This course gives executives the tools required to leverage digital media to best-identify, reach, persuade, and satisfy customers in an increasingly digital world. By the end of this course, you will be able to confidently establish a digital marketing strategy, and track its effectiveness against key performance indicators. The course will cover the what, why, and how of major current tactics (including online listening, website analytics, search engine optimization, online advertising, social media, and email) using applied methods. Restriction: Restricted to students in the Executive MBA Program. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to students in the Executive MBA Program.

XBUS 6800 - Executive MBA Sustainable Value Creation (3 Credits)
The goal for this course is to understand the purpose of the for-profit firm. In particular, we will explore how the firm creates value, broadly defined, by investigating the concept of strategic corporate social responsibility (strategic CSR). Strategic CSR draws on what we know about economic exchange and human psychology to explain how markets work (or don’t) and how value is added (or subtracted) across the firm’s stakeholders. Understanding these effects allows managers to build a sustainable competitive advantage for the firm, which places strategic CSR at the center of business success in the twenty-first century. Restriction: Restricted to students in the Executive MBA Program. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to students in the Executive MBA Program.

Restriction: Restricted to students in the Executive MBA Program. Max hours: 3 Credits.
Grading Basis: Letter Grade
Restriction: Restricted to students in the Executive MBA Program.

XBUS 6850 - Business Analytics (1.5 Credits)
Business Analytics. To compete in the global economy, businesses are collecting huge volumes of data about their customers, operations, and performance. But harnessing this data to deliver a competitive advantage is challenging without understanding how to use the data and what strategic opportunities are presented by the explosion in data. This course will explore practical strategies for implementing data-focused initiatives that create and capture more value. We will discuss what a business needs to build an internal analytics team and the decision-making processes that create competitive advantage. Max hours: 1.5 Credits.
Grading Basis: Letter Grade

XBUS 6890 - Mergers and Acquisitions and Corporate Development (1.5 Credits)
In this course, we will focus on some of the key aspects of M&A deal-making and implementation, and we will adopt an integrative approach that emphasizes strategic management issues in corporate development. Through a combination of case studies and readings covering concepts and frameworks, course participants will be exposed to a range of M&A issues that can be grouped into four main pillars: M&A within Corporate Strategy, Advisory Inputs, Corporate Development Tools, Deal Implementation. Max hours: 1.5 Credits.
Grading Basis: Letter Grade
