NEUROSCIENCE (NRSC)

NRSC 6210 - Translational Research - Alzheimer's Disease/Dementias (4 Credits)
The course will facilitate a solid understanding of translational research in Alzheimer's Disease and Alzheimer's Disease Related Dementias, including neuropsychological and neuropathological disease features, genetic risk factors, biomarkers and brain imaging tools, statistical analyses, therapeutic approaches and clinical trial design.
Gradning Basis: Letter Grade
Typically Offered: Spring.

NRSC 7501 - Introduction to Neuroscience (1 Credit)
Introduction to study of the nervous system from the level of the brain to an understanding of how neurons are specialized for communication and information processing. This course is a prerequisite for NRSC 7600 series courses.
Gradning Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring.

NRSC 7600 - Cellular & Molecular Biology (3 Credits)
A comprehensive, in-depth, discussion-based course intended for candidates for the Ph.D. in Neuroscience. Topics include ion channel structure and function, ionic basis of the resting and action potential, and the biochemistry and physiology of direct and synaptic transmission.
Gradning Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall.

NRSC 7610 - Fundamentals of Neurobiology (3 Credits)
This course will provide basic knowledge on the structure and function of the nervous system. The lectures will be supplemented by discussion of primary research literature in neurobiology. Prereq: NRSC 7600 or equivalent at the discretion of the instructors.
Gradning Basis: Letter Grade
Repeatable. Max Credits: 3.
A-GRAD Restricted to graduate students only.
Typically Offered: Spring.

NRSC 7615 - Developmental Neurobiology (3 Credits)
This course will cover fundamental principles regarding development of the nervous system. The format of the course will consist of lecture plus reading of primary literature.
Gradning Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall.

NRSC 7616 - Introduction to Biomedical Photonics (3 Credits)
The course introduces several principles of applying optical techniques to biomedical applications. Current development of biophotonic research, such as microscopy, optical coherence tomography, optical spectroscopic techniques in tissues, will be discussed. Prereq: EE 5802 Optical Engineering. Crosslisted: Electrical Engineering EE 5804.
Gradning Basis: Letter Grade
Typically Offered: Spring.

NRSC 7617 - The Biophysics of Ion Channels (1 Credit)
Examination of the mechanisms of ion channel gating. Covers basic of bioelectricity, kinetic analysis of channel gating, microscopic and macroscopic gating, thermodynamics, ion channel structure, ion channel pharmacology, and channelopathies.
Gradning Basis: Letter Grade
Typically Offered: Spring.

NRSC 7618 - Biology of the Eye (1 Credit)
Crosslisted with OPHT 6610 (for medical students). The objective of this course is to familiarize students with the core concepts and challenges in ophthalmology and vision research. The course integrates cutting-edge basic science with translational research and clinical advances. Prereq: Must be a graduate student (not a medical student).
Gradning Basis: Letter Grade
Typically Offered: Fall.

NRSC 7650 - Research in Neuroscience (1-10 Credits)
Research work in neuroscience. Prereq: Consent of instructor.
Gradning Basis: Letter Grade with IP
Repeatable. Max Credits: 99.
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring, Summer.

NRSC 7661 - Grant Proposal Writing Workshop (1 Credit)
The course is practical workshop in grant-writing culminating in a mock review panel including course participants. Students will examine various proposal types/formats, then write their own proposal in the format of NRSA fellowship application. Restriction: Students with adequate neuroscience background. Prereq: NRSC 7610.
Gradning Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Summer.

NRSC 7662 - Survey of Neuroscience (1 Credit)
Designed to expose first year graduate students to current topics in neuroscience.
Gradning Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring.
NRSC 7670 - Advanced Topics in Neuroscience (1-2 Credits)
This course will consist of discussion of manuscripts relevant to a specific topic in Neuroscience. Prereq: NRSC 7600 or consent of instructor.
Grading Basis: Letter Grade
Repeatable. Max Credits: 10.
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring, Summer.

NRSC 7675 - Neuroscience, Ethics, & Philosophy (1 Credit)
Elective course provides overview of issues at the intersection of philosophy/ethics/neuroscience. Format involves lecture, student presentations, and relies heavily on student discussion. Topics focus on arguments relevant to the philosophy of mind along with their implications for the individual /society. Prereq: Successful completion of first year graduate courses.
Grading Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall.

NRSC 7700 - Drugs and the Brain (1 Credit)
This graduate level course, Drugs and the Brain, will introduce students to the field of addiction. The focus will be on how different drugs of abuse work on brain cells and systems to produce their unique physiological and behavioral consequences.
Grading Basis: Letter Grade
Typically Offered: Spring.

NRSC 7800 - Teaching Neuroscience (1-3 Credits)
Students will be guided in developing two class sessions in systems neuroscience to be presented in the Systems Neuroscience course, NRSC 7610. Each session will include a practice presentation and post-mortem critique. Prereq: NRSC 7610. Restrictions: Second year students in neuroscience or above. Note: Meets 1 - 3 hours a week for 15 weeks depending on credits signed up for.
Grading Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring, Summer.

NRSC 8990 - Doctoral Thesis (1-10 Credits)
Doctoral thesis work in neuroscience. Prereq: Consent of instructor.
Grading Basis: Letter Grade with IP
A-GRAD Restricted to graduate students only.
Additional Information: Report as Full Time.
Typically Offered: Fall, Spring, Summer.
