MATHEMATICS EDUCATION, MSEd

Introduction
The MSEd in mathematics education integrates educators' learning of mathematical content, pedagogy, and research. This approach fosters educators' ability to teach effectively at the K-12 level. The program arises from collaboration between the School of Education and Human Development (SEHD) and the Department of Mathematical and Statistical Sciences in the College of Liberal Arts and Sciences (CLAS). It interweaves both mathematical and educational understandings that lead to a truly interdisciplinary program, including a possibility to conduct one's own research project.

Program Requirements
The MSEd core courses provide a sound basis in mathematics education, including learning theories and progressions, teaching approaches, and deep appreciation for diversity and philosophical foundations.

Mathematics Core
Required Mathematics Core
Select three courses in consultation with faculty advisor

Optional Course Work
Select one of the following:

Thesis Option (if chosen)
SCED 5950 Master’s Thesis

Non-Thesis Option: Elective Courses
Select two courses relevant to the grade level with which the teacher works in consultation with a faculty advisor.

Total Hours 30

1 Students may select 5000-level MATH, MCKE, MTED, or RSEM courses relevant to the grade-level with which the teacher works with approval from faculty advisor. (Note: Several mathematical content courses are taught by the mathematics education faculty.)

Active Status
Students must complete their programs within seven years, maintaining a GPA of 3.0. Students typically take four courses each calendar year. Failure to enroll over three contiguous semesters will result in a requirement to submit readmission materials.

Program Requirements and Courses
To complete the MSEd program and earn a master's degree, students must complete the appropriate course work as outlined above. All courses require a grade of B- or better and a 3.0 minimum GPA is required for graduation.

Planning
Students take 1-2 courses per semester. Core courses are offered one per semester on a rotating basis.
