

# ETHICS MINOR

## Introduction

Please click here (<http://catalog.ucdenver.edu/cu-denver/undergraduate/schools-colleges-departments/college-liberal-arts-sciences/philosophy/>) to see the Philosophy department information.

Ethical concerns have become a major theme both with respect to our community life and with respect to the professions. Often the demand for more ethics education is met with brief introductory courses or highly specific professional ethics seminars, yet ethics has become such a complex field that a genuine understanding of ethical choices and action requires a more thorough education in both general ethics and professional ethics. In response to the need for better ethics education, the Philosophy Department at the University of Colorado Denver offers a carefully planned program, including courses in the foundation and history of Ethical Theory, as well as in the application of such theories.

These program requirements are subject to periodic revision by the academic department, and the College of Liberal Arts and Sciences reserves the right to make exceptions and substitutions as judged necessary in individual cases. Therefore, the College strongly urges students to consult regularly with their major, minor and CLAS advisors to confirm the best plans of study before finalizing them.
