

# RISK MANAGEMENT AND RESILIENCE CERTIFICATE

---

## Introduction

Courses in this certificate introduce students to the concepts of risks, hazards, exposure, and resilience. Students will learn how to successfully manage and lead a company through periods of volatility, complexity, uncertainty, and ambiguity typical of many sustainability and environmental challenges. Offered online, with some face-to-face options. A sample of course topics include:

- Strategic risk management
- Leading organizational change
- Practical enterprise risk management
- Global risk management
- Global enterprise sustainability and resilience
- Disaster/Climate change planning

## Certificate Requirements

1. Students must pass required courses with a grade of C or higher to earn this certificate
