International Applicant Additional Admission Criteria
In addition to the general admission requirements listed above, international applicants must meet additional requirements dictated by the University. For additional information about these requirements, please review the International Student Requirements (https://www.ucdenver.edu/academics/InternationalPrograms/OIA/admissions/apply/application/graduate/Pages/default.aspx) for Graduate School admissions.

- Total required course hours for degree: 30

International Student Requirements
Please visit the CLSC PhD website for current admission information: https://ccts.cuanschutz.edu/training/clsc/#phd (https://ccts.cuanschutz.edu/training/clsc/#phd)

All completed application materials for the PhD Program must be submitted by February 1st of each year to be considered for admission. There is only one application submission and review process per year. CLSC accepted applicants may start in the summer or fall term. Specific course offerings can be previewed at our Course Books and Schedules section of this page under Resources.

Minimum Criteria for Admission

Meeting the criteria does not guarantee admission.

- An undergraduate GPA of at least 3.0 (on a 4.0 scale)
- A masters, graduate or professional doctoral degree with a GPA of at least 3.0 (on a 4.0 scale).
- A graduate degree that required course completion in study design and analytics/biostatistics.
- An acceptable and verifiable GRE, MCAT or PCAT score. This requirement can be waived by an earned MS/MPH or PhD from an accredited US School
- Previous clinical and translational research experience that involved working in clinical settings and/or with clinicians. Those without this clinical translational experience are encouraged to contact Dr. Lisa Cicotto to discuss the appropriateness and fit of the program.

You are encouraged to speak with CLSC staff and/or faculty before applying to the program.

Please note that the Clinical Science Program does not provide stipends to assist with tuition and/or room and board expenses. In addition, we currently do not have any research or teaching assistantships to support the educational costs of international students.

Overview

The Clinical Science PhD program is designed for qualified individuals who have already earned a health care graduate or professional degree (i.e., physicians, MSPH graduates, biostatisticians, epidemiologists, nurses, pharmacists, and dentists) or a graduate degree related to health sciences.

The overall goal of CLSC doctoral training program is to prepare nationally competitive clinician/clinical scientists who are able to translate across the discovery-community continuum. Students in our program are highly motivated and bright individuals who seek additional rigorous training to become leaders in their field and make significant contributions to improving the health of citizens.

Please visit the CLSC PhD website for current admission information: https://ccts.cuanschutz.edu/training/clsc/#phd (https://ccts.cuanschutz.edu/training/clsc/#phd)
Learning Objectives

- Perform human research adhering to legal, ethical and regulatory principles and guidelines
- Critically appraise existing literature and sources of information
- Apply evidence based practice principals
- Accurately select, use and interpret commonly used statistics
- Apply and use appropriate study designs and methods to address research questions/hypotheses
- Identify and measure clinically relevant and meaningful outcomes
- Design and conduct research studies
- Publish research-based manuscripts to peer-reviewed journals
- Prepare and submit grant proposals
- Provide constructive reviews and feedback to colleagues
- Demonstrate effective communication and leadership skills
- Participate in interdisciplinary collaboration

Please visit the CLSC PhD website for course information: https://cctsi.cuanschutz.edu/training/clsc#phd (https://cctsi.cuanschutz.edu/training/clsc#phd)

CLSC 7150 - Ethics and Responsible Conduct of Research (1 Credit)
This course provides overview of the field of ethics in clinical research. Topics include historical background, current regulations, IRB requirements on human subjects protection issues. Students will learn how to develop approaches to conduct ethical human subjects research in an optimal manner.
Grading Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring, Summer.

CLSC 6210 - Research Seminars in Clinical Science (1 Credit)
This course provides an overview of the types of clinical translational studies being conducted by senior CLSC doctoral students. The interactive seminar series structure allows for interdisciplinary scientific dialogue among students at various stages of training, mentors and faculty.
Grading Basis: Letter Grade with IP
Repeatable. Max Credits: 9.
A-GRAD Restricted to graduate students only.

CLSC 7101 - Grant Writing I (1 Credit)
The purpose of this course is to develop and improve your skills in writing successful grant applications and participating in the critique and review process of grants. Prerequisites: BIOS 6601 and EPID 6630. Course Restrictions: CLSC students, unless written approval of Course Director.
Grading Basis: Letter Grade
Repeatable. Max Credits: 3.
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring, Summer.

CLSC 7202 - Clinical Outcomes and Applications (3 Credits)
This course focuses on research methodologies in clinical care, costs, health systems, policy, and health outcomes, as well as an overview of major issues in clinical outcomes research. Students are provided with both theory and application through case studies. Prerequisite: BIOS 6601 and BIOS 6602 or BIOS 6611 and EPID 6630.
Grading Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall.

CLSC 7300 - Scientific Grant Review Process: CCTSNI Proposals (1 Credit)
Students will understand and participate in the process of scientific review of human subject research protocols submitted to the University of Colorado Denver Clinical Translational Research Centers at University Hospital and the Children's Hospital. Prereq: BIOS 6601 BIOS 6602 or BIOS 6611 and BIOS 6612.
Grading Basis: Letter Grade
A-GRAD Restricted to graduate students only.
Typically Offered: Fall, Spring.

Policies

Please refer to the Graduate School Policies page (http://catalog.ucdenver.edu/cu-anschutz/schools-colleges-programs/graduate-school/#policies)
