

CAMBRIDGE A-LEVELS

Incoming students may earn credit from the Cambridge A-Level examinations. Cambridge A-Levels are internationally benchmarked qualifications providing excellent preparation for university education. They are taken in over 125 countries and offer a wide variety of different subjects. Cambridge International A-Level qualifications are widely recognized and valued by universities and employers alike. CU Denver does not recognize AS-Levels currently. The acceptable A-Level examinations and credit awards are outlined in the chart linked below. Original, official A-Level score reports must be submitted to International Admissions for credit award consideration.

This chart represents academic credit for students admitted to the University of Colorado Denver beginning fall 2021. Students admitted prior to fall 2021 should consult the University Catalog corresponding to the year in which the exam was taken.

A-Level Exams

This chart represents academic credit that may be awarded to new freshmen or to new transfer students seeking initial academic credit through the A-Level examination program. To receive academic credit, students must present official A-Level scores sent directly to International Admissions.

Credit awarded and course equivalency information in this table applies only to degree programs, including bioengineering, at the University of Colorado Denver. Students seeking academic credit or a waiver of admission requirements for degree programs at the Anschutz Medical Campus need to contact the program directly.

Academic credit is limited to either A-Level credit or CU Denver course credit when students elect to register and successfully complete courses identified in this table as equivalent or content substitution.
