

INCLUSIVE LEADERS IN FINTECH & AI

Introduction

The FinTech & Women's Leadership in Business Innovation Microcredential combines the technical expertise of AI and machine learning in FinTech with the leadership and gender equity focus of Empowering Women in Business. This interdisciplinary program equips students with cutting-edge skills in financial technology while fostering inclusive leadership, emotional intelligence, and strategic career advancement. Through hands-on workshops, mentorship with industry leaders, and collaborative projects, participants will learn to leverage AI and ML to innovate in FinTech, address gender equity challenges, and build professional networks. Designed for aspiring leaders of all genders, this micro-credential prepares graduates to drive technological and cultural transformation in the business landscape, creating inclusive and equitable workplaces.
