

FISH, WILDLIFE & CONSERVATION BIO-CSU (FWLD)

FWLD 5440 - Ecotoxicology (3 Credits)

The purpose of this course is to provide students with an overview of ecological and environmental aspects of toxicology and pollution ecology. The course will emphasize population, community, and ecosystem responses to contaminants and other anthropogenic stressors. Prerequisite: Statistics and introductory biology required.

Grading Basis: Letter Grade

A-PUBH1 Graduate students and public health certificate students only.

Additional Information: Colorado State University.

Typically Offered: Spring.
