Welcome to the website of the University of Colorado Physical Therapy Program! As one of the top programs in the country, we are proud of our commitment to physical therapy education, research, and service since our initial accreditation in 1947.

Our curriculum introduces students to a clinical education experience within their first semester and provides the option of a unique year-long, paid internship. Students are very involved in service opportunities, volunteering at the Stout Street Clinic for individuals that experience homelessness, DAWN Clinic for the high-needs Aurora community, and other non-profit organizations in the Denver metropolitan area.

We are deeply committed to our research endeavors, offering a PhD in Rehabilitation Sciences (https://www.ucdenver.edu/academics/colleges/Graduate-School/academic-programs/rehabilitation-science/Pages/Overview.aspx), leading the way with groundbreaking grants and clinical studies, and providing a number of opportunities for students to get involved with faculty research. Our CU Rehabilitation Science Consortium houses multiple laboratories, providing a space for research assistants, post-doctoral fellows and PhD students participating in faculty research.

Our partnerships on the Anschutz Medical Campus and surrounding greater Denver area enhance our research capabilities and strengthen our clinical partnerships. We have over 120 clinical partners throughout the region, with The Rocky Mountain Regional VA Medical Center, Children's Hospital and UCHealth located steps away.

I welcome prospective students and program alumni interested in physical therapy education to reach out to our program staff and faculty. Your active involvement is essential to the success of the University of Colorado Physical Therapy Program. We look forward to our continued growth and progress within the University and the profession!

Michael Harris-Love, PT, MPT, DSc, FGSA, FAPTA
Associate Dean for Physical Therapy Education, School of Medicine

The University of Colorado has established a tradition of excellence in the educational preparation of physical therapists for over 75 years. Our strong ranking is linked to our superb faculty, commitment to the education of our students, our state-of-the-art facilities at the Anschutz Medical Campus and UCHealth Hybl Center, and a strong network of supportive alumni and clinical faculty throughout the Rocky Mountain Region and the country. The Physical Therapy Program is housed within the Department of Physical Medicine & Rehabilitation, within the School of Medicine. Education for the Doctor of Physical Therapy degree (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/doctor-of-physical-therapy/about-our-program/) is provided via a residential pathway in Aurora and a hybrid pathway in Colorado Springs.

Mission
The University of Colorado Physical Therapy Program leads discovery and innovation to improve movement, participation, health, and wellness for individuals and society through excellence in education, research, clinical care, and service.

Vision
We transform health and foster wellness in individuals and society through education, discoveries, engagement and innovation.

Values
• Respect: For all individuals’ safety, rights, dignity, and perspectives
• Integrity: Because professional behavior reflects who we are
• Altruism: In service to the individual, community, and organization
• Diversity: For inclusivity in all endeavors
• Accountability: To all those seeking care and providing care within our profession and health care systems
• Passion: Because we are committed to lifelong learning, service, and community engagement
• Collaboration: To leverage collective input from all individuals
• Leadership: Within the university, profession and community at large
• Quality: To attain excellence in all we do

Careers
Find job openings with the Physical Therapy Program via CU Careers (https://cu.taleo.net/careersection/2/moresearch.ftl).

Accreditation
The Physical Therapy Program at University of Colorado is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, Virginia 22305-3085; 703-706-3245; accreditation@apta.org; http://www.capteonline.org (http://www.capteonline.org/). If needing to contact the program/institution directly, please call 303-724-2878 or e-mail vonelle.pomeroy@cuanschutz.edu

On November 3, 2020, the Commission on Accreditation in Physical Therapy Education (CAPTE) of the American Physical Therapy
The University of Colorado Anschutz Medical Campus Physical Therapy Program is a member of the American Council of Academic Physical Therapy (ACAPT) which supports academic institutions to strive for excellence in physical therapist education. We encourage faculty, clinical educators, academic administrators and students interested in pursuing teaching to check out acapt.org (http://acapt.org/).

Admissions

For everything you need to know about how to apply to our DPT program (both Residential and Hybrid Pathways), including eligibility, prerequisites, application process and matriculation requirements, CLICK HERE (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/doctor-of-physical-therapy/apply/).

For more information about our Doctor of Physical Therapy Program, please contact CU Physical Therapy Admissions by phone at (303) 724-9144 or email at PT.Admissions@cuanschutz.edu.

For information on campus visit days, information sessions, virtual tours and more, click here (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/doctor-of-physical-therapy/admissions-overview/).

*The Program follows University policies (https://www.cu.edu/regsents/policy10/) to facilitate equal opportunity and nondiscrimination for faculty, staff and prospective/enrolled students, by following policies of the Office of Equity and the Regent’s laws and Policies, Article 10, nondiscrimination. University Strategic Priority (https://www.ucdenver.edu/about/departments/ODI/Documents/CU%20Denver%20Anschutz%20Diversity%20Strategic%20Priority.pdf)

The University of Colorado Anschutz Medical Campus Physical Therapy Program is committed to providing equitable access to learning opportunities for all students, including those with disabilities (e.g., mental health, attentional, learning, chronic health, sensory, or physical) who meet the technical standards of the program, with or without reasonable accommodations.

If you are an applicant with a disability who would like to engage in a confidential consultation about disability access at CU Anschutz, or who requires accommodations to complete the application or interview process, please contact The Office of Disability, Access, & Inclusion (https://www.cuanschutz.edu/offices/office-of-disability-access-and-inclusion/).

The University of Colorado Physical Therapy Program offers seven educational opportunities in clinical care and rehabilitation science.

**Doctor of Physical Therapy (DPT) - Residential and Hybrid (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/doctor-of-physical-therapy/about-our-program/hybrid-pathway/)**

The University of Colorado DPT program is a 2.5-year program offered as both a residential and hybrid pathway (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/doctor-of-physical-therapy/about-our-program/hybrid-pathway/). The academic program starts in the summer and continues for 8 consecutive semesters. Full-time and part-time clinical education experiences are interspersed throughout the first two years and begin as early as the second semester. Upon completion of the Program, students are awarded the Doctor of Physical Therapy (DPT) degree and are eligible to take the National Physical Therapy Exam (NPTE). Learn more (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/doctor-of-physical-therapy/about-our-program/).

For further information about our Hybrid Pathway, CLICK HERE (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/doctor-of-physical-therapy/about-our-program/hybrid-pathway/).

**Residency in Pediatric Physical Therapy**

The University of Colorado Physical Therapy Pediatric Residency Program consists of planned post-professional clinical and didactic education for licensed physical therapists who have graduated from an accredited DPT program. In addition to clinical opportunities with structured mentorship, the program also includes participation in the Leadership and Education in Neurodevelopmental Disabilities (LEND) program through JFK Partners, and access to the resources of the University of Colorado Physical Therapy Program on the Anschutz Medical Campus. Learn more (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/pediatric-residency/).

**PhD in Rehabilitation Science**

An interdisciplinary program educating future scientists. University of Colorado’s PhD in Rehabilitation Science is within the Graduate School (http://catalog.ucdenver.edu/cu-anschutz/schools-colleges-programs/graduate-school/graduate-school-phd-programs/rehabilitation-science-phd/).

**Doctor of Physical Therapy-Rehabilitation Science PhD Pathway**

The University of Colorado Anschutz Medical Campus DPT-PhD pathway facilitates a viable educational plan for promising students with a strong interest in academic physical therapy and rehabilitation science. This collaborative dual degree pathway between the CU Physical Therapy Program and the Rehabilitation Science PhD Program provides an efficient approach to earning both the clinical doctorate and the research doctorate. Learn more (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/dpt-phd-pathway/)

**Orthopaedic Residency**

The University of Colorado School of Medicine Physical Therapy Orthopaedic Residency in partnership with UCHealth is a structured, accredited, post-professional education program for licensed physical therapists who have graduated from an accredited DPT program. The orthopaedic residency will offer experiences in outpatient patient management through the UCHealth system and didactic as well as teaching experiences through the resources of the University of Colorado Physical Therapy Program on the prestigious Anschutz Medical Campus. There is no tuition and residents earn a salary with a comprehensive benefits package. Residency graduates will be qualified to sit for the ABPTS orthopaedic clinical specialist exam. Learn more (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/orthopedic-residency/)

**Faculty Residency**

The University of Colorado Anschutz Medical Campus Faculty Residency is a structured, accredited, post-professional education program for licensed physical therapists who have graduated from an accredited DPT program who aspire to an academic faculty position. The program is designed to significantly advance preparation of the physical therapist as a highly qualified educator and productive academic scholar. Potential as a future leader in physical therapist education develops through...
multiple teaching experiences, structured mentorship opportunities, and mentored educational scholarship throughout the program. The program also offers access to the resources of the University of Colorado Physical Therapy Program on the Anschutz Medical Campus. Learn more (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/faculty-residency/)

**Doctor of Physical Therapy - Master's of Public Health Dual Degree Track**

The University of Colorado Anschutz Medical Campus DPT-MPH track is a collaborative dual degree track between two well-established and successful degree programs: the Doctor of Physical Therapy (DPT) program and the Master of Public Health (MPH) program. Learn more. (https://medschool.cuanschutz.edu/physical-therapy-program/education-programs/dpt-mph-track/)

**PT Degree Requirements**

The DPT degree requires completion of 116 credit hours, which includes 38 weeks of clinical education. Students complete and present a capstone project in year 3 before the final clinical internship.

The University of Colorado Physical Therapy Program has established a tradition of excellence for over 70 years. Our 2.5 year graduate professional Doctor of Physical Therapy (DPT) degree boasts superb faculty, a location on the state-of-the-art Anschutz Medical Campus, commitment to the education of a diverse body of students and a strong network of supportive alumni and clinical faculty.

The PT Program educates competent, ethical physical therapists to assume the multi-faceted roles of clinical practitioner, patient manager, teacher, researcher, administrator, consultant and advocate. In addition to compassion, character and professionalism, certain essential skills are required in order to complete the PT Program. Upon successful completion of the PT Program, graduates are eligible to take the National Physical Therapy Exam (NPTE) in any state.

This course will provide students with the current state of knowledge in exercise science, with an emphasis on the mechanisms underlying these adaptations. A systems approach will be used to provide a thorough understanding of the acute and chronic adaptations to the physiology of exercise. Laboratory experiences will include human performance testing, control group studies, and development of research skills. Grading Basis: Letter Grade

Typically Offered: Spring.

Grading Basis: Letter Grade with IP

Musculoskeletal, circulatory and nervous systems of the upper and lower extremities, thorax and head and neck. Supplemented by cross sectional anatomy, radiographic and digital imaging. Grading Basis: Letter Grade Typically Offered: Summer.

Course Descriptions

DPTR 5001 - Clinical Anatomy I (5 Credits)
This course follows a regional approach to gross anatomy of the musculoskeletal, circulatory and nervous systems of the upper and lower extremities, thorax and head and neck. Supplemented by cross sectional anatomy, radiographic and digital imaging. Grading Basis: Letter Grade Typically Offered: Summer.

DPTR 5011 - Neuroscience (3 Credits)
This course provides a framework for understanding the structural and functional organization of the human nervous system. Principles and applications of neurophysiology, neuroanatomy and functional correlates are included. Finally, diseases and dysfunctions of the nervous system that are relevant to current practice are introduced. Grading Basis: Letter Grade Typically Offered: Fall.

DPTR 5012 - Motor Control & Motor Learning (2 Credits)
This course presents the foundation of motor learning and control as it applies to optimal movement across the lifespan. Emphasis is on variables related to the individual task composition, the environment and augmented information that enhance practice of motor skills. These principles are applied to physical therapist practice. Grading Basis: Letter Grade with IP Typically Offered: Fall.

DPTR 5141 - Human Growth & Development (2 Credits)
This course addresses functional movement across the life span in healthy individuals. Emphasis is on stages in life when the greatest changes in motor behavior occur and the factors that influence those changes. Developmental changes in all systems and their contributions to functional movement will be explored. Grading Basis: Letter Grade Typically Offered: Fall.

DPTR 5151 - Motor Control & Motor Learning (2 Credits)
This course presents the foundation of motor learning and control as it applies to optimal movement across the lifespan. Emphasis is on variables related to the individual task composition, the environment and augmented information that enhance practice of motor skills. These principles are applied to physical therapist practice. Grading Basis: Letter Grade with IP Typically Offered: Spring.

DPTR 5161 - Psychosocial Aspects of Care I (1 Credit)
This course is focused from the perspective of the practitioner as a person. General psycho-emotional issues and specific theories related to: practitioner self-awareness, emotions, spirituality, grief-loss-mourning, psych factors associated with the experience of pain will be presented. Introduction to motivational interviewing is included. Grading Basis: Letter Grade Typically Offered: Fall.

DPTR 5162 - Psychosocial Aspects of Care II (2 Credits)
Builds on knowledge, skills and attitudes gained in DPTR 5161 with additional focus on general issues and theories related to: changing behaviors, depression and anxiety, sexuality in rehabilitation, suicidal behavior, addiction in society, stress management and conflict resolution. Grading Basis: Letter Grade with IP Typically Offered: Summer.

DPTR 5171 - Health Promotion and Wellness I (1 Credit)
Disease prevention and health promotion are recognized as integral aspects of physical therapist practice. In this first of two courses, students will use current models of behavior change, disability, and population health to understand the multiple determinants of health and wellness. Using oneself as the client, students will complete an individual health assessment, identify areas of growth, and generate a plan to promote their own health and wellness. Grading Basis: Letter Grade Typically Offered: Summer.

DPTR 5201 - Examination & Evaluation I (2 Credits)
This course introduces the physical therapist’s examination of the patient. This course will familiarize the student with the ICF framework and emphasize foundational examination skills including communication, manual muscle testing, goniometry, and surface palpation. Grading Basis: Letter Grade with IP Typically Offered: Summer.

DPTR 5202 - Examination and Evaluation II (2 Credits)
This course emphasizes developing a process of hypothesis generation to direct clinical decision making during the examination part of the patient encounter. Skill development includes examination techniques of the integumentary, cardiovascular/pulmonary, neuromuscular, and musculoskeletal systems, including analysis of human movement. Grading Basis: Letter Grade with IP Typically Offered: Fall.
Typically Offered: Spring.
Grading Basis: Letter Grade

Elementary patient cases across a variety of clinical practice settings.
Decision making in the examination, prognosis, and intervention for
with critical reasoning in the ICF framework to facilitate patient-centered
This introductory course teaches students to integrate current evidence
DPTR 5631 - Clinical Reasoning I (1 Credit)
This introductory course teaches students to integrate current evidence
with critical reasoning in the ICF framework to facilitate patient-centered
decision making in the examination, prognosis, and intervention for
Elementary patient cases across a variety of clinical practice settings.
Grading Basis: Letter Grade
Typically Offered: Spring.

Typically Offered: Fall.
Grading Basis: Letter Grade

Interventions, and patient prognosis.
This course covers and applies concepts and steps of evidence-based
practice and manual guidance are emphasized for intervention.
This course introduces basic intervention principles, including
fundamentals of tissue healing and adaptation. Intervention techniques
including posture and positioning, basic mobility with and without
assistive devices, and thermal physical agents for improving functional
mobility and for managing a variety of clinical populations are introduced.
Grading Basis: Letter Grade with IP
Typically Offered: Summer.

Further introduction and advancement of foundational intervention
principles and techniques including soft tissue mobilization, physical
agents and electrotherapeutic modalities. Emphasis is on the application
of exercise as an intervention for improving functional mobility and for
managing a variety of clinical problems.
Grading Basis: Letter Grade with IP
Typically Offered: Summer.

Typically Offered: Fall.
Prerequisites: DPT Program students only

A-GRAD Restricted to graduate students only.

**Typically Offered: Summer.**
Grading Basis: Letter Grade
Radiology and pharmacology as related to neuropathy are included.

**Typically Offered: Fall.**
Grading Basis: Letter Grade with IP
This course includes an in-depth exploration of people with neurological conditions across the lifespan, specifically as neurodegenerative conditions across the lifespan, focusing on the cervicothoracic spine and temporomandibular disorders. Medical management, radiology and pharmacology are covered with implications for physical therapist's practice.

**DPTR 6402 - Musculoskeletal Conditions II (2 Credits)**
This course continues the examination, physical therapy management and clinical reasoning necessary for the management of individuals with musculoskeletal disorders across the life span, focusing on the cervicothoracic spine and temporomandibular disorders. Medical management, radiology and pharmacology are covered with implications for physical therapy management.
Grading Basis: Letter Grade with IP
A-GRAD Restricted to graduate students only.
Typically Offered: Spring.

**DPTR 6403 - Musculoskeletal Conditions III (2 Credits)**
This course continues the examination, physical therapy management and clinical reasoning necessary for the management of individuals with musculoskeletal disorders across the life span, focusing on the cervicothoracic spine and temporomandibular disorders. Medical management, radiology and pharmacology are covered with implications for physical therapy management.
Grading Basis: Letter Grade with IP
A-GRAD Restricted to graduate students only.
Typically Offered: Summer.

**DPTR 6404 - Musculoskeletal Conditions IV (2 Credits)**
This course addresses the examination, physical therapy management and clinical reasoning necessary for the management of individuals with musculoskeletal (MSK) disorders across the life span, focusing on pediatric, adolescent, geriatric, working adults and gender-specific conditions within the continuum of care. MSK medical management, radiology and pharmacology are covered with implications for physical therapy management.
Grading Basis: Letter Grade with IP
A-GRAD Restricted to graduate students only.
Typically Offered: Fall.

**DPTR 6502 - Neuromuscular Conditions II (2 Credits)**
This course includes an in-depth exploration of people with neurodegenerative conditions across the lifespan, specifically as related to tests and measures, prognoses, and intervention approaches. Radiology and pharmacology as related to neuropathy are included.
Grading Basis: Letter Grade
Typically Offered: Summer.

**DPTR 6503 - Neuromuscular Conditions III (4 Credits)**
This course progresses and synthesizes clinical skills, decision-making and reasoning using frameworks and evidence applied the physical therapy management for people with neurological conditions across the lifespan. Primary topics include vestibular disorders, traumatic/acquired brain injury, developmental and genetic disorders, and spinal cord injury.
Grading Basis: Letter Grade with IP
A-GRAD Restricted to graduate students only.
Typically Offered: Fall.

**DPTR 6632 - Clinical Reasoning II (1 Credit)**
This advanced course teaches students to integrate current evidence with critical reasoning in the ICF framework to facilitate patient-centered decision making in the examination, prognosis, and for intervention for complex patient cases across a variety of clinical practice settings.
Grading Basis: Letter Grade
Typically Offered: Fall, Summer.

**DPTR 6633 - Clinical Reasoning III (2 Credits)**
This course requires students to integrate evidence, patient values, and clinical expertise with the ICF model of clinical decision making for actual patient cases. Students will identify and answer focused questions regarding examination, intervention, and prognosis through literature searches and online collegial discussion forums. Requirement: DPT Students only
Grading Basis: Letter Grade

**DPTR 6672 - Professional Development II (2 Credits)**
Professional Development II expands conversations regarding our professional identity to consider what it means to be a health professional. We will explore our obligations to our patients, our profession, and society and consider the future of physical therapist practice. During the second half of the course we will turn our attention toward professional development, including licensure, practice settings, and post-professional career opportunities.
Grading Basis: Letter Grade with IP
Typically Offered: Spring.

**DPTR 6713 - Professional Development III (1 Credit)**
Introduction to leadership in healthcare including leadership styles/characteristics. Explores preparation for professional development opportunities following licensure including continuing education, consideration of salary/benefits/debt/etc., and the first position as a new professional. Discussion about career expectations, moving through the continuum of novice to expert, debate, and developing one's professional identity/potential.
Grading Basis: Letter Grade with IP
A-GRAD Restricted to graduate students only.
Typically Offered: Fall.

**DPTR 6723 - Healthcare Delivery II (3 Credits)**
This course covers the organization, financing, and delivery of physical therapy services within the United States healthcare system. Topics include business concepts relevant to providing care and managing a practice (marketing, human resources, risk management, financial management), and legal and regulatory issues (licensure, fraud/abuse laws, Americans with Disabilities Act, supervision of support staff). Additional content includes comparisons between the US system and other countries, and professional issues like interviewing, negotiating job offers, and selecting positions after graduation.
Grading Basis: Letter Grade with IP
Typically Offered: Spring.
DPT 6851 - Independent Study  (1-3 Credits)
This course provides students with an opportunity to pursue study and learning content of their own choosing or a special clinical interest under guidance of a faculty mentor.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Typically Offered: Summer.

DPT 6852 - Independent Study  (1-3 Credits)
This course provides students with an opportunity to pursue content of their own choosing under guidance of a faculty mentor.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Typically Offered: Fall.

DPT 6853 - Independent Study  (1-5 Credits)
This course provides students with an opportunity to pursue content of their own choosing under guidance of a faculty mentor.
Grading Basis: Letter Grade
Typically Offered: Spring.

DPT 6902 - Integrated Clinical Experience II  (1 Credit)
ICE II occurs in the middle of the fall semester and focuses on the broader roles that physical therapists have within patient and local community groups. It also continues the integration of classroom and clinical learning while student teams are placed in a new clinical setting (as compared to ICE I). ICE II allows immersion in activities focused on professional formation, advanced clinical problem solving, community engagement, and further development of cognitive, psychomotor and affective skills.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Typically Offered: Fall.

DPT 6931 - Clinical Education I  (5 Credits)
Eight-week, full-time clinical experience providing students with the opportunity to take on responsibilities of the professional physical therapist, including beginning to manage a caseload and participating in a healthcare team. Requirements: DPT Students only.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Typically Offered: Fall, Summer.

DPT 6932 - Clinical Education II  (6 Credits)
This is a 10-week, full-time supervised clinical experience. Experience with emphasis on increasing independence in management of patients, becoming an integral member of the healthcare team and using self-assessment for professional development.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Typically Offered: Fall, Summer.

DPT 7112 - Applied Exercise Science  (3 Credits)
This course will focus on exercise prescription for complex patients with multi-system disease. Emphasis will be on clinical decision-making to tailor appropriate rehabilitation interventions to medically-complex patient populations.
Grading Basis: Letter Grade
Typically Offered: Spring.

DPT 7117 - Health Promotion and Wellness II  (3 Credits)
Students will apply fundamental concepts learned in HPWI to further understand individual, social and structural determinants of health. Equipped with this knowledge, they will work to design interventions and programs that promote health at the individual and community level.
Grading Basis: Letter Grade with IP
A-GRAD Restricted to graduate students only.
Typically Offered: Summer.

DPT 7212 - Elective  (1 Credit)
Various topics: provides students with the opportunity to explore selected topics, related to clinical practice, in depth or topics that are outside of the scope of the set curriculum. DPT students only.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Repeatable. Max Credits: 1.
Typically Offered: Summer.

DPT 7641 - Integrated Practice  (3 Credits)
A synthesis of curricular content applied to highly complex situations illustrative and inclusive of clinical practice across the lifespan. Through retrospective and prospective reasoning, students will analyze and articulate decisions based on reasoning, evidence, and contextual realities with colleagues across health care professions. Requirement: DPT Student Enrollment Only
Grading Basis: Letter Grade
Typically Offered: Summer.

IPCP 5000 Interprofessional Collaborative Practice
This course develops core competencies in teamwork & collaboration for incoming health professions students. Students will learn in Interprofessional Teams (IP) teams coached by IPE faculty, develop essential communication skills and processes for simultaneous and sequential teams, and provide feedback on individual and team performance to improve IP collaboration.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Typically Offered: Fall.

IPHE 6000 Interprofessional Healthcare Ethics and Health Equity
This course develops foundational knowledge and basic practical skills to identify, analyze, and resolve ethical and health equity issues in clinical practice. This course integrates interprofessional collaboration and teamwork to teach students ethical theory and reasoning, professional ethics and its historical origins, and approaches to health care decision-making.
Grading Basis: Satisfactory/Unsatisfactory w/IP
Typically Offered: Summer

Catherine Bilyeu, PT, DPT, OCS
Assistant Professor, Associate Director of Clinical Education-Residential Pathway
Course Coordinator: DPTR 5201 Examination & Evaluation I, DPTR 5212 Foundations of Intervention II, DPTR 6931 Clinical Education I
Email: catherine.bilyeu@cuanschutz.edu

Lara Canham, PT, DPT, OCS
Senior Instructor, Recruitment and Admissions Coordinator
Course Coordinator: DPTR 6713 Professional Development III

Email: lara.canham@cuanschutz.edu
Cory Christiansen, PT, PhD
Professor
Course Coordinator: DPTR 5101 Movement Science I, DPTR 6102 Movement Science II
Email: cory.christiansen@cuanschutz.edu

Elliot (EJ) Gann, PT, DPT, NCS
Senior Instructor
Course Coordinator: DPTR 5501 Neuromuscular I
Email: elliot.gann@cuanschutz.edu

Robyn Gisbert, PT, DPT
Assistant Professor
Course Coordinator: RESIDENTIAL PATHWAY - DPTR 5011 Neuroscience, DPTR 5161 Psychosocial Aspects of Care I, DPTR 5162 Psychosocial Aspects of Care II, Humanities
Email: robyn.gisbert@cuanschutz.edu

Michelle Harris-Love, PT, PhD
Hybrid Pathway Associate Professor
Course Coordinator: DPTR 5011 Neuroscience, DPTR 5151 Motor Control & Motor Learning, DPTR 5501 Neuromuscular I, DPTR 6502 Neuromuscular Conditions II, DPTR 6503 Neuromuscular Conditions III
Email: mharrisll@uccs.edu, michelle.harris-love@cuanschutz.edu

Meghan Hernandez, PT, DPT, PCS
Senior Instructor, Pediatric Residency Director
Coordinator: DPTR 5141 Human Growth & Development, DPTR 7651 Clinical Reasoning Capstone
Email: meghan.hernandez@cuanschutz.edu

Lauren Hinrichs-Kinney, PT, DPT, PhD, OCS
Assistant Professor
Course Coordinator: DPTR 6404 Musculoskeletal Conditions IV, DPTR 7112 Applied Exercise Science
Email: lauren.hinrichs-kinney@cuanschutz.edu

Holly Ingham, PT, DPT, ATP, PCS
Clinical Instructor
Course Coordinator: DPTR 6932 Clinical Education II
Email: holly.ingham@cuanschutz.edu

David James, PT, DPT, OCS, SCS
Senior Instructor, Orthopaedic Residency Coordinator
Course Coordinator: DPTR 6403 Musculoskeletal Conditions III
Phone number: 303-724-8409
Email: david.james@cuanschutz.edu

Molly Jones, PT, DPT, NCS
Senior Instructor - Hybrid Pathway
Course Coordinator: DPTR 5501 Neuromuscular I, DPTR 6502 Neuromuscular Conditions II, DPTR 6503 Neuromuscular Conditions III, DPTR 6902 Integrated Clinical Experience II
Email: mjones45@uccs.edu, molly.jones@cuanschutz.edu

Dana Judd, PT, DPT, PhD
Associate Professor, Section Director of Student Affairs, Faculty Residency Director
Course Coordinator: RESIDENTIAL AND HYBRID PATHWAYS DPTR 5201 Examination & Evaluation I, DPTR 5202 Examination and Evaluation II,

Learning Outcomes

Doctor of Physical Therapy Learning Outcomes
Student Learning Outcomes for the DPT Program are founded on 5 Curricular Elements: 1) Patient-Centered Care, 2) Clinical Reasoning and Evidence Based Practice, 3) Movement for Participation, 4) Teamwork and Collaboration, and 5) Quality Improvement and Safety. Specifically, the learning outcomes are that all (100%) of program graduates and their employers will be competent in:

1. Delivery of patient-centered clinical care.
2. Clinical reasoning and decision-making.
3. Applying foundational science knowledge to clinical care to promote patient/population movement for life participation.
4. Applying principles of teamwork and collaboration within healthcare systems.
5. Providing quality patient-centered health care that is safe, effective, ethical, equitable, and takes cost into account.
