STRUCTURED MAJOR

Introduction

The College of Liberal Arts and Sciences Interdisciplinary Studies Major (ISM) provides students with the opportunity to construct an individualized major that meets their unique needs and interests, and which results in a B.A. This flexible program allows students to follow academic pursuits that transcend traditional department or college boundaries, combining coursework from two, three, or even more academic units to explore a particular theme. An ISM tends to be more focused than traditional majors and should not be considered a default major for students uncertain about their course of study.

These degree requirements are subject to periodic revision by the academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their academic department, and the College reserves the right to make exceptions and substitutions as judged necessary in individual cases.

The ISM proposal must include:
• A list of the courses in your chosen disciplines and the optional “grab bag” of courses that you intend to apply to your ISM, as well as potential alternate courses. You should work closely with the Associate Dean for Diversity, Outreach and Initiatives and faculty advisors in your chosen disciplines to create your course contract.
• Signatures from your chosen Primary Faculty Advisor from one of your main disciplines and signatures from Faculty Advisors from your other main disciplines. You do not need a faculty advisor for grab bag courses.
• Signature from your Academic Advisor.
• Signature from the Associate Dean for Diversity, Outreach and Initiatives.

General Requirements

Program Requirements
The ISM program plan requires course work over two or three disciplines. A discipline is defined as a single department or program such as biology, ethnic studies or math. The ISM program plan must comply with the following policies:

1. Students must complete a minimum of 42 credits from approved coursework.
2. Students must complete a minimum of 18 upper division (3000 level and above) credit hours with a minimum of 9 upper division level credit hours in Disciplines I and II.
3. Students must earn a minimum grade of C- (1.7) in all major courses taken at CU Denver and must achieve a minimum cumulative major GPA of 2.0. All graded attempts in required and elective courses are calculated in major GPA. Students cannot complete major or ancillary course requirements as pass/fail.
4. A minimum of 9 credits in Disciplines I and II, in addition to ISMA 3100 Learning Across Disciplines and ISMA 4900 Interdisciplinary Studies Capstone (24 credit hours) must be completed with CU Denver faculty.

Program Restrictions, Allowances and Recommendations
1. Once the ISM course contract is filed, any changes to coursework must be approved by the student’s Primary Faculty Advisor and
resubmitted to the Associate Dean for Diversity, Outreach and Initiatives and to the student’s CLAS Academic Advisor.

2. A minimum of 30 credit hours must be completed in liberal arts and sciences course work.

3. A maximum of one discipline (15 credits) may be outside CLAS.

4. A third optional discipline may be a mixture of course work, excluding courses from the first and second disciplines.

5. An ISM title must be consistent with the academic theme and disciplines in the program plan.

6. Students may petition the Associate Dean for Diversity, Outreach and Initiatives to fulfill their introduction and capstone outside of ISMA 3100 Learning Across Disciplines and ISMA 4900 Interdisciplinary Studies Capstone.
