

PUBLIC HEALTH: MASTER OF SCIENCE (MS)

We offer the Master of Science (MS) degree at our CU Anschutz Medical Campus location, a leading health sciences campus, where you can take your research and analysis skills to the next level. The MS program focuses on diving deeply into the science of your chosen area of public health. This 36-43 credit hour program is designed to be completed in two to three years. As part of your degree, you'll complete a thesis, so you'll get practical experience with scientific thinking and processes that can help propel your career.

The following Master of Science programs are available through the Colorado School of Public Health:

- Biostatistics (MS) (<http://catalog.ucdenver.edu/cu-anschutz/schools-colleges-programs/colorado-school-public-health/master-science-ms/biostatistics-ms/>)
- Epidemiology (MS) (<http://catalog.ucdenver.edu/cu-anschutz/schools-colleges-programs/colorado-school-public-health/master-science-ms/epidemiology-ms/>)
