UNIVERSITY POLICIES

Alcohol and Drug Policies

Full policy language is also available here: https://www1.ucdenver.edu/docs/default-source/wellnesscenter-documents/2019-dfscanotification.pdf?sfvrsn=318f7bb9_2

As an academic community, The University of Colorado Denver | Anschutz Medical Campus is committed to providing an environment in which learning and scholarship can flourish. The possession or use of illegal drugs, or the abuse of those which may otherwise be legally possessed, seriously affects the University environment, as well as the individual potential of our students and employees. The University enforces state laws and related University policies, including those prohibiting the following activities on campus:

A. Providing alcoholic beverages to individuals under 21 years of age or possession or consumption of alcoholic beverages by individuals under 21.
B. Distribution, possession, or use of illegal drugs or controlled substances.
C. Possession of firearms or other dangerous weapons.

The abuse of alcohol and other drugs by students, regardless of age and of location (on-campus or off-campus), is prohibited by the Student Code of Conduct and Ethics and Professionalism codes on the University of Colorado Denver | Anschutz Medical Campus. This includes on- or off-campus activities sponsored by the University, such as officially sanctioned field trips, student-sponsored social activities, club sports travel, as well as activities of a student organization recognized by the institution. Professional meetings attended by employees and institution-sponsored activities abroad also fall under this code of conduct. The University can, and will, impose disciplinary sanctions for violations. Students are also subject to city ordinances and state and federal laws. A separate policy addresses violations by University staff.

The University strongly encourages students and staff members to voluntarily obtain assistance for dependency or abuse problem before such behavior results in an arrest and/or disciplinary referral, which might result in their separation from the institution.

The use of, or addiction to, alcohol, marijuana, or controlled substances is not considered an excuse for violations of the Student Code of Conduct or staff expectations, and will not be a mitigating factor in the application of appropriate disciplinary sanctions for such violations.

Help is available both on campus and within the community for students and staff members who are dependent on, or who abuse the use of alcohol or other drugs. Services are available at the Student and Community Counseling Center, (303-315-7270) for CU Denver Campus Students, Student Mental Health Services (303-724-4716) for CU Anschutz students, and The Colorado State Employee Assistance Program (303-866-4314) for CU Denver | Anschutz employees. These resources as well as other professional agencies will maintain the confidentiality of persons seeking help for personal dependency and will not report them to institutional or state authorities. The CU Denver Health Promotion and Engagement Coordinator, (303)315-4009, provides educational and awareness programming, information, and assistance for CU Denver students. The Director of Student Health Promotion at the CU Anschutz Medical Campus, (303)724-7674, provides this programming for CU Anschutz students.

Student Sanctions

Underage students confronted by the institution for the consumption of alcohol will face disciplinary sanctions including, but not limited to, a warning, bystander class, online class, face-to-face class, reflection paper, personal success plan, counseling referral, alcohol assessment, disciplinary probation, disciplinary probation with loss of good standing, suspension, and expulsion.

Students whose use of alcohol or drugs results in harm or the threat of harm to themselves or others, or to property, regardless of the location of the incident, may face disciplinary action by the University up to and including expulsion.

Students in the following schools/colleges on the CU Anschutz Medical Campus will be sanctioned according to their individual school or college’s professionalism/ethics or disciplinary codes:

- School of Dental Medicine
- School of Medicine
- College of Nursing (https://nursing.cuanschutz.edu/student-life/student-handbooks/)
- Skaggs School of Pharmacy & Pharmaceutical Sciences (https://pharmacy.cuanschutz.edu/docs/librariesprovider195/current-student-documents/pharmd/student-policies/student_ethics_and_conduct_code.pdf?sfvrsn=f68808b9_4)

As members of the University community, students are also subject to city ordinances and to state and federal law. Arrest and prosecution for alleged violations of criminal law or city ordinances may result from the same incident for which the University imposes disciplinary sanctions.

Colorado Marijuana Laws

Persons must be at least 21 years of age to buy, possess or use retail marijuana. It is illegal to give or sell retail marijuana to minors. Adults 21 and older can purchase and possess up to 1 ounce of retail marijuana at a time.

Medical marijuana requires a state red card, which can only be obtained by Colorado residents with a recommendation from a doctor that a patient suffers from a debilitating medical condition that may benefit from medical marijuana. Medical marijuana patients can obtain marijuana from a licensed center, a primary caregiver or self-grow.

Retail marijuana is intended for private, personal use. Such use is only legal in certain locations not open or accessible to the public. Marijuana may not be consumed openly or publicly. This includes but is not limited to areas accessible to the public such as transportation facilities, schools, amusement/sporting/music venues, parks, playgrounds, sidewalks and roads and outdoor and rooftop cafes. It is also illegal to smoke at indoor-but-public locations like bars, restaurants, and common areas in buildings.

It is illegal to drive under the influence of marijuana and it can result in a DUI, just like alcohol. Anyone with 5 nanograms or more of delta 9-tetrahydrocannabinol (known as THC) per milliliter in whole blood (CRS 42-4-1301) while driving can be arrested for DUI. The consequences of DUI are dependent on the driver but they can include fines, jail time and a revoked license.
Counseling and Treatment

Short-term alcohol and other drug counseling is available through the CU Denver Student and Community Counseling Center 303-315-7270 for Denver Students, and at Student Mental Health Services 303-724-4716 for CU Anschutz Students.

Campus services may refer students to other treatment programs for more intensive treatment if deemed appropriate. The University of Colorado Denver, the State of Colorado Employee Assistance Program offers employees additional education and counseling, as well as appropriate referrals.

Alcoholic Beverages at Official Functions

University of Colorado Denver | Anschutz Medical Campus official functions that include the serving of alcohol require the completion of an "Event with Alcohol" form and prior approval by the designated school/college/unit officer (Dean, Associate Vice Chancellor, or higher). Purchase of alcohol for personal consumption at official functions is allowed only if the source of the University funds is (1) gifts restricted for entertainment, donor cultivation, or personnel recruitment purposes and (2) approved by the Deputy Controller.

Sales of alcohol at University events may only be made at licensed establishments. Pooling resources to purchase alcohol constitutes sale of alcohol without a license and is therefore not allowed on University property or at University events.

To ensure proper management of an activity where alcohol is provided at a pre-approved official function, the following rules include but are not limited to:

1. All persons being served alcoholic beverages must be at least 21 years of age and have proper identification for proof of age.

2. An Event Manager will be present and will monitor the alcoholic beverage service area. The Event Manager/Sponsor is a responsible and accountable individual who will be present for the entire event.

3. Food items and non-alcoholic beverages will be available. These items must be available at no cost, in the same general location, and of such a variety as to make them attractive alternatives to the alcoholic beverages being provided.

4. Persons checking ID’s will have knowledge of proper identification techniques and are over 21 years of age.

5. Persons dispensing alcohol will monitor individual’s consumption and not continue to dispense to persons that show signs of impairment.

6. Alcoholic beverages will not be available for individuals to pour their own. There will be no open or unattended kegs, containers, or bottles.

7. If the event lasts more than two hours, alcohol will not be served during the last hour. For events lasting less than two hours, service will discontinue at least 30 minutes prior to the scheduled end of the event.

8. The entrance/exit access area will be monitored so as not to allow persons to carry in or take alcoholic beverages from the consumption area.

9. Designated drivers or other means of alternate transportation will be available.

10. Campus Police are notified in advance for on-campus events, as applicable.

For a complete listing of University rules for managing an official function with alcohol, please see the following policies or contact the campus Deputy Controller.

Campus Administrative Policy 3050

CU System University Risk Management Page (https://www.cu.edu/risk/)

Animals on Campus

The University allows individuals to bring animals on Campus property or include them as part of University-sponsored events, programs, or activities in accordance with federal and state laws and in other situations subject to the rules outlined in this Policy. At the same time, the University recognizes the health and safety risks potentially created by unrestrained animals on Campus and at University-sponsored events, programs, or activities. This Policy sets forth roles and responsibilities of employees, students, visitors, and applicants for admission or employment with the University who have the need to bring animals on Campus or include them as part of University-sponsored events, programs, or activities.

Definitions

1. Animal Definitions

a. Emotional Support Animal: an animal that is not a service animal as they are not specially trained to perform a task and are not covered by the Americans with Disabilities Act, as amended ("ADA") relative to public accommodations, but they are covered by applicable law relative to housing considerations to allow a person with a disability an equal opportunity to use and enjoy a dwelling. To legally be considered an Emotional Support Animal, the animal needs to be prescribed by a licensed mental health professional to a person with a disabling mental illness.

c. Research Animal: any animal that is covered under a University of Colorado Animal Care and Use Committee (IACUC) approved protocol. Research Animals are not Pets, Service Animals, Therapy Animals, or Emotional Support Animals unless part of a study approved by the IACUC. Their presence on campus is controlled by the Office of Laboratory Animal Research; the terms of this Policy do not apply to those animals.

d. Service Animal: a dog, and in some specific instances a miniature horse, that has been individually trained to do work or perform tasks for an individual with a disability. The task(s) performed by the animal must be directly related to the person’s disability.

e. Service Animal in Training: an animal engaged in training to become a Service Animal. All below references to Service Animals refers also to Service Animals in Training.

f. Therapy Animal: a trained animal that accompanies a licensed counselor or therapist to treatment sessions in order to deliver individualized animal-assisted therapy interventions.
2. Additional Definitions

a. **ADA Coordinator**: an employee of the University responsible for providing information to and facilitating the reasonable accommodation process, pursuant to the ADA for employees and applicants for employment.

b. **Campus**: includes all University-owned, leased, or controlled locations.

c. **Disability**: with respect to an individual, a physical or mental impairment that substantially limits one or more major life activities of such an individual, a record of such an impairment, or being regarded as having such an impairment. The impairment may be permanent, chronic, or progressive. An impairment that is episodic or in remission is considered a disability under the ADA if the condition would substantially limit a major life activity when active.

d. **Disability Services Director**: an employee of the University whose purpose is to provide assistance to students with disabilities, including the provision of reasonable accommodations.

e. **Handler**: person without a disability who is training a Service Animal.

f. **Partner**: person with a disability using a Service Animal. For purposes of this policy, this can be either a student or an employee.

g. **Public Facilities**: any property, including buildings, grounds, and equipment controlled by the University and open to the public.

h. **Qualified Individual with a Disability**: an individual with a disability who possesses the requisite skills, education, experience, and training for a position, and who can perform, with or without reasonable accommodation, the essential functions required for the position the individual desires or holds.

i. **Reasonable Accommodation**: a modification or adjustment to the job application process or the work environment enabling a qualified individual with a disability to be eligible for a position, perform the essential functions of a position, or enjoy the same benefits and privileges of employment as are enjoyed by similarly situated employees without disabilities. The University provides reasonable accommodations to qualified individuals with a disability in order for them to enjoy equal benefits and privileges of work and to enable performance of the essential functions specified in the job description.

Responsibilities and Procedures

1. **Service Animal Qualifications**

A Service Animal must be individually trained to do work or perform tasks for the benefit of an Individual with a Disability. The work or tasks performed must be directly related to the disability. Service Animals must be accompanied by a Partner at all times and the Partner must maintain control of the animal at all times.

The Service Animal must be current on vaccinations.

In situations where it is not obvious that the animal is a Service Animal, the University may ask:

a. "Is the animal a service animal required because of a disability?"; and

b. "What work or task has the animal been trained to perform?"

2. **Service Animal Care and Control Requirements**

The care and supervision of a Service Animal is the responsibility of the Service Animal's Partner. Service Animals must be harnessed, leashed, or tethered, unless the device interferes with the Service Animal's work or the individual's disability prevents using these devices. In that instance, the Partner must maintain control of the animal at all times through voice, signal, or other effective controls.

As noted in the ADA, the Partner is responsible for caring for and supervising the Service Animal, which includes toileting, feeding, grooming and veterinary care. If a Service Animal is sick, that Service Animal should not be brought to Campus or University-sponsored events, programs, or activities during the duration of that sickness. The Partner is responsible for the cleanup of all animal waste; the University may designate animal waste areas.

The owner or individual with a disability who has control or custody of a Service Animal or the trainer of a Service Animal is liable for any damage to persons, premises, or facilities caused by the Service Animal or Service Animal in Training.

3. **Removal of Service Animals from Campus or University-Sponsored event, program, or activity**

A University official, including, but not limited to, an event coordinator and/or a member of the Animals on Campus Committee, may require the removal of a Service Animal from campus or from a University-sponsored event, program or activity if it is: (1) out of control (i.e. biting or attempting to bite), vocalizing, running around, jumping at or on other animals or people or engaging in other aggressive or disruptive behavior; or (2) the animal is not housebroken.

Circumstances leading to removal will be reviewed on a case-by-case basis. In the event the University properly excludes a Service Animal, it must provide the Handler the opportunity to participate in the service, program, or activity without having the Service Animal present. Once a particular animal has been excluded, it may not return to campus. If an excluded animal reappears on campus, the animal's Partner will be referred, as applicable, to either a student conduct official or human resources for possible disciplinary action.

4. **Employees and Service Animals on Campus**

Qualified employees with a disability who require a Service Animal as a Reasonable Accommodation, as defined by the ADA, in a University office or other facility not open to the general public must submit a request that they be permitted to bring their Service Animal to their place of employment. The ADA Coordinator may review this request with the Employee's supervisor. The employee must contact the ADA Coordinator at least two weeks in advance of the Service Animal coming on campus or other University facility or as early as is reasonably practicable. After engaging in the interactive process on a case-by-case basis with the disabled employee, the ADA Coordinator may approve the requested accommodation and will provide documentation for the employee to present to their supervisor.

Employees who do not themselves have a disability that would benefit from the use of a Service Animal but wish to train an animal to be a Service Animal for other individuals must submit a request to the relevant campus ADA Coordinator. These requests will be considered on a case-by-case basis with supervisor input, but not analyzed under the Americans with Disabilities Act.

Employees wishing to bring Service Animals and Service Animals in Training to campus must initially provide Service Animal and Service
Animal in Training health and vaccination records, including but not limited to negative fecal exam results, to the ADA Coordinator and maintain such records, updated on an annual basis, that can be shown upon demand to the ADA Coordinator or a University official enforcing this Policy.

5. Students and Service Animals on Campus
A student with a disability, who requires a Service Animal in an academic setting, is encouraged to meet with the Office of Disability Resources and Services. After registration, including verification of the disability and Service Animal, is complete, the disability staff will provide documentation for the student to present to their faculty. In addition, the disability staff are available to assist with providing access to additional accommodations, resources, information, and advocacy.

6. Visitors and Service Animals on Campus
Visitors with Service Animals may access all public facilities, with the exception of areas where this Policy specifically prohibits Service Animals.

7. Extent of and Restrictions on Service Animal Access
The University may prohibit or otherwise restrict the access of Service Animals in certain University facilities due to health or safety restrictions or concerns, where the presence of a Service Animal may put the Service Animal at risk, compromise the integrity of certain research, or otherwise fundamentally alter a program or activity. Each request for access will be evaluated on a case-by-case basis by the ADA Coordinator or Disability Services Director.

Service Animals may be restricted from the following areas:
- Food preparation areas;
- Research laboratories;
- University Animal Care Facilities;
- Mechanical rooms or custodial closets such as boiler rooms, facility equipment rooms, electrical closets, elevator control rooms, and similar spaces;
- Areas where personal protective clothing or equipment are necessary;
- Areas where there is a danger to the Service Animal such as classrooms, wet laboratories or wood/metal/machine shops, where there are physical chemical or other hazards on the floor, in the air, or protruding from a surface, that could cause harm to the animal.

8. Conflicting Disabilities
Individuals with medical issues aggravated due to the presence of other's Service Animals should contact the Office of Disability Resources and Services if the Partner involved is a student or the ADA Coordinator if the Partner involved is an employee. The Office of Disability Resources and Services or the ADA Coordinator will resolve any conflict in a timely manner and will consider the conflicting needs and/or accommodations of all individuals involved.

Service Animals in Training on Campus
A trainer of a Service Animal, or an individual with a disability accompanied by an animal that is being trained to be a Service Animal, may have the right to be accompanied by the Service Animal in Training at the University. The presence of the Service Animal in Training may not interfere with the trainer's responsibilities to the University.

Pursuant to above, Employees requesting to bring a Service Animal in Training to the workplace must speak with the ADA Coordinator prior to bringing the animal to campus.

Emotional Support Animals are not Permitted in University Facilities
Students requesting to keep an Emotional Support Animal in their University dormitory, must work with the facility to determine under what circumstances the animal is allowed.

Therapy Animals are permitted in University public facilities to the extent that they are accompanied by a trained therapist or counselor and are being used solely for the purpose of individualized or group assisted animal therapy (“AAT”). The trained therapist or counselor must request permission from the University Committee prior to bringing the animal on campus and follow all campus requirements regarding third party use of facilities as well as certain minimum requirements relating to vaccination and insurance as determined by the Committee. The rules outlined above regarding Service Animals apply to Therapy Animals. Therapy Animals must:

1. Have completed a training program, acceptable to the University, prior to engaging in any therapy services.
2. Be seen by a veterinarian, the cost of which is paid by the animal’s owner, once per year and provide to the University evidence of current vaccinations and a negative fecal exam.
3. Be secured in an appropriate crate or enclosed space/office at all times that the animal cannot be physically present with the Handler.

The Therapist or Counselor must:

1. Accept complete financial responsibility for the animal.
2. Obtain informed consent from each patient who will be seen by the Therapy Animal.
3. Maintain control of the animal at all times.
4. Develop a plan to remove the animal whenever the circumstances of the therapy session require removal.
5. Require that the patient wash their hands after coming into contact with the Therapy Animal.
6. Attend to the needs of the animal including, but not limited to, allowing the Therapy Animal regular breaks from the sessions, taking the animal outside to designated areas to eliminate, and providing water when necessary.
7. Keep the animal away from campus if it shows signs of illness until cleared by a veterinarian.

In addition to the prohibited locations in section above, the Therapy Animal may be further restricted by the clinical sites of practice.

"Puppy De-stress" type events must meet the criteria for therapy animals or otherwise be approved in writing at least two weeks prior to a scheduled event by the Committee.

Contacting the Animals on Campus Committee
Persons with concerns, about specific Service Animals they see on campus, may inform the Animals on Campus Committee at: aoc@ucdenver.edu.

Therapists and Counselors wishing to incorporate Therapy Animals into their practice and departments that wish to sponsor “Puppy De-Stress” events must inform the University by contacting the Animals on Campus Committee at aoc@ucdenver.edu. The request will then be forwarded to the Animals on Campus Committee who will review and meet with the Therapist or Counselor to outline additional requirements, if any.
ADA Resources

If you are a student at the CU Denver Campus and need to make an application for accommodations or need information regarding the ADA and Service Animals Policy, contact the Office of Disability Resources and Services at Disability Services Coordinator at (303) 315-3510 or by mail to CB 118 P.O. 173364 Denver, CO 80217-3364.

If you are a student at the CU Anschutz Medical Campus and need to make an application for accommodations or need information regarding the ADA and Service Animals Policy, contact the Office of Disability Resources at (303) 724-5640 or by mail at Strauss Health Sciences Library - 1409A1, 12950 East Montview Boulevard, Aurora, CO 80045.

If you are an employee or prospective employee and need to make an application for accommodations or need information regarding the ADA and Service Animals Policy, contact the ADA Coordinator at (303) 315-2700 or mail to P.O. Box 173364, Campus Box A005/130, Denver, CO 80217-3364.

Other Applicable Policies

University students and employees who are located off of University property and not engaged in a University-sponsored program or activity must adhere to the policies and procedures regarding animals established by the third party location.

Anti-Violence Policy

The University of Colorado strives to maintain an environment free of intimidating, threatening, or violent behavior, including but not limited to, verbal and/or physical aggression, attack, threats, harassment, intimidation, or other disruptive behavior in any form or by any media, which causes or could cause a reasonable person to fear physical harm by an individual(s) or group(s) against any person(s) and/or property. This policy is not intended to regulate the content of an individual’s speech but is instead meant to address the manner in which individuals behave. This policy applies to academic, administrative, research, and service departments, programs, activities and/or services wherever CU Denver Campus and CU Anschutz Medical Campus business is conducted, including extended studies and international locations.

Policy Statement

University employees, students, affiliates, and visitors who engage in prohibited behavior shall be held accountable under University policy and local, state, and federal law. Any employee or student who commits prohibited behavior may be subject to disciplinary action, up to and including, dismissal or expulsion, as well as arrest and prosecution. Any visitor or affiliate who commits or threatens to commit prohibited behavior may be subject to exclusion from campus, arrest, prosecution, termination of their business relationship with the University, and/or any other appropriate action.

Examples of prohibited behaviors may include any of the following behaviors that have the effect of causing a reasonable person to be in fear of harm to themselves or others; but are not limited to: (1) disturbing the peace by violent, tumultuous, offensive, or obstreperous conduct; (2) engaging in intimidating, threatening, or hostile statements or actions that unreasonably disrupts the work or learning environment, causes undue emotional distress to another, or creates a reasonable fear of injury to a person; (3) making gestures that convey threats; (4) or using fighting words; (5) uttering ethnic, racial, or sexual epithets; (6) making threatening comments about, or references to, violent events and/or behaviors; (7) waving fists, pushing, stalking, bullying, haz ing; (8) destroying personal property in the workplace; (9) destroying university property; (10) physically assaulting or attacking persons or property; (11) throwing objects at persons or property; (12) engaging in vandalism, arson, or sabotage.

With regard to firearms, explosives and other dangerous or illegal weapons on or within any University of Colorado campus, leased building or areas where such possession interferes with the learning and working environment of the University of Colorado, please refer to Regent Policy 14.1, Weapons Control, and the forthcoming Campus Policy on Weapons Control.

Reporting Procedures

1. Emergency or Life-Threatening Situations

In the case of an emergency or life-threatening situation, immediately call 911. A call to 911 will go to the appropriate Campus, City, or County law enforcement agency. A call to 911 from any campus telephone automatically registers the location of the telephone on which the 911 call was placed, even if no words are spoken.

If calling from a cell phone on the Anschutz Medical Campus, please contact University Police at (303) 724-4444 or use Safe Zone to report the emergency situation. If calling from a cell phone on the Auraria Campus, please call Auraria Campus Police at (303) 556-3271. The AHEC Text-A-Tip number can also be a reporting avenue: 720-593-TIPS (8477).

2. Non-Emergency Situations

In all other situations, notify the Faculty and Staff Threat Assessment (FaST) team at (303) 315-0182 or the CARE Team at (303) 724-8488 at CU Anschutz Medical Campus or (303) 315-7306 for CU Denver Campus. The FaST Team will engage other departments as appropriate, including Human Resources.

3. Responsibility to Report

Anyone witnessing or receiving a report of prohibited behavior, or unauthorized possession, display or use of any unauthorized weapon shall immediately notify the appropriate authority, as listed above. Any supervisor who fails to make such a report shall be subject to corrective/disciplinary action.

The Workplace Violence Incident Report Form will be used by Human Resources and University Police to document each alleged violation of this policy. Copies of the form are available on the Human Resources website.

4. Non-Retaliation and Confidentiality

To the extent possible, no adverse action will be taken against anyone for truthfully reporting a violation of this policy. Further, every effort will be made to protect the confidentiality of all personal identifying information provided in reports of violations of this policy.

Disposition of Allegations; FAST Team and CARE Team Role and Teams’ Training

1. Disposition

All reports of threatened, potential, or actual violent behavior or unauthorized possession, display or use of any weapon will undergo inquiry and be verified, documented, and confronted.

2. CARE Team

When it is alleged that a student has violated this Policy by engaging in threatening, potential, or actual violent behavior
or unauthorized possession, display or use of any weapon, the CARE Team will investigate such reports for threat assessment, if necessary. The CARE Team will then refer recommended actions to the student’s school or college for potential sanctions as part of the relevant school or college’s student conduct process. The following units will assign individuals to serve as representatives to the CARE Team:

- Case Management
- Campus Student Affairs Office and/or Conduct Office
- Student Affairs for one School or College on a rotating basis (CU Anschutz Medical Campus)
- University /AHEC Police
- University Counsel
- Office of Equity
- University Housing & Dining (CU Denver Campus)

3. FaST Team
HR will investigate reports regarding prohibited behavior or possession, display, or use of any unauthorized weapon, and coordinate the University’s response to violent behavior. When determined to be necessary by Human Resources, or University Police if the situation involves a Human Resources employee, a report will be referred to the FaST Team for threat assessment. The following units will assign individuals to serve as representatives to the FaST Team:

- Human Resources
- University Police
- University Counsel
- Office of Equity
- Auraria Police
- A licensed psychiatrist from the Department of Psychiatry
- Faculty with scholarly and applied expertise in workplace behavioral issues

4. Training
All members of the FaST Team and the CARE Team will participate in training provided by the National Behavioral Intervention Team Association (NABITA).

The University encourages the training of all employees, students, and affiliates in this area. Please contact Human Resources for more information.

Bathroom and Locker Room Policy
The University of Colorado Anschutz Medical Campus (“university”) has adopted this policy for all students, employees, and visitors to ensure equal access to restrooms and/or locker rooms regardless of their sex, gender identity, or gender expression.

Policy Statement
1. Equal Access to Restroom and/or Locker Room Facilities
   a. The university strives to create and sustain a campus environment that supports and values all members of our community. One aspect of creating a supportive and respectful environment is providing access to safe restroom and/or locker room facilities.
   b. Students, staff, faculty, and visitors shall be permitted to utilize the multi-stall or single-stall restroom or locker room that corresponds with their gender identity and/or gender expression. Students, staff, faculty, and visitors shall not be required to use the restroom and/or locker room facilities that correspond to their sex.
   c. Questioning the presence of or harassing an individual who enters a restroom or locker room because of their perceived sex, gender expression or gender identity could be a violation of the university’s Nondiscrimination policy.
   d. The university has posted the list and map of available all-gender or single stall restrooms facilities online at: https://www.ucdenver.edu/docs/university-policies-procedures/discrimination-and-harassment/protected-characteristics.pdf

2. Whom to Contact
   a. Employees or students with questions regarding the university’s policy or concerns regarding discrimination based on sex, gender identity, or gender expression, may contact the Office of Equity at 303-315-2567 or via email at equity@ucdenver.edu. To report concerns of discrimination, you can submit an incident report form: https://cm.maxient.com/reportingform.php?UnivofColoradoDenver&layout_id=2.
   b. If rooms are unclean or need to be restocked with supplies, contact Facilities Services at 303-724-1777.
   c. For general support and advocacy on the Anschutz Medical Campus, please contact the Office of Diversity, Equity, Inclusion, and Community Engagement at odeice@anaschutz.edu.

Definitions
- **Restroom**: A facility that includes at least one toilet and sink, but no bathing fixture.
- **Locker Room**: A facility that includes at least one area where an individual could disrobe to change clothing. This facility may or may not include a bathing fixture, toilet, or sink.
- **Gender Identity**: Refers to the innate sense of one’s own gender, or an internal sense of who one is. See https://www.ucdenver.edu/offices/equity/university-policies-procedures/discrimination-and-harassment/protected-characteristics.html
- **Gender Expression**: Refers to the external appearance of one’s gender, usually expressed through behavior, clothing, haircut or voice, and which may or may not confirm to socially defined behavior and characteristics typically associated with being masculine or feminine. See https://www.ucdenver.edu/offices/equity/university-policies-procedures/discrimination-and-harassment/protected-characteristics.html
- **Sex**: Refers to the assigned and/or classification of an infant at birth as male, female, or intersex based on reproductive organs. See https://www.ucdenver.edu/offices/equity/university-policies-procedures/discrimination-and-harassment/protected-characteristics.html

- **All-Gender Restroom**: A Multi-stall restroom designated for use by any individual(s) regardless of their sex, gender Identity, or gender expression. Allows for access for several users at one time.
- **Single-Stall Restroom**: Restroom designed to accommodate one individual at a time, typically equipped with an external lock, to prevent access while occupied.
• **Multi-Stall Restroom**: Restroom designed to accommodate multiple individuals at a time, typically not equipped with an external lock.
• **Students**: Includes, but is not limited to, all students, including part-time, full-time, degree-seeking, non-degree seeking, undergraduate, or graduate students enrolled at CU Anschutz.
• **Employee**: Includes, but is not limited to, all staff, faculty, residents, fellows, including part-time, full-time and temporary appointments.

### Campus Closures/Delays

This policy establishes physical campus closure and related staffing expectations during inclement weather and other emergencies, and is applicable to all faculty, classified staff, university staff and student employees at the University of Colorado Anschutz Medical Campus ("CU Anschutz"). Circumstances which may require that CU Anschutz facilities/campus be closed include but are not limited to: inclement weather such as snow, ice, tornadoes and other weather-related conditions, flood, fire, chemical spills, air pollution advisories and other similar natural disasters; and, acts of violent crime, terrorism and other major threats to personal health or safety.

### Policy Statement

1. The decision to close the physical campus is vested with the CU Anschutz Chancellor or designee(s). With guidance from weather reports and forecasts, law enforcement agencies and other emergency personnel, the decision to close a campus will be made under conditions that pose serious health and/or safety hazards to campus constituents. The primary criterion for closing the campuses will be the current or changing conditions of the campuses and the immediate environment. No individual school or department may formally announce an independent closing decision. Closing considerations may include but are not limited to:

   - Ability of employees to access the parking lots and buildings by 6:00 a.m.
   - If the sidewalks are clear and safe for use by 6:00 a.m.
   - Status of the roads cleared and negotiable by 6:00 a.m.
   - State and or local warnings in place
   - The number of consecutive days the campus has been closed
   - Status of functioning infrastructure and services:
     - Domestic water
     - Steam
     - Chilled water
     - Telephones
     - Network
     - Electrical
     - Circulator (Anschutz Medical Campus)
     - Public transportation
     - Public safety first responders
   - Conditions surrounding the campus or facilities
   - Ability of essential personnel to arrive at work and stay for an extended period of time
   - Long-term outlook or weather forecast
   - Forecast for length of time the campus/facility can be kept open
   - Whether affiliate entities are impacted and/or open
   - Whether State and local agencies are open

CU Anschutz has the authority to make campus closure decisions independent of city and state officials and is exempt from the State Inclement Weather Policy as established by the Governor for state employees.

#### a. CU Anschutz Medical Campus

The CU Anschutz Chancellor or designee(s), usually the Executive Vice Chancellor for Administration and Finance, have authority over the Anschutz Medical Campus, and off-campus work locations associated primarily with this campus. This applies to the locations in the Denver Metro area. Individuals in off-site locations outside of a radius of 15 miles of Aurora will follow the closure decision by the facility in which they are practicing.

University of Colorado Hospital Authority (UCH), Children's Hospital Colorado (CHCO) and other affiliates at CU Anschutz have separate operating policies that affect their staff. However, every effort will be made to coordinate closure information with hospital partners and other affiliates, particularly to ensure appropriate medical care coverage. Individuals required to work in those clinical facilities must follow the requirements and closure status of those locations.

#### b. Off-Campus Activities

Closures in the case of inclement weather also include the cancellation of off-campus activities. However, independent policies and procedures for closing may be determined for off-campus activities by the college, school, location, or department supervising and directing the impacted off-campus activities.

### 2. Communicating Closure Decisions

The Office of Communications at CU Anschutz is designated by the Chancellor to notify the news media of closures and update campus channels. CU Anschutz Police will notify the campus community through the CU Anschutz Alerts system. Weather closures and emergency notification decisions will be made as early as possible to facilitate the most effective communication. Multiple communication avenues will be used whenever possible, to ensure broad access to information. The primary sources of closure will include:

- Local television and radio stations and their websites
- CU Anschutz campus website: http://www.cuanschutz.edu and social media channels
- CU Anschutz Alerts system: text message, email message, website, and social media channel (coordinated through University Police)
- CU Anschutz emergency information number: 877-INFO-070 (877-4636070) (coordinated through University Police)

### 3. Staffing Management

#### a. Essential Employees

- Certain employees, by nature of their assignments, may be designated as ‘essential,’ e.g., certain police personnel, safety, medical, information technology, administrative and critical facilities personnel. Appointing authorities of applicable units usually identify these employees in advance and notify them of their status in writing. Specific incidents or circumstances may, however, require the immediate determination and notification that an employee must report during a campus closure. Since such essential employees are often expected to report to work during closures, they are required to be aware of the reporting and communication plan for their work area.

Essential employees with parking privileges should park in their normal parking spaces. If unable, essential employees need to park in spaces that are accessible, without using handicap spaces. They
The only permitted exceptions to this prohibition are:

on any property owned, leased, or controlled by the Denver Campus or the

the unauthorized possession of

Both the Denver Campus and the Anschutz Medical Campus prohibit

Policy Statement

The only permitted exceptions to this prohibition are:

1. The carrying of a concealed weapon in accordance with the requirements of the Colorado concealed carry laws.
2. The carrying of a firearm or other weapon by any member of the armed forces of the United States, or Colorado National Guard while acting in their official capacity and in conformance with general or specific military orders, and
3. A peace officer, as described in § 16-2.5-101, C.R.S., when carrying a weapon in conformance with the policy of their employing agency as provided in § 16-2.5-101(2).
4. A law enforcement officer, agent, or employee of the United States, when lawfully carrying a weapon in conformance with the policy of their employing agency.
5. The possession of a Banned Item by individuals who have written permission from the chief of police for those campuses which have such an officer or from the chancellor after consultation with the chief of police. Requests for exemption from this policy shall be submitted to the Chief of Police and will be considered based upon the educational or business need for possession of the otherwise prohibited weapon.

In the event that an individual found to be in possession of a Banned Item, or is found to have intentionally or recklessly used or possessed an item that does not meet the definition of a Banned Item in a way that would intimidate, harass, injure or otherwise interfere with the learning and working environment of the university, that individual may be excluded from the university campus, leased building, or other area under the control of the university. For employees or students, the result may include termination or expulsion from the University. Such a decision will be made in collaboration with Human Resources (for employees) and Student Affairs (for students). In the case of the Denver Campus, officials shall make every effort to work with the Auraria Higher Education Center officials to obtain a reciprocal ban relating to AHEC property. This section is not intended to limit the discretion of the University to institute summary suspension proceedings.

This policy is intended to clearly state expected standards of personal conduct for employees, students, and visitors.

Definitions

A "Banned Item" shall include any of the following:

1. Firearms of any size or type of construction and ammunition, which may include but are not limited to: gas or air guns, including BB, pellet, and paint ball guns; firearm silencers; machine guns; short shotguns; short rifles;
2. Any knife with a blade over 3.5 inches in length, including hunting and fishing knives;
3. Ballistic, gravity and switchblade knives, regardless of the length of the blade;
4. Bows and arrows, and cross-bow;
5. Blackjacks, bludgeons, batons, nunchaku, throwing stars, and metallic knuckles;
6. Swords, pikes, lances and spears;
7. Fireworks, bombs, grenades and torches;
8. Shields, poles, or other objects that may or are being used to strike, block, push or corral another person; and
9. A harmless instrumentality, or replica, designed to look like a firearm, explosive, or other weapon.

Email Account

Email is an official means for communication within CU Anschutz. Therefore, CU Anschutz has the right to send communications to students/staff/faculty via email and the right to expect that those communications will be received and read in a timely fashion. Students, faculty, and staff are expected to check their official email address on a frequent and consistent basis in order to stay current with university communications. Students, faculty, and staff have the responsibility to recognize that certain communications may be time critical. University email is provided to support University activities and excessive personal use should be avoided.

FERPA

The Family Education Rights and Privacy Act of 1974 (FERPA) deals specifically with the education records of students, affording them
certain rights with respect to those records. For purposes of definition, education records are those records which are:

1. Directly related to a student and
2. Maintained by an institution or a party acting for the institution.

FERPA gives students who reach the age of 18 or who enroll in a post secondary institution the right to inspect and review their own education records. Furthermore, the right to request amendment of records and to have some control over the disclosure of personally identifiable information from these records, shift from the parent to the students at this time.

FERPA applies to the education records of persons who are or have been in attendance in post secondary institutions, including students in cooperative and correspondence study programs, video conference, satellite, internet or other electronic forms. FERPA does not apply to records of applicants for admission who are denied acceptance or, if accepted, do not attend an institution. CU Anschutz considers "enrollment" to begin on the first day of classes of the semester in which a student initially enrolls. FERPA rights end at death, but records may be released at the university's discretion.

Notice of Student Rights

Students at the University of Colorado Anschutz Medical Campus (CU Anschutz) have certain rights concerning their education records under the Family Educational Rights and Privacy Act (FERPA). These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day that the university receives a request for access. Students should submit to the registrar, dean, head of the academic department or other appropriate official, written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask the university to amend a record that they believe is inaccurate or misleading. They should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, or assisting another school official in interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the university discloses education records without consent to officials of another school, in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Colorado Denver to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920

FERPA generally requires the University to obtain student consent prior to disclosing their education records or personally identifiable information contained therein. One exception, which permits disclosure without student consent, is information about the student that the University has designated as "directory information." The following items are designated "directory information" and may be released at the discretion of the University of Colorado unless a student files a request to prevent their disclosure:

- name
- address, telephone number, and e-mail address
- dates of attendance
- registration status
- class (i.e. freshman, sophomore, junior, senior)
- major
- awards
- honors
- degrees conferred
- photos

Although these items are designated by CU Anschutz as directory information, only a limited amount of this information is routinely disclosed by CU Anschutz officials, and the University retains the discretion to refuse to disclose directory information if it believes such disclosure would be an infringement of student privacy rights.

Forms to prevent disclosure of directory information can be obtained at the Registrar's Office in Education II North, or visit the Registrar's website (https://www.cuanschutz.edu/registrar/home/). Questions regarding your rights under FERPA should be directed to the Registrar's Office:

CU Anschutz Medical Campus
Campus Box A054
Phone: 303-724-8000
Fax: 303.724.8060
Email: Registrar@cuanschutz.edu

Definition - Education Record

Those records directly related to a student and maintained by the institution or by a party acting for the institution are considered education records. The term "education records" does not include the following:

- Records of instructional, supervisory, administrative, and certain educational information that is in the sole possession of the maker thereof, and are not accessible or revealed to any other individual except a substitute who performs on a temporary basis (as defined
in the institutional personnel policy) the duties of the individual who
made the records.

- Records maintained by a law enforcement unit of the educational
agency or institution that were created by that law enforcement unit
for the purpose of law enforcement.

- Records relating to individuals who are employed by the institution,
which are made and maintained in the normal course of business,
relate exclusively to individuals in their capacity as employees, and
are not available for use for any other purpose. Records of individuals
who are employed as a result of their status as students (for example,
work study students) are education records.

- Records relating to a student which are:
  - Created or maintained by a physician, psychiatrist, psychologist,
or other recognized professional or paraprofessional, acting in
his/her professional capacity or assisting in a paraprofessional
capacity or assisting in a paraprofessional capacity. Used solely
in connection with the provision of treatment to the student.
  - Not disclosed to anyone other than individuals providing such
treatment.

**Definition - Legitimate Educational Interest**

This means the demonstrated need to know by those officials of an
institution who act in the student’s educational interest, including faculty,
administration, student employees, clerical and professional employees,
and other persons who manage student records information.

Any school official who needs information about a student in the course
of performing instructional, supervisory, advisory, or administrative duties
for the University of Colorado Anschutz Medical Campus has a legitimate
educational interest.

This includes contractors, consultants, volunteers and other outside
providers used by the University of Colorado Anschutz Medical Campus,
such as the University of Colorado Foundation and the National Student
Clearinghouse.

**Directory Information**

FERPA directory information is information contained in a student’s
education record that generally would not be considered harmful or an
invasion of privacy if disclosed. Under current CU Anschutz policy, the
following information is designated as directory information:

Student name. If provided, a preferred name will be used when there is
not a documented business or legal reason to provide a student’s primary
name. Students may also select a diploma name for graduation and
commencement materials.

- Hometown (city, state)
- Campus email address*
- Dates of attendance
- Previous educational institutions attended
- School/college or division of enrollment
- Majors, minors and field of study
- Classification level (e.g., freshman, sophomore, graduate student)
- University-recognized honors and awards
- Degree status (e.g. expected graduation date and/or conferral dates/ terms)
- Enrollment status
- Employment related to student status (e.g. teaching assistant,
  resident assistant or work-study) and dates for positions held
- Participation in officially recognized activities/sports, including height
  and weight of athletes
- Photos and videos taken or maintained by the university

*Campus email addresses are only disclosed to requestors who agree not to
use them for solicitation.

Although these items are designated by CU Anschutz as directory
information, only a limited amount of this information is routinely
viewed by CU Anschutz university officials. The University retains the
discretion to refuse disclosure of directory information if it believes such
disclosure would be an infringement on student privacy rights.

**Nondisclosure of Directory Information**

Students may ask the University not to publicly disclose directory
information. Students should be advised, however, if they are seeking
employment, the Registrar’s Office cannot release their enrollment,
degree status or major to anyone unless the student comes to the
Registrar’s Office with a photo ID.

Forms to prevent disclosure of directory information can be obtained
at the Registrar’s Office in Education II North, or by visiting the CU
Anschutz Registrar’s website (https://www.cuanschutz.edu/registrar/).
Questions regarding student rights under FERPA should be directed to
the Registrar’s Office:

CU Anschutz Medical Campus
Campus Box A054
Phone: 303-724-8000
Fax: 303.724.8060
Email: Registrar@cuanschutz.edu

**Exceptions to Student Consent for Release of
Educational Records**

FERPA allows the institution the right to disclose student records or
identifiable information without the student’s consent under the following
circumstances:

- To authorized representatives for audit of Federal or State supported
  programs.
- To university employees who are in the process of carrying out their
  specifically assigned educational or administrative responsibilities
  acting in the student’s educational interest, including contractors,
  consultants, volunteers and other outside providers used by
  the University of Colorado Anschutz Medical Campus, including
  the University of Colorado Foundation and the National Student
  Clearinghouse.
- Veteran’s Administration official.
- Officials of other institutions in which a student seeks or intends to
  enroll, after transfer enrollment or admission, disability and other
  health records may be released in the event of an emergency in the
  need to protect the health and safety of a student or other persons
  under FERPA.
- Persons or organizations providing financial aid to students.
- Organizations conducting studies for, or on behalf of, educational
  agencies or institutions to develop, validate, and administer predictive
tests, to administer student aid programs or to improve instruction,
  provided that individual identity of students is not made.
- Accrediting organizations carrying out their accrediting functions.
- Parents of a student who has established that student’s status as a
  dependent according to Internal Revenue Code of 1954, Section 152;
in connection with a health and safety emergency in connection with § 99.36; or the student is under 21 and has violated a federal, state or local law or a policy of the university related to the use or possession of alcohol or a controlled substance.

- Persons in compliance with a judicial order or a lawfully issued subpoena, provided that the institution makes a reasonable attempt to notify the student in advance of compliance. NOTE: The institution is not required to notify the student if a federal grand jury subpoena, or any other subpoena issued for a law enforcement purpose, orders the institution not to disclose the existence or contents of the subpoena.
- Persons in an emergency, if the knowledge of information, in fact, is necessary to protect the health or safety of students or other persons.
- An alleged victim of any crime of violence of the results of any institutional disciplinary proceeding against the alleged perpetrator. The information may only be given in respect to the crime committed.
- Schools may disclose personally identifiable information from education records to an outside contractor without prior written student consent if the outside contractor is a “party acting for” the institution and is performing a service which the institution would otherwise have to perform for itself (as in the case of the National Student Loan Clearinghouse for loan verification).
- Representatives of the Department of Homeland Security or Immigration and Customs Enforcement, for purposes of the coordinated inter-agency partnership regulating the Student and Exchange Visitor Information System (SEVIS).
- FERPA has been amended to permit educational agencies and institutions to disclose personally identifiable information from the student’s records to the Attorney General of the United States or to his designee in response to an ex parte order in connection with the investigation or prosecution of terrorism crimes, under the US Patriot Act.
- Allows the return of an educational record, or information from an education record, to the party identified as the provider or creator of the record.
- Information regarding a registered sex offender’s enrollment or employment status, or any changes of such.
- If the school determines that there is an articulable and significant threat to the health and safety to a student or other individuals, it may disclose information from educational records to appropriate parties.

**Release of Disciplinary Information**
Provisions of the Family Educational Rights and Privacy Act of 1974, as amended by the Higher Education Amendments of 1998, govern access to a student’s disciplinary file. The student and/or those university officials who demonstrate a legitimate educational need for disciplinary information may have access to the student’s disciplinary file.

The Campus Security Act permits higher education institutions to disclose to alleged victims of any crime of violence (murder, robbery, aggravated assault, burglary, motor vehicle theft) the results of the conduct proceedings conducted by the institution against an alleged perpetrator with respect to such crime. The Campus Security Act also requires that both accused and the accuser be informed of campus conduct proceedings involving a sexual assault.

Additionally, the Higher Education Amendments of 1998 permit disclosure of the final results of disciplinary cases in which a student has been found responsible for a violation involving violence or for a sex offense.

**Concerns for Student Behavior, Health, and Safety**
Across campuses nationwide, there has been a great deal of discussion related to the privacy of student records in relation to tragedies on college campuses. Most CU Anschutz Campus faculty and staff are aware that FERPA protects student rights to view their educational record, access and amend records, and control what disclosures can be made from these educational records. However, many University employees do not realize that FERPA does allow them to disclose information about students who they perceive to be behaving out of character, perceive the student to have a disturbing change in their normal behavior, or generate concerns about the safety of the student or others. It is important for faculty and staff to understand that FERPA does not prohibit the disclosure of personal observations of students.

FERPA allows university staff and faculty the discretion to release this information under specified circumstances, and through proper channels, to appropriate personnel on campus.

**What are the “specified circumstances”?**
FERPA allows the disclosure of information from the educational record, without the written consent of the student, under the following: “Persons in an emergency, if the knowledge of information, in fact, is necessary to protect the health or safety of the student or other persons”. The Department of Education interprets FERPA to permit institutions to disclose information from education records to parents if a health or safety emergency involves their son or daughter. For clarification purposes, the Department of Education recently proposed to amend the language of a “strictly construed” interpretation, and replace it with language that states the institutions have far “greater flexibility and deference” to “bring appropriate resources to bear on a circumstance that threatens the health or safety of individuals”.

Some concerns have been expressed by faculty and staff on campus that they are reluctant to share any information with the appropriate personnel on campus if the student advised them, verbally or in writing, that they were seeing a mental health or other medical professional. Note that anything expressed verbally by a student is not part of the “educational record”, and can be shared. If the student has advised a staff or faculty member of this in writing, it can still be shared with someone with “an educational need to know” as described by FERPA regulations, which would include those listed as the “appropriate personnel on campus” below.

To summarize: FERPA does not prohibit disclosure of personal observations to appropriate campus personnel about students of concern. Observers of such behaviors do not have to determine if this is an emergency that will be considered a threat of health or safety. They can consult with other appropriate personnel on campus for additional perspective, suggestions, resources, referral or assistance.

**Who are the “appropriate personnel on campus”?**
There are a variety of offices and personnel on campus who can be of assistance when you are faced with a student of concern. Some of these resources are listed below:

- **Department Chair/Associate Dean/Director** – in many cases these individuals are excellent resources and can help you to support the student and/or find additional support and resources on campus.
- **Student and Resident Mental Health Services** – located in the Anschutz Health Sciences Building (1890 N. Revere Ct,
concern is warranted. Knowledgeable in human behavior, and can best determine if further parents or other relatives of students. These trained individuals are most behaviors of a student on campus. However, only those who are identified contacting others on the campus if there are concerns about the community to understand that FERPA does not prevent you from

In conclusion, it is important for all members of the CU Anschutz need to know”.

FERPA allows great discretion in informing the mental health professional providing key information which the professional would need to know. Some of these professionals may already have had contact with the individual and you may be

Finally, in an urgent situation, never hesitate to call University Police at 303.724.4444, or for emergency calls, 911.

For more information about CU student mental health resources, please visit one of the websites below.

CARE Team (https://www.cuanschutz.edu/student/support/care-team/)

CU Anschutz Student Outreach and Support Office (https://www.cuanschutz.edu/student/support/case-management/)

Student and Resident Mental Health (https://medschool.cuanschutz.edu/psychiatry/programs/student-resident-mental-health/)

Some faculty think they should not reveal the name of the student and keep the consultation anonymous. However, this is key information for the consulting party as that professional may already have some information about the student of concern that should be added into the information for the best way to proceed. Some of these professionals may already have had contact with the individual and you may be providing key information which the professional would need to know to be effective. Licensed mental health professionals have strict confidentiality laws to follow which restricts their ability to inform you. FERPA allows great discretion in informing the mental health professional of observed professional observations, as well as allows observers to share information about a student with a person who has an “educational need to know”.

In conclusion, it is important for all members of the CU Anschutz community to understand that FERPA does not prevent you from contacting others on the campus if you there are concerns about the behaviors of a student on campus. However, only those who are identified as the “appropriate personnel on campus” should be contacting the parents or other relatives of students. These trained individuals are most knowledgeable in human behavior, and can best determine if further concern is warranted.

Requests for Access to and Amendments of Education Records

Brief Description: Establishes procedures for making and responding to requests for access to and amendment of education records, consistent with the Family Educational Rights and Privacy Act of 1974 (FERPA).

Making and Responding to Requests for Access to Education Record

Access Request and Review Procedure

- A student should submit a request to review his or her education records in writing to the registrar, dean, chairperson of an academic department, or other official who maintains the records he or she wishes to inspect. The request should identify, to the extent possible, the specific records the student desires to review by type, topic, date or other criteria.

The university official who has custody of the records will assemble the requested records and review them to determine whether they are eligible for access.

- If an education record includes information about more than one student, the student may review only his or her own information in that record. In this situation, the record custodian must redact the record before allowing the student to review it.

- Any questions about whether a record is eligible for review or how to properly redact an education record should be addressed with the Office of the Registrar.

Before denying a student access to an education record, record custodians must consult with the Registrar, and should document in writing the reason for the denial.

The record custodian must respond to a request for access to education records within a reasonable period of time, but in no case more than forty-five (45) days after the request has been submitted to the appropriate custodian. If the records are not maintained by the record custodian to whom the request was submitted, the custodian should assist the student in identifying the custodian to whom the request should be addressed. For information about where certain student education records may be located, consult the Office of the Registrar:

CU Anschutz Medical Campus
Campus Box A054
Phone: 303-724-8000
Fax: 303.724.8060
Email: Registrar@cuanschutz.edu

- The record custodian will make arrangements for access and notify the student of the time and place where the records may be inspected.

- If not personally known to the record custodian, the record custodian must verify the student’s identity by inspection of photo identification or other appropriate documentation.

Making and Responding to Requests for Amendment of Education Records

Procedure for Amendment of Education Records

- If a student believes information contained in his or her record(s) is inaccurate, misleading or violates privacy rights, a student may ask the university to amend the record(s). If the problem stems from a clerical or other error in processing, the student should contact the record custodian and follow the established process to effect the necessary corrections. Similarly, a student should pursue
the grievance and/or appeal process if he or she has a concern about the appropriateness of a grade awarded or other academic determination. This procedure does not apply to students who desire to challenge a grade. Students who wish to challenge a grade should follow the academic grievance policy in their school or college. If the desired correction of processing errors is not accomplished through normal channels, or the requested amendment is not to correct processing errors or address substantive academic decisions, the student should follow the following procedure:

- The record custodian will review the amendment request and any related documentation submitted by the student. The record custodian may request additional information from the student if deemed necessary to make a determination.
- Within a reasonable time after receipt of the written request, the record custodian will decide whether to amend the record as requested.
- If the record custodian grants the student’s request, the custodian shall amend the education record and inform the student in writing of the action taken.
- If the record custodian denies the student’s request, the custodian shall inform the student in writing of the decision and of his or her right to a hearing on the matter. Additional information about the hearing procedures will be provided to the student when notified of the right to a hearing.

**Right to Hearing and Related Procedures**

- Within ninety (90) days of the date of the denial of his or her request by the record custodian, a student may request a hearing.
- The Registrar may serve as the hearing officer, or may appoint another individual to serve as hearing officer. The appointed hearing officer shall not have a direct interest in the outcome of the hearing. The hearing officer shall not review any matter regarding another individual to serve as hearing officer. The appointed hearing officer shall not have a direct interest in the outcome of the hearing.
- The hearing shall be conducted according to the following procedures:
  - The hearing officer shall give notice to all concerned parties of the date, place and time of a hearing reasonably in advance. The hearing should be scheduled within a reasonable period of time following receipt of the petition.
  - The hearing officer shall give the student an opportunity to present evidence relevant to the contested part of the education record. The student may have a representative present at the hearing, but that person cannot participate in the hearing.
  - The hearing officer may receive any evidence and testimony, orally or in writing, relevant to the student’s challenge to the record content. The hearing officer shall not be bound by the rules of evidence applicable in courts of law, but may permit the introduction and receipt of evidence he or she determines is relevant.
  - Within a reasonable period of time, the hearing officer shall issue a written decision based solely upon the evidence presented at the hearing. A copy of the decision, which must include a summary of the pertinent evidence, shall be provided to the student, to the record custodian, and to the Registrar. The decision of the hearing officer shall be the university’s final decision.
  - If the Registrar acting as hearing officer or an individual appointed by the Registrar to act as hearing officer determines that the information is inaccurate, misleading or otherwise in violation of the student’s privacy rights, the Registrar should require the record custodian to make necessary amendments. The record custodian shall inform the student in writing when the amendment has been made.
  - If the hearing officer determines that the information is not inaccurate, misleading or otherwise in violation of the student’s privacy rights, he or she shall inform the student in writing of the right to place a statement in the record commenting on the contested information in the record and/or stating why he or she disagrees with the decision.
  - The university must maintain the statement with the contested part of the record for as long as the record is maintained, and must disclose the statement whenever it discloses the portion of the record to which the statement relates.

**Contacts**

- Questions about this procedure should be directed to the Office of the Registrar:
  - CU Anschutz Medical Campus
  - Campus Box A054
  - Phone: 303-724-8000
  - Fax: 303.724.8060
  - Email: Registrar@cuanschutz.edu

**Parental Access to Children’s Education Records**

At the post secondary level, parents have no inherent rights to inspect a student’s education records. The right to inspect is limited solely to the student. Records may be released to the parents only under the following circumstances:

- Through the written consent of the student
- In compliance with a subpoena
- By submission of evidence that the parents declare the student as a dependent on their most recent Federal Income Tax form (IRS Code of 1954, Section 152).
- May disclose education records to a parent under the alcohol and controlled substance exception or in connection with a health and safety emergency under the circumstances set forth in § 99.36 (if the students is under 21 years of age).

**Posting of Grades by Faculty**

The public posting of grades either by the student’s name, institutional student identification number, or any portion of a social security number is a violation of FERPA, whether done via paper source or via electronic means (including the internet).

Instructors and others who post grades should use a system that ensures FERPA requirements are met. This can be done by using code words or randomly assigned numbers that only the instructor and individual students know.

**Students’ Rights after Ceasing Attendance or Graduation**

Students who have ceased attendance or have graduated from an institution of higher education have basically the same FERPA rights as students currently attending the University of Colorado Denver, including the right to:

- Inspect their education records
- Have a hearing to amend an education record,
References for Students by Faculty
FERPA’s prohibition on disclosure of personally identifiable information from an education record of a student applies to any kind of non-directory information (e.g., performance in class, grades, attitude, motivation, abilities, background) conveyed in writing, in person, or over the telephone to third-parties.

Although such information is usually conveyed by faculty members at the informal request of the student and is usually positive, the better practice would be to request a written consent form, meeting the FERPA requirements, before providing the information.

Written Consent
Students may release their academic records to their parents, a prospective employer, insurance companies, etc., by providing written consent. The notice of written consent must include the following information:

1. It must specify the records to be released (transcripts, etc.)
2. State the purpose of the disclosure
3. Identify the party or class of parties to whom disclosure may be made, and
4. Be signed and dated by the student

Disposal of Educational Records
Information about individuals should be retained according to state or University records retention schedule. Those responsible for academic information have an obligation to destroy information when conditions under which it was collected no longer prevail.

Any document containing personally identifiable information must be disposed of properly through some means of confidential disposal. If information is needed on confidential disposal, please contact the Office of the Registrar:

CU Anschutz Medical Campus
Campus Box A054
Phone: 303-724-8000
Fax: 303.724.8060
Email: Registrar@cuanschutz.edu

Honor Code
This campus-wide policy statement on student academic honor and conduct at the University of Colorado Denver | Anschutz Medical Campus was developed in consultation with faculty and student representatives from each health sciences school, and representatives of the campus-wide Faculty Council and Student Senate. It provides general policies for all students on campus, in accordance with the Regents’ resolution of March 17, 1988, while at the same time it directs the schools to develop specific procedures to implement the policy in accordance with their unique programs and student populations. While the process for resolving honor code violations may vary from school to school, the elements listed below will remain uniform. The health professions are based on a high degree of trust by the individuals they serve. Students entering the health professions have a particular obligation, therefore, to conduct themselves at all times in a manner that reflects honesty, integrity, and respect for others.

A. Academic Honor and Conduct Code:

Education at the University of Colorado Denver | Anschutz Medical Campus is conducted under the honor system. All students who have entered health professional programs should have developed the qualities of honesty and integrity, and each student should apply these principles to his or her academic and subsequent professional career. All students are also expected to have achieved a level of maturity which is reflected by appropriate conduct at all times.

Although it is not possible to list every situation that violates the University of Colorado Denver | Anschutz Medical Campus academic honor and conduct code, the following examples will provide a reference point.

- **Academic Honesty** - Students should adhere to the highest standards of academic honesty and integrity. Examples of behavior which violates these standards include: plagiarism (including improper use of web information), cheating illegitimate possession and/or use of examinations, and falsification of official records.
- **Professional Conduct** - As future health professionals, students should also adhere to the highest standards of professionalism. Examples of unprofessional conduct include: misrepresentation of effort, credentials or achievement in either the academic or clinical setting; any action which compromises the quality of patient care; violation of patient confidentiality; and other conduct unbefitting a health professional.
- **Alcohol and Drug Use** - Alcohol and/or drug abuse compromises the student’s ability to learn and to practice as a health provider and, thus, is considered unprofessional conduct. Students who have a problem with alcohol and/or drugs should seek assistance from services available on campus. The sale of drugs or the possession of non-prescribed narcotics or other controlled substances is against the law. In order to minimize the potential for alcohol abuse at campus functions, students must work with University and/or their program administration to ensure compliance with the policies and procedures regarding functions where alcohol may be served.
- **Respect for the Rights and Property of Others** - Students should conduct themselves in a manner which recognizes the rights and property of others. Examples of inappropriate behavior include theft, damage to University facilities, harassment or physical assault, and any conduct which threatens the health or safety of others.

The primary responsibility for reporting violations of the student honor and conduct code rests with the individual student who has violated them. However, fellow students and members of the faculty also share in this responsibility.
B. Relationship of Honor and Conduct Code to Local, State, and Federal Laws
The University adheres to all appropriate local, state, and federal laws, and cooperates with law officials in all matters. Any alleged violation of local, state, or federal laws will be referred to the appropriate law enforcement agency, and such laws have precedence over the provisions of this policy.

C. Honor and Conduct Committee
Each school will have a standing Student Honor and Conduct Committee and, as appropriate, individual programs may have standing committees. The composition of the committee will include faculty and student representatives, with the exact composition of the committee to be determined by the dean in consultation with the school’s faculty and student governance groups. The primary function of this committee will be to examine alleged violations of the honor and conduct code, and to make recommendations to the dean on these matters as appropriate.

D. Check individual school policies for school-specific procedures.
Student Conduct
"By enrolling as a student in the university, a person shall assume obligations of performance and behavior established by the university relevant to its lawful missions, processes, and functions. As members of the academic community, students have responsibility, equivalent to that of the faculty, for study, learning, academic integrity, and protecting the university as a forum for the free expression of ideas."
(Laws of the Regents 7B Standards of Conduct)

International Travel Policy for Students
This policy supports education and experiences abroad by balancing the value of participation in activities internationally with the potential risks to the welfare and safety of students. This policy establishes the minimum requirements to mitigate and manage risks associated with university-affiliated international travel by students.

"International" or "abroad" is defined to include U.S. territories as well as any country outside of the United States.

"Student" is defined as any participant in a university-related activity abroad who is not employed by the university as a trip leader. "Student" may include, but is not limited to, an enrolled student, member of a student organization, member of either campus Wellness Center, medical resident, alumnus, or program guest.

"University-related activity abroad" includes, but is not limited to, any activity supported by the university by use of university funds or financial aid; any activity related to academic credit, experiential learning, or service learning; or any activity receiving support from a university employee such as organization, coordination, or supervision of activities abroad.

Policy Statement
The university facilitates student international travel and education abroad to foster interpersonal, academic, and career development, as well as cross-cultural understanding while encouraging sound health, safety, and security measures that minimize risks to the traveler and institution.

Policy 1035: Oversight of University-related International Travel outlines the oversight responsibility of the Office of International Affairs (OIA) "for all international travel taken under the auspices of the University of Colorado Denver | Anschutz Medical Campus," and designates the Office of Global Education (OGE), a unit within the Office of International Affairs, "responsible for direct oversight of all university-related student international travel." Further, it charges the International Risk Management Committee (IRMC) to assist OIA with the execution of its international risk management responsibilities.

As such, the IRMC will assess the health and safety risk profile of a given destination through the utilization of third-party risk resources, government risk rating systems, and global education best practices. This procedure will identify those destinations that do not require travel appeals for student international travel, identify destinations requiring a travel appeal, and identify destinations designated as "do not travel" for student international travel. The Office of Global Education's website will provide details.

Therefore, all students, faculty, or staff involved with individual students or groups of students traveling internationally under the auspices of the university must register with the Office of Global Education. OGE will provide specific guidance, timelines, and processes. For international destinations or programs requiring travel appeals, the process of obtaining formal review and a decision by senior leadership on permissible travel during travel suspensions or too high risk destinations can take several months. Students, and faculty leading student international travel, will be advised by OGE to plan accordingly.

This policy applies to any student traveling internationally under the auspices of the university through the use of funds, group affiliation (e.g., through student organizations registered with and recognized by the Student Life & Campus Community office, community service or service learning groups, faculty-led travel or adventure travel), to fulfill academic requirements, or for other experiences. These experiences include but are not limited to, study, service learning, research, internship, clinical rotation, practicum, capstone project, other experiential learning, or sports.

All classes of students fall under this policy, including but not limited to, non-degree, undergraduate, graduate, doctoral, medical student, and medical resident. This policy does not apply to student international travel for solely personal purposes such as vacation or non-university work-related activity that has no affiliation with the university.

Travel Approvals
The university, in its sole discretion, may deny approval for student international travel due to risk or university policy. In addition, travelers may be required to submit an appeal to travel to locations or participate in programs that pose a specific health, safety, or security concern as indicated by authorities such as the contracted travel assistance provider, the U.S. Department of State (USDOS), the Centers for Disease Control and Prevention (CDC), World Health Organization (WHO), non-U.S. government authorities (e.g., Australian or Canadian authorities, or international travel assistance provider), and the University of Colorado Denver | Anschutz Medical Campus authorities.

Revocation, Suspension or Modification of Travel Approvals
When a significant health or safety concern arises (e.g., natural disaster, political disturbance, deteriorating security environment, disease outbreak, etc.), OIA and the IRMC will review student travel currently in progress and make recommendations to senior leadership who will determine if such activity may continue considering the circumstances.
The university, in its sole discretion, may withdraw approval for or insist on modifications of international travel at any time. The provost, or the provost's designee, has final decision-making authority on university-related international travel for students.

Additions or Modifications to Approved Trips or Programs

If an approved international travel experience modifies or adds a new activity or academic track that materially changes its risk profile, the applicant must provide an explanation for further review of how any perceived risks will be mitigated. The applicant should consult with the Office of Global Education to determine which parts of the application require additional review.

Program Cancellations

1. If the university cancels a program before departure or while the program is in progress for reasons beyond its control, including but not limited to, political unrest, danger to participants’ health or safety, natural disasters, or changes to the risk profile, participants may personally incur financial losses in the form of lost fees and tuition, or additional travel expenses in connection with program cancellation. Students may or may not receive academic credit if a program is canceled.

2. The University of Colorado Denver | Anschutz Medical Campus does not assume responsibility for financial risks associated with participation in a university-related activity abroad, including cancellation of a program. Students, staff, and faculty are encouraged to consider supplemental insurance options, such as trip insurance, to cover potential personal financial losses if programs or activities are canceled. Supplemental insurance is also helpful if a traveler needs to cancel participation in a program or return early due to unforeseen personal emergencies. Such insurance is not required by the university and must be purchased on an individual basis.

Unaffiliated Guests on Group Travel

The university does not support accompanying unaffiliated travelers on official university programs. The university does not permit unaffiliated travelers to accompany the group on any international programs or activities during the entire duration of the program or activity. “Unaffiliated travelers” refers to family members, friends, and other individuals not associated with the particular program. Exceptions may be requested through a prescribed appeal process with the IRMC.

Consequences of Violating Policy/Travel in Violation of this Policy

Individual students who have not obtained travel permission (or whose travel program administrators have not obtained travel permission for group travel) will be referred to the Office of Student Conduct and Community Standards and/or other appropriate offices for potential policy violations. Consequences may include, but not be limited to, conduct sanctions; not receiving institutional funds including financial aid, grant funding, or payment of expenses for related international travel activities; repayment of any spent funds; and/or assessment of a fee.

Employees who knowingly facilitate undisclosed or unapproved or non-reviewed university-sponsored student international travel may be subject to discipline under university policies and procedures.

Students and employees who choose to travel in knowing violation of this policy are acting outside the control and responsibility of the university.

Lactation Policy

The University of Colorado Denver | Anschutz Medical Campus (“university”) has adopted this policy for students and employees who wish to breastfeed and/or express breastmilk on the CU Denver campus or the CU Anschutz campus.

Policy Statement

1. Lactation on Campus for Students and Employees

   a. The university recognizes that reasonable and appropriate adjustments should be considered and offered for students or employees wishing to lactate in order to optimize performance in the classroom or workplace, as applicable. As a result, the university endeavors to provide time, space and reasonable adjustments to the university’s work or educational programs in order to support students and employees who choose to breastfeed and/or express breastmilk.

   b. The university also recognizes that some pregnancy-related conditions may be protected under the Americans with Disabilities Act and amendments (“ADA”), entitling students and employees to request reasonable accommodations.

   c. Students planning to breastfeed and/or express breastmilk should reach out to the Office of Equity to discuss reasonable break times or related requests for curricular adjustments.

   d. Employees planning to breastfeed and/or express breastmilk should reach out to their supervisors to discuss reasonable unpaid break time or the use of paid break time (e.g., lunch) for this purpose.

2. Lactation Breaks

   a. Pursuant to state law, the university is required to provide employees reasonable break time to express breastmilk for a child for up to 2 years after the child’s birth. The university will provide lactating employees the option of three, 20 minute breaks per workday or two, 30 minute breaks per workday, which includes paid meal breaks.

3. Designated Lactation Spaces

   a. The university currently offers lactation rooms throughout the CU Denver campus and the CU Anschutz campus to assist breastfeeding or lactating parents.

   b. These rooms provide a secure and sanitary area that may be used for breastfeeding or pumping breastmilk and are equipped with an electrical outlet, chair, table for breast pump, nearby access to clean running water, lock from inside and, if a room has a window that needs to be covered in order to address privacy concerns, a window covering will be provided. For large lactation spaces intended to be shared by multiple breastfeeding parents, privacy screens may be provided. In certain spaces designated as lactation lounges, the space is designed to support social interaction by multiple users. Thus, privacy screens are not utilized in such designated lactation lounges.

   c. Individuals expressing breastmilk are expected to make their own arrangements for refrigeration, which includes, but is not limited to, the option to utilize refrigerators otherwise designated for employee or student use, or to bring their own refrigeration device to store breastmilk. Should an employee or student wish to bring their own refrigeration device to campus, they must receive approval from their supervisor or space authority, as applicable. The ability to bring...
such a personal refrigeration device to campus is subject to the availability of adequate space and power. Even after such approval is obtained, the university assumes no responsibility for the device or its contents. The maximum size of a personal refrigeration device is no larger than a small (20 inch by 20 inch by 20 inch) dormitory type refrigerator. The university is not responsible for the integrity or security of breastmilk stored in any refrigerator on campus and does not guarantee the safety of any storage method used. Students or employees who desire to leave their personal refrigeration devices on campus on an ongoing basis, in the lactation rooms or otherwise, may do so, but at their own risk. Employees and students must provide their own containers for storage.

d. The university has posted the list and map of available lactation rooms on the CU Denver campus and the CU Anschutz campus online at: https://www.cu.edu/docs/cu-denveranschutz-campus-lactation-rooms and https://www1.ucdenver.edu/offices/equity/support-resources/pregnancy-lactation-2. The Office of Equity will annually review and update the list, as necessary.

e. Access to lactation spaces

When existing locations are not accessible from a breastfeeding student’s class/study area or employee’s work area, or the current demand for existing spaces makes as-needed pumping challenging, students may contact the Office of Equity to identify a new temporary space, as needed.

4. Whom to Contact

a. Employees or students with questions regarding the university’s lactation resources or concerns regarding discrimination based on pregnancy or parenting may contact the university’s Office of Equity.

b. If you are a student at CU Denver Campus and need to make an application for reasonable accommodations or need information regarding the ADA, contact the Office of Disability Resources and Services at (303) 315-3510 or disabilityresources@ucdenver.edu or by mail to CB 118 P.O. 173364 Denver, CO 80217-3364.

c. If you are a student at the CU Anschutz Medical Campus and need to make an application for reasonable accommodations or need information regarding the ADA, contact the Office of Disability Access and Inclusion at (303) 724-5640 or disabilityresources@cuanschutz.edu, or by mail at Building 500, Room Q20- EG 305 13001 E. 17th Place, A010 Aurora, CO 80045.

d. If you are an employee and need to make an application for reasonable accommodations or need information regarding the ADA, contact the ADA Coordinator at (303) 315-2700 or HR.ADACoordinator@ucdenver.edu or by mail to P.O. Box 173364, Campus Box A005/130, Denver, CO 80217-3364.

Definitions

1. The terms “breastfeeding person,” and “lactating person” are used interchangeably and intended to include any student or employee who expresses breastmilk for the nourishment of their child.

2. The term “employees” includes, but is not limited to, staff, faculty, post-doctoral fellows, contract workers, and residents.

3. The term “students” includes, but is not limited to, all students, including part-time, full-time, degree-seeking, non-degree seeking, undergraduate, or graduate student enrolled at CU Denver or CU Anschutz.

Medical Leave of Absence and Fit to Return

A student with a mental health and/or physical health condition may apply for a voluntary Medical Leave of Absence from the University of Colorado Anschutz Medical Campus. This policy describes the circumstances under which a student may request a Medical Leave of Absence and the procedures the student must follow.

Policy Statement

Students may seek a Medical Leave of Absence only for their own personal mental health and/or physical health circumstances. Students seeking a leave of absence for other reasons should contact their program director or the Office of the Registrar.

Students participating in an international education program may not seek a Medical Leave of Absence for the term in which the student is participating in the international education program.

The Medical Leave of Absence is not intended to shield a student from unsatisfactory progress or any other academic irregularity unrelated to a mental health and/or physical health condition that causes a degree of functional impairment that warrants a complete withdrawal from academic study for an academic term as provided in this policy.

Students who receive an approved Medical Leave of Absence are eligible for relief from their school or college’s time-to-degree requirements, but remain subject to the time-to-degree requirements for any applicable accrediting body.

If a student takes courses for credit at another institution while on a Medical Leave of Absence, the student must comply with the applicable policies for receiving transfer of credit toward a degree from their school or college.

A student who has already received a Medical Leave of Absence during enrollment in an educational program and who has a mental or physical health emergency during a subsequent term may submit a request for an additional Medical Leave of Absence.

The Assistant Vice Chancellor for Student Affairs or their designee, in consultation with the applicable dean at the school or college, and the Medical Director of Student Mental Health or their respective designees, has the discretion to determine whether to grant an additional Medical Leave of Absence.

If CU Anschutz approves a Medical Leave of Absence, the Office of Case Management will notify relevant offices/departments that the student is withdrawing for medical reasons.

A student cannot withdraw a request for a Medical Leave of Absence after CU Anschutz has approved the request.

If the student is unable, due to their mental health and/or physical health condition, to complete an application for a Medical Leave of Absence, at the discretion of the Assistant Vice Chancellor for Student Affairs or their designee, CU Anschutz may accept an email from the student as notice that another individual will complete the application on behalf of the student, provided that the student has executed a FERPA release, as needed, for such individual.
Medical Leave of Absence

1. The student may submit an electronic application to the Office of Case Management for a Medical Leave of Absence for mental health and/or physical health conditions that prevent the student from functioning successfully or safely as a member of the CU Anschutz community. Students should promptly seek care from their treating physician, licensed mental health provider, or other licensed healthcare provider and should request a Medical Leave of Absence as soon as possible.

In exceptional circumstances, students may submit an application for a Medical Leave of Absence after the last day of the term. If submitting an application after the last day of the term, students may be required to complete additional procedures and provide additional documentation at the request of the student’s progression body.

2. Along with the application, the student must submit adequate medical documentation from the student’s treating physician, licensed mental health provider, or other licensed healthcare provider specifying a mental health and/or physical health condition that causes a degree of functional impairment that warrants a complete withdrawal from all academic activities including, but not limited to, academic study and/or clinical rotations for an academic term. The student and the provider should have a shared understanding of the information being submitted to CU Anschutz on the student’s behalf. CU Anschutz will request documentation from the provider that must include the following:

- a. The treating physician, licensed mental health provider, or other licensed healthcare provider’s professional qualification and licensure
- b. Date the student first consulted the provider
- c. Number of visits with the provider
- d. Professional opinion regarding the approximate date on which the symptoms first began
- e. Diagnosis of the mental health and/or physical health condition or statement of symptoms and plan for diagnostic workup
- f. Impact of the condition on the student’s academic activities (including attending classes and completing coursework)
- g. Identification of the degree of functional impairment(s) that warrants withdrawal from all courses for the term
- h. Treatment recommendations and estimated length of treatment plan

3. Submission of an application for a Medical Leave of Absence does not guarantee that the requested Medical Leave of Absence will be approved.

Reentry from a Medical Leave of Absence

The student must complete the following steps for the reentry process:

1. Submit a Return from a Medical Leave of Absence application and an academic and transition success plan to the Office of Case Management.

2. Submit medical documentation from the student’s treating physician, licensed mental health provider, or other licensed healthcare provider. The student and the provider should have a shared understanding of the information being submitted to CU Anschutz on the student’s behalf. CU Anschutz will request documentation from the provider and must include the following:

- a. The treating physician, licensed mental health provider, or other licensed healthcare provider’s professional qualification and licensure
- b. Professional opinion regarding the student’s ability to successfully perform academically with a full-time and/or half-time course load at CU Anschutz with or without continued treatment
- c. A treatment summary with the following specificity:
  - Time span and type of treatment provided to the student during the student’s time away from CU Anschutz
  - Whether the treatment was concluded (with or without the healthcare provider’s approval) or is on-going
  - Specific intensive treatment, if any, while on the Medical Leave of Absence
  - Demonstrated understanding of the diagnoses and functional impairment that resulted in a Medical Leave of Absence, and clear evidence that the healthcare provider completing the medical documentation for reentry addressed these
  - Specific issues in the treatment of the student during the Medical Leave of Absence
  - If treatment is ongoing, recommended treatment plan during student’s return to full-time study
  - Any continuing care needs or concerns for the student
  - Any safety concerns for the student or for others in the CU Anschutz community

The submitted medical documentation will be reviewed by the Medical Director of Student Mental Health or other non-treating clinician. The non-treating clinician may indicate agreement or disagreement with the treating provider’s recommendation or request additional follow-up or documentation.

The Assistant Vice Chancellor for Student Affairs or their designee, in consultation with the applicable dean at the school or college, and the Medical Director of Student Mental Health or their designee, has the discretion to determine whether the student has submitted sufficient documentation to support the Return from a Medical Leave of Absence application and approve or deny reentry.

CU Anschutz may establish conditions for the student in the first term after reentry based on the information provided in connection with the Return from a Medical Leave of Absence application. If the student’s Return from a Medical Leave of Absence application is approved with conditions, the student must also submit updated medical documentation consistent with the conditions or as otherwise provided in the approval of the Return from a Medical Leave of Absence application.

The student must submit medical documentation and any other information required by the Return from a Medical Leave of Absence application with sufficient time to allow for processing and registration. The student must also comply with all other applicable procedures for returning to CU Anschutz.

If a student seeks to extend their Medical Leave of Absence beyond one year, the student should contact the staff in their specific School/College or Office of Case Management to discuss applicable procedures.

Students may appeal a decision denying a Medical Leave of Absence and/or Reentry to the Assistant Vice Chancellor for Student Affairs or their designee. An appeal will only be considered when the student submits a completed appeal form, available from the Office of Case
Management, to the Office of Case Management within five (5) business days of the date on the denial letter. The grounds for appeal are limited to the following:

- The existence of procedural errors so substantial that such errors greatly impacted the decision
- New medical documentation that was not reasonably available at the time of the initial decision.

Students who have concerns regarding a possible violation of CU Anschutz's anti-discrimination policies should contact the Office of Equity.

**Nondiscrimination Policy**

Unlawful discrimination and harassment have no place at the CU Denver Campus or CU Anschutz Medical Campus (“the university”) and offends the University’s core values, including a commitment to equal opportunity and inclusion. All University employees, faculty members, students and community members are expected to join with and uphold this commitment. Robust discussion and debate are fundamental to the life of the University. Consequently, this Policy shall be interpreted in a manner that is consistent with academic freedom as defined in Regent Law, Article 5 (https://www.cu.edu/regents/law/5/).

The university is committed to maintaining a positive learning, working, and living environment. As such, the university does not discriminate on the basis of race, color, national origin, pregnancy, sex, age, disability, creed, religion, sexual orientation, gender identity, gender expression, veteran status, political affiliation, political philosophy, or marital status in admission and access to, and treatment and employment in, its educational programs and activities. (Regent Law, Article 8 (https://www.cu.edu/regents/law/8/)).

**Prohibited Conduct**

The conduct listed below is prohibited, as are attempts to commit and aiding, abetting, or inciting others to commit them. Prohibited conduct also includes conduct engaged in by electronic means including, but not limited to, computers, any type of phone, or any other means of electronic communication.

**Discrimination**

occurs when an individual suffers an adverse consequence on the basis of a protected class. Examples include failure to be hired or promoted or denial of admission to an academic program based on protected class status.

**Harassment**

means verbal or physical conduct related to one's protected class that unreasonably interferes with an individual's work or academic performance or creates an intimidating or hostile work or educational environment.

**Hostile Environment**

Whether a hostile environment exists is determined from both a subjective and an objective perspective. The subjective perspective evaluates whether or not the reporting party experienced unwelcome conduct [based on a protected characteristic]. The objective perspective evaluates whether or not the unwelcome conduct was, from the perspective of a reasonable person in the alleged reporting party's position, sufficiently severe, persistent or pervasive that it unreasonably interferes with, limits or deprives an individual from participating in or benefiting from the University's education or employment programs and/or activities. Harassment becomes prohibited by this policy where enduring the offensive conduct becomes a condition of continued participation or receipt of benefits from the University’s education or employment programs and/or activities. Mere offensive conduct, such as petty slights and annoyances, such as stray negative comments in an otherwise neutral evaluation, “snubbing a colleague,” or negative comments that are justified by an individual's poor performance or history are not enough to create a Hostile Environment. Although repeated incidents increase the likelihood that harassment has created a hostile environment, a single or isolated incident of discrimination or harassment may be sufficient.

**Retaliation**

Retaliation. Means any adverse action threatened or taken against a person because an individual has filed, supported, or provided information in connection with a complaint of discrimination, including but not limited to direct and indirect intimidation, threats and harassment. An “adverse action” is any conduct or action that would dissuade a reasonable person from reporting an allegation of discrimination or participating in an investigation of discrimination.

**Protected Activity and Good Faith Reports**

Protected activity includes complaints involving violations of the Nondiscrimination Policy and the Sexual Misconduct Policy. It does not include complaints involving violations of other policies. Nor does it include complaints raising ethical, financial, or other concerns unrelated to discrimination. Protected activity does include requesting reasonable accommodation based on, for example, disability or religion.

Protected activity is covered under this policy even if the claims involved were ultimately found invalid so long as those claims were made in good faith.

It is a violation of this policy when a person knowingly or recklessly alleges a false complaint of protected class discrimination or harassment or provides false information during the course of an investigation, and violations may be subject to disciplinary action, up to and including, expulsion or termination of employment, as applicable. This provision does not apply to reports made or information provided in good faith, even if the facts alleged are not later substantiated.

**Reporting Obligations**

Any faculty or staff member who is considered a Responsible Employee, as defined herein, who witnesses or receives information regarding possible prohibited protected class discrimination or harassment is required to promptly report the information to the Office of Equity or their designee. Such information about the alleged conduct, where possible, should include:

- name of the alleged complainant(s);
- name of alleged respondent(s);
- name of any alleged witnesses; and
- any other relevant facts, including the date, time, and specific location of the alleged incident.

All other individuals who become aware of an incident of Prohibited Conduct are highly encouraged to report all known details about the Prohibited Conduct to the University Office of Equity by telephone, email, in person, or through the university’s online Incident Report Form.
The university may have an obligation to report to the police, keeping the name of the victim confidential, in circumstances where the incident includes an allegation that a crime has been committed.

**Procedures**

Reports or complaints made pursuant to this policy will be addressed promptly and as practicably as possible after the report is made in accordance with the university Office of Equity Resolution Procedures (https://www.ucdenver.edu/docs/librariesprovider102/default-document-library/oe_resolution_procedures_8-22-2023-hyperlinks-active.pdf).

**Definitions**

**Appointing Authority/Disciplinary Authority**

An appointing authority is the individual with the authority or delegated authority to make ultimate personnel decisions concerning a particular employee. A disciplinary authority is the individual who or office that has the authority or delegated authority to impose discipline upon a particular employee or student.

**Complainant and/or Respondent**

Within the context of this process and related procedures, the individual alleged to have been subjected to harassment or discrimination may be referred to as the “complainant or reporting party” and the person(s) against whom the complaint is filed is the “respondent” or “responding party.” For related complaint, grievance, or disciplinary processes, refer to Regent Policies under 5. Faculty, 5. G Faculty Senate Grievance Process and 5. E Faculty Dismissal for Cause Process (for faculty), State Personnel Board Rules (for classified employees), and campus student disciplinary policies and procedures (for students).

**Equity, Office of**

The university Office of Equity investigates allegations of discrimination, harassment and sexual misconduct and related retaliation based upon an individual’s Protected Class status. This Office has the authority to impose discipline in conjunction with the appointing authority/disciplinary authority.

**Protected Characteristics/Class**

Are those personal traits, characteristics and/or beliefs that are defined by applicable law as protected from discrimination and/or harassment. They include race, creed, color, sex, gender identity or expression, age, national origin, ancestry, religion, physical or mental disability, veteran status, marital or domestic partnership status, affectional or sexual orientation and/or other characteristics protected by applicable law. For further information on the definitions of protected classes, link to the U.S. Equal Employment Opportunity Commission at https://www.eeoc.gov/discrimination-type (https://www.eeoc.gov/discrimination-type/).

**Responsible Employee**

Means any employee who has the authority to hire, promote, discipline, evaluate, grade, formally advise or direct faculty, staff or students and/or has the authority to redress sexual misconduct. This definition does not include any medical, mental health, counseling, or other office personnel, in addition to any other offices covered by a statutory privilege or designated in campus procedures as not subject to mandatory reporting to the university.

**University Property**

University property is defined as land, buildings, and facilities in possession or owned, used, or controlled by the university or funded by university budgets.

The University of Colorado Denver | Anschutz Medical Campus policy and procedures for investigating complaints of discrimination may be found online via the Office of Equity website (https://www.ucdenver.edu/offices/equity/university-policies-procedures/#ac-nondiscrimination-policy-0), or by reviewing the policy and procedural document here (https://www.ucdenver.edu/docs/librariesprovider102/default-document-library/2022-02-28_3054-nondiscrimination-policy-(2).pdf?sfvrsn=9a3cb2ba_2). Please contact the Office of Equity if you wish to report a violation of Article 8 or need additional information. A statement of Article 8 may be found online at https://www.cu.edu/regents/law/8 (https://www.cu.edu/regents/law/8/).

The Office of Equity

**Freedom of Expression and Inquiry**

Academic freedom and diverse viewpoints are highly valued at the University of Colorado Anschutz Medical Campus. For students, academic freedom pertains to their course discussion, course assignments, and scholarly work. All members of the University community have the right to free expression as stated in Article 1 (https://www.cu.edu/regents/law/1/).E of Regent Law and further elaborated in Regent Policy 1 (https://www.cu.edu/regents/policy/1/).D; however this right is distinct from academic freedom.

While faculty have the right to establish classroom procedures to ensure orderly discussion and progress towards the goals of a class, students have the freedom to raise questions and express reasoned opinions on the matters being discussed. Students also have the ability to discuss matters related to their courses with faculty during office hours and take reasoned exception to the views or methods offered in any course of study. Students should be evaluated solely on academic performance, which shall be assessed according to the published requirements established by the instructor or academic unit. Academic freedom does not give either faculty or students the right to disregard the standards of conduct outlines in Regent Laws Article 7 (https://www.cu.edu/regents/law/7/).

If students believe their academic freedom rights have been violated, the campus will investigate complaints and remediate confirmed violations. Also see Laws of the Regents Article 5 (https://www.cu.edu/regents/law/5/), Part B.

**Sexual Misconduct, Intimate Partner Violence, & Stalking Procedures (in accordance with Title IX)**

The Sexual Misconduct, Intimate Partner Violence, and Stalking (Sexual Misconduct Policy) is designed to ensure equal access to the academic and professional experiences at the University of Colorado. This policy defines prohibited conduct and reporting obligations, as well as campus support services for involved parties.

It is critical to this commitment that anyone who may have been the target of or has experienced sexual misconduct feel free to report their concerns without fear of retaliation.
To foster a climate that encourages prevention and reporting of sexual misconduct, the university will engage in prevention efforts, educate the community, respond to all reports promptly, provide supportive measures whenever necessary to maintain the safety of the university environment, and recognize the inherent dignity of all individuals involved. The university shall provide fair and equitable processes to investigate and address complaints of sexual misconduct that provide fundamental due process.

Anyone who encounters an issue or seeks guidance related to this policy should consult with the Office of Equity. University employees who are mandatory reporters (responsible employees) must promptly report sexual misconduct as further outlined in the policy.

**What is Sexual Misconduct?**

Sexual misconduct is unwelcome behavior of a sexual nature or abuse in a sexual or dating relationship. It may include forms of sex discrimination. The university prohibits sex-based discrimination and harassment, including discrimination based on sex as defined by Title IX, discrimination based on sex that falls outside of Title IX, and other forms of sexual misconduct as defined by the Sexual Misconduct Policy. Any person who has experienced other forms of protected characteristic discrimination and harassment that does not constitute sexual misconduct should also report it to the campus Office of Equity. The university is committed to providing an environment where all individuals can study and work free from sex discrimination.

Sexual misconduct can occur in any of the following situations:

- Between individuals of the same or different genders;
- Between students, faculty, staff, and/or administrators;
- On and off campus, including, but not limited to the classroom, workplace, field work, internship sites, study abroad, professional conferences, or within any university educational program or activity; and/or
- Through social media, including, but not limited to X, Facebook, Instagram, Snapchat, Tumblr, and dating websites.

Sexual misconduct includes the following:

- Sexual Assault
- Dating Violence
- Domestic Violence
- Sexual Exploitation
- Stalking
- Sexual Harassment

For a link to the full policy on Sexual Misconduct, Intimate Partner Violence, and Stalking, please visit the Office of Equity’s website (https://www.ucdenver.edu/offices/equity/university-policies-procedures/#ac-sexual-misconduct-intimate-partner-violence-and-stalking-policy-1), or contact their office via the contact information below.

**Smoke-Free and Tobacco-Free Environment**

In accordance with our mission, which commits in part to improving the health and well-being of Colorado and the world, the University of Colorado Denver and University of Colorado Anschutz Medical Campus will ensure a smoke-free and tobacco-free environment to protect the health of its faculty, staff, students, and visitors at CU Anschutz and CU Denver.

**Purpose**

In order to promote health and wellness within the University community, it is the policy of CU Denver | CU Anschutz (“the university”) that smoking or tobacco use of any kind is prohibited on any property or in any facilities at CU Anschutz and in any owned, leased, or occupied buildings on CU Denver. This policy is consistent with policies already in place for neighboring affiliates at both campuses, including University of Colorado Hospital, Children’s Hospital Colorado and the Auraria Higher Education Center.

All persons on CU Anschutz are prohibited from smoking products including, but not limited to, cigars, cigarettes, pipes, or any device (e.g. e-cigarettes) or material which is lighted or inhaled. Smokeless tobacco products such as chewing tobacco or snuff are also prohibited. Smoking for the purpose of this policy shall include the use of e-cigarettes, electronic vaping devices, personal vaporizers, electronic nicotine delivery systems or such devices which vaporize substances to simulate smoking.

All persons on CU Denver are prohibited from smoking products including, but not limited to, cigars, cigarettes, pipes or any device (e.g. e-cigarettes) or material which is lighted or inhaled in any and all buildings owned, leased, or occupied by CU Denver, or within twenty-five (25) feet of any entrance, passageway, operable window, or ventilation system of any CU Denver owned, leased, or occupied building. Smokeless tobacco products such as chewing tobacco or snuff are also prohibited. Smoking for the purpose of this policy shall include the use of e-cigarettes, electronic vaping devices, personal vaporizers, electronic nicotine delivery systems or such devices which vaporize substances to simulate smoking.

**Implementation**

This policy will be distributed to the university community, made available on its website, presented during new student, faculty, and staff orientation programs, and promoted using signage on the campus.

Individuals observed smoking or using tobacco products on CU Anschutz will be informed of the policy and asked to stop. Any individual observed smoking inside or within twenty-five (25) feet of any CU Denver owned, leased, or occupied building will be informed of the policy and asked to stop. Continued violation of the policy may result in disciplinary action, according to processes specific to faculty, staff, and students.

For information or assistance with smoking cessation resources or implementation of this policy, please call Human Resources at 303-315-2717.

**Student Immunization Requirements and Compliance**

This policy addresses immunization requirements for current and newly enrolled students at the University of Colorado Denver | Anschutz Medical
Campus. The State of Colorado has established basic immunization requirements for students at institutions of higher education.

The Joint Commission (TJC), using standards established by the Centers for Disease Control (CDC), additionally mandates that all students in health-care professions whose training includes clinical settings and patient contact must present evidence of immunization for or immunity to an expanded list of communicable diseases. This policy describes the process for ensuring and certifying compliance with basic and expanded immunization requirements at the CU Denver and CU Anschutz campuses.

Policy Statements
1. All continuing and newly enrolled CU Denver students (except those in Extended Studies) must comply with the basic immunization requirements as described in this policy. (See #4 for exceptions for online students.)
2. Students enrolled in clinically based programs at CU Anschutz (listed in "Expanded Immunization" section below in #5) must comply with the expanded immunization certification requirements established by TJC and CDC.
3. Students who do not comply with the immunization requirements described in this policy may not be allowed to enroll in succeeding terms and/or be assigned to clinical sites until the requirements are met.
4. Students enrolled exclusively in online courses or programs must meet the immunization requirement or (at their discretion) sign the exemption clause at the bottom of the Certificate of Immunization form. (See provision below regarding quarantines and forfeiture of tuition and fees if classes are being attended on campus.)
5. Students required to meet the basic and expanded immunization requirements may be assessed a fee for immunization management services.
6. Student immunization records are protected information under the Family Educational Rights and Privacy Act (FERPA). Health information contained in some immunization records also may be protected information under the Health Insurance and Portability and Accountability Act (HIPAA). These records must, therefore, be stored and maintained in a secure manner.

Basic Immunization Requirements for Enrolled Students at CU Denver and Non-Clinical Graduate Students at CU Anschutz
1. All regular enrolled students at CU Denver are required to provide the following documentation by the posted due dates (e.g., November 1 if matriculating in summer or fall terms and March 1 if matriculating in spring term). All regular newly enrolled CU Denver students must comply with these basic immunization requirements.
   a. Signed Meningococcal Disease Information Form
   b. Signed Tuberculosis Screening (Risk Assessment) Form and any additional tests and x-rays required by the health professional who reviews the Tuberculosis Screening form
   c. Proof of Immunization
   d. Immunization Form
2. Other degree, non-degree, and certificate students in non-clinical programs at the Anschutz campus may be required to meet the expanded immunization/immunity policy of their program administrators to fulfill student, programmatic, and community health care needs.
3. Students born after January 1, 1957 must provide documented proof that they have received two rubella (measles), two rubella (German measles), and two mumps vaccinations OR two combination MMR vaccinations (measles, mumps, and rubella).
4. Students born before January 1, 1957 must provide documented proof that they have received one rubella (measles), one rubella (German measles), and one mumps vaccination OR one combination MMR vaccination (measles, mumps, and rubella).
5. Options for submitting the required proof of immunization or immunity may include: Certificate of Immunization signed by a physician, nurse, or school authority. Copy of medical records from a physician that outlines a student's immunization history. Proof of personal history of measles, mumps, and rubella verified through blood titer tests. Official International "Yellow" Certificate of Immunization.
6. Hepatitis B and meningitis vaccines are strongly recommended but not required for CU Denver | CU Anschutz students subject to the basic requirements. In the future these or other forms of vaccination may be required along with MMR immunization and TB screening.
7. Self-identified medical, religious, and personal exemptions to the requirements are allowed by law. Students who submit exemptions on the Certificate of Immunization form are subject to the prevailing state regulations governing quarantines in case of outbreaks and university policies related to forfeiture of tuition and fees.
8. The management of immunization/immunity requirements and compliance will be carried out by campus-based immunization services or outside contracted agencies (e.g., Health Center at Auraria) in a manner best suited to campus needs and resources.
9. CU Anschutz students enrolled in non-clinical master's and doctoral Graduate School degree programs are also required to meet the “basic” immunization requirements described above, with the exception of the Meningococcal Disease Information Form, which is recommended but not required.

Expanded Immunization Requirements for Graduate and Health Professions Students Enrolled in Clinically Based Programs at CU Anschutz
1. All students entering clinically-based health care training programs at CU Anschutz have been and will continue to be required to submit documented proof of TB testing and immunization for or immunity to an expanded list of infectious diseases prior to matriculation and the start of their first term. (NOTE: The TB Screening / Risk Assessment Form is not required in addition to the required testing.)
2. The diseases for which immunization or immunity must be documented are described in guidelines issued and periodically revised by the CDC and mandated prior to patient contact by TJC. Diseases covered have included measles, mumps, and rubella (MMR), chicken pox (varicella), polio, hepatitis B, and diphtheria, tetanus, and pertussis (DTaP or Tdap) and may include emergent ones in the future. Annual tuberculin skin testing also is mandatory for all continuing students enrolled in clinical programs and who have not previously tested positive.
3. Influenza vaccines are strongly recommended annually for all those involved in clinical health care training and delivery. Individual
programs may, at their option, require annual influenza vaccinations for their students. The Meningococcal Disease Information Form is recommended but not required.

4. Options for submitting the required proof of immunization or immunity may include those listed above, but specific requirements may vary by program.

5. Clinically-based health care professions programs administered at CU Anschutz include: Medicine; Pharmacy (traditional and non-traditional); Dental Medicine (including the international and certificate programs); Nursing; Physical Therapy, Child Health Associate-Physician Assistant; Genetic Counseling (Graduate School), and any other clinically-based programs or courses involving patient contact (e.g., certain practicum courses in Colorado School of Public Health programs).

6. CU Anschutz school and college programs are responsible for: Updating the Immunization Certification Form when new CDC guidelines are issued; Informing new students of the immunization requirements and distributing the certification form (hard copy or electronic format) in admissions materials; Setting deadlines for submitting the completed forms—typically prior to matriculation but no later than the end of the student’s first semester; Reviewing the submitted immunization forms and following up with non-compliant students; Monitoring annual TB testing if required of continuing students.

7. The management of immunization/immunity requirements and compliance at CU Anschutz will be carried out by individual program staff or a centralized immunization services office or outside contracted reviewer(s) in a manner best suited to program guidelines and campus and program resources.

8. Students who do not meet posted deadlines for submitting certification forms and completing any other requirements (e.g., annual TB testing) in a timely fashion will not be allowed to register in their first and/or subsequent term and/or be assigned to clinical settings and responsibilities until the required information has been submitted. A penalty fee may be assessed for processing health holds.

9. Each school or college program with students assigned to clinical settings will determine and monitor if and when new or continuing students need other medical tests, procedures, or equipment to meet compliance requirements related to their training (e.g., annual TB tests, CPR, TB mask fit, etc.). Unless otherwise arranged, students are responsible for obtaining and paying for those medical services not covered by their insurance plans.

10. Clinical training program students in all years of their studies are responsible for complying with immunization regulations and supplying (if requested) to affiliated health care facilities any records of their physical examinations, immunization status, and other medical tests and other forms of required documentation (related to, for instance OSHA, HIPAA, and TJC requirements).

Current federal regulations require that institutions of higher education disclose such information and make it readily available to current and prospective students. The Higher Education Opportunity Act of 2008 requires institutions to provide a list of the information to which students are entitled with instructions on who to contact to obtain more information.
