CHA/PA Program Overview
The three-year, innovative curriculum of the University of Colorado PA program is designed to integrate clinical and basic sciences to prepare graduates with the knowledge, skills, and attitudes to practice medicine as part of the health care team. Graduates practice in all areas of medicine and serve patients of all ages.

Welcome from the Director
Welcome to the University of Colorado Child Health Associate/Physician Assistant (CHA/PA) Program. I invite you to explore our website to learn more about our program and students. You will see that we are unique among Physician Assistant programs in terms of our curriculum and courses. We are proud to be a part of this dynamic educational program that is consistently among the top-ranked programs according to US News and World Report.

Over the past 50 years, over 1,200 CHA/PA graduates have entered the workforce. CHA/PA alumni can be found throughout Colorado and across the United States, practicing in a wide variety of primary and specialty care settings.

The program is also recognized for its unique educational value and comprehensive physician assistant training. Costs for our three-year program for both in-state and out-of-state students are lower or comparable to most two-year training experiences. In 2018, we launched the Colorado Curriculum. Based on current research in learning theory, this curriculum is designed to support learner mastery of the complex concepts of patient care. In addition to our extensive adult curriculum and integrated clinical training across all three years, we offer additional training in pediatric medicine and behavioral health as well as track options in rural and global health.

We are proud of our program and fortunate to be at the heart of a vibrant and growing health sciences center. The Anschutz Medical Campus has state-of-the-art hospitals, research centers, and nationally recognized health professional schools. Our campus was also built with a vision of state-of-the-art hospitals, research centers, and nationally recognized and growing health sciences center. The Anschutz Medical Campus has We are proud of our program and fortunate to be at the heart of a vibrant and growing health sciences center. Thanks for your interest and I hope to see you on campus.

Jonathan Bowser
CHA/PA Program Director
Associate Dean of Physician Assistant Studies
Associate Professor, Section Head of Pediatrics

Newsletter
Would you like to receive our newsletter? It is sent quarterly to all those interested in CHA/PA. E-mail PA-info@ucdenver.edu to sign up.

Admission Requirements
The 2023-24 admission cycle will open late spring 2023. The deadline for the CASPA and supplemental applications is September 1.

The CASPA application needs to be complete (not verified) by September 1 to meet the deadline. CHA/PA has rolling admissions.

Required Materials
1. Verified CASPA application including three letters of recommendation.
2. CHA/PA Program supplemental application and a nonrefundable $55 supplemental application fee. The supplemental application for the 2023-24 admission cycle will be available mid-May 2023.
3. CASPer is required for all applicants. CASPer is an online, video-scenario based, situational judgement test that assesses non-cognitive attributes. Results are valid for one admissions cycle. CASPer dates are posted each year on the CASPer website in mid-March. You will be required to enter your CASPA ID for the CASPer assessment.

Note that all applicants are required to submit verification of COVID vaccination and COVID booster in order to interview.

Please be sure to make the following e-mail addresses safe to receive in your e-mail account: kay.denler@cuanschutz.edu, michele.martinez@cuanschutz.edu, PA-Info@ucdenver.edu, and caspal@caspa.org. You should also check your Spam or Junk mail folders periodically to be sure that e-mails from CHA/PA and CASPA are received.

CHA/PA Program Admissions Process
The University of Colorado PA Program is a participant in CASPA (Centralized Application Service for PAs). To apply to our program, applicants must complete the CASPA application and a CHA/PA supplemental application.

The selection process for the PA Program is highly competitive. Potential applicants must demonstrate adequate preparedness to undertake the rigorous, accelerated program curriculum. Completion of prerequisite coursework, strength of the academic record, essays, letters of recommendation and interviews are all strongly considered in the admissions process. Positions are offered to applicants who appear to be the most highly qualified to meet the mission and goals of the program in terms of academic potential and previous achievement, character, motivation and understanding of the profession, and life experience. Invitations for interviews are extended to competitive applicants who appear to have a good chance of being accepted to the program. Applicants may not be accepted without an in-person interview. We will attempt to accommodate special interview scheduling requests, however, this is not guaranteed.
Applications are considered once all required materials are received by the program. Early submission of materials is highly encouraged as the program offers a rolling admissions process with interviews beginning in September. Offers of acceptance are made on a continual basis until the class is filled. Generally, admissions decisions are made by early spring. Forty-four positions are offered annually.

Some candidates for the PA Program may be offered a position as an alternate. Alternates not admitted to the program must reapply the next year. Each applicant offered a position in the class, must acknowledge acceptance or decline no later than the prescribed time in the acceptance letter, generally 10 business days. A nonrefundable tuition deposit of $1,000 must accompany the acceptance.

Final acceptance is contingent upon passing a criminal background investigation and receipt of final transcripts for all outstanding prerequisites. All students must meet the technical standards of the PA Program to be considered for admission.

CHA/PA is committed to providing equitable access to learning opportunities for all students, including those with disabilities (e.g., mental health, attentional, learning, chronic health, sensory, or physical) who meet the technical standards of the program, with or without reasonable accommodations. If you are an applicant with a disability who would like to engage in a confidential consultation about disability access at CU Anschutz, or who requires accommodations to complete the application or interview process, please contact The Office of Disability, Access & Inclusion (https://www.cuanschutz.edu/offices/office-of-disability-access-and-inclusion/).

**Prerequisites**

Additional information is available via the prerequisite section of the admissions website (https://medschool.cuanschutz.edu/physician-assistant-program/prospective-students/prerequisites/).

**General Information**

1. All prerequisite requirements as prescribed on the website. Science prerequisites must be completed at a college or university in the United States. Science courses completed at Canadian Institutions will be evaluated on an individual basis.

2. Transcripts: Only accepted students need to submit WES evaluations. If an accepted student studied abroad for a semester or longer and the study abroad program was not affiliated with a US school or program of study that provides credits and grades according to the US system, he/she must submit official foreign transcript reports from World Education Services (www.WES.org). The service may take several weeks to process your foreign transcript. If an applicant studied abroad by a sponsoring US sending school and the credits and grades for that study appear on the US sending school transcript, and are included in the number of total credits and the cumulative GPA, a WES evaluation is not required. An official copy of the transcript and official transcript evaluation must be mailed from the evaluating agency directly to the CHA/PA Program. The transcript must be in English. The World Evaluation Services organization at www.wes.org is the preferred evaluation organization.

3. English Proficiency Testing: Students whose native language is not English or who have not completed a degree at an institution where English was the language of instruction must demonstrate language proficiency by submitting scores on the Test of English as a Foreign Language (TOEFL) given by the Education Testing Service (www.ets.org). The following minimum TOEFL scores are required for consideration of admission to the UCDHSC Child Health Associate/Physician Assistant Program:
   a. Internet Based Testing (iBT): 85 with a minimum of 20 in each section
   b. Computer Based Testing (CBT): 230 or higher
   c. Paper Based Testing (PBT): 570 or higher

**Study Abroad Courses**

Study abroad is defined as courses that are taken through a foreign institution while the student is currently enrolled at a U.S. institution. If you have attended a study abroad program sponsored by a U.S. institution and all courses, hours and grades appear on the U.S. transcripts, these courses should be entered as instructed on the CASPA application. We do not require transcript evaluation for these courses. For courses taken at a foreign institution that do not appear on the student’s U.S. transcript, a WES evaluation is required if the student is accepted.

**Interprofessional Education and Tracks**

Educational content is enhanced through the applications of family-centered care, behavioral and psychosocial perspectives as well as social and community initiatives for health and wellness. The program has integrated content in public health, oral health, professionalism, and interprofessional education (https://www.cuanschutz.edu/centers/IPE/). Students with a personal area of interest may also have the opportunity to participate in specialized tracks to enhance learning in Rural, Global Health, and Pediatric Critical and Acute Care.

**Clinical Experience and Affiliates**

The curriculum includes a fully integrated clinical curriculum across all three years with clinical rotations in the hospital and community settings. During clinical experiences, students participate in history-taking, physical examination and assessment, development of a differential diagnosis and clinical decision-making and planning of treatments and interventions. Students work closely with preceptors and other members
of the health care team and are evaluated on skills and competencies required for patient care.

As a part of the University of Colorado School of Medicine, the faculty of the entire school of medicine and affiliates contribute greatly to the quality of the learning experiences provided at the CHA/PA Program. Affiliations with the University of Colorado Hospital, Children's Hospital Colorado, and Denver Health and Hospitals in addition to community centers and clinics provide a network of clinical rotations to enhance the training of students. The faculty within the departments of Pediatrics, Family Medicine, Internal Medicine, Surgery, and others regularly participate in both classroom and clinical training of the CHA/PA Program students.

**Degree**

The University of Colorado PA Program has gained national recognition for its curriculum in primary care medicine. The Program confers a Professional Master's Degree (MPAS). In accordance with the mission of the program, the CHA/PA Program curriculum provides comprehensive physician assistant education in primary medical care with additional training in pediatrics and the need for service to disadvantaged, at risk and medically underserved populations. There are specific requirements that all students must complete to receive the MPAS degree from our fully accredited PA Program. Graduates are well prepared to perform in primary care practice with patients across the lifespan. Historically our students have performed above the national average in score and passing rate on the National Commission on Certification of Physician Assistants (NCCPA) examinations.

Graduation and awarding of the Masters of Physician Assistant Studies is based upon the following requirements:

- Successful completion of all coursework and rotations of the University of Colorado PA Program
- Exhibiting professionalism throughout the course of study
- Successful completion of the Comprehensive Clinical Knowledge and Clinical Skills Examinations

MPAS 5005 - Musculoskeletal and Neurology I (4 Credits)
Learners will be immersed in a first-year integrated learning environment covering both the basic sciences and clinical medicine necessary for a primary care provider to care for patients presenting with musculoskeletal and neurologic conditions.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5006 - Endocrinology and Reproduction I (4 Credits)
Learners will be immersed in a first-year integrated learning environment covering both the basic sciences and clinical medicine necessary for a primary care provider to care for patients presenting with endocrine and reproductive conditions.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5007 - Psychiatry I (3 Credits)
Learners will be immersed in a first-year integrated learning environment covering both the basic sciences and clinical medicine necessary for a primary care provider to care for patients presenting with psychiatric conditions.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5020 - Clinical Skills I (3 Credits)
Learners will be engaged in a first-year longitudinal learning experience to facilitate the development of various clinical skills through discussion and simulation.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall.

MPAS 5021 - Clinical Skills II (3 Credits)
Learners will be engaged in a first-year longitudinal learning experience to facilitate the development of various clinical skills through discussion and simulation. This is a continuation of MPAS 5020.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5030 - Foundations in Prevention, Advocacy and Prof Practice I (2 Credits)
Learners will be engaged in a first-year longitudinal learning experience dedicated to role development of a practitioner who cares for patients across the lifespan including professionalism, advocacy, preventative medicine and patient wellness.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall.

MPAS 5031 - Foundations in Prevention, Advocacy and Prof Practice II (2 Credits)
Learners will be engaged in a first-year longitudinal learning experience dedicated to role development of a practitioner who cares for patients across the lifespan including professionalism, advocacy, preventative medicine and patient wellness.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5050 - Clinical Experiences I (4 Credits)
Learners will be engaged in a preparatory course that provides a fundamental orientation to the clinical environment.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall.

MPAS 5051 - Community Clinic I (2 Credits)
Clinical experience designed to give the student an introduction to ambulatory medicine and an understanding of pediatric and family practice medicine.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5055 - Clinical Experiences II (4 Credits)
Learners will be engaged in a preparatory course that provides a fundamental orientation to the clinical environment.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5944 - Care of Hospitalized Adults - 1st Year (2 Credits)
Clinical experience designed to give the student an introduction to hospitalized adult inpatient medicine. Students must complete application process and be accepted before enrollment.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5951 - Community Experience I (2 Credits)
Clinical experience designed to give the student an introduction to ambulatory medicine and an understanding of pediatric and family practice medicine. Students must complete application process and be accepted before enrollment.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.

MPAS 5952 - Community Experience II (1 Credit)
This course provides students with an opportunity to pursue additional study and learning content under guidance of a faculty member. Instructor approval is required. This course is offered to those students that are pursuing an independent course of study for 16 hours during the semester they are enrolled.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 5953 - Community Experience III (3 Credits)
This course provides students with an opportunity to pursue additional study and learning content under guidance of a faculty member. Instructor approval is required. This course is offered to those students that are pursuing an independent course of study for 48 hours during the semester they are enrolled.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.
MPAS 5983 - Global Health Track Elective I - 1st Year (1 Credit)
Learners are immersed in a first-year interprofessional course that brings an international lens to their professional studies. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Global Health Track Faculty Advisor. Grading Basis: Pass Fail with IP
Typically Offered: Fall.

MPAS 6003 - Cardiovascular and Pulmonary II (5 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with cardiovascular and pulmonary conditions. Prereq: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Fall.

MPAS 5984 - Global Health Track Elective II - 1st Year (1 Credit)
Learners are immersed in a first-year interprofessional course that brings an international lens to their professional studies. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Global Health Track Faculty Advisor. This course is a continuation of MPAS 5983.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6004 - Dermatology and HEENT II (4 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with dermatologic, head, ears, eyes, nose and throat conditions. Prerequisite: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 5985 - Rural Health Elective I - 1st Year (1 Credit)
Learners are immersed in a first-year integrated learning environment that brings a rural lens to their professional studies. Registration is restricted to those students enrolled in authorized Track. Restricted to CHA/PA Students enrolled in Track; Must receive approval from Associate Director of Curriculum.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 5986 - Rural Health Elective II - 1st Year (1 Credit)
Learners are immersed in a first-year integrated learning environment that brings a rural lens to their professional studies. Registration is a continuation of MPAS 5985. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6001 - Hematology, Infection, Inflammation and Malignancy II (4 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with hematologic, infection, inflammation and malignancy conditions.
Grading Basis: Pass Fail with IP
Typically Offered: Fall.

MPAS 6002 - Gastrointestinal, Genitourinary, and Renal II (5 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with gastrointestinal, genitourinary and renal conditions. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Fall.

MPAS 6003 - Cardiovascular and Pulmonary II (5 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with cardiovascular and pulmonary conditions. Prereq: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Fall.

MPAS 6004 - Dermatology and HEENT II (4 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with dermatologic, head, ears, eyes, nose and throat conditions. Prerequisite: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6005 - Musculoskeletal and Neurology II (4 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with musculoskeletal and neurologic conditions. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 5987 - Rural Health Elective I - 1st Year (1 Credit)
Learners are immersed in a first-year integrated learning environment that brings a rural lens to their professional studies. Registration is restricted to those students enrolled in authorized Track. Restricted to CHA/PA Students enrolled in Track; Must receive approval from Associate Director of Curriculum.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6007 - Psychiatry II (3 Credits)
Learners will be immersed in a second-year integrated learning environment applying advanced principles of clinical medicine necessary for a primary care provider to care for patients presenting with psychiatric and behavioral health conditions. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6008 - Clinical Skills III (3 Credits)
Learners will be engaged in a second-year longitudinal learning experience to facilitate the development of various clinical skills through discussion and simulation. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Fall.

MPAS 6010 - Clinical Skills IV (3 Credits)
Learners will be engaged in a second-year longitudinal learning experience to facilitate the development of various clinical skills through discussion and simulation. This is a continuation of MPAS 6020. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6020 - Clinical Skills III (3 Credits)
Learners will be engaged in a second-year longitudinal learning experience to facilitate the development of various clinical skills through discussion and simulation. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6021 - Clinical Skills IV (3 Credits)
Learners will be engaged in a second-year longitudinal learning experience to facilitate the development of various clinical skills through discussion and simulation. This is a continuation of MPAS 6020. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.

MPAS 6030 - Foundations in Prevention, Advocacy and Prof Practice III (2 Credits)
Learners will be engaged in a second-year longitudinal learning experience dedicated to role development of a practitioner who cares for patients across the lifespan including professionalism, advocacy, preventative medicine and patient wellness.
Grading Basis: Pass Fail with IP
Typically Offered: Fall.

MPAS 6031 - Foundations in Prevention, Advocacy and Prof Practice IV (2 Credits)
Learners will be engaged in a second-year longitudinal learning experience dedicated to role development of a practitioner who cares for patients across the lifespan including professionalism, advocacy, preventative medicine and patient wellness.
Grading Basis: Pass Fail with IP
Typically Offered: Spring.
MPAS 6051 - Community Clinic I (2 Credits)
Students will learn clinical skills in a variety of settings. Skills will include history taking, physical diagnosis, assessment and patient management under the supervision of community clinical preceptors.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6052 - Community Clinic II (2 Credits)
Students will learn clinical skills in a variety of settings. Skills will include history taking, physical diagnosis, assessment and patient management under the supervision of community clinical preceptors.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6053 - Community Clinic III (2 Credits)
Students will learn clinical skills in a variety of settings. Skills will include history taking, physical diagnosis, assessment and patient management under the supervision of community clinical preceptors.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6054 - Community Clinic IV (2 Credits)
Students will learn clinical skills in a variety of settings. Skills will include history taking, physical diagnosis, assessment and patient management under the supervision of community clinical preceptors.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6612 - Pediatric Critical and Acute Care —2nd year (2 Credits)
Students will develop assessment and patient management skills in care of pediatric patients in critical and acute care and inpatient settings.
Restricted to CHA/PA students who have completed MPAS 5911.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall.

MPAS 6640 - Emergency Medicine Preceptorship (2 Credits)
Students will develop assessment and patient management skills in care of patients in emergency medicine settings. Restrictions: Restricted to CHA/PA students.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6644 - Care of Hospitalized Adults - 2nd Year (4 Credits)
Students will develop assessment and patient management skills in care of adult patients in an inpatient setting. Restricted to CHA/PA students who have completed MPAS 5944.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6651 - CHA/PA Independent Study I - 2nd Year (1 Credit)
Approval is required by the CHA/PA Program. This course is offered to those students that are pursuing an independent course of study for 16 hours during the semester they are enrolled. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6652 - CHA/PA Independent Study II - 2nd Year (2 Credits)
Approval is required by the Associate Director of Curriculum. This course is offered to those students that are pursuing an independent course of study for 32 hours during the semester they are enrolled. Restricted to CHA/PA students.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6653 - CHA/PA Independent Study III - 2nd Year (3 Credits)
Approval is required by the CHA/PA Program. This course is offered to those students that are pursuing an independent course of study for 48 hours during the semester they are enrolled.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6670 - Women's Health Preceptorship (2 Credits)
Students will develop assessment and patient management skills in women's health under the supervision of community clinical preceptors.
Restrictions: Restricted to CHA/PA students.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6671 - Guatemala Clinical Immersion Experience I (2 Credits)
Two-week Spanish language immersion experience followed by a two-week primary care clinic experience in the country of Guatemala. Approval must be given by the CHA/PA Course Director prior to enrollment.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Summer.

MPAS 6672 - Guatemala Immersion I for Global Health Track (2 Credits)
Two-week Spanish language immersion experience followed by a two-week clinic experience in the country of Guatemala for fulfillment of Global Health Track requirements. Approval must be given by the CHA/PA Course Director and CHA/PA Program Global Health Track Faculty Advisor prior to enrollment.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Summer.

MPAS 6675 - Rural Health Track Elective I - 2nd Year (1 Credit)
Learners are immersed in a second-year integrated learning environment that brings a rural lens to their professional studies. Registration is restricted to those students enrolled in authorized Track. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall.

MPAS 6676 - Rural Health Track Elective II - 2nd Year (1 Credit)
Learners are immersed in a second-year integrated learning environment that brings a rural lens to their professional studies. Registration is restricted to those students enrolled in authorized Track. This course is a continuation of MPAS 6675. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Spring.
MPAS 6680 - Global Health Track Elective Experience I—2 Weeks (2 Credits)
Two-week experiential learning opportunity associated with interprofessional track area of interest. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Global Health Track Liaison and Course Directors from the SOM Faculty prior to enrollment.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Summer.

MPAS 6689 - Global Health Track Elective Experience II—2 Weeks (2 Credits)
Two-week experiential learning opportunity associated with interprofessional track area of interest. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Global Track Faculty Advisor and Course Directors from the SOM Faculty prior to enrollment. Restriction: MPAS majors only.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Summer.

MPAS 6905 - Surgery (4 Credits)
The course involves active participation in a surgical setting with exposure to patients across the lifespan. The student will have exposure to patients requiring pre-operative, intra-operative and post-operative care for acute, chronic, or emergent conditions. There is potential for exposure to behavioral and/or mental health conditions as well. Participation in night and weekend call and attendance at meetings and conferences may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6913 - Pediatric Critical and Acute Care—3rd year (4 Credits)
The course involves active participation in an inpatient pediatric intensive care unit (PICU) setting at Children's Hospital Colorado. The student will be exposed to infants, children and adolescents requiring acute, chronic, and emergent care. There is potential for exposure to behavioral and/or mental health conditions as well. Participation in night and weekend call and attendance at meetings and conferences may be required. Restricted to CHA/PA students who have completed 6613.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6920 - Neonatology (4 Credits)
This course involves active participation in the care of neonates in a teaching hospital. Attendance at morning rounds, making case presentations and participating in the night and weekend call schedule are required. Students are encouraged to attend deliveries and perform circumcisions and other procedures with appropriate supervision.
Restrictions: Restricted to CHA/PA students.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6930 - Primary Care I (4 Credits)
The course involves active participation in an ambulatory or hospital-based primary care practice with exposure to patients and caregivers across the lifespan, including pediatric, adolescent, women of childbearing age, adult, and geriatric patients. The student will have exposure to patients requiring acute, chronic, emergent, and preventative care. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
Repeatable. Max Credits: 43.
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6932 - Academic Inpatient Pediatric Medicine (4 Credits)
The course involves active participation in an inpatient hospital setting with exposure to infants, children, and adolescents. The student will have exposure to patients requiring acute, chronic, or emergent care. There is potential for exposure to behavioral and/or mental health conditions as well. Participation in night and weekend call and attendance at meetings and conferences may be required. Restriction: Restricted to CHA/PA students.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6936 - Pediatric Elective II - Four Week Rotation (Sec I, II, III, IV) (4 Credits)
The course involves active participation in a general or specialty pediatric practice in an outpatient, surgical and/or inpatient facility. The student will be exposed to infants, children and adolescents requiring acute, chronic, emergent and/or preventative care, with potential for exposure to behavioral and/or mental health conditions as well. Participation in night and weekend call and attendance at meetings and conferences may be required.
Grading Basis: Pass Fail with IP
Repeatable. Max Credits: 43.
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6938 - Adolescent Medicine (4 Credits)
The course involves active participation in an adolescent medicine practice in an outpatient or inpatient setting. The student will be exposed to adolescents and young adults requiring acute, chronic, emergent and/or preventative care. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6940 - Primary Care II (4 Credits)
The course involves active participation in an ambulatory or hospital-based primary care practice with exposure to patients and caregivers across the lifespan, including pediatric, adolescent, women of childbearing age, adult, and geriatric patients. The student will have exposure to patients requiring acute, chronic, emergent, and preventative care. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.
MPAS 6942 - Inpatient Adult Medicine (4 Credits)
The course involves active participation in an inpatient hospital practice. The student will be exposed to adults and elderly requiring acute, chronic, emergent and/or preventative care while hospitalized. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6944 - Care of Hospitalized Adults - 3rd Year (4 Credits)
The course involves active participation in an inpatient setting at University of Colorado Hospital. The student will be exposed to adults and elderly requiring acute, chronic, and emergent care. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend call and attendance at meetings and conferences may be required. Restricted to students who have completed 6644.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6947 - Primary Care III (4 Credits)
The course involves active participation in an ambulatory or hospital-based primary care practice with exposure to patients and caregivers across the lifespan, including pediatric, adolescent, women of childbearing age, adult, and geriatric patients. The student will have exposure to patients requiring acute, chronic, emergent, and preventative care. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6948 - Emergency Medicine (4 Credits)
The course involves active participation in an emergency room setting with exposure to patients across the lifespan. The student will have exposure to patients requiring acute, chronic, or emergent care. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6952 - Rural Track Family Medicine (Sec I, II, III) (4 Credits)
The course involves active participation in a rurally located family medicine practice with exposure to patients across the lifespan. The student will have exposure to patients requiring acute, chronic, emergent, and preventative care in ambulatory, home, inpatient and/or skilled nursing settings. There is potential for exposure to behavioral and/or mental health conditions as well. Night and weekend hours may be required. Registration is restricted to those students enrolled in authorized Track.
Grading Basis: Pass Fail with IP
Repeatable. Max Credits: 8.
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6970 - Adult Elective II - 4-week Rotation (Sec I, II, III, IV) (4 Credits)
The course involves active participation in a general or specialty adult practice in an inpatient, surgical and/or inpatient facility. The student will be exposed to adults and the elderly requiring acute, chronic, emergent and/or preventative care, with potential for exposure to behavioral and/or mental health conditions as well. Participation in night and weekend call and attendance at meetings and conferences may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6971 - Guatemala Clinical Immersion Experience II (4 Credits)
The course involves active participation in an elective global health experience in Guatemala. The student will be exposed to care of patients across the lifespan with health disparities and global influences. There is potential for exposure to behavioral and/or mental health conditions as well. Night and weekend call may be required. Permission must be given from the CHA/PA Program Course Director.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6972 - Guatemala Immersion II for Global Health Track (4 Credits)
The course involves active participation in an elective global health experience in Guatemala. The student will be exposed to care of patients across the lifespan with health disparities and global influences. There is potential for exposure to behavioral and/or mental health conditions as well. Night and weekend call may be required. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Global Health Track Faculty Advisor.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6974 - Primary Care IV (4 Credits)
The course involves active participation in an ambulatory or hospital-based primary care practice with exposure to patients and caregivers across the lifespan, including pediatric, adolescent, women of childbearing age, adult, and geriatric patients. The student will have exposure to patients requiring acute, chronic, emergent, and preventative care. There is potential for exposure to behavioral and/or mental health conditions as well. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6975 - Behavioral & Mental Health (4 Credits)
The course involves active participation in a behavioral health/psychiatry practice in an outpatient, emergency, or inpatient facility. The student may be exposed to children, adolescents, adults, and elderly requiring acute, chronic, or emergent management of mental health conditions. Participating in night and weekend hours may be required.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.
MPAS 6978 - Clinical Connections I (1 Credit)
The course provides additional preparation to students for their clinical careers after graduation, including discussions and presentations related to licensure, credentialing, and medico-legal topics. Students will complete their capstone project within this course.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6979 - Clinical Connections II (1 Credit)
The course provides additional preparation to students for their clinical careers after graduation, including discussions and presentations related to licensure, credentialing, and medico-legal topics. Students will complete their capstone project within this course. This course is a continuation of MPAS 6978.
Grading Basis: Pass Fail with IP
Typically Offered: Fall, Spring, Summer.

MPAS 6980 - Third Year Clinical Seminar (2 Credits)
Third year clinical affords students the opportunity to present a patient encounter using multimedia technology and evidence-based research. This forum will encourage discussion of a vast array of medical conditions. Restrictions: Restricted to CHA/PA students.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6983 - Global Health Elective I - 3rd Year (4 Credits)
The course involves active participation in an elective global health experience in Nepal or Tanzania. The student will be exposed to care of patients across the lifespan with health disparities and global influences. There is potential for exposure to behavioral and/or mental health conditions as well. Night and weekend call may be required. Registration is restricted to those students enrolled in authorized Track. Permission must be given from the CHA/PA Program Global Health Track Faculty Advisor.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6985 - Global Health Track Elective I - 3rd Year (4 Credits)
The course provides students with an opportunity to pursue additional study and learning content under guidance of a faculty member. Instructor approval is required. This course is offered to those students that are pursuing an independent course of study for 48 hours during the semester they are enrolled.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6992 - CHA/PA Independent Study II - 3rd Year (2 Credits)
This course provides students with an opportunity to pursue additional study and learning content under guidance of a faculty member. Instructor approval is required. This course is offered to those students that are pursuing an independent course of study for 32 hours during the semester they are enrolled.
Grading Basis: Pass Fail with IP
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

MPAS 6993 - CHA/PA Independent Study III - 3rd Year (3 Credits)
This course provides students with an opportunity to pursue additional study and learning content under guidance of a faculty member. Instructor approval is required. This course is offered to those students that are pursuing an independent course of study for 48 hours during the semester they are enrolled.
Grading Basis: Pass Fail with IP
Repeatable. Max Credits: 3.
A- MPAS Majors Only
Typically Offered: Fall, Spring, Summer.

Policies

CHA/PA Faculty and Staff
Jonathan M. Bowser, MS, PA-C, Program Director, Associate Dean, Associate Professor of Pediatrics and Section Head
Tai Lockspeiser, MD, MHPE, Medical Director, Associate Professor of Pediatrics
Tanya Fernandez, MS, PA-C, Associate Program Director, Assistant Professor of Pediatrics
Amy Akerman, MPAS, PA-C, Faculty, Assistant Professor of Pediatrics
Manda Baker, Clinical Coordinator
Bethany Coulter, MBA, Business and Operations Manager
Kelsey Dougerty, MMSc, PA-C, Faculty, Assistant Professor of Pediatrics
Rachel Hess MAS, PA-C, Faculty, Clinical Instructor of Pediatrics
Lindsey Huttner, Didactic Coordinator
Roberta Knott, MPAS, PA-C, Clinical Site Educator, Associate Professor of Pediatrics
Kate LaPorta, MHS, PA-C, Faculty, Clinical Instructor of Pediatrics
Rebecca Maldonado, MSHPE, PA-C, Faculty, Associate Professor of Pediatrics
Michele Martinez, Admissions Coordinator
Kristen Oase, PA-C, MS, Faculty, Instructor of Pediatrics
Denise Ogden, MA, PA-C, Faculty, Clinical Instructor of Pediatrics
Miguel Perez, Clinical Services Coordinator
Jacqueline Sivahop, Ed.D., PA-C, Faculty, Associate Professor of Pediatrics
Danielle Thompson, Program Coordinator

Adjunct Faculty
Claudia Luna-Asturias, LCSW
Amanda Miller, PA-C
LICENSE is a mnemonic for highlighting the vision and goals of the Colorado Curriculum.

Longitudinal
The Colorado Curriculum is a 3-year, spiral design curriculum that progresses from foundational concepts to more complex topics and skills in a developmentally appropriate manner.

Integrated
The Colorado Curriculum integrates basic science, clinical medicine, and professional practice in didactic and active learning sessions for each clinical presentation.

Clinical Presentations
The Colorado Curriculum is anchored in over 70 clinical presentations arranged in 7 body system blocks, and drives learning through a case-based approach.

Entry Ready
The Colorado Curriculum prepares students to meet all professional competencies to practice in primary care medicine, including interprofessional team practice, meeting the needs of the profession and the communities it serves.

Needs-Based
The Colorado Curriculum uses continuous quality improvement measures and assessments to monitor and respond to all stakeholder needs, including learners, faculty, patients, preceptors, and the community.

Student/Learner Centered
The Colorado Curriculum places learners/students at its center, encouraging reflective practice and wellness as they grow to be lifelong learners.

Experiential
The Colorado Curriculum grounds all learning in the context of the clinical encounter, using 4 threads to integrate and apply content to specific cases, patient populations and clinical settings.

CHA/PA Core Competencies

COMPETENCIES REQUIRED OF CHA/PA PROGRAM STUDENTS

Upon graduation, CHA/PA students are expected to demonstrate competencies in specific areas. Performance should be commensurate with that of a new practitioner. The CHA/PA program provides educational experiences to support student development of requisite knowledge, skills and attitudes.

I. PATIENT CARE

CHA/PA graduates must be able to provide patient care that is compassionate, appropriate and effective for health promotion, disease prevention and the treatment of health problems. Graduates are expected to:

A. Communicate effectively and demonstrate caring and respectful behaviors when interacting with patients and their families
B. Elicit a detailed and accurate history from their patients
C. Make informed decisions about diagnostic and therapeutic interventions based on patient information and preferences, up-to-date scientific evidence, and clinical judgment
D. Perform competently all diagnostic and therapeutic procedures considered essential for the area of practice, including an appropriate physical exam
E. Develop and implement patient management plans and health care services, including plans for health promotion, disease prevention, and medical and surgical conditions
F. Provide education and counseling to patients and families regarding health care management
G. Use information technology to support patient care decisions and patient education
H. Work under the supervision of a physician and with other health care professionals from other disciplines to provide patient-focused care

II. MEDICAL KNOWLEDGE

CHA/PA graduates must demonstrate knowledge about established and evolving biomedical and clinical information (including epidemiological and social/behavioral sciences) and demonstrate the application of that knowledge to patient care. Graduates are expected to:

A. Demonstrate an investigatory and analytical approach to clinical problem-solving
B. Know and apply basic science and clinical knowledge appropriate to their clinical practice

III. PRACTICE-BASED LEARNING AND IMPROVEMENT

CHA/PA graduates must be able to evaluate their practice in the context of current scientific evidence. Graduates must be able to access, critically evaluate and apply this evidence to improve patient care.

A. Analyze current practice and identify areas for practice improvement
B. Identify, locate and assimilate evidence from scientific studies related to their patients’ health
C. Obtain and use information to benefit their own patient population
D. Apply knowledge of study designs and statistical methods to the appraisal of studies and other information on diagnostic and therapeutic effectiveness

E. Use information technology to manage information, access online information, and support their own continued learning

IV. INTERPERSONAL AND COMMUNICATION SKILLS

CHA/PA graduates must be able to demonstrate interpersonal and communication skills that result in effective information exchange and teaming with patients, their patients families, and professional colleagues from a variety of disciplines. Graduates are expected to:

A. Create and sustain a therapeutic and ethically sound relationship with patients

B. Use effective listening skills and elicit and provide information using effective nonverbal, explanatory questioning and writing skills

C. Work effectively with others as a team member or leader of a health care team or other professional group, under the supervision of a physician

D. Use effective communication skills to refer patients to other health care providers or systems

V. PROFESSIONALISM

CHA/PA graduates must demonstrate commitment to professional responsibilities, adherence to ethical principles, and sensitivity to diverse patient populations. Graduates are expected to:

A. Demonstrate respect, compassion, and integrity; responsiveness to the needs of patients and society that supersedes self-interest; accountability to patients, society and the profession; and commitment to excellence and on-going professional development

B. Demonstrate a commitment to ethical principles pertaining to provision or withholding of clinical care, confidentiality of patient information, informed consent and business practices

C. Demonstrate sensitivity and responsiveness to patients’ culture, age, gender and disabilities

VI. SYSTEM-BASED PRACTICE

CHA/PA graduates must demonstrate awareness of and responsiveness to the larger context and system of health care and the ability to effectively call on system resources to provide care that is of optimal value. Graduates are expected to:

A. Understand how their patient care and professional practices affect other health care professionals in the health care organization, the larger society and how these elements of the system affect their own practice

B. Know how medical practice and delivery systems differ from one another, including methods of controlling health care costs and allocating resources

C. Practice cost-effective health care and resource allocation that does not compromise quality of care

D. Advocate for quality patient care and assist patients in dealing with system complexities

E. Know how to partner with health care managers and providers to assess, coordinate and improve health care and know how these activities can affect system performance.
