EMERGENCY MANAGEMENT AND HOMELAND SECURITY (EMHS) GRADUATE CERTIFICATE

Introduction
The Graduate Certificate in Emergency Management and Homeland Security (EMHS) provides advanced education in the management of emergencies, hazards, disasters, and homeland security. The EMHS program is designed to meet the needs of students who wish to work, or are currently working, in the field of emergency management and homeland security.

The EMHS program applies an interdisciplinary approach to education that:

- Emphasizes high-level skills of critical thinking, learning, adaptation and policy analysis
- Focuses on the all-hazards emergency management model (encompassing natural hazards, technological hazards, and terrorism).

Students completing the EMHS certificate program will have the knowledge and skills necessary to assess and manage a broad range of hazards and disasters, and to understand the policy environment in which emergency management occurs. Professionals who would like to supplement their work experience with classes in this area may also find the certificate helpful for their professional goals.

Prospective students who wish to pursue this certificate must apply as non-degree applicants. Learn more on the School of Public Affairs admission web page.

Program Delivery
- Courses are offered on campus, online, and in remote and hybrid formats.

Program Requirements
- Students must successfully complete 12 credit hours of approved coursework.
- Students must maintain at least a 3.00 cumulative GPA in this program.
- This program must be completed within 7 years.
