross-listed with SPAN 1011. **Semester Hours:** 5 to 5 **When Offered:** SUMMER

SPAN 1020 - Beginning Spanish II
(Continuation of SPAN 1010.) Further development of listening, speaking, reading and writing skills. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: SPAN 1010 with grade of ’C’ (2.0) or higher. **Semester Hours:** 5 to 5

SPAN 1021 - Intensive Spanish
SPAN 1011/1021 combines both semesters of the first year, and meets the needs of highly motivated students of the language and culture. Prereq: Students having studied Spanish previously should not enroll in SPAN 1011/1021 without first consulting a department advisor. Cross-listed with SPAN 1011. **Semester Hours:** 5 to 5 **When Offered:** SUMMER

SPAN 1111 - Freshman Seminar
**Semester Hours:** 1 to 3

SPAN 1995 - Travel Study
For students doing travel study in a Spanish-speaking country; register through the Office of International Education. **Semester Hours:** 1 to 15

SPAN 2110 - Second Year Spanish I
Continues the development of skills acquired in 1010 and 1020. Readings deal with Hispanic culture and current topics from Spain and Latin America. Development of informal oral and written expression. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: SPAN 1020 with a grade of ’C’ (2.0) or higher. **Semester Hours:** 3 to 3
SPAN 2120 - Second Year Spanish II
Continues the development of skills acquired in SPAN 1010, 1020 and 2110, together with a review of grammar. Readings deal with Hispanic culture and literature. Development of informal oral and written expression. SPAN 2120 satisfies the fourth-semester language requirement at most graduate schools. Note: Students may not enroll in any lower division (1000/2000) language skills course in which their level of proficiency exceeds that of the course. Students placing into a course through any means other than following the regular sequence must consult with an appropriate faculty member of the Dept. of Modern Languages prior to enrollment. Prereq: SPAN 2110 with a grade of 'C' (2.0) or higher. Semester Hours: 3 to 3

SPAN 2125 - Spanish for Heritage Speakers I
Designed for native speakers with strong oral skills, but who need extra attention to writing, reading comprehension, grammatical knowledge and the vocabulary of formal Spanish. Complements and builds on the students' heritage language skills. Prereq: Native oral ability in Spanish. Semester Hours: 3 to 3

SPAN 2126 - Spanish for Heritage Speakers II
Continuation of SPAN 2125, designed for native speakers with strong oral skills, but who need extra attention to writing and grammatical knowledge and the vocabulary of formal Spanish. Compliments and builds on the students' heritage language skills. Prereq: SPAN 2125 or placement; native oral ability in Spanish. Semester Hours: 3 to 3

SPAN 2130 - Current Topics in the Spanish-Speaking World
A fourth-semester course (parallel to 2120) designed for students majoring or minoring in international affairs, but open to anyone wishing to continue the study of Spanish beyond 2110. Along with development of language skills and grammar review, class work involves contemporary topics in cultural, political, economic and social affairs. Prereq: SPAN 2110 with a grade of 'C' (2.0) or higher or placement exam. Semester Hours: 3 to 3

SPAN 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: 15 hours of 2.75 GPA. Semester Hours: 1 to 3

SPAN 2995 - Travel Study
For students doing travel study in a Spanish-speaking country; register through the Office of International Education. Semester Hours: 1 to 15

SPAN 3010 - Advanced Conversation and Composition I
Expansion and reinforcement of oral and written skills in Spanish at an advanced level, in a broad cultural context. Oral activities are individual and in groups. Topics are introduced through oral activities, and are then used for written assignments. Prereq: SPAN 2120 or 2130. Semester Hours: 3 to 3

SPAN 3020 - Advanced Conversation and Composition II
(Continuation of SPAN 3010.) Development of oral and written skills in Spanish in preparation for taking other advanced courses. Topics of increasing complexity are selected from current publications in Spanish. Prereq: SPAN 3010. Semester Hours: 3 to 3

SPAN 3060 - Hispanic Phonetics: Theory and Practice
Explores the phonetics of spoken Spanish throughout the world. Theoretical content: classification of all Spanish sounds and how they are affected and change according to their phonetic environment and
region. Practical features: pronunciation and strategies teaching English speakers to pronounce Spanish. Prereq: SPAN 3010 or upper division standing in Spanish. **Semester Hours:** 3 to 3

**SPAN 3070 - Bilingual Communities: Spanish as a Language of Contact**
Explores bilingualism by tracing the series of linguistic and ethnic contacts that converted Castilian from a Latin dialect to the language of the Spanish empire, the primary language of Latin America, and a fast-growing language in the United States. Prereq: SPAN 3010 for majors, or permission of instructor for non-majors. **Semester Hours:** 3 to 3

**SPAN 3073 - Bilingual Communities: Spanish in a Global Setting**
Taught in English; no major or minor credit. Studies Spanish as a language of contact. Emphasis is placed on Spanish in the United States, as well as bilingualism in Spain and Latin America. **Semester Hours:** 3 to 3

**SPAN 3082 - Introduction to Translation I**
The first course in a two-semester sequence that introduces the methodology and practice of written translation. Thorough analysis of source texts precedes translation into target language. Students must demonstrate third-year competence in Spanish and advanced writing skills in English. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3

**SPAN 3092 - Introduction to Translation II**
Second course in a two-semester sequence (see SPAN 3082). Prereq: SPAN 3082, upper division standing in Spanish, or permission of instructor. **Semester Hours:** 3 to 3

**SPAN 3100 - Culture and Civilization of Spain**
Surveys the development of Spanish civilization -- the social, political, economic, religious, literary, and artistic life of Spain--within the framework of the Western tradition, and its later dissemination in the New World. Note: Taught in English; no major or minor credit. Prereq: Minimum of sophomore standing. **Semester Hours:** 3 to 3

**SPAN 3212 - Spanish American Culture and Civilization**
Surveys the social, political, economic, religious, literary, and artistic life of Spanish America from the conquest to the present. Note: Taught in Spanish for major and minor credit. Prereq: SPAN 2120 or 2130. **Semester Hours:** 3 to 3

**SPAN 3213 - Contemporary Latin American Culture and Institutions**
Introduction to contemporary Latin American culture and institutions, with emphasis on the social, economic and political institutions of Spanish-speaking countries. Prereq: SPAN 2120 or 2130. **Semester Hours:** 3 to 3

**SPAN 3221 - Culture and Civilization of Spain I**
From prehistoric times through Phoenician, Greek, Roman, and Visigothic eras to the Moorish invasion in 711; the Arab period; the Reconquest; the Catholic Kings; the Imperial Period; and the Inquisition. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3

**SPAN 3222 - Culture and Civilization of Spain II**
(Continuation of 3221.) Studies the social, intellectual, and artistic development of Spain from the time of the Bourbons (18th century) through the civil war of 1936, and the Franco regime to the restoration of democracy under Juan Carlos I and the present day. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3
SPAN 3223 - Contemporary Spanish Culture and Institutions
A study of contemporary Iberian culture, including an emphasis on modern business institutions and practices. This course can be applied to any Spanish major track but is specifically required for the International Language and Culture for the Professions track. Prereq: SPAN 2120 or 2130. **Semester Hours:** 3 to 3

SPAN 3225 - Special Topics In Hispanic Culture
Variable topics in advanced studies in Spanish and Latin American culture. Prereq: SPAN 2120 or 2130. **Semester Hours:** 3 to 3

SPAN 3230 - Ibero-American Cultures through Film
A study of the Ibero-American cultures through their most representative films. Films will be windows to access the complexities and the contradictions lived in Ibero-American countries regarding a set of contemporary issues, such as violence, linguistic diversity, religious beliefs, sexuality, politics, history, social class, and globalization. Prereq: SPAN 2120 or SPAN 2130, or consent of the instructor. **Semester Hours:** 3 to 3

SPAN 3252 - Introduction to the Study of Literature
The basic terms and skills needed to analyze both the themes and form of literary works, together with an introduction to research skills. All literary examples come from Hispanic literature. Note: SPAN 3252 is a prerequisite (previous or concurrent) to all other literature courses taught in Spanish. Prereq: SPAN 2120 or 2130 (or equivalent). **Semester Hours:** 3 to 3

SPAN 3300 - Twentieth Century Spanish Literature
The literature of Spain from the beginning of the 20th century to the present through short stories, novels, poems and plays. Prereq or coreq: SPAN 3252. **Semester Hours:** 3 to 3

SPAN 3310 - Spanish Writing and Grammar I
A close study of the structure of the language and practice in its written use. Note: Recommended for those intending to teach Spanish at the secondary level. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3

SPAN 3400 - Survey of Spanish Literature I
The most important works in the literature of Spain from the early Hispano-Arabic lyric poems through the golden age of the 17th century. Prereq or coreq: SPAN 3252. **Semester Hours:** 3 to 3

SPAN 3410 - Survey of Spanish Literature II
The most important works in the literature of Spain from the 18th century to the present. Prereq or coreq: SPAN 3252. **Semester Hours:** 3 to 3

SPAN 3510 - Survey of Spanish American Literature II
The most important works in the literature of Spanish America from the late 19th century to the present. Prereq or coreq: SPAN 3252. **Semester Hours:** 3 to 3

SPAN 3550 - Spanish American Short Story
The Spanish American short story from its beginnings in the romantic period of the 19th century to the present. Prereq or Coreq: SPAN 3252. **Semester Hours:** 3 to 3
SPAN 3700 - Spanish for International Business I
Development of proficiency in oral and written Spanish as used in business and industry throughout the Hispanic world, together with an increased awareness of social, economic, and political conditions affecting business transactions, particularly in long-term operations. Prereq: Upper division standing in Spanish. **Semester Hours:** 3 to 3

SPAN 3710 - Spanish for International Business II
(Continuation of SPAN 3700.) Further development of oral and written language proficiency, together with further examination of pertinent social, economic, and political conditions of the Hispanic world. Prereq: Upper division standing in Spanish; SPAN 3700 desirable. **Semester Hours:** 3 to 3

SPAN 3730 - Special Topics in Spanish for International Business
Variable topics not otherwise covered sufficiently in regular courses. Note: May be taken more than once, provided that the topic is different each time. Prereq: SPAN 3700. **Semester Hours:** 3 to 3

SPAN 3830 - Topics in Spanish Literature
Varying topics in Hispanic literature for students not able to read Spanish well. Note: Taught in English; no major or minor credit. May be taken more than once, provided that the topic is different each time. **Semester Hours:** 3 to 3

SPAN 3840 - Independent Study: SPAN
**Semester Hours:** 1 to 3

SPAN 3841 - Independent Study: SPAN
**Semester Hours:** 1 to 3

SPAN 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Junior standing and 2.75 GPA. **Semester Hours:** 1 to 3

SPAN 3970 - Topics in Spanish Literature
Varying topics in Hispanic literature appropriate the 3000 level, not otherwise covered by regular courses. Note: Taught in Spanish for major and minor credit. May be taken more than once, provided that the topic is different each time. Prereq: SPAN 3252. **Semester Hours:** 3 to 3

SPAN 3995 - Travel Study
For students doing travel study in a Spanish-speaking country; register through the Office of International Education. **Semester Hours:** 1 to 15

SPAN 4010 - History of the Spanish Language
Studies the history of the Spanish language, both internal and external, from the language's Latin roots to the present. Historical phonetics are emphasized, though all features of the language are discussed. Prereq for SPAN 4010: Upper division standing. Cross-listed with SPAN 5010. **Semester Hours:** 3 to 3

SPAN 4020 - Spanish Sociolinguistics
Studies the Spanish language in its social context. In addition to specific regional linguistic features, social factors such as geography, social class, politics, race, gender, economics, education and history are discussed as determiners of the linguistic landscape. Prereq: SPAN 3060. Cross-listed with SPAN 5020. **Semester Hours:** 3 to 3
SPAN 4060 - Dialects of the Spanish-Speaking World
Studies the geography of the Spanish language in those countries where it is spoken as a primary language. Includes a comparison of dialect features and a study of factors that contribute to the diversity of the Spanish language. Prereq: SPAN 3060. Cross-listed with SPAN 5060. Semester Hours: 3 to 3

SPAN 4070 - Spanish Applied Linguistics & Second Language Acquisition
This course is a survey of various areas of the field of linguistics in general (e.g. morphology, syntax, semantics, pragmatics, etc.) as well as specific aspects of the structure (and acquisition) of the Spanish language. Prereq: SPAN 3060 or 3070. Cross-listed with SPAN 5070. Semester Hours: 3 to 3

SPAN 4076 - Spanish in Colorado
A study of the Spanish language in its social context in Colorado and New Mexico. We will study historical factors as well as current social factors that contribute to the use of the Spanish language in this region. Prereq: SPAN 3060. Cross-listed with SPAN 5076. Semester Hours: 3 to 3

SPAN 4080 - Spanish in the United States
A study of the Spanish language in its social context as a language of the United States. In addition to studying bilingualism and language traits, factors such as race, gender, class, education, nationality, age, generation and language attitudes are considered. Prereq: SPAN 3060. Cross-listed with SPAN 5080. Semester Hours: 3 to 3

SPAN 4110 - Contemporary Spanish Literature
Major works published since the Spanish Civil War, which ended in 1939. Prereq: SPAN 3252 and preferably at least one additional literature course. Cross-listed with SPAN 5110. Semester Hours: 3 to 3

SPAN 4130 - Medieval Spanish Literature
Examines Spanish literature from the jarchas and the Cid through the Celestina in the context of the reconquest. Considers the construction of the Christian knight as a hero and the corresponding representations of women, Jews and Muslims. Prereq for SPAN 4130: SPAN 3252 and at least one additional literature course. Cross-listed with SPAN 5130. Semester Hours: 3 to 3

SPAN 4150 - Masterpieces of Spanish Literature
The most enduring works in the literature of Spain across the centuries. Prereq: SPAN 3252 and preferably at least one additional course in Hispanic literature. Cross-listed with SPAN 5150. Semester Hours: 3 to 3

SPAN 4160 - Masterpieces of Spanish-American Literature
Focuses on a limited number of outstanding works in Spanish-American literature across the centuries. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5160. Semester Hours: 3 to 3

SPAN 4220 - Mexican Literature I: pre-Columbian and Colonial
Survey of Mexican literature and culture from pre-Columbian times to the colonial era. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5220. Semester Hours: 3 to 3
**SPAN 4221 - Mexican Literature II: 19th to 21st Centuries**
Survey of Mexican literature and culture from the early modern to contemporary literature. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5221. **Semester Hours:** 3 to 3

**SPAN 4225 - Orientalisms In The Hispanic Tradition**
Advanced studies of orientalism in the Hispanic tradition: the Hispano-Arabic cultural heritage in Early Medieval Spain and in contemporary Hispanic cultures, as well as the influence of other eastern religions and cultures, such as Judaism or Buddhism. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5225. **Semester Hours:** 3 to 3

**SPAN 4230 - Modern Culture of Spain through Film and Narrative**
Culture of modern Spain studied through Spanish film. The death of military dictator Francisco Franco opened the process for the recuperation of a usurped democratic, representational system that has become the basis of a cultural and economic resurgence. Taught in Spanish. Prereq: SPAN 3252 and one other Spanish/Spanish American literature course at the 3000-level. Cross-listed with SPAN 5230. **Semester Hours:** 3 to 3

**SPAN 4240 - Unexpected Lives: Ibero-American Queer Cinema**
Provocative films, by courageous Ibero-American filmmakers, on controversial topics (homosexuality, Lesbianism, bisexuality, transgender individuals, feminism, etc.) will be studied to teach students to think globally as well as critically about LGBTQ individuals in the context of Ibero-American cultures. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5240. **Semester Hours:** 3 to 3

**SPAN 4250 - Contemporary Argentine Short Stories**
The short stories by extraordinary Argentine writers, such as Jorge Luis Borges, Silvina Ocampo, Julio Cortazar, Griselda Gambaro, Adolfo Bioy Casares, and Manuel Muica Laineza, among others, will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5250. **Semester Hours:** 3 to 3

**SPAN 4290 - Ibero-American Thought**
The course examines philosophical works by essayists, literary critics, and cultural thinkers from Spanish-American countries and the Iberian Peninsula. Besides reading philosophical works in their original form, students will read scholarly commentaries to deepen their understanding of those works. Cross-listed with SPAN 5290. SPAN 3252 and at least one additional course in Hispanic literature strongly recommended. **Semester Hours:** 3 to 3

**SPAN 4300 - Generation of 1898**
Spanish literature from around the turn of the century through the first third of the 20th century, reflecting the deep intellectual and cultural foment occasioned in part by Spain’s loss of the Spanish-American War of 1898. Prereq: SPAN 3252 and preferably at least one additional literature course. Cross-listed with SPAN 5300. **Semester Hours:** 3 to 3

**SPAN 4310 - Seminar in Spanish Creative Writing: Poetry and Short Fiction**
A capstone writing course. Semester writing project will be collected poems and short stories. Prereq: SPAN 3252 and one other upper-division literature course, or permission of instructor. Cross-listed with SPAN 5310. **Semester Hours:** 3 to 3
SPAN 4320 - Interculturalism and Transnationalism in Modern Spain
Students will examine experiences of Spaniards living in different parts of the world and the circumstances of either foreigners or migrants living in Spain, through their visual and literary texts, film, photographs, documentaries and other products of current popular culture, such as contemporary television. Prereq: SPAN 3252 and one other Spanish/Spanish American literature course. Cross-listed with SPAN 5320. **Semester Hours:** 3 to 3

SPAN 4400 - Romanticism in Spain
The romantic movement in 19th century Spain through plays, poems, essays. Prereq: SPAN 3252 and preferably at least one additional literature course. Cross-listed with SPAN 5400. **Semester Hours:** 3 to 3

SPAN 4410 - Modernism
Examines the first real flowering of Spanish American literature, from about 1880 to 1910. The dominant genres of the period were the short story, the essay and lyric poetry. Readings come from Dario, Jose Enrique Rodo, Manuel Gutierrez Najera, Manuel Diaz Rodriquez and others. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5410. **Semester Hours:** 3 to 3

SPAN 4500 - Nineteenth-Century Spanish Novel
The Spanish novel in one of its most productive periods, beginning with romanticism and carrying through the realist and naturalist movements. Prereq for SPAN 4500: SPAN 3252 and preferably at least one additional literature course. Cross-listed with SPAN 5500. **Semester Hours:** 3 to 3

SPAN 4510 - Contemporary Spanish-American Novel
The novel in Spanish America since the Second World War, the period in which the greatest number and quality of works has been produced. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5510. **Semester Hours:** 3 to 3

SPAN 4520 - Golden Age Drama
Spanish drama of the 16th and 17th centuries, the period of greatest dramatic productivity in the nation's history. Readings include selections from Lope de Vega, Tirso de Molina, Calderon de La Barca, and others. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5520. **Semester Hours:** 3 to 3

SPAN 4540 - Race, Class, and Gender in Spanish Golden Age Literature
Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq: SPAN 3252 and at least one additional literature course. Cross-listed with SPAN 5540 and WGST 4540/5540. **Semester Hours:** 3 to 3

SPAN 4620 - Don Quijote
The complete Don Quijote in Spanish, focusing on its historical, social, and philosophic context, and its role in the emergence of the modern novel. Prereq: SPAN 3252 and at least one additional literature course. Cross-listed with SPAN 5620. **Semester Hours:** 3 to 3

SPAN 4640 - Borges: An Introduction to His Labyrinths
The works of Jorge Luis Borges (short stories, essays, poetry, translations, essays anthologies, lectures) will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5640. **Semester Hours:** 3 to 3
SPAN 4650 - Garcia Marquez: Words of Magic
The works of Gabriel Garcia Marquez (stories, short novels, novels, newspaper articles, interviews, lectures) will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5650. Semester Hours: 3 to 3

SPAN 4840 - Independent Study: SPAN
Semester Hours: 1 to 3

SPAN 4970 - Special Topics in Literature
Varying topics in Hispanic literature not otherwise covered by regular courses. Note: May be taken more than once, provided that the topic is different each time. Prereq for SPAN 4970: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 5970. Semester Hours: 3 to 3

SPAN 4980 - Special Topics in Linguistics
Varying topics in Hispanic language and literature not otherwise covered by regular courses. Note: May be taken more than once provided that the topics are different each time. Prereq: SPAN 3060 and at least one other upper division Spanish course. Cross-listed with SPAN 5980. Semester Hours: 3 to 3

SPAN 5000 - Introduction to Graduate Studies in Spanish
Introduces critical methodologies and critical perspectives of practices of signification such as literature and film, among others, in the context of culture and history. Prereq: Graduate standing. Semester Hours: 3 to 3

SPAN 5010 - History of the Spanish Language
Studies the history of the Spanish language, both internal and external, from the language's Latin roots to the present. Historical phonetics are emphasized, though all features of the language are discussed. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4010. Semester Hours: 3 to 3

SPAN 5020 - Spanish Sociolinguistics
Studies the Spanish language in its social context. In addition to specific regional linguistic features, social factors such as geography, social class, politics, race, gender, economics, education and history are discussed as determiners of the linguistic landscape. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4020. Semester Hours: 3 to 3

SPAN 5060 - Dialects of the Spanish-Speaking World
Studies the geography of the Spanish language in those countries where it is spoken as a primary language. Includes a comparison of dialect features and a study of factors that contribute to the diversity of the Spanish language. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4060. Semester Hours: 3 to 3

SPAN 5070 - Spanish Applied Linguistics & Second Language Acquisition
This course is a survey of various areas of the field of linguistics in general (e.g. morphology, syntax, semantics, pragmatics, etc.) as well as specific aspects of the structure (and acquisition) of the Spanish language. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4070. Semester Hours: 3 to 3

SPAN 5076 - Spanish in Colorado
A study of the Spanish language in its social context in Colorado and New Mexico. We will study historical factors as well as current social factors that contribute to the use of the Spanish language in this region. Prereq: graduate standing in Spanish. Cross-listed with SPAN 4076. Semester Hours: 3 to 3
SPAN 5080 - Spanish in the United States
A study of the Spanish language in its social context as a language of the United States. In addition to studying bilingualism and language traits, factors such as race, gender, class, education, nationality, age, generation and language attitudes are considered. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4080. **Semester Hours:** 3 to 3

SPAN 5110 - Contemporary Spanish Literature
Major works published since the Spanish Civil War, which ended in 1939. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4110. **Semester Hours:** 3 to 3

SPAN 5130 - Medieval Spanish Literature
Examines Spanish literature from the jarchas and the Cid through the Celestina in the context of the reconquest. Considers the construction of the Christian knight as a hero and the corresponding representations of women, Jews and Muslims. Prereq for SPAN 5130: Graduate standing in Spanish. Cross-listed with SPAN 4130. **Semester Hours:** 3 to 3

SPAN 5150 - Masterpieces of Spanish Literature
The most enduring works in the literature of Spain across the centuries. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4150. **Semester Hours:** 3 to 3

SPAN 5160 - Masterpieces of Spanish-American Literature
Focuses on a limited number of outstanding works in Spanish-American literature across the centuries. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4160. **Semester Hours:** 3 to 3

SPAN 5220 - Mexican Literature I: pre-Columbian and Colonial
Survey of Mexican literature and culture from pre-Columbian times to the colonial era. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 4220. **Semester Hours:** 3 to 3

SPAN 5221 - Mexican Literature II: 19th to 21st Centuries
Survey of Mexican literature and culture from the early modern to contemporary literature. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 4221. **Semester Hours:** 3 to 3

SPAN 5225 - Orientalisms In The Hispanic Traditions
Advanced studies of orientalism in the Hispanic tradition: the Hispano-Arabic cultural heritage in Early Medieval Spain and in contemporary Hispanic cultures, as well as the influence of other eastern religions and cultures, such as Judaism or Buddhism. Prereq: SPAN 3252 and at least one additional course in Hispanic literature. Cross-listed with SPAN 4225. **Semester Hours:** 3 to 3

SPAN 5230 - Modern Culture of Spain through Film and Narrative
Culture of modern Spain studied through Spanish film. The death of military dictator Francisco Franco opened the process for the recuperation of a usurped democratic, representational system that has become the basis of a cultural and economic resurgence. Taught in Spanish. Prereq: Graduate standing. Cross-listed with SPAN 4230. **Semester Hours:** 3 to 3

SPAN 5240 - Unexpected Lives: Ibero-American Queer Cinema
Provocative films, by courageous Ibero-American filmmakers, on controversial topics (homosexuality, Lesbianism, bisexuality, transgender individuals, feminism, etc.) will be studied to teach students to think globally as well as critically about LGTBQ individuals in the context of Ibero-American cultures.
SPAN 5250 - Contemporary Argentine Short Stories
The short stories by extraordinary Argentine writers, such as Jorge Luis Borges, Silvina Ocampo, Julio Cortazar, Griselda Gambaro, Adolfo Bioy Casares, and Manuel Muica Laineza, among others, will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq: Graduate standing in Spanish, or consent from the instructor. Cross-listed with SPAN 4250. **Semester Hours:** 3 to 3

SPAN 5290 - Ibero-American Thought
The course examines philosophical works by essayists, literary critics, and cultural thinkers from Spanish-American countries and the Iberian Peninsula. Besides reading philosophical works in their original form, students will read scholarly commentaries to deepen their understanding of those works. Cross-listed with SPAN 4290. Graduate standing in Spanish or consent from the instructor. **Semester Hours:** 3 to 3

SPAN 5300 - Generation of 1898
Spanish literature from around the turn of the century through the first third of the 20th century, reflecting the deep intellectual and cultural foment occasioned in part by Spain’s loss of the Spanish-American War of 1898. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4300. **Semester Hours:** 3 to 3

SPAN 5310 - Seminar in Spanish Creative Writing: Poetry and Short Fiction
A capstone writing course. Semester writing project will be collected poems and short stories. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4310. **Semester Hours:** 3 to 3

SPAN 5320 - Interculturalism and Transnationalism in Modern Spain
Students will examine experiences of Spaniards living in different parts of the world and the circumstances of either foreigners or migrants living in Spain, through their visual and literary texts, film, photographs, documentaries and other products of current popular culture, such as contemporary television. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4320. **Semester Hours:** 3 to 3

SPAN 5400 - Romanticism in Spain
The romantic movement in 19th century Spain through plays, poems, essays. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4400. **Semester Hours:** 3 to 3

SPAN 5410 - Modernism
Examines the first real flowering of Spanish American literature, from about 1880 to 1910. The dominant genres of the period were the short story, the essay, and lyric poetry. Readings come from Dario, Jose Enrique Rodo, Manuel Gutierrez Najera, Manuel Diaz Rodriguez and others. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4410. **Semester Hours:** 3 to 3

SPAN 5500 - Nineteenth-Century Spanish Novel
The Spanish novel in one of its most productive periods, beginning with romanticism and carrying through the realist and naturalist movements. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4500. **Semester Hours:** 3 to 3
SPAN 5510 - Contemporary Spanish-American Novel
The novel in Spanish America since the Second World War, the period in which the greatest number and quality of works has been produced. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4510. **Semester Hours:** 3 to 3

SPAN 5520 - Golden Age Drama
Spanish drama of the 16th and 17th centuries, the period of greatest dramatic productivity in the nation's history. Readings include selections from Lope de Vega, Tirso de Molina, Calderon de La Barca, and others. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4520. **Semester Hours:** 3 to 3

SPAN 5540 - Race, Class, and Gender in Spanish Golden Age Literature
Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq: SPAN 3252 and at least one additional literature course. Cross-listed with SPAN 4540 and WGST 4540/5540. **Semester Hours:** 3 to 3

SPAN 5620 - Don Quijote
The complete Don Quijote in Spanish, focusing on its historical, social, and philosophic context, and its role in the emergence of the modern novel. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4620. **Semester Hours:** 3 to 3

SPAN 5640 - Borges: An Introduction to His Labyrinths
The works of Jorge Luis Borges (short stories, essays, poetry, translations, essays anthologies, lectures) will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq: Graduate standing in Spanish, or consent from the instructor. Cross-listed with SPAN 4640. **Semester Hours:** 3 to 3

SPAN 5650 - Garcia Marquez: Words of Magic
The works of Gabriel Garcia Marquez (stories, short novels, novels, newspaper articles, interviews, lectures) will be studied with the goals of teaching students to think globally as well as critically about literature and other cultures. Prereq: graduate standing in Spanish, or consent from the instructor. Cross-listed with SPAN 4650. **Semester Hours:** 3 to 3

SPAN 5840 - Independent Study: SPAN
**Semester Hours:** 1 to 3

SPAN 5939 - Internship
**Semester Hours:** 1 to 6

SPAN 5950 - Master's Thesis
This course is for students writing a master's thesis. It includes individual mentoring with one or more faculty members, individualized and library-based research. May also include field research. Students must consult with a faculty member before enrolling. **Semester Hours:** 1 to 6

SPAN 5970 - Special Topics in Literature
Varying topics in Hispanic literature not otherwise covered by regular courses. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4970. **Semester Hours:** 3 to 3
SPAN 5980 - Special Topics in Linguistics
Varying topics in Hispanic language and literature not otherwise covered by regular courses. Note: May be taken more than once provided that the topics are different each time. Prereq: Graduate standing in Spanish. Cross-listed with SPAN 4980. **Semester Hours:** 3 to 3
Special Education Courses (SPED)

SPED 4030 - Understanding Students in Urban Contexts
The purpose of this course is to develop a strong knowledge base about learners whose academic, social and behavioral needs present unique opportunities related to teaching and learning. Prereq: UEDU 4010 and UEDU 4020. Cross-listed with SPED 5030. Semester Hours: 3 to 3

SPED 4150 - Individualizing Instruction for Learners with Challenging Behaviors
Serves as an introduction to the knowledge, skills and dispositions necessary for teachers to proactively and systematically address student needs that underlie the presence of problem behaviors in schools and class rooms. Course content consists of speci Semester Hours: 1 to 1

SPED 4200 - Autism Spectrum Disorders
The purpose of this academy is to provide the paraeducator with information and skills to assist paraeducators in the instruction of students with autism. It gives factual information to dispel the many myths that abound in this field and emphasizes the Semester Hours: 1 to 1

SPED 4710 - Significant Health Support Needs Academy
Intends to prepare paraeducators with knowledge and skills needed for working with children with significant health support needs. Consisting of seven modules of varying length, this 15 clock hour academy focuses on training both the health aid and the Semester Hours: 1 to 1

SPED 4720 - Significant Supports for Challenging Behavior Academy
This academy provides the paraeducator with the knowledge and skills needed for working with children who have significant behavior needs. The academy focuses on working with students who have challenging behaviors. The aim is to provide paraeducators wit Semester Hours: 1 to 1

SPED 4730 - Significant Communication Support Needs Academy
This academy provides the paraeducator with the knowledge and skills needed for working with children who have significant behavior needs. The academy focuses on working with students who have challenging behaviors. Its aim is to provide paraeducators wit Semester Hours: 1 to 1

SPED 4740 - Life Skills Academy
This 18 clock hour academy is intended to provide the paraeducator with knowledge and skill in instructional methods and life skill support for youth and young adults who have moderate to severe cognitive, communicative, physical or affective needs. Semester Hours: 1 to 1

SPED 4750 - Orientation to Special Education
This 15 clock hour academy is designed to provide a basic introduction to special education and the needs of students who have disabilities. It includes introductory material regarding legal and historical foundations of special education, human growth an Semester Hours: 1 to 1

SPED 4800 - Orientation to Early Intervention Services
This academy provides Developmental Intervention Assistant (DI Assistant) an introduction to early intervention services under IDEA. Material regarding legal and historical foundations, human growth and development, and the nature of disabilities and t Semester Hours: 1 to 1
SPED 4805 - Fundamentals of the IFSP Process
This academy provides Developmental Intervention Assistants an overview of the Individualized Family Service Plan (IFSP). It clarifies their role in the implementation of IFSP and also knowledge about the evaluation and assessment components of the IFSP. **Semester Hours:** 1 to 1

SPED 4810 - Early Intervention Teamwork
This academy is designed for Developmental Intervention Assistants (DI Assistants) to work effectively in Early Intervention teams. Introductory materials regarding teamwork, delineation of DI Assistants' and supervisors' roles and responsibilities as well as **Semester Hours:** 1 to 1

SPED 4815 - Working with Families
This academy provides the Developmental Intervention Assistant with information and skills to create and support Family Centered Practices. Focus on the concept of family and the impact of disability on the family is woven throughout the course. **Semester Hours:** 1 to 1

SPED 4820 - Instructional Strategies for Early Intervention
This academy assists the Developmental Intervention Assistant in examining the types of instructional strategies used in the Early Intervention programs. Focus is on building relationships, promoting engagement, and instructional support specifically in **Semester Hours:** 1 to 1

SPED 4825 - Promoting Social Emotional Development
This academy focuses on the importance of infant/toddlers' social emotional development and support. The CSEFEL Pyramid Model, adapted for this course, is a conceptual framework of evidence-based practices addressing the promotion of social emotional development (S) **Semester Hours:** 1 to 1

SPED 4830 - Health Support Needs in Early Intervention
This academy provides the DI Assistant with information and skills to support the health services related to the early intervention programs. Safety awareness and precautions are stressed as related to caring for infants/toddlers in their home and natural settings. **Semester Hours:** 1 to 1

SPED 4835 - Language and Early Literacy Development
This academy is designed for Developmental Intervention Assistant (DI Assistant) to work effectively with families as they support the early language and literacy development of their infants and toddlers with communication challenges. **Semester Hours:** 1 to 1

SPED 4840 - Communication Support Needs Early Intervention
This academy provides the Developmental Intervention Assistant with information and skills to learn characteristic language patterns for infants and toddlers. Focus on critical importance of child interactions as well as key intervention communication strategies. **Semester Hours:** 1 to 1

SPED 4845 - Individualized Intervention Infants/Toddlers
This academy, adapted from CSEFEL, introduces Developmental Intervention Assistants (DI Assistants) to basic knowledge of infants/toddlers with challenging behaviors. It provides necessary skills to implement written behavior support plans. **Semester Hours:** 1 to 1

SPED 4850 - Transition to Age 3
This academy assists the Developmental Intervention Assistant in learning the elements of transition from Part C to Part B including the difference between an IFSP and IEP. Focus on the cultural and transition issues for the toddler and the family. **Semester Hours:** 1 to 1
SPED 4855 - Interpersonal Skills for DI Assistants
This academy provides the Developmental Intervention Assistant effective interpersonal skills necessary to work with Early Intervention teams. It addresses issues of diversity based on culture, experience, gender, etc. and examines the DI Assistants' Semester Hours: 1 to 1

SPED 4860 - Personal Growth Development for DI Assistants
This academy provides the Developmental Intervention Assistant with information and skills to identify and expand personal growth and improvement skills working in Early Intervention programs. The course covers stress-management strategies and uses crea Semester Hours: 1 to 1

SPED 4865 - Instructional & Assistive Technology in EI
This academy assists the Developmental Intervention Assistants in examining various types of instructional and assistive technology used in early intervention programs. Focus is on technology used in the home and other natural environments to assist Semester Hours: 1 to 1

SPED 4870 - Autism Spectrum Disorder in Early Intervention
This academy provides Developmental Intervention Assistants with information to assist the Early Intervention Professionals to implement instructions for infants/toddlers identified with autism. It offers participants knowledge of structured tasks enviro Semester Hours: 1 to 1

SPED 4910 - Special Education Generalist Internship and Site Seminar I
Special education teacher candidates engage in systematic observation of, participation in, design of and reflection on inclusive curricular, instruction and management practices. Graduated learning activities for each internship and time requirements are Semester Hours: 1 to 8

SPED 4915 - Practicum For Developmental Intervention Assistant
The Developmental Intervention Assistant will engage in systematic observation of, and participation in the delivery of early intervention services. Practicum Instructor will observe, coach and assess as per the performance criteria required for completi Semester Hours: 2 to 2

SPED 4919 - CO-TOP Practicum
The paraeducator engage in systematic observation of, and participation in instruction of management practices. The learning activities for each practicum are specified in the CO-TOP Practicum handbook and information sheet. Cooperating teachers, district Semester Hours: 2 to 2

SPED 5010 - Instructional Strategies for Students with Special Needs
The content of this course extends three essential special education program areas: curriculum, instruction and assessment, to service provision for students with severe support needs. Semester Hours: 3 to 3

SPED 5030 - Understanding Students in Urban Contexts
The purpose of this course is to develop a strong knowledge base about learners whose academic, social and behavioral needs present unique opportunities related to teaching and learning. Prereq: UEDU 5010 and UEDU 5020. Cross-listed with SPED 4030. Semester Hours: 3 to 3

SPED 5050 - Assessment & Advocacy for Diverse Learners
The purpose of this course is to prepare teachers to gather and use assessment results within a strengths-based framework to advocate for appropriate programming, placement and instruction, and ongoing progress monitoring for students who are culturally a Semester Hours: 3 to 3
SPED 5120 - Negotiating The Special Education Teaching Process
This course explores both theoretical and practical aspects of educating students with special needs. Students will examine the nature of disability, the history and legal basis for special education programming in American schools, as well as contemporary Semester Hours: 3 to 3

SPED 5130 - Speech/Language Characteristics of Students with Severe Communication Needs
Provides a basis for identification and description of speech and language dysfunctions of students with severe communication needs. Careful attention is given to the transdisciplinary nature of speech or language and its effects on cognitive, affective Semester Hours: 3 to 3

SPED 5140 - Advanced Assessment in Special Education
Using a variety of assessment tools, students will focus on the educational assessment methods and procedures used in decision making and program planning for students with exceptional learning needs and from culturally and linguistically diverse backgrou Semester Hours: 3 to 3

SPED 5151 - Culturally Responsive Supports for Social and Emotional Development
This course addresses a multitiered approach to reengineering educational environments from those that are deficit-driven to those that support success for all learners. Students are asked to shift the focus from reduction of challenging behavior to cons Semester Hours: 3 to 3

SPED 5160 - Medical/Physical Challenges of Students with Special Needs
Provides an overview of the medical, sensory, communicative, and physical issues for students with special needs. Specific competencies include: identifying, examining, evaluating, and organizing a set of community resources to meet a wide range of medical Semester Hours: 1 to 1

SPED 5170 - Individualizing Instruction for Diverse Learners
Provides frameworks for understanding and choosing from an array of instructional strategies that can be incorporated into the instructional design, assessment and implementation processes that meet the needs of diverse learners, particularly students wit Semester Hours: 1 to 1

SPED 5180 - Curriculum Planning for Students with Special Needs
Designed to give teachers a framework for providing functional learning experiences in the domains of education, community access, employment, independent living, and social/recreational skills of students in special education. Emphasis is placed on creat Semester Hours: 3 to 3

SPED 5250 - Effective Practices for Young Children with Autism Spectrum Disorders
This course provides the learner with an understanding of ASD and provides information about evidence based practices and practical teaching strategies. It provides a 20 hour hands on practicum component that allows students to implement strategies learne Semester Hours: 3 to 3

SPED 5260 - Effective Practices for Elementary Children with Autism Spectrum Disorders
The purpose of this course is to emphasize evidence-based practices and practical teaching strategies for the elementary education student with ASD. Developmentally appropriate practices with an emphasis on educational strategies, inclusion and working co Semester Hours: 3 to 3
SPED 5270 - Effective Practices for Teenagers/Young Adults with Autism Spectrum Disorder
The purpose of this course is to provide a thorough understanding of ASD and effective strategies/evidence-based practices for students, ages 13-21. Developmentally appropriate practices with an emphasis on educational strategies, inclusion, transition and

Semester Hours: 3 to 3

SPED 5300 - Collaborating in Schools and Communities
Focuses on the development of competencies in consultation and collaboration. The overall purpose is to encourage the development of understanding and skills that enhance a teacher’s ability to work and communicate effectively with school personnel, inclu

Semester Hours: 3 to 3

SPED 5310 - Collaboration with Families
Provides the school professional with the knowledge, skills, and values that foster effective working relationships with parents and families of the students they serve. Semester Hours: 1 to 1

SPED 5400 - Seminar in Special Education
Designed to allow an opportunity for special educators to compare and contrast the service delivery, funding mechanisms, professional ethics, and underlying assumptions of special and regular education. Trends in the field of special education are examine Semester Hours: 3 to 3

SPED 5450 - Introduction to ABA and Terminology
This course will introduce the history and basics of ABA with a focus on its related terminology. In addition, ABA benefits will be discussed, and emphasis placed on ethical considerations required for practicing ABA as a board Certified Behavior Analyst Semester Hours: 3 to 3

SPED 5460 - ABA Practical Applications
This course will provide a framework for the natural science of behavior. It will provide students with a systematic approach to understanding and precisely describing the behavior of individuals, and its relationship to environmental determinants. Prer Semester Hours: 3 to 3

SPED 5470 - ABA Data
This course will introduce how to collect and interpret different types of data, and the importance of making data-driven decisions for behavior change procedures based on functional relationships. Prereq: SPED 5450, 5460. Semester Hours: 3 to 3

SPED 5480 - ABA Advanced Data and Behavioral Plans and Applications
Student will learn to use standard celeration charts and make data-driven decisions to write appropriate behavioral plans. They will also learn to use ABA strategies to enhance communication, to support individuals with ASD, and to benefit from systems Semester Hours: 3 to 3

SPED 5490 - Autism In Early Intervention
This course will provide students with the knowledge necessary to implement recommended, evidence-based practices with young children with autism. The course will provide information on the etiology of autism, diagnostic procedures, evidence-based pract Semester Hours: 3 to 3

SPED 5500 - Transition and Secondary Issues in Special Education
This course provides the practitioner with an understanding of the special education transition process as specified by federal and state guidelines, as well as effective teaching and learning strategies for secondary youth with disabilities. Semester Hours: 3 to 3
SPED 5530 - Language & Literacy Acquisition Div Lrn
This course investigates the relationship between language and literacy acquisition. In the context of first and second language acquisition across the lifespan, the course focuses on bilingual and second language development, and on the acquisition of l. Semester Hours: 3 to 3

SPED 5600 - Special Education for School Professionals
Designed for school professionals to compare and contrast service delivery options and to understand special education laws and underlying assumptions of special education practices. Through extensive study of original sources and current texts, students Semester Hours: 3 to 3

SPED 5740 - Linguistically Responsive Special Education
This is an introductory course designed to provide an overview of instructional planning for culturally and linguistically diverse learners with and without disabilities. Semester Hours: 3 to 3

SPED 5780 - Literacy Intervention for Students with Disabilities
Provides the practitioner with an understanding of research-validated approaches, strategies, assessment tools and issues related to effective literacy instruction for students performing significantly below grade level. Practitioners can expect to be abl Semester Hours: 3 to 3

SPED 5800 - Workshop: Topics in Special Education
Semester Hours: 0.5 to 4

SPED 5840 - Independent Study: SPED
Semester Hours: 1 to 4

SPED 5918 - ABA Practicum
Supervised field experience with a Board Certified Behavior Analyst for time spent directly working with individuals who require behavioral programming. Students must complete 1000 hours to meet BCBA requirements and 670 hours for BCaBA requirements. 10 Semester Hours: 0.5 to 4

SPED 5919 - ABA Intensive Practicum
Supervised field experience with a Board Certified Behavior Analyst for time spent directly working with individuals who require behavioral support. Students must complete 750 hours to meet BCBA requirements and 500 hours for BCaBA requirements. 75 hour Semester Hours: 0.5 to 5

SPED 5930 - Special Education Generalist Internship and Site Seminar I
Special education teacher candidates engage in systematic observation of, participation in, design of and reflection on inclusive curricular, instruction and management practices. Graduated learning activities for each internship and time requirements are Semester Hours: 2 to 2

SPED 5931 - Special Education Generalist Internship and Site Seminar II
Special education teacher candidates engage in systematic observation of, participation in, design of and reflection on inclusive curricular, instruction and management practices. Graduated learning activities for each internship and time requirements are Semester Hours: 2 to 2

SPED 5932 - Special Education Generalist Internship and Site Seminar III
Special education teacher candidates engage in systematic observation of, participation in, design of and reflection on inclusive curricular, instruction and management practices. Graduated learning activities for each internship and time requirements are Semester Hours: 2 to 2
SPED 5933 - Special Education Generalist Internship and Site Seminar IV
Special education teacher candidates engage in systematic observation of, participation in, design of and reflection on inclusive curricular, instruction and management practices. Graduated learning activities for each internship and time requirements are **Semester Hours**: 3 to 8

SPED 6100 - Communication Development for Students with Severe to Profound Needs
An in-depth analysis of the development of communicative competence in students with severe or profound needs. Prereq: Completion of special education core or permission of instructor. **Semester Hours**: 3 to 3

SPED 6300 - Teaching Methods for Students with Severe Communication Needs
Offers training in defining and elaborating the needs of students identified as having severe communication needs. Students learn to expand and apply various theories of instruction. They will administer and interpret procedures for assessing speech and language. **Semester Hours**: 3 to 3

SPED 6950 - Master's Thesis
**Semester Hours**: 4 to 4
School Psychology Courses (SPSY)

SPSY 5600 - Behavior Analysis and Intervention
This course introduces knowledge and skills necessary for school psychologists to proactively address child problem behaviors. Content includes application of Positive Behavioral Support (PBS), functional behavior analysis and intervention, evaluation of Semester Hours: 3 to 3

SPSY 5800 - Workshop: Topics in School Psychology
Semester Hours: 1 to 6

SPSY 5840 - Independent Study: SPSY
Semester Hours: 1 to 4

SPSY 5900 - School-Based Multicultural Interventions
The course will foster students’ understanding and appreciation of diversity and its applications for school psychology practice, educational contexts, and mental health policy. Students will learn to evaluate and implement school-based mental health and Semester Hours: 3 to 3

SPSY 6000 - BrainSTARS: TBI-Strategies for Teams and Re-Educ
This interdisciplinary course provides a knowledge base in Traumatic Brain Injury (TBI) in children utilizing foundational learning experiences in sources of brain injury, various sequelae, interventions, educational modifications, IEP development, and re Semester Hours: 3 to 3

SPSY 6020 - Consultation and Leadership in TBI
This interdisciplinary course focuses on consultation, teamwork and leadership strategies needed for providing family-centered, culturally competent, community-based services for children with traumatic brain injury and other disabilities and their famili Semester Hours: 3 to 3

SPSY 6040 - Applied Research in TBI for School Psychologists
This seminar focuses on the development of skills in conducting applied research with children and youth who have suffered a traumatic brain injury and addresses the need for school psychologists to develop and interpret research designs used for applied Semester Hours: 1 to 3

SPSY 6100 - School Psychology: Professional and Legal Foundations
This course covers topics related to the practice of school psychology, both past and present, including legal/ethical obligations/issues, accreditation, certification/licensure, culturally competent practice, roles/responsibilities, and evaluation and ac Semester Hours: 3 to 3

SPSY 6150 - Psychoeducational Assessment I
Focuses on assessment of cognitive ability, cognitive processes, and achievement in children and adolescents. Topics include selection, administration, and interpretation of ability and achievement tests; psychological report writing, and psychometric, hi Semester Hours: 3 to 3

SPSY 6160 - Psychoeducational Assessment II
Focuses on the assessment of adaptive behavior, personality, and social-emotional functioning in children and adolescents. Topics include selection, administration, and interpretation of these types of measures; cultural considerations in psychological as Semester Hours: 3 to 3
SPSY 6170 - Assessment and Intervention: Birth to 3  
Course familiarizes students with the provision of psychological services to children birth to 3 years. The course includes coverage of relevant federal/state mandates, typical and atypical development, multicultural issues, and family-centered and consult. **Semester Hours: 3 to 3**

SPSY 6200 - Risk, Resilience, and Prevention in School Mental Health  
Examines sources of biological and social risk that prevent children from infancy through adolescence from reaching their full adult potential, the prevalence of these risk factors in North American communities, and the wellness models of intervention. **Semester Hours: 3 to 3**

SPSY 6350 - School-Based Interventions: Children, Youth and Families  
Provides theoretical and practice-oriented introduction to child therapy in schools. Weaves together skills and techniques essential to theory and implementation of psychotherapeutic techniques. Course activities compliment the systemic and group-based interventions examined in SPSY 6400. Prereq: RSEM 5300 Introduction to Measurement, CPCE 5010 Counseling Theories, and permission of instructor. **Semester Hours: 3 to 3**

SPSY 6400 - School-Based Interventions: Groups, Classrooms and Systems  
Provides students with advanced study of research on and techniques of classroom and small group interventions. Includes instruction on the evaluation of intervention effectiveness. Systemic, school-wide interventions are addressed. Prereq: RSEM 5100, RSEM 5300, SPSY 6350. **Semester Hours: 3 to 3**

SPSY 6410 - Psychoeducational Assessment of Culturally and Linguistically Diverse Students  
Prepares students to provide psychoeducational assessments to children who are culturally and/or linguistically diverse. Content includes differentiation of language disorders versus language acquisition, and developing recommendations for accommodations. **Semester Hours: 3 to 3**

SPSY 6420 - Crisis Prevention, Planning and Intervention  
Introduces students to crisis theory, prevention research, and intervention strategies. The course is designed for school mental health professionals interested in developing advanced crisis counseling and intervention skills sufficient for use in school. **Semester Hours: 3 to 3**

SPSY 6450 - School-Based Consultation for Mental Health Professionals  
A wide range of traditional or emerging consultation models emphasizing practical application of empirically-based approaches to advance the social or academic competence of students, classrooms, schools and districts. Hands-on experience supplement cours. **Semester Hours: 3 to 3**

SPSY 6500 - Identifying and Planning for the Mental Health Needs of Children and Adolescents  
Provides students with advanced concentrated study of the etiology, diagnostic criteria, recommend intervention strategies, and diagnostic procedures appropriate for the identification of children's mental health needs. **Semester Hours: 3 to 3**

SPSY 6550 - Academic Interventions in School Psychology  
Provides training in knowledge and skills for the use of educational intervention practices in school psychology, including the development, implementation, and evaluation of academic interventions in the areas of reading, math, and written language; curr. **Semester Hours: 3 to 3**
SPSY 6695 - Rsrch Lab: Autism w/in Cltrlly & Lngstcly Dvrse Ppltns
In this cross-disciplinary yearlong research lab, students will work individually or in groups to design, implement, and analyze research questions related to autism within culturally and linguistically diverse populations. Course topics will include auti  
Semester Hours: 1 to 2

SPSY 6911 - School Psychology Practicum
Supervised practice in providing comprehensive psychological services to children in grades preschool to 12. Students are placed in public schools or affiliated school-related agencies and supervised by practicing, licensed school psychologists. Prereq:  
Semester Hours: 1 to 6

SPSY 6915 - Practicum with Culturally and Linguistically Diverse Students
This school psychology practicum experience is focused on developing multicultural competencies with culturally and linguistically diverse students through either a cultural immersion experience in Mexico or a local practicum placement in a culturally and linguistically diverse setting.  
Semester Hours: 3 to 3

SPSY 6917 - Advanced Practicum in Psychological Assessment
Under faculty supervision provide psychological assessment services to clients in the UC Denver Student and Community Counseling Center. Prereq: SPSY 6150, SPSY 6160, and consent of the instructor.  
Semester Hours: 1 to 1

SPSY 6918 - Clinical Externship
Clinical experience under supervision of licensed, doctoral-level professionals. Students participate in assessment and intervention in a variety of settings. Note: All field placements must be approved by the SPSY Program Director in advance of regist  
Semester Hours: 1 to 3

SPSY 6930 - School Psychology Internship
Supervised experience in the practice of school psychology with children and adolescents in a school or clinic setting. Prereq: SPSY 5900, SPSY 6410, SPSY 6911, SPSY 6200, SPSY 6350, SPSY 6400, SPSY 6450, SPSY 6500, SPED 5780 and instructor consent.  
Semester Hours: 1 to 6

SPSY 6935 - Practicum in Evidence-Based Interventions: TBI
Practice implementing interventions with children and youth with a variety of behavioral, learning, and emotional problems related to traumatic brain injury. Includes special emphasis on identifying and implementing evidence-based interventions including  
Semester Hours: 1 to 3
Social Sciences Courses (SSCI)

SSCI 4050 - Special Topics in Law Studies
These topics courses are concerned with specialized aspects of the study of law within the social sciences from various theoretical and research perspectives. These courses are interdisciplinary and serve as a forum for discussion specific to students in Semester Hours: 3 to 6

SSCI 4710 - Women and Religion
A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women’s involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 5710, WGST 4710/5710, RLST 4710/5710. Semester Hours: 3 to 3

SSCI 5000 - 19th Century Philosophy
Covers the systematic work of such German idealists as Hegel, Fichte, and Shelling, as well as responses to those systems by such authors as Marx, Kierkegaard, and Nietzsche. Prereq: PHIL 3002 or 3022. Cross-listed with PHIL 4000/5000 and HUMN 5000. Semester Hours: 3 to 3

SSCI 5013 - Philosophical Problems in the Social Sciences and Humanities
Presents an overview of key theoretical issues currently emerging across academic disciplines. Examines questions about reality, knowledge, ethics that affect social research and writing in the humanities. Readings explore how contemporary philosophical and cultural discourses have altered theory and method. Assignments include influential theoretical pieces by key historical and contemporary thinkers, examples of application in social research, and interpretations of thought and affect in cultural contexts. Cross-listed with HUMN/PHIL 5013. Semester Hours: 3 to 3

SSCI 5020 - Elements of Social Thought
Introduces students to the disciplines that comprise the social sciences (classical anthropology, sociology, sociology of religion, philosophy of history, political theory, classical psychology, etc.). Provides necessary tools for interdisciplinary students to understand the social infrastructure of contemporary society. Cross-listed with HUMN 5020 and PHIL 5020. Semester Hours: 3 to 3

SSCI 5023 - Research Perspectives in Social Science
Introduces interdisciplinary social research through a critical examination of various methodological approaches. Each student formulates a research proposal which includes a research question, a review of the literature, and methods of study. Semester Hours: 3 to 3

SSCI 5050 - Topics in Social Science
These topic seminars are concerned with specialized aspects of the social sciences from various theoretical and research perspectives. These courses are interdisciplinary and serve as a forum for discussion of individual projects and theses. Semester Hours: 1 to 3

SSCI 5101 - Pragmatism: Classical American Philosophy
The most significant philosophical tradition born in the United States is pragmatism. Examines several of the most important classical works of this tradition, the influence of thinkers who have helped pragmatism, and the contemporary relevance of this tradition. Figures who may be included in this course are: Emerson, Pierce, Royce, James, Dewey, Mead, Rorty. Prereq: An introductory course in philosophy. Cross-listed with PHIL 4101, 5101, HUMN 5101. Semester Hours: 3 to 3
SSCI 5242 - Bioethics
Examines some of the major moral issues confronting the nation's health care system. The class will search for solutions to such problems as financing health care for those unable to do so on their own, determining the extent of a patient's right to both refuse and demand certain types of medical treatment, and allocating scarce medical resources such as life-saving vital organs. The springboard for examining these issues will be the doctor or patient relationship framed by the moral principles of respect for persons and beneficence. Cross-listed with PHIL 4242, PHIL 5242, HUMN 5242. Semester Hours: 3 to 3

SSCI 5250 - Environmental Ethics
While human industry/technology creates enormous material prosperity, it can result in devastating environmental damage. This course analyzes the moral values, consequences and duties implied in relationships between human beings, animals and ecological systems, while seeking out new and ethical approaches. Cross-listed with PHIL 4250/5250 and HUMN 5250. Semester Hours: 3 to 3

SSCI 5400 - Women and Violence
Analyzes the social, political, legal, and psychological aspects of violence against women and addresses: definitions of the problem, demographics, survivors, perpetrators, children who witness, bystanders, strategies and tactics of abuse and survival, along with strategies for prevention, intervention, treatment and social change. Semester Hours: 3 to 3

SSCI 5520 - The City Beautiful: Art, Architecture and Theory in Urban History
How did cities develop and what were the buildings that filled these spaces? Posing this question initially, this course takes a case-study approach to surveying the concerns confronting different cultures as they developed their urban environments sociologically, anthropologically, architecturally and spatially. Cross listed with HUMN 5520. Semester Hours: 3 to 3

SSCI 5530 - Social Construction of the Self
Investigates theories that address the construction of self and how that construction is constrained by culture, politics, society and historical moment. Semester Hours: 3 to 3

SSCI 5550 - Paris 1910: Art, Philosophy and Psychology
Traces the influences of philosophy, psychology, and art in the English, French, and German-speaking worlds in the early twentieth century. This intellectual history is extended to broader cultural and political contexts. Key period is between 1910 and 1968, when modernity's key aspirations and tensions became explicit. Cross-listed with HUMN 5550 and PHIL 5550. Semester Hours: 3 to 3

SSCI 5600 - Philosophy of Religion
Nature of religion and methods of studying it. Cross-listed with HUMN 5600, PHIL 4600, 5600, RLST 4060, and 5060. Semester Hours: 3 to 3

SSCI 5650 - Reflections on Modernity
Explores modernity as a historical epoch and a theoretical space, looking at the commentaries and reflections of influential 20th century thinkers including Adorno, Arendt, Levinas, Merleau-Ponty, Habermas and Foucault. Examines how the theoretical inclinations of modernity were influenced by politics, art, literature and culture. Cross-listed with HUMN 5650 and PHIL 5650. Semester Hours: 3 to 3
SSCI 5710 - Women and Religion
A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women's involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710, WGST 4710/5710, RLST 4710/5710. **Semester Hours:** 3 to 3

SSCI 5720 - Sexuality, Gender and Their Visual Representation
Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visuality, feminism, race and queer theory. Explores representations of femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with HUMN 5720 and WGST 5720. **Semester Hours:** 3 to 3

SSCI 5750 - Philosophical Psychology
Explores debates about psyche and body, mind and world, self and others, and consciousness and nature. Examines the philosophical questions related to those debates that arise within theories of perception, affect and cognition offered by influential psychological models. Cross-listed with HUMN 5750, PHIL 5755. **Semester Hours:** 3 to 3

SSCI 5770 - Imperialism, Post-Colonial Theory, Visual Discourse
Western empires disseminate political, social, economic & cultural practices through complex interplay of cultural practices. Visual production is a complex site for meaning making within imperialism. Examines how visual discourses operated to create mean **Semester Hours:** 3 to 3

SSCI 5830 - Grant Writing for Nonprofits
Designed to help current and future professionals in the nonprofit sector understand the social, political, and economic context and mechanics of pursuing grants, government contracts, and other funding for nonprofit organizations. **Semester Hours:** 3 to 3

SSCI 5833 - Existentialism
Examines one of the most influential movements in recent European thought, beginning with existentialism's 19th century roots, and continuing on to the existentialist philosophers of the 20th century. Figures covered may include Dostoyevsky, Kierkegaard, Nietzsche, Heidegger, Sartre and de Beauvoir. Cross-listed with PHIL 4833/5833 and HUMN 5833. **Semester Hours:** 3 to 3

SSCI 5840 - Independent Study: SSCI
**Semester Hours:** 1 to 3

SSCI 5920 - Philosophy of Media and Technology
A philosophical examination of interrelationships between contemporary media, technology, and their impacts upon character of contemporary life and values. Topics may include ethics, epistemology, democracy, advertising, media literacy and criticism. Cross-listed with PHIL 4920, 5920, HUMN 5920. **Semester Hours:** 3 to 3

SSCI 5933 - Philosophy of Eros
Why is philosophy an erotic activity and what are the implications of this insight? We will explore these issues, first, by reading Plato's erotic dialogues: Lysis, Symposium and Phaedrus. Then we will focus on Freud's influential (and controversial) appropriation of Plato's thought in the writings that span his career, from The Interpretation of Dreams (1900) to Civilization and its Discontents (1930) and beyond. Finally, we will survey post-Freudian theories of eros, such as Michel Foucault's History of Sexuality,
well as the more recent contributions of thinkers such as Jonathan Lear, Thomas Nagel, Martha Nussbaum and Slavoj Zizek. Cross-listed with PHIL 4933/5933, WGST 4933/5933, and HUMN 5933.  
**Semester Hours:** 3 to 3

**SSCI 5939 - Internship**  
**Semester Hours:** 1 to 6

**SSCI 6010 - Methods and Theories of Feminism and Gender Studies**  
Provides graduate-level interdisciplinary study in historiography, methodologies and theories of women's, gender and sexuality studies and considers how culture is constructed around these categories. Cross-listed with WGST 6010.  
**Semester Hours:** 3 to 3

**SSCI 6950 - Master's Thesis**  
**Semester Hours:** 1 to 8

**SSCI 6960 - Master's Project or Report**  
Research which may be based on field work.  
**Semester Hours:** 1 to 6
Sustainability Courses (SUST)

SUST 3010 - The Non-Sustainable Past
This is the first of a two-course sequence that assesses the interrelations among the historical, political, cultural, ecological, and economic aspects of contemporary environmental issues. SUST I focuses on the non-sustainable use of water, land, energy, manufactured goods, and food. Prereq: 1 Natural Science Core and 1 Social Science Core. **Semester Hours:** 3 to 3

SUST 3011 - Toward a Sustainable Future
This is the second of a two-course sequence that examines the interrelations among the historical, political, cultural, ecological, and economic aspects of contemporary environmental issues. SUST II provides students with theoretical perspectives on sustainability through a series of current, problem-oriented case studies. Prereq: 1 Natural Science Core and 1 Social Science Core. **Semester Hours:** 3 to 3

SUST 3939 - Internship
This course will provide internships with agencies, businesses and programs involved in initiatives aimed at promoting a sustainable future. Internships could include work with concerns involved in addressing specific environmental issues or with projects aimed at raising awareness of issues related to sustainability. Prereq: SUST 3010, SUST 3011. **Semester Hours:** 1 to 3

SUST 4960 - Capstone in Sustainability
As the culmination of the Sustainability Minor, this course examines current research practices in sustainability and sustainability-related fields. Students work in teams to complete a sustainability/sustainability-related research paper and poster and present it to the campus community. Note: Topics variable depending on region under study, student interest, and faculty specialty. Prereq: SUST 3011. **Semester Hours:** 3 to 3
Teacher Education Courses (TCED)

**TCED 482 - Wrkshp: Elem Sub Tchrs**  
*Semester Hours: 3 to 3*

**TCED 1111 - Freshman Seminar**  
This is a special topics course and the specific content varies each time the course is offered. *Semester Hours: 1 to 3*

**TCED 2400 - Issues in Chicano/a Education**  
A historical overview of segregation, landmark court cases, and immigration policy in the education of Chicanos/as in Colorado and nationally from 1900 to the present is offered. The intersection of these issues in the education of undocumented students *Semester Hours: 3 to 3*

**TCED 4800 - Workshop: Teacher Education**  
This is a workshop course and the description varies each time the course is offered. *Semester Hours: 0.5 to 4*

**TCED 5000 - Special Topics: Teacher Education**  
This is a workshop course and the description will vary each time the course is offered. *Semester Hours: 0.5 to 4*
**Theatre & Film General Courses (TFVP)**

**TFVP 1100 - Introduction to Theatre, Film, and Television**
An introduction to dramatic and cinematic texts, styles and productions; students will research and analyze a play and develop it into a film script. They will present their understanding by storyboards and multi-media presentations, exams and written work. **Semester Hours:** 3 to 3

**TFVP 1110 - Production Design: Theatre, Film and Video**
This design research class explores the creative skills, technical knowledge and scholarly engagement employed by production designers. The students will understand how design elements enhance a production and create a production design for a video, film or play. **Semester Hours:** 3 to 3

**TFVP 1550 - Scriptwriting I**
Each student conceptualizes, designs and creates short scripts for stage and screen. Instruction includes story development through first draft and rewrites, incorporation of critical feedback and the merger of image and idea to convey dramatic concepts. **Semester Hours:** 3 to 3

**TFVP 3222 - Theatre, Film & Video Business**
Students explore and evaluate business issues in film and theatre production such as finance, distribution, organization and legal issues through readings and projects. Students develop a solid business vocabulary and basis for work in these fields. **Semester Hours:** 3 to 3

**TFVP 3620 - Acting Styles**
This course explores various topics in performance for stage and screen. Students will fully prepare scene studies using various methods and techniques in acting. Each semester will focus on one approach giving students an in-depth basis for their work. **Semester Hours:** 3 to 3

**TFVP 3730 - Scenery Design**
Introduces the principles and practices of production design for the theatre and film. Emphasizes textual analysis, the aesthetic and practical elements of design, design development and graphics. Requirements include related experiences working departmental productions. **Semester Hours:** 3 to 3

**TFVP 3740 - Costume Design**
Introduces the principles and practices of costume design for theater and film productions. Students will focus on basic figure drawing, practical elements of design, design development and different costume rendering techniques through projects and productions. **Semester Hours:** 3 to 3

**TFVP 3820 - Production Process**
Part two of two-course sequence. Students will increase their experience by applying production skills and theories learned in Intro to Production Process in a practicum setting to support theatre and film production activities. **Semester Hours:** 3 to 3

**TFVP 3860 - Applications Seminar**
Course work is reflection on the intellectual competencies, artistic capabilities, and skill sets gained throughout student’s theatre & film studies. Students will create projects and write a significant paper on specified topics regarding entertainment industry opportunities, to assist their career advancement. **Semester Hours:** 1 to 3
TFVP 3910 - BA Junior Project
This course consists of structured work and independent work sessions assisting students with portfolio and career path. Students will be required to work on planning an event, either in theatre or film and produce professional portfolio for faculty review. **Semester Hours:** 1 to 1

TFVP 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Note: TFVP majors and minors only, or permission of instructor. **Semester Hours:** 1 to 3

TFVP 4095 - Senior Thesis Project
The BFA thesis course involves the preparation, exhibition and critical faculty response to creative work and self-promotional materials as developed by graduating seniors on the BFA degree track. **Semester Hours:** 3 to 3

TFVP 4560 - Directors at Work
Through creation and participation on a premiere production of a devised, media, and/or mixed media, performance work in collaboration with faculty and guest professional artists, directing students will sharpen the application of skills and learn aesthetics and structure. **Semester Hours:** 3 to 3

TFVP 4570 - Directing Practicum
Directing Practicum is professional practice training through a mentored project-based assistantship with directors. During class students will be connected to and assist directors on film and theatre projects, working in small groups or one on one, to develop their skills. **Semester Hours:** 3 to 3

TFVP 4910 - BA Senior Project
This course consists of structured work and independent work sessions leading students to a portfolio and career path. Students will be required to research various career opportunities and produce a professional portfolio for faculty review. **Semester Hours:** 1 to 1
**Theatre Courses (THTR)**

**THTR 1000 - Visual Culture**  
Study academic theories surrounding visual cultures related to Film, Theatre & Video relating to topics such as representation, spectatorship, and mass media by viewing, research, and analyzing. Creative projects, readings, and written responses will increase sensitivity to visuals usage. Cross-listed with FITV 1000. **Semester Hours:** 3 to 3

**THTR 1001 - Introduction to Theatre & Arts in the Community**  
Discussion, workshops, and lectures designed to discover, analyze, and evaluate all aspects of the theatre experience: writing, acting, directing, staging, history, theory and its relationship to film & video. Attending plays and field trips to several Denver-area theaters, and demonstrations. **Semester Hours:** 3 to 3

**THTR 1110 - Production Design: Theatre, Film and Video**  
This design research class explores the creative skills, technical knowledge and scholarly engagement employed by production designers. The students will understand how design elements enhance a production and create a production design for a video, film or play. **Semester Hours:** 3 to 3

**THTR 1220 - Acting Skills Module I**  
This course is the study in vocal and physical techniques for skill development for the actor in various media which provides a foundation for continued study and performance. **Semester Hours:** 3 to 3

**THTR 1770 - Art Direction and Design Skills I**  
Students will study principles of theatre and film production design. They will do exercises in drawing, sketching, drafting, and rendering, with practical application towards theatre, film, and architectural design techniques. Upon completion, student will have a basic production design skills. **Semester Hours:** 3 to 3  
*When Offered: SPRING*

**THTR 1890 - Production Crafts I**  
Students introduced to practical applications of production tools stage equipment and construction vocabulary, through lectures and experiences in a variety of production settings. Students participate as crew members for both theatrical and film events thereby acquiring production skills. **Semester Hours:** 3 to 3

**THTR 1891 - Production Crafts Lab**  
Students introduced to theoretical and practical applications of production tools, vocabulary, and experiences through working on projects and production crews in a variety of production settings. Students participate as crew members in lab for both theatrical and film events thereby acquiring production skills. **Semester Hours:** 1 to 1

**THTR 1895 - Production Crafts II**  
Students introduced to practical applications of costume construction, design & vocabulary, through lectures and experiences in a variety of production settings. Students will construct, maintain, serve as crew members for both theatrical and film events thereby acquiring production skills. **Semester Hours:** 3 to 3

**THTR 2220 - Acting: Performance for Film, Theatre, and TV**  
Provides the study, skill development and workshop experience for the actor in various media? Including film, television, commercial and voice over work. Cross-listed with FITV 2220. **Semester Hours:** 3 to 3
THTR 2375 - Design and Decoration Survey
A survey of the history of visual decoration and ornamentation from ancient civilizations through to contemporary art. Subjects will include the study of textiles, motifs, ornamentation, architecture, and furniture and of the influences that shaped the history of visual decoration. **Semester Hours:** 3 to 3  
**When Offered:** FALL

THTR 2380 - Costume History Survey
This course explores the history of Costume & Fashion from Ancient Greece through the present; includes an analysis of historical modes of production, and artistic creation in related cultures. **Semester Hours:** 3 to 3

THTR 2400 - Technical Drawing for Production
Students will study principles of technical drawing through lectures and projects. They will do exercises in sketching, orthographic projection and drafting, with practical application towards theatre, film, and architectural design techniques. Upon completion, student will have skills in technical drawing methods. **Semester Hours:** 3 to 3  
**When Offered:** FALL SPR

THTR 2450 - Introduction to Performing Arts and Events Management
Offers students the ability to learn about stage managing events in the performing arts, in a non-pressure environment where leadership and organizational skills may develop and the student can gain a general understanding of the profession. **Semester Hours:** 3 to 3

THTR 2510 - Introduction to Oral Interpretation
Students will have required readings in a variety of text styles. They will choose perform scenes from those texts introducing them to the basic performance skills required for Stage and Screen acting. **Semester Hours:** 3 to 3

THTR 2531 - Acting for Non-Theatre Majors
Introductory acting course which focuses on the skills comprising the actor's art and their direct application to all disciplines of study outside of the theatre major. Students investigate interpersonal skills such as collaboration, communicating, risk-taking, listening, and creative problem solving. **Semester Hours:** 3 to 3

THTR 2560 - Topics in Theatre
Specialized topics in theater. **Semester Hours:** 1 to 6

THTR 2600 - Studio I: Dynamics of Content Creation
Investigates the process of creating performance texts for live, recorded and mixed presentation as well as the methods of selecting, transforming and pacing material for performance. **Semester Hours:** 3 to 3

THTR 2710 - Theatrical Design, Aesthetics, Production I
**Semester Hours:** 3 to 3

THTR 2770 - Art Direction & Design Skills II
Students will study advanced presentation hand & computer techniques for through lectures and projects. They will develop skills in sketching, rendering, model building for theatre, film, and other designed environments (retail, rock concerts, worship, industrial productions, & restaurants). **Semester Hours:** 3 to 3  
**When Offered:** SPRING
THTR 2820 - Departmental Production
Participation in departmental production. **Semester Hours:** 1 to 1

THTR 2821 - Multi-Arts Performance
Participation in an integrated arts performance piece. Credit hours are determined by a faculty advisor and are dependent on the level of responsibility in the production. **Semester Hours:** 2 to 3

THTR 2822 - Affiliated Theatre Production
Participation in a production at an affiliated theatre in the Denver metro area. Credit hours are determined by a faculty advisor and are dependent on the level of responsibility in the production. **Semester Hours:** 1 to 2

THTR 2823 - Theatre Buffs Production
Participation in a Theatre Buffs production. Credit hours are determined by a faculty advisor and are dependent on the level of responsibility in the production. **Semester Hours:** 1 to 2

THTR 2824 - Theatre Practice: Management
Practicum component of the theatre emphasis requirement through participation in stage management, box office management, or public relations for an approved production. Credit hours are determined by a faculty advisor and are dependent on level of responsibility in the production. **Semester Hours:** 2 to 4

THTR 2840 - Independent Study: THTR
Prereq: Written permission of the supervising instructor. **Semester Hours:** 1 to 3

THTR 2890 - Production Crafts III
Students introduced to practical applications of prop construction, design & vocabulary, and scenic painting through work experiences in a variety of production settings. Students will construct, maintain, serve as crew members for both theatrical and film events, thereby acquiring production skills. **Semester Hours:** 3 to 3

THTR 2895 - Production Crafts IV
Students are introduced to practical applications of lighting & sound design as well as installation practices & vocabulary, through work experiences in a variety of production settings. Students serve as crew members for events, thereby acquiring production skills. **Semester Hours:** 3 to 3 **When Offered:** SPRING

THTR 2900 - Dramatic Writing for Stage and Screen
Students will read, analyze and write short dramatic scripts for stage and screen. Students will write, present & rewrite, with special emphasis on the demands of production: space, acting, staging conventions and techniques. **Semester Hours:** 3 to 3

THTR 3010 - Stage and Production Management
This is a course that addresses aspects of planning and managing various theatrical events and live performances. Emphasizes maximum results, given the complexity of live performance and the resource pool. **Semester Hours:** 3 to 3

THTR 3115 - Critical Perspectives on Performance
Students explore performance with particular histories, commitments, and processes. and read and discuss historical, theoretical, and critical perspectives, as well as see performances. Will make use of
THTR 3300 - Studio I: Dynamics of Content Creation
Students investigate the process of creating performance texts for live, recorded and mixed presentation. Through lectures and studio work the class will explore the methods of selecting, researching, transforming and scoring images, text and material for performance. **Semester Hours:** 3 to 3 **When Offered:** SPRING

THTR 3500 - Elements of Directing
Students explore the director's analytical process, interpretative production choices, and rehearsal techniques that are fundamental to the director's work in theater, film and video productions. By using hands-on learning environment with a primary focus on the interpretation and staging scripts. **Semester Hours:** 3 to 3 **When Offered:** FALL

THTR 3520 - Acting/Directing Studio
This is a workshop course modeled on professional studios for Directors and Actors. Students study in vocal and physical techniques for skill development in a variety of scene work directed by members of the directing class. Prereq: THTR 2220. Coreq: **Semester Hours:** 3 to 3 **When Offered:** FALL

THTR 3530 - Acting: Character and Text
Fully prepared scene studies leading to advance work in characterization and text. Methods of discovering and utilizing the range of creative potential play scripts from the current production program are emphasized. **Semester Hours:** 3 to 3

THTR 3531 - Theatre of Social Responsibility
Students study interactive theater based on selected social, political, or community concerns (peer pressure, gender identification and substance abuse). Students will create a performance piece on the selected topic. **Semester Hours:** 3 to 3

THTR 3550 - World Theatre
Discussion, workshops and lectures designed to discover, analyze and evaluate the world theatre experience from countries outside of the United States. The course will explore theatre and its precedents in Asia, Africa, Eastern Europe and Latin America. **Semester Hours:** 3 to 3

THTR 3560 - Topics in Theatre
Specialized topic in theater. **Semester Hours:** 1 to 3

THTR 3561 - Topics in Theatre: Honors in Humanities Cluster
Specific topics courses designed as cluster courses for the Honors in Humanities program. Titles rotate on a regular basis. **Semester Hours:** 1 to 3

THTR 3580 - Theatre for Children
Offered irregularly. Study of processes involved in creating substantial theatre for children, including an examination of various sources for dramatizing children's stories, fairy tales, poems, and existing scripts. Includes a full production of a children's play to be performed by members of the class before audiences of children. **Semester Hours:** 3 to 3
THTR 3610 - Performance: Theory/History/Criticism I
Part one of two semester course sequence exploring questions of dramatic theory and dramaturgy in context of the development of Western Theater before 1850 and an analysis of historical modes of production, dramatic text and artistic creation in relation to contemporary theatrical practice. Semester Hours: 3 to 3 When Offered: FALL

THTR 3611 - Drama of Diversity
Investigates the creation and reinforcement of gender, ethnic, and racial stereotypes in theatre, film, and television in the United States. The course explores how popular images are created by writers, directors, and performers, and become "reality" for the audiences for which they are intended. Semester Hours: 3 to 3

THTR 3620 - Performance: Theory/History/Criticism II
Performance: Theory/History/Criticism II: Part of 2 semester course sequence exploring Western theatre. Students will read plays, research documents from 1875 through the present and write papers on historical modes, production methods, dramatic theory of production, and dramatic text, in relation to contemporary theatrical practice. Semester Hours: 3 to 3

THTR 3720 - Lighting Design
A practical introduction to the history, theory, practice and equipment for lighting performing arts productions. Course emphasizes textual analysis for lighting design, basic electricity, lighting equipment and control, safety practices and lighting graphics. Requirements include related experiences with departmental productions. Semester Hours: 3 to 3

THTR 3725 - Arts in Action
Students study interactive theater based on selected social, political, or community concerns & will use their skills to create a performance piece. Students use various sources for dramatizing stories and will tour the production. Requires out of class time for performances. Semester Hours: 3 to 3

THTR 3735 - Career Creation
This course consists of work sessions assisting students with portfolio and career path. Students will be required to explore related careers, do interviews and activities, assess their strengths and interests and produce professional portfolios in several possible employment areas. Semester Hours: 3 to 3

THTR 3760 - Sound Design for the Theater
Sound design with practical application towards usage in the theatrical discipline. Includes studio techniques, live playback, script analysis, and recording techniques. Students will learn the various applications through work on class projects and performances. Semester Hours: 3 to 3

THTR 3765 - Digital Visualization for Production
Digital 2d and 3D techniques, vocabulary and processes used specifically in the creation, visualization and implementation of pre and post-production design elements for the Performing Arts. Hardware and software technology explicit to the disciplines will be covered. Semester Hours: 3 to 3

THTR 3770 - Production Design Studio I
Students will study design & presentation using design projects. Using skills in sketching, rendering, and model building they will turn out 5 project designs for Scenery, or Lighting or Costume Design or retail,
rock concerts, worship, industrial productions, & restaurants). **Semester Hours:** 3 to 3 **When Offered:** FALL

**THTR 3775 - Production Design Studio II**
Students will design advanced projects. Using skills in sketching, rendering, and model building, they will turn out 2 complete projects, one each in their primary and secondary design (or tech areas). These projects overlap to mimic real world design situations. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**THTR 3840 - Independent Study: THTR**
Prereq: Written permission of supervising instructor. **Semester Hours:** 1 to 3

**THTR 3995 - Travel Study Topics**
**Semester Hours:** 3 to 3

**THTR 4090 - Senior Seminar & Project**
A seminar integrating the development of four capstone projects (research, creative work, collaborative process and service/outreach) with a continuing forum focused on current issues in professional practice. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**THTR 4200 - Capstone: Theatre Practice**
A seminar integrating the development of a production utilizing the combined talents of the senior class. Major production positions both on and off stage will be filled by as many students as possible area. **Semester Hours:** 3 to 3 **When Offered:** SPRING

**THTR 4350 - Selected Studies in Theatre & Film**
Course supplements the department’s regular course offerings. Topics related to current productions and issues in Theatre or Film & community. Prereq: Must have 60 semester hours in THTR or permission of the instructor. Note: Open to both majors and non-majors. Can be taken more than once when topics vary. **Semester Hours:** 3 to 3 **When Offered:** FALL

**THTR 4530 - Acting: Character and Media**
Provides skill development and workshop experience for the actor in media work-film, television, and video. Students will analyze and present scene work in both live and media performances utilizing feedback from class and instructor. **Semester Hours:** 3 to 3

**THTR 4560 - Topics in Theater**
Various special interest topics in the study of production, theory, and analysis with an emphasis on theater. **Semester Hours:** 1 to 3

**THTR 4570 - Creative Drama**
Offered irregularly. Study of creativity, its role and application in dramatics, and the manner in which creative dramatics assists in the growth and development of children and youth. **Semester Hours:** 3 to 3

**THTR 4580 - Theatre for Children**
Offered irregularly. Study of the processes involved in creating designed and substantial theatre for children, including an examination of various sources for dramatizing children’s stories, fairy tales, poems and existing scripts. Includes a full production of a children’s play to be performed by members of the class before audiences of children. **Semester Hours:** 3 to 3
THTR 4611 - American Theatre History
**Semester Hours:** 3 to 3

THTR 4730 - Advanced Scenic Design
Students will continue studies in graphic techniques, design styles and the integration of production design areas. Students will complete projects in scenic design for various production forms. Outcomes will include fully realized design projects with renderings, models and drafting. **Semester Hours:** 3 to 3

THTR 4760 - Topics in Design
A special topics investigating production design in traditional and non-traditional endeavors. Students will explore various design skills through projects and participation in departmental productions. Attendance and review of productions will be scheduled. **Semester Hours:** 3 to 3

THTR 4770 - Advanced Production Design Studio
Students will design a portfolio piece, professional quality project to be used in their BFA jury. This course provides a ?Paper project? in contrast to Senior Capstone Project class which could be a group project with a number of variables. **Semester Hours:** 3 to 3  **When Offered:** FALL

THTR 4820 - Theatre Practice
Advanced practicum in production work for an approved production. Credit hours are determined by faculty advisor and are dependent on the level of responsibility in the production. **Semester Hours:** 1 to 4

THTR 4840 - Independent Study: THTR
**Semester Hours:** 1 to 3

THTR 5530 - Acting: Character and Media
Provides skill development and workshop experience for the actor in media work - film, television, and video. Students will analyze and present scene work in both live and media performances utilizing feedback from class and instructor. **Semester Hours:** 3 to 3

THTR 5550 - Playwriting: The Short Form
Writing workshop in one-act plays, with special emphasis on the demands of production: space, acting, staging conventions and techniques. Students will write and revise several one act play scripts. **Semester Hours:** 3 to 3

THTR 5560 - Topics in Theatre
Various special interest topics in the study of production, theory, and analysis with an emphasis on theater. **Semester Hours:** 1 to 3

THTR 5570 - Creative Drama
Offered irregularly. Study of creativity, its role and application in dramatics, and the manner in which creative dramatics assist in the growth and development of children and youth. **Semester Hours:** 3 to 3

THTR 5580 - Theatre for Children
Offered irregularly. Study of the processes involved in creating substantial theatre for children, including an examination of various sources for dramatizing children’s stories, fairy tales, poems, and existing scripts. Includes a full production of a children's play to be performed by members of the class before audiences of children. **Semester Hours:** 3 to 3
THTR 5611 - American Theatre History
Offered irregularly. Investigates American theatres, methods of presentation, audiences, actors, acting, and economics from 1700 to the present, emphasizing contemporary practices and values as away of understanding and appreciating the place of theatre in this country as it has evolved and developed.

**Semester Hours:** 3 to 3

THTR 5840 - Independent Study: THTR

**Semester Hours:** 1 to 3

THTR 5939 - Internship

**Semester Hours:** 1 to 6

THTR 5995 - Travel Study

**Semester Hours:** 3 to 3

THTR 6840 - Independent Study: THTR

**Semester Hours:** 1 to 3

THTR 6950 - Master’s Thesis

**Semester Hours:** 1 to 6
Urban Teacher Education Courses (UEDU)

UEDU 1930 - Intro To Urban Education
This course examines sociological issues concerning urban schools, communities and provides an overview of school culture, diversity and social realities in American schools. Students will critically examine education issues that affect their lives, the Semester Hours: 3 to 3

UEDU 4000 - Elementary Literacy Instruction and Assessment
Designed to prepare teacher candidates to develop an appreciation, understanding, and application of literacy assessment and instruction in the elementary classroom. Teachers learn how to use the results of various types of assessment to create a reading Semester Hours: 3 to 3

UEDU 4001 - Social Studies through Childrens' Literature & Writing
This course explores social studies through children's literature and writing instruction. Investigates best practices for literacy teachers to draw upon students' cultural and linguistic backgrounds, help students make connections between new information Semester Hours: 3 to 3

UEDU 4002 - Math Instr & Assmt
Designed to prepare elementary teachers to teach mathematics in elementary school while applying the six principles of the National Council of Teachers of Mathematics (NCTM), (equity, curriculum, teaching, learning, assessment and technology) to the four Semester Hours: 2 to 2

UEDU 4003 - Teaching Elementary Mathematics
This course is intended to increase the mathematical and pedagogical understandings and competence of elementary teachers, focusing on instructional principles and practices. Cross- listed with UEDU 5003. Semester Hours: 2 to 2

UEDU 4004 - Elementary Science Methods
This course explores issues in elementary school science learning and teaching. Teacher candidates will develop knowledge of the nature of science and science content, engage in scientific inquiry, work to identify student conceptions, and plan and enact Semester Hours: 3 to 3

UEDU 4010 - Social Foundations and Cultural Diversity in Urban Education
This course focuses on the role of cultural diversity in the United States school system and what this means for educators oriented toward social justice. The intention of this course is to have teacher candidates engage in exploring the most salient issues Semester Hours: 3 to 3

UEDU 4020 - Co-developing Culturally Responsive Classroom Communities
This course investigates how people learn and the implications of social and cultural learning for establishing engaging and culturally responsive learning communities. Through this course teacher candidates will better understand their roles in student Semester Hours: 3 to 3

UEDU 4040 - Exploring Diversity in Content and Pedagogy I
The purpose of this course is to explore multiple aspects of complex curriculum and instructional processes including: 1) standards-based instruction; 2) instructional design; and 3) formative & summative assessment, and 4) differentiation in curriculum Semester Hours: 3 to 3
UEDU 4050 - Exploring Diversity in Content and Pedagogy II
An essential feature of instructional and curriculum design, implementation, and evaluation is the ability of teachers to draw upon students' previous experience, help students make connections between new information and previous knowledge and skills, an Semester Hours: 3 to 3

UEDU 4100 - Secondary Literacy Instruction and Assessment
Provides knowledge and practice in using specific literacy methods to enhance students' content learning and literacy development in middle schools and high schools. Various methods of literacy assessment to guide instruction for students are emphasized. Semester Hours: 3 to 3

UEDU 4110 - Tchg Literacy in Eng Ed
Designed to meet both Colorado Literacy Council & Colorado Performance-Based Standards for prospective secondary English/LA teachers concerning Knowledge of Literacy, the course provides knowledge and practice using specific literacy methods to enhance st Semester Hours: 3 to 3

UEDU 4200 - Theory and Methods of Teaching Secondary English
Focuses on teaching/learning theories and practical classroom strategies for teaching English Language Arts to adolescent learners in middle school, junior high school and high school classes. Cross-listed with LCRT 5200. Semester Hours: 3 to 3

UEDU 4201 - Adolescent Literature
Reading and evaluation of fiction and non-fiction appropriate for students in middle and senior high school. Emphasis is on modern literature written for students from a variety of ethnic backgrounds. Course is also appropriate for teachers working with a Semester Hours: 3 to 3

UEDU 4300 - Curriculum and Methods in Secondary Math
Fosters pedagogical content knowledge for teaching mathematics in middle and high school classes. Promotes teaching consistent with the NCTM principles (Equity, Curriculum, Teaching, Learning, Assessment, and Technology), so ALL students become resourcef Semester Hours: 3 to 3

UEDU 4301 - Assessment In Math Education
Applied examination of traditional and alternative assessment techniques and practices in mathematics teaching. Focuses on questions/problems teachers can pose to probe students' mastery and understanding of standards-based mathematics, and what to look f Semester Hours: 3 to 3

UEDU 4400 - Theory and Pedagogy of Science Instruction
Examines current issues, strategies, materials, and technology related to the teaching and learning of science at the middle and secondary school levels. Science curriculum, teachers' pedagogical content knowledge, and research in science education are i Semester Hours: 3 to 3

UEDU 4401 - Inquiry Science Pedagogy and Practices
An in-depth study of inquiry science pedagogy and practices and how inquiry science supports standards-based education to make science accessible to ALL learners. The course provides a review of research on pedagogy and practices that support student und Semester Hours: 3 to 3

UEDU 4464 - History Methods
One of two courses on linguistically and culturally relevant history and social studies teaching. Course content includes geography, economics, civics, sociology, anthropology, and psychology, with emphasis on History. Course complements work in interns Semester Hours: 3 to 3
UEDU 4840 - Independent Study
Independent Study in Urban Community Teacher Education, Topic of study varies according to project.  
**Semester Hours:** 3 to 3

UEDU 4845 - Special Topics:
Course topics will vary depending on faculty and student interests.  **Semester Hours:** 1 to 5

UEDU 4930 - Early Internship & Seminar
Teacher candidates considering pursuing teacher licensure in their undergraduate program engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educations programs within  
**Semester Hours:** 2 to 2

UEDU 4931 - Internship & Lrng Comm I
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates par  
**Semester Hours:** 2 to 2

UEDU 4932 - Internship & Lrng Comm II
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates par  
**Semester Hours:** 2 to 2

UEDU 4933 - Internship & Lrng Comm III
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates par  
**Semester Hours:** 6 to 6

UEDU 4934 - Extended Internship & Learning Community
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, they participate in the  
**Semester Hours:** 4 to 8

UEDU 5000 - Elementary Literacy Instruction and Assessment
Designed to prepare teacher candidates to develop an appreciation, understanding, and application of literacy assessment and instruction in the elementary classroom. Teachers learn how to use the results of various types of assessment to create a reading  
**Semester Hours:** 3 to 3

UEDU 5001 - Social Studies through Childrens' Literature & Writing
This course explores social studies through children's literature and writing instruction. Investigates best practices for literacy teachers to draw upon students' cultural and linguistic backgrounds, help students make connections between new informatio  
**Semester Hours:** 3 to 3

UEDU 5002 - Math Instr & Assmt
Designed to prepare elementary teachers to teach mathematics in elementary school while applying the six principles of the National Council of Teachers of Mathematics (NCTM), (equity, curriculum, teaching, learning, assessment and technology) to the four  
**Semester Hours:** 2 to 2
UEDU 5003 - Teaching Elementary Mathematics
This course is intended to increase the mathematical and pedagogical understandings and competence of elementary teachers, focusing on instructional principles and practices. Cross-listed with UEDU 4003. Semester Hours: 2 to 2

UEDU 5004 - Elementary Science Methods
This course explores issues in elementary school science learning and teaching. Teacher candidates will develop knowledge of the nature of science and science content, engage in scientific inquiry, work to identify student conceptions, and plan and enact Semester Hours: 3 to 3

UEDU 5010 - Scl Fndts, Ctrl Dvrsty Urb Ed
This course focuses on the role of cultural diversity in the United States school system and what this means for educators oriented toward social justice. The intention of this course is to have teacher candidates engage in exploring the most salient issues Semester Hours: 3 to 3

UEDU 5015 - TFA Professional Learning Communities
The Teach for America Professional Learning Communities are designed to be a resource and forum for content groups to collaborate on best practices in assessment, instruction, and data gathering. As truly purposeful communities, they exhibit five characteristics Semester Hours: 3 to 3

UEDU 5020 - Co-developing Culturally Responsive Classroom Communities
This course investigates how people learn and the implications of social and cultural learning for establishing engaging and culturally responsive learning communities. Through this course teacher candidates will better understand their roles in student Semester Hours: 3 to 3

UEDU 5040 - Exploring Diversity in Content and Pedagogy I
The purpose of this course is to explore multiple aspects of complex curriculum and instructional processes including: 1) standards-based instruction; 2) instructional design; and 3) formative & summative assessment, and 4) differentiation in curriculum Semester Hours: 3 to 3

UEDU 5050 - Exploring Diversity in Content and Pedagogy II
An essential feature of instructional and curriculum design, implementation, and evaluation is the ability of teachers to draw upon students' previous experience, help students make connections between new information and previous knowledge and skills, an Semester Hours: 3 to 3

UEDU 5060 - Motivation and Engagement in Curriculum and Learning
This course focuses on the Six Cs of motivation and engagement; the framework designed to reach these students who are not complaint learners. This course allows teachers to think deeply about their role in motivating and engaging students and allows par Semester Hours: 3 to 3

UEDU 5070 - Curriculum Theories in Urban Education
Topics in this course include: curriculum theory; the debate on the purpose of curriculum; multicultural education; critical race theory; social class and school improvement; the intended and unintended consequences of school accountability, reform and Semester Hours: 3 to 3

UEDU 5100 - Secondary Literacy Instruction and Assessment
Provides knowledge and practice in using specific literacy methods to enhance students' content learning and literacy development in middle schools and high schools. Various methods of literacy assessment to guide instruction for students are emphasized. Semester Hours: 3 to 3
UEDU 5110 - Tchg Literacy in Eng Ed
Designed to meet both Colorado Literacy Council & Colorado Performance-Based Standards for prospective secondary English/LA teachers concerning Knowledge of Literacy, the course provides knowledge and practice using specific literacy methods to enhance student achievement. **Semester Hours:** 3 to 3

UEDU 5200 - Theory and Methods of Teaching Secondary English
Focuses on teaching/learning theories and practical classroom strategies for teaching English Language Arts to adolescent learners in middle school, junior high school and high school classes. Cross-listed with LCRT 5200. **Semester Hours:** 3 to 3

UEDU 5201 - Adolescent Literature
Reading and evaluation of fiction and non-fiction appropriate for students in middle and senior high school. Emphasis is on modern literature written for students from a variety of ethnic backgrounds. Course is also appropriate for teachers working with a **Semester Hours:** 3 to 3

UEDU 5300 - Curriculum and Methods in Secondary Math
Fosters pedagogical content knowledge for teaching mathematics in middle and high school classes. Promotes teaching consistent with the NCTM principles (Equity, Curriculum, Teaching, Learning, Assessment, and Technology), so ALL students become resourceful. **Semester Hours:** 3 to 3

UEDU 5301 - Assessment In Math Education
Applied examination of traditional and alternative assessment techniques and practices in mathematics teaching. Focuses on questions/problems teachers can pose to probe students’ mastery and understanding of standards-based mathematics, and what to look for. **Semester Hours:** 3 to 3

UEDU 5400 - Theory and Pedagogy of Science Instruction
Examines current issues, strategies, materials, and technology related to the teaching and learning of science at the middle and secondary school levels. Science curriculum, teachers’ pedagogical content knowledge, and research in science education are integral. **Semester Hours:** 3 to 3

UEDU 5401 - Inquiry Science Pedagogy and Practices
An in-depth study of inquiry science pedagogy and practices and how inquiry science supports standards-based education to make science accessible to ALL learners. The course provides a review of research on pedagogy and practices that support student understanding. **Semester Hours:** 3 to 3

UEDU 5464 - History Methods
One of two courses on linguistically and culturally relevant history and social studies teaching. Course content includes geography, economics, civics, sociology, anthropology, and psychology, with emphasis on History. Course complements work in internships. **Semester Hours:** 3 to 3

UEDU 5500 - Integrating Academic, Social, and Emotional Learning
This course offers principles and practices for teachers to: 1) cultivate and sustain their own authentic and intentional teaching practice; 2) support their students' social, emotional, and academic development; 3) collaborate with colleagues to foster professional growth. **Semester Hours:** 3 to 3

UEDU 5510 - Creating Empowering Classrooms
This course will focus primarily on integrating themes of social justice and culturally responsive teaching into the classroom. The objectives will be to know the self as a teacher, to know his/her students and to know the socio-political-historical-economic environment. **Semester Hours:** 3 to 3
**UEDU 5520 - Mindful and Creative Thinking and Learning**
This course addresses the role of art, group work, and physical surroundings in the development of mindful and creative thinking and learning. **Semester Hours:** 3 to 3

**UEDU 5810 - Stdt-Drv Actn Rsrch**
This is a two-semester course in which participating teachers will learn how to implement Critical Civic Inquiry (CCI) in their schools. CCI is a model of student-driven action research aimed at improving student voice in schools and facilitating student **Semester Hours:** 6 to 6

**UEDU 5840 - Independent Study**
Independent Study in Urban Community Teacher Education, Topic of study varies according to project. **Semester Hours:** 3 to 3

**UEDU 5845 - Special Topics:**
Course topics will vary depending on faculty and student interests. **Semester Hours:** 1 to 5

**UEDU 5931 - Internship & Lrng Comm I**
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates par **Semester Hours:** 2 to 2

**UEDU 5932 - Internship & Lrng Comm II**
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates par **Semester Hours:** 2 to 2

**UEDU 5933 - Internship & Lrng Comm III**
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, teacher candidates par **Semester Hours:** 8 to 8

**UEDU 5934 - Extended Internship & Learning Community**
Teacher candidates engage in systematic observation of, participation in, design of, and reflection on curricular, instructional, and management practices across the full range of educational programs within a school. Additionally, they participate in the **Semester Hours:** 4 to 8
University Honors and Leadership Courses (UNHL)

UNHL 1100 - Introduction to University Honors and Leadership
The UNHL program was developed with the goal of creating academics with leadership skills to communicate their ideas and strong leaders with the ability to think critically, analyze issues from alternate perspectives and develop and communicate plausible solutions that take into consideration all points of view; the ideal end result of the program would be intelligent, ethical leaders and scholars in multiple fields of endeavor. The three areas around which the course will revolve are: a) Oil, b) Robots, c) Penicillin. Each of these topics allows multiple facets of a university education in the old sense to be explored from philosophy, history and art to chemistry, physics and engineering. There will be multiple means of exploration for each of these topics, from lectures and in-class discussions to field trips and engagement activities; there will be writing assignments in every phase that will focus on writing skills and writing for different audiences. **Semester Hours:** 3 to 3

UNHL 2755 - UHL Seminar
**Semester Hours:** 1 to 1

UNHL 2840 - Independent Study
**Semester Hours:** 1 to 6

UNHL 2850 - Faculty-Mentored Research
UNHL student research conducted under the supervision of UC Denver faculty. Prereq: Permission of sponsoring faculty mentor and UNHL Director. **Semester Hours:** 1 to 6

UNHL 2870 - Intensive Spanish
Combines both semesters of second-year Spanish in an intensive course for UNHL students. Prereq: UNHL 1100, Spanish 1020 or equivalent. Students who have not completed Spanish 1020 are required to demonstrate first-year language proficiency through placement exam prior to enrolling in this course. **Semester Hours:** 3 to 3

UNHL 2939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Cumulative GPA of 3.0 or above and permission of UNHL Director/Associate Director. **Semester Hours:** 1 to 3

UNHL 3010 - Leadership Behavior: Historical and Contemporary Perspectives
This course will provide students with an opportunity to integrate historical and contemporary issues in the study of leadership behavior. The course is based on leadership research and writing that reveals the leader as facilitator, collaborator, servant, and follower. The course will provide students with an opportunity to reflect, discuss, and write on topics and questions related to leadership and followership behavior. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

UNHL 3100 - Ethics & Leadership: An Introduction
This one-semester ethics and leadership course will introduce students to the wide variety of some of the best leadership theories and their application to current ethical issues. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

UNHL 3110 - Leadership, Communication, and Conflict
Leaders spend a significant amount of time managing conflict. This course is designed to explore the practical and theoretical basis of conflict and communication, and seeks to examine critical leadership
processes that lead to the increased likelihood of organizational survival through successful conflict management. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

**UNHL 3120 - Leading For Change**
Examination of the qualities and practices that make for effective change leadership. Case studies are used to focus on exemplary adaptive leaders from different sectors and cultures, examining the role they play in facilitating problem solving and change management. The role of emotional intelligence in the work of adaptive leadership is also emphasized. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

**UNHL 3250 - Leadership and Sustainability**
This course examines issues of sustainability and the leadership challenges associated with the creation of sustainable social structures. Topics covered include a wide range of sustainability concerns such as: global population and food scarcity, alternative fuels and energy systems, biological and human health, leadership and sustainability program development, and symbolic and media representations of sustainability. Prereq: UNHL 1100 and second- or third-year status in the UNHL program. **Semester Hours:** 3 to 3

**UNHL 3310 - Innovation, Cutting-Edge Knowledge, and Self-Guided Learning**
The purpose of this course is to familiarize students with cutting-edge knowledge in major scientific and technological fields, against the background of cultural and artistic creativity, and to establish habits of lifelong, self-guided learning. To enhance this process, relevant faculty will be invited to speak about innovation in their field, both in class and during the planned panel discussion. Prereq: UNHL 1100 and second- or third-year status in the UNHL program. **Semester Hours:** 3 to 3

**UNHL 3501 - Love and Death in the Greek Classics**
This course introduces students to classical Greek literature, focusing on love and death in Homeric epic, lyric poetry, tragic drama, the history and social science of Thucydides, the comedies of Aristophanes, and Plato’s philosophical dialogues. **Semester Hours:** 3 to 3

**UNHL 3502 - The History and Literature of Science in the 19th Century**
This course will examine the literature of the 19th Century, the history of science in that period, and how those works and that history impact how we think about science today. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

**UNHL 3503 - Ethics, Academic Integrity, and Social Responsibility**
This course combines research and class discussions in such a way that theories, viewpoints, and practical proposals regarding ethics and its application to intellectual responsibility are understood in their own right as well as in relation to other human activities. One daunting task will be facing up to the challenge of how to use the increasingly powerful information tools provided by universities. In the last third of the semester, students will be asked to work in teams on projects dealing with current ethics controversies. Prereq: UNHL 1100; not open to students who have taken UNHL 3100. **Semester Hours:** 3 to 3

**UNHL 3520 - Ancient Human Environmental Impacts**
This course is an exploration of the history of human engagement with their environment, focusing specifically on what ecological and archaeological data can tell us and how to best collect and conceptualize them. It will introduce students to key concepts in past human ecology to establish humanity’s place in nature as well as examine a series of targeted case studies in order to trace how these relationships between humans and their ecosystems may have changed in scale and nature over time and in different contexts. Prereq: UNHL 1100. **Semester Hours:** 3 to 3
**UNHL 3610 - Neuroscience and Society**  
Science has provided tantalizing glimpses into the nature of humans and the groups in which they live. This course will explore these matters in a way that encourages critical analysis of the relationship between our brains and the world. In the process, we will focus on the scientific method itself and its standing in relation to faith, ideology, and sociopolitical attitudes. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

**UNHL 3620 - Migration, Modernity, and Literacy**  
An examination of the causes, consequences, difficulties, and enduring problems of migration in contemporary global society. Political, legal, and educational problems of modernity and mass migration are analyzed. Course work includes social scientific research into historical and contemporary migration flows. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

**UNHL 3625 - Food Justice: Urban Agriculture, Place, and Culture**  
Addresses systemic inequities in access to fresh and healthy food as illustrated by neighborhoods termed ?Food deserts.? Questions examined include how sustainable/ethical relationships can be established between growing food and creating community, developing consciousness of place, and affirming cultural food/agricultural traditions. **Semester Hours:** 3 to 3

**UNHL 3630 - Migration and Development**  
The impact on societies across the globe of a record 214 million-plus migrants living outside of their countries of birth. An interdisciplinary overview of the historical roots, causes, and consequences in receiving and sending nations of contemporary international migration flows. Topics include brain gain and brain drain, gender differences, immigrant diasporas, remittances, acculturation, circular migration, illegal immigrant flows, and transnational human trafficking. Focus on experiences in North America, Europe, the Middle East, and Southeast Asia. Students will have the opportunity to compare and contrast immigrant communities in the Denver region. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

**UNHL 3810 - Understanding and Dealing with Uncertainty**  
This course discusses the concept of uncertainty from multiple perspectives. What is uncertainty? How does it relate to other notions such as ignorance or variation of risk? How do we deal with uncertainty? We will consider ideas from mathematics, science, philosophy, religion, law, and psychology, among other fields. Students will be required to develop their own ideas on uncertainty in written form and/or participate in group presentations. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

**UNHL 3815 - Life in the Information Age**  
This course charts the contours, contradictions, and challenges of life in the Information Age. Adopting the perspective of technocapitalism, it explores how advances in communication technologies and changes in our economic system are altering our daily lives. Although radical change is always disruptive and disorienting, this course does not naively deny or pessimistically lament these changes. Rather, it chooses to focus on how persons can confront, address, adapt to, and excel in our rapidly changing world. Prereq: UNHL 1100 and second- or third-year status in the UNHL program. **Semester Hours:** 3 to 3

**UNHL 3820 - The Economics of Life**  
Study of the economic approach to human behavior and its application to the analysis of markets and areas including politics, law, family life, and other social issues. Students will develop an understanding of how the economic approach differs from other approaches to analyzing these phenomena and for the possibilities and limitations of the economic approach. Prereq: UNHL 1100. **Semester Hours:** 3 to 3
UNHL 3825 - Irish Music, Peace, Politics, and Popular Culture
This course explores traditional and contemporary music in Ireland, examines Irish politics and the peace process in the Republic and Northern Ireland, and considers ways in which various forms of Irish popular culture have represented Irishness and Irish identity. **Semester Hours:** 3 to 3

UNHL 3830 - Jazz in American Culture
This class will explore the influence of jazz music (and related forms like ragtime and the blues) on American culture more generally. Specific topics to be explored include the Post-Reconstruction Race Politics, the Delta and the Great Migration, New Orleans, and the Harlem renaissance. Important figures of African-American literature, and Jazz & the Blues music will also be presented. Students will examine a multitude of literary and musical experiences through novels, short works, biographies, and listening. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

UNHL 3835 - Evaluating Contemporary Cinema
This course focuses on the valuation of contemporary film in national and international contexts. Approaching film as an art form, students learn to critically examine and evaluate the formal aspects of cinema, including narrative, cinematography, mise-en-scène. **Semester Hours:** 3 to 3

UNHL 3870 - History and Culture of Spanish-Speaking World
Study of the history, culture, politics, and social environment of Spain and/or the Spanish-speaking world. Topics determined by instructor. Prereq: UNHL 1100; UNHL 2870, SPAN 2120, or demonstration of second-year Spanish language proficiency through placement exam. **Semester Hours:** 3 to 3

UNHL 3910 - Ideology and Revolution
Was ideology invented in the 19th Century? Conservatism, Liberalism, Nationalism and Socialism were all invented in the short span of 1789 - 1870. In this course we read works of Edmund Burke, Karl Marx, J.S. Mill, and others who reacted to the French and Industrial Revolutions, hoping to repair the social fabric. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

UNHL 3939 - Internship
Experiences involving application of specific, relevant concepts and skills in supervised employment situations. Prereq: Cumulative GPA of 3.0 or above and permission of UNHL Director/Associate Director. **Semester Hours:** 1 to 3

UNHL 3995 - Global Study
UNHL Academic Honors track and Leadership Studies track. Travel study, with location and topics to be selected by the instructor. Prereq: UNHL 1100, 2755, and permission of the UNHL Director. **Semester Hours:** 1 to 4

UNHL 4410 - Biology and Politics
Exploration of the reciprocal relationship between biology and politics. Topics include the impact of genetics and biological development on behavior, how public policies impact human and animal biology and the ecology of the earth, and their impact of nature and nurture on racial and gender differences. Prereq: UNHL 1100. **Semester Hours:** 3 to 3

UNHL 4840 - Independent Study
**Semester Hours:** 1 to 6
UNHL 4850 - Faculty-Mentored Research
UNHL student research conducted under the supervision of UC Denver faculty. Prereq: Permission of sponsoring faculty mentor and UNHL Director. **Semester Hours:** 1 to 6

UNHL 4991 - Senior Research Seminar I
Capstone experience for UNHL program. Students will work in teams on research projects of a multidisciplinary nature. Prereq: Fourth-year standing in the UNHL program or permission of the UNHL Director. **Semester Hours:** 2 to 2

UNHL 4992 - Senior Research Seminar II
Continuation of UNHL 4991. Students will work in teams on research projects of a multidisciplinary nature. Prereq: Fourth-year standing in the UNHL program or permission of the UNHL Director. **Semester Hours:** 2 to 2
Urban Design Courses (URBN)

**URBN 6610 - Urban Design Studio I**
Introduces urban structure and morphology, presenting city as complex, ecological organism comprised of interrelated systems. Working on urban/metropolitan scale, students deconstruct city into series of infrastructural layers, then recompose and restructure it in a more integrated fashion. **Semester Hours:** 6 to 6

**URBN 6611 - Urban Design Studio II**
Advances understanding of tools, methods and practice of urban design. Operating on neighborhood scale, studio emphasizes proactive role designers play in shaping regulations. Students consider real estate development economics, aesthetic criteria, historic preservation, and methods of effective community participation. **Semester Hours:** 6 to 6

**URBN 6612 - International Studio**
Immerses students in rapidly urbanizing international location. Primary focus on complexities of approaching international design practice from foreign perspective. Studio operates within network of professionals involved in contemporary urbanization projects. Students develop complete project and consider politics, economics and regulation. **Semester Hours:** 6 to 6

**URBN 6633 - Form and Formation of Cities**
This course investigates the origins and types of human settlements; the history of cities and urbanization; urban morphology and the evolution of the built environment; urban form principles and theory; and types of urbanism. Cross-listed with URPL 6350 **Semester Hours:** 3 to 3

**URBN 6640 - History of the City**
Introduces students to the history of global cities through selected typologies. Explores similarities and differences among cities considered against the larger cultural, political and socio-economic envelope of which they are part. Provides awareness of origins, growth and evolution of urban form. Cross-listed with ARCH 6240. **Semester Hours:** 3 to 3

**URBN 6641 - Design Process/Practice**
Advances current practice by exploring innovative methods of design analysis, production, representation, and communication. Community participation and civic engagement are integral components of seminar, and students are introduced to business of urban design through contact with prominent urban design professionals. **Semester Hours:** 3 to 3

**URBN 6642 - Design Policy/Regulation**
Argues that a role of urban designers is to shape built environment through combination of physical intervention and policy development. Students review urban economic and real estate trends and assess zoning/land use regulations to understand impacts on built environment quality. **Semester Hours:** 3 to 3

**URBN 6643 - Graphics for Planners**
Professional planners must be able to communicate their design concepts through graphical means. Students will learn to communicate with use of hand and technical drawings, color renderings, computer modeling and graphic layout design. Cross-listed with URPL 5500. **Semester Hours:** 3 to 3
URBN 6644 - Sustainable Urbanism
This seminar explores the connections between ecology and urbanism. It will examine the multiple, interrelated ecological and social systems operating in the city. Students will explore innovative design processes and techniques that serve to create a h Semester Hours: 3 to 3

URBN 6645 - Global Design Practice
This seminar will educate students about critical issues related to practicing design in a global context. Course will examine diverse issues of design and planning practice from contracts, communication and culture to remote research, design opportunities and ethics. Prereq: URBN 6642. Semester Hours: 3 to 3

URBN 6686 - Special Topics: Urban Design
Various topical concerns are offered in urban design history, theory, elements, concepts, methods, implementation strategies, and other related areas. Semester Hours: 1 to 6

URBN 6730 - International Studies Preparation
The course will prepare students to go to China, for 10-day International Summer School, 5-week China Summer Urban Design Joint Studio, 9-month Gensler Internship, and 1-year LA Dual Degree program. Topics include historic, geographic and cultural issues, and language lessons. Cross-listed with ARCH 6730, LDAR 6730, and URPL 6730. Semester Hours: 1 to 3

URBN 6840 - Independent Study: URBN
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to urban design. Semester Hours: 1 to 3

URBN 6930 - Urban Design Internship
Designed to provide professional practice experience in urban design. Emphasis on actual work experience in settings with client groups as students assist them in determining solutions. Program directors approval required. Semester Hours: 3 to 3
Urban & Regional Planning Courses (URPL)

URPL 5000 - Planning History and Theory
This course offers a comprehensive review of the major historical and theoretical developments in planning; the human aspects of planning as a social, political, and community-oriented process; public engagement; social justice; planning leadership and ad Semester Hours: 3 to 3

URPL 5010 - Natural and Built Environments
This course covers the fundamentals of physical planning; history and evolution of cities and urbanization; regional/global perspectives in planning; natural systems and ecology; environmental sustainability; environmental regulation and policy; and the Semester Hours: 3 to 3

URPL 5020 - Planning Law and Institutions
This course covers the legal basis for planning; the evolution of planning law through a comprehensive review of landmark court decisions; and the types and hierarchies of governments, their powers and relationships, and how planning operates within those Semester Hours: 3 to 3

URPL 5030 - The Planning Profession
This course offers a comprehensive survey of the breadth and depth of the planning profession; different types of planners and the organizations that employ them; business aspects of planning; planning solicitation process; planning ethics; and profession Semester Hours: 3 to 3

URPL 5040 - Planning Methods
This course focuses on the most commonly applied quantitative and qualitative methods used in planning; data organization and management principles; and various ways to collect, analyze, and communicate data as a fundamental component of the planning proc Semester Hours: 3 to 3

URPL 5050 - Urban Development
This course explores how cities get built. Topics include an overview of the players, processes, politics and policies of real estate development; land division, entitlement, and regulation; site planning and development review; development finance; and p Semester Hours: 3 to 3

URPL 5060 - Planning Technologies Workshop
This course offers practice-based instruction in the most common planning-related technologies, including geographic information systems; graphics/photo-imaging; 3D/visualization; and mobile/web applications, with direct application of these technologies Semester Hours: 3 to 3

URPL 5070 - Planning Skills Workshop
As an introduction to the studio environment, this course provides students with hands-on, client-based experience and knowledge/skills development in physical planning and design; the planning process; planning contexts; plan making; and collaborative pl Semester Hours: 3 to 3

URPL 5500 - Graphics for Planners
Professional planners must be able to communicate their design concepts through graphical means. Students will learn to communicate with use of hand and technical drawings, color renderings, computer modeling and graphic layout design. Cross-listed with URBN 6643. Semester Hours: 3 to 3
URPL 6000 - Planning Project Studio
This studio course requires student teams to complete a substantial planning project using a comprehensive set of knowledge/skills for real-world clients. Five focus area options offered annually: Healthy Communities, Urban Revitalization, Regional Sustai Semester Hours: 6 to 6

URPL 6200 - Land Development Regulations
This course provides a comprehensive exploration of the various components of land development regulation, including preliminary plats; general/final development plans; zoning; PUDs; variances; site plan/development review; land use regulators; regulatory Semester Hours: 3 to 3

URPL 6205 - Plan Making
This course offers a broad overview of the various types of plans and the specific processes involved in their creation, including comprehensive plans; rural/small town plans; corridor plans; small area plans; campus/ institutional plans; special plans. Semester Hours: 3 to 3

URPL 6210 - Planning Politics & Engagement
This course focuses on the politics involved in planning and the planner?s role in engaging with the public. Topics include planning advocacy; public meetings; public engagement techniques; diverse publics; controversial planning topics; mediation; and ne Semester Hours: 3 to 3

URPL 6215 - Analyzing the Built Environment
This course explores various means and techniques used to analyze and characterize the built environment, including land division and development measures; urban morphology; and analyzing the spatial attributes of cities and regions at varying scales and Semester Hours: 3 to 3

URPL 6220 - Advanced Research Techniques
This course offers an in-depth look at a variety of research principles and techniques, including advanced qualitative and quantitative data collection; survey design; sampling; probability distributions; hypothesis testing; inferential statistics; other Semester Hours: 3 to 3

URPL 6249 - Project Management
Introduces the knowledge and skills of Project Management (PM) in a business environment. Emphasis will be on the entire project life cycle, the project management process groups and the knowledge areas as presented in the Project Management Body of Know Semester Hours: 3 to 3

URPL 6250 - Advanced GIS for Planners
This course expands beyond the fundamentals of Geographic Information Systems to offer intensive instruction in GIS analysis and cartography; advanced GIS applications and tools; GIS integration with other applications and technologies; innovations in geo Semester Hours: 3 to 3

URPL 6255 - Emerging Planning Technologies
This course explores the rapid pace of innovation in planning-related technologies and offers a comprehensive review of the latest web-based and mobile applications, and new technologies used in virtual participation/engagement, data collection/visualizat Semester Hours: 3 to 3

URPL 6300 - Planning for Healthy Communities
This course provides a comprehensive review of the relationship between human health and the built environment. Topics include the planner?s role in understanding and promoting physical fitness; food access; walkability; environmental quality; active tran Semester Hours: 3 to 3
URPL 6305 - Healthy Community Assessments
This course focuses on defining, organizing, and conducting Health Impact Assessments, health measures, policies, best practices, and other types of studies and analyses related to the link between the built environment, public health, and healthy communities **Semester Hours:** 3 to 3

URPL 6310 - Community Food System Planning
Healthy communities require sustainable local and regional food systems. This course examines how communities can collaboratively develop and implement programs, processes and practices that help ensure food security and equitable access to healthy food **Semester Hours:** 3 to 3

URPL 6349 - Global Health Studies II
Global Health Studies II: Comparative Health Systems. The course has three parts: (1) examines the social and cultural construction of sickness, systems of etiology cross culturally, the therapeutic encounter, varying roles of healer and patient, and **Semester Hours:** 3 to 3

URPL 6350 - Form and Formation of Cities
This course investigates the origins and types of human settlements; the history of cities and urbanization; urban morphology and the evolution of the built environment; urban form principles and theory; and types of urbanism. Cross-listed with URBN 6633 **Semester Hours:** 3 to 3

URPL 6355 - Urban Redevelopment Strategies
This course focuses on the best practices and strategies used to help revitalize urban areas. Topics include urban infill development; TODs; adaptive reuse; historic preservation; design review; parking; public spaces; brownfield/grayfield redevelopment; **Semester Hours:** 3 to 3

URPL 6360 - Urban Infrastructure
This course provides a comprehensive exploration of transit planning, including transit planning fundamentals; transit routes and systems; transit modes and technologies; ridership modeling; scheduling; operations; funding; policies and regulation; related **Semester Hours:** 3 to 3

URPL 6365 - Parks and Public Spaces
This course offers a focused look at the role of parks and public spaces in the development and activation of cities; their designs, qualities, and components; management /operations; funding; policies; equal access; role as community and economic development **Semester Hours:** 3 to 3

URPL 6397 - Design Policy/Regulation
Argues that a role of urban designers is to shape built environment through combination of physical intervention and policy development. Students review urban economic and real estate trends and assess zoning/land use regulations to understand impacts on **Semester Hours:** 3 to 3

URPL 6398 - Design Process/Practice
Advances current practice by exploring innovative methods of design analysis, production, representation, and communication. Community participation and civic engagement are integral components of seminar, and students are introduced to business of urban **Semester Hours:** 3 to 3

URPL 6399 - Introduction to Sustainable Urban Infrastructure
Focuses on developing uniform vocabulary on sustainable infrastructure across science & technology, architecture & planning, public policy, and health & behavioral sciences. Students learn concepts, principles/pathways and evaluation techniques for promoting **Semester Hours:** 3 to 3
URPL 6400 - Community Development
This course introduces community development, examining planners and other stakeholders' roles in the field; key theories and practices; community dynamics; community-based organizations; asset-based development; social equity; and the influence of local Semster Hours: 3 to 3

URPL 6405 - Urban Housing
This course examines housing trends and patterns; supply and demand factors; housing policies; housing challenges (e.g., inequitable distribution, special needs, segregation/discrimination, and homelessness); sociological, demographic, and economic consider Semester Hours: 3 to 3

URPL 6410 - Social Justice in Planning
This course investigates various social justice issues encountered in planning, including conflict resolution; advocacy; environmental justice; social equity; culture and diversity; disadvantaged populations; public engagement techniques; affordability; e Semester Hours: 3 to 3

URPL 6449 - Urban Social Problems
Examines local government from the perspective of sociology and group dynamics. Course could include some or all of the following subjects: neighborhoods and community groups, class and race relations, community crime, social service issues, immigration, Semester Hours: 3 to 3

URPL 6450 - Urban Economic Systems
This course offers an exploration into urban economic systems; local economies; urban economic development; urban market assessment; local job generation; local scenario planning; local taxes/spending; and urban fiscal/economic policies and impacts at the Semester Hours: 3 to 3

URPL 6455 - Real Estate Dev. for Planners
This course offers a detailed analysis of the real estate development process; its relationship to the planning/design profession; the myriad variables involved in real estate development business and their interrelationships; and the factors of a project Semester Hours: 3 to 3

URPL 6460 - Green Real Estate Development
This course offers an exploration into the principles, designs, policies, and best practices relating to sustainable real estate development. Topics include infill development; transit-oriented development; LEED-ND; green buildings; universal design; mixe Semester Hours: 3 to 3

URPL 6499 - Preservation Theory and Practice
Philosophical questions in preservation practice; balancing significance in the environment with natural decay and demands for change. Policy issues as well as preservation and adaptation design. Cross-listed with HIPR 6010. Semester Hours: 3 to 3

URPL 6500 - Enviro. Policy & Regulation
This course focuses on the important field of environmental policy and regulation, including topics such as the National Environmental Policy Act (NEPA); environmental justice; environmental law; land use conflicts; contamination/remediation; environmenta Semester Hours: 3 to 3

URPL 6505 - Environmental Management
This course provides a comprehensive investigation of environmental management topics, including natural hazards/disasters and mitigation planning; ecosystems; air/water quality; natural area conservation and management; habitat protection; and environmen Semester Hours: 3 to 3
URPL 6510 - Energy/Natural Res. Planning
This course provides an overview of the issues associated with energy and natural resource planning. Topics include: energy policy; alternative energy development; water resources; extraction/mining; natural resource protection and regulation; resource management. Semester Hours: 3 to 3

URPL 6515 - Sustainable Planning & Design
This course takes a comprehensive look at the principles of sustainable planning and design. Topics include: sustainability defined; measuring sustainability; sustainable planning/practices; sustainable design; LEED and other sustainability programs and certification. Semester Hours: 3 to 3

URPL 6548 - Defining & Measuring Sustainability
Unique cross-disciplinary course that teaches students community engagement strategies to define sustainability goals. Life cycle assessment and material flow analysis tools used to measure environmental sustainability benchmarks. Fieldwork applies both theoretical and practical knowledge. Semester Hours: 3 to 3

URPL 6549 - Environmental Impact Assessment
The objective of this course is to provide the foundation for understanding the environmental impact assessment process, its legal context, and the criteria and methods for procedural and substantive compliance. Prereq: URPL 5530 or permission of instructor. Semester Hours: 3 to 3

URPL 6550 - Transportation Planning/Policy
This course examines policy issues in urban transportation planning: how transportation system design and political/institutional contexts shape transportation decision-making; major modes of urban transportation; and the social, environmental, economic implications. Semester Hours: 3 to 3

URPL 6555 - Transportation and Land Use
Examines basic concepts/methods in contemporary land use and transportation planning, including travel demand forecasting, traffic impact analysis, travel behavior, active transportation; and examples of transportation/land use interaction such as the integration of planning policies. Semester Hours: 3 to 3

URPL 6560 - Transit Planning
This course provides a comprehensive exploration of transit planning, including transit planning fundamentals; transit routes and systems; transit modes and technologies; ridership modeling; scheduling; operations; funding; policies and regulation; related sustainability issues. Semester Hours: 3 to 3

URPL 6565 - Pedestrian & Bicycle Planning
This course provides a detailed focus on the unique planning issues and factors involved with bicycle and pedestrian modes of transportation, including pedestrian/bicycle planning fundamentals; routes and systems; facilities and design requirements; funding; policies and regulation; related sustainability issues. Semester Hours: 3 to 3

URPL 6600 - Regional Planning and Policy
This course explores the issues associated with planning and policymaking at the regional scale, including regional planning fundamentals; land use/transportation relationships; regional environmental constraints; regional cooperation and governance; related sustainability issues. Semester Hours: 3 to 3

URPL 6605 - Regional Economic Systems
This course offers a comprehensive investigation into regional economic systems; metropolitan economies; regional economic development; regional market assessment; job generation; taxes/spending; and fiscal/economic policies and impacts at the metropolitan scale. Semester Hours: 3 to 3
URPL 6610 - Planning Sustainable Suburbs
This course takes a detailed look at the unique characteristics, issues, and challenges associated with planning and retrofitting automobile-oriented suburban communities and the opportunities for development of new communities using sustainable planning. **Semester Hours:** 3 to 3

URPL 6615 - Small Town and Rural Planning
This course investigates the unique characteristics, issues, and challenges associated with planning in small and/or rural communities, including agricultural issues and farmland conservation; growth management; rural economic development; and small downtown. **Semester Hours:** 3 to 3

URPL 6630 - Planning Studio I
Focuses on plan design in urban and regional planning and explores basic concepts, techniques, and issues related to urban planning, urban design, site planning, and environmental awareness. **Semester Hours:** 6 to 6

URPL 6632 - City Design Policy
Focuses on historical and contemporary relationship between regulatory policy and urban form. Course views zoning and land use regulations as ways of intervening in built environment’s production, providing analytical methods for evaluating morphological outcomes suggested by given zoning codes. **Semester Hours:** 3 to 3

URPL 6635 - City Building
Examines changing norms in city planning and design from 1800 to the present and the production of the built environment by a variety of actors. Discussions of zoning, land use regulation, management, and the creation of ordinary/everyday urban space. **Semester Hours:** 3 to 3

URPL 6636 - Design Policy/Regulation
Argues that a role of urban designers is to shape built environment through combination of physical intervention and policy development. Students review urban economic and real estate trends and assess zoning/land use regulations to understand impacts on built environment quality. Cross-listed with URBN 6642. **Semester Hours:** 3 to 3

URPL 6637 - Comprehensive Planning
This course will review and analyze the theory, practice and role of comprehensive planning. The focus will be on moving from theory to practice while integrating real world examples, planning skills and methods, forecasts, data collection, surveys, public process, visioning and strategic planning. **Semester Hours:** 3 to 3

URPL 6649 - Environmental Planning I: Ecology
Studies the physiography, cultural factors, and aesthetic criteria in relation to landscape and spatial organization and structure. Covers data sources and interpretation, and looks at environmental factors in development and site analysis. Prereq: URPL 5510 or permission of instructor. **Semester Hours:** 3 to 3

URPL 6650 - Planning in the Dev. World
This course explores the issues involved in planning in the developing world; challenges and solutions for complex development; health/community issues; social justice; cultural/technological issues; environmental justice; funding; infrastructure development. **Semester Hours:** 3 to 3
URPL 6652 - Growth Management
Examines environmental and land regulations such as zoning, subdivision controls, and growth management systems in the context of public policy. Emphasis is placed on case studies, the analysis of past and present practices, improvement of existing systems, and the design of new regulatory systems. Prereq: URPL 5530 or permission of instructor. **Semester Hours: 3 to 3**

URPL 6655 - Comparative International Planning
This course investigates the global dimensions of planning, including a survey of global planning issues; a comparative analysis of planning philosophies, policies, techniques and approaches used throughout the world; and international planning coordinati **Semester Hours: 3 to 3**

URPL 6661 - Real Estate Development Finance
Focuses on financial analysis of real estate investments. Covers topics including measures of value, capitalization rate, capital budgeting, debt and equity markets and taxation. Cash flow and appraisal techniques, complex deal structuring, innovations in debt financing, syndications, tax shelters, tax-exempt financing, and micro-computer applications also are covered. **Semester Hours: 3 to 3**

URPL 6665 - Urban Market Analysis
Considers how markets for land and real estate, labor, capital, and private and public goods and services deploy resources and shape both social and spatial outcomes in urban settings. Posits models of policy intervention whose effects are transmitted by private actions orchestrated within the interlocking markets that form the economy of cities. Provides selected examples of the analysis of markets in such policy venues as land development, public transit, urban housing, and regional labor markets. Prereq: URPL 5510 and 5520. **Semester Hours: 3 to 3**

URPL 6681 - Sustainable Tourism Planning
This course is about impacts of tourism on fragile cultural and ecological environments: how to read and understand these impacts; ways to mitigate using planning approaches and tools; and how to share these understandings in order to persuade the public to take action. **Semester Hours: 3 to 3**

URPL 6730 - International Studies Preparation
The course will prepare students to go to China, for 10-day International Summer School, 5-week China Summer Urban Design Joint Studio, 9-month Gensler Internship, and 1-year LA Dual Degree program. Topics include historic, geographic and cultural issues, and language lessons. Cross-listed with ARCH 6730, LDAR 6730, and URBN 6730. **Semester Hours: 1 to 3**

URPL 6800 - Special Topics: Urban and Regional Planning
Various topical concerns are offered in urban and regional planning, theory, concepts, methods, case studies and practice. **Semester Hours: 3 to 3**

URPL 6805 - Planning Internship
Designed to provide professional practice experience in urban and regional planning. The emphasis is on actual work experience in settings with client groups as the students assist them in determining solutions to their problems. **Semester Hours: 3 to 3**

URPL 6810 - Independent Study: URPL
Studies initiated by students or faculty and sponsored by a faculty member to investigate a special topic or problem related to urban and regional planning. **Semester Hours: 1 to 3**
**URPL 6900 - Planning Capstone A**
Planning Capstone Experience requires students (individually or in small groups) to identify a planning study/thesis/project topic of their choosing, develop a detailed work plan/schedule, complete their study/thesis/project, and conclude with a final del **Semester Hours:** 0 to 0

**URPL 6905 - Planning Capstone B**
Planning Capstone Experience requires students (individually or in small groups) to identify a planning study/thesis/project topic of their choosing, develop a detailed work plan/schedule, complete their study/thesis/project, and conclude with a final del **Semester Hours:** 6 to 6

**URPL 6910 - Planning in Other Cultures II: Field Experience**
Students travel to their respective cities and undertake agreed-upon study proposals. Intends not only to help students consider their own design and planning attitudes, but also to help them see the world from a more balanced perspective. **Semester Hours:** 6 to 6

**URPL 6950 - Thesis Research and Programming**
Prereq: Minimum of 24 credit hours earned toward completion of Master of Urban and Regional Planning degree. **Semester Hours:** 3 to 3

**URPL 6951 - Urban and Regional Planning Thesis**
**Semester Hours:** 3 to 3
Women’s Studies Courses (WGST)

WGST 1050 - Introduction to Women’s and Gender Studies
This course provides an introduction to key concepts, themes and approaches to the interdisciplinary field of women's and gender studies. Semester Hours: 3 to 3

WGST 2900 - Smart Girl Leadership Training and Practicum
Provides leadership and mentoring training, and a practicum in which UCD students mentor teenagers in their community or school settings. Following completion of the training, students work as near-peer mentors and coaches with groups of teenage girls in the Denver community and apply the skills learned in their training. Semester Hours: 3 to 3

WGST 3010 - Sociology of Human Sexuality
Increases the understanding of differences in views of sexuality, specifically the link between sex and reproduction and its role as the motivation for gender roles and sex acts. Explores the history of sexuality, cross-cultural studies and primate modeling. Cross-listed with SOCY 3010. Semester Hours: 3 to 3

WGST 3020 - Gender, Sexuality and Race in American Popular Culture
This course explores the impact of popular culture on the lived experience of diverse women and men in America. Students will examine how cultural media (including film, television, print ads, music & digital games) can both reproduce and challenge existing structural inequalities. Semester Hours: 3 to 3

WGST 3080 - Sex and Gender
Causes and consequences of sex role differentiation at the individual, group and societal levels. Current issues related to changing norms and values concerning gender in modern society are examined. Cross-listed with SOCY 3080. Semester Hours: 3 to 3

WGST 3343 - Women in U.S. History
An analysis of women's place in society, in the work place, and in the political arena over the last 300 years. Cross-listed with HIST 3343. Semester Hours: 3 to 3

WGST 3450 - Twentieth Century Women Writers
Examines how women write about a specific theme, such as home, work, family, the "other," as well as how women's writing may differ from men's. Theme and genre vary. Cross-listed with ENGL 3450. Semester Hours: 3 to 3

WGST 3700 - Sociology of the Family
The family as a social institution. Historical development and contemporary cross-cultural analysis, with emphasis on the contemporary American family. Cross-listed with SOCY 3700. Semester Hours: 3 to 3

WGST 3840 - Independent Study: WGST
Semester Hours: 1 to 3

WGST 3939 - Internship
Designed experiences involving application of specific, relevant concepts and skills in supervised employment situations. Junior standing and 2.75 GPA. Semester Hours: 1 to 3

WGST 4215 - Women’s Rights, Human Rights: Global Perspectives
Explores the global feminist movement's campaign to "engage" human rights. Examination of women's human-rights issues and the critique of this campaign as representing cultural imperialism. Prereq: 6
hours of political science or permission of instructor. Cross-listed with PSCI 4215. **Semester Hours:** 3 to 3

**WGST 4230 - Women in the West**
Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the western states. Cross-listed with HIST 4230, HIST 5230 and WGST 5230. **Semester Hours:** 3 to 3

**WGST 4248 - Gender, Globalization and Development**
Analyzes the effects of globalization on the gendered processes of international development and strategies to empower women to achieve gender justice across race, class and national divisions. Cross-listed with PSCI 4248/5245 and WGST 5248. **Semester Hours:** 3 to 3

**WGST 4303 - Sex and Gender in Modern Britain**
Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to the present. Cross-listed with HIST 4303/5303 and WGST 5303. **Semester Hours:** 3 to 3

**WGST 4306 - Survey of Feminist Thought**
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women’s characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 4306, 5306, WGST 5306. **Semester Hours:** 3 to 3

**WGST 4307 - History of Sexuality**
Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with HIST 4307/5307 and WGST 5307. **Semester Hours:** 3 to 3

**WGST 4345 - Gender, Science, and Medicine: 1600 to the Present**
Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with HIST 4345/5345 and WGST 5345. **Semester Hours:** 3 to 3

**WGST 4420 - Goddess Traditions**
Explores the many forms which goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld goddesses of death and destruction. Cross-listed with RLST 4420/5420 and WGST 5420. **Semester Hours:** 3 to 3

**WGST 4510 - Whores and Saints: Medieval Women**
Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with ENGL 4510/5510, RLST 4730/5730 and WGST 5510. **Semester Hours:** 3 to 3
WGST 4511 - French Women Writers
Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Prereq: FREN 3112 or FREN 3122 plus one other 3000-level French course or permission of instructor. Cross-listed with FREN 4510/5510 and WGST 5511. **Semester Hours:** 3 to 3

WGST 4540 - Race, Class, and Gender in Spanish Golden Age Literature
Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq: SPAN 3252 and at least one additional literature course. Cross-listed with SPAN 4540/5540 and WGST 5540. **Semester Hours:** 3 to 3

WGST 4555 - International Women's Resistance
Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with PSCI 4555/5555, ETST 4555 and WGST 5555. **Semester Hours:** 3 to 3

WGST 4564 - Gender and Politics
Analysis of the political experience of women and of strategies for change. Emphasis on the U.S. Cross-listed with PSCI 4564. **Semester Hours:** 3 to 3

WGST 4710 - Women and Religion
A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women's involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 5710, RLST 4710/5710. **Semester Hours:** 3 to 3

WGST 4827 - Women and the Law
Examines the role of the courts in the development of public policy toward women; how the legal system affects the economic power, family roles, safety and political participation of women. Cross-listed with PSCI 4827 and ETST 4827. **Semester Hours:** 3 to 3

WGST 4933 - Philosophy of Eros
Why is philosophy an erotic activity and what are the implications of this insight? We will explore these issues, first, by reading Plato's erotic dialogues: Lysis, Symposium and Phaedrus. Then we will focus on Freud's influential (and controversial) appropriation of Plato's thought in the writings that span his career, from The Interpretation of Dreams (1900) to Civilization and its Discontents (1930) and beyond. Finally, we will survey post-Freudian theories of eros, such as Michel Foucault's History of Sexuality, as well as the more recent contributions of thinkers such as Jonathan Lear, Thomas Nagel, Martha Nussbaum and Slavoj Zizek. Cross-listed with PHIL 4933/5933, SSCI 5933, HUMN 5933 and WGST 5933. **Semester Hours:** 3 to 3

WGST 5230 - Women in the West
Focuses on ways in which women, from the mid-19th century through the mid-20th century, of different races, classes, and ethnic background, have interacted and been active participants in the development of the Western states. Cross-listed with WGST 4230 and HIST 4230/5230. **Semester Hours:** 3 to 3
WGST 5248 - Gender, Globalization and Development
Analyzes the effects of globalization on the gendered processes of international development and strategies to empower women to achieve gender justice across race, class and national divisions. Cross-listed with WGST 4248 and PSCI 4248/5245. **Semester Hours:** 3 to 3

WGST 5303 - Sex and Gender in Modern Britain
Examines modern British history by focusing on sex and gender as central aspects in people's lives. Considers the ways gender shapes the realms of politics, economics, society and culture in Britain from the 18th century to present. Cross-listed with WGST 4303 and HIST 4303/5303. **Semester Hours:** 3 to 3

WGST 5306 - Survey of Feminist Thought
Examines changes and continuities in feminist thought from the 18th century to the present, using historical and literary materials. Explores the ways that women's characteristics, experiences, and capabilities have been understood and challenged. Cross-listed with ENGL 4306, 5306, HIST 4306, 5306, WGST 4306. **Semester Hours:** 3 to 3

WGST 5307 - History of Sexuality
Explores the relationships between gender and norms, sexual practice, and ideas about sexuality in Europe and the United States. Examines how sex and sexuality have changed over time and how those changes relate to social, cultural, political and economic history. Cross-listed with WGST 4307 and HIST 4307/5307. **Semester Hours:** 3 to 3

WGST 5345 - Gender, Science and Medicine: 1600 to the Present
Examines the ways science and medicine have both shaped and been shaped by ideas about gender. Pays particular attention to the relationship between scientific/medical ideas about the sexes and the social organization of gender. Cross-listed with WGST 4345 and HIST 4345/5345. **Semester Hours:** 3 to 3

WGST 5420 - Goddess Traditions
Explores the many forms which goddesses have assumed through history, including the Neolithic Great Mother and her heiresses in the ancient Mediterranean cultures, such as: Isis, Ishtar, Demeter, Hecate, Aphrodite, Artemis, Athena and others, and their parallels in India. Goddess traditions have encompassed a full spectrum from virgins to Great Mothers to dark underworld goddesses of death and destruction. Cross-listed with WGST 4420 and RLST 4420/5420. **Semester Hours:** 3 to 3

WGST 5510 - Whores and Saints: Medieval Women
Studies how women are presented in texts, as well as works by women. Investigates the roles open to women and societal attitudes toward women, who were considered seductresses, saints, scholars and warriors in the middle ages. Prereq: Nine hours of literature courses or instructor permission. Cross-listed with WGST 4510, ENGL 4510/5510 and RLST 4730/5730. **Semester Hours:** 3 to 3

WGST 5511 - French Women Writers
Designed to explore writings by French and Francophone women from the Middle Ages to the present. Addresses the question of what it means to be a woman and want to write. The selections include a wide variety of genres: autobiographical writings, stories, poems, manifestos, letters, political and historical documents. Prereq: FREN 3112 or 3122 plus one other 3000-level French course or permission of instructor. Cross-listed with WGST 4511 and FREN 4510/5510. **Semester Hours:** 3 to 3
WGST 5540 - Race, Class and Gender in Spanish Golden Age Literature
Explores works of various genres in relation to their social and political contexts in 16th and 17th century Spain, emphasizing the cultural attitudes toward race, class, and gender that inform them. Prereq: SPAN 3252 and at least one additional literature course. Cross-listed with WGST 4540 and SPAN 4540/5540. **Semester Hours:** 3 to 3

WGST 5555 - International Women’s Resistance
Examines local and international struggles of women to build peace and justice by resisting systems of inequality such as colonialism, racism, patriarchy, globalization, and religious intolerance. Cross-listed with WGST 4555, ETST 4555 and PSCI 4555/5555. **Semester Hours:** 3 to 3

WGST 5710 - Women and Religion
A sociological exploration of the contemporary roles of women in religion. Course examines American and world religious groups with an eye to women’s involvement. Considers how women have changed these traditions as they take on leadership roles and discusses the tensions that arise within these traditions as a result of their expanded participation. Cross-listed with HUMN 5710, SSCI 4710/5710, WGST 4710, RLST 4710/5710. **Semester Hours:** 3 to 3

WGST 5720 - Sexuality, Gender and Their Visual Representations
Studies sexuality, gender and identity representation from classical antiquity through the present in the visual arts. Uses the literature of visuality, feminism, race and queer theory. Explores representations of femininity, masculinity and androgyny and their reinforcement and challenge to gender-identity norms. Cross-listed with HUMN 5720 and SSCI 5720. **Semester Hours:** 3 to 3

WGST 5900 - Smart Girl Coaching Training and Practicum
Course provides training (lecture and role-playing) in coaching and mentoring which will be applied to support near-peer guides in delivering the Smart Girl curriculum in school settings. Following the completion of the training, students work as coaches for teams of near-peer mentors and groups of teenage girls in the Denver Community, and apply the skills learned in their training. **Semester Hours:** 3 to 3

WGST 5933 - Philosophy of Eros
Why is philosophy an erotic activity and what are the implications of this insight? We will explore these issues, first, by reading Plato's erotic dialogues: "Lysis," "Symposium" and "Phaedrus." Then we will focus on Freud's influential (and controversial **Semester Hours:** 3 to 3

WGST 6010 - Methods and Theories of Feminism and Gender Studies
Provides graduate-level interdisciplinary study in historiography, methodologies and theories of women’s, gender and sexuality studies and considers how culture is constructed around these categories. Cross-listed with SSCI 6010. **Semester Hours:** 3 to 3
