

PSYCHOLOGY, CLINICAL HEALTH PSYCHOLOGY, PHD

Graduate School Policies and Procedures (<http://catalog.ucdenver.edu/cu-denver/graduate/graduate-school-policies-procedures/>) apply to this program.

For more information about the Psychology department, please click here. (<http://catalog.ucdenver.edu/cu-denver/graduate/schools-colleges-departments/college-liberal-arts-sciences/psychology/>)

Objectives of the Program

Clinical health psychology focuses on the interaction between psychological, physiological, and environmental factors as they influence health and well-being. This emphasis includes focus on:

1. the development of effective disease prevention behavioral interventions for individuals and populations at high risk for medical problems; and
2. the development of strategies to help individuals who are already ill to manage their disease and to increase their ability to collaborate with medical professionals and improve their coping skills.

A clinical health psychologist combines expertise in research on health psychology with training in clinical psychology. Students in this program are trained to work within the community to use clinical psychological skills and techniques to diagnose and treat mental health conditions, promote health and prevent illness, apply behavioral interventions in the treatment of illness, and improve the health care system. In addition to course work, students acquire expertise in research by completing both a master's thesis and doctoral dissertation. They demonstrate competence in clinical assessment and intervention through several applied practicum experiences, successful passage of the Comprehensive Clinical Competency Examination and successfully completing a pre-doctoral psychology internship. Students can complete the program in five years and have up to eight years to complete the program according to Graduate School Policies and Procedures.

Financial Information

The University of Colorado Denver administers various forms of financial aid for graduate students: fellowships, scholarships and a number of awards from outside agencies. See the Office of Financial Aid for further information. Additionally, the psychology department offers teaching assistantships each year in such courses as introductory psychology, statistics, research methods and human development. Although we do not guarantee TA positions, we have been able to offer positions to our interested students.

Contingent upon the availability of grant money, faculty may also offer part-time research assistantships to qualified students. The typical RA position involves data collection and analysis, library research, etc. Some computer and statistical skills are usually required. RA positions are less available than TA positions, and they may arise on very short notice.

In-state tuition waivers and additional stipend monies may be available for doctoral students. We do guarantee to pay a full stipend, usually in the form of an assistantship, plus tuition for the first year. We will make every effort to do so for four years.

Note: Neither teaching nor research assistantships confer in-state tuition status.

Program Requirements

1. Students must complete a minimum of 97 PSYC credit hours.
2. Students must complete all credits at the graduate 6000-level and above.
3. Students must earn a minimum grade of B (3.0) in all courses taken at CU Denver and must achieve a minimum cumulative GPA of 3.0. All graded attempts in required and elective courses are calculated in the minor GPA. Students cannot complete program requirements as pass/fail.
4. Students must complete all credit hours with CU Denver faculty.

Program Restrictions, Allowances and Recommendations

1. Courses are 3 units unless otherwise noted. 96 units are taken: 57 coursework, 26 clinical practicum, 4 thesis, 6 dissertation and 3 internship (1 unit in each of the 3 semesters of internship year).
2. Some courses are offered in alternating years or every other year so when they are taken depends on if a student entered the program in an even or odd numbered year.
3. Two electives are taken; the program offers Group Interventions in Health Psychology, Cardiovascular Health and Psychopharmacology. Outside elective(s) can be taken with the approval of the Program Director.
4. The program can be completed in 5 years but 6 years is the mean, median and mode for completion of programs of this sort. The Graduate School allows up to 8 years to complete the program, according to Graduate School Policies and Procedures (<http://catalog.ucdenver.edu/cu-denver/graduate/graduate-school-policies-procedures/>).
5. Students must successfully complete their doctoral dissertation proposal prior to applying for their internship in the 5th year and are strongly encouraged to defend their dissertation prior to beginning their internship.

Course Work

Required Courses

Code	Title	Hours
<i>Take all of the following</i>		54
PSYC 7144	Advanced Cognition and Emotion	3
PSYC 7205	Advanced Developmental Psychology	3
PSYC 7220	Advanced Biological Bases of Behavior	3
PSYC 7262	Health Psychology I	3
PSYC 7350	Psychotherapy I	3
PSYC 7360	Psychotherapy II	3
PSYC 7410	Assessment I: Personality	3
PSYC 7420	Assessment I: Intellectual and Cognitive Assessment	3
PSYC 7485	Diversity in Clinical Psychology	3
PSYC 7500	Advanced Psychopathology	3
PSYC 7700	Clinical Research Methods	3
PSYC 7710	Multivariate Statistics	3
PSYC 7713	Advanced Statistics	3

PSYC 7730	Ethics and Professional Issues in Psychology	3
PSYC 8100	Clinical Behavioral Medicine	3
PSYC 8200	Teaching Skills Workshop	3
PSYC 8262	Health Psychology II	3
PSYC 8550	Advanced Social Psychology	3

Electives

Code	Title	Hours
<i>Take six credits of the following</i>		6
PSYC 7400	Child Assessment	3
PSYC 7490	Topics in Health Psychology Summer Lecture Series	1-3
PSYC 7511	Historical and Philosophical Foundations of Psychology	3
PSYC 7520	Experimental Psychopathology	3
PSYC 7830	Clinical Interviewing	1-3
PSYC 8501	Primary Care Psychology	3
PSYC 8502	Cardiovascular Health Psychology	3
PSYC 8503	Group Interventions in Health Psychology	3
PSYC 8504	Advanced Psychopharmacology	3

Master's Thesis

The program has a provision for achieving a master's degree *en route* to obtaining the PhD. In addition to taking PSYC 8200 Teaching Skills Workshop, a master's degree is required for students to independently teach a course. During their time in the program, students' funding will likely require them to independently teach a course. Students must complete a master's thesis, an empirical research project that makes a significant contribution to the field. Although the thesis must address the student's own original question, the use of archival data and pilot studies is encouraged for this project.

Code	Title	Hours
<i>Take the following</i>		4
PSYC 6950	Master's Thesis	4

Clinical Practica

A minimum of 500 face-to-face intervention and assessment hours and 1200 total practicum hours [face-to-face intervention and assessment hours, plus supervision, plus support hours as defined by the Association of Psychology Postdoctoral and Internship Centers (APPIC)] are expected in preparation for application to pre-doctoral internships. Approximately 50% of required practica are typically conducted in medical settings. Sites for practica training, include the department's own Psychology Clinic and external facilities such as outpatient diabetes clinics, cancer clinics, OB/GYN, HIV/AIDS, end-stage renal disease, pain, and cardiovascular clinics, and in-patient psychiatric facilities. Students are able to select practica based on their personal and professional interests. All field placements are approved in advance by the Coordinator of Clinical Training.

Code	Title	Hours
<i>Take the following</i>		26
PSYC 7910	Clinical Practicum	14
PSYC 7911	Clinical Practicum II	6
PSYC 8910	Advanced Clinical Practicum	6

- Students should enroll in 1 credit hour during year one (spring and summer semesters only), 1 credit hour during year two (fall, spring, and summer semesters), and 3 credit hours during year three (fall, spring, and summer semesters). A total of 14 credit hours of PSYC 7910 Clinical Practicum are required.
- Students should enroll in 2 credit hours during year two (fall, spring, and summer semesters). A total of 6 credit hours of PSYC 7911 Clinical Practicum II are required.
- Students should enroll in 3 credit hours during year four (fall and spring semesters only). A total of 6 credit hours of PSYC 8910 Advanced Clinical Practicum are required.

Demonstration of Clinical Competency

During the first semester of their third year in the program students must demonstrate their clinical competency by completing the Comprehensive Clinical Competency Examination (CCCE). The CCCE is designed to facilitate student demonstration of clinical competence at the developmental level of readiness for application to clinical internship. This evaluation is designed to assess the developmentally appropriate broad and general clinical competencies in clinical psychology, and does not necessarily evaluate clinical health psychology competencies *per se*. The CCCE comprises three sequential components conducted in phases:

- Applied clinical diagnosis and assessment planning for a standardized patient.
- Case conceptualization and treatment planning for a standardized patient.
- Intervention therapy session with a standardized patient and oral defense with a faculty committee.

Dissertation

Students must complete a dissertation that involves original empirical work and is distinct from other research projects and publications. The dissertation proposal must be completed and defended prior to making application for the pre-doctoral internship. Students must have a dissertation committee composed of four members of the graduate faculty. When the dissertation is completed to the satisfaction of the primary advisor, the student must orally defend the dissertation to the committee.

Code	Title	Hours
<i>Take the following</i>		6
PSYC 8990	Doctoral Dissertation	6

Internship

Students must complete a 12-month, full-time pre-doctoral APA-accredited clinical internship. This internship is required of all clinical psychologists and is the capstone of clinical training in the doctoral program.

Code	Title	Hours
<i>Take the following</i>		3
1 unit in each of the 3 semesters of internship year.		
PSYC 8938	Pre-Doctoral Internship	1-3
