

COLLEGE OF LIBERAL ARTS & SCIENCES

Leadership

DEAN

Pamela Jansma, Professor of Geography and Environmental Sciences

ASSOCIATE DEANS

Richard Allen, Associate Dean for Teaching, Learning and Curriculum;
Professor of Psychology

Laura Argys, Associate Dean for Research and Creative Activities;
Professor of Economics

Kathleen, Bollard, Associate Dean for Faculty and Staff Affairs; Professor
of Spanish

Marjorie Levine-Clark, Associate Dean for Diversity, Outreach and
Initiatives; Professor of History

Stephanie Santorico, Interim Associate Dean for Research and Creative
Activities; Professor of Economics

David P. Tracer, Associate Dean for Student Success; Professor of Health
& Behavioral Sciences

Undergraduate Student Academic Advice and Information

Undergraduate Advising Office

North Classroom, 1030

Phone: 303-315-7100

Email: CLAS_Advising@ucdenver.edu

Website: <https://clas.ucdenver.edu/advising/>

Students in the college are expected to assume responsibility for planning their academic programs in accordance with college policies and major requirements. To assist undergraduate students, the college maintains the CLAS Academic Advising Office. Students meet with a CLAS staff advisor upon matriculation into the college through one of the established orientations for first-year freshmen or transfer students. Undergraduate students can find their assigned CLAS staff advisor in the "Advisor" box in their Student Center. The CLAS staff advisor advises undergraduate students about CU Denver and CLAS graduation requirements, and certifies that CU Denver core requirements and CLAS graduation requirements have been met.

As soon as students have determined a major, minor or certificate granting program they should meet with a faculty advisor as early in

their career as possible. The faculty advisor will be responsible for the student's major, minor or certificate advising and for certification of the completion of program requirements at graduation.

Students planning to ultimately earn a degree from one of the professional schools should also see an advisor in that school or college.

The mission of the College of Liberal Arts and Sciences is to foster academic excellence, to create and impart knowledge critical to a modern society and a global economy, and to ensure the acquisition of skills essential for professional careers and graduate study. Our vision is to enact a new paradigm for a liberal arts education that retains the proven values of a broad education while imparting career-oriented skills throughout the curriculum.

Today's university graduates need to be critical thinkers who are able to apply knowledge and skills from multiple disciplines to unscripted, real-world problems. A College of Liberal Arts and Sciences (CLAS) education involves mastery of essential learning outcomes, such as creative problem solving, oral and written communication, quantitative literacy, intercultural competence, and ethical reasoning, which provide students with the tools to become lifelong learners who are adaptive and innovative. While establishing a broad foundational education, CLAS gives students the opportunity to dig deeply into disciplinary and interdisciplinary majors, which train them in scholarly fields, traditions, and methods of analysis. This combination of breadth and depth prepares students for our twenty-first century world, which requires flexibility and mobility, as new jobs develop and careers change at an ever-faster pace. CLAS graduates enter a wide variety of occupations and pursue advanced degrees in academia and in professions like law and medicine.

The CLAS curriculum provides rigorous academic programs while offering a number of flexible learning opportunities, such as the Individually Structured Major, to meet our students' varied needs and objectives. The college draws on our downtown location and makes use of the city's many resources through student internships, experiential learning programs, and partnerships with Denver businesses and non-profit organizations. CLAS students have excellent opportunities to participate in first-class faculty research, and the college prides itself on its faculty-mentored undergraduate research programs and applied research in the community.

College of Liberal Arts and Sciences Educational Goals

A CU Denver liberal education combines world-class knowledge in specific disciplines with the comprehensive skills and dispositions that students need for success and that our society needs its citizens to possess. In a world where content knowledge rapidly becomes obsolete and where graduates may have a dozen different jobs, these skills and dispositions are crucial. Employers increasingly look for employees who can think critically, communicate clearly, and solve complex problems. A liberal education may be the most vocational education that today's student can earn. A liberal arts and sciences education truly is "learning with purpose."

The College of Liberal Arts and Sciences provides undergraduates at CU Denver with a broad and multilayered education consisting of:

1. **In-depth knowledge** of the major disciplines of the humanities, natural and physical sciences, and social and behavioral sciences that call the College of Liberal Arts and Sciences home.
 2. **Intellectual and practical skills**, including inquiry and analysis, critical thinking, creative thinking, written communication, oral communication, university-level reading, quantitative literacy, information literacy, teamwork, and complex problem solving—practiced at progressively more challenging levels.
 3. **Personal and social responsibility**, including civic knowledge and engagement (local and global), intercultural knowledge and competence, ethical reasoning and action, and foundation of skills for lifelong learning.
 4. **Integrative and applied learning**, synthesizing knowledge and skills from multiple disciplines and experiences to address complex, real-world problems in our diverse local, national and global communities.

College of Liberal Arts & Sciences Graduation Requirements

For additional information regarding CU Denver Graduation policies and procedures, please visit the Graduation section of the catalog.

For additional information regarding CLAS Undergraduate academic policies and procedures, please visit the CLAS Policies (p. 23) tab.

CLAS Graduation Requirements

Code	Title	Hours
	<i>All CLAS majors must fulfill the CU Denver General Education Core requirements, in addition to the following CLAS Graduation Requirements.</i>	15-26

A single course may fulfill up to two requirements in the following areas: CU Denver Core Curriculum, CLAS Graduation requirements, a major program, a minor program, or a certificate program, with the following exceptions:

The course cannot fulfill more than two requirement/elective areas in a student's degree.

The course cannot fulfill two CLAS Graduation requirements.

The course cannot fulfill CLAS Graduation requirements, if it is already fulfilling CU Denver Core Curriculum.

Major, minor and certificate programs may impose restrictions around double counting courses. Students should consult catalog entries for CLAS programs to learn about program specific restrictions.

Communicative Skills

Students must complete this requirement with a minimum grade of C- or higher. Students cannot complete the Communicative Skills requirement using pass/ fail grading:

Code	Title	Hours
	<i>Take one of the following</i>	3
COMM 2050	Business and Professional Speaking	
COMM 1001	Presentational Speaking	
ENGL 3001	Critical Writing	
ENGL 3084	Multimedia Composition	
ENGL 3154	Technical Writing	
ENGL 3170	Business Writing	
ENGL 4175	Writing in the Sciences	
ENGL 4190	Advanced Topics in Writing & Digital Studies	
HIST 2001	The Uses and Misuses of History	
PHIL 2441	Logic, Language and Scientific Reasoning	

Second Language Proficiency

Code	Title	Hours
	<i>Students must meet the CLAS Second Language Proficiency requirement.</i>	0-10

Students can fulfill second language proficiency through one of the following ways:

- Students must complete this requirement with a minimum grade of C- or higher. Students cannot complete the Second Language Proficiency requirement using pass/ fail grading.
- Completion of a second semester or higher college-level language course taught in the designated non-English language with a minimum grade of C- (1.7). American Sign Language is included.
- Satisfactory proficiency testing (i.e. CU Denver Modern Language Placement Testing, BYU FLATS (Foreign Language Achievement Testing Services), CLEP)
- Completion of a second-year/level II high school non-English language course or higher with a minimum grade of C- (1.7) in the second semester of the second-year or later. No college credit is earned for high school coursework.
- Completion of one year of AP non-English Language & Culture, AP non-English Literature & Culture, IB non-English Language B or IB Classical Language courses with a minimum of C- (1.7) or higher. No college credit is earned for AP or IB coursework, unless the student earns a sufficient score on the corresponding exam. Note: the one year of AP or IB courses must be in the same content area and non-English or Classical language.
- Student has temporary valid non-immigrant visa status, is from a non-English speaking country and meets the CU Denver English Language Proficiency requirements for admission.
- Students whose primary language is not English may provide official documentation and/or satisfactory proficiency testing results to demonstrate their primary language proficiency.

Students who are unsure should consult with their CLAS advisor to determine whether they have met the secondary language proficiency requirement, prior to completing coursework.

Humanities

Code	Title	Hours
<i>In addition to the CU Denver Core Curriculum requirement in Humanities, students must take a second CLAS course from the CU Denver Core Curriculum Course listing for the Humanities knowledge area or one of the following¹</i>		

¹ Courses with an ENGL, HIST, HEHM, HUMN, PHIL, or RLST subject code may apply. Students may not use any lower-division level (1000-2000) introductory English composition course to fulfill this requirement, i.e. ENGL 1010 Writing Workshop, ENGL 1020 Core Composition I, ENGL 2030 Core Composition II.

Chinese, French, German or Spanish culture, literature or film courses may be taught in English or in the associated language. Students may not use a language acquisition course to fulfill this requirement.

College of Liberal Arts & Sciences Policies

For additional information regarding policies and procedures, please visit the Records and Registration (<http://catalog.ucdenver.edu/cu-denver/undergraduate/records-registration/>) section and the Academic Policies and Procedures (<http://catalog.ucdenver.edu/cu-denver/undergraduate/academic-policies-procedures/>) section of the catalog.

For additional information regarding CLAS policies and procedures, please visit the CLAS Academic Policies website (<https://clas.ucdenver.edu/faculty-staff/content/academic-policies/>).

Academic Excellence

College Honors

A student who performs superlatively in course work in the college will be awarded a bachelor's degree accompanied by the statement "with distinction". To be eligible for graduation with distinction, a student must have either completed a minimum of 45 semester CU Denver hours in the student's junior and senior years with a CU cumulative GPA of at least 3.750, or have completed a minimum of 45 semester CU Denver hours in the student's overall CU Denver career with a CU Cumulative GPA of at least 3.750. A maximum of 6 out of the final 45 CU Denver semester hours may be completed with a grade of P (on P/F option).

Departmental Honors

Departments in the college offer programs through which students can qualify for Latin honors: cum laude, magna cum laude or summa cum laude. Determination of the level of honors is made by the department. Detailed information can be obtained from the individual departments.

Dean's List

Every semester, the College of Liberal Arts and Sciences publishes a Dean's List, honoring students who demonstrate high scholastic achievement. To be eligible for the Dean's List, students must earn a minimum 3.750 semester grade point average in all CU hours taken during the semester. In addition, students must complete, for letter grades, a minimum of 9 semester hours (6 summer) in structured CLAS courses, excluding independent study, cooperative education, and internships. Term GPAs are not rounded up; therefore, a 3.750 or higher is necessary in order to qualify for the Dean's List.

Students who qualify for the CLAS Dean's List will receive notification via email from the CLAS Advising Office approximately 4-6 weeks after the end of the semester.

At this time, it is uncertain if funding for the Dean's List Scholarship will be available for the 2020-2021 academic year. Should funding become available, eligible students will be notified via email after the Spring 2021 semester ends.

Outstanding Undergraduate

Every Commencement (Summer/Fall and Spring) the College of Liberal Arts and Sciences recognizes up to two graduating students (one BA and one BS) by awarding them "Outstanding Undergraduate." This award is merit based. Candidates will submit a written application, including letters of recommendation. Finalists will be interviewed by members of the Academic Standards Committee.

To be eligible, students must:

1. Apply for graduation on or before census date of the term they are graduating.
2. Have a 3.80 or higher cumulative CU GPA. Cumulative GPAs are not rounded up.
3. Have a total of 60 credits or more from CU Denver at the end of the semester that they are scheduled to graduate (Fall/Summer and Spring).

Requirements

The Major

The Bachelor of Arts and Bachelor of Science majors in CLAS require a minimum of 30 credit hours and no more than 56¹ credit hours of coursework in the major discipline (subject code). Interdisciplinary and individually structured (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/interdisciplinary-programs/>) majors may have exceptions. Minimum GPA and allowable grades: 2.0 minimum major GPA, with all courses earning C- or higher grades. More restrictive credit hour, minimum grade and minimum GPA requirements for CLAS majors may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

¹ Note: Courses applying to CU Denver Core Intellectual Competency requirements (English Composition I & II and Mathematics) are not included in this calculation.

The Minor

Minors require a minimum of 15 semester hours (may be interdisciplinary). A minimum of 6 upper division semester hours are required (may be interdisciplinary (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/interdisciplinary-programs/>)). Minors require a minimum of 9 semester hours in residence. Minimum GPA and allowable grades: 2.0 minimum minor GPA, with all courses earning C- or higher grades. More restrictive credit hour, minimum grade and minimum GPA requirements for CLAS minors may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

The Certificate

Undergraduate certificates require a minimum of 12 semester hours (may be interdisciplinary (<http://catalog.ucdenver.edu/cu-denver/>

[undergraduate/schools-colleges-departments/college-liberal-arts-sciences/clas-iinterdisciplinary-certificates/](http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/clas-iinterdisciplinary-certificates/))). A minimum of 6 upper division semester hours are required. Because a certificate is a CU certification of a student's specialized knowledge in an advanced subject matter, all courses in a certificate program are expected to be taken in residence at CU Denver. No transfer courses may be applied to CLAS certificate program requirements. Minimum GPA and allowable grades: 2.0 minimum certificate GPA, with all courses earning C- or higher grades. More restrictive credit hour, minimum grade and minimum GPA requirements for CLAS certificate may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

Upper-Division Requirements

A minimum of 45 credit hours of upper-division level (3000-level or higher) coursework must be completed. A minimum of 16 upper division semester hours are required in the major discipline. Interdisciplinary and individually structured (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/interdisciplinary-programs/>) majors may have exceptions to the 16 credit minimum in the major discipline. Additional upper division level credit requirements for CLAS majors, minors and certificates may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

College Minimum Grade

Undergraduate students enrolled in CLAS major, minor or certificate programs must earn a minimum grade of C- or higher in all courses that count toward their major, minor or certificate (required and elective courses). If the major/minor/certificate program wishes to require a higher grade for certain types of courses, like discipline specific capstone experiences/ senior seminars, etc., those courses need to be taken in residence from CLAS faculty/enrolled at CU Denver. If the CLAS major/minor/certificate program requires students to take ancillary courses (courses that are not taught by the major/minor/certificate program), the program may not impose higher minimum course grades for those ancillary courses. Major/minor/certificate faculty advisors reserve the right to make substitutions to in residence requirements when appropriate.

CLAS Residence Requirements

Undergraduate CLAS majors must earn a minimum of 30 credit hours with letter grades, in residence. In residence is defined as credit hours taken from the College of Liberal Arts and Sciences subject codes (<https://clas.ucdenver.edu/>), taught by CLAS faculty, while enrolled at CU Denver. Additional residence requirements for CLAS majors, minors and certificates may be enforced. Students should consult catalog entries for their CLAS program to learn about program specific requirements.

Internships

Undergraduate students may seek credit from an employment experience that contains academic content and is sponsored by a CLAS faculty member. Internships are helpful for career exploration early in a student's academic career or for job experience after developing academic content in the major.

Students must have a minimum 2.750 cumulative GPA in a minimum of 15 credit hours of CU Denver course work. A maximum of 12 credit hours of internship credit per semester and 12 credit hours overall can be applied toward the 120 credits required for graduation. There may also be limits on the number of credits permitted to take during a semester or total for a specific course ID. Undergraduate students should contact the

Experiential Learning Center for details about the internship contract and faculty sponsorship requirements.

Independent Study

Independent studies are faculty-mentored, individually structured courses or research or creative projects designed and scheduled outside of the standard course grid. Independent study allows for investigations beyond the structured curriculum and classroom and exploration of content material that closely relates to faculty and student interest. However, the College of Liberal Arts and Sciences does not guarantee that credit earned through an independent study will count toward graduation requirements or be accepted as transfer credits. A maximum of 12 semester hours of independent study coursework can apply toward the 120 semester hour graduation requirement. This includes Directed Research.

The CU Denver campus requires manual registration using a Special Processing Form for students participating in independent study. This form constitutes the course syllabus agreement between faculty and student. The Special Processing Form requires

1. project title,
2. short, detailed project description, including texts and practical application of skills, and
3. explicit performance or grading criteria.

The faculty should separately negotiate a schedule of meetings and deadlines with the student. The form is reviewed and approved by a CLAS Associate Dean/Assistant Dean prior to student registration.

The College faculty developed the following requirements relating to student and faculty participation in independent study. Faculty seeking to waive or modify any of the policies below should work with the appropriate CLAS Associate Dean/Assistant Dean.

Student Requirements

- Enrollment as a CLAS student or, if enrolled in another major/minor, school/college, or institution, signed authorization on the Special Processing Form by the advisor/chair/dean of the originating school/college or institution prior to review by the CLAS associate or assistant dean.
- Graduate student status for 5840 (or higher), junior or senior status for 4840, sophomore status for 2840.
- Minimum GPA of 2.5 for undergraduates and 3.0 for graduate students.
- Submission of the Special Processing Form prior to the third week of a regular semester. After the third week, a petition to add is required. Summer and intensive sessions will have different deadlines.

Faculty Requirements

- CLAS tenured, tenure-track, Clinical Teaching Track, Senior Instructor, or Instructor rank.
- CLAS graduate faculty status for faculty sponsoring graduate independent study.
- Direct, not indirect, supervision by the designated CLAS faculty member.
- For instructor-rank faculty, approval by the department chair, though all untenured faculty should limit the number of independent studies and are advised to consult with the chair before taking them on.

Project Requirements

- CLAS discipline or directly discipline related content, though may be interdisciplinary.
- Unique or individually executed project content for each student.
- Not available as, or part of, a structured course offered during the same term.
- 3 student participation hours per week for each credit hour requested. Note: 4:1 ratio in summer.

Physical Education

A maximum of 8 semester hours of Physical Education can apply toward the 120 semester hour graduation requirement.

Pass/Fail

Courses used to satisfy CLAS graduation requirements may be taken as pass/fail, except to fulfill the Communicative Skills, Second Language Proficiency, major, minor or certificate requirements. Students may select the pass/fail grading option for most courses. In addition to CU Denver policies covering the pass/fail grading option (see the Registration and Records chapter of this catalog). CLAS students must adhere to the following college pass/fail grading policies:

1. Courses used to complete a student's major, minor and certificate may not be taken on a pass/fail basis.
2. Courses required to demonstrate proficiency may not be taken on a pass/fail basis: ENGL (core curriculum), MATH (core curriculum) and first two semesters of second language.
3. Courses used to satisfy the intellectual competencies section of the CU Denver core curriculum may not be taken on a pass/fail basis.
4. Courses in the knowledge area section of the CU Denver core curriculum may be taken on a pass/fail basis.

CLAS requires a minimum of 30 credit hours of courses with letter grades. No more than 6 hours pass/fail any semester. A maximum of 16 credit hours may be taken pass/fail and counted toward and undergraduate degree.

Second Bachelor's Degree

Students who have earned a bachelor's degree from the University of Colorado Denver or other regionally accredited institutions may earn an additional bachelor's degree through the College of Liberal Arts and Sciences provided that:

1. the major for the additional bachelor's degree is distinctly different from the major(s) of the previous degree(s);
2. all university graduation requirements are met;
3. all College of Liberal Arts and Sciences graduation requirements are met; and
4. all major requirements are met.

Note: Students who earned a previous bachelor's degree at the University of Colorado and plan on returning to earn an additional bachelor's degree must reapply for admission to the university. This rule applies to second bachelor's degrees only. Students pursuing double majors must complete requirements for both majors at the time of graduation, in order to earn a double major.

Explanation of Course Numbers

The course numbering system used at CU Denver identifies the class standing required for enrollment. Students are expected to take 1000-level courses in their freshman year, 2000-level courses in their sophomore year, 3000-level courses in their junior year and 4000-level courses in their senior year. Courses at the 5000 and 6000 level are restricted to master's-level business students, and courses at the 7000 level are restricted to PhD students.

Transfer Credit Information

College Level Examination Program (CLEP)

The use of CLEP subject examinations toward major, minor or certificate requirements is subject to evaluation by the faculty advisor in the department or program, when an exact equivalency has not been determined, and is treated in a similar way as IB, AP or transfer credit. To receive academic credit from CLEP, students must present official test results to the Denver Campus Office of Admissions. A maximum of 30 hours of CLEP credit can apply toward the 120 semester hour graduation requirement.

Guidelines for Transfer Evaluation and Application

- Courses must be exact equivalencies for Communicative Skills, otherwise they may apply to the other categories identified.
 - o Always seek evaluation of a transfer course for direct equivalency.
 - o Courses transferring from ENGL or COMM subject codes will be reviewed for application to the CLAS Communicative Skills requirement. ENGL courses must be 3000 or above. COMM course may apply if taken at the 1000, 2000, 3000 or 4000 level. The review will include determining if the course covers "writing", "rhetoric", "composition" or "speaking" and subject code for authorization. All other subject codes or ENGL courses at the 1000 or 2000 level must seek a petition to the Associate Dean for exceptions.
 - o Anything that does not meet the above criteria must seek a petition to the Associate Dean for exceptions. Petitions must include a full syllabus of the course.
- CLAS Humanities, excludes lower division level ENGL transfer courses that mention the following topics in the title: writing (unless course description details that the course is in criticism or theory), composition, rhetoric, theory (unless literary theory), research (unless related to literature or literary studies), editing, linguistics, grammar, rhetoric (unless course description details that the course is in criticism or theory), workshop. CU Denver English faculty will review and evaluate syllabi when necessary. The area also excludes language acquisition courses
- For other CLAS graduation requirement areas, transfer courses must come from one of the identified subject codes for each area. For any outliers, the course must be taken from a College of (Liberal) Arts and Sciences and must be reviewed by a CLAS Associate Dean.
 - o Always seek evaluation of a transfer course for direct equivalency.
 - o Transfer courses without a direct equivalency to a CU Denver course must be similar in scope and content to other courses approved to apply in each of the CLAS graduation requirement areas. Anything that does not meet the above criteria, but does come from a College of (Liberal) Arts and Sciences must

seek a petition to the Associate Dean for exceptions. Petitions must include a full syllabus of the course. We advise reviewing the Minimum Transfer Standards and Transfer Credit Level Determination policies (<http://catalog.ucdenver.edu/cu-denver/undergraduate/records-registration/transfer-credit/minimum-transfer-standards/>).

Administrative Policies

Incomplete Grade

When a student has special circumstances that make it impossible to complete course assignments, faculty members may choose to award an incomplete grade. All incomplete courses are assigned a grade of Incomplete ("I"). Incomplete grades are *not* awarded for poor academic performance or as a way of extending assignment deadlines. A CLAS course completion agreement form (https://clas.ucdenver.edu/faculty-staff/sites/default/files/attached-files/incomplete_policy_and_form_rev_12.20.pdf) documenting assignments to be completed as well as the agreed upon due dates is required when faculty and student agree on an incomplete grade. Both parties should keep copies of this agreement and a copy should be retained in the department office or with a designated party such as the department's Director of Undergraduate Studies. **Faculty are not required to award an Incomplete.**

To be eligible for an incomplete grade, students must:

- Have participated in the class for a significant proportion of the term
- Have successfully completed a significant proportion of the course assignments
- Have special circumstances (verification may be required) that preclude the student from attending class and/or completing graded assignments
- Make arrangements to complete missing assignments with the original instructor by a mutually agreed upon date but within one calendar year. These, as well as assignments and grades completed up to the point that the incomplete is awarded, should be documented on the course completion agreement.

After the agreed upon date or maximum of a calendar year, the "I" reverts to an "F" grade on the student's transcript if the instructor fails to submit a change of record request to report the earned grade. Any request to allow a grade change after the one-year period must be petitioned to the CLAS Academic Standards Committee.

In order to be on the graduation lists, a student must resolve all incomplete grades before the last day of classes in the semester in which they intend to graduate.

Students should not re-enroll in a course in which they have an incomplete. Re-enrollment in a course in which a student has an "I" could result in a loss of tuition and an "F" grade on the student's transcript for the original course. A student with an "I" does not need to be enrolled in any course or earning any credits to complete the incomplete work. Completing an "I" does not require any additional tuition payment.

Course Repeat Policy

Students may re-register for any course. Both (all) courses remain on the transcript and both (all) grades are used to calculate the student's GPA. Course credit toward graduation is counted only once for a typical course no matter how many times the course is repeated. Some types of courses (e.g. Directed Research, Internships, Independent Studies, Special Topics, etc.) may be repeatable for applicable credit within a certain

range of total credit hours. Special Topics courses may be repeatable for applicable credit within a certain range of total credits hours, as long as each topic is unique and different. See course descriptions for the maximum semester hours applicable from each course.

Administrative Add Policy

The College of Liberal Arts and Sciences may provide permission to a student or may add a student to a class with student and instructor permission through Census, provided the room has capacity for that student and all prerequisites have been met, or explicit exception to a prerequisite has been granted and no other circumstances are preventing the student from being eligible, i.e. course overload, time conflict or holds that prevent normal addition of a class and require additional approvals. After Census, a student must petition and obtain permission from the appropriate assistant/associate dean for this to occur, according to deadlines posted in the academic calendar.

Administrative Switch Policy

The College of Liberal Arts and Sciences may grant an administrative switch from one section of a course to another section of the same course or from one course to another course, with the approval of the appropriate assistant/associate dean, waiving the \$100 drop fee, if a student has enrolled in a section of a course in error or can demonstrate circumstances beyond their control and can no longer attend the original section of the course.

Administrative Drop Policy

The College of Liberal Arts and Sciences reserves the right to administratively drop a student from a course if they have not met all system enforced prerequisites or met the attendance policies as stated in course syllabi, with the approval of the appropriate assistant/associate dean. The student will be notified that an administrative drop will occur prior to that action taking place. All administrative drops must occur prior to Census so that students do not receive a W on the transcript and are not held financially responsible for full tuition, though there may be fees incurred that students are financially responsible for paying. In the case of an administrative error, students may petition to drop a course through their CLAS advisor. If approved students will be dropped from the course, will not receive a W on the transcript and will receive a tuition refund.

Retroactive Drop/Withdrawal

In the event of circumstances that preclude a student from successfully completing a class, it is the student's responsibility to carry out drop procedures before the end of the semester. It is against normal college policy to allow a student to drop after the completion of the semester for which grades are already posted. Students who must stop attending one or more of the classes in which they are enrolled for a term, but who fail to properly drop, may be eligible for a retroactive drop or withdrawal. Courses must have occurred no more than seven years prior to the date of the retroactive drop/withdrawal petition to be eligible.

It is the responsibility of the student seeking a retroactive drop/withdrawal to submit a complete written petition. Detailed instructions can be obtained from the CLAS Academic Advising Office, or the Graduate School for graduate students.

Academic Integrity And Discipline Policies

CU Denver Campus Policy 7050, Academic Integrity (https://www.ucdenver.edu/faculty_staff/employees/policies/Policies%20Library/7XXX%20Student%20Affairs/7050%20-%20Academic%20Integrity.pdf), defines academic misconduct and sets forth a uniform process for handling allegations of student academic misconduct at CU

Denver. As members of the CU Denver community, students are expected to know, understand, and comply with the standards of the University and to accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in completing all forms of academic work at the university. In particular, students must refrain from academic misconduct, defined in the policy as

1. a student's use of unauthorized assistance with intent to deceive an instructor or other person who is assigned to evaluate the student's work in meeting course and degree requirements, or
2. actions that interfere with the ability of the instructor to fairly judge the work of the student or other students.

Academic integrity standards assist in promoting an academically sound, fair, and respectful community. CU Denver views the Academic Integrity process set forth in this policy as a learning experience that can result in growth and personal understanding of one's responsibilities and privileges within both the CU Denver community and the greater community. All students must adhere to these standards. Students who allegedly violate these standards and commit academic misconduct will be subject to the procedures described in this policy. Academic dishonesty is academic in nature, and students are encouraged to contact their academic advisor for details of the campus policy and procedures centered on the academic integrity policy.

Forms of Academic Dishonesty (Refer to Campus Policy 7050 for more detailed definition)

Students are expected to know, understand and comply with the ethical standards of the university. Academic dishonesty is defined as a student's use of unauthorized assistance with intent to deceive an instructor or other such people who may be assigned to evaluate the student's work in meeting course and degree requirements. Examples of academic dishonesty include, but are not limited to the following:

1. *Plagiarism*
Plagiarism is the use of another person's distinctive ideas or words without acknowledgment. The incorporation of another person's work into one's own requires appropriate identification, regardless of the means of appropriation.
2. *Cheating*
Cheating involves the possession, communication or use of information, materials, notes, study aids or other devices not authorized by the instructor in an academic exercise or communication with another person during such an exercise for the purpose of obtaining or providing unauthorized information or materials.
3. *Fabrication and Falsification*
Fabrication involves inventing or counterfeiting information, i.e., creating results not obtained in a study or laboratory experiment. Falsification, on the other hand, involves the deliberate alteration or changing of results to suit one's needs in an experiment or other academic or creative exercises.
4. *Multiple Submissions*
This is the submission of academic work for which academic credit has already been earned, when such submission is made without instructor authorization.
5. *Misuse of Academic Materials*

The misuse of academic materials includes but is not limited to the following: stealing or destroying library or reference materials, computer programs, another student's notes or materials or illegitimate possession of examination materials, forgery, and falsification of university documents.

6. *Complicity in Academic Dishonesty*

Complicity involves knowingly allowing or contributing to another's academic misconduct.

As members of the CU Denver academic community, faculty and students accept the responsibility to maintain the highest standards of intellectual honesty and ethical conduct in all forms of academic work. While most violations center around cheating or plagiarism, the CU Denver Academic Honor Code is more comprehensive and includes the following categories: plagiarism, cheating, fabrication and falsification, multiple submission, misuse of academic materials and complicity in academic dishonesty.

The CLAS Academic Ethics Committee, composed of faculty, students and staff, is charged with establishing academic ethics policies and, when necessary, evaluating ethics charges against students. Faculty and students should be familiar with the Academic Honor Code for the Denver campus (see the Academic Policies chapter) and the CLAS Academic Ethics Policies, available from the CLAS Academic Advising Office, North Classroom, 1030 and online.

Faculty who charge student(s) with a violation of the Academic Honor Code may lower a student's grade without review. If the faculty decision concerning the alleged violation affects the student's assignment or course grade, a letter to the student is required with copies to the Department Chair and the CLAS Associate Dean for Student Affairs. Students charged with an ethics violation are required to continue to participate in the class and may appeal the faculty decision to the CLAS Academic Ethics Committee. Students charged with a violation of the Academic Honor Code are encouraged to meet with an advisor in the CLAS Academic Advising Office to review their rights and obtain assistance with procedures.

Petitioning for Exceptions to Standing Academic Policy

The CLAS Academic Standards Committee is responsible for the administration of the academic policies of the college as established by the faculty. This committee constitutes the bridge between the faculty in its legislative capacity and the students upon whom the legislation comes to bear. The committee is empowered to grant waivers of exemptions from and exceptions to the academic policies of the college. Students wishing to submit a petition to the committee should meet with an advisor in the CLAS Academic Advising Office first to discuss the petition. The Graduate Council reviews grievances related to procedural issues for graduate students that cannot be resolved at the college level.

Students in the College of Liberal Arts and Sciences may appeal a grade. Every attempt is made to resolve grade disputes at the department level. However, unresolved grade issues may be appealed to the CLAS Academic Standards Committee and initiated through the CLAS Academic Advising Office, North Classroom, 4002, 303-556-2555. Details of the grade appeal policies are available in the CLAS Academic Advising Office.

Proficiency Testing

Degree-seeking students may take examinations for credit. To qualify for an examination, the student must be formally working toward a

degree at CU Denver, have a GPA of at least 2.000 and be currently registered. Contact the registrar's office for instructions. A nonrefundable fee is charged. Students should contact their degree advising office to determine whether the credit will apply to their degree.

Students with sufficient experience and knowledge may receive credit for a specific course by taking a comprehensive examination given by the faculty.
