

URBAN STUDIES AND PLANNING MINOR

Introduction

Please click here (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/geography-environmental-sciences/>) to see Geography and Environmental Sciences Department information.

The urban studies and planning minor in the Department of Geography and Environmental Sciences provides non-geography undergraduate students with an opportunity to pursue studies in the professional field of planning.

Geography and urban and regional planning share a common concern for the spatial configuration of the places we inhabit and enjoy. In recognition of this close association, the Department of Geography and Environmental Sciences and the College of Architecture and Planning provide students with a mechanism for completing the Master of Urban and Regional Planning (MURP) degree program at an accelerated pace. Students completing the requirements for an undergraduate planning minor may also be eligible to pursue an accelerated MURP degree. If interested in this option, the student should work closely with the minor advisor in selecting coursework. Geography majors may choose an urban studies and planning option and are not eligible for the minor. (Please see the Undergraduate Catalog for more information on this graduate program).

These program requirements are subject to periodic revision by the academic department. The College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. The College strongly urges students to consult regularly with their major, minor, and CLAS advisors on their academic plans.

Program Delivery

- This is an on-campus program.

Declaring This Minor
