

# FOUNDATIONS OF SUSTAINABILITY BUSINESS CERTIFICATE

---

## Introduction

This certificate introduces the foundational knowledge and concepts for success in any sustainable business career. You'll be able to compare and contrast competing conceptualizations of sustainable business models, redesign supply chains and products for waste reduction and circularity, set and achieve net-zero carbon targets, apply and report using various sustainability disclosure standards, manage and lead innovative sustainability initiatives and projects, and be aware of various impact investment strategies. Offered online only. Course topics include:

- Key concepts and issues in sustainable business
- Sustainable supply chains and circularity
- Sustainability accounting, finance, and impact investing
- Corporate decarbonization strategies and carbon accounting
- Managing and leading sustainability initiatives

## Certificate Requirements

1. Students must pass required courses with a grade of C or higher to earn this certificate
